The actions of FDA affect all members of the public. The agency recognizes an obligation to respond to inquiries from members of the public and to assist them in learning about, or participating in, its decisionmaking processes. In particular, the agency wants to be responsive to inquiries about the conduct of, or manner of participating in, formal hearings before an administrative law judge. This notice addresses the manner in which FDA will respond to such inquiries. In a subsequent issue of the FEDERAL REGISTER, the agency will invite comments on a petition it has received to provide attorneys' fees and other assistance to certain participants in formal agency proceedings.

In recent months, FDA has conducted hearings on special dietary foods, tolerances for polychlorinated biphenyls (PCB's) in paper food-packaging material, the denial of approval of a new drug application, and the withdrawal of approval for the use of methadone. The agency expects to hold a hearing on the proposal to withdraw approval of diethylstilbestrol (DES) as a growth promotant in food-producing animals and has recently published a notice of hearing on the approvability of FD&C Red No. 2. There are pending before the agency requests for hearings on the proposed withdrawal of approvals for several human and animal drugs.

To assist persons who have questions regarding attendance at or participation in formal evidentiary hearings, the Commissioner of Food and Drugs is designating the Associate Commissioner for Compliance as the person in the agency who may be contacted.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 701(a), 52 Stat. 1055 (21 U.S.C. 371(a))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), Part 2 is amended in Subpart B by adding new § 2.49 to read as follows:

§ 2.49 Advice on public participation in formal evidentiary hearings.

(a) *Designated agency contact.* All inquiries from the public about scheduling, location, and general procedures should be addressed to the Associate Commissioner for Compliance. The staff of the Associate Commissioner for Compliance will attempt to respond promptly to all inquiries from members of the public, as well as to simple requests for information from participants in formal hearings. Such inquiries or requests should be addressed to the Office of the Associate Commissioner for Compliance (HFC-10), Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20852, or telephone (301) 443-3480.

(b) *Hearing schedule changes.* Requests by hearing participants for changes in the schedule of a hearing or in the dates for filing documents, briefs, or other pleadings related to the hearing should be made in writing directly to the Administrative Law Judge. All such correspondence should be addressed to the Administrative Law Judge (HF-3), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852.

(c) *Legal advice to individuals.* The Food and Drug Administration does not have the resources to provide individual legal advice to members of the public concerning participation in such proceedings. Furthermore, to do so would compromise the independence of the Commissioner's office and invite charges of improper interference in the hearing process. Accordingly, the Associate Commissioner for Compliance will decline to entertain inquiries about the strengths or weaknesses of any party's position at a hearing, litigation strategy, or other similar matters.

(d) *Role of the Office of the Chief Counsel.* Under no circumstances will the Office of the Chief Counsel, Food and Drug Administration, directly provide advice on the subject of any formal hearing to any person who is participating or may participate in the hearing. In every such hearing, certain attorneys in the office are designated to represent the bureau or bureaus whose action is the subject of the hearing. Other members of the office, including ordinarily the Chief Counsel, are designated to advise the Commissioner on any final decision in the matter. It is not compatible with these functions, nor would it be professionally responsible, for the attorneys in the Office of the Chief Counsel also to advise other participants in a hearing, or for any attorney who may be called on to advise the Commissioner to respond to inquiries from other participants in the hearing, for such participants may be urging views contrary to those of the bureau involved or to what may ultimately be the final conclusions of the Commissioner. Accordingly, members of the staff of the Office of the Chief Counsel, other than those attorneys responsible for representing the bureau or bureaus whose action is the subject of the hearing, will decline to respond to inquiries from any participant or potential participant relating to the content or conduct of any formal hearing.

(e) *Communication between participants and attorneys.* Participants in a hearing may communicate with the attorneys who are responsible for representing the bureau or bureaus whose action is the subject of the hearing, in the same way that they may communicate with counsel for any other party in interest about the presentation of matters at the hearing. It would be inappropriate to bar discussion of such matters as stipulations of fact, joint presentation of witnesses, or possible settlement of hearing issues. Members of the public, including participants at hearings, are advised, however, that all such communications, including those by telephone, will be recorded in memoranda that can be filed with the Hearing Clerk, Food and Drug Administration.

Effective date: This regulation shall be effective August 5, 1976.

(Sec. 701(a), 52 Stat. 1055 (21 U.S.C. 371(a)).)

Dated: July 30, 1976.

JOSEPH P. HILE,
Acting Associate Commissioner for Compliance.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-2246]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Suspension of Community Eligibility

The purpose of this notice is to list communities wherein the sale of flood insurance as authorized under the National Flood Insurance Program (42 U.S.C. 4001-4128) will be suspended because of noncompliance with the program regulations (24 CFR Part 1909 et seq.).

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in a flood plain

area having special hazards within any community identified by the Secretary of Housing and Urban Development.

The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program and insurance is purchased. Accordingly, for communities listed under this Part such restriction exists as of the effective date of suspension because insurance, which is required, cannot be purchased.

Section 1315 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4022) prohibits flood insurance coverage unless an appropriate public body shall have adopted adequate flood plain management measures with effective enforcement measures. The communities suspended in this notice no longer meet that statutory requirement. Accordingly, the communities are suspended on the effective date in the list below:

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The date that appears in the fourth column of the table is provided in order to designate the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 List of eligible communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	Community No.
•	•	•	•	•	•
Pennsylvania	Bedford	Union, township of	Apr. 29, 1975, emergency; Jan. 3, 1975 Sept. 11, 1976, suspension.		421352

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968); effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended, (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, (34 FR 2680, Feb. 27, 1969) as amended 39 FR 2787, Jan. 24, 1974)

Issued: July 29, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. 2243]

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Determination of Minimal Special Flood Hazard Areas

The Federal Insurance Administrator, after consultation with local officials of the communities listed below, has determined, based upon analysis of existing conditions in the special flood hazard areas, that it is appropriate at this time to convert these communities to the Regular Program of the National Flood Insurance Program, without determining base flood elevations.

Community	*County and State*
City of Haleyville	Winston, Ala.

Title 29—Labor

CHAPTER XXVI—PENSION BENEFIT GUARANTY CORPORATION

PART 2602—PAYMENT OF PREMIUMS

On June 9, 1976, the Pension Benefit Guaranty Corporation (the "PBGC") published in the FEDERAL REGISTER (41 FR 23212) notice of a proposal to revise the PBGC's regulation on the payment of premiums (Part 2602, Chapter XXVI, Title 29, Code of Federal Regulations), as well as the premium payment and annual report form prescribed thereunder (Form PBGC–1).

Interested persons were given the opportunity to participate in this proposed rulemaking by submitting written comments. As discussed more fully below, the comments on the proposed revisions generally endorsed the PBGC's proposals and the revised regulation and form have been adopted substantially as proposed.[1]

The comments strongly endorsed the PBGC's proposal to base the premium rate on the number of participants on the last day of a plan's preceding plan year rather than "at any time during the plan year." As one comment letter explained, the PBGC, by utilizing the "snapshot" approach to counting participants, "has significantly simplified the annual premium computation and reporting process."

Some comments, although supporting the PBGC's intent, expressed concern with respect to the proposed revision of the regulation's definition of "participant" no longer to include therein, for plan years beginning on or after September 2, 1975, any retiree or former employee for whom a fully paid-up immediate or deferred annuity has been purchased "if such individual retains a legal claim against the plan for benefits or if the plan retains a participating interest in the annuity policy." This element of the definition of "participant" had been contained in previous versions of the premium regulation, and is being retained in the regulation *only* with respect to plan years beginning before September 2, 1975.

Some comments also asked what the PBGC intended by the term "fully guaranteed" in the new definition with respect to an annuity. This term has been changed to "irrevocable commitment" to make clear the PBGC's intention to describe an irrevocable insurance company commitment to pay the benefits provided for under the plan.

Thus, the new rule for counting a former employee with vested rights to benefits or a retired person is that such individuals are not to be counted unless: he or she is receiving or is eligible to receive benefits from the plan, an insurance company has not made an irrevocable commitment to pay the benefits to which he or she is entitled under the plan or he or she is defined as a "participant" under the terms of the plan. Benefits otherwise subject to an irrevocable commitment by an insurance company to pay the benefits to which an individual is entitled under a plan, but which can be adjusted in circumstances where recipients are not entitled to them because of fraud or mistake, still are considered subject to an irrevocable commitment for premium payment purposes.

Some comments asked the PBGC to further clarify the status, for premium payment purposes, of an individual who has incurred a break-in-service under the terms of a plan. Inasmuch as some plans, especially negotiated plans, have break-in-service rules more liberal than the one year standard contained in the Act, the definition of participant has been modified to provide that a non-vested former employee is not to be counted as a participant if, on the last day of the plan year, such individual has incurred a break-in-service of the greater of one year or the break-in-service period specified in the plan. Thus, a non-vested former employee with a break in service, although he may have past service restored under the "rule of parity" if he later returns to work, is not to be counted as a participant only if on the last day of the plan year such individual has had a break in service of the greater of one year or the break-in-service period specified in the plan.

One comment indicated that in certain circumstances, the same individual could be counted twice for premium payment purposes when, for example, that individual transfers from one plan to another plan maintained by the same employer or by another employer in the same controlled group, and retains credited service in the first plan while accruing benefits in the second plan. The PBGC agrees with this observation; therefore, an individual who has credited service in more than one plan maintained by the same employer or by a controlled group of employers need be counted for premium purposes only by the plan or plans in which such individual currently is accruing benefits.

Finally, it should be noted that subject to the above paragraph, any individual defined as a participant under the terms of a plan must be counted for premium purposes irrespective of whether that person fits within any of the specific elements of the definition of participant.

In consideration of the foregoing, Part 2602, Chapter XXVI, Title 29, Code of Federal Regulations, is hereby revised, as set forth below, effective August 5, 1976.

[1] Form PBGC–1 and Instructions have been filed as part of the original document. Copies of the Form and Instructions, and additional copies of this regulation, may be obtained at the PBGC's Office of Communications, Suite 7100, 2020 K Street, NW., Washington, D.C., between the hours of 9:00 a.m. and 4:00 p.m.

AUTHORITY: Secs. 4002, 4006, 4007; 88 Stat. 1004, 1010, 1013; 29 U.S.C. 1302, 1306, 1307.

§ 2602.1 Purpose and scope.

(a) The purpose of this part is to impose the premiums applicable to plan years in progress on and beginning on or after September 2, 1974.

(b) This part applies to all covered plans, as provided by § 4021 of the Act.

§ 2602.2 Definitions.

As used in this part:

"Act" means the Employee Retirement Income Security Act of 1974.

"Multiemployer Plan" means a plan defined in § 4001(a)(3) of the Act.

"Participant" means: (a) an individual currently accruing benefits or retaining or earning credited service under the terms of the plan (but does not include a non-vested former employee who has incurred a break-in-service of the greater of one year or the break-in-service period specified in the plan); (b) a former employee with vested rights to immediate or deferred benefits or a retiree who is receiving or is eligible to receive benefits from the plan (but does not include such a former employee or retiree to whom an insurance company has made an irrevocable commitment to pay the benefits to which the individual is entitled under the plan); (c) a deceased participant whose survivors are receiving or are eligible to receive benefits from the plan; (d) any other individual who is defined as a participant under the terms of the plan; and, (e) for plan years beginning before September 2, 1975, a retiree or former employee for whom a fully paid-up immediate or deferred annuity has been purchased if such individual retains a legal claim against the plan for benefits or if the plan retains a participating interest in the annuity policy.

"PBGC" means the Pension Benefit Guaranty Corporation.

"Plan Year" means the calendar, policy or fiscal year on which the records of the plan are kept.

§ 2602.3 Filing requirement.

(a) No later than October 2, 1974, the plan administrator of each covered plan shall file in accordance with the instructions contained therein the premium declaration form prescribed by this part and any estimated premium payments due for any plan year beginning before and in progress on September 2, 1974.

(b) No later than 30 days after the beginning of any plan year beginning on or after September 2, 1974, the plan administrator of each covered plan shall

file in accordance with the instructions contained therein the premium declaration form prescribed by this part and any premium payments due for such plan year.

(c) No later than 2 years and 30 days after the beginning of any plan year beginning before September 2, 1976, the plan administrator of each covered plan shall file in accordance with the instructions contained therein the premium declaration form prescribed by this part to enable the PBGC to reconcile premium payments paid, with the actual premium payment due, for such plan year.

(d) No later than the last date prescribed for the payment of premiums for any plan year beginning on or after September 2, 1977, the plan administrator of each covered therein the premium declaration form prescribed by this part to enable the PBGC to reconcile the premium payments paid, with the actual premium payment due, for any plan year beginning on or after September 2, 1976.

(e) The date prescribed for payment of premiums for plans not previously covered by § 4021 of the Act is 30 days after the later of the date of the plan's adoption or the date of the plan's effectiveness with respect to the accrual of future benefits.

(f) Any premium declaration not filed in accordance with this part, not filed in accordance with the instructions contained in the form, not accompanied by the required premium payment or otherwise incomplete, may, in the discretion of the PBGC, be returned in whole or in part to the plan administrator and treated as not having been filed.

§ 2602.4 Coverage for guaranteed basic benefits.

(a) The failure by a plan administrator to pay the premiums due under this part will not result in that plan's loss of coverage for basic benefits guaranteed under § 4022(a) of the Act.

(b) The payment of the premiums imposed by this part will not result in coverage for basic benefits guaranteed under § 4022(a) of the Act for plans not covered under § 4021 of the Act.

§ 2602.5 Premium rate.

(a) For plan years beginning before September 2, 1976, the premium rate for basic benefits guaranteed under § 4022(a) of the Act shall be as follows:

(1) Plans which are not multiemployer plans shall pay a premium of one dollar for each individual who is a participant in such plan at any time during the plan year;

(2) Multiemployer plans shall pay a premium of fifty cents for each individual who is a participant in such plan at any time during the plan year.

(b) For plan years beginning on or after September 2, 1976, the premium rate for basic benefits guaranteed under § 4022(a) of the Act shall be as follows:

(1) Plans which are not multiemployer plans shall pay a premium of one dollar for each individual who is a participant in such plan on the last day of the preceding plan year;

(2) Multiemployer plans shall pay a premium of fifty cents for each individual who is a participant in such plan on the last day of the preceding plan year.

(3) For plans not previously covered by § 4021 of the Act, the premium rate shall be one dollar for each participant or fifty cents for each participant, as is appropriate in accordance with paragraphs (1) and (2) of § 2602.5(b), in such plan on such plan's effective date.

§ 2602.6 Form.

The form prescribed by this part for the declaration, payment and reconciliation of premiums is Form PBGC–1 (Rev. August 1976).

§ 2602.7 Late payment interest charges.

(a) If any premium payment due under this part is not paid by the last date prescribed for payment in § 2602.3, an interest charge shall be imposed on the unpaid amount at the rate of 6 percent per annum through June 30, 1975, 9 percent per annum through January 31, 1976 and 7 percent per annum thereafter, for the period from the date payment is due to the date the payment is made.

(b) PBGC bills for interest assessed by § 2602.7 will be deemed paid when due if paid no later than 30 days after the date of such bills.

(c) PBGC bills for premium payments necessary to reconcile the premiums paid with the actual premium due, will be deemed paid when due if paid no later than 30 days after the date of such bills.

§ 2602.8 Late payment penalty charges.

If any premium payment due under this part is not paid by the last date prescribed for payment in § 2602.3, a late payment charge shall be assessed on the unpaid amount at the rate provided in the following tables.

LATE PAYMENT PENALTY CHARGES

Premium due date prior to October 2, 1975

Days late from due date:	*Late payment charge (percent)*
1 to 60	0
61 to 90	25
91 to 120	50
121 to 180	75
More than 180	100

Premium due date on or after October 2, 1975

Days late from due date:	*Late payment charge (percent)*
1 to 30	5
31 to 60	10
61 to 90	20
91 to 120	40
121 to 150	60
151 to 180	80
More than 180	100

§ 2602.9 Waivers.

The late payment penalty charges imposed by § 2602.8 will not be assessed in whole or in part:

(a) With respect to any premium payment made within 60 days after the last date prescribed for payment in § 2602.3 if, before such last date, the PBGC grants a waiver upon:

(1) a showing of substantial hardship arising from the timely payment of the premium and a showing that the premiums will be paid within such 60 day period; or,

(2) any other demonstration of good cause;

(b) if the PBGC, on its own motion, waives the application of § 2602.8, or

(c) with respect to any PBGC bills for the premium payments necessary to reconcile the premiums paid with the actual premium due, if such bills are paid no later than 30 days after the date of such bills.

§ 2602.10 Date of filing.

(a) Any form required to be filed under the provisions of this part and any payment required to be made under the provisions of this part shall be deemed to have been filed or made on the date on which it is mailed.

(b) A form or payment shall be presumed to have been mailed on the date on which it is postmarked by the United States Postal Service or three days prior to the date on which it is received by the PBGC if not postmarked by the United States Postal Service.

§ 2602.11 Computation of time.

In computing any period of time prescribed by this part, the first day shall not be included and the last day shall be included.

§ 2602.12 Mailing address.

The mailing address of the Pension Benefit Guaranty Corporation is P.O. Box 7119, Washington, D.C. 20044.

Issued in Washington, D.C. this 28th day of July 1976.

W. J. USERY, JR.,
Chairman, Board of Directors, Pension Benefit Guaranty Corporation.

Issued on the date set forth above, pursuant to a resolution of the Board of Directors approving these regulations and authorizing its Chairman to issue same.

HENRY ROSE,
Secretary.

[FR Doc.76-22678 Filed 8-4-76;8:45 am]

PART 2606—ANNUAL REPORT

On September 17, 1975, the Pension Benefit Guaranty Corporation (hereinafter the "PBGC") published in the FEDERAL REGISTER (40 FR 42877) a notice of final rulemaking in which it announced the adoption of a new Part 2606, Chapter XXVI, Title 29, Code of Federal Regulations. Part 2606 prescribed for use as the Annual Report required by § 4065 of the Employee Retirement Income Security Act of 1974 (hereinafter the "Act"), the same form prescribed for the payment of premiums.

On June 9, 1976, the PBGC published in the FEDERAL REGISTER (41 FR 23212) a notice of proposed rulemaking in which it proposed to revise the regulation relating to the payment of premiums (Part 2602, Chapter XXVI, Title 29, Code of Federal Regulations.) The PBGC proposed, inter alia, to modify the form used

V 41 152 AUG 5 76 UMI

both for the payment of premiums and for the Annual Report. Form PBGC–1 (Rev. August 1976) has been modified to provide for the reporting to the PBGC, for Annual Report purposes, of all of the "reportable events" listed in § 4043(b) of the Act, rather than the more limited number provided for in the existing Form PBGC–1. The amendment to Part 2606 adopted by the PBGC at this time also conforms the designation of the Form PBGC–1 prescribed by this regulation to that prescribed by the premium regulation.[1]

Because Form PBGC–1 (Rev. August 1976), which includes the Annual Report, already has been made available for public review and comment in connection with the PBGC's proposal to amend its premium payment regulation, the PBGC has determined that there is no need to provide additional opportunity for comment with respect to the amendment of this regulation. Thus, the PBGC finds that good cause exists for making this regulation effective less than 30 days after publication.

In consideration of the foregoing, Part 2606, Chapter XXVI, Title 29, Code of Federal Regulations, is amended as set forth below, effective August 5, 1976.

Sec.
2606.1 Purpose and scope.
2606.2 Definitions.
2606.3 Filing requirement.
2606.4 Form.
2606.5 Mailing address.

AUTHORITY: Sec. 4002, 4065, 88 Stat. 1004, 1032, 29 U.S.C. 1302, 1365.

§ 2606.1 Purpose and scope.

(a) The purpose of this part is to specify the form and content of the Annual Report required by § 4065 of the Act.

(b) This part applies to all covered plans, as provided by § 4021 of the Act.

§ 2606.2 Definitions.

As used in this part:

"Act" means the Employee Retirement Income Security Act of 1974.

"PBGC" means the Pension Benefit Guaranty Corporation.

"Plan Year" means the calendar, policy or fiscal year on which the records of the plan are kept.

§ 2606.3 Filing requirement.

No later than six months after the end of any plan year beginning on or after September 2, 1974, plan administrators shall file with the PBGC the Annual Report on the form prescribed by this part, in accordance with the instructions therein.

§ 2606.4 Form.

The form prescribed by this part is Form PBGC–1 (Rev. August 1976).

[1] Form PBGC–1 and Instructions have been filed as part of the original document. Copies of the Form and Instructions, and additional copies of this regulation, may be obtained at the PBGC's Office of Communications, Suite 7100, 2020 K Street, NW., Washington, D.C., between the hours of 9:00 a.m. and 4:00 p.m.

§ 2606.5 Mailing address.

The mailing address of the Pension Benefit Guaranty Corporation is P.O. Box 7119, Washington, D.C. 20044.

Issued in Washington, D.C. this 28th day of July 1976.

W. J. USERY, JR.,
Chairman, Board of Directors, Pension Benefit Guaranty Corporation.

Issued on the date set forth above, pursuant to a resolution of the Board of Directors approving these regulations and authorizing its Chairman to issue same.

HENRY ROSE,
Secretary.

PART 725—DISPOSITION OF CASES INVOLVING PHYSICAL DISABILITY

Miscellaneous Amendments; Correction

In FEDERAL REGISTER Document 76–20855, appearing at 41 FR 29813, July 20, 1976, the following changes should be made:

1. On page 29813, first paragraph, 8th line, the date "June 14, 1975" is corrected to "June 24, 1975."

2. On page 29813, second paragraph, the 10th line is corrected by deleting the word "Review."

Dated: July 27, 1976.

JOHN S. JENKINS,
Captain, JAGC, U.S. Navy, Assistant Judge Advocate General (Civil Law).

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 9–76–01]

PART 127—SECURITY ZONES

Establishment

Notice is hereby given that Lieutenant Commander K. A. LUCK, United States Coast Guard, Captain of the Port, Muskegon, Michigan, has issued the following order establishing a Security Zone on the Grand River at Grand Haven, Michigan:

This amendment to the Coast Guard's Security Regulations establishes the Grand River from the Grand Haven, Michigan Pierheads in Lake Michigan to the entrance to the South Channel as a Security Zone. This Security Zone is established to prevent interference with the safe navigation of the Norwegian Sail Training Ship CHRISTIAN RADICH.

This Amendment is issued without publication of the notice of proposed rulemaking and this amendment is effective in less than 30 days from the date of publication because good cause exists and public procedures on this amendment are impracticable due to the short period between notification of intent and actual arrival of the T/S CHRISTIAN RADICH (No.) in Grand Haven, MI.

In consideration of the foregoing, Part 127 of Title 33 of the Code of Federal Regulations is amended by adding § 127.-900 to read as follows:

§ 127.900 Grand River, Grand Haven, Michigan.

The waters of the Grand River from the Grand Haven, Michigan Pierheads in Lake Michigan to the entrance to the South Channel is a Security Zone.

(40 Stat. 220, as amended, (1, 63 Stat. 503,) 6(B), 80 Stat. 937; 50 U.S.C. 191, (14 U.S.C. 91,) 49 U.S.C. 1655(B); E.O. 10173, E.O. 10352, E.O. 11249; 3 CFR, 1949–1953 Comp. 356, 778, 873, 3 CFR 1964–1965 Comp. 349, 33 CFR Part 6, 49 CFR 1.46(B)).

Effective date: This amendment is effective from one half hour prior to the arrival of the T/S CHRISTIAN RADICH (No.) at the Grand Haven, Michigan Pierheads to the time the vessel is moored at Escanaba Park and from one half hour prior to the departure of the T/S CHRISTIAN RADICH (No.) from Escanaba Park, Grand Haven, Michigan to the time the vessel clears the Grand Haven Pierheads in Lake Michigan. The vessel is scheduled to arrive Grand Haven approximately 3:00 p.m. e.d.s.t., 5 August 1976 and depart 9:00 p.m. e.d.s.t. 5 August 1976.

Dated: July 29, 1976.

A. F. FUGARO,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

Title 39—Postal Service

CHAPTER III—POSTAL RATE COMMISSION

[Docket No. RM76–6; Order No. 132]

PART 3002—ORGANIZATION

Reorganization of Office of Planning and Operations

JULY 30, 1976.

The Postal Rate Commission has determined that an internal reorganization of the Office of Planning and Operations is necessary and desirable in order to conduct Commission business more expeditiously and efficiently. The amendment to our rules of organization (39 CFR Part 3002) provided herein will accomplish this modification.

The existing Office of the Special Assistant, Office of the Chief Economist, and Office of the Chief Accountant, currently under the direction of the Director of the Office of Planning and Operations, are hereby abolished. In their place, there are established the Rates and Classification Division, the Economics and Market Research Division, and the Finance and Reporting Systems Division of the Office of Planning and Operations. The Director of Planning and Operations will be responsible for supervising and coordinating the work of these three divisions, as well as formulating policy recommendations with respect to technical, but not legal, matters.

Since the amendment herein made involves matters of agency organization and procedure, the notice requirements of the Administrative Procedure Act do not apply. (5 U.S.C. § 553.) Accordingly, pursuant to § 3603 of the Postal Reorganization Act (39 U.S.C. § 3603), it is ordered that, effective July 30, 1976, Part 3002 of the Commission's Regulations (39 CFR Part 3002) is hereby amended to read as follows:

Section 3002.4 is revised to read as follows:

§ 3002.4 Office of the Director of Planning and Operations.

(a) *The Director of Planning and Operations.* The Director of Planning and Operations is responsible for the formulation of policy recommendations with respect to technical, but not legal, matters, and for coordinating and supervising the work of the Rates and Classification, Division, the Economics and Market Research Division, and the Finance and Reporting Systems Division. In accordance with § 3001.8 of the rules of practice in this chapter, personnel of the Office of the Director of Planning and Operations do not appear as witnesses in hearings in any proceeding before the Commission and take no part in the preparation of evidence or argument presented in such hearings.

(b) *Rates and Classification Division.* The Rates and Classification Division assists the Commission in determining rate changes to meet the revenue requirements of the Postal Service and in developing rate structures and a mail classification system which are consistent with the criteria of 39 U.S.C. § 3622 and 3623. In cooperation with other staff offices, the Division gathers data and conducts research and analysis to identify relevant criteria appropriate for use in establishing mail classifications and rates. In accordance with § 3001.8 of the rules of practice in this chapter, personnel of the Rates and Classification Division do not appear as witnesses in any proceeding before the Commission and take no part in the preparation of evidence or argument presented in such hearings, unless designated for duty with the Office of Technical Staff by formal action of the Commission.

(c) *Economics and Market Research Division.* The Economics and Market Research Division conducts economic, statistical, and marketing research and analysis with respect to the operations of the United States Postal Service and the requirements of those it serves. Areas of investigation pursued by this Division include such subjects as the supply and demand relationships which characterize the provision of postal services, the impact of external forces and developments (such as alternative delivery systems) upon postal operations and users of postal services, and the use of computer systems for accumulation and retrieval of information relating to postal revenue, costs, and rates. In accordance with § 3001.8 of the rules of practice in this chapter, personnel of the Economics and Market Research Division do not appear as witnesses in any proceeding before the Commission and take no part in the preparation of evidence or argument presented in such hearings, unless designated for duty with the Office of Technical Staff by formal action of the Commission.

(d) *Finance and Reporting Systems Division.* The Finance and Reporting Systems Division provides comprehensive financial analyses of and recommendations concerning revenue needs of the Postal Service, costing methods, and the attribution of costs to each class of mail and type of mail service. The Division also collects, analyzes, and periodically summarizes financial and statistical information obtained from Postal Service accounting and information systems, and studies the current status and possible future development of accounting and information systems and reporting formats used by the Postal Service. In accordance with § 3001.8 of the rules of practice in this chapter, personnel of the Finance and Reporting Systems Division do not appear as witnesses in any proceeding before the Commission and take no part in the preparation of evidence or argument presented in such hearings, unless designated for duty with the Office of Technical Staff by formal action of the Commission.

By the Commission.

JAMES R. LINDSAY,
Secretary.

Title 40—Protection of Environment

CHAPTER 1—ENVIRONMENTAL PROTECTION AGENCY

[FRL 592–6]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Approval of Revision to South Dakota State Implementation Plan

On May 31, 1972 (37 FR 10893), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved (with certain exceptions) South Dakota's plan for implementation of national ambient air quality standards.

On December 4, 1975, South Dakota submitted to EPA certain amendments to its air pollution control regulations. These revisions were submitted pursuant to the procedural requirements of 40 CFR 51.6 after appropriate notice and public hearings conducted in accordance with 40 CFR 51.4. Included in these amendments were changes in the State regulations governing control strategy, prevention of air pollution emergency episodes, and review of new sources and modifications.

Accordingly, the Regional Administrator submitted these amendments as proposed rulemaking in the April 21, 1976 FEDERAL REGISTER, 41 FR 16662. After that submittal, a correction of the original was published on May 14, 1976, 41 FR 19975. The proposed rulemaking provided for public inspection of the State's submittal and a 30-day comment period. No comments concerning these revisions were submitted.

After initial approval of the State's plan, but before their submittal on December 4, 1975, the State of South Dakota recodified all its regulations. The emission limitations themselves were not changed.

In this promulgation, the numbering sequence, which became effective in July 1974, is used. Pertinent rule chapters and descriptive titles are listed as follows:

Chapter No.:	*Chapter title*
34:10:01	General Requirements and Procedures.
34:10:02	Ambient Air Quality Standards and Pollution Episode Criteria.
34:10:03	Control of Visible Emissions.
34:10:04	Open Burning Regulations.
34:10:05	Sampling and Testing Methods.
34:10:06	Control of Particulate Emissions.
34:10:07	Control of Sulfur Compound Emissions.
34:10:12	New Source Standards.

The amendments to those portions of the South Dakota Plan concerning prevention of emergency episodes and new source reviews are principally clarifications of existing procedures. Similar amendments in the regulations were made in enforcement and variance processing procedures. The revised enforcement and variance procedures are merely further explanations of the procedures developed and discussed as part of the original plan submittal in May 1972. The revised emergency episode procedures satisfy the requirements of 40 CFR 51.16 as they relate to particulates and sulfur dioxide and the new source review regulations satisfy the requirements of 40 CFR 51.18 for direct sources. Since EPA's own indirect source regulation has been indefinitely suspended (40 FR 28064, July 3, 1975), South Dakota is under no obligation to regulate indirect sources under its Plan.

The revisions of the State's control strategy result from certain additional amendments to the regulations. New source standards for twelve source categories were adopted, ten of which are similar to EPA's Standards of Performance for New Stationary Sources (40 CFR Part 60). The ambient air standards for sulfur dioxide, carbon monoxide, photochemical oxidants and hydrocarbons were revised to correspond more closely with the national ambient air quality standards. Open burning regulations were clarified and source sampling procedures were updated. Particulate emission limitations were revised for incinerators, wood waste burners, and portable emission sources. Emission limitations for nitrogen oxide emissions from stationary sources were deleted from the

V 41 152 AUG 5 76 UMI

regulations, as were emission limitations for motor vehicles. Such changes in the regulations should not substantially alter or delay attainment or maintenance efforts now underway in any of the State's air quality control regions and are thus consistent with the requirements of 40 CFR 51.12, .13, and .14.

Since more than one interpretation of the sentence: "A rule in this chapter (Chapter 34:10:12, New Source Standards) shall supersede any rule in another chapter to the extent that such rules conflict.", in § 34:10:12:01, has surfaced, the Administrator wants to remove any doubt about the acceptable meaning of the sentence. It is the Administrator's intent that the sentence in question could not be used to override any other rule dealing with a new source seeking to locate in a given area. Such other rules include national ambient air quality standards, prevention of significant air quality deterioration, air quality maintenance requirements, etc.

Copies of EPA's evaluation statements and the materials submitted by the State in connection with these revisions may be examined by the public during normal office hours at the following locations:

Department of Environmental Protection, Joe Foss Building, Pierre, South Dakota 57501.
Environmental Protection Agency, Region VIII, Office of Public Affairs, 1860 Lincoln Street, Denver, Colorado 80203.
Public Information Reference Unit, Library Systems Branch, Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460.

As the State's submittal complies with the requirements of the Clean Air Act, section 110(a)(2)(A–H), and 40 CFR Part 51, the Administrator approves these revisions to the State's Implementation Plan pursuant to 40 CFR 51.8. This action is effective immediately, as the plan revisions are already in effect under State law and regulation and the Administrator's approval action imposes no additional burden on anyone.

This rulemaking is promulgated pursuant to the authority of section 110 of the Clean Air Act of 1970 as amended, 40 U.S.C. 1857c–5.

Dated: July 30, 1976.

JOHN QUARLES,
Acting Administrator.

In § 52.2170, paragraph (c)(4) is revised to read as follows:

§ 52.2170 Identification of plan.

• • • • • •

(c) • • •

(4) On December 4, 1975, the Governor of South Dakota submitted revisions and additions to the air pollution control regulations (Article 34:10 of the Administrative Rules of South Dakota). The submittal updated rules and regulations; review procedures for new and modified direct sources; variance and enforcement procedure revisions; episode procedure changes; and the addition of new source performance standards similar to those of EPA.

[FR Doc.76–22841 Filed 8–4–76;8:45 am]

Title 46—Shipping

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 76–004]

PART 91—INSPECTION AND CERTIFICATION

Emergency Carriage of Additional Persons

These amendments implement the provisions of Pub. L. 94–85, an amendment to paragraph 1 of section 26 of the Merchant Marine Act of 1920 (46 USC 882). Pub. L. 94–85 provides that documented vessels not engaged in international voyages may carry in excess of 16 persons in addition to the crew when the Secretary of the Department in which the Cost Guard is operating finds that an emergency situation so requires, and subject to such regulations as he may prescribe.

The standards in § 91.01–25(b) (1), (2), and (3) are substantive and are the minimum requirements for safety purposes. They are so basic that further simplification is impossible and since the statute and implementing regulations apply only to emergency situations, it would not be reasonable to expand and complicate the substantive standard, in response to any public comment. Therefore, under 5 USC 553(b)(3)(B), the Coast Guard finds that notice and public procedure thereon are impracticable, unnecessary, and contrary to the public interest.

Since these amendments do not create any additional burdens on any vessel owner or operator and relieve a restriction, it is appropriate to make them effective immediately. These rules are effective on August 5, 1976.

Accordingly, Part 91 of Title 46 of the Code of Federal Regulations is amended by the addition of § 91.01–25 to read as follows:

§ 91.01–25 Emergency carriage of more than 16 persons in addition to the crew on vessels not engaged in international voyages.

(a) When a District Commander finds that an emergency situation exists, he authorizes the local Officer in Charge, Marine Inspection, to issue amendments to vessels' certificates of inspection authorizing the carriage of more than 16 persons in addition to the crew.

(b) Upon receipt of an application from a vessel's owner or operator, the local Officer in Charge, Marine Inspection, amends the vessel's certificate of inspection after—

(1) additional lifesaving and firefighting equipment found necessary by the OCMI has been provided;

(2) a stability evaluation has been performed; and

(3) any other conditions considered necessary by the OCMI have been satisfied.

(46 USC 882, 49 CFR 1.46)

Effective date: These amendments are effective on August 5, 1976.

Dated: August 2, 1976.

O. W. SILER,
Admiral, U.S. Coast Guard, Commandant.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

[Ex Parte No. 322]

PART 1109—REQUIREMENTS AND PROCEDURES RELATING TO RAILROAD REVITALIZATION AND REGULATORY REFORM ACT OF 1976

Expeditious Handling of Divisions of Revenue Cases

On April 19, 1976, a notice appeared in the FEDERAL REGISTER (41 CFR 16482) instituting a proceeding under the authority of section 201 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Pub. L. 94–210), the Interstate Commerce Act (49 U.S.C. 15 (6)(b)), and the Administrative Procedure Act (5 U.S.C. 553 and 559) for the purpose of adopting procedures to expedite the resolution of railroad divisions of revenue disputes.

Set forth in the notice were proposed requirements and procedures pertaining of divisions of revenue proceedings. All interested persons were invited to participate in this proceeding. Provisions were made for notifying the Interstate Commerce Commission of intent to participate. Additionally, a procedural schedule was established for submission for initial statements and replies.

Pleadings were received from the Commonwealth of Pennsylvania, the Southern Governors Conference and Southeastern Association of Regulatory Utility Commissioners, Farmland Industries, Inc., the National Industrial Traffic League and various railroad interests. Although the final regulations are based on the original version in form, scope, and goals, the statements and replies submitted by the participants were used extensively in developing the final regulations.

The prescribed procedures will provide adequate notice to carriers and the public of the minimum evidence required by the Interstate Commerce Commission to render a decision in furtherance of the public interest, enhance the probability of shortening the time necessary to handle divisions of revenue cases, and achieve greater uniformity and reliability of data submitted.

ORDER

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 29th day of July 1976.

It appearing, That the Commission, by notice and order served April 13, 1976, instituted this rulemaking proceeding under authority of section 201 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Pub. L. 94–210), the Interstate Commerce Act (49 U.S.C. 15 (6)(b)), and the Administrative Procedure Act (5 U.S.C. 553 and 559) to develop rules providing for the expeditious handling of divisions of revenue cases;

It further appearing, That by said notice of proposed rulemaking all interested parties were invited to make representations with regard to the proposed rules; and that notice to all interested parties was given through publication in the Federal Register of April 19, 1976;

It further appearing, That various parties submitted their views and suggestions regarding the proposed regulations, and the Commission has considered such representations and, on the date hereof, has made and filed its report setting forth its conclusions, findings, reasons therefor, and its decision that the regulations set forth in Appendix D thereof should be adopted, which report is hereby referred to and made a part hereof;

Wherefore, and for good cause:

It is ordered, That the Commission hereby adopts the regulations as set forth in said Appendix D.

It is further ordered, That part 1109 of Title 49 of the Code of Federal Regulations, be and it is hereby, amended by adding the regulations as set forth in said Appendix D;

It is further ordered, That this order shall become effective on August 15, 1976.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of this Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission.[1]

ROBERT L. OSWALD,
Secretary.

Part 1109, Title 49 of the Code of Federal Regulations is amended by addition of rules, standards and procedures for the conduct of proceedings for the adjustment of divisions of joint rate or fares as set forth below:

§ 1109.5 Expeditious handling of divisions of revenue cases.

(a) Prior to: (1) The filing of a notice of intent to file a complaint or (2) The filing of a formal complaint in a divisions case, it must be shown that the complainant or prospective complainant, during the 6-month period immediately prior to filing, willingly sought to negotiate the divisions arrangement in issue but failed, and as proof thereof such party must submit to the Commission a verified statement summarizing the negotiations.

Failure to submit such a verified statement may result in dismissal of a notice of intent to file a complaint or denial of a formal complaint. Any part of the 6-month period may be waived by the Commission on motion of the complainant or prospective complainant if it can be shown that other parties to a divisional dispute have failed to meet and conduct meaningful negotiations with the complainant or prospective complainant.

(b) The original of each notice of intent to file a formal complaint or amendment thereto must be accompanied by copies in sufficient number to enable the Commission to serve one upon each party, including when bankrupt lines are involved each receiver or trustee, and retain six copies in addition to the original. The Commission will serve notices of intent to file formal complaints and amended notices thereof in the same manner as provided for service of formal complaints under rule 34 of the Commission's general rules of practice.

(c) The notice of intent to file a complaint shall specify in general terms, subject to modification as the evidence is developed: (1) The traffic and joint rates concerning which an adjustment of divisions is sought; (2) The territorial scope of the traffic involved; (3) The railroads which partcipate in such joint rates; and (4) The present and proposed divisional bases.

(d) The party filing a notice of intent shall: (1) Indicate when the filing of a formal complaint is contemplated, (2) Exercise due diligence to meet such filing date, and (3) File a formal complaint within a reasonable period of time after the filing of a notice of intent. In no event shall the filing of a formal complaint be greater than 18 months after the filing of a notice of intent unless the Commission shall first order extension of time upon good cause shown.

(e) The party filing a notice of intent shall every 3 months, with copies to potential defendants, advise the Commission of the anticipated date for the filing of a formal complaint. Letter replies by potential defendants will be permitted. Repeated postponements of the anticipated date for filing a formal complaint may establish a lack of due diligence and in that event the Commission may enter an order dismissing the notice of intent to file a complaint.

(f) A party served with a notice of intent to file a formal complaint shall within 30 days of such notice advise the Commission in the manner set forth in paragraph (b) of this section of its intent to file a cross complaint. If a party served with a notice to file a formal complaint does not intend to file a cross complaint no action under this rule need be taken.

(g) Notice of intent to file cross complaints shall be subject to the same rules applicable to notice to file a formal complaint.

(h) Cross complaints shall be subject to the same rules applicable to formal complaints.

(i) Notice of intent to file a cross complaint shall be consolidated with a notice to file a complaint. The cross complaint must be filed within 30 days of the filing of the formal complaint. Failure to submit the cross complaint when due shall result in its dismissal and the affirmative relief sought may not be reinstituted until after the pending formal complaint is decided.

(j) Discovery should be utilized to assemble evidence of the type referred to in the Appendix hereto.

(1) A party filing a notice of intent to file a complaint shall be accorded the right of discovery applicable to orally heard cases. The same right of discovery shall be accorded the opposing party, provided that the opposing party has notified the Commission within 30 days of being served with the notice of intent to file a complaint that it intends to exercise its right of discovery.

(2) Parties to a formal complaint instituted after the notice of intent to file a complaint procedure has been followed, may upon petition and demonstration of good cause and order by the Commission exercise their rights of discovery.

(3) If a formal complaint is filed by a party that did not utilize the notice of intent to file procedures, the right of discovery shall only be granted to the opposing party. This right may be exercised by the opposing party within 6 months of the filing of the complaint.

(k) Joint traffic studies shall be conducted under the "notice of intent to file a complaint" procedure in those instances where the opposing party has either notified the Commission of its intent: (1) To file a cross complaint or (2) To exercise its right of discovery. A joint study of the traffic in issue shall commence 30 days after either of the above options has been elected and shall be completed within 6 months, unless otherwise ordered by the Commission.

(l) Cost studies shall be prepared individually by the parties, and shall be completed within 6 months after the preparation of the joint traffic study, unless otherwise ordered by the Commission. Absent a more reliable method, the cost studies should be developed in accordance with Rail Form A properly adjusted to reflect the characteristics of the traffic in issue in accordance with the guidelines suggested in the appendix hereto and properly updated to a current level. However, other methods of cost allocation may also be used to the extent that more accurate or reliable cost data results.

(m) Special studies shall be governed by the following procedure:

(1) Within 30 days of the commencement of the cost study set forth in paragraph (1) of this section, a party desiring to conduct a special study shall notify the party on the other side of the controversy, in writing with a copy to the Commission, of the purpose of the special study and the cost and time such special study will entail.

(2) If the party so notified is willing to conduct a similar special study or cooperate in the conducting of a joint special study, the parties may proceed with the special study after first advising the Commission of the additional time, if any, needed to complete the project.

[1] Commissioner Corber did not participate.

V 41 N 152 AUG 5 76 UMI

(3) If the party so notified is unwilling to conduct a similar special study, that party shall so inform the party on the other side of the controversy, in writing with a copy to the Commission, of the reason for not performing similar special studies.

(4) Either party or both parties, jointly may request the Commission to hold a prehearing conference to determine the need for the special study.

(n) Prehearing conferences may be scheduled to resolve the validity of discovery requests. Prehearing conferences may also be used to expedite the procedures and to determine the need for special studies. If it is determined that special studies should be conducted and a party fails to conduct such special study or studies, in the absence of valid evidence to the contrary, prima facie, status will be accorded the special study conducted by the other party in the ensuing formal complaint proceeding.

(o) Complainant must submit its case-in-chief at the time the formal complaint is filed and formally docketed. All underlying papers in support of a case-in-chief shall be made available to the other side, upon request.

(p) Defending carrier or carriers must within 30 days of service of the formal complaint file an answer. Extensions of time to file an answer will be granted by order of the Commission upon the filing of a petition which demonstrates good cause.

(q) If the formal complaint was preceded by a notice to file a complaint, then the case-in-rebuttal must be filed with the answer. All underlying papers in support of a case-in-rebuttal shall be made available to the other side, upon request.

(r) If the formal complaint was not preceded by a notice of intent to file a complaint, then defending carrier or carriers must submit their case-in-rebuttal within 6 months of the filing of the complaint.

(s) Unless otherwise ordered by the Commission, divisions cases will be handled under the modified procedure, and oral hearing, if any, will be held only for cross examination.

(t) Once the formal complaint and both case-in-chief and in rebuttal have been submitted, the parties may thereafter submit only reply evidence unless otherwise directed by order of the Commission. In any event, the complainant must go forward with its case in an expeditious manner or otherwise the Commission may dismiss the complainant for lack of prosecution. Dilatory tactics by either party will not be tolerated.

(u) The following procedural rules and evidentiary presumptions are established: (1) Matters involving elements of profit and income tax, passenger, commuter and LCL deficits shall no longer be treated as proper items of expense in developing fully allocated costs (see *Rules to Govern Assembling & Presenting Cost Evidence*, 337 I.C.C. 298 (1970)), but shall be treated solely under the issue of revenue need; (2) All passenger, commuter or freight subsidies should be disclosed in accordance with the guidelines contained in the appendix hereto; (3) The same divisional basis should apply uniformly on all "border point" traffic, which is defined as traffic originated or terminated at one point on the territorial border, interchanged at another border point, and then transported into the interior of either territory; and (4) Absent valid evidence to the contrary, the appropriate territorial or system average origin and destination terminal costs shall be deemed to be applicable to origin and destination terminal services.

APPENDIX—EX PARTE NO. 322

GUIDELINES FOR PREPARATION AND SUBMISSION OF RELEVANT DATA BY THE PARTIES

General

It is the intent of the Commission that the opposing parties will cost out traffic studies and file the results in summary form showing comparisons with the revenues on both an 'as settled basis' and an 'as proposed basis'. Set fforth below are guidelines for the preparation of traffic and cost studies. These guidelines should not be construed as imposing limitations as to additicnal data which may be required to develop a complete record in any particular proceeding; but should be utilized to the extent it is reasonably practicable to do so and as agreed upon by the parties, or as ordered by the Commission. The detailed traffic and cost information resulting from such studies need not be filed with the Commission, but must be made available in the offices of the Commission on request.

Traffic study

All railroads making a joint study shall develop their joint study of the issue traffic for the most current calendar year available or another appropriate period agreed upon by the parties as representative. The study shall include a probability sampling of the actual traffic handled during identical time periods for each study carrier or group of carriers.

The study carriers shall consist of all railroads which derive operating revenues from the issue traffic. The issue traffic consists of those shipments[1] on which the freight rates or charges will be affected by a change in the percentage used to divide and through revenue. From the traffic study, the total through revenue and the revenue as settled under the present basis of divisions, and as proposed should be developed and submitted into evidence. Any accessorial charges which are divided on a basis other than that used to determine the present division percentages shall be separated and shown as a separate item. The present method of dividing these accessorial charges also must be explained.

The railroads must take their sample of the issue traffic handled by the study carriers according to acceptable standards of probability sampling principles and practices and shall explain and evaluate the probability sample from the standpoint of purpose, sample design (including explanation of estimation procedure and disclosure of sampling errors for derived characteristics), quality control aspects involved in processing and tabulating data and statistical analyses performed on the sampled data. Although not adopted by the Commission, attention is called to a staff report, "Guidelines for the Presentation of the Results of Sample Studies," February 1, 1971, available from the Superintendent of Documents.

The traffic study shall develop the following characteristics, as appropriate:

(1) Commodity or commodities;
(2) Types of car and trailer;
(3) Weight of lading, billed or actual, as appropriate;
(4) Short line mileages to and from interchange points or territorial gateways;
(5) Types of traffic separated by directional flow by originating, intermediate or terminating line or such other basis as may be appropriate;
(6) Transit or non-transit;
(7) TOFC by plan number; and
(8) Accessorial services.

The traffic study shall include collection of divisions and other revenue data for each sample carload on a railroad by railroad basis. An individual railroad total and/or a territorial total, as applicable, shall be aggregated for each type of traffic referred to in (5) above.

The following additional information, as appropriate, shall be obtained for the sample traffic:

(1) Loaded route of movement mileages in average or way and through trains, separately for each involved carrier, including mileages over Class II and switching and terminal companies;
(2) Tare weight of cars and trailers;
(3) Number and identification of interchange, intertrain and intratrain switching points for each carrier involved in the through movements;
(4) Trailing weight of the trains;
(5) Number of locomotive units in trains;
(6) Identification of accessorial services;
(7) Loaded and empty car days at origin, destination and intermediate points and loaded and empty car days running service;
(8) Empty route of movement mileage in average or way and through trains;
(9) Identification of switching absorptions; and,
(10) Identification of platform and other special services where service is performed under the line-haul rate.

Cost study

Each Class I railroad or groups of Class I railroads, as appropriate which participates in the joint rates also should prepare a cost study. Rail Form A, Public Statement 1F1-73, entitled *Formula for use in Determining Rail Freight Service Costs*, published by the Commission's Bureau of Accounts, may be used to develop freight service unit costs. Also, Rail Form A, modified as necessary, may be used to develop service unit costs for each Class II line-haul railroad, the modifications maintaining the same basic separations of expenses between terminal and line-haul as set forth in Rail Form A. Costs of switching and terminal companies shall be excluded from Rail Form A service unit costs and the actual line-haul absorptions substituted therefor. If adjustments are made to the Rail Form A service unit costs, special studies used to support such adjustments shall be submitted so that the procedures employed in these studies may be readily evaluated. The cost studies should reflect the railroads expenses and statistics for the most recent calendar year, or for the latest available 12 months. The cost studies should be conducted for identical time periods by all of the parties. The final adjusted service costs shall then be applied to the traffic study service units on a railroad by railroad basis. Totals shall then by aggregated for each railroad and/or territory for each of the types of traffic, as appropriate, subject to the affected divisions.

The individual railroad's or groups of railroads' traffic service units as developed from the study of its traffic shall be used in the cost analyses by all railroads or groups of railroads in developing costs at the variable and fully allocated cost levels with the constant costs distributed on a uniform basis agreed upon by the parties.

Terminal costs for the sample traffic, shall reflect, as appropriate:

(1) Type of car;
(2) Actual or billed weight, appropriately explained;
(3) Route of movement mileage (loaded
(4) Car days at origin or destination plus allowances for empty time;
(5) Trailer days at origin and destination plus allowances for empty time;
(6) Switching costs; and
(7) Station clerical costs.

Line-haul costs for the sample traffic shall reflect, as appropriate:

(1) Type of car;
(2) Actual or billed weight, as appropriately explained;
(3) Route of movement mileage (loaded and empty) in average or way and through trains, including loaded backhaul mileage as required;
(4) Tare weight of cars;
(5) Trailing weight of trains;
(6) Number of locomotive units;
(7) Helper services;
(8) Car days in running service for the loaded movement plus allowance for empty time;
(9) Trailer days in running service for the loaded movement plus allowance for empty time;
(10) Exclusion of car days and trailer days attributable to accessorial service not included in the line-haul rate; and
(11) Exclusion of platform and other special service costs where the revenue is collected as a separate charge and such service is not included as a portion of the line-haul rate.

Line-haul switching costs for the sample traffic shall reflect, as appropriate:

(1) The number of interchanges of rail cars;
(2) The number of highway interchanges of trailers;
(3) The number of intertrain and intratrain switches;
(4) Car days at interchange, intertrain and intratrain switching points plus allowances for empty time; and
(5) Trailer days at interchange, intertrain and intratrain switching points plus allowance for empty time.

Additional cost considerations

Accessorial revenues and associated costs shall be excluded to the extent these services are not included in the line-haul rate.

Accounting and operating records of each such study carrier as obtained from the annual report to the Interstate Commerce Commission, operating reports and special studies shall be used in the development of the unit costs for each participating carrier.

Unit costs for interchange services shall be applied per interchange rather than on a car-mile basis. Where sample traffic originates or terminates on a connecting line-haul or switching and terminal company that receives an absorption for its switching services, the line-haul carrier shall apply its interchange unit cost per car plus the absorption at that point and eliminate the origination or termination switching cost, as applicable.

Unit costs for intertrain and intratrain switching shall be applied on a per switch basis rather than a car-mile basis.

Train mile unit costs shall reflect the actual number of locomotive units in the trains associated with the sample traffic. Train mile unit costs should also reflect the trailing weight of the trains associated with the sample traffic.

Marine-operation costs shall be excluded from computation of the unit costs and applied on a direct basis including appropriate departmental and general overheads.

Revenue need evidence

Each railroad or group of railroads which participates in the joint rates or fares should submit evidence of system revenue needs. For this purpose, the following specific data and information, combined where appropriate into applicable carrier groups, shall be submitted:

(1) Selected financial data of the kind prescribed for the Schedule A filings, as prescribed and defined in Ex Parte No. 290, *Procedures Governing Rail General Increase Proceedings* (351 ICC 619 and 620).

(2) Income and sum of money data of the kind prescribed and defined for Schedule B (Part I, column (a) through (c) only) in Ex Parte No. 290, *supra*.

For the purpose of compiling these data "base year-actual" shall be the same annual period utilized in developing the traffic and cost study data suggested herein. If relevant, the carriers may, at their option, provide, in addition to these data, cost of capital studies or any other evidence having a direct bearing on their revenue needs to earn a fair return on rail property held for and used in the service of the interline traffic at issue. Also, in instances where the system revenue needs of the opposing parties are markedly different, the carriers may wish to allocate a portion of such overall revenue need to the traffic at issue. In such cases, the allocation scheme employed should be fully explained, and where necessary, supported by a detailed, independent study of the revenue contributions to system revenues generated by the issue traffic. In instances where facilities and/or operations of passenger, commuter or freight services are subsidized, such facts and attendant circumstances should be fully disclosed, including a detailed accounting of the subsidies relative to total revenue.

Evidence on efficiency and public importance

Each railroad or group of railroads or any other participant should submit evidence pertaining to the "efficiency with which the carriers concerned are operated" and "the importance to the public of the transportation services of such carriers," as required by section 15(6)(a). Recommended evidence of efficiency should include, but not be limited to, data concerning existing duplication of facilities, slow orders, speed of movements, plans for track abandonment, plans for rehabilitation and modernization of yards and other facilities, deferred maintenance, accidents and equipment utilizations. Recommended evidence of public importance should include, but not be limited to, data concerning the availability of alternative transportation modes for issue traffic, impact of service deterioration or of increased rates with respect to issue traffic on the economies of affected regions, and the extent to which lines and facilities used in connection with the issue traffic have been are or will be subsidized by federal, state or local governments. Joint studies to produce evidence on efficiency and public importance are encouraged.

[FR Doc.76-22635 Filed 8-4-76;8:45 am]

[1] The term "shipments" shall be construed to include "passengers" insofar as applicable to divisions disputes involving transportation of passengers. In such cases, the traffic study shall include the number of revenue passengers and revenue passenger miles.

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Benton Lake National Wildlife Refuge

The following regulations are issued and are effective on August 5, 1976.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

MONTANA

BENTON LAKE NATIONAL WILDLIFE REFUGE

Public hunting of geese, ducks, coot, mergansers and Wilson's snipe on the Benton Lake National Wildlife Refuge, Montana, is permitted only on areas designated by signs as open to public hunting. This open area is delineated on maps available at refuge headquarters.

Hunting shall be in accordance with all applicable state and federal regulations governing the hunting of the aforementioned species subject to the following special conditions:

1. The refuge migratory game bird hunting program will terminate on November 30, 1976. The refuge will be closed to hunting on and after December 1, 1976.

2. Refuge roads and dike areas are closed to hunting.

3. Hunters are prohibited from constructing blinds on the refuge. Hunting blinds are provided by the refuge. Daily occupancy of blinds will be on a first come—first served basis.

4. Vehicle use and parking shall be confined to gravelled roads and designated parking areas.

5. Boats without motors may be used in conjunction with waterfowl hunting activities.

6. Hunters are granted access to the area opened to hunting on and after September 15, 1976, for purposes of selecting hunting sites and training retrievers. Boats without motors may be used.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through March 31, 1976.

JULY 29, 1976.

LYLE A. STEMMERMAN,
Refuge Manager.

[FR Doc.76-22719 Filed 8-4-76;8:45 am]

PART 32—HUNTING

Certain National Wildlife Refuges in Alaska

The following regulations are issued and are effective August 5, 1976. These regulations apply to public hunting on portions of certain national wildlife refuges in Alaska.

General conditions. Hunting shall be in accordance with applicable State regulations. Information relative to hunting and use of refuge lands may be obtained from Refuge Managers addressed to respective refuges.

V 41 152 AUG 5 76 UMI

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Big game animals may be hunted on the following refuge areas:

ALEUTIAN ISLANDS NATIONAL WILDLIFE REFUGE

Eastern Aleutians—Pouch #2, Cold Bay, Alaska 99571.
Western Aleutians—P.O. Box 5251, Adak, Alaska 98791.

Special conditions. (1) Species permitted to be taken: Caribou on the islands of Unimak and Adak; brown bear on the island of Unimak.

(2) A federal permit is required to take brown bear on Unimak Island. Permits may be obtained from the Refuge Manager, Izembek National Wildlife Range, Pouch #2, Cold Bay, Alaska 99571.

(3) Landing of aircraft on Unimak Island or taking aircraft off from Unimak Island, while transporting big game or big game hunters, is restricted to the following areas:

Area No. 1. The airstrip situated at the village of False Pass.
Area No. 2. The airstrip situated at Cape Sarichef.
Area No. 3. The waters of all lakes, bays and lagoons on or adjacent to Unimak Island.

Arctic National Wildlife Range, 1412 Airport Way, Fairbanks, Alaska 99701.

Special conditions. Hunting for Brown Bear or Grizzly Bear is not permitted after October 10, 1976.

Bering Sea National Wildlife Refuge, P.O. Box 346, Bethel, Alaska 99559.
Izembek National Wildlife Range, Pouch No. 2, Cold Bay, Alaska 99571.

Special conditions. (1) The landing of aircraft is prohibited except in the event of emergency.

(2) The use of motorized vehicles is restricted to the established road system.

Kenai National Moose Range, P.O. Box 500, Kenai, Alaska 99611.

Special conditions. (1) The use of dogs as an aid in big game hunting is not authorized.

(2) The use of aircraft, boats, and other motorized vehicles is restricted to certain designated areas and periods of use. Information relative to hunting and use of refuge lands may be obtained from the Refuge Manager, Kenai, Alaska.

Kodiak National Wildlife Refuge, P.O. Box 825, Kodiak, Alaska 99615.

Special conditions. (1) Except in the event of an emergency, the landing and operation of aircraft on the Kodiak National Wildlife Refuge is restricted to lakes, streams, and other bodies of water.

(2) Brown bear hunting shall be only by permit issued by the Alaska Department of Fish and Game.

Nunivak National Wildlife Refuge, P.O. Box 346, Bethel, Alaska 99559.

Special conditions. (1) Muskox hunting shall be by permit issued by the Alaska Department of Fish and Game, and permittees must check out with the Refuge Manager or his representative on Nunivak Island after hunting is completed and prior to leaving Nunivak Island.

(2) Motorized vehicles (except boats) are prohibited on Nunivak Island National Wildlife Refuge—

a. Except during periods of complete snow cover, as determined and posted by the Refuge Manager at Mekoryuk, Alaska.

b. Within one mile of any shoreline.

c. Within one mile of any muskox or area known to be occupied by any muskox as determined through normal visual means, and

d. Nothing in this section shall prohibit the use of motorized snow vehicles during periods of complete snow cover to remove legally harvested muskox.

(3) Landing of aircraft on Nunivak National Wildlife Refuge for transporting muskox hunters or harvested muskox is restricted to the airstrip situated near the village of Mekoryuk.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1977.

JAN E. RIFFE,
Acting Area Director, U.S. Fish & Wildlife Service, Anchorage, Alaska.

JULY 26, 1976.

[FR Doc.76-22814 Filed 8-4-76;8:45 am]

PART 32—HUNTING

Certain National Wildlife Refuges in Alaska

The following regulations are issued and are effective August 5, 1976. These regulations apply to public hunting on portions of certain national wildlife refuges in Alaska.

General conditions. Hunting shall be in accordance with applicable State regulations. Information relative to hunting may be obtained from Refuge Managers addressed to the respective refuges.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

Upland game may be hunted on the following refuge areas:

ALEUTIAN ISLANDS NATIONAL WILDLIFE REFUGE

Eastern Aleutians—Pouch No. 2, Cold Bay, Alaska 99571.
Western Aleutians—P.O. Box 5251, Adak, Alaska 98791.

Special conditions. (1) Hunting permitted only on Atka, Attu, Adak, Unimak, Shemya, and Great Sitkin Islands.

(2) Landing of aircraft on Unimak Island or taking aircraft off from Unimak Island, while transporting upland game or upland game hunters, is restricted to the following areas:

Area No. 1. The airstrip situated at the village of False Pass.
Area No. 2. The airstrip situated at Cape Sarichef.
Area No. 3. The waters of all lakes, bays, and lagoons on or adjacent to Unimak Island.

Arctic National Wildlife Range, 1412 Airport Way, Fairbanks, Alaska 99701.
Cape Newenham National Wildlife Refuge, P.O. Box 346, Bethel, Alaska 99559.
Clarence Rhode National Wildlife Range, P.O. Box 346, Bethel, Alaska 99559.
Izembek National Wildlife Range, Pouch No. 2, Cold Bay, Alaska 99571.

Special conditions. (1) The landing of aircraft is prohibited except in the event of emergency.

(2) The use of motorized vehicles is restricted to the established road system.

Kenai National Moose Range, P.O. Box 500, Kenai, Alaska 99611.

Special conditions. The use of aircraft, boats, and other motorized vehicles is restricted to certain designated areas and periods of use. Information relative to hunting and use of refuge lands may be obtained from the Refuge Manager, Kenai National Moose Range.

Kodiak National Wildlife Refuge, P.O. Box 825, Kodiak, Alaska 99615.

Special condition. Except in the event of an emergency, the landing and operation of aircraft on the Kodiak National Wildlife Refuge is restricted to the lakes, streams, and other bodies of water.

Nunivak National Wildlife Refuge, P.O. Box 346, Bethel, Alaska 99559.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuges areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1977.

JAN E. RIFFE,
Acting Area Director, U.S. Fish and Wildlife Service, Anchorage, Alaska.

Acting Area Director, U.S. Fish & Wildlife Service, Anchorage, Alaska.

JULY 23, 1976.

[FR Doc.76-22816 Filed 8-4-76;8:45 am]

PART 32—HUNTING

Certain National Wildlife Refuges in Idaho

The following regulations are issued and are effective on September 1, 1976. These regulations apply to public hunting on portions of certain National Wildlife Refuges in Idaho.

General Conditions: Hunting shall be in accordance with applicable State and Federal regulations. Portions of refuges which are open to hunting are designated by signs and/or delineated on maps. Special conditions applying to individual refuges are listed on the reverse side of the refuge hunting maps. No vehicle travel is permitted except on maintoined roads and trails. Maps are available at refuge headquorters and from the office of the Regional Director, P.O. Box 3737, Portland, Oregon 97208.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Migratory game birds, except pigeons and doves, may be hunted on the following refuge area:

Kootenai National Wildlife Refuge, Star Route No. 1, Box 160, Bonners Ferry, Idaho 83805.

Special Conditions: 1. Hunting permitted only Sundays, Tuesdays, Thursdays, and Saturdays.

2. The use of soft iron shot shells is required.

Migratory game birds except snipe, pigeons, and doves may be hunted on the following refuge areas:

Grays Lake National Wildlife Refuge, P.O. Box 837, Soda Springs, Idaho 83276.

Special Conditions: 1. The use of air-thrust boats is prohibited. Other boats are permitted only from the opening of migratory waterfowl hunting until the close of the season.

2. Entry to hunting area is by foot travel only.

Minidoka National Wildlife Refuge, Route 4, Rupert, Idaho 83350.

Bear Lake National Wildlife Refuge, P.O. Box 837, Soda Springs, Idaho 83276.

Special Condition: Air-thrust boats are prohibited. Other boats are permitted only from one week prior to the opening of migratory waterfowl hunting until the close of the season.

Camas National Wildlife Refuge, Hamer, Idaho 83425.

Deer Flat National Wildlife Refuge, Route 1, Box 1457, Nampa, Idaho 83651.

Special Conditions: 1. Snipe, pigeons and doves may be hunted in the Snake River Island sector only.

2. No goose hunting permitted in the Lake Lowell sector.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

Upland game birds may be hunted on the following refuge areas:

Minidoka National Wildlife Refuge, Route 4, Rupert, Idaho 83350.

Special Conditions: 1. Cottontail rabbit may also be hunted.

2. Upland game hunting permitted only during waterfowl hunting season.

Kootenai National Wildlife Refuge, Star Route No. 1, Box 160, Bonners Ferry, Idaho 83805.

Special Condition: Pheasants may be hunted only on Sundays, Tuesdays, Thursdays and Saturdays during the regular State season.

Bear Lake National Wildlife Refuge, P.O. Box 837, Soda Springs, Idaho 83276.

Camas National Wildlife Refuge, Hamer, Idaho 83425.

Deer Flat National Wildlife Refuge, Route 1, Box 1457, Nampa, Idaho 83651.

Special Condition: Upland gam mammals may be hunted on the Snake River Islands sector only.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Big game animals may be hunted on the following refuge areas:

Deer Flat National Wildlife Refuge, Route 1, Box 1457, Nampa, Idaho 83651.

Special Condition: Deer may be hunted on the Snake River Island sector only.

Grays Lake National Wildlife Refuge, P.O. Box 837, Soda Springs, Idaho 83276.

Special Conditions: 1. Deer and moose only may be hunted.

2. Entry to hunting area is by foot travel only.

3. Horses may be used only to retrieve big game animals.

Kootenai National Wildlife Refuge, Star Route #1, Box 160, Bonners Ferry, Idaho 83805.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1977.

DONALD J. HANKLA,
Acting Regional Director, Fish and Wildlife Service.

[FR Doc.76-22694 Filed 8-4-76;8:45 am]

PART 32—HUNTING

Certain National Wildlife Refuges in Nevada

The following regulations are issued and are effective August 21, 1976. These regulations apply to public hunting on portions of certain National Wildlife Refuges in Nevada.

General conditions: Hunting shall be in accordance with applicable State and Federal regulations. Portions of refuges which are open to hunting are designated by signs and/or delineated on maps. No vehicle travel is permitted except on designated roads and trails. Special conditions applying to individual refuges are listed on the reverse side of maps available at refuge headquarters and from the office of the Regional Director, Fish and Wildlife Service, P.O. Box 3737, Portland, Oregon 97208.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Migratory game birds may be hunted on the following refuges:

Fallon National Wildlife Refuge, P.O. Box 592, Fallon, Nevada 89406.

Stillwater Wildlife Management Area P.O. Box 592, Fallon, Nevada 89406.

Pahranagat National Wildlife Refuge, P.O Box 232, Alamo, Nevada 89001.

Special Conditions: 1. The use of motors on boats is not permitted.

2. Refuge closed to goose and snipe hunting.

Ruby Lake National Wildlife Refuge, Ruby Valley, Nevada 89833.

Special Condition: Migratory birds, except doves and pigeons, may be hunted.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

Upland game may be hunted on the following refuge areas:

Fallon National Wildlife Refuge, P.O Box 592, Fallon, Nevada 89406.

Pahranagat National Wildlife Refuge, P.O Box 232, Alamo, Nevada 89001.

Special Condition: Quail and rabbit only may be hunted.

Charles Sheldon Antelope Range, Nevada (Headquarters: P.O. Box 111, Lakeview, Oregon 97630).

Special Conditions: 1. Cottontail rabbit may be hunted only during the deer hunting season.

2. Trapping is prohibited.

Stillwater Wildlife Management Area, P.O Box 592, Fallon, Nevada 89406.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Big game animals may be hunted on the following refuge areas:

Desert National Wildlife Range, 1500 North Decatur Boulevard, Las Vegas, Nevada 89108.

Special Condition: Desert bighorn sheep only may be hunted.

Charles Sheldon Antelope Range, Nevada (Headquarters: P.O. Box 111, Lakeview, Oregon 97630).

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1977.

DONALD J. HANKLA,
Acting Regional Director, Fish and Wildlife Service.

PART 32—HUNTING

Certain National Wildlife Refuges in Oregon

The following regulations are issued and are effective on August 28, 1976. These regulations apply to public hunting on portions of certain National Wildlife Refuges in Oregon.

General conditions: Hunting shall be in accordance with applicable State and Federal regulations. Portions of refuges which are open to hunting are designated by signs and/or delineated on maps. No vehicle travel is permitted except on maintained roads and trails. Special conditions applying to individual refuges are listed on the reverse side of maps available at refuge headquarters and from the office of the Regional Director, Fish and Wildlife Service, P.O. Box 3737, Portland, Oregon 97208.

§ 32.32 Special regulations; big game; for individual wildlife areas.

Big game animals may be hunted on the following refuge areas:

Deer Flat National Wildlife Refuge, Snake River Sector (Headquarters: Deer Flat National Wildlife Refuge, Route 1, Box 1457, Nampa, Idaho 83651).

Hart Mountain National Antelope Refuge, P.O. Box 111, Lakeview, Oregon 97630.

Deer may be hunted on the following refuge areas:

Malheur National Wildlife Refuge, P.O. Box 113, Burns, Oregon 97720.

Special Conditions: 1. That portion of the refuge in the Blitzen Valley west of Highway 205 will be open as posted to deer hunting in accordance with regular State season.

2. The special archery area (bow and arrow only) will be opened for hunting from September 8 through September 19, 1976.

William L. Finley National Wildlife Refuge, Route 2, Box 208, Corvallis, Oregon 97330.

Special Conditions: 1. No hunting permitted after November 2, 1976.

2. All hunters must check in and out of the refuge daily by use of self-service permits.

3. The use of rifles is prohibited.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1977.

DONALD J. HANKLA,
Acting Regional Director,
Fish and Wildlife Service.

2. All decoys, boats and other personal property must be removed from the refuge at the close of each day.

Upper Klamath National Wildlife Refuge (Headquarters: Klamath Basin National Wildlife Refuges, Route 1, Box 74, Tulelake, California 96134).

Special Conditions: 1. Boats with or without motors are permitted. Air-thrust and inboard water-thrust boats are prohibited.

2. All decoys, boats, and other personal property must be removed from the refuge at the close of each day.

Lower Klamath National Wildlife Refuge (those portions located in Oregon) Headquarters: Klamath Basin National Wildlife Refuges, Route 1, Box 74, CA 96134.

Special Conditions: 1. Posted retrieving zones are established on certain hunting units. Possession of firearms in thse retrieving zones is prohibited, except, unloaded firearms may be taken through these zones when necessary to reach or leave hunting areas. Decoys may not be set in retrieving zones.

2. Boat with or without motors are permitted. Air-thrust and inboard water-thrust boats are prohibited.

3. All decoys, boats, and other personal property must be removed at the close of each day.

Cold Springs National Wildlife Refuge, Hermiston, Oregon (Headquarters: Umatilla National Wildlife Refuge, P.O. Box 239, Umatilla, Oregon 97882).

McKay Creek National Wildlife Refuge, Pendleton, Oregon (Headquarters: Umatilla National Wildlife Refuge, P.O. Box 239, Umatilla, Oregon 97882).

Special Condition: Hunting will be permitted on Wednesday, Saturdays, Sundays, and State holidays.

Lewis and Clark National Wildlife Refuge, Route 1, Box 376C, Cathlamet, Washington 98612.

Special Condition: Posted portions of the Lewis and Clark National Wildlife Refuge in Clatsop County will be closed to waterfowl hunting.

Umatilla National Wildlife Refuge, P.O. Box 239, Umatilla, Oregon 97882.

Special Conditions: 1. Waterfowl hunting is permitted during open hours each Wednesday, Saturday, Sunday and State holidays (except December 25) during waterfowl season.

2. Hunting by permit only. Successful applicants may bring one unnamed guest and must arrive at the checking station no later than one hour before shooting time or the reservation is cancelled. Checking station will open 1½ hours before shooting time. "No-show" vacancies will be filled from a waiting line after reservations have been accommodated and just prior to shooting time.

3. Applications will be accepted during two sign-up periods. Permits are non-transferable.

4. The use of steel shot will be mandatory. Shells will not be sold at the check stand and should be obtained from a commercial source well before hunt day.

5. Waterfowl hunting will be from blinds only. Details will be available at the check stand.

Malheur National Wildlife Refuge, P.O. Box 113, Burns, Oregon 97720.

Special Condition: Use of motors on boats is prohibited.

Mourning doves and band-tailed pigeons may be hunted on the following refuge areas:

Ankeny National Wildlife Refuge, Box 198, Jefferson, Oregon 97352.

Special Condition: All hunters must check in and out of the refuge daily by use of self-service permits.

Malheur National Wildlife Refuge, P.O. Box 113, Burns, Oregon 97720.

Special Condition: That portion of the refuge in Blitzen Valley west of Highway 205 south of Diamond Lane will be open to hunting as posted.

William L. Finley National Wildlife Refuge, Route 2, Box 208, Corvallis, Oregon 97330.

Special Condition: All hunters must check in and out of the refuge daily by use of self-service permits.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

Upland game birds may be hunted on the following refuge areas:

Deer Flat National Wildlife Refuge, Snake River Sector (Headquarters: Deer Flat National Wildlife Refuge, Route 1, Box 1457, Nampa, Idaho 83651).

Hart Mountain National Antelope Range, P.O. Box 111, Lakeview, Oregon 97630.

Special Condition: Quail and partridge only may be hunted.

Pheasant, quail, and partridge may be hunted on the following refuge areas:

Cold Springs National Wildlife Refuge, Hermiston, Oregon (Headquarters: Umatilla National Wildlife Refuge, P.O. Box 239, Umatilla, Oregon 97882).

Malheur National Wildlife Refuge, P.O. Box 113, Burns, Oregon 97720.

Special Condition: Hunting will be permitted during the last 9 days of the State season on the upland game hunting area and during State seasons running concurrently with the waterfowl season on the waterfowl hunting area, and that portion of the refuge in the Blitzen Valley west of Highway 205 as posted.

McKay Creek National Wildlife Refuge, Pendletaon, Oregon (Headquarters: Umatilla National Wildlife Refuge, P.O. Box 239, Umatilla, Oregon 97882).

Special Condition: Hunting is permitted on Wednesdays, Saturdays, Sundays and State holidays.

Umatilla National Wildlife Refuge, P.O. Box 239, Umatilla, Oregon 97882.

Special Conditions: 1. Hunting will be permitted from 12:00 noon until closing time on Wednesdays, Saturdays, Sundays and State holidays.

2. Pheasant hunters must check in and out of the refuge daily at the refuge check station.

Pheasant and quail may be hunted on the following refuge areas:

Ankey National Wildlife Refuge, Route 1, Box 198, Jefferson, Oregon 97352.

Special Conditions: 1. No hunting permitted after November 2, 1976.

2. All hunters must check in and out of the refuge daily by use of self-service permits.

3. Hunters on the area served by each registration station will be limited to 50 at any one time.

Baskett Slough National Wildlife Refuge, Route 1, Box 709, Dallas, Oregon 97338.

Special Conditions: 1. No hunting permitted after November 2, 1976.

2. All hunters must check in and out of the refuge daily by use of self-service permits.

3. Hunters on the area served by each registration station will be limited to 50 at any one time.

William L. Finley National Wildlife Refuge, Route 2, Box 208, Corvallis, Oregon 97330.

Special Conditions: 1. No hunting permitted after November 2, 1976.

2. All hunters must check in and out of the refuge daily by use of self-service permits.

3. Hunters on the area served by each registration station will be limited to 100 at any one time.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1976.

DONALD J. HANKLA,
Acting Regional Director,
Fish and Wildlife Service.

[FR Doc.76-22692 Filed 8-4-76;8:45 am]

PART 32—HUNTING

Certain National Wildlife Refuges in Washington

The following regulations will be effective September 1, 1976. These regulations apply to public hunting on portions of certain National Wildlife Refuges in Washington.

General conditions. Hunting shall be in accordance with applicable State and Federal regulations. Portions of refuges which are open to hunting are designated by signs and/or delineated on maps. No vehicle travel is permitted except on maintained roads and trials. Special conditions applying to individual refuges are listed on the reverse side of maps available at refuge headquarters and from the office of the Regional Director, Fish and Wildlife Service, P.O. Box 3737, Portland, Oregon 97208.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Migratory game birds may be hunted on the following refuge area:

Conboy Lake National Wildlife Refuge, Box 5, Glenwood, Washington 98619.

Special Condition: No Canada goose hunting permitted.

Migratory game birds except doves and pigeons may be hunted on the following refuge areas:

Columbia National Wildlife Refuge, P.O. Drawer F, Othello, Washington 99344.

Special Condition: Hunters using field 226-227 near Royal Lake must register before hunting and may shoot from designated sites only.

Toppenish National Wildlife Refuge, Route 1, Box 1300, Toppenish, Washington 98948.

Umatilla National Wildlife Refuge, P.O. Box 239, Umatilla, Oregon 97882.

Columbian White-Tailed Deer National Wildlife Refuge, Route 1, Box 276C, Cathlamet, Washington 98612.

Ridgefield National Wildlife Refuge, P.O. Box 467, Ridgefield, Washington 98642.

Special Conditions: 1. Hunting will begin on Saturday, October 30, 1976 and thereafter will be permitted on Wednesdays, Saturdays (except Dec. 25), Sundays, November 11, 1976 and November 25, 1976 to the close of season.

2. A Federal permit, available from the refuge office, is required to enter the public hunting area. Permits will be issued by mail, only on a first-come, first-served basis. Only one regular permit may be held by a hunter at any one time.

3. Hunters may shoot only from blinds assigned by drawing at the checking station. A recreational use fee of $3.00 will be charged for each hunter's use of a blind. Fee for holders of Golden Age Passport is $1.50.

4. Steel shot only may be possessed or used on the refuge hunting area.

5. Hunters may possess and use not more than twenty (20) shells on the north hunting area or twelve (12) shells on the south hunting area per hunter per day.

Migratory game birds except snipe and pigeons and doves may be hunted on the following refuge areas:

McNary National Wildlife Refuge, P.O. Box 19, Burbank, Washington 99383.

Special Conditions: 1. Hunters are required to park vehicles in designated parking areas only.

2. On Burbank Slough hunting will be permitted on Wednesday, Saturday, Sunday and Thanksgiving Day only. No additional hunting will be permitted during the State extended goose hunting season. In the north and south one-thirds of hunting area, hunting is from marked sites only. Reservations are required for use of goose hunting sites in fields 5 and 6.

3. On the Hanford Island Division hunting is permitted only on the five upstream islands from opposite the Hanford 300 area-Sagemoor Road upstream to BPA power line crossing. The Hanford Island offshore from the Graduate Center, Sprout Road is closed to hunting.

4. All public use on the Strawberry Island Division is prohibited.

Willapa National Wildlife Refuge, Ilwaco, Washington 98624.

Lewis and Leadbetter Point Units.

Special Condition: Hunter registration is required. Leadbetter Point is the only refuge unit open to black brant hunting after close of general season.

Riekkola Unit.

Special Conditions: 1. Hunter registration required.

2. Hunting will be permitted on Wednesdays and Saturdays only.

3. Hunting will be from designated blinds only with no more than three (3) hunters per blind. Blind selection is by drawing each hunt morning at check station.

4. Hunters may possess and use not more than ten (10) shells per hunter per day.

5. This area closes at the end of the regular waterfowl season. No extension of the season is provided for the hunting of black brant.

§ 32.33 Special regulations; upland game; for individual wildlife refuge areas.

Upland game birds may be hunted on the following refuge areas:

Columbia National Wildlife Refuge, P.O. Drawer F, Othello, Washington 99344.

Special Conditions: 1. Open to the hunting of rabbits in addition to game birds.

2. Upland game birds may be hunted during State seasons running concurrently with the waterfowl season.

3. Hunters using field 226-227 near Royal Lake must register before hunting and may shoot from designated sites only.

Umatilla National Wildlife Refuge, P.O. Box 239, Umatilla, Oregon 97882.

Special Condition: Only those areas posted "Public Hunting Area" are open to upland game bird hunting.

Conboy Lake National Wildlife Refuge, Box 5, Glenwood, Washington 98619.

Special Condition: Cottontail rabbit and snowshoe hare may also be hunted during the State season concurrent with the waterfowl season.

Toppenish National Wildlife Refuge, Route 1, Box 1300, Toppenish, Washington 98948.

Special Condition: Rabbits and upland game may only be hunted during that part of the State season concurrent with the waterfowl hunting season.

Willapa National Wildlife Refuge Ilwaco, Washington 98624.

Long Island Unit

Special Conditions: 1. Archery hunting only.

2. Permits for the opening weekend will be limited and obtained in advance. Applications are available from the Refuge Manager.

3. After opening weekend hunters must possess regular hunting permit available at refuge headquarters and at the Nahcotta dock.

4. Raccoon and coyote may also be hunted.

McNary National Wildlife Refuge, P.O. Box 19, Burbank, Washington 99323.

Special Conditions: 1. Pheasants only may be hunted during the first half of the state's split season or through November 6, whichever is earliest.

V 41 152 AUG 5 76 UMI

2. Pheasant hunting will be restricted to Wednesdays, Saturdays, and Sundays.
3. Hunters are required to park vehicles in designated parking areas only.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Big game hunting is permitted on the following refuge area:

Little Pend Oreille National Wildlife Refuge, Route 1, Colville, Washington 99114.

Deer hunting only is permitted on the following refuge areas:

Columbia National Wildlife Refuge, P.O. Drawer F, Othello, Washington 99344.

Conboy Lake National Wildlife Refuge, Box 5, Glenwood, Washington 98619.

Umatilla National Wildlife Refuge, P.O. Box 239, Umatilla, Oregon 97882.

Bear, deer and elk may be hunted on the following refuge area:

Willapa National Wildlife Refuge, Ilwaco, Washington 98624.

Long Island Unit.

Special Conditions: 1. Archery hunting only is permitted.
2. Permits for opening weekend will be limited and obtained in advance. Applications are available from the Refuge Manager.
3. After opening weekend hunters must possess regular hunting permit available at refuge headquarters and at the Nahcotta dock.
4. Use of bait/or baiting for bears is prohibited.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50 Code of Federal Regulations, Part 32, and are effective through June 30, 1977.

DONALD J. HANKLA,
Acting Regional Director,
Fish and Wildlife Service.

[FR Doc.76-22693 Filed 8-4-76;8:45 am]

PART 32—HUNTING

National Wildlife Refuges in Certain States

The following special regulations are issued and are effective on August 28, 1976.

§ 32.22 Special regulations; upland game; for individual refuge areas.

ALABAMA

WHEELER NATIONAL WILDLIFE REFUGE

Public hunting of gray squirrels, foxes, raccoons, and opossums is permitted only on the areas designated by signs and/or delineated on maps which are available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all State and Federal regulations subject to the following special conditions:

(1) Hunting shall be by permit only. Permits may be obtained from the Refuge Manager under prescribed conditions.

(2) Foxes may be hunted with dogs, but without guns, during the period October 1, 1976 through February 15, 1977, under conditions set forth in permits obtainable from the Refuge Manager.

(3) Gray squirrels and rabbits may be hunted October 15–19, 1976, excluding Sunday, October 17, 1976.

(4) Raccoons and opossums may be hunted February 14–19, 1977.

(5) Rabbits may be hunted February 22–26, 1977.

(6) Shotguns, .22 rimfire rifles, non-powder burning rifles and bows and arrows may be used for squirrel hunting, but .22 rimfire rifles may not be used for other species listed. Raccoon and opossum hunting is limited to use of shotguns only.

(7) Legal hours for entering upon and hunting on the refuge for raccoons and opossums shall be 7 p.m. to 6 a.m. inclusive; for rabbits 8 a.m. to 5 p.m. inclusive; and squirrels all daylight hours.

(8) No hunting is allowed within 100 yards of buildings on the refuge boundary. No hunting is permitted within the Triana Recreation Area. On the south side of the Tennessee River and west of Interstate 65, squirrels and rabbits only may be hunted, but only with bows and arrows or non-powder burning rifles.

(9) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuges generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through February 26, 1977.

ARKANSAS

BIG LAKE NATIONAL WILDLIFE REFUGE

Public hunting of squirrels and raccoons on Big Lake National Wildlife Refuge, Arkansas, is permitted on the entire refuge except for areas which may be designated as closed by marking with "Closed Area" signs. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of upland game subject to the following special conditions:

(1) Squirrel hunting permitted in accordance with State regulations, except season closes on the refuge the day duck season in the State opens. Dogs are not permitted.

(2) Raccoon hunting permitted from October 14, 1976, until opening day of the duck hunting season in the State. Hunting will open at 12:00 noon on October 14. Hunting permitted 24 hours per day. No limit on the number of coons that can be taken per day. Dogs required during night hunts.

(3) Shotguns or rifles not larger than .22 caliber rimfire may be used.

(4) Persons are prohibited from possessing, while on the refuge, either on their person or in their vehicle, game for which there is not an open season on the refuge.

(5) Fires and cutting of trees are not permitted.

(6) A special permit is required for hunts held on the refuge.

(7) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 30, 1976.

FLORIDA

ST. MARKS NATIONAL WILDLIFE REFUGE

Public hunting of upland game on the St. Marks National Wildlife Refuge, Florida, is permitted only on the area designated by signs as open to hunting. This open area, comprising approximately 1,200 acres, is delineated on a map available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329. Hunting shall be in accordance with all State and Federal regulations governing the hunting of upland game. A refuge permit is required.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 31, 1977.

ST. VINCENT NATIONAL WILDLIFE REFUGE

Hogs (minimum 15 inch shoulder height), raccoon, and opossum shall be taken incidental to and governed by regulations of the annual deer hunt.

GEORGIA

BLACKBEARD ISLAND NATIONAL WILDLIFE REFUGE

Raccoon shall be taken incidental to and governed by regulations of the annual deer hunt.

PIEDMONT NATIONAL WILDLIFE REFUGE

Public hunting of bobwhite quail and squirrels on the Piedmont National Wildlife Refuge, Georgia, is permitted only on the area designated by signs as open to hunting. The open area, comprising approximately 32,000 acres, is delineated on a map available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30320. Hunting shall be in accordance with all applicable State regulations covering the hunting of bobwhite quail and squirrels subject to the following special conditions:

(1) Species permitted to be taken: Bobwhite quail and gray squirrels only.

(2) Open season: Quail—November 20, 1976–February 28, 1977, on Tuesdays, Saturdays, and National holidays only. Squirrels—November 20, 1976–February 28, 1977, on Tuesdays, Saturdays, and National holidays only. Hunters are permitted on areas open to quail and squirrel hunting from 30 minutes before sunrise until 30 minutes after sunset on the above cited hunting days.

(3) No vehicular or horseback travel except on State and county roads.

(4) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

(5) Camping and fires are prohibited.

(6) Dogs permitted for quail hunting, and one dog per party authorized for squirrel hunting.

(7) Firearms limited to .22 caliber rimfire rifles and shotguns.

(8) A refuge permit is required. An unlimited number of permits for the quail and squirrel hunts will be available at refuge headquarters Monday through Friday 8 a.m.–4:30 p.m. during the respective hunt periods. Permits are valid for entire hunt period. Questionnaire on permit must be completed and returned to refuge office at close of season.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through February 28, 1977.

WASSAW ISLAND NATIONAL WILDLIFE REFUGE

Raccoon shall be taken incidental to and governed by regulations of annual deer hunt.

KENTUCKY

REELFOOT NATIONAL WILDLIFE REFUGE

Public hunting of squirrels and raccoons on the Reelfoot National Wildlife Refuge, Kentucky, is permitted only on the area designated by signs as open to hunting. This open area, comprised of 2,034 acres, is delineated on maps available at refuge headquarters, Samburg, Tennessee and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State regulations covering the hunting of squirrels and raccoons subject to the following special conditions:

Squirrels: (1) Squirrels may be hunted on the refuge from August 28–September 30, 1976.

(2) Only shotguns incapable of holding more than three shells and .22 caliber rimfire rifles are permitted.

(3) Dogs are not permitted.

(4) A free Federal permit is required to enter the public hunting area. Permits available from the refuge manager by mail or in person.

Raccoons: (1) Raccoons may be taken without limit, on the Long Point refuge unit during the periods of September 20–25, 1976 and September 27–October 2, 1976.

(2) Hunting hours shall be from 7:30 p.m. to 12 midnight.

(3) The use of dogs and guns is permitted.

(4) No axes, saws, or other cutting implements will be permitted.

(5) A Federal permit is required. Permits available at check station. All hunters will be required to check in and check out at the designated check station, the location of which may be obtained from the Refuge Manager, Reelfoot National Wildlife Refuge, Samburg, Tennessee.

(6) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 2, 1976.

LOUISIANA

CATAHOULA NATIONAL WILDLIFE REFUGE

Public hunting of squirrels on the Catahoula National Wildlife Refuge is permitted on the timbered portions of the refuge. Permits are required and may be obtained at refuge headquarters or by writing the Refuge Manager, Catahoula National Wildlife Refuge, P.O. Drawer LL, Jena, Louisiana 71342. Hunting shall be in accordance with State and Federal regulations governing the hunting of squirrels subject to the following special conditions:

(1) The season extends from October 2–17, 1976.

(2) Hunters may enter the area 30 minutes prior to legal shooting time (30 minutes before sunrise) and must be out of the refuge 30 minutes after legal shooting hours (30 minutes after sunset).

(3) Unmarked feral hogs may be taken.

(4) No vehicles with tires larger than 9.00 x 16" can be used on the refuge. All vehicles must remain on established roads and trails.

(5) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

(6) Dogs are not permitted.

(7) Firearms limited to shotguns and .22 caliber rimfire rifles.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 17, 1976.

MISSISSIPPI

NOXUBEE NATIONAL WILDLIFE REFUGE

Public hunting of upland game on the Noxubee National Wildlife Refuge, Mississippi, is permitted on the area designated by signs as open to hunting. This open area is delineated on a map available at refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all State and Federal regulations subject to the following special conditions:

(1) Squirrels and rabbits may be hunted October 18–29, 1976 in that portion of the refuge located in Winston County west of Dummy Line Road and south of the Louisville Road. Squirrels and rabbits may be hunted October 30–November 13, 1976 on all areas of the refuge (except closed areas). Only shotguns and .22 caliber rimfire weapons may be used.

(2) Quail may be hunted January 17–February 22, 1977. Rabbits may be hunted as an incidental species during the quail hunt. Only shotguns permitted during this hunt.

(3) Raccoons and opossums may be hunted January 1–31, 1977 with .22 caliber rimfire weapons only.

(4) Turkey (Gobblers only) may be hunted March 26–April 7, 1977 and April 9–April 20, 1977.

(5) Sunday hunting is prohibited.

(6) Dogs are permitted during the quail, raccoon and opossum hunts only.

(7) Turkeys killed must be checked at refuge headquarters.

(8) Permits are required for all hunts and may be obtained at refuge headquarters.

(9) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

(10) The use of any Citizen's Band Radio devices to aid in the pursuit or taking of any game species is prohibited.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through April 20, 1977.

YAZOO NATIONAL WILDLIFE REFUGE

Public hunting of squirrels, raccoons, and opossums on the Yazoo National Wildlife Refuge, Mississippi, is permitted only in wooded areas not designated by signs as closed to hunting. These areas, comprising about 10,500 acres, are delineated on a map available at refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State regulations governing the hunting of squirrels, raccoons and opossums subject to the following special conditions:

(1) *Squirrels* may be hunted October 2–9, 1976, Sundays excluded. *Raccoons and opossums* may be hunted November 27 through December 11, 1976, Sunday excluded.

(2) *Squirrels* may be hunted one-half hour before official sunrise to official sunset. *Raccoons and opossums* may be hunted from sunset to 12 midnight.

(3) No dogs permitted during the squirrel hunt; however, dogs may be used in the taking of raccoons and opossums.

(4) Weapons: Shotguns, 10-gauge or smaller, and .22 caliber rimfire rifles only.

(5) One-day free permits are required. All hunters must check in and check out at refuge office.

V 41 152 AUG 5 76 UMI

(6) Carrying of loaded firearms in vehicles prohibited. Shooting or spotlighting from vehicles or any paved roads is prohibited. No firearms may be discharged within 250 yards of the refuge headquarters or residences.

(7) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 11, 1976.

SOUTH CAROLINA

CAPE ROMAIN NATIONAL WILDLIFE REFUGE

Rabbits, squirrels and raccoons shall be taken incidental to and governed by regulations of the annual deer hunt.

TENNESSEE

HATCHIE NATIONAL WILDLIFE REFUGE

The public hunting of squirrels and raccoons on the Hatchie National Wildlife Refuge is permitted only on the area designated by signs as open to hunting. This open area, comprising 11,220 acres, is delineated on maps available at the refuge headquarters, Brownsville, Tennessee 38012 and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal Regulations subject to the following special conditions:

(1) All persons hunting on the refuge must possess a Special Hunting Permit.

(2) Seasons: Squirrels—Open with State season, close September 30, 1976. Raccoons—Open with State season, close November 14, 1976.

(3) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

(4) Weapons: Only shotguns incapable of holding more than three shells and .22 caliber rimfire rifles are permitted.

(5) The hunting hours for raccoons are from sunset to midnight.

(6) Camping is prohibited.

(7) Dogs are prohibited during the squirrel hunt, but are required during the raccoon hunt.

(8) No axes, saws or other cutting implements will be permitted during the raccoon hunt.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 14, 1976.

LAKE ISOM NATIONAL WILDLIFE REFUGE

Public hunting of squirrels and raccoons on the Lake Isom National Wildlife Refuge, Tennesse is permitted only on the area designated by signs as open to hunting. This open area, comprised of 1,850 acres, is delineated on maps available at refuge headquarters, Samburg, Tennessee and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State regulations covering the hunting of squirrels and raccoons, subject to the following special conditions:

Squirrels: (1) Squirrels may be hunted on the refuge during the period from August 28 until September 30, 1976.

(2) Only shotguns incapable of holding more than three shells and .22 caliber rimfire rifles are permitted.

(3) Dogs are not permitted.

(4) A free Federal permit is required to enter the public hunting area. Permits available from Refuge Manager by mail or in person.

(5) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

Raccoons: (1) Raccoons may be taken, without limit, on the refuge during the period of September 27–October 2, 1976.

(2) Hunting hours shall be from 7:30 p.m. to 12 midnight.

(3) The use of dogs and guns is permitted.

(4) No axes, saws, or other cutting implements will be permitted.

(5) A Federal permit is required. Permits available at check station. All hunters will be required to check in and check out at the designated checking station, the location of which may be obtained from the Refuge Manager, Reelfoot National Wildlife Refuge, Samburg, Tennessee 38254.

(6) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio shoul bdoneeatdul safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 2, 1976.

REELFOOT NATIONAL WILDLIFE REFUGE

Public hunting of squirrels and raccoons on the Reelfoot National Wildlife Refuge, Tennessee is permitted only on the area designated by signs as open to hunting. This open area, comprised of 9,585 acres, is delineated on maps available at refuge headquarters, Samburg, Tennessee, and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State regulations covering the hunting of squirrels and raccoons subject to the following special conditions:

Squirrels: (1) Squirrels may be hunted on the refuge during the period from August 28 until September 30, 1976.

(2) Only shotguns incapable of holding more than three shells and .22 caliber rimfire rifles are permitted.

(3) Dogs are not permitted.

(4) A free Federal permit is required to enter the public hunting area. Permits available from Refuge Manager by mail or in person.

(5) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

Raccoons: (1) Raccoons may be taken, without limit, on the refuge during the period of September 27–October 2, 1976.

(2) Hunting hours shall be from 7:30 p.m. to 12 midnight.

(3) The use of dogs and guns is permitted.

(4) No axes, saws, or other cutting implements will be permitted.

(5) A Federal permit is required. Permits available at check station. All hunters will be required to check in and check out at the designated check station, the location of which may be obtained from the Refuge Manager, Reelfoot National Wildlife Refuge, Samburg, Tennessee 38254.

(6) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 2, 1976.

TENNESSEE NATIONAL WILDLIFE REFUGE

Hunting of upland game on the Tennessee National Wildlife Refuge is suspended for the 1976–77 season.

V 41 152 AUG 5 76 UMI

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[21 CFR Part 1301]

COMPLIMENTARY SAMPLING OF CONTROLLED SUBSTANCES

Advance Notice of Proposed Rulemaking

On May 19, 1976, the American College of Neuropsychopharmacology (ACNP) petitioned the Administrator of the Drug Enforcement Administration to initiate proceedings for the amendment of 21 CFR 1301.74(d). That section permits distribution of controlled substances as complimentary samples subject to certain limitations. Section 1301.74(d) reads as follows:

(d) The registrant shall not distribute any controlled substance listed in schedules II through V as a complimentary sample to any potential or current customer, (1) without the prior written request of the customer, (2) to be used only for satisfying the legitimate medical needs of patients of the customer, and (3) only in reasonable quantities. Such request must contain the name, address, and registration number of the customer and the name and quantity of the specific controlled substance desired. The request shall be preserved by the registrant with other records of distribution of controlled substances. In addition, the requirements of Part 1305 of the chapter shall be complied with for any distribution of a controlled substance listed in Schedule II. For purposes of this paragraph, the term "customer" includes a person to whom a complimentary sample of a substance is given in order to encourage the prescribing or recommending of the substance by the person.

The ACNP proposal which is being considered by DEA as an amendment to § 1301.74(d) reads as follows:

§ 1301.74 Other security controls for nonpracticioners; narcotic treatment programs and compounders for narcotic treatment programs.

* * * * *

(d) The registrant shall not distribute any controlled substance listed in schedules II through V as a complimentary sample or supply to any potential or current customer.

* * * * *

DEA is now engaged in reassessing its position on sampling in the light of questions raised by the petition. For example, we are considering the extent that sampling practices result in diversion of controlled substances; the position on sampling of various State authorities; the uses to which samples are put by physicians; the percentage of legitimately produced drugs used for sampling purposes.

The ACNP proposal has been reported in the trade press and various individuals, companies, and associations have requested opportunity to comment. The purpose of this FEDERAL REGISTER notice is to provide that opportunity.

It is recognized that the proposal collides with a long standing practice in the marketing of drugs. Therefore, any radical change in that practice must be based on clear evidence that sampling creates an existing danger to the public health and safety or has a potential for so doing in the reasonably foreseeable future.

DEA invites the comments of interested parties on such questions as the agency itself is now considering and which are outlined above. Further, we know that interested parties including physicians, manufacturers, pharmacists, wholesalers, and their respective associations, are in a better position than DEA to address certain aspects of the subject. For example:

1. Why do manufacturers sample their products to physicians? Is this the best or the cheapest way to introduce new products or to maintain awareness of products long on the market? Is advertising in recognized medical journals preferable to sampling or are both methods (advertising and sampling) necessary? Is complimentary prescription sampling preferable to direct delivery of samples to physicians?

2. DEA especially invites comments on whether sampling provides economic advantages to consumers. Here we posit the situation in which the patent on Drug X (nationally known and highly regarded by physicians) comes to an end and another manufacturer is authorized to produce an equivalent to Drug X. If the new manufacturer is prepared to market his equivalent drug at a price lower than the price of Drug X, does he require the sampling method to break down the advantages accruing to the original drug? If this be the case would it be appropriate to amend the ACNP proposal to permit sampling of a drug during a limited period after its introduction on the market? If so, what would be a reasonable time for such sampling?

3. Do physicians consider that sampling of drugs provides them with a valid method for testing drugs? Do physicians rely on this method or are they more likely to rely on the medical literature or advertising in recognized publications? Are samples often used by physicians to supply indigent patients?

4. What is the role of detail men in the sampling process? Is this activity in the public interest?

5. Is is necessary for DEA to adopt a preemptive regulation on sampling to insure a unified regulatory approach by the Federal government and State governments? (On this point ACNP notes that the legislative history of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (Pub. L. 91–513) calls for a unified approach to dangerous drug control.)

6. Should drugs in Schedule II be treated differently from drugs in Schedules III, IV, or V?

The specific questions listed are, of course, not intended to limit comments. Obviously, physicians and the various elements of the drug industry will perceive important aspects of the questions raised by the ACNP proposal but not raised in this notice.

Interested parties are invited to participate in the making of the proposed rule by submitting their comments in quintuplicate to the Administrator, Drug Enforcement Administration, United States Department of Justice, 1405 Eye Street, NW., Washington, D.C. 20537, Attention DEA Federal Register Representative, on or before October 29, 1976.

This advance notice of proposed rulemaking is issued under the authority vested in the Attorney General by 21 U.S.C. section 821 and section 871(a) and delegated to the Administrator, Drug Enforcement Administration, by regulations of the Department of Justice (28 CFR Part 0).

Dated: July 29, 1976.

PETER B. BENSINGER,
Administrator,
Drug Enforcement Administration.

[FR Doc.76–22837 Filed 8–4–76;8:45 am]

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 41]

PREPARATION OF ROLLS OF INDIANS

Qualifications for Enrollment and Deadline for Filing Applications

This notice is published in the exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

Notice is hereby given that it is proposed to amend § 41.3, Part 41, Subchapter F, Chapter I of Title 25 of the Code of Federal Regulations by adding a new paragraph designated (bb). The new paragraph establishes requirements for enrollment and a deadline for filing applications for enrollment with the Cherokee Band of Shawnee Indians of Oklahoma.

The purpose of the amendment is to carry out the provisions of the Indian Judgment Fund Act of October 19, 1973 (87 Stat. 466), which requires that plans for the use and distribution of judgment funds awarded Indian Tribes by the Court of Claims or the Indian Claims Commission be submitted to the Congress. Plans for the use and distribution of the judgment funds awarded the Absentee Shawnee Tribe of Oklahoma (on behalf of the Shawnee Nation) became effective on March 5, 1976, (and appeared on page 17582 of the FEDERAL REGISTER of April 27, 1976 (41 FR 17582).

The purpose of the amendment is to establish procedures to govern preparation of a roll to distribute that portion of the judgment funds to be paid to individuals of Cherokee Shawnee ancestry who meet the requirements for enrollment set out in the plan.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions or objections regarding these proposed regulations to the Director, Office of Indian Services, Attention: Tribal Government Services, Bureau of Indian Affairs, 1951 Constitution Avenue, NW., Washington, D.C. 20245, on or before September 7, 1976.

The new paragraph designated (bb) proposed to be added to § 41.3 of Part 41, Subchapter F, Chapter I of Title 25 of the Code of Federal Regulations reads as follows:

§ 41.3 Qualifications for enrollment and the deadline for filing applications.

* * * * *

(bb) *Cherokee Band of Shawnee Indians.* (1) All persons of Cherokee Shawnee ancestry born on or prior to and living on March 5, 1976, who are lineal descendants, except members of the Absentee Shawnee Tribe of Oklahoma, of the Shawnee Nation as it existed in 1854, shall be entitled to have their names placed on the roll, based on the roll of Cherokee Shawnee compiled pursuant to the Act of March 2, 1899 (25 Stat. 994), and any other records acceptable to the Commisioner, to be prepared and used as the basis to distribute that portion of the judgment funds awarded the Absentee Shawnee Tribe of Oklahoma (on behalf of the Shawnee Nation) in Indian Claims Commission docket 334–B, which have been set aside for the Cherokee Band of Shawnee Indians of Oklahoma.

(2) Applications for enrollment must be filed with the Area Director, Muskogee Area Office, Bureau of Indian Affairs, Muskogee, Oklahoma 74401, and must be received by close of business six months from the date of publication of the final regulations in the Federal Register. Applications received after that date will be denied for failure to file in time regardless of whether the applicant otherwise meets the requirements for enrollment.

No further change is proposed to be made in the text of Part 41.

Dated: July 26, 1976.

MORRIS THOMPSON,
Commissioner of Indian Affairs.

[FR Doc.76–22691 Filed 8–4–76;8:45 am]

[25 CFR Part 221]

TRIBAL AND TRUST PATENT INDIAN LANDS OF SAN CARLOS PROJECT, ARIZONA

Proposed Revisions Regarding Irrigation and Maintenance Assessments

Pursuant to the authority vested in the Secretary of the Interior for issuance of irrigation operation and maintenance orders fixing per acre assessments against lands included in Indian Irrigation Projects, delegated to the Commissioner of Indian Affairs by Order No. 2508 (10 BIAM 2.1, Section 15a) and redelegated to the Area Directors, by 10 BIAM 4.1, notice is here by given that it is proposed to modify § 221.110 Basic Charge, of Title 25, Code of Federal Regulations, dealing with irrigation operation and maintenance assesments against tribal lands and trust patent Indian lands of the San Carlos Irrigation Project, Arizona, by changing the basic charge on Indian owned and land leased and operated by non-Indians from $18.00 per acre to $24.00 per acre. The rate increase is the result of the increase of $5.85 per acre in the charges assessed by the San Carlos Irrigation Project for operation and maintenance of the Joint Works. The revised section will read as follows:

§ 221.110 Basic charge.

Pursuant to section 5 of the Act of June 7, 1924 (43 Stat. 476) and in accordance with the public notice issued on December 1, 1932, operation and maintenance charges are assessable against 50,000 acres of tribal lands and trust patent Indian lands of the San Carlos Indian Irrigation Project within the boundaries of the Gila River Indian Reservation, Arizona. For the calendar year 1977 and subsequent years, unless changed by further order, the basic rate assessed Indian owned land leased and operated by non-Indians is hereby fixed at $24.00 per acre. The basic charge shall entitle each acre of such leased land to have delivered for use thereon two (2) acre-feet of water per acre or its proportionate share of the available water supply. The assessment for those lands leased will be payable as provided in §§ 221.111 and 221.112. Charges for project operation and maintenance costs on account of Indian owned land used by Indians shall not be imposed on the Indian owners of such land. (See Interlocutory Order of the Indian Claims Commission dated January 10, 1974, Gila River Pima-Maricopa Indian Community et al. v. The United States of America, Docket No. 236–E.)

It is the policy of the Department of the Interior whenever practicable to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections, with respect to the proposed amendments, to John H. Artichoker, Area Director, Phoenix Area Office, P.O. Box 7007, Phoenix, Arizona 85011, on or before September 7, 1976.

JOHN ARTICHOKER, JR.,
Area Director.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 931]

HANDLING OF FRESH BARTLETT PEARS GROWN IN OREGON AND WASHINGTON

Proposed Rulemaking

This notice invites written comment relative to a proposed amendment that would continue Bartlett Pear Regulation 11 (§ 941.311; 41 FR 30094) through June 30, 1977.

Said regulation will expire on September 16, 1976, unless extended. This regulation specifies grade and size requirements for fresh Bartlett pears shipped from Oregon and Washington. The requirements are that Bartlett pears grade at least U.S. No. 1 and be not smaller than 165 size except such pears of the 150 size or larger must be at least U.S. No. 2 grade. Red Bartlett pears shall grade at least U.S. No. 1 and be not smaller than 180 size except such pears of the 165 size or larger must be at least U.S. No. 2 grade. Pears in specified containers shall grade at least U.S. No. 2 and be not smaller than 2¼ inches or 2⅛ inches in diameter as specified for the particular container. Several containers and packs are authorized. The proposed extension of the effective period of Bartlett Pear Regulation 11 is designed to maintain orderly marketing conditions and provide consumers with an ample supply of acceptable quality fruit. Industry reports indicate that fresh shipments of Washington-Oregon Bartlett pears will total about 56,684 tons in 1976, compared to 68,200 tons in 1975 and 49,300 tons in 1974. The proposed amendment is consistent with the quality and size composition of the estimated crop of Washington-Oregon Bartlett pears.

The proposed amendment was submitted by the Northwest Fresh Bartlett Pear Marketing Committee, established pursuant to the marketing agreement and Order No. 931 (7 CFR Part 931) regulating the handling of fresh Bartlett pears grown in Oregon and Washington. This is a regulatory program effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

All persons who desire to submit written data, views, or arguments for consideration in connection with Bartlett Pear Regulation 11, as published in the FEDERAL REGISTER on July 22, 1976 (41 FR 30094), or the proposed amendment published herein, shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112A, Washington, D.C. 20250, not later than August 30, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the

V 41 152 AUG 5 76 UMI

Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposal is to amend § 931.311 by changing the date from "September 15, 1976" to "June 30, 1977" where it appears in § 931.311(a) preceding subparagraph (1). As amended said § 931.311 would read as follows:

§ 931.311 Bartlett Pear Regulation 11.

(a) During the period August 1, 1976, through June 30, 1977, no handler shall handle • • •

• • • • • •

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: August 2, 1976.

G. H. GOLDSBOROUGH,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76–22822 Filed 8–4–76;8:45 am]

[7 CFR Part 946]

IRISH POTATOES GROWN IN WASHINGTON

Proposed Expenses and Rate of Assessment

Consideration is being given to authorizing the State of Washington Potato Committee to spend $16,200 for its operations during the fiscal period ending June 30, 1977, and to collect one-tenth cent per hundredweight on assessable potatoes handled by first handlers under the program.

The committee is the administrative agency established under Marketing Agreement No. 113 and Order No. 946, both as amended, regulating the handling of Irish potatoes grown in Washington. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

All persons who desire to submit written data, views, or arguments in connection with this proposal should file the same, in duplicate, with the Hearing Clerk, Room 112–A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than August 20, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposals are as follows:

§ 946.229 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending June 30, 1977, by the State of Washington Potato Committee for its maintenance and functioning and for such other purposes as the Secretary may determine to be appropriate will amount to $16,200.

(b) The date of assessment to be paid by each handler in accordance with this part shall be one-tenth cent ($0.001) per hundredweight, or equivalent quantity, of potatoes handled by him as the first handler thereof during the fiscal period, except potatoes for canning, freezing, and "other processing" as defined in the act shall be exempt.

(c) Unexpended income in excess of expenses for the fiscal period may be carried over as a reserve to the extent authorized in § 946.42(a).

(d) Terms used in this section have the same meaning as when used in the marketing agreement and this part.

Dated: July 30, 1976.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

NEW ORLEANS VESSEL TRAFFIC SERVICE

Extension of Comment Period

This notice extends the period for comment on the advance notice of proposed rulemaking published June 17, 1976 (41 FR 26604, 24605, 24606 and 24607), proposing operating regulations for the New Orleans Vessel Traffic Service (VTS) from August 2, 1976, to September 3, 1976.

Industry representatives and other individuals requested an extension of the comment period. The following reasons were given:

1. The American Waterways Operators regional meeting in New Orleans was held on July 16. Two weeks is an inadequate time to evaluate the discussions and to prepare a response to the docket.

2. The New Orleans Vessel Traffic Service steering committee is scheduled to meet on August 18, two weeks after the closing date for comments. It would be helpful to have the benefit of this meeting in preparing the response.

In consideration of these requests, the comment period on Coast Guard notice CGD 75–112 is extended to September 3, 1976.

Dated: July 26, 1976.

A. F. FUGARO,
Rear Admiral, U.S. Coast Guard; Chief, Office of Marine Environment and Systems.

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 76–SO–73]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Morganton, N.C., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before September 21, 1976, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 645, 3400 Whipple Street, East Point, Ga.

The Morganton transition area described in § 71.181 (41 FR 440) would be amended by deleting the present description and substituting the following therefor:

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Morganton-Lenoir Airport (Lat. 35°49'20" N., Long. 81°36'50" W.); within 3 miles each side of the 205° bearing from Morganton RBN (Lat. 35°42'36" N., Long. 81°40'17" W.), extending from the 8.5 mile-radius area to 8.5 miles southwest of the RBN; excluding the portion that coincides with the Hickory transition area.

The proposed alteration is required for the following reasons:

1. Increase basic radius area from 8 miles to 8.5 miles to provide additional controlled airspace for IFR departures.

2. Revoke an extension predicated on the Morganton RBN at its present location.

3. Designate an extension predicated on the Morganton RBN which is being relocated from on the airport to a site 6.9 miles southwest of the airport.

It is anticipated that the name of the RBN will be changed when it is relocated, as it is FAA policy that only navigational aids located on an airport will carry the same name as the airport. The new name will be reflected in the final airspace rule.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on July 26, 1976.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.76–22559 Filed 8–4–76;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 76–SO–72]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Ahoskie, N.C., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before September 21, 1976, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 645, 3400 Whipple Street, East Point, Ga.

The Ahoskie transition area described in § 71.181 (41 F.R. 440) would be amended by deleting the present description and substituting the following therefor:

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Tri-County Airport (Lat. 36°17'56" N., Long. 77°10'26" W.); within 3 miles each side of the 171° bearing from the Ahoskie RBN (Lat. 36°17'57" N., Long. 77°10'33" W.), extending from the 6.5-mile radius area to 8.5 miles south of the RBN.

The proposed alteration is required for the following reasons:

1. Increase basic radius area from 5 miles to 6.5 miles to provide additional controlled airspace for IFR departures.

2. Revoke an extension predicated on the Cofield VORTAC as it will not be required if the basic radius area is enlarged.

3. Establish an extension predicated on the Ahoskie RBN (nonfederal) which is to be installed on the airport for IFR operations.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1938 (49 U.S.C. 1348(a)) of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on July 26, 1976.

PHILLIP M. SWATEK,
Director, Southern Region.

[14 CFR Part 71]

[Airspace Docket No. 76–SO–55]

VOR AIRWAYS

Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the VOR airway structure in the vicinity of Alma, Ga.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before September 7, 1976, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC–24, 800 Independence Avenue, S.W., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

Request for copies of this notice of proposed rulemaking should be addressed to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA–230, 800 Independence Avenue, S.W., Washington, D.C. 20591.

The proposed amendment would:

1. Realign V–5 and V–51 in part from Jacksonville, Fla.; INT Jacksonville 318°T (318°M) and Alma, Ga., 150°T (150°M) radials; Alma; INT Alma 342°T (342°M) and Dublin, Ga., 167°T (168°M) qradials; Dublin.

2. Realign V–243 in part from Jacksonville, Fla.; INT Jacksonville 318°T (318°M) and Waycross, Ga., 126°T (126°M) radials; Waycross.

3. Realign V–267 in part from Jacksonville, Fla.; INT Jacksonville 333°T (333°M) and Dublin, Ga., 152°T (153°M) radials; Dublin.

4. Realign V–5W in part from Alma, Ga.; INT Alma 311°T(311°M) and Vienna, Ga., 124°T (123°M) radials; Vienna; Macon, Ga.

5. Delete the present V–5W airway segment between Dublin, Ga., and Macon, Ga.

6. Delete the present V–51E airway segment between Jacksonville, Fla., and Alma, Ga.

7. Delete the present V–243E airway segment between Waycross, Ga., to Vienna, Ga., via Alma, Ga.

The airway structure in this area has not been changed in recent years. Therefore, there are some airway segments which are no longer needed due to changes in procedures and traffic flow. At the present time there are no VOR airways aligned to accommodate aircraft requesting direct routing from over Alma to Macon. Radar coverage from about thirty miles north of Alma to the Jacksonville/Atlanta Centers' boundary below $8,000 feet is very limited. Due to this restricted radar coverage, it is difficult to provide radar services and separation to aircraft operating at lower altitudes.

Improved airborne navigational equipment and the pilot's desire to conserve fuel, make direct routes more desirable. Although a direct route between Alma and Macon is desired, such a route would create operational problems in the Warner Robins/Macon terminal area. We propose to realign V–5W from Alma to Macon via Vienna to resolve most of the operational problems in this area.

The radar coverage southeast of Alma is very good and radar procedures are used almost exclusively. The requirement to retain V–51E between Jacksonville and Alma no longer exists. V–243E was established to provide routing around the Moody AFB ISJTA No. 3 area. This training area has been cancelled; thus, the justification of the present alignment of V–243E is no longer valid.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on July 29, 1976.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.76–22556 Filed 8–4–76;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 76–GL–26]

VOR AIRWAYS

Proposed Revocation

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the VOR airway structure between Bradford and Capital, Ill.

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon, Des Plaines, Ill. 60018. All communications received on or before September 7, 1976, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the

V 41 152 AUG 5 76 UMI

Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

Request for copies of this Notice of Proposed Rule Making should be addressed to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-230, 800 Independence Avenue SW., Washington, D.C. 20591.

The proposed amendment would revoke that segment of V-127 presently established between Bradford, Ill., and Capital, Ill.

The increase in radar services in this area would allow air traffic control to provide more direct routing for the few aircraft that file for this airway, thereby eliminating the need for this airway segment.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on July 29, 1976.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.76-22557 Filed 8-4-76;8:45 am]

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 270]

[Release Nos. 33-5724, IC-9347, File No. S7-644]

RETROACTIVE SHARES

Proposal To Permit Certain Registration

The Securities and Exchange Commission today published for public comment a proposed Rule 24f-2 [17 CFR 270.24f-2] under the Investment Company Act of 1940 ("Investment Company Act") [15 U.S.C. 80a-24(f)] for registration under the Securities Act of 1933 ("Securities Act") [15 U.S.C. 77a et seq.] of an indefinite number of securities of certain investment companies. One purpose of the proposed rule is to allow the registration fee paid on such securities to be based upon actual sales in certain circumstances, rather than on estimates of the amount of securities to be sold. In addition, the proposed rule might relieve certain investment companies and indirectly their security holders of certain costs associated with the monitoring of the amounts of securities sold and the triple filing fee presently required for retroactive registration of shares. The Commission also published for comment a conforming amendment to Rule 24f-1 [17 CFR 270.24f-1] under the Investment Company Act to require the filing of an opinion of counsel with respect to the legality of the issuance of securities registered retroactively under that rule.

BACKGROUND AND PURPOSE

In 1970, Section 24(f) of the Investment Company Act [15 U.S.C. 80a-24(f)] was amended to permit the Commission to adopt rules concerning the retroactive registration of securities under the Securities Act, where the number of shares sold exceeded the number of shares registered. Pursuant to this authority, the Commission has adopted Rule 24f-1 allowing the retroactive registration of securities if: (1) the securities are retroactively registered within six months of their sale; (2) a filing fee three times the usual fee is paid and (3) a current prospectus was delivered to persons purchasing the oversold shares.

The amendment to Section 24(f) also empowered the Commission to adopt rules to allow the registration of an indefinite number of securities offered by certain investment companies. The Commission believes in view of its experience with Rule 24f-1 that it would be appropriate to propose a rule allowing the registration of an indefinite number of shares. Under both Rule 24f-1 and proposed Rule 24f-2, investors would have the protections afforded under the Securities Act since they would receive a current prospectus with respect to the security and would have the remedies available specified in the Act.

SYNOPSIS OF THE PROVISIONS OF PROPOSED RULE 24f-2

PROPOSED RULE 24f-2(a)

Proposed Rule 24f-2(a) would allow the registration statement of an open-end investment company filed under the Securities Act, either in the initial filing or in a post-effective amendment, to declare on the facing page that an indefinite number of shares or amount of securities are being registered. As to such indefinite number or amount, a fee of $2,000.00 is require to be paid. If a definite number or amount also were being registered, the fee as to such securities would be computed in the usual way in accordance with Section 6(b) of the Securities Act [15 U.S.C. 77f(b)]. This declaration would have to be made only once for each registration statement. The declaration would not be operative until the registration statement, or amendment thereto, in which it is included were effective; once operative, the declaration would remain in effect as to that registration statement until terminated through a statement on the facing page of a post-effective amendment, or pursuant to paragraph (b)(4) of Rule 24f-2.

PROPOSED RULE 24f-2(b)

If a registrant chose to avail itself of paragraph (a) of proposed Rule 24f-2, proposed Rule 24f-2(b) would require that, as to each registration statement in which the declaration is operative, a notice be filed within 120 days after the close of any fiscal year during which such declaration was operative. This notice would disclose: (i) the number of shares or amount of securities of the same class or series which had been registered under the Securities Act other than pursuant to the proposed rule, but which remained unsold at the beginning of the issuer's most recent fiscal year; (ii) the number of such shares or amount of securities, if any, registered during such fiscal year other than pursuant to the proposed rule; (iii) the number of such shares or amount of securities sold during such fiscal year; and (iv) the number of shares or amount of securities sold in reliance on the registration statement pursuant to Rule 24f-2. If the required notice were not timely filed, sales of securities pursuant to the registration statement would have to cease. Sales could not resume until the issuer filed a new registration statement which thereafter became effective. Proposed paragraph (b)(2) of Rule 24f-2 also requires that the follow-up notice be accompanied by an opinion of counsel relative to the legality of the issuance of the securities the registration of which the the notice makes definite in number.

Under proposed paragraph (b)(3) of Rule 24f-2, at the time the registration of an indefinite number of shares or amount of securities is made definite as to such number or amount, pursuant to a notice filed under proposed Rule 24f-2(b)(1), the filing fee to be paid would be computed in accordance with Section 6(b) of the Securities Act. For purposes of computing this fee, the proposed rule requires that the calculation be based upon the actual aggregate sale price of all such shares.

Proposed paragraph (b)(4) of Rule 24f-2 states that if a registrant has in effect a declaration to register an indefinite number of shares, and if such registrant proposes to cease its separate operations pursuant to a dissolution, liquidation, merger or otherwise, the registrant would file the notice described in paragraph (b) of Rule 24f-2 prior to the cessation of operations. In addition to any other required information, the notice would describe the registrant's status relative to its proposal to cease operations and the notice would terminate the declaration described in Rule 24f-2(a)(1) without the need for the filing of a separate post-effective amendment.

It is intended that the notice would be effective immediately upon proper filing. Accordingly, proposed paragraph (b)(5) of Rule 24f-2 states that such is the result, even though the notice is filed as a part of a post-effective amendment. However, the amendment itself would not be effective until specified by the Commission pursuant to Section 8(c) of the Securities Act [15 U.S.C. 77h(c)].

PROPOSED RULE 24f-2(c)

Proposed Rule 24f-2(c) provides that the registration fees to be paid pursuant to the rule would be by United States postal money order, certified bank check or cash, and that there would be no refund once the statement is filed. The proposed rule also specifies that the $2,000.00 fee paid at the time of the filing of the declaration called for by Rule 24f-2(a)(2) cannot be credited against registration fees required to be paid pursuant to Rule 24f-2(b)(3) so long as the declaration remains in effect, but provides that upon the express termination of the declaration or termination pursuant to paragraph (b)(4) of the rule, the fee would be applied toward the payment of a fee called for in any final notice. Any amount in excess of the final payment will not be refunded.

PROPOSED AMENDMENT TO RULE 24f-1

One of the requirements of proposed Rule 24f-2 is that the notice to make the number of shares definite must be filed with an opinion of counsel with respect to the legality of the issuance of the securities which are the subject of the notice. Rule 24f-1 presently does not contain any such requirement when securities are retroactively registered under the rule. Accordingly, to conform Rule 24f-1 with proposed Rule 24f-2, the Commission is proposing to amend the former rule to require a similar opinion of counsel.

OTHER MATTERS

It should be noted that any failure by an issuer to file the notice required by proposed Rule 24f-2(b)(1) may cast doubt on whether securities theretofore sold were properly registered. If securities are registered on an indefinite basis, and if the registration is not made definite as to the amount, full compliance with the registration requirements of the Securities Act may be questioned. In particular, the full filing requirements of Sections 6 (b) and (c) of the Securities Act [15 U.S.C. 77f(b), 77f(c)] may not have been met.

It is also recognized that the proposed rule may be used in many instances in lieu of the procedure for retroactive registration of securities under Rule 24f-1. In order to obtain the views of interested persons on this matter, the Commission also invites public comment on the desirability of retaining or repealing Rule 24f-1.

The Commission hereby publishes for comment proposed Rule 24f-2 and an amendment to Rule 24f-1 pursuant to Section 24 of the Investment Company Act of 1940 [15 U.S.C. 80a-24] and Sections 6(b), 7 and 19(a) of the Securities Act of 1933 [15 U.S.C. 77f(b), 77(g), 77s(a)].

All interested persons are invited to submit their views and comments on the foregoing proposals to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549 on or before September 15, 1976. All such communications will be available for public inspection and should refer to File No. S7-644. The text of proposed Rule 24f-2 and the proposed amendment to Rule 24f-1 follows.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

JULY 8, 1976.

I. Section 270.24f-2 is added to read as follows:

§ 270.24f-2. Registration under the Securities Act of 1933 of an indefinite number of certain investment company securities.

(a)(1) In the case of securities issued by a face amount certificate company or redeemable securities issued by an open-end management company or unit investment trust, the issuer may declare that it elects to register an indefinite number of shares or amount of securities under the Securities Act of 1933 [15 U.S.C. 77a et seq.] by specifying on the facing page of such registration statement that an indefinite number of shares or amount of its securities is being registered by such registration statement, or if a registration statement is in effect as to such securities, may amend such registration statement to specify on the cover page that the number of shares or amount of securities of the same class or series being registered is increased to an indefinite number or amount. The declaration described in this section shall not be operative until the filing in which it is included is declared effective; subject to Rule 24f-2(b)(4), such declaration, once operative, shall remain in effect as to such registration statement until expressly terminated in a statement on the facing page of a post-effective amendment thereto.

(2) At the time of filing such registration statement or amendment there shall be paid to the Commission a fee of $2,000.00, which is not refundable, but may be credited as provided by paragraph (c) of this section.

(3) If the amount of the fee in paragraph (a)(2) of this section is thereafter increased, each issuer then having in effect a declaration under paragraph (a)(1) of this section shall pay as an additional fee with respect to such declaration the difference between the total fee previously paid pursuant to paragraph (a) of this section and the amount of the amended fee. Such additional fee shall be paid within ninety days after the date upon which the increased fee of paragraph (a)(3) of this section is in effect.

(4) If such registration statement or amendment, in addition to specifying an indefinite number of shares or amount of securities, also registers a definite number of shares or a definite amount of securities, there shall also be paid to the Commission with respect to such definite amount of securities a registration fee calculated in the manner specified in Section 6(b) of the Securities Act of 1933 [15 U.S.C. 77f(b)] and the rules and regulations thereunder.

(b)(1) If an issuer has filed the declaration described in paragraph (a)(1) of this section, it shall, with respect to such registration statement and within 120 days after the close of any fiscal year during which such declaration was in effect, file a notice containing the information specified in paragraph (b)(2) of this section, to be accompanied by the additional filing fee, if any, specified in paragraph (b)(3). Unless such notice is filed within the specified time, the registrant shall discontinue sales of securities pursuant to such registration statement. Such notice may but need not be filed as part of a post-effective amendment to the registration statement.

(2) The notice described in paragraph (b)(1) of this section shall state: (i) the number of shares or amount of securities of the same class or series, if any, which had been registered under the Securities Act of 1933 other than pursuant to this rule but which remained unsold at the beginning of the issuer's most recent full fiscal year; (ii) the number of such shares or amount of securities, if any, registered during such fiscal year other than pursuant to this rule; (iii) the number of such shares or amount of securities sold during such fiscal year; and (iv) the number of shares or amount of securities sold in reliance on the registration pursuant to this Rule 24f-2. There shall also be filed with the notice an opinion of counsel as to the legality of the securities the registration of which the notice makes definite in number; the opinion shall indicate whether the securities were legally issued, fully paid and non-assessable.

(3) When the registration of an indefinite number of shares or amount of securities is made definite as to such number or amount, in a notice filed pursuant to Rule 24-2(b)(1), the filing fee to be paid as to such securities or amount shall be the fee, if any, calculated in the manner specified in section 6(b) of the Securities Act of 1933 and the rules and regulations thereunder. Such fee shall be based upon the actual aggregate sale price for such securities.

(4) If a registrant has in effect a declaration described in paragraph (a)(1) of this section, and if such registrant proposes to cease its separate operations, such registrant shall file the notice described in this paragraph (b) after the termination of sales of securities pursuant to this rule and prior to its cessation of operations. In addition to the other required information and fees, such notice shall be deemed as terminating the declaration described in paragraph (a)(1).

(5) If a notice is properly filed under paragraph (b) of this section, including the payment of the filing fee, it shall be effective immediately upon filing, notwithstanding that it is filed with or as part of a post-effective amendment to the registration statement; any such amendment shall not be effective until the Commission acts pursuant to section 8 (c) of the Securities Act of 1933 [15 U.S.C. 77h(c)].

(c) Payment of fees to the Commission pursuant to this Rule 24f-2 shall be by United States postal money order or certified bank check or cash. There will be no refund once the statement is filed. Fees paid pursuant to paragraph (a) of this section cannot be credited against registration fees which become payable pursuant to paragraph (b)(3) of this section while the declaration required by

V 41 152 AUG 5 76 UMI

this rule remains in effect. If a notice required by paragraph (b)(3) is filed with respect to the fiscal year during which such declaration is expressly terminated, or pursuant to paragraph (b)(4), the fee required to be paid with such filing may be reduced by the amount of the fee paid pursuant to paragraph (a). Amounts in excess of the fee required to be paid pursuant to paragraph (b)(3) are not refundable.

2. Section 270.24f-1(b)(3) is revised to read as follows.

§ 270.24f-1. Retroactive registration under the Securities Act of 1933 of certain investment company shares sold in excess of number of shares included in an effective registration statement.

* * * * *

(b) * * *

(3) The notification shall include as an exhibit a certified copy of a resolution of the board of directors of the issuer authorizing the filing of the notification and shall be signed for the issuer by a duy authorized officer thereof. Five copies of the notification shall be filed, at least one of which shall be manually signed. The other copies may have facsimile or typed signatures. The notification shall also include an opinion of counsel as to the legality of the securities being registered, indicating whether they were legally issued, fully paid and non-assessable.

SHIPPING COORDINATING COMMITTEE; SUBCOMMITTEE ON TONNAGE MEASUREMENT

Meeting

The Subcommittee on Tonnage Measurement of the Shipping Coordinating Committee will hold an open meeting at 10 a.m. on Monday, August 30, 1976, in Room 8236 of the Department of Transportation, 400 Seventh Street SW., Washington, D.C.

The purpose of the meeting will be to review a position on matters related to the impact of the 1969 Tonnage Measurement Convention on special types of ships for the U.S. Delegation to the 35th Session of the Maritime Safety Committee of the Intergovernmental Maritime Consultative Organization (IMCO).

For further information on the meeting, those interested should contact Mr. Phillip S. Stitt, United States Coast Guard. He may be reached by telephone on (area code 202) 426-1292.

The Chairman will entertain comments from the public as time permits.

RICHARD K. BANK,
Chairman, Shipping Coordinating Committee.

July 27, 1976.

DEPARTMENT OF THE TREASURY

Office of the Secretary

ADVISORY COMMITTEE ON REFORM OF THE INTERNATIONAL MONETARY SYSTEM

Renewal

Pursuant to the Federal Advisory Committee Act of October 6, 1972, (Public Law 92-463, 86 Stat. 770-776, 5 U.S.C. App. I, Supp. II) the Department of the Treasury announces the renewal of the following advisory committee:

Title: The Advisory Committee on Reform of the International Monetary System.

Purpose: The Committee, composed of representatives from industry and banking, as well as former government officials, discusses major issues concerning the effective functioning of the international monetary system now and in the future, and potential areas for improvement or reform, advising the Secretary of the Treasury on U.S. strategy and substantive positions on these questions in the International Monetary Fund and in other forums.

Statement of Public Interest: The formal negotiations on monetary reform conducted within the International Monetary Fund were concluded on April 30, 1976 with the adoption of a decision by the IMF Board of Governors approving the proposed Second Amendment to the Articles of Agreement of the Fund. However, during the period of transition from the existing legal structure to the new structure proposed in the amended Articles, careful consideration of issues related to the appropriate evolution of the international monetary system will be especially important. In particular, the proposed amendment to the IMF Articles will require decisions by the IMF Executive Board for its effective implementation. It is important that the Secretary of the Treasury continue to be able to receive the advice and recommendations of the Advisory Committee in this period. The depth and breadth of the members' experience in international monetary affairs cannot be duplicated from sources within the Treasury nor from another existing advisory committee.

Authority for this committee will expire August 21, 1978 unless the Secretary of the Treasury formally determines that continuance is in the public interest.

Dated: July 30, 1976.

EDWIN H. YEO III,
Under Secretary for Monetary Affairs.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Colorado 24124]

NORTHWEST PIPELINE CORP.

Application

JULY 29, 1976.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 U.S.C. 185), Northwest Pipeline Corporation, P.O. Box 1526, Salt Lake City, Utah 84110, has applied for right-of-way for a 200 feet by 200 feet site for a field compressor covering approximately 0.918 acres of the following National Resource Land in Rio Blanco County, Colorado:

T. 2 S., R. 101 W., 6th P.M.,
Section 4: SW¼SE¼.

The facility will enable applicant to add to its natural gas gathering system in Rio Blanco County, Colorado.

The purposes of this notice are: to inform the public that the Bureau of Land Management will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved and, if so, under what terms and conditions; to allow interested parties to comment on the application, and to allow any persons asserting a claim to the lands or having bona fide objections to the proposed compressor site right-of-way to file their objections in this office. Any person asserting a claim to the lands or having bona fide objections must include evidence that a copy thereof has been served on the applicant.

Any comment, claim, or objections must be filed with the Chief, Branch of Land Operations, Bureau of Land Management, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, as promptly as possible after publication of this notice.

ALAN D. CAMPBELL,
Acting Chief, Branch of Land Operations.

[FR Doc.76-22722 Filed 8-4-76;8:45 am]

[Colorado 24129]

NORTHWEST PIPELINE CORP.

Application

JULY 29, 1976.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 U.S.C. 185), Northwest Pipeline Corporation, P.O. Box 1526, Salt Lake City, Utah 84110, has applied for right-of-way C-24129 for a 4½ inch o.d. natural gas gathering pipeline crossing approximately 0.762 miles of the following described National Resource Land in Rio Blanco County:

T. 4 S., R. 102 W., 6th P.M.,
Section 3: Lots 7 and 8.
T. 3 S., R. 102 W., 6th P.M.,
Section 34: SW¼SW¼,NW¼SW¼, SW¼NW¼.

The facility will enable applicant to construct, operate and maintain the subject natural gas gathering pipeline and meet applicant's customer requirements for additional natural gas.

The purposes of this notice are: to inform the public that the Bureau of Land Management will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved and, if so, under what terms and conditions; to allow interested parties to comment on the application, and to allow any persons asserting a claim to the lands or having bona fide objections to the proposed natural gas gathering pipeline right-of-way to file their objections in this office. Any person asserting a claim to the lands or having bona fide objec-

[Colorado 24022]

ROCKY MOUNTAIN NATURAL GAS COMPANY, INC.

Application

JULY 29, 1976.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 U.S.C. 185), Rocky Mountain Natural Gas Company, P.O. Box 700, Glenwood Springs, Colorado 81601, has applied for a right-of-way for a 2-inch natural gas gathering line totaling approximately 3.5 miles in length across the following lands:

T. 2 S., R. 98 W., 6th P.M.,
Through Sections 22, 21, 28, 29, 20, and 19.

The proposed gathering line will convey natural gas into Rocky Mountain Natural Gas Company's existing Black Sulphur Creek gathering system in Rio Blanco County, Colorado. The pipeline will help provide needed additional natural gas in applicant's service area.

The purposes of this notice are: to inform the public that the Bureau of Land Management will be proceeding with the preparation of environmnetal and other analyses necessary for determining whether the application should be approved and, if so, under what terms and conditions; to allow interested parties to comment on the application, and to allow any persons asserting a claim to the lands or having bona fide objections to the proposed natural gas gathering pipleine right-of-way to file their objections in this office. Any person asserting a claim to the lands or having bona fide objections must include evidence that a copy thereof has been served on the applicant.

Any comment, claim, or objections must be filed with the Chief, Branch of Land Operations, Bureau of Land Management, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, as promptly as possible after publication of this notice.

ALAN D. CAMPBELL,
Acting Chief,
Branch of Land Operations.

[FR Doc.76-22690 Filed 8-4-76;8:45 am]

[Colorado 24004]

WESTERN SLOPE GAS CO.

Application

JULY 29, 1976.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 U.S.C. 185), Western Slope Gas Company, P.O. Box 840, Denver, Colorado 80201, has applied for a right-of-way for a 4½", 6⅝", and 8⅝" o.d. natural gas transmission and gathering pipelines crossing approximately 14.07 miles of the following National Resource Land in Rio Blanco County, Colorado:

T. 3 S., R. 101 W., 6th P.M.
Sections 5, 7, 8, 16, 17, 18, 20, 21, 30 and 31
T. 3 S., R. 102 W., 6th P.M.
Sections 24, 25, and 36
T. 4 S., R. 101 W., 6th P.M.
Section 6
T. 4 S., R. 102 W., 6th P.M.
Section 1.

The facility will enable applicant to construct, operate and maintain the proposed pipelines and convey natural gas from various gas wells in the South Douglas Natural Gas Field to the Grand Junction, Colorado, market area for residential, commercial and industrial uses.

The purposes of this notice are: to inform the public that the Bureau of Land Management will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved and, if so, under what terms and conditions; to allow interested parties to comment on the application, and to allow any persons asserting a claim to the lands or having bona fide objections to the proposed natural gas gathering pipeline right-of-way to file their objections in this office. Any person asserting a claim to the lands or having bona fide objections must include evidence that a copy thereof has been served on applicant.

Any comment, claim, or objections must be filed with the Chief, Branch of Land Operations, Bureau of Land Management, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, as promptly as possible after publication of this notice.

ALAN D. CAMPBELL,
Acting Chief,
Branch of Land Operations.

CEDAR CITY DISTRICT MULTIPLE USE ADVISORY BOARD

Meeting

Notice is hereby given in accordance with Pub. L. 92-463, that a meeting of the Cedar City District Multiple Use Advisory Board will be held on September 23, 1976, at 9:30 a.m. at the District Office, 1579 North Main Street, Cedar City, Utah.

The advisory board was established to advise the District Manager on matters relating to the use, management, protection and disposition of lands and resources administered within the Cedar City District.

The agenda for the meeting will include introductory and orientation items including a review of the Advisory Board Charter, review of duties, election of officers and organization of the Board, introduction of District staff and duties, BLM program orientation, Status of District planning efforts, and a review of items "in progress" prior to formation of the Board. Topics will include the Bureau's grazing program and Hot Desert range environmental statement, Southern Utah Coal Fields regional environmental statement, and wild horse plans.

The meeting is open to the public. Interested persons can make oral presentations to the Board or file written statements; however, requests for oral presentations before this Board should be made to the official listed below at least two days prior to the meeting. The Chairman or Authorized Federal Official may limit public attendance to the extent that available facilities and time require limitation.

Further information concerning this meeting may be obtained from Morgan S. Jensen, District Manager, Bureau of Land Management, 1579 North Main Street, Cedar City, Utah 84720, telephone number (801) 586-2401. Minutes of the meeting will be available for public inspection and copy two weeks after the meeting at the Cedar City District Office, 1579 North Main Street, Cedar City, Utah.

Dated: July 28, 1976.

MORGAN S. JENSEN,
District Manager.

Forest Service

BEARTOOTH PLATEAU UNIT FOR THE SHOSHONE, CUSTER, AND GALLATIN NATIONAL FORESTS

Availability of Draft Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Beartooth Plateau Unit for the Shoshone, Custer, and Gallatin National Forests. The Forest Service report number is USDA-FS-R2-DES(Adm).

This draft environmental statement was transmitted to CEQ on July 22, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th St. and Independence Ave., SW., Washington, D.C. 20250.
USDA, Forest Service, Shoshone National Forest, West Yellowstone Highway, P.O. Box 961, Cody, Wyoming 82414.
USDA, Forest Service, Custer National Forest, 2602 1 Avenue North, P.O. Box 2556, Billings, Montana 59103.
USDA, Forest Service, 11177 West 8th Avenue, P.O. Box 25127, Denver, Colorado 80225.
USDA, Forest Service, Region 1, Federal Building, Missoula, Montana 59801.
USDA, Forest Service, Gallatin National Forest, Federal Building, P.O. Box 130, Bozeman, Montana 59715.

A limited number of single copies are available upon request to John W. Mumma, Forest Supervisor, Shoshone National Forest, P.O. Box 961, Cody, Wyoming 82414; Daniel C. MacIntyre, Custer National Forest, P.O. Box 2556, Billings, Montana 59103; and Lewis E. Hawkes, P.O. Box 130, Bozeman, Montana 59715.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to John W. Mumma, Forest Supervisor, USDA, Forest Service, West Yellowstone Highway, P.O. Box 961, Cody, Wyoming 82414. Comments must be received by September 30, 1976, in order to be considered in the preparation of the final environmental statement.

Dated: July 22, 1976.

JOHN W. MUMMA,
Forest Supervisor.

LAND USE PLAN MAGPIE-CONFEDERATE PLANNING UNIT

Availability of Draft Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Land Use Plan — Magpie-Confederate Planning Unit, Forest Service Report Number USDA-FS-R1(12)-DES-Adm-76-19.

The environmental statement concerns the proposed implementation of a revised Land Use Plan for the Magpie-Confederate Planning Unit, Canyon Ferry and Townsend Ranger District, Helena National Forest, Broadwater and Lewis and Clark Counties, Montana. About 83,733 acres of National Forest land are affected. The planning unit is divided into five management units, with different resource potentials and management limitations. Significant values, management direction, and specific statements to guide land management have been developed for each management unit.

This draft environmental statement was transmitted to CEQ on July 28, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th St. and Independence Ave. SW., Washington, D.C. 20250.
USDA, Forest Service, Northern Region, Federal Building, Missoula, MT 59801.
USDA, Forest Service, Helena National Forest, 616 Helena Avenue, Helena, MT 59601.
USDA, Forest Service, Townsend Ranger Station, Townsend, MT 59644.
USDA, Forest Service, Canyon Ferry Ranger Station, 2001 Poplar, Helena, MT 59601.

A limited number of single copies are available upon request to:

USDA, Forest Service, Helena National Forest, 616 Helena Avenue, Helena, MT 59601.
USDA, Forest Service, Townsend Ranger Station, Townsend, MT 59644.
USDA, Forest Service, Canyon Ferry Ranger Station, 2001 Poplar, Helena, MT 59601.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and request for additional information should be addressed to Forest Supervisor James R. Jordan, Helena National Forest, 616 Helena Avenue, Helena, MT 59601. Comments must be received by September 28, 1976 in order to be con-

V 41 I 152 AUG 5 76 UMI

sidered in the preparation of the final environmental statement.

JAMES R. JORDAN,
Forest Supervisor,
Helena National Forest.

MULTIPLE USE PLAN, NINEMILE-MILL PLANNING UNIT

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Multiple Use Plan Ninemile-Mill Planning Unit, USDA-FS-R1(16)DES-Adm-76-20.

The environmental statement concerns a proposed action to implement a revised Multiple Use Plan for the Ninemile-Mill Planning Unit, located on the Ninemile and Missoula Ranger Districts, Lolo National Forest in Missoula, Mineral, Lake, and Sanders Counties, Montana. The action affects 120,950 acres of National Forest land of which 96 percent is in Missoula County. The plan recommends that the area be managed in various combinations for recreation, esthetics, fisheries, wildlife, watershed, timber and range. An area of 19,920 acres which will remain unroaded will be managed for recreation, esthetics, wildlife, and watershed.

The primary environmental effects involve the modification of natural conditions on 33,400 acres that are presently roadless. The major changes will be in the vegetative patterns and tree species resulting from management of the vegetative resources; the availability of products, employment, and services provided; and in the natural condition of vegetation, soil, water, and wildlife.

This draft environmental statement was transmitted to CEQ on July 29, 1976. Copies are available for inspection during regular working hours at the following locations.

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th St., & Independence Ave., SW., Washington, D.C. 20250.

USDA, Forest Service, Northern Region, Federal Building, 340 N. Pattee, Missoula, MT 59801.

USDA, Forest Service, Lolo National Forest, Building 24, Fort Missoula, Missoula, MT 59801.

USDA, Forest Service, Ninemile Ranger District, Huson, MT 59846.

USDA, Forest Service, Missoula Ranger District, 2801 Russell, Missoula, MT 59801.

University of Montana, University Library, Documents Division, Missoula, MT 59801.

University of Montana, Forestry School Library, Room 411, Science Complex, Missoula, MT 59801.

Missoula City—County Library, Washington & East Main, Missoula, MT 59801.

A limited number of single copies are available upon request to Orville L. Daniels, Forest Supervisor, Lolo National Forest, Building 24, Fort Missoula, Missoula, Montana 59801.

Copies of the environmental statement have been sent to various federal, state and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public and from the State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor, Orville L. Daniels, Lolo National Forest, Building 24, Fort Missoula, Missoula, Montana 59801.

Comments must be received by September 28, 1976, in order to be considered in the preparation of the Ninemile-Mill final environmental statement.

ORVILLE L. DANIELS,
Forest Supervisor.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

UNIVERSITY OF TEXAS, ET AL.

Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301). (See especially Section 301.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 76-00358. Applicant: University of Texas Health Sciences Center at Dallas, 5323 Harry Hines Blvd., Dallas, Texas 75235. Article: Electron Microscope, Model JEM-100S.

Manufacturer: JEOL, Japan. Intended use of article: The article is intended to be used in the following experiments to determine at a structural level the physiological phenomena which occur at these tissues and where applicable to determine the etiologic agent causing the cellular dysfunction:

(1) Studies of liver biopsy material from patients with non-A,B hepatitis to determine the identity of this new virus.

(2) Studies of the liver disease which occurs with high frequency in patients who have undergone renal transplantation.

(3) Investigation of channels formed by groups of microtubules within the axon.

The article will also be used for educational purposes in several educational courses which include: General pathology for sophomore medical students, residency, training in pathology, and graduate training in comparative pathology and microbiology. Application received by Commissioner of Customs: March 29, 1976. Advice submitted by the Department of Health, Education, and Welfare on June 23, 1976. Article ordered: May 6, 1976.

Docket number: 76-00368. Applicant: Regents of the University of California, Department of Botany, Davis, California 95616. Article: Electron Microscope, Model JEM-100S and accessories.

Manufacturer: JEOL, Japan. Intended use of article: The article is intended to be used to examine botanical material after it has been fixed, dehydrated, embedded in plastic, and thin sectioned. Some botanical material prepared by freeze-etch techniques will also be examined. The experiments to be conducted will be designed to determine the fine structure of male and female gametophytes of conifers, of somatic and reproductive structures of fungi, and of blue green and green algae. Other experiments will be conducted to determine the effects of various chemicals and environmental conditions on plant cell structure. In addition, the article will be used in the course Botany 231L Biological Electron Microscopy an introductory course to biological microscopy which emphasizes specimen preparation and transmission electron microscope operation. Application received by Commissioner of Customs: April 7, 1976. Advice submitted by the Department of Health, Education, and Welfare on: June 24, 1976. Article ordered: March 12, 1976.

Comments: No comments have been received with respect to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for such purposes as these articles are intended to be used, is being manufactured in the United States.

Reasons: Each foreign article provides distortion free micrographs over a magnification range 100 to 200,000× without a pole-piece change. The most closely comparable domestic instrument available is the Model EMU-4C electron microscope manufactured by the Adam David Company (Adam David). When each article was ordered the Model EMU-4C with its standard pole-piece, had a specified range from 1,400 to 240,000 magnifications. For survey and scanning, the lower end of this range could be reduced to 400 magnifications or less. But the continued reduction of magnification induced an increasingly greater distortion. The domestic manufacturer suggests in its literature on the Model EMU-4C that for highest quality, low-magnification electron micrographs, an optional low-magnification pole-piece providing 500-70,000× should be used. It is noted that changing the pole-piece on the Model EMU-4C requires a break in the vacuum of the column that induces the danger of contamination which would very likely lead to the failure of the experiment.

The Department of Health, Education, and Welfare (HEW) advises in the respectively cited memoranda that each article's low distortion in the magnification range is pertinent to each applicant's purposes. HEW also advises that the domestic Model EMU-4C does not provide a magnification range without a pole-piece change which is equivalent to that of each foreign article for each applicant's intended use.

We, therefore, find that the Model EMU-4C was not of equivalent scientific value to any of the foreign articles to which the foregoing applications relate for such purposes as these articles are intended to be used, which was being manufactured in the United States at the time the articles were ordered.

CERTAIN RAUWOLFIA SERPENTINA, RESERPINE, ALSEROXYLON, AND RESCINNAMINE PREPARATIONS

Drugs for Human Use; Drug Efficacy Study Implementation; Followup Notice and Opportunity for Hearing

The Food and Drug Administration is reclassifying the less-than-effective indications for certain antihypertensive drugs, offering an opportunity for a hearing on the reclassification, and announcing the conditions under which the drugs may be marketed for the indications for which they continue to be regarded as effective. Persons who wish to request a hearing may do so by September 7, 1976.

In a notice (DESI 8867; Docket No. FDC-D-256 (now Docket No. 76N-0302)) published in the FEDERAL REGISTER of April 28, 1971 (36 FR 7984), the Food and Drug Administration classified the drugs described below as follows:

ALSEROXYLON

(1) Effective for the treatment of mild essential hypertension alone or as adjunctive therapy with other antihypertensive agents in the more severe forms of hypertension; (2) possibly effective as an antianxiety agent for use in the hypertensive nervous patient and in patients with angina pectoris; and (3) lacking substantial evidence of effectiveness for its other labeled indications.

RAUWOLFIA SERPENTINA

(1) Effective for treatment of mild essential hypertension; as adjunctive therapy with other antihypertensive agents in the more severe forms of hypertension; for relief of symptoms in agitated psychotic states, e.g., schizophrenia—primarily in those individuals unable to tolerate phenothiazine derivatives or those who also require antihypertensive medication; (2) possibly effective as a tranquilizing agent in the management of anxiety and tension states associated with tachycardia, palpitations and angina pectoris; in conjunction with more potent hypotensive agents for the management of hypertension associated with toxemia of pregnancy; and (3) lacking substantial evidence of effectiveness for its other labeled indications.

RESCINNAMINE IN NON-CONTROLLED-RELEASE FORM

(1) Effective for treatment of mild essential hypertension; (2) probably effective as an adjunct with other antihypertensive agents in the treatment of more severe forms of hypertension; (3) possibly effective as an antianxiety agent; for tranquilizing and calming effects, generally without hypnosis; for conditions in which barbiturates have been commonly prescribed, such as anxiety, tension, nervousness; for management of patients with psychiatric disorders such as schizophrenia; for tachycardia and palpitations; as initial therapy for more severe forms of hypertension; and for angina pectoris; and (4) lacking substantial evidence of effectiveness for its other labeled indications.

ORAL RESERPINE IN POTENCIES OF 1 MILLIGRAM OR LESS (NOT IN CONTROLLED RELEASE FORM)

(1) Effective in the treatment of mild essential hypertension; as adjunctive therapy with other antihypertensive agents in the more severe forms of hypertension; for the relief of symptoms in agitated psychotic states, e.g., schizophrenia—primarily in those individuals unable to tolerate phenothiazine derivatives or those who also require antihypertensive medication; (2) possibly effective as an antianxiety agent in chronic anxiety, tension, mild anxiety states, and management of anxiety and tension associated with neurodermatitis and other dermatoses; as a tranquilizer for psychotherapy in paranoid and manic states or as adjunctive therapy for the treatment of various psychoneuroses, nervous conditions, and hyperemotionalism; for tension headache; for menopausal symptoms; for general paresis; for hypertension of toxemia; tachycardia and palpitations; for conditions in which barbiturates have been commonly prescribed, such as anxiety, tension, nervousness; and for angina pectoris; and (3) lacking substantial evidence of effectiveness for its other labeled indications.

PARENTERAL RESERPINE

(1) Effective for treatment of hypertensive emergencies, such as acute hypertensive encephalopathy, in which it is desired to reduce the blood pressure promptly; for only initiating treatment in psychiatric conditions in those patients unable to accept oral medication or to control symptoms of extreme agitation. (2) possibly effective for treatment of psychiatric conditions such as paranoia, manic states, and the manic phase of manic depressive psychosis; for the treatment of tachycardia; and for the treatment of anxiety and tension; (3) lacking substantial evidence of effectiveness for its other labeled indications.

The notice also offered an opportunity for a hearing concerning those indications concluded at that time to lack substantial evidence of effectiveness. No person has submitted any data in support of the probably effective and possibly effective indications and those indications are now reclassified as lacking substantial evidence of effectiveness.

The notice that follows does not pertain to the indications stated in the April 28, 1971, notice to lack substantial evidence of effectiveness. No person requested a hearing concerning them and they are no longer allowable in labeling. Any such product labeled for those indications is subject to regulatory action.

ALSEROXYLON PREPARATIONS

NDA 8-867; Rauwiloid Tablets; Riker Laboratories, Inc., Subsidiary 3M, 19901 Nordhoff St., Northridge, CA 91324.

NDA 9-215; Rautensin Tablets; Dorsey Laboratories, Division Sandoz Inc., N.E., U.S. 6 and Interstate 80, Lincoln, NE 68501.

RAUWOLFIA SERPENTINA PREPARATIONS

NDA 8-842; Raudixin Tablets; Squibb Pharmaceutical Co., Division of E. R. Squibb & Sons, Inc., Box 4000, Princeton, NJ 08540.

NDA 9-108; Rauval Tablets; The Vale Chemical Co., Inc., 1201 Liberty St., Allentown, PA 18102.

NDA 9-159; Rauwolfia Serpentina; USV Pharmaceuticals Corp., 1 Scarsdale Rd., Tuckahoe, NY 10707.

NDA 9-241; Serfia Tablets; Westerfield Laboratories, Inc., Division O'Neal, Jones & Feldman, Inc., 3941 Brotherton Rd., Cincinnati, OH 45209.

NDA 9-255; Wolfina Tablets; Westerfield Laboratories, Inc.

NDA 9-272; Evraserp Tablets; Evron Pharmaceutical Co., Inc., 7475 North Rogers Ave., Chicago, IL 60626.

V 41 152 AUG 5 76 UMI

NDA 9-273; Rauwolfia Serpentina Tablets; Richlyn Laboratories, Inc., 3725 Castor Ave., Philadelphia, PA 19124.

NDA 9-276; Hiwolfia Tablets; Bowman Pharmaceuticals, Division Bowman, Inc., 119 Schroyer Ave., S.W., Canton, OH 44702.

NDA 9-277; Serpentin Tablets; Gold Leaf Pharmacal Co., Inc., Division Ormont Drug & Chemical Co., 520 S. Dean St., Englewood, NJ 07631.

NDA 9-278; Koglucold Tablets; Panray, Division of Ormont Drug & Chemical Co., Inc., P.O. Box 150, Englewood, NJ 07631.

NDA 9-299; Hyperiold Tablets; Person & Covey, Inc., 616 Allen Ave., Glendale, CA 91201.

NDA 9-443; Rauwolfia Serpentina Tablets; Direct Laboratories, 377 Genesse St., Buffalo, NY 14204.

NDA 9-454; Rauwolfia Serpentina Tablets; S. F. Durst & Co., Inc., Division O'Neal, Jones & Feldman, Inc., 1633 Winchester Rd., Philadelphia, PA 19020.

NDA 9-462; Rautotal Tablets; Phillips Roxanne Laboratories, 330 Oak St., Columbus, OH 43216.

NDA 9-464; Rauwolfia Serpentina Tablets; American Pharmaceutical Co., P.O. Box 448, Passaic, NJ 07055.

NDA 9-477; Rauwolfia Serpentina Tablets; The C. M. Bundy Co., 329 Perry St., Cincinnati, OH 45202.

NDA 9-481; Hyserp Tablets; Moore Kirk Laboratories, Inc., Division The Zemmer Co., 231 Hulton Rd., Oakmont, PA 15139.

NDA 9-490; Rauwolfia Serpentina Tablets; Rexall Drug Co., P.O. Box 7189, St. Louis, MO 63115.

NDA 9-577; Rauja Tablets; Table Rock Laboratories, Inc., P.O. Box 1968, Greenville, SC 29602.

NDA 9-668; Rauwolfia Serpentina Tablets; Strong Cobb Arner, Inc., 11700 Shaker Blvd., Cleveland, OH 44120.

NDA 9-725; Rauwolfia Serpentina Tablets; Kirkman Laboratories, Inc., P.O. Box 3929, Portland, OR 97208.

NDA 9-912; Rauw-Tina Tablets; Walker Corp., & Co., Inc., Easthampton Pl. and N. Collingwood Ave., Syracuse, NY 13206.

NDA 9-926; Rauserpin Tablets; Ferndale Laboratories, Inc., 780 West Eight Mile Rd., Ferndale, MI 48220.

NDA 10-050; Rauwolfia Serpentina Tablets; S. F. Durst & Co., Inc.

NDA 10-170; Serfolia Tablets; Mallard, Inc., 3021 Wabash, Detroit, MI 48216.

NDA 10-408; Ekans Tablets; Haag, Inc., 5 South 15th St., Richmond, VA 23219.

NDA 10-427; Rautina Tablets; Fellows Medical Division, Chromalloy Pharmaceuticals, Inc., 12741 Capital Ave., Oak Park, MI 48237.

NDA 11-038; Rauwolfia Serpentina Tablets; Stanley Drug Products, Inc., Division Sperti Drug Corp., P.O. Box 3108, Portland, OR 97208.

Rescinnamine Preparations

NDA 10-686; Moderil Tablets; Pfizer Laboratories, Division of Pfizer, Inc., 235 East 42d St., New York, NY 10017.

NDA 10-686; Cinnaloid Tablets, Pfizer Laboratories.

NDA 11-024; Cinatabs Tablets; Table Rock Laboratories, Inc.

Reserpine Preparations

That part of NDA 9-115 pertaining to Serpasil Elixir and Tablets containing reserpine in potencies of 1 milligram or less; Ciba Pharmaceutical Co., Division of Ciba-Geigy Corp., 556 Morris Ave., Summit, NJ 07901.

NDA 9-347; Reserpoid Tablets; The Upjohn Co., 7171 Portage Rd., Kalamazoo, MI 49002.

NDA 9-357; Rau-Sed Tablets; Squibb Pharmaceutical Co.

NDA 9-376; Sandril Tablets and Elixir; Eli Lilly & Co., Box 618, Indianapolis, IN 46206.

That part of NDA 9-391 pertaining to Serpanray Tablets containing reserpine in potencies of 1 milligram or less; Panray.

NDA 9-434; Serpasil Injection; Ciba Pharmaceutical Co.

NDA 9-453; Serpate Tablets; The Vale Chemical Co., Inc.

NDA 9-463; Serfin Tablets; Parke, Davis & Co., Joseph Campau Ave. at the River, Detroit, MI 48232.

That part of NDA 9-573 pertaining to Reserpine Alkaloid Tablets containing reserpine in potencies of 1 milligram or less; USV Pharmaceuticals Corp.

NDA 9-593; Key-Serpine Tablets; Lemmon Pharmacal Co., Sellersville, PA 18960.

NDA 9-623; Reserpine Tablets; American Pharmaceutical Co.

That part of NDA 9-627 pertaining to Reserpine Tablets containing reserpine in potencies of 1 milligram or less; Richlyn Laboratories, Inc.

NDA 9-631; Hiserpia Tablets; Bowman Pharmaceutical Corp.

NDA 9-632; Rauwoleaf Tablets; Gold Leaf Pharmacal Co., Inc.

NDA 9-635; Reserpine Tablets; Wyeth Laboratories, Inc., P.O. Box 8299; Philadelphia, PA 19101.

NDA 9-639; Raurine Tablets; Westerfield Laboratories, Inc.

NDA 9-645; Reserpine Tablets; Bryan Pharmaceutical Corp., 70 S. MacQuesten Pkwy., Mt. Vernon, NY 10550.

NDA 9-661; Alkarau Tablets; Ferndale Laboratories, Inc.

NDA 9-663; Reserpine Tablets; The C. M. Bundy Co.

NDA 9-667; Reserpine Tablets; Strong Cobb Arner, Inc.

NDA 9-720; Reserpine Tablets; S. F. Durst & Co., Inc.

NDA 9-726; Sertabs Tablets; Bell Pharmacal Corps., P.O. Box 1968, Greenville, SC 29602.

NDA 9-758; Reserpine Tablets; Morton Pharmaceuticals, Inc., 1625 N. Highland St., Memphis, TN 38103.

NDA 9-765; Reserpine Tablets; Hance Bros. & White Co., 12th and Hamilton Sts., Philadelphia, PA 19123.

NDA 9-771; Reserpine Alkaloid Tablets; Invenex Pharmaceuticals, 2303 Schuetz Rd., St. Louis, MO 63141.

NDA 9-826; Reserpine Tablets; Dumas-Wilson & Co., Division Mallinckrodt, Inc., 2d and Mallinckrodt Sts., St. Louis, MO 63147.

NDA 9-838; Lemiserp Tablets; Lemmon Pharmacal Co.

NDA 9-850; Reserpoid Elixir; The Upjohn Co.

NDA 9-859; Rausingle Tablets; Philips Roxanne Laboratories.

NDA 9-879; Sertina Tablets; Fellows Medical Division.

NDA 9-882; R-E-S Tablets; Cole Pharmacal Co., Inc., P.O. Box 14404, St. Louis, MO 63178.

NDA 10-012; Sandril Injection; Eli Lilly & Co.

NDA 10-045; Vio-Serpine Tablets; Rowell Laboratories, Inc., Baudette, MN 56623.

NDA 10-165; Resine Tablets; Kirkman Laboratories, Inc.

NDA 10-182; Serpibite Injection; The Vitarine Co., Inc., 227-15 N. Conduit Ave., Springfield Gardens, NY 11413.

NDA 10-263; Reserpine Tablets; E. W. Heun Co., Division of Mogul Corp., 2303 Schuetz Rd., St. Louis, MO 63141.

NDA 10-378; Resercen Tablets; The Central Pharmacal Co., 116-128 E. Third St., Seymour, IN 47274.

NDA 10-441; Reserpine Tablets; Stanley Drug Products, Inc.

NDA 10-632; Serpena Tablets; Haag, Inc.

NDA 10-678; Reserpine Tablets; Mallard, Inc.

NDA 10-751; Reserpine Tablets; Horton & Converse Laboratories, Inc., 2200 S. Figueroa St., Los Angeles, CA 90007.

NDA 10-883; Serpanray Injection; Panray.

NDA 11-554; Reserpine Tablets; Rexall Drug Co.

Other drugs included in the initial notice as well as reserpine in potencies of more than 1 milligram are not affected by this notice. The classification of some of these drugs has already been resolved and the others will be dealt with in subsequent FEDERAL REGISTER notices.

The following new drug applications were not included in the initial notice, but are affected by this notice.

NDA 9-274; Rauwolfia Serpentina Tablets; Keith-Victor Pharmacal Co., 2503 S. Tanley Rd., St. Louis, MO 63144.

NDA 9-407; Rauserpa Tablets, and Rauwolfia Serpentina Tablets, both containing rauwolfia serpentina; Tutag Pharmaceuticals, 2599 W. Midway Blvd., Broomfield, CO 80020.

NDA 10-581; Hyserpin Tablets containing rauwolfia serpentina; The Purdue Frederick Co., 50 Washington St., Norwalk, CT 06856.

NDA 11-301; Rauwolfia Serpentina Tablets; Lafayette Pharmacal, Inc., 522-26 E. Earl Ave., Lafayette, IN 47902.

NDA 11-521; Rauwolfia Serpentina Tablets; Zenith Laboratories, Inc., 140 LeGrand Ave., Northvale, NJ 07647.

That part of NDA 9-572 pertaining to Reserpine Tablets containing reserpine in potencies of 1 milligram or less; Keith-Victor Pharmacal Co.

That part of NDA 9-591 pertaining to Reserpine Tablets containing reserpine in potencies of 1 milligram or less; Pfizer Laboratories.

NDA 9-745; Raupesine Tablets containing reserpine; George N. Bell Mfg., 1417 Cornell Ave., Indianapolis, IN 46200.

NDA 9-812; Reserpine Tablets; Boyle & Co., 6330 Chalet Dr., Los Angeles, CA 90040.

NDA 10-191; Alkarau Elixir containing reserpine; Ferndale Laboratories, Inc.

NDA 11-185; Reserpine Tablets; Zenith Laboratories, Inc.

NDA 11-753; Reserpine Tablets; Philadelphia Ampoule Laboratories, Inc., Division Philadelphia Pharmaceutical & Cosmetic Co., 9815 Roosevelt Blvd. and Grass Rd., Philadelphia, PA 19114.

(Approval of the following new drug applications, which were also listed in the April 28, 1971 notice, was later withdrawn on the ground of failure to submit required reports under section 505(j) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355 (j)). At the time the notices of withdrawal were published, no final conclusions concerning the products' possibly effective and probably effective indications had been reached. Those conclusions have now been reached, and the purpose of including these new drug applications in this notice is to inform all interested persons of the conclusions and offer them the opportunity to request a hearing concerning all issues relating to the legal status of the products. In the listing that follows, the date and FEDERAL REGISTER citation identify the notice of withdrawal.)

NDA 9-150; Abten and Abten Double Strength Tablets and Capsules; Lemmon Pharmacal Co., October 27, 1971 (36 FR 20619).

NDA 9-204; Rauwistan Tablets; M. R. Thompson, Inc. 767 Fifth Ave., New York, NY 10022; October 27, 1971 (36 FR 20619).

NDA 9-345; Rauwolfia Serpentina Tablets; Meer Corp., 9412 Railroad Ave., North Bergen, NJ 07047; August 8, 1972 (37 FR 15948).

NDA 9-398; Rauwolfia Serpentina Tablets; Bryant Pharmaceutical Corp.; February 8, 1972 (37 FR 2852).

NDA 9-419; Rauvitine Tablets; The Vitarine Co.; February 8, 1972 (37 FR 2852).

NDA 9-447; Rauwolfia Serpentina Tablets; Cooper Laboratories, 300 Fairfield Rd., Wayne, NJ 07470; August 4, 1971 (36 FR 14342).

NDA 9-566; Reserpine Tablets; High Chemical Co., 1760 North Howard St., Philadelphia, PA 19122; February 8, 1972 (37 FR 2851).

NDA 9-626; Reserpine Tablets; Cooper Laboratories; August 4, 1971 (36 FR 14342).

NDA 9-680; Evraloid Tablets; Evron Pharmaceutical Co., Inc.; February 8, 1972 (37 FR 2852).

NDA 9-749; Serpivite Tablets; The Vitarine Co., Inc.; February 8, 1972 (37 FR 2852).

NDA 9-755; Reserpine Tablets; Shaw Pharmacal Co., 2700 Wagner Pl., Maryland Heights, MO 63042; January 2, 1974 (39 FR 23).

NDA 9-960; Reserpine Tablets; Mell Bowman & Co., 1334 Howard St., Harrisburg, PA 17104; January 2, 1974 (39 FR 23).

NDA 10-068; Rauwolfia Serpentina Tablets; Shaw Pharmacal Co.; January 2, 1974 (39 FR 23).

NDA 10-197; Repold Tablets; Mericon Industries, Inc., 420 S.W. Washington St., Peoria, IL 61602; January 2, 1975 (39 FR 23).

NDA 10-221; Raw-Ten Tablets; Mericon Industries, Inc., January 2, 1974 (39 FR 23).

NDA 10-360; Reserpine Tablets; Halsey Drug Co., Inc., 1827 Pacific St., Brooklyn, NY 11233; March 18, 1972 (37 FR 5711).

NDA 10-409; Rauwolfia Serpentina Tablets; Halsey Drug Co., Inc.; March 18, 1972 (37 FR 5711).

NDA 10-430; Hypersine Tablets; Don Hall Laboratories, 1935 N. Argyle St., Portland, OR 97217; February 8, 1972 (37 FR 2852).

NDA 10-552; Reserpine Injection; Cooper Laboratories; February 8, 1972 (37 FR 2852).

NDA 10-887; Rescinnamine Tablets; USV Pharmaceuticals Corp., July 18, 1973 (38 FR 19147).

NDA 10-974; Reserpine Tablets; Bates Laboratories, Inc., Division LTC Pharmaceuticals Corp., 2312 W. Main St., Evanston, IL 60202; January 2, 1974 (39 FR 23).

NDA 11-242; Rauwolfia Serpentina Tablets; Bates Laboratories, Inc.; January 2, 1974 (39 FR 23).

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in and to update approved applications providing for such drugs. An approved new drug application is a requirement for marketing such drug products.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice applies to all persons who manufacture or distribute a drug product, not the subject of an approved new drug application, that is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Food and Drug Administration, Bureau of Drugs, Division of Drug Labeling Compliance (HFD-310), 5600 Fishers Lane, Rockville, MD 20852.

A. *Effectiveness classification.* The Food and Drug Administration has reviewed all available evidence and concludes that the drugs are effective for the indications listed in the labeling conditions below. The drugs now lack substantial evidence of effectiveness for the indications evaluated as probably effective and possibly effective in the April 28, 1971 notice.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* Alseroxylon, rauwolfia serpentina, and rescinnamine are in tablet form suitable for oral administration. Reserpine is in tablet or elixir form, in potencies of 1 milligram or less per dosage unit, suitable for oral administration. Reserpine is also in sterile aqueous solution form suitable for parenteral administration.

2. *Labeling conditions.* a. The labels bear the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drugs are labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The indications are as follows:

Alseroxylon

For the treatment of mild essential hypertension alone or as adjunctive therapy with other antihypertensive agents in the more severe forms of hypertension.

Rauwolfia Serpentina

For the treatment of mild essential hypertension. It is also useful as adjunctive therapy with other antihypertensive agents in the more severe forms of hypertension.

For the relief of symptoms in agitated psychotic states, e.g., schizophrenia—primarily in those individuals unable to tolerate phenothiazine derivatives or those who also require antihypertensive medication.

Rescinnamine

For the treatment of mild essential hypertension.

Reserpine

Oral reserpine: For the treatment of mild essential hypertension. It is also useful as adjunctive therapy with other antihypertensive agents in the more severe forms of hypertension.

For the relief of symptoms in agitated psychotic states, e.g., schizophrenia—primarily in those individuals unable to tolerate phenothiazine derivatives or those who also require antihypertensive medication.

Parenteral reserpine: For the treatment of hypertensive emergencies, such as acute hypertensive encephalopathy, in which it is desired to reduce the blood pressure promptly.

The parenteral route has been used in psychiatric conditions only to initiate treatment in those patients unable to accept oral medication or to control symptoms of extreme agitation.

3. *Marketing status.* a. Marketing of such drug products that are now the subject of an approved or effective new drug application may be continued provided that, on or before October 4, 1976, the holder of the application submits, if he has not previously done so, (i) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted, and (ii) a supplement to provide updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD-356H (21 CFR 314.1(c)) to the extent required in abbreviated applications (21 CFR 314.1(f)).

b. Approval of an abbreviated new drug application (21 CFR 314.1(f)) must be obtained prior to marketing such product. Marketing prior to approval of a new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

C. *Notice of opportunity for hearing.* On the basis of all the data and information available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111 (a)(5), demonstrating the effectiveness of the drug(s) for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice.

Notice is given to the holder(s) of the new drug application(s), and to all other interested persons, that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application(s) (or, if indicated above, those parts of the application(s) providing for the drug product(s) listed above) and all amendments and supplements thereto providing for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice on the ground that new information before him with respect to the drug product(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug product(s) will have all the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. An order withdrawing approval will not issue with respect to any application(s) supplemented, in accord with this notice, to delete the claim(s) lacking substantial evidence of effectiveness.

In addition to the ground for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in 21 CFR 310.6), e.g., any contention

V 41 152 AUG 5 76 UMI

that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201 (p) of the act, or pursuant to section 107 (c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Parts 310, 314), the applicant(s) and all other persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named above (21 CFR 310.6), are hereby given an opportunity for a hearing to show why approval of the new drug application(s) providing for the claim(s) involved should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and all identical, related, or similar drug products.

If an applicant or any person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing, he shall file (1) on or before September 7, 1976, a written notice of appearance and request for hearing, and (2) on or before October 4, 1976, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this proposal to withdraw approval. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing are contained in 21 CFR 314.200.

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of such drug product. Any such drug product labeled for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drugs products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice of opportunity for hearing shall be filed in quintuplicate. Such submissions, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk (address given below) during working hours, Monday through Friday.

Communications forwarded in response to this notice should be identified with the reference number DESI 8867, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852.

Supplements (identify with NDA number): Division of Cardio-Renal Drug Products (HFD–110), Rm. 16B–30, Bureau of Drugs.

Original abbreviated new drug applications (identify as such): Division of Generic Drug Monographs (HFD–530), Bureau of Drugs.

Request for Hearing (identify with Docket number appearing in the heading of this notice): Hearing Clerk, Food and Drug Administration (HFC–20), Rm. 4–65.

ADVISORY COMMITTEES

Meetings

This notice announces forthcoming meetings of the public advisory committees of the Food and Drug Administration. It also sets out a summary of the procedures governing the committee meetings and the methods by which interested persons may participate in the open public hearings conducted by the committees. The notice is issued under section 10(a) (1) and (2) of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770–776 (5 U.S.C. App. I)). The following advisory committee meetings are announced:

Committee name	Date, time, and place	Type of meeting and contact person
1. Panel on review of neurology devices.	Aug. 20 and 21, 9 a.m., Crystal City Marriott Hotel, Arlington, Va.	Open public hearing Aug. 20, 9 to 10 a.m.; open committee discussion Aug. 20, 10 a.m. to 5 p.m.; Aug. 21, 9 a.m. to 5 p.m.; James R. Veale (HFK–450), 8757 Georgia Ave., Silver Spring, Md. 20910, 301–427–7226.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to classification of the devices listed in this announcement to James R. Veale, Executive Secretary. Submission of data relative to tentative classification findings is also invited.

Open committee discussion. Classification of aneurysm clips; aneurysm thrombo-emboli; vessel occluding catheters; burhole discs; cranioplasty materials and mounting accessories; formable cranioplasty materials; dura substitutes; preformed skull plates; skull plate screws; vertebral replacements; vertebral struts; tissue adhesives for general neurosurgical use; hemostatic and dural clips, scalp clips; electroconvulsive therapy systems; cerebellar stimulators; diaphragmatic/phrenic nerve stimulators; intercerebral/subcortical stimulators; organ stimulators; peripheral nerve stimulators; spinal cord stimulators; implantable induction coagulation seeds; cranial tongs for skeletal traction; rheoencephalographs.

The following devices will be reviewed for final panel approval of the classifications recommended at the last meeting: CSF shunts and components; tissue adhesives for aneurysmorrhaphy; methyl methacrylate for aneurysmorrhaphy; arterial clamp systems and accessories; electroanesthesia stimulators; transcutaneous electrical nerve stimulators (for pain relief).

Committee name	Date, time, place	Type of meeting and contact person
2. Panel on review of vitamin, mineral, and hematinic drug products.	Aug. 25, 26, and 27, 9 a.m., room 1409, FB–8, 200 C St. SW., Washington, D.C.	Open public hearing Aug. 25, 9 to 10 a.m.; closed committee deliberations Aug. 25, 10 a.m. to 4:30 p.m.; August 26 and 27, 9 a.m. to 4:30 p.m.; Gary P. Trosclair (HFD–510), 5600 Fishers Lane, Rockville, Md 20852, 301–443–4960.

General function of the committee. Reviews and evaluates data concerning the safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. Any interested person may present data, information or views, orally or in writing, on issues pending before the panel.

Closed committee deliberations. The panel will review data submitted in confidence pursuant to the OTC review's call for data for this panel (see also 21 CFR 330.10(a)(2)). This will include product names, formulas and formulation process data, sales data and, in some cases, portions of pending or approved new drug applications (NDA's). Also, discussions relating to labeling, drug class standards, and testing will often be intermixed with discussion of formulas, sales data, or NDA material in such a way that the two discussions cannot be separated without seriously impeding the progress of the panel's deliberations.

The panel will be reviewing, voting upon, and modifying the content of summary minutes and categorization of ingredients and claims.

The panel will be reveiwing, voting upon, and modifying draft 4 of its final report in preparation for submission to the Commissioner.

This portion of the meeting will be closed to permit discussion of trade secret data and for formulation of recommendations (5 U.S.C. 552(b) (4) and (5)).

Each public advisory committee meeting listed above may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. The dates and times reserved for the separate portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1 hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published in this FEDERAL REGISTER notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

The Commissioner, with the concurrence of the Chief Counsel, has determined for the reasons stated that those portions of the advisory committee meetings so designated in this notice shall be closed. Both the Federal Advisory Committee Act and 5 U.S.C. 552(b) permit such closed advisory committee meetings in certain circumstances. Those portions of a meeting designated as closed shall, however, be closed for the shortest time possible consistent with the intent of the cited statutes.

Generally, FDA advisory committees will be closed because the subject matter is exempt from public disclosure under 5 U.S.C. 552(b) (4), (5), (6), or (7), although on occasion the other exemptions listed in 5 U.S.C. 552(b) may also apply. Thus, a portion of a meeting may be closed where the matter involves a trade secret; commercial or financial information that is privileged or confidential; personnel, medical, and similar files, disclosure of which could be an unwarranted invasion of personal privacy; and investigatory files compiled for law enforcement purposes. A portion of a meeting may also be closed if the Commissioner determines: (1) That it involves interagency or intra-agency memoranda or discussion and deliberations of matters that, if in writing would constitute such memoranda, and which would, therefore, be exempt from public disclosure; and (2) That it is essential to close such portion of a meeting to protect the free exchange of internal views and to avoid undue interference with agency or committee operations.

Examples of matters to be considered at closed portions are those related to the review, discussion, evaluation or ranking of grant applications; the review, discussion, and evaluation of specific drugs or devices; the deliberation and voting relative to the formation of specific regulatory recommendations (general discussion, however, will generally be done during the open committee discussion portion of the meeting); review of trade secrets or confidential data; consideration of matters involving FDA investigatory files; and review of medical records of individuals.

Examples of matters that ordinarily will be considered at open meetings are those related to the review, discussion, and evaluation of general preclinical and clinical test protocols and procedures for a class of drugs or devices, consideration of labeling requirements for a class of marketed drugs and devices, review of data and information on specific investigational or marketed drugs and devices that have previously been made public, and presentation of any other data or information that is not exempt from public disclosure.

Dated: August 2, 1976.

JOSEPH P. HILE,
Acting Commissioner of Food and Drugs.

REHABILITATION RESEARCH AND EVALUATION STRATEGY

Availability

Notice is hereby given that pursuant to the authority contained in numerous sections of the Rehabilitation Act, 1973, as amended (29 USC 701), the Rehabilitation Services Administration has prepared a Research and Evaluation Strategy for Fiscal Year 1976. This year a limited number (100 copies) were printed for the express purpose of being made available to prospective researchers and to rehabilitation educators.

THE REHABILITATION RESEARCH AND EVALUATION STRATEGY

The strategy suggests the types of research and evaluations the agency will be conducting. The strategy may ultimately lead to the awarding of grants or contracts. The state-of-the-art studies upon which many decisions are predicated are offered to the general public. The studies available are listed here and have letter identifiers.

RESEARCH AND EVALUATION ISSUE AREAS

A. Universe of needs.
B. Administration (includes consumer involvement, referral in and intake, eligibility determination, information and referral out, and administration and control).
C. Manpower development and utilization.
D. Facilities management.
E. Interagency linkages.
F. Evaluation.
G. Research and evaluation utilization.
H. Policy promulgation in the State-Federal system.
I. Telecommunications.

RESEARCH AND EVALUATION ISSUE AREAS

J. Counseling.
K. Spinal cord injury.
L. Cardiovascular diseases.
M. Neurological disabilities.
N. Chronic-obstructive pulmonary disease.
O. Sensory disabilities.
P. End-stage renal disease.
Q. Mental illness.
R. Mental retardation.
S. Most severely handicapped (including homebound).
T. Rehabilitation engineering.
U. Employment opportunities (includes client work readiness and employment opportunity development and placement).
V. Barrier removal.
W. Community alternatives.

V 41 1 52 AUG 5 76 UMI

Because there are so few copies available for distribution, they will be provided on a first-come basis until the supply is depleted. Please request the issues by letter and title with a statement of intended use. A maximum of five different issue papers will be sent.

METHOD OF INQUIRY

All inquiries for copies of the strategy issues should be made in writing by September 1, 1976. Send your inquiries to Mr. James E. Taylor, Office of Rehabilitation Research and Demonstrations, Room 3062, Mary E. Switzer Building, 330 C Street, SW., Washington, D.C. 20201. Mr. Taylor's telephone number is (202) 245–0907.

This same announcement has also been placed in the Commerce Business Daily on or about the same date.

(Catalog of Federal Domestic Assistance Number 13.746, Rehabilitation Services and Facilities—Basic Support)

Dated: July 22, 1976.

ANDREW S. ADAMS,
Commissioner of Rehabilitation Services.

POLYSILOXANE MEMBRANE LUNG

Proposed Issuance of Exclusive Patent License

Pursuant to § 6.3, 45 CFR, Part 6, notice is hereby given of intent to issue a limited-term, revocable, exclusive patent license in and to an invention of Theodor Kolobow, Fusakazu Hayano, and Paul Weathersby entitled "Polysiloxane Membrane Lung," limited in scope to use for the components of extracorporeal gas exchange circuits and to blood and platelet storage containers.

Any objection thereto, together with request for opportunity to be heard, if desired, should be directed to Theodore Cooper, M.D., Assistant Secretary for Health, Department of Health, Education, and Welfare, 330 Independence Avenue, SW., Washington, D.C. 20201, within on or before September 7, 1976. Interested parties may obtain a copy of the patent application directed to this invention upon request in writing to the party hereinabove named.

(45 CFR 6.3)

Dated: July 29, 1976.

THEODORE COOPER,
Assistant Secretary for Health.

ASSISTANT REGIONAL ADMINISTRATOR FOR EQUAL OPPORTUNITY, NEW YORK REGION II

Redelegation of Authority With Respect to Fair Housing

SECTION A. *Authority with respect to fair housing.* The Assistant Regional Administrator for Equal Opportunity, Region II, New York, is authorized to exercise the power and authority of the Secretary of Housing and Urban Development under Title VIII (Fair Housing) of the Civil Rights Act of 1968, Pub. L. 90–284 (42 U.S.C. 3601—3619), except the authority to:

1. Make studies and publish reports under Section 808(e) of the Act (42 U.S.C. 3608(d)).
2. Issue rules and regulations.

SEC. B. *Authority to redelegate.* The Assistant Regional Administrator for Equal Opportunity is authorized to redelegate to subordinate employees any of the authority redelegated under Section A except the authority to issue a subpena or interrogatory under Section 811 of the Act (42 U.S.C. 3611) shall remain with the Assistant Regional Administrator for Equal Opportunity.

SEC. C. *Supersedure.* This redelegation of authority supersedes the redelegation published at 35 FR 8755, June 5, 1970.

(Redelegation of Authority by Assistant Secretary for Fair Housing and Equal Opportunity published at 41 FR 14208, April 2, 1976, effective April 2, 1976.)

Effective date: This redelegation of authority shall be effective July 30, 1976.

S. WILLIAM GREEN,
Regional Administrator, Region II, New York.

National Highway Traffic Safety Administration

YOUTH HIGHWAY SAFETY ADVISORY COMMITTEE

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463; 5 U.S.C. App. I) notice is hereby given of a meeting of the Youth Highway Safety Advisory Committee to be held on August 27, 1976, from 9 a.m. to 5 p.m. and August 28, 1976, from 9 a.m. to noon, at the DOT Headquarters Building, 400 7th St. S.W., Room 5332–5334, Washington, D.C.

The agenda for this meeting is as follows:

Swearing-in by Administrator, NHTSA.
Orientation and Selection of Chairperson.
Briefing on Organization of DOT.
Evaluation of Youth Committee's Accomplishments.
Discussion on Individual and Group Goals.
Presentation on Uniform Vehicle Code.
Discussion on Multi-Year Plan (Youth Programs).
Discussion on "How To Do Manual".
Future Plans.

Attendance is open to the interested public but limited to the space available. With the approval of the Chairman, members of the public may present oral statements at the meeting.

For further information, contact Wm. H. Marsh, Executive Secretary, Room 5215, 400 7th St. S.W., Washington, D.C. Telephone (202) 426–2872.

Any member of the public may present a written statement to the Committee at any time.

The committee is composed of persons appointed by the National Highway Traffic Safety Administrator to consult with and advise him concerning programs and activities to attract and sustain the participation of young people in the national effort to combat highway deaths and injuries.

Issued in Washington, D.C., on August 4, 1976.

WM. H. MARSH,
Executive Secretary.

[Docket No. 29143; Order 76–8–2]

OLYMPIC AIRWAYS, S.A.

Order Denying Reconsideration Regarding Affinity and Nonaffinity Government-Ordered Group Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 2d day of August 1976.

By Order 76–5–119, dated May 25, 1976, the Board dismissed a complaint filed by Trans World Airways, Inc. (TWA), against the nonaffinity group fare tariffs filed by Olympic Airways, S.A. (Olympic), between North America and Greece. Although we did not condone the Greek nonaffinity group fare in that order, we concluded that suspension of the long-standing fare on the threshold of the summer season would probably be disruptive, since many passengers had already booked on the fare. We also noted that while the fares are marginal, they are above the Advance Purchase Excursion (APEX) fare approved by the Board in the recent IATA agreement.

A petition for reconsideration was filed by TWA on June 14, 1976. While TWA acknowledges merit in the Board's position that suspension of the Olympic tariff at the outset of the summer season would be disruptive, it argues that continuation of the allegedly uneconomic fares should not be permitted indefinitely. TWA also argues that the Board's comparison of the levels of the nonaffinity group fares and the APEX fare is meaningless because of differences in the dilution rate from higher-priced fares. TWA also contends that Board suspension of the nonaffinity fare would facilitate negotiation of future IATA agreements.

In a reply filed by Olympic, the carrier argues that TWA has not provided grounds for reconsideration of the Board's order; that TWA has not shown that any of the matters in Order 76–5–119 were erroneously decided; and that no new issues are presented. Furthermore, Olympic argues that TWA has presented no evidence to substantiate its allegation that IATA negotiations would be undermined without Board suspension of the nonaffinity fares.

Upon full consideration of TWA's petition, Olympic's reply, and other relevant matters, we have decided to deny the petition. TWA has presented no new issues that the Board has not previously considered, and therefore we find no basis for reconsideration.

While TWA agrees that an immediate suspension of the nonaffinity fare would be disruptive, it argues that the Board should now consider suspension at some future date. Since a new IATA agreement relating to the entire North Atlantic fare structure including fares to Greece is to be negotiated in August for effectiveness November 1, and since we will have the opportunity then to take such action as is appropriate, we see no reason to consider suspension at this time.

Accordingly, pursuant to the Federal Aviation Act of 1958, particularly sections 102, 204(a), 403, 404, and 1002 thereof;

It is ordered, That:

The petition of Trans World Airways, Inc. in Docket 29143 be and hereby is denied.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76–22807 Filed 8–4–76;8:45 am]

[Docket Nos. 29597, etc.; Order 76–8–5]

UNITED AIR LINES, INC. ET AL.

Order Regarding Chicago-Vancouver Route Proceeding

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 2d day of August 1976.

On May 8, 1974, a new bilateral air transport agreement between the United States and Canada was signed.[1] This agreement provides for a number of new routes for United States and Canadian carriers, including nonstop authority for a United States carrier between Chicago and Vancouver, which authority became effective on April 25, 1976.

United Air Lines (Docket 25961), Northwest Airlines (Docket 29089), and Western Air Lines (Docket 29114)[2] have filed applications for amendment of their certificates of public convenience and necessity to include Chicago-Vancouver nonstop authority. Northwest filed a motion requesting that its application for certificate amendment be processed via an order to show cause, or, in the alternative, that its application be heard on an expedited basis.

Northwest also filed (Docket 29088), pursuant to section 416(b) of the Act, an application for exemption authority to serve Chicago-Vancouver on a temporary basis pending final award to one or more of the competing applicants.[3]

United filed a consolidated answer in opposition to Northwest's exemption application and to its request for an order to show cause.

Northwest filed a reply to the United answer.

The market is currently served by United which offers a single daily one-stop round trip over Seattle and by Air Canada which offers a single daily one-stop round trip over Calgary.

Upon consideration of the foregoing and other pertinent matters, we have determined to institute a proceeding for the purpose of considering the need for U.S.-flag nonstop service between Chicago and Vancouver. Accordingly, we are consolidating for hearing those applica-

[1] TIAS No. 7824.

[2] Western also included a request for new Vancouver-Spokane authority in its application.

[3] In support of its request for exemption, Northwest states, inter alia, that: exemption authority to permit nonstop Chicago-Vancouver service will protect its Edmonton/Winnipeg-Twin Cities/Chicago traffic from diversion by Air Canada which has recently commenced Vancouver - Calgary - Chicago service; that U.S.-flag participation in the Vancouver-Chicago market will be similarly protected; that Northwest already serves the market via interline connections; and that Northwest can operate the service profitably.

V 41 152 AUG 5 76 UMI

tions which conform to the scope of this proceeding.

We have also determined that it is not necessary to hear this matter on an expedited basis,[4] nor to issue an order to show cause as has been requested by Northwest.

Further, we have decided to deny Northwest's application for exemption authority. The carrier has not persuaded us that the exercise by the Board of its extraordinary exemption powers under 416(b) of the Act is required by the public interest nor that any of the factors adduced by it constitute an undue burden on the carrier by reason of the unusual circumstances affecting, or the limited extent of, its operations.[5]

Finally, United and Western have not submitted sufficient information for us to determine the environmental consequences of the proposed certificate amendment at this time. Therefore, we will require these carriers to file the information set forth in Part 312 of the Board's Procedure Regulations within 30 days of the date of adoption of this order.

Accordingly, it is ordered, That:

1. A proceeding to be known as the Chicago-Vancouver Route Proceeding, Docket 29597, be and it hereby is instituted and shall be set down for hearing before an Administrative Law Judge of the Board at a time and place hereafter designated, as the Board's calendar may permit;

2. The proceeding instituted by paragraph 1 above shall include consideration of the following issues:

(a) Do the public convenience and necessity require the certification of an air carrier or air carriers to engage in nonstop foreign air transportation between Chicago, Illinois, and Vancouver, British Columbia, Canada?

(b) If the answer to (a) is in the affirmative, which air carrier(s) should be authorized to engage in such service?

(c) What conditions, if any, should be placed on the operations of such carrier(s)?

3. Insofar as they conform to the scope of the proceeding set forth in paragraph 2 above, the applications of United Air Lines, Inc., in Docket 25961; Northwest Airlines, Inc., in Docket 29089; and Western Air Lines, Inc., in Docket 29114, be and they hereby are consolidated with the proceeding instituted by paragraph 1 above;

4. The application of Northwest Airlines, Inc., in Docket 29088, for exemption authority to permit it to operate temporary nonstop service in the Chicago-Vancouver market be and it hereby is denied;

5. United Air Lines, Inc., and Western Air Lines, Inc., shall file an environmental evaluation pursuant to section 312.12 of the Board's Procedural Regulations within 30 days of the date of adoption of this order;

6. Applications, motions to consolidate, and petitions for reconsideration of this order shall be filed 20 days from the date of adoption of this order and answers thereto shall be filed ten days thereafter; and

7. A copy of this order shall be served upon the following: the Departments of the Interior, Transportation, Commerce, Housing and Urban Development, and Health, Education, and Welfare; the National Aeronautics and Space Administration; the Federal Aviation Administration; and the Environmental Protection Agency.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76-22808 Filed 8-4-76;8:45 am]

[4] In other words, we will not direct that the case be heard in accordance with the special procedures used in the Chicago-Montreal Route Proceeding, Order 75-6-55, June 11, 1975, but rather in accordance with those procedures regularly employed in the processing of applications pursuant to section 401 of the Act.

[5] See Boston-Toronto Nonstop Route Proceeding, Order 74-8-55, August 13, 1974, where the Board denied a request for an exemption made in similar circumstances; see also Honolulu-Vancouver Route Proceeding, Order 74-11-33, November 6, 1974.

(Secs. 1 to 20 are pursuant to the Act of December 27, 1974, 88 Stat. 1789; 44 U.S.C. 3501, Note.)

STATEMENT OF ORGANIZATION

Section 1. Organization. The Commission on Federal Paperwork was established by the Act of December 27, 1974 (88 Stat. 1789; 44 U.S.C. 3501, Note; Public Law 93-556), hereinafter referred to as the "Organic Statute", as amended from time to time, and is composed of 14 members, three of whom are selected by the members to serve as their Chairman, Co-Chairman and Vice-Chairman. Appointments to the Commission are made as follows: Two members of the Senate (who shall not be members of the same political party) appointed by the President of the Senate; two members of the House of Representatives (who shall not be members of the same political party) appointed by the Speaker of the House of Representatives; the Director of the Office of Management and Budget and one other official or employee of the Executive Branch of the Federal Government appointed by the President of the United States; the Comptroller General of the United States; two from among officials of State and local governments (who shall not be members of the same political party) appointed by the President of the United States; five from among persons in the private sector, including small business, labor, and other interested groups (no more than three of whom shall be of the same political party), appointed by the President of the United States. Vacancies in the Commission are to be filled in the same manner as the original appointments.

(Notice of Systems of Records was published on November 13, 1975, in the FEDERAL REGISTER, p. 52974).

Section 2. Functions. The functions of the Commission pursuant to the "organic statute" are to study and investigate statutes, policies, rules, regulations, procedures, and practices of the Federal Government relating to information gathering, processing, and dissemination, and the management and control of these information activities, and to ascertain what changes are possible and desirable in existing statutes, policies, rules, regulations, procedures, and practices relating to Federal information activities. The Commission is to make a final report of its findings and recommendations to the Congress within two years of the date of its first meeting. The Commission may make such interim reports and recommendations as it deems advisable. Thus, the principle Commission functions are to conduct studies and submit reports to Congress and to the President.

AVAILABILITY OF RECORDS

Section 11. Policy. This and the following sections implement the policy of making the fullest possible public disclosure of the Commission's records consistent with its responsibilities as an independent activity reporting to the Congress and to the President. Since the responsibilities of the Commission are advisory in nature as indicated in Section 2 above, it does not ordinarily render decisions or issue regulations affecting the rights of the general public. The written materials coming into possession of or created by the Commission are essentially preliminary and for the deliberation of the Commission, its staff and study efforts, and accordingly, "internal communications" within the meaning of 5 U.S.C. 552(b)(5). As such they are exempt from disclosure. From time to time the Commission may determine to permit inspection and copying of certain "available materials" in the public interest even though exempt from disclosure. Although the adopted policy of the Commission as expressed in these sections reflects the Public Information Section of the Administrative Procedure Act (5 U.S.C. 552), the mandatory application of the Act of the Commission is not to be inferred, nor should these sections be

construed as conferring on any member of the public any right of access under that Act.

Section 12. Definitions. (a) The term "record" as appears in Commission rules means any item falling within the definition of "record" as defined in the Privacy Act of 1974.

(b) Subject to the provisions of Section 19 and as used herein, the term "available materials" means those selected materials which the Commission elects to make available in the public interest. The selected materials comprehend the following items of information: Approved definitive charters of the Commission's study groups; unclassified Commission contracts; the records of the final votes of each Commissioner with respect to any interim or the final report of the Commission after their submission to the Congress and to the President; and such other materials as the Chairman may from time to time authorize to be made available to the general public. The reports of the various study groups established by the Commission are considered preliminary staff papers for use of the Commission together with other studies and analyses. These reports will be subject to further detailed inquiry by the Commission through instructions for further study by the study groups, through public meetings or hearings, or through other means. Consequently, submission of study group reports does not import approval or disapproval by the Commission. Except as otherwise determined by the Commission, these reports will become available to the general public upon the expiration of the life of the Commission, but in no event prior to the submission of the official final report of the Commission to the Congress and to the President.

Section 13. Inspection and copying. The records and available materials of the Commission may be inspected or copied unless the requested record or available materials fall within one of the exemptions set forth in Section 19 below.

Section 14. Applications for records and available materials. Any person desiring to inspect or copy records or available materials known to be in the possession of the Commission shall apply in person or in writing to the Director at the offices of the Commission on Federal Paperwork, Suite 200, 1111 20th Street, N.W., Washington, D.C. 20582. Applications by personal visit may be made between the hours of 9:00 a.m. and 5:00 p.m. on weekdays (holidays excluded).

Except in cases where the information sought is available to the general public, the applicant will be required to produce two sources of personal identification. The request should identify with specificity the desired document. An index identifying the subject matter of the records or available materials of the Commission is kept at the Commission offices for inspection on request. All public inquiries will be acknowledged within 10 days (excluding Saturdays, Sundays, and legal public holidays).

Section 15. Recovery of costs. Except as otherwise provided in specific instances by the Commission, a fee shall be required for all searches for, or copies of, records or available materials. These fees shall be so computed as to obtain full cost recovery of searching and copying. To the extent that printed copies of reports or other written works are available, a charge shall also be made. Where written works have been published by the Government Printing Office or other Government printing activity, the Commission will direct the applicant to the appropriate sales office.

Section 16. Records and available materials of other agencies. Requests for records or available materials that have been originated by or are primarily the concern of another U.S. department or agency shall be forwarded to the particular department or agency involved, and the applicant notified.

Section 17. Types of copying processes and standard of quality. The Commission will provide copies of the requested records or available materials of the same type and quality which it would provide in the course of official business to personnel of a U.S. department or agency. It will not accept requests for special types of copying processes or for special standards of quality of reproduction.

Section 18. Schedules of fees. (a) A search for records or available materials involving no more than 15 minutes will be made without charge. For searches requiring more than 15 minutes the charge will be at the rate of $2.00 for each half hour or fraction thereof after the first 15 minutes. If an individual is seeking records pertaining to himself, no search charge will be assessed.

(b) Copying service will be performed at the following rates: The fee for electrostatic copying, including handling, will be at the rate of 25 cents per page.

(c) From time to time the Commission may hold public meetings or hearings of which transcripts may be prepared by reporters under contract. In such cases, copies of material from such transcripts may be procured from the contract reporters.

(d) Certification of authenticity will be $2.00 for each certificate.

(e) The Chairman may revise the schedule of fees from time to time, without notice, to provide more accurately for the recovery of costs incurred by the Commission.

Section 19. Records and documentary information that may be exempt from public disclosure. (a) The policy of public disclosure of records and available materials of the Commission contemplated by these sections shall not apply to records, available materials or documentary information within any of the nine categories enumerated in Section 552(b) of the Freedom of Information Act (81 Stat. 54; 5 U.S.C. 552), except where, in the judgment of the Chairman, the rights of any person would not be adversely affected and no significant purpose would be served by withholding the record, available materials or documentary information under the exemption.

(b) In the application of the exemptions set forth in paragraph (a) of this section, there shall be considered the guidelines provided in the Attorney General's Memorandum on the Public Information Section of the Administrative Procedure Act, June 1967.

Section 20. Requests to amend records. In the event an individual discovers specific errors in any Commission record pertaining to himself, requests for a Commission determination regarding such error should be addressed to the Director. A hearing date shall be set no later than 30 days after said request, at which time the individual may present for the Director's consideration any facts and arguments in the matter of said error.

Dated: July 29, 1976.

FRANK HORTON,
Chairman.

COMMODITY FUTURES TRADING COMMISSION

CHICAGO MERCANTILE EXCHANGE; AMENDMENTS POTATO CONTRACT

Hearing

Commencing at 9:30 a.m. on August 30, 1976, the Commodity Futures Trading Commission will hold a public hearing, at the Rodeway Inn, 29th & Chinden Blvd., Boise, Idaho, to receive oral presentations and written submissions concerning proposed amendments to the Potato Contract of the Chicago Mercantile Exchange ("CME").

On February 26, 1976 the CME submitted revisions to its Potato Contract for approval pursuant to section 5a(12) of the Act. This contract was further amended in additional submissions on May 11 and July 7, 1976. The text of the CME Potato Contract, as amended as of July 7, 1976, is set forth below.

Participants in the hearing may be accompanied by persons of their own choosing, who may advise or assist the speaker in responding to questions or otherwise assuring that full information is developed for the use of the Commission. During and subsequent to any person's oral presentation, questions may be asked either by members of the Commission or the Commission staff. The Commission recognizes that members of the public may have questions; therefore, provision will be made for persons who have questions to submit those questions in informal written form to a member of the Commission staff who may in his or her discretion ask such questions. In addition, interested persons will be permitted for 20 days after the last day of the oral hearing, to submit written comments on all matters presented at the hearings or any other topic, including written rebuttals to oral presentations. A schedule of participants will be issued at the earliest possible date.

All persons wishing to make an oral presentation are requested to contact Ms. Jane Stuckey, Director, Office of Secretariat, Commodity Futures Trading Commission, 2033 "K" Street, NW., Washington, D.C. 20581 by August 16, 1976. Such persons are requested to submit twenty

V 41 152 AUG 5 76 UMI

five copies of their prepared statement to Ms. Stuckey before the scheduled appearance. Oral presentations will be limited to fifteen minutes.

Issued in Washington, D.C. on July 30, 1976.

WILLIAM T. BAGLEY,
Chairman, Commodity Futures Trading Commission.

CHAPTER 20—POTATOES

2000. Scope of Chapter.—This chapter is limited in application to futures trading of Idaho, Midwestern and Western Russet Burbank potatoes. The procedures for trading, clearing, inspection, delivery, settlement and any other matters not specifically covered herein shall be governed by the rules of the Exchange.

2001. Commodity specifications.—All futures contracts shall be for Russet Burbank potatoes meeting the U.S. standards for grades of potatoes as promulgated by the United States Department of Agriculture (USDA), U.S. No. 1, washed, except that the potatoes shall be straight run, nonstripped, the diameter of the potatoes shall be at least 2 inches, or the weight not less than 4 ounces each. The potatoes shall be of practically no skinning as to maturity, of russet color, and with most of the surface showing Russet Burbank characteristics. No artificial coloring shall be allowed. Potatoes stored in transit shall not constitute good delivery.

2002. Futures call.—A. Trading Months and Hours. Futures contracts shall be scheduled for trading and delivery during such hours and in such months as may be determined by the Board.

B. Trading unit. The unit of trading shall be 80,000 pounds.

C. Price increments. All bids and offers shall be in multiples of $.01 per hundredweight.

D. Daily price limits. No bid or offer shall be made or accepted at a price more or less than $.50 per hundredweight above or below the previous day's settling price, except that on the last day of trading in the delivery month the limit shall be increased to $1.00 per hundredweight and except as provided by Rule 2008 (expanded daily price limits).

E. Position limits. A person shall not own or control more than 350 contracts net long or short, with a maximum of 300 contracts in November, 300 contracts in January, 150 contracts in March, 150 contracts in April and 150 contracts in May.

F. Trading limits. While restricted to the foregoing position limits, a person shall not during one day trade more than 300 November contracts, 300 January contracts, 150 March contracts, 150 April contracts, or 150 May contracts nor more than 350 contracts in all futures combined.

G. Accumulation of positions. For purpose of this Rule 2002, the positions of all accounts owned or controlled by a person or persons acting in concert or in which such persons have a proprietary or beneficial interest shall be cumulated.

H. Bona fide hedges. The foregoing limits shall not apply to bona fide hedging transactions meeting the hedging requirements of Chicago Mercantile Exchange Rule 722.

I. Termination of trading. Trading shall terminate on the 10th calendar day of the contract month or, if the 10th calendar day is not a business day, then on the business day immediately preceding the 10th calendar day of the contract month.

J. Contract modifications. Specifications shall be fixed as of the first day of trading of a contract except that all deliveries must conform to government regulations in force at time of delivery. If any federal or state governmental agency issues an order, ruling, directive or law that conflicts with requirements of these rules, such order, ruling, directive or law shall be construed to take precedence and become part of these rules, and all open and new contracts shall be subject to such governmental orders.

2003. Delivery procedures.—In addition to the procedures and requirements of Chapter 11, the following shall specifically apply to the delivery of potatoes.

A. Delivery days. Delivery shall be made during the delivery month beginning on the 13th calendar day thereof or the following business day if the 13th calendar day is not a business day.

B. Seller's duties. At seller's option, par delivery may be made in a single railroad car with mechanically protective heating and refrigerating service ("M.P.S.") at delivery point or in two semi-vans, each packed half 10 lb. bales and half 50 lb. cartons, with M.P.S., at shipper's shed.

1. Semi-van delivery. If the seller elects to deliver in semi-vans, the seller shall deliver a Notice of Intent to Deliver to the Clearing House of the Exchange before 7:00 a.m. not sooner than the business day following termination of trading and not later than the business day immediately preceding the last two business days of the delivery month.

Upon receipt of buyer's shipping instructions, the seller shall, within one business day follow those instructions. The seller shall protect the lowest 40,000 pound truck rate for the buyer. The seller shall allow the buyer the freight cost, computed on the through rate to destination, from shipper's shed to point of delivery. The seller shall tender delivery notice to the Clearing House prior to 7:00 a.m. on the day of shipment.

If the seller fails to deliver by 7:00 a.m. following the business day of receipt of shipping instructions, the seller shall pay charges of $.50 per cwt. ($400 per contract) per business day to the buyer until delivery is made.

2. Railroad delivery. If the seller elects to make delivery by railroad car, he shall tender a delivery notice to the Clearing House as required by Rule 1107–B hereof prior to 7:00 a.m. on the day of delivery.

Delivery shall be made by the seller free of freight and demurrage charges including day of delivery at delivery point. Should the buyer accept the delivery point as his final destination, the freight charges from shipper's shed to delivery point shall be paid by the buyer to the railroad. The seller shall make available to the buyer one reconsignment at the through rate as published by the originating railroad from point of delivery. Any additional reconsignment ordered by the buyer shall be paid by the buyer. In the event the seller is unable to make available to the buyer such reconsignment privileges at the through rate published by the originating railroad, the seller shall pay or allow the buyer an amount equal to the difference between the through freight rate and local freight rate.

C. Buyer's duties. Upon receipt of an intent to deliver two semivans, the buyer, within one business day, shall deliver to the seller shipping instructions stating destination of the potatoes. If the buyer fails to deliver shipping instructions by 7:00 a.m. the business day after the receipt of intent to deliver, the buyer shall pay charges of $.50 per cwt. ($400.00 per contract) per business day to the seller until shipping instructions are received.

D. Payment. Payment shall be made in accordance with Rule 1107–E.

2004. Par Delivery and Substitutions. A. Par Delivery Unit. Potatoes contained in the par delivery unit shall be U.S. No. 1, washed, except that the diameter of the potatoes shall be at least 2 inches, or the weight not less than 4 ounces each.

A par delivery unit shall be composed of 80,000 pounds of potatoes. Half of the par delivery unit shall be packed in master containers which shall be composed of 10 pound all orange, all tangerine, or all red mesh bags containing U.S. No. 1 potatoes, with a minimum top weight of 7 ounces, with no individual potato exceeding 10 ounces except that one (1) oversized potato may be permitted in any sample. Removal of potatoes larger than 7 ounces is permitted only when such potatoes are diverted to form size designated carton packs offered for futures delivery. Half of the par delivery unit shall be packed in 50 pound new cartons designated as containing 80's, 90's, or 100's size, conforming to USDA standards of tolerance not more than 400 cartons for any one size designation shall be permitted. Cartons of the same size designation shall be in multiples of 100 cartons, up to a maximum of 400 cartons for any one size designation. Removal or additional of potatoes for reasons of size during the packing operation is permitted only when necessary for compliance with the applicable size designation.

All deliveries shall be made in rail car or semivans with refrigerating and heating equipment and with the floor covering customarily acceptable in industry practice.

B. Quantity deviations. A delivery unit weighing less than 79,000 pounds may not be delivered. A delivery unit weighing between 79,000 and 80,000 pounds may be delivered with an allowance to the buyer to reflect actual weight, and no payment shall be required on account of any quantity in excess of 80,000 pounds.

C. Substitutions and allowances. At seller's option, a delivery unit composed of 80,000 pounds of U.S. No. 1 Size A potatoes packed in new 100-pound burlap bags may be delivered at an allowance of $2.50 per hundredweight. The potatoes shall be washed, and the diameter of the potatoes shall be at least two inches or the weight not less than four ounces each and an average of a least 15%, but not more than 40% of them shall be 10 ounces or more in weight. Removal or addition of potatoes for reasons of size during the packing operations is permitted only when necessary for compliance with the applicable size designation.

D. Place of delivery. Par delivery shall be F.O.B. Pocatello, Idaho. Deliveries may be made F.O.B. from Pasco and Othello, Washington, and Klamath Falls and Hinkle, Oregon at an allowance of $.75 per cwt; deliveries may be made F.O.B. from Monta Vista, Colorado at $.75 per cwt.; deliveries may be made F.O.B. from Grand Forks, North Dakota at an allowance at $1.25 per cwt.; deliveries may be made F.O.B. from Stevens Point, Wisconsin and Iron Mountain and Greenville, Michigan at an allowance of $1.00 per cwt. except as provided by Rule 2003–B–2.

2005. Procedures and standards for sampling, examination and rating for conformance. A. Examination and grading. Federal-state unrestricted inspection shall be made at the point of origin, and to be eligible for delivery, inspection shall not have been made prior to two calendar days after the last day of trading. On the basis of these inspections at these points of origin, inspection certificates shall be issued, each of which shall show the date, time of inspection, the car number, seal number, the grade and size, and the signature of the inspector. To be good delivery, the USDA inspection certificate issued at the point of origin must show a loading span of no more than 48 hours from time loading began and finished.

The certificate issued at the point of origin shall be final and shall be good for the five full business days following the inspection date. This USDA certificate shall accompany the delivery documents as required by Chapter 11. Should the pressure of time demand, a telephone report from the USDA inspector containing the information required in Rule 1101 shall be permissible for delivery.

Each time a certificate based on an unrestricted USDA inspection at the delivery point expires, the potatoes must have a new USDA inspection within two business days to be good for delivery. Such new inspection may be restricted.

B. Weighing. Contract units shall be inspected for weight at point of origin. A buyer, however, may request re-inspection for weight at point of origin provided he notifies the Exchange, in writing, before 3:30 p.m. on the day after tender. Such notice shall show the car number or seal numbers of semivans, location and identification of the lot to be weighed. The weighing shall be done by a weighmaster appointed by the president of the Exchange. No contract unit shall be weighed if partially unloaded or if the contents have been disturbed except as a result of an official USDA inspection. The buyer shall furnish all necessary transport vehicles and labor required to make the weight tests.

The weighmaster shall weigh at least 1,000 lbs. of 10 lb. bags, 1,000 lbs. of 50 lb. cartons, or 2,000 lbs. of 100 lb. bags, taken at random out of the delivery unit, but he shall not take any bags, cartons, or bales that were previously inspected and the bags, cartons, or bales he weighs must be part of the original lot deliveries. In case the weight test shows the average weight to be not more than 1% net below the marked weight of the bags, cartons, or bales, the delivery unit shall be good delivery and the entire cost of the weight test shall be borne by the person requesting the test. Payment, however, shall be made on the basis of the weight as shown on the USDA inspection certificate originally submitted on the tender. If the weight test shows an average of more than 1% net below the marked weight of the bags, cartons, or bales, the delivery unit shall not be a good delivery and the seller shall bear the full cost of the weight test, and the seller shall make a replacement delivery. The average gross weight of the bags, cartons, or bales, weighed by the weighmaster shall be the basis of settlement for the delivery unit. A certificate of weight shall be issued by the Exchange.

2006. Official potato inspection certificate.—The Exchange shall issue an Official Potato Inspection Certificate upon conformance of all inspection requirements pursuant to these rules which shall be valid until the expiration of the USDA Inspection Certificate.

2007. Costs of inspection, weighing and storage.—In addition to the allocation of costs detailed in Rule 2005 of this chapter, when an unrestricted or restricted USDA inspection is made at any time at the delivery point, the seller shall furnish and pay for all equipment and labor necessary to make the inspection and also pay for the cost of the certificates.

2008. Expanded daily price limits.—When any contract month closes at the normal daily price limit an expanded daily price limit schedule shall go into effect as follows:

1. The next business day's price limit in all contract months shall be $.75 per cwt.

2. If any contract month closes at its expanded daily price limit on the second day in the same direction as the move that initiated the expanded limits, then the third day's expanded daily price limit and each successive day's thereafter, shall be $1.00 per cwt. so long as any contract month closes at its expanded daily price limit in that same direction.

3. Whenever the foregoing daily price limit schedule is in effect and no contract month closes at the price limit in the same direction which initiated or maintained the expanded schedule, then the normal daily price limit shall be reinstated on the following business day.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

TASK FORCE ON DEMONSTRATION PROJECTS AS A COMMERCIALIZATION INCENTIVE

Meeting

JULY 30, 1976.

In accordance with the provisions of P.L. 92–463 (Federal Advisory Committee Act), the Task Force on Demonstration Projects as a Commercialization Incentive will meet on Friday, August 27, 1976, at the O'Hare Hilton, O'Hare International Airport, Chicago, Illinois.

The meeting will be from 10:30 a.m. until 4:00 p.m., and will be an executive session not open to the public, under the authority of Section 10(d) of Public Law 92–463, to exchange opinions pertaining to the final wording of the report of the Task Force. I have determined that it is necessary to close the meeting to exchange opinions on the final wording of the report, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b). Any non-exempt material that may be discussed at the session will be inextricably intertwined with the discussion of exempt material and no further separation is practical. It is essential to close the meeting to protect the free interchange of internal views and avoid undue interference with Administration and Task Force operations.

The Chairman is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business.

K. DEAN HELMS,
Acting Advisory Committee Management Officer.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 594–8; PP 6G1739/T75]

ESTABLISHMENT OF A TEMPORARY TOLERANCE

N-(1-Ethylpropyl)-3,4-Dimethyl-2,6-Dinitrobenzenamine

American Cyanamid Co., PO Box 400, Princeton NJ 08540, has submitted a pesticide petition (PP 6G1739) to the Environmental Protection Agency (EPA). This petition requests that a temporary tolerance be established for combined residues of the herbicide N-(1-ethylpropyl)-3,4-dimethyl-2-6-dinitrobenzenamine and its metabolite 4-[(1-ethylpropyl) amino]-2-methyl-3,5-dinitro benzyl alcohol in or on the raw agricultural commodities beans (dry, snap, and lima) and potatoes at 0.1 part per million (ppm).

Establishment of this temporary tolerance will permit the marketing of the above raw agricultural commodities when treated in accordance with two experimental use permits that are being issued concurrently under the Federal Insecticide, Fungicide, and Rodenticide Act.

An evaluation of the scientific date reported and other relevant material has shown that the requested tolerance is adequate to cover residues resulting from the proposed experimental use, and it has been determined that the temporary tolerance will protect the public health. The temporary tolerance is established for the pesticide, therefore, with the following provisions:

1. The total amount of the pesticide to be used must not exceed the quantity authorized by the experimental use permits.

2. American Cyanamid Co. must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The firm must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This temporary tolerance expires July 30, 1977. Residues not in excess of 0.1 ppm remaining in or on beans (dry, snap, and lima) and potatoes after this expiration date will not be considered to be actionable if the pesticide is legally applied during the term of and in accordance with the provisions of the experimental use permits and temporary tolerance. This temporary tolerance may be revoked if the experimental use permits are revoked or if any scientific data or experience with this pesticide indicate such revocation is necessary to protect the public health.

(Section 408(j) of the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 346a(j)].)

Dated: July 30, 1976.

DOUGLAS D. CAMPT,
Acting Director, Registration Division.

PESTICIDE AND FOOD ADDITIVE PETITIONS

Filings

Pursuant to the provisions of Sections 408(d)(1) and 409(b)(5) of the Federal Food, Drug, and Cosmetic Act, the Environmental Protection Agency gives notice that the following petitions have been submitted to the Agency for consideration.

PP6F1803. FMC Corp., 100 Niagara St., Middleport NY 14105, proposes that 40 CFR 180.254 be amended by the establishment of tolerances for combined residues of the insecticide carbofuran (2,3-dihydro-2,2-dimethyl-7-benzofuranyl - N-methylcarbamate), its carbamate metabolite 2,3-dihydro-2,2-dimethyl-3-hydroxy - 7 - benzofuranyl-N-methylcarbamate, and the phenolic metabolites 2,3-dihydro-2,2-dimethyl-7-benzofuranol, 2,3-dihydro-2,2-dimethyl-3-oxo-7-benzofuranol, and 2,3-dihydro-2,2-dimethyl-3,7-banzofurandiol in or on the raw agricultural commodities barley, oats,

V 41 152 AUG 5 76 UMI

rye, and wheat at 5 parts per million (ppm) (of which not more than 1 ppm is carbamates) and in or on the grain of barley, oats, rye, and wheat at 0.2 ppm (of which not more than 0.1 ppm is carbamates). Proposed analytical method for determining residues is a gas chromatographic procedure using a nitrogen specific microcoulometric detector. PM12 (202/755-9315)

PP6F1823. Mobay Chemical Corp., Chemagro Div., PO Box 4913, Hawthorne Rd., Kansas City MO 64120, proposes that 40 CFR 180.332 be amended by the establishment of tolerances for combined residues of the herbicide 4-amino-6-(1,1-dimethylethyl)-3-(methylthio)-1,2,4 - triazin - 5(4H) - one and its triazinone metabolites in or on the raw agricultural commodities lentils at 0.05 ppm, lentil forage and peas at 0.1 ppm, and pea forage at 0.5 ppm. Proposed analytical method for determining residues is a gas chromatographic procedure using an electron capture detector. PM25 (202/755-7012)

FAP6H5137. Shell Chemical Co., Suite 300, 1700 K St. NW, Wahsington DC 20006, proposes that 21 CFR 193.140 be amended by the establishment of a regulation permitting the use of the insecticide 2,2-dichlorovinyl dimethyl phosphate in a resin-in-secticide generating device, with an open/close capability, in areas where foods is prepared or served, including, but not limited to, homes and restaurants. PM13 (202/755-9315)

PP6F1817. Upjohn Co., Kalamazoo MI 49001, proposes that 40 CFR 180 be amended by the establishment of tolerances for residues of the insecticide N'-[2,4-dimethylphenyl] - N-[[(2,4-dimethylphenyl) imino] methyl]-N - methylmethanimidamide and its metabolites containing the 2,4-dimethylianiline moiety (calculated as the parent compound) in or on the raw agricultural commodities applies at 1.0 ppm and pears at 3.0 ppm, and in the meat, fat, and meat byproducts of cattle, goats, hogs, horses, and sheep at 0.05 ppm. Proposed analytical method for determining residues is a gas chromatographic procedure using a flame ionization detector. PM13 (202/755-9315)

FAP6H5138. Upjohn Co., Kalamazoo MI 49001, proposes that 21 CFR 561 be amended by the establishment of a regulation permitting the use of the insecticide N'-[2,4-dimethylphenyl]-N-[[(2,4 - dimethylphenyl) imino] methyl] - N-methylmethanimidamide and its metabolites containing the 2,4-dimethylaniline moiety (calculated as the parent compound) in dried apple pomace at 10 ppm. PM13 (202/755-9315)

Interested persons are invited to submit written comments on any petitions referred to in this notice to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, Room 401, East Tower, 401 M St. SW, Washington DC 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and of others interested in inspecting them. Inquiries concerning specific petitions referred to in this notice may be directed to the designated Product Manager (PM), Registration Division (WH-567), Office of Pesticide Programs, at the above address, or by telephone at the numbers cited. Written comments should bear a notation indicating the number of the petition to which the comments pertain. Comments may be made at any time while a petition is pending before the Agency. All written comments filed pursuant to this notice will be available for public inspection in the office of the Federal Register Section 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: July 30, 1976.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

PESTICIDES ENFORCEMENT PROGRAM

Grant Availability

Notice is hereby given that the Environmental Protection Agency will implement a pesticides enforcement grant-in-aid program pursuant to Section 23(a) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended in 1972 and 1975 (P.L. 92-516; P.L. 94-140, 7 U.S.C. 136 *et seq*), with grants to State agencies which are responsible for the enforcement of State pesticides laws and which have been designated by the Governor to be the State lead agency. These grants will be awarded on a competitive basis and made available to States to augment pesticides enforcement activities and enable States to participate more fully with EPA in the cooperative enforcement of the Federal Insecticide, Fungicide, and Rodenticide Act. All EPA grants are awarded subject to the provisions of the EPA General Grant Regulations (40 CFR Part 30). The fiscal year 1977 pesticides enforcement grants will be subject to the General Grant Regulations and special grant conditions. Proposed grant regulations will be developed and, published in the FEDERAL REGISTER for grants subsequent to fiscal year 1977.

It is anticipated that the duration of this grant program will be between three (3) and five (5) years with individual grants awarded annually and renewed for a maximum of two (2) additional years. Approximately one million dollars is expected to be available in fiscal year 1977 to fund this grant program. Grants will usually involve funding of between (20) and one hundred (100) thousand dollars. It is anticipated that the grantee's matching contribution will increase yearly over the program period from 15% the first year to 30% the last year of the pesticides enforcement grant.

Guidelines regarding application submission instruction, competitive evaluation criteria, and program information pertaining to pesticides enforcement grants will be made available to the States by the respective EPA Regional Administrator.

Dated: July 28, 1976.

STANLEY W. LEGRO,
Assistant Administrator
for Enforcement.

[FRL 593-1; OPP-00024]

PESTICIDE PROGRAMS

Interim Requirements for Registration of Bacteriostatic Water Treatment Units for Home Use

• *Purpose.* The purpose of this statement is to give notice of the policy of the Environmental Protection Agency (EPA) with respect to the registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973, 7 U.S.C. 136 et seq.), of certain bacteriostatic water treatment units intended for home use. Specifically, this statement pertains to home-use bacteriostatic water treatment units containing filtering media impregnated with silver which is intended to prevent, destroy or mitigate any pest, and which recommend a lifetime tapwater capacity that reasonably could be expected for a dwelling occupied by one family. This statement addresses the data which the Agency currently is requiring to support an application for registration of these home use bacteriostatic water treatment units, and the claims which the Agency will accept in conjunction with the registration of these units. •

The Agency is publishing this notice as a general statement of policy under section 4 of the Administrative Procedure Act, 5 U.S.C. 553(b)(A). It is anticipated that the requirements herein, including any subsequent modifications thereto, will be eventually incorporated in the Guidelines for Registering Pesticides in the United States, which the Agency is promulgating pursuant to section 3(c)(2) of FIFRA. (See the FEDERAL REGISTER of June 25, 1975, 40 FR 26801, and September 9, 1975, 40 FR 41788.)

BACKGROUND

There are three general types of water treatment units:

1. Water treatment units which are not intended to prevent, destroy, repel or mitigate any microorganism or other pest.[1] Examples of products in this class are products comprised of activated carbon or coarse filtering material, which are intended only to remove undesirable chemicals, odors or particulate matter, and with respect to which no expressed or implied claims for pesticidal activity are made. Water treatment units in this class are not subject to regulation under FIFRA.

2. Water treatment units which consist only of a physical means to prevent, destroy or mitigate microorganisms or other pests in water. Such water treatment units are devices within the meaning of FIFRA Section 2(h). While devices are not subject to the FIFRA registration requirement, the sale, distribution or other movement in commerce of a device in this category which is misbranded within the meaning of FIFRA Section 2(q)(1) is a violation of the Act. In addition, the producers of such devices are subject to the requirements of FIFRA Section 7, regarding reports to the Agency and other matters. (See 40 CFR 162.15.)

3. Water treatment units incorporating a substance or mixture of substances including any chemical antimicrobial agent, intended to prevent, destroy or mitigate microorganisms or other pests in water. Water treatment units in this class are pesticides subject to the FIFRA registration requirement. (See FIFRA Sections 3(a) and 12(a)(1)(A).) A pesticide cannot be registered unless the Administrator has made the findings set forth in FIFRA Section 3(c)(5). The required findings have been set forth in greater detail in 40 CFR 162.7(d)(1). Among other things, Section 3(c)(5) and 40 CFR 167.7(d)(1) require the Administrator to find that the pesticide is effective for the uses set forth on the label, and that the pesticide will not generally cause unreasonable adverse effects on the environment when used as directed. The applicant has the burden of proof with respect to each of the required findings.

Home use bacteriostatic water treatment units with filtering media impregnated with silver, which is intended to prevent, destroy or mitigate any pest, are included in category 3 above and therefore are subject to the registration requirements of Section 3 of FIFRA.

Under 40 CFR 141.14 of the National Interim Primary Drinking Water Regulations (December 24, 1975, 40 FR 59566), potable water is permitted a certain amount of harmless bacteria which is indigenous to municipally treated water. Because of the potential for extensive growth of such bacteria trapped within the filtering medium, most water treatment units for home use contain a bacteriostatic pesticide. The pesticide in such units is, of necessity, incorporated to negate the potential problem created by the primary intended use of these products, which is the removal of undesirable substances such as chemicals, odors, color, and particulate matter from municipally treated or other treated potable water.

PERMISSIBLE CLAIMS

The regulatory scheme under FIFRA provides several mechanisms for regulating the claims made for a pesticide product. Most important among these mechanisms is the requirement for review and approval of all claims made on the label (see FIFRA Section 2(p)(1)) or labeling (see FIFRA Section 2(p)(2)), of a pesticide product, prior to the registration of the product under the Act.[2] Moreover, a registrant must obtain the approval of the Agency before making any changes in the label or labeling of a pesticide product which has been approved in conjunction with registration. (See 40 CFR 162.6(b)(3)(i)(A).) Products whose label or labeling fail to satisfy the requirements of the Act and the regulations are "misbranded" (see FIFRA Section 2(q)); the sale, distribution or other movement in commerce of a misbranded pesticide is a violation of the Act (see FIFRA Section 12(q)(1)(E)). The specific requirements for the label and labeling of a pesticide are set forth in Section 2(q) of FIFRA and at 40 CFR 162.10.[3] Among other things, these requirements provide that the labeling must contain adequate directions for use (see FIFRA Section 2(q)(1)(F) and 40 CFR 162.10(j)) and adequate warning or caution statements (see FIFRA Section 2(q)(1)(G) and 40 CFR 162.10(h)). Additionally, the labeling must not contain any statement, design, or graphic representation thereto which is false or misleading in any particular (see FIFRA Section 2(q)(1)(B) and 40 CFR 162.10(a)(5)).

Since the basic purpose for the home use water treatment units addressed in this policy statement is to achieve benefits other than pesticidal (antimicrobial) benefits, the pesticidal claims permissible on the labeling and/or in advertising must be quite limited and explicit. The following pesticidal claims are considered to be the maximum warranted for products of this type:

1. Inhibits the growth of bacteria within the filter unit.
2. Contains a bacteriostatic filter.
3. Provides bacteriostatic activity within the filter unit.

In considering the foregoing allowable claims, it is obvious that any representation, either directly or by implication, of these products as "water purifiers" constitutes a false or misleading claim. They may be represented as "water treatment units", "water clarifiers", "water filters", or "water deodorizers", or similar names which do not in any way imply water purification. Depending upon the claims proposed and supporting evidence submitted, general claims such as "produces a clear water" or "improves water quality" may be acceptable.

Regulatory jurisdiction under FIFRA extends to all claims made on a product with pesticidal uses, including non-pesticidal claims. (See 40 CFR 162.10(a)(5).) Claims of value which are considered to be non-pesticidal must also be supported by adequate evidence. (See Table V, *supra*.) Claims of non-pesticidal action include claims that the following will be removed from water:

1. Halogenated volatile organics (must be specific).
2. Various pesticides (must be specific).
3. Metals (must be specific).
4. Turbidity.
5. Chlorine.

Bacteriostatic water filtering units are designed to act only on bacteria contained in potable water which is microbiologically safe for drinking. Accordingly, claims will not be accepted for use of these units on polluted well water or raw waters. Moreover, the directions for use must clearly reflect that the product is only intended for use on potable water which is microbiologically safe for drinking.

DATA REQUIREMENTS

Appropriate data must be submitted indicating that the pesticide and other chemical components which are incorporated in the unit are not released at levels which exceed the maximum permitted in the National Interim Primary Drinking Water Regulations, *supra* (e.g., 50 ppb of silver).

Because performance of the units will probably vary according to the water quality, and in order to maintain a uniform condition of testing for all water filtering units, alternate choices for a standard water are possible as follows:

(1) Tap water for testing should approximate the quality parameters of the tap water at the Environmental Protection Agency Laboratory, Beltsville, Maryland 20705, where pre-testing is conducted. A satisfactory range of key characteristics is as follows:

ph—6-8
Hardness as $CaCO_3$—25 mg/l (ppm)
Alkalinity as $CaCO_3$—20 mg/l (ppm)
Total Dissolved Solids 10-40 mg/l (ppm)
Temperature: 20°-25° C

(2) If such quality tap water is not available to the testing laboratory, a water that has been artificially constituted to the concentration ranges shown above for the tap water will be acceptable.

Claims must be justified for the life of the unit, as represented by the manufacturer, and when used as directed.

Pre-testing in EPA Laboratories may be required for any (or all) parameter(s), but will most often be required for silver levels in the effluent water and for bacteriostatic efficacy.

TEST PROTOCOL

The following test procedure (designed to simulate in-use conditions) for all such pesticidal devices must be followed. Because of the complex construction of the water treatment units, it should be clearly understood that the evaluation of the efficacy of these products is based upon an indirect comparative assay of the effluent, rather than upon a direct determination of the efficacy of the product at the site of pesticidal activity within within the unit.
within the unit.

[1] Attention is invited to 40 CFR 162.4(a), which provides as follows: "A substance or mixture of substances is a pesticide under the Act if it is intended for preventing, destroying, repelling or mitigating any pest. (See section 2(u) of the Act and § 162.3 (FF)). Such intent may be either expressed or implied. If a product is represented in a manner that results in its being used as a pesticide, it shall be deemed a pesticide for purposes of the Act • • •."

[2] FIFRA also provides authority to regulate the claims made in pesticide product advertising. See, e.g., FIFRA Section 12(a)(1)(B).

[3] The reader is encouraged to familiarize himself in detail with the provisions of the Act and regulations relevant to labeling of pesticide products.

V 41 152 AUG 5 76 UMI

BACTERIOLOGICAL

A. Challenge three product units, and three control units without silver, with a continuous flow of tap water, sampling in accordance with the format outlined in Table I.

B. Dechlorinated, sterilized (autoclaved) tap water, seeded with Pseudomonas fluorescens (ATCC No. 13525) which is a saprophytic microorganism commonly found in the microflora of water, at a concentration of 500 microorganisms per ml, must be employed in the test as the "artificially contaminated water. This water should be prepared by suspension of the organisms from 24-hour tryptone-glucose extract agar slants.

C. Each unit must be filled to its capacity with artificially contaminated water, and closed off in such a manner as to retain this water. A 100 ml sample of the artificially contaminated water must be retained for 24 hours, with a survival count reported at the end of this period. The effluent from the unit should be sampled after the prescribed holding period at room temperature. (See Table I.)

The holding period is required to stimulate the non-use or "stagnation" period one would expect under conditions of use before the effluent is sampled.

D. Bacteriological assays should be conducted on two (2), one hundred ml samples at each prescribed interval from each of the six units. Remove samples for silver analysis in accordance with Table II. To all twelve samples add 1.0 ml of a sterile neutralizing solution containing 5 percent sodium thioglycollate and 7.3 percent sodium thiosulfate. Plate counts must be carried out as described in the Standard Plate Count procedure, "Standard Methods for the Examination of Water and Wastewater," Thirteenth Edition, 1971, American Public Health Association, Inc., 1740 Broadway, New York NY 10019 (page 660). The tests should be performed utilizing tryptone-glucose extract agar, and all plates must be incubated at room temperature (20°–25° C) for 48 hours.

A filter unit will be considered to be effective as a bacteriostatic filter only when all bacterial counts of the test samples are significantly less than the corresponding control counts by the end of the test (to justify the need for the bacteriostatic agent).

NOTE.—Unless disposable glassware is used, all glassware must be pre-cleaned as follows: (1) Add 25 ml conc. HNO_3 to flask; (2) Swirl manually or mechanically for 5 min., making sure entire wetted surface is contacted by the HNO_3; (3) Discard this HNO_3; (4) Repeat Step 2 two additional times; (5) Soak flask in a 3% HNO_3 solution for 30 min.; (6) Soak flask in a 3% NH_4OH solution for 30 min.; (7) Wash in Hobart Laboratory Washer (or equivalent) as described by manufacturer.

CHEMICAL

A. The flow rate (as recommended), pH, and temperature of the tap water must be determined at each sampling interval; and the water hardness, alkalinity, and total dissolved solids of the water effluent at the beginning of the test must be reported.

B. Chemical analysis for silver concentration in the treated drinking water must be performed by the Atomic Absorption Method. Duplicate samples for silver analysis must be taken from the bacteriological samples as indicated in Table II. For details on sampling and cleaning of glassware for silver analysis see Table II.

C. All analytical procedures, unless otherwise specified will be in accordance with the "Standard Methods for the Examination of Water and Wastewater," cited above.

See Table V for guidelines for developing data to support non-pesticidal claims. The test results and information required during the testing of all units must be recorded and submitted in the precise formats outlined in Tables III and IV below.

TABLE I.—*Sampling and testing schedule*

[All sampling and testing procedures are to be performed at room temperature (20-25°C)]

Time interval	Bacteriological		Chemical (silver)	
	Influent	Effluent	Influent	Effluent
1. Start (follow manufacturer's start-up instructions for initial flush etc. before collecting first sample).	X [1]	X [1]	X	X
2. At 25 percent of filter life provide an 8-hour holding period		(No testing required)		
3. a. 50 percent of filter life	X [1]	X [1]		X
b. Add artificially contaminated water	X [2]			
c. After 24-hour holding period		X [2]		X
4. At 75 percent of filter life provide an 8-hour holding period		(No testing required)		
5. a. 95 percent of filter life	X [1]	X [1]		X
b. Add artificially contaminated water	X [2]			
c. After 24-hour holding period		X [2]		X

[1] Bacteriological counts of tap water used.
[2] Bacteriological counts of artificially contaminated water.

TABLE II—PROCEDURES FOR SAMPLING AND CLEANING OF GLASSWARE FOR ANALYSIS FOR SILVER

1. Sample Collection.

a. Pipette from each 100 ml sample collected for bacteriological assay approximately 15 ml into 18 x 150 mm capped soft glass test tube containing three drops of concentrated HNO_3 when silver analysis is required.

b. Invert test tube 3 or 4 times to mix sample and conc. HNO_3.

c. Sample is now ready for analysis.

2. Cleaning procedure (only for test tubes which have been used with HNO_3 to inhibit Ag adsorption).

a. Soak 18 x 150 mm soft glass test tube in 3% NH_4OH for 30 minutes.

b. Using test tube wash rack wash in Hobart Laboratory Washer or equivalent as described by washer manufacturer.

If the test tube has been used to collect a Silver sample without the use of HNO_3, use the following procedure prior to the NH_4OH soak.

a. Fill test tube with conc. HNO_3 and allow to soak 5 minutes.

b. Discard this HNO_3.

c. Repeat Step 1 two additional times.

d. Then go to NH_4OH soak as described previously.

TABLE V—GUIDANCE ON TESTING FOR SPECIFIC NON-PESTICIDAL CLAIMS

1. *Must be specific.* As stated previously all claims must be specific. Claims such as "Removes halogenated volatile organics" or "Removes chlorinated pesticides" are too general, and are not allowed. Claims for removal of "chloroform" or "aldrin" are allowed, if supported by satisfactory analyses.

2. *The preferred analytical methods are those in Standard Methods for the Examination of Water and Waste Water.* (American Public Health Assoc., 1015 18th Street NW., Wash., D.C. 20036) Official methods of the American Society for Testing Materials (ASTM) and the Association of Official Analytical Chemists (AOAC) are also acceptable. Other methods may be acceptable if documented and proved reliable.

3. *Chloroform removal claims* should be supported by analyses (of influent and effluent) preferably using the methods of Bellar, Lichtenberg and Kroner. These methods are discussed in the Journal of the American Water Works Association for December 1974. Other methods may be acceptable if documented and proved. The unit must be continuously exposed to waters containing up to 100 ppb chloroform or more and a background level of 1.0 ppm of Total Organic Carbon (TOC) for the life of the filter. "Chloroform removal" requires a reduction to 10% (or less) of the original chloroform concentration, over the effective life span of the unit.

4. *Aldrin, endrin, etc.* removal claims must be supported by analyses. The preferred method is Method for Organochlorine Pesticides in Industrial Effluents, MDQARL, EPA, Cincinnati, Ohio, November 28, 1973. The unit will be continuously exposed to waters contalning test concentrations of the pesticides for which claims are being made. The test water must also contain a background level of 1.0 ppm Total Organic Carbon (TOC). The unit must remove 95% of the specific pesticide over the life of the unit. Other verified analytical methods may be substituted.

5. *Claims for lead removal* must be proved by analyses. The preferred method is the atomic absorption method of Standard Methods. The unit should be continuously exposed to water containing lead at a concentration of 500 ppb or more for the life of the unit. The unit must remove 95% of the original lead, over the life of the unit.

6. *Turbidity removal claims* will be accepted without data, if the unit contains *activated carbon.*

7. *Sampling and analytical sequence* should follow that outlined in Table I.

Questions concerning the requirements outlined in this document should be addressed to the Director, Registration Division (WH–567), Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW, Washington, DC 20460.

Dated: July 28, 1976.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.76–22495 Filed 8–4–76;8:45 am]

[FRL 594–7; OPP–30118]

PESTICIDE PROGRAMS

Receipt of Application To Register a Pesticide Product Containing a New Active Ingredient

Buckman Laboratories, Inc., 1256 N. McLean Blvd., Memphis TN 38108, has submitted to the Environmental Protection Agency (EPA) an application to register the pesticide product BUSAN 79 (EPA File Symbol 1448–LO), containing 60.0% of the active ingredient Poly[hydroxyethylene(dimethyliminio) - ethylene(dimethyliminio)methylene dichloride] which has not been included in any previously registered pesticide products. The application received from Buckman Laboratories, Inc. proposes that the product be classified for general use to control algae, bacteria, and fungi in water systems. PM34

Application was made pursuant to the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973, 7 U.S.C. 136 et seq.), and the regulations thereunder (40 CFR 162). Notice of receipt of this application is made in accordance with the provisions of section 3(c)(4) of FIFRA [40 CFR 162.2(b)(6)] and does not indicate a decision by the Agency on the application.

Any Federal Agency or other interested persons are invited to submit written comments on this application to the Federal Register Section, Technical Services Division (WH–569), Office of Pesticide Programs, Environmental Protection Agency, Rm. 401, East Tower, 401 M St. SW., Washington, D.C. 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and of others interested in inspecting them. The comments must be received on or before September 7, 1976 and should bear a notation indicating the EPA File Symbol "1448–LO." Comments received within the specified time period will be considered before a final decision is made with respect to the pending application. Comments received after the specified time period will be considered only to the extent possible without delaying processing of the application. Specific questions concerning this applicaiton should be directed to the designated Product Manager (PM), Registration Division (WH–567), Office of Pesticide Programs, at the above address or by telephone at 202/426–9490.

Notice of approval or denial of this application to register BUSAN 79 will be announced in the FEDERAL REGISTER. The label furnished by Buckman Laboratories, Inc., as well as all written comments filed pursuant to this notice, will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4:30 p.m. Monday through Friday.

Dated: July 30, 1976.

DOUGLAS D. CAMPT,
Acting Director, Registration Division.

[FRL 594–5]

NATIONAL DRINKING WATER ADVISORY COUNCIL

Open Meeting

Pursuant to Pub. L. 92–423, notice is hereby given that a meeting of the National Drinking Water Advisory Council established under Pub. L. 93–523, the "Safe Drinking Water Act," will be held at 9 a.m. on August 25, 1976, and at 8:30 a.m., August 26, 1976, in Conference Room 2117, Mall Area, Waterside Mall, 401 M Street, SW., Washington, D.C. 20460.

The purpose of the meeting will be to discuss toxicology and drinking water contaminants, review EPA's water supply public affairs activities, and review the proposed Secondary Drinking Water Regulations and Siting Requirements. In addition, there will be an update on the status of the Proposed Underground Injection Control Regulations and an overview of the proposed data management program.

The meeting will be open to the public. The Council encourages the hearing of outside statements and allocated a portion of time for public participation. Any outside parties interested in presenting an oral statement should petition the Council in writing. The petition should include the general topic of the proposed statement and the petitioner's telephone number.

Any person who wishes to file a written statement can do so before or after a Council meeting. Accepted written statements will be recognized at Council meetings.

Any member of the public wishing to attend the Council meeting, present an oral statement, or submit a written statement should contact Patrick Tobin, Executive Secretary for the National Drinking Water Advisory Council, Office of Water Supply (WH–550), Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460.

The telephone number is: Area Code 202 426–8847.

ECKHARDT C. BECK,
Acting Assistant Administrator, for Water and Hazardous Materials.

JULY 30, 1976.

[FR Doc.76–22842 Filed 8–4–76;8:45 am]

FEDERAL ENERGY ADMINISTRATION

OFFICE OF EXCEPTIONS AND APPEALS

Cases Filed During the Week of July 9 Through July 16, 1976

Notice is hereby given that during the week of July 9 through July 16, 1976, the appeals and applications for exception or other relief listed in the Appendix to this notice were filed with the Federal Energy Administration's Office of Exceptions and Appeals.

Under the FEA's procedural regulations, 10 CFR Part 205, any person who will be aggrieved by the FEA action sought in such cases may file with the FEA written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be the date of publication of this notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first.

Dated: July 30, 1976.

DAVID G. WILSON,
Acting General Counsel.

APPENDIX.—*List of cases received by the Office of Exceptions and Appeals, July 9 to July 16, 1976*

Date	Name and Location of Applicant	Case No.	Type of Submission
July 9, 1976	Gasco Gasoline, Inc., Washington, D.C. (If granted: The FEA's June 10, 1976, supplemental order would be rescinded and Ashland Oil Co. would be assigned lower-cost suppliers of motor gasoline to replace Coastal States Gas Producing Co.)	FEA-0891	Appeal of the FEA's decision and order in Ashland Oil Co. of California, 3 FEA, par. ..... (June 10, 1976).
Do.....	Little America Refining Co., Washington, D.C. (If granted: Little America Refining Co. and its subsidiary, Sinclair Refining Co., would be treated as separate entities for purposes of the old oil entitlements program (sec. 211.67) and determining their maximum allowable selling prices under sec. 212.83.)	FEE-2709	Price exception (secs. 212.83, 211.67, and 212.65). Stay previously filed (FES–2709).
Do.....	Rock Island Refining Corp., Indianapolis, Ind. (If granted: Rock Island Refining Corp. would receive additional exception relief from its obligations under the old oil entitlements program.)	FEE-2721	Allocation exception (sec. 211.67).
Do.....	Standard Oil Co. of California, San Francisco, Calif. (If granted: The FEA's June 28, 1976, assignment order would be rescinded and Standard Oil Co. of California would not be required to supply 1'CO Oil Co. with motor gasoline during June, July, and August 1976.)	FEA-0889	Appeal of the FEA's June 28, 1976, assignment order.
Do.....	Standard Oil Co. of California, San Francisco, Calif. (If granted: Standard Oil Co. of California would not be required to supply the Ashland Oil Co. of California with 3,648,039 gals of motor gasoline.)	FEA-0890; FES–0890	Appeal of the FEA's decision and order in Ashland Oil Co. of California, 3 FEA, par. ..... (June 10, 1976). Stay requested.
Do.....	Terrible Herbst, Inc., Washington, D.C. (If granted: The FEA's June 10, 1976, supplemental order would be rescinded and Ashland Oil Co. would be assigned lower-cost suppliers of motor gasoline to replace Coastal States Gas Producing Co.)	FEA-0892	Appeal of the FEA's decision and order in Ashland Oil Co. of California, 3 FEA, par. (June 10, 1976).
July 12, 1976	Amoco Oil Co., Chicago, Ill. (If granted: To correct for an alleged error by the Office of Oil Imports during the prior allocation period, Amoco Oil Co. would obtain an import allocation during the current allocation period which would permit it to import 2,696,834 bbls of crude oil on a fee-exempt basis.)	FEI-0103	Exception from base for requirements (pt 213).
Do.....	Clark Equipment Co., Buchanan, Mich. (If granted: Clark Equipment Co. would receive an increase in its base period use of propane for its Melroe division plant.)	FEE-2723	Exception to increase base period use (sec. 211.12).
Do.....	Placid Refining Co., Washington, D.C. (If granted: The FEA's order dated June 8, 1976, would be rescinded and Placid Refining Co.'s Port Allen refinery would be classified as new refining capacity for purposes of the mandatory crude oil buy-sell program.)	FEA-0893	Appeal of the FEA's order dated June 8, 1976 (ruling 1976–1).
Do.....	Placid Refining Co., Washington, D.C. (If granted: Placid Refining Co. would receive an exception from the provisions of the mandatory crude oil buy-sell program (sec. 211.65) which would permit its Port Allen refinery to be classified as new refining capacity.)	FEE-2736	Allocation exception (sec. 211.65).
Do.....	Powerine Oil Co., Washington, D.C. (If granted: Powerine Oil Co. would receive an exception from the old oil entitlements program which would permit the firm to earn additional entitlements on residual fuel oil sold to MacMillan Bloedel Ltd., a Canadian corporation.)	FEE-2721	Allocation exception (sec. 211.67(d)(2)).
Do.....	Schkade Bros. Drilling Co., Abilene, Tex. (If granted: The Schkade Bros. Drilling Co.'s latham lease well would be classified as a stripper well lease for the month of February 1976.)	FEE-2722	Price exception (sec. 212.74).
July 13, 1976	Aminoil U.S.A., Houston, Tex. (If granted: Aminoil U.S.A. would be permitted to increase its prices for natural gas liquid products to reflect nonproduct cost increases in excess of $.005 per gallon at its Aline, Fox, Huntington Beach, Inglewood, O'Keene, Taloga, and Tioga natural gas plants.)	FEE-2728 through FEE-2734	Price exception (sec. 212.165).
Do.....	Ashland Oil Co. of California (If granted: Ashland Oil Co. of California would be granted retroactive exception relief applicable to the month of March 1976 which would permit it to be allocated 20,440,325 gals of motor gasoline.)	FEA-0897	Appeal of the FEA's decision and order in Ashland Oil Co. of California, 3 FEA, par. ..... (June 10, 1976).
Do.....	Continental Oil Co., Houston Tex. (If granted: Conitnental Oil Co. would be permitted to increase its prices for natural gas liquid products to reflect nonproduct cost increases in excess of $.005 per gallon at its Acadia, Burnell, Elk Basin, Elk City, Damlin, Hitchcock, Maljamar, Medford, North Cowden, North Dame, North Okarche, O'Keene, Ramsey, Rincon, Selling, South Hampton, Sussex, O.W. Ward, West Seminole, and West World natural gas plants.)	FEE-2736 through FEE-2755	Price exception (sec. 212.165).
Do.....	Farmland Industries, Inc., Kansas City, Mo. (If granted: Farmland Industries, Inc. would be permitted an additional increase in its prices for natural gas liquid products produced at its Lamont, Quitman, and Mertzon plants to reflect nonproduct costs in excess of $.005 per gallon.)	FEA-0894	Appeal of the FEA's decision and order in Farmland Industries, Inc., 3 FEA, par. ..... (June 7, 1976).

V 41 152 AUG 5 76 UMI

Date	Name and Location of Applicant	Case No.	Type of Submission
Do.....	Intercoastal Marine Supplies, New Orleans, La. (If granted: The FEA's June 4, 1976, assignment order establishing Gulf Outlet Fuel and Marine Supply, Inc.'s annual base period use of diesel fuel at 8,633,730 gals would be rescinded.)	FEA-0805	Appeal of the FEA's June 4, 1976, assignment order.
Do.....	Intercoastal Marine Supplies, New Orleans, La. (If granted: An investigation of an alleged change in credit terms effected by Gulf Oil Corp. and Gulf Oil's withdrawal from the New Orleans diesel fuel market would be conducted.	FSG-0026	Request for special redress.
Do.....	Intercoastal Marine Supplies, New Orleans, La. (If granted: An investigation would be conducted of an agreement between Gulf Outlet and the Murphy Oil Co. which allegedly has an adverse effect on Intercoastal.)	FSG-0027	Do.
Do.....	Intercoastal Marine Supply, New Orleans, La. (If granted: A remedial order would be issued to Murphy Oil Co. directing it to supply Intercoastal 8 million gals of marine diesel fuel per annum pending the outcome of investigations which Intercoastal has requested in collateral petitions.) FEDERAL MARITIME COMMISSION

BLACK BALL TRANSPORT, INC. ET AL.

Agreement Assignments

Notice of Assignment of Agreements Nos. T-40, as amended, and T-2906, as amended, filed by:

H. H. Wittren, Manager, Waterfront Real Estate, Port of Seattle, P.O. Box 1209, Seattle, Washington 98111.

Assignment of Agreements Nos. T-40, as amended, and T-2906, as amended, provides for the assignment by Black Ball Transport, Inc., (Black Ball) to Puget Sound Terminals, Inc., (Puget Sound), with the approval of the Port of Seattle (Port), of all its right, title, and interest in the following agreements: (1) Agreement No. T-40, as amended, between Port and Black Ball, approved by the Commission January 23, 1964, is a 20-year lease to Black Ball of Pier 30 for operation as a public terminal for loading and discharging of Black Ball's vessels; (2) Agreement No. T-2906, as amended, between Port and Black Ball, approved by the Commission April 24, 1974, is a month-to-month lease providing for the lease to Black Ball of a transit shed area at Pier 30, which is used for the storage of paper and related warehouse purposes. Black Ball will continue to occupy approximately 2,000 square feet of a building to be used as office space. Black Ball may terminate tenancy by giving 30 days' prior written notice to Puget Sound. As compensation, Black Ball shall pay Puget Sound $1,000 per month plus a percentage of the heat and utilities as set forth in the assignment of the agreements.

Interested parties may inspect and obtain a copy of the Notice of Assignment at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the assignment at the Field Offices located at New York, New York; New Orleans, Louisiana; San Francisco, California; and Old San Juan, Puerto Rico. Parties desiring to comment on this matter may file such comments with the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before August 25, 1976.

A copy of any such statement should also be forwarded to the party filing the Notice of Assignment and the statement should indicate that this has been done.

By Order of the Federal Maritime Commission.

Dated: August 2, 1976.

FRANCIS C. HURNEY,
Secretary.

KNUTSEN LINE J/S

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before August 25, 1976. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

Herbert Bals, President, Bakke Steamship Corporation, 650 California Street, San Francisco, California 94108.

Agreement No. 7623-6 amends Article 2(e) of the Knutsen Line joint service agreement by adding the following as a final paragraph thereto:

"This agreement also covers cargoes moving under intermodal conditions from, to or between inland points via ports within the scope of this agreement."

By order of the Federal Maritime Commission.

Dated: August 2, 1976.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. E-9408]

AMERICAN ELECTRIC POWER SERVICE CORP.

Order Granting Late Intervention

JULY 29, 1976.

By order issued May 30, 1975, the Commission accepted for filing and suspended the effectiveness of a proposed amendment to the July 6, 1951 Interconnection Agreement among Appalachian Power Company, Kentucky Power Company, Indiana and Michigan Electric Company, Ohio Power Company, and American Electric Power Service Corporation, their agent. The Commission further set the matter for hearing.

By letter dated June 25, 1976, a Petition of Intervention was filed on behalf of the Office of the Public Service Commission of Indiana. Good cause being shown, the Commission shall grant the Public Service Commission's notice of late intervention.

The Commission finds: It is desirable and in the public interest to allow the above-named petitioners to intervene.

The Commission orders: (A) The above-named petitioner is hereby permitted to intervene in these proceedings subject to the rules and regulations of the Commission: *Provided, however,* That participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene. *And Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) The intervention granted herein shall not be the basis for delaying or deferring any procedural schedules heretofore established for the orderly and expeditious disposition of this proceeding.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI75-132]

CABOT CORP.

Amended Petition for Special Relief

JULY 29, 1976.

Take notice that on July 22, 1976, Cabot Corporation (SW), P.O. Box 1101, Pampa, Texas 79065, filed a notice of rate change filing which in effect seeks to amend its petition for special relief filed April 24, 1975.[1] By this amendment Petitioner seeks a rate of 39.06 cents per Mcf rather than 55 cents per Mcf for a sale of natural gas to Panhandle Eastern Pipe Line Company under its FPC Gas Rate Schedule No. 47. Petitioner seeks the higher rate for gas from five wells in the Moncane-Laverne Gas Area, Oklahoma, in order to permit Cabot to perform the requisite remedial work which includes the installation of pumping units to remove the accumulation of salt water and condensate impeding the normal flow of gas.

Any person desiring to be heard or to make any protest with reference to said petition should on or before August 16, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-13]

CITIES SERVICE GAS CO.

Further Extension of Time

JULY 29, 1976.

On July 11, 1976, Staff Counsel filed a motion to extend the procedural dates fixed by order issued October 22, 1975, as most recently modified by notice issued March 22, 1976, in the above-designated proceeding. The motion states that the interested parties do not oppose the requested extension.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff Testimony, August 26, 1976.
Service of Intervenor Testimony, September 23, 1976.
Service of Company Rebuttal, October 21, 1976.
Hearing, November 9, 1976, (10 a.m., e.s.t.).

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[1] Notice issued on May 6, 1976.

[Docket No. CP76-452]

COMPANIA DE GAS DE NUEVO LAREDO, S.A. COMPLAINANT V. ENTEX, INC. DEFENDANT

Complaint

JULY 29, 1976.

Take notice that on July 22, 1976, Compania de Gas de Nuevo Laredo, S.A. (Complainant), Nuevo Laredo, Tamaulipas, Republic of Mexico, filed in Docket No. CP76-452 a complaint against Entex, Inc. (Defendant), PO Box 471, New Braunfels, Texas 78130, alleging that Defendant has threatened to terminate the sale and delivery of gas to the City of Nuevo Laredo over a contract price dispute and that such termination will result in irreparable harm and injury. Complainant seeks an order from the Federal Power Commission prohibiting Defendant from terminating the sale and delivery of natural gas to Complainant. Complainant requests that the Commission determine the approved rate at which Defendant may sell gas to Complainant and prays for such other and further relief to which it may be entitled, all as more fully set forth in the complaint which is on file with the Commission and open to public inspection.

Complainant states the Defendant is the sole supplier of natural gas to the City of Nuevo Laredo.[1] Complainant states that it entered into a contract with Defendant's predecessor in interest, United Gas Corporation, on May 26, 1944, for the sale of gas to Complainant. The Complainant states that said contract was subsequently amended on January 21, 1949, December 12, 1949, June 22, 1954, March 18, 1957, November 17, 1959, May 4, 1967, August 1, 1968 and November 13, 1972. Complainant avers that it knows of no authority by which Defendant can modify the contract approved in 1944 in Docket No. G-103 or by which Defendant can terminate the sale and delivery of gas to Complainant. Complainant states that it knows of no exception under Parts 152 and 153 of the Regulations under the Natural Gas Act applicable to Defendant's sale of gas to Complainant.

Complainant states that on May 19, 1976, Defendant notified Complainant that unless it paid $597,436.09 on or before June 30, 1976, Defendant would terminate its sale and delivery of gas at 9:00 a.m. July 1, 1976. Complainant denies owing said sum.

Complainant indicates that it has instituted legal action against Defendant in federal court. A copy of Complainant's petition filed with the United States Court of Appeals for the Fifth Circuit is attached as an exhibit to the complaint.[2]

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before August 16, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22748 Filed 8-4-76;8:45 am]

[1] By orders issued September 10, 1940, 2 FPC 803, and January 26, 1945, 4 FPC 840, in Docket No. G-103, United Gas Corporation was authorized to sell gas for export, at or near the international boundary near Laredo, Texas, to Compania de Gas de Nuevo Laredo, S.A. (CGNL) for resale by CGNL in the City of Nuevo Laredo, Tamaulipas, Republic of Mexico. Entex, Inc. has succeeded to United Gas Corporation and is currently authorized to export gas to the City of Nuevo Laredo pursuant to section 3 of the Natural Gas Act.

[2] The complaint states that on June 30, 1976, Complainant filed a class action against Defendant in the United States District Court for the Southern District of Texas Laredo Division; on July 9, 1976, said court denied its application for preliminary injunction; on July 11, 1976, Complainant gave notice of appeal; and on July 12, 1976, Complainant filed its petition for injunction pending appeal with the United States Court of Appeals for the Fifth Circuit.

CP74-239, CP74-240; Pacific Gas Transmission Company, Docket Nos. CP 74-241, CP74-242, CP71-182; Northern Border Pipeline Company, Docket Nos. CP 74-290, CP74-291; Alcan Pipeline Company, Docket Nos. CP76-433, CP76-434; Northwest Pipeline Corporation, Docket Nos. CP76-435, CP76-436, CP76-437.

On July 23, 1976, the Commission issued an order granting a motion to consolidate for hearing and decision the related applications of Alcan Pipeline Company (Alcan) in Docket Nos. CP76-433 and CP76-434 and Northwest Pipeline Corporation in Docket Nos. CP76-435, CP76-436 and CP76-437 with the previously consolidated applications in El Paso Alaska Company, et al., Docket Nos. CP75-96, et al. This newly expanded comparative hearing in CP75-96, et al., is part of an adjudication to possibly certificate one of three proposed Alaskan gas transportation systems which may be mutually exclusive.

In this consolidation order of July 23, 1976, the Commission deferred to a subsequent order several subsidiary questions raised by consolidation. The instant order takes up these deferred issues. We shall hereinafter consider them *seriatim:*

(1) The public interest has required our swift consideration of the consolidation issue before a finding could be made as to the sufficiency of Alcan's and Northwest's applications. In light of the size of their filings we are still unable to complete our standard detailed analysis at this juncture. Although we cannot now determine whether these filings are sufficient in their totality, our preliminary analysis does permit us to conclude that Alcan and Northwest have at least presented all of the exhibits required by § 157.14 of our Regulations under the Natural Gas Act. In that Alcan's and Northwest's applications have been consolidated into an ongoing hearing and their evidence should start to be subjected to cross-examination and rebuttal evidence in the very near future, it is unnecessary to delay the hearing until the Commission can finally resolve whether the filings comply with our filing regulations. In other words the unique posture of this comparative hearing vitiates the need for such a Commission finding for any conceivable deficiencies should be brought to light and cured imminently by prehearing evidentiary procedures (deficiency requests, requests for work papers, and requests for studies, all made upon Alcan and Northwest by the other parties as they prepare their rebuttal evidence and cross-examination), as well as during the hearing itself.

(2) Essential to our timely and yet comprehensive resolution of this Alaskan gas transportation proceeding is our formulation of the proper procedures for preparing and presenting into evidence the environmental assessment of the Alcan-Northwest project within the truncated time frame of this proceeding and consistent with the dictates of the National Environmental Policy Act (NEPA).[1] The NEPA dilemma facing the Commission is unique: Already admitted into evidence and subjected to cross-examination and rebuttal are draft and final environmental impact statements (EIS) prepared by Commission Environmental Staff with particular emphasis on the proposed system of the El Paso Alaska Company and related companies (El Paso), as well as draft and final environmental impact statements prepared by the Department of the Interior with particular emphasis upon the proposed system of the Alaskan Arctic Gas Pipeline Company (Alaskan Arctic) group. Both sets of EIS's analyzed to some extent a Fairbanks-Alcan Highway alternate route, and Alcan and Northwest alleged in their motion to consolidate that they utilized this Fairbanks-Alcan alternative in large part in aligning their route. We must now decide what additional environmental preparation should be made by Staff.

Of great assistance in resolving this NEPA dilemma is the July 19, 1976, discussion of the parties on the record (Vol. 185) which Administrative Law Judge Nahum Litt certified to us on July 20, 1976. Review of this certified portion of the record reveals the following environmental suggestions by the parties. Staff contends that there are differences between the Alcan-Northwest proposal and the Fairbanks-Alcan alternative so as to necessitate its preparation of a supplemental final EIS on the Alcan-Northwest route, and it outlines procedures to accomplish this, assuming the need for a final Commission order in this proceeding by March 1, 1977: (1) The Commission would have to waive its regulation requiring a draft EIS because to follow the standard draft EIS—comments—final EIS procedure would take at least six months. (2) The Council on Environmental Quality (CEQ) should also be approached for a waiver of its draft EIS guidelines. (3) Notice should be placed in the FEDERAL REGISTER soliciting comments and views within 45 days of other Federal agencies and the public-at-large on the Alcan-Northwest proposal. (4) Meanwhile Commission environmental Staff, with the assistance of Interior Department personnel on loan, can proceed with the preparation of the final EIS, and after the comments have been received and digested the final EIS can be issued. Staff states that, if ordered, it could finish the final EIS between September 15 and October 1, 1976. (5) The parties would then be given one or two weeks to prepare for cross-examination of the Staff members responsible for the final EIS. While Staff feels that the final EIS will not be as detailed as those already in the record, it views this cross-examination as providing additional specificity. (6) Finally, the parties would be given another two weeks to prepare rebuttal environmental evidence. In the interim the remainder of the hearing could be concluded so that the record could be closed by November, permitting the Administrative Law Judge to issue his initial decision by December 1976.

The Conservation Intervenors concur with Staff that a supplemental final EIS is required, that the draft EIS can be eliminated if the parties and the public have an opportunity to comment, and that CEQ should be contacted.

Alaskan Arctic and El Paso, on the other hand, would interpret recent Supreme Court decisions construing Section 102(2)(c) of NEPA[2] as alleviating the need for a final supplemental EIS at the hearing stage and permitting the Commission to issue the final EIS on the Alcan-Northwest route when it issues its final decision in this proceeding. Staff opposes this approach. Alaskan Arctic and El Paso moreover contest the need to approach CEQ with a waiver of Commission NEPA regulations in light of the

[1] 42 U.S.C. 4321, et seq., and in particular section 102(2)(c) of NEPA, 42 U.S.C. 4332 (2)(c).

V 41 152 AUG 5 76 UMI

public interest in resolving this case as soon as possible. They further attack the need for Staff to present a final EIS at hearing by asserting that the record is already adequate for assessing the environmental impact of the Alcan-Northwest proposal, but they do concede that all parties should have an opportunity to introduce any environmental evidence within reason and be allowed cross-examination.

Alcan and Northwest do not advance any specific environmental procedures, but they do stress the necessity under NEPA of permitting all parties, the general public and other Federal agencies a full opportunity to be heard on the environmental aspects of their proposal relative to the other proposals. They also refer to pending Congressional legislation[3] which would authorize the Commission more latitude in complying with NEPA.

The Commission is faced with an anomalous statutory and administrative matrix. On the one hand it appears from this interlocutory perspective, without deciding, that our standard environmental impact statement procedures[4] have been followed in this proceeding to date. Even though the Administrative Law Judge has had to prescribe expedited schedules in order to meet the projected completion date for his initial decision, neither he nor Staff have sacrificed a thorough environmental evidentiary presentation. On the other hand it is clear that the public interest will suffer from additional delay.

In light of this need for expedition one possible avenue for rapidly completing the environmental record as to the Alcan-Northwest proposal is that suggested by Alaskan Arctic and El Paso; that is, all parties would introduce environmental evidence in less than EIS form, and the Commission would prepare the final supplemental EIS to accompany its final order. We do not, however, subscribe to this procedure. To begin with we are reluctant to diverge from our EIS regulations, *supra* note 4, to the extent recommended by Alaskan Arctic and El Paso because their cited legal authority, Scrap II and Kleppe, *supra* note 2, is too easily distinguished in light of the significant differences between the ICC and Interior Department proceedings at issue therein and the instant comparative proceeding to possibly certificate one of three natural gas transportation systems. Furthermore, their suggestion is impracticable since it appears that Staff will need almost as much time to prepare environmental evidence in a non-EIS form. In light of the compelling relevance of environmental evidence in this of all Commission proceedings (for example the delicate ecosystem of the North Slope), a supplemental final EIS relating to the specifics of the Alcan-Northwest proposal should be in the record during the hearing to permit responsive evidence from all parties.

Although we are convinced that a final supplemental EIS should be introduced and subjected to cross-examination and rebuttal evidence, we must truncate our standards procedures, *supra* note 4, because of the unique facts involved and the compelling need for rapid completion of this proceeding. In a different area of our jurisdiction under the Natural Gas Act, that being curtailment, the Courts have recognized that the Commission has some degree of flexibility in complying with NEPA when that statute conflicts with the Natural Gas Act.[5] In dealing with both a different agency, the Department of Housing and Urban Development, and a different statute, the Interstate Land Sales Full Disclosure Act, 15 U.S.C. 1701 *et seq.*, the Supreme Court recently found a "statutory conflict" which obviated the need for any EIS.[6] We are not going to completely bypass section 102(2)(c) of NEPA as in *Flint Ridge* but instead will modify our existing procedures as little as possible.

The modified environmental procedure which we will delineate hereinafter is consistent with the requirements of NEPA. To the extent, however, that additional legal rationale might be required, we find that an actual "statutory conflict" exists justifying these efforts to expedite completion of the hearing. The potential natural gas reserves in the Prudhoe Bay field, the actual level of gas curtailment and shortage in the lower 48 states, and the administratively noticed level of inflation all compel the Commission to complete this proceeding as soon as possible in order to best protect the public interest. We note in addition a potential "statutory conflict" in that strict adherence to our environmental procedures, *supra* note 4, would almost certainly, as Staff stated, delay completion of the hearing to the extent that the Commission could not comply with section 5(c) of the Alaska Natural Gas Transportation Act, *supra* note 3, which would require the Commission to transmit its recommendation concerning this proceeding to the President by March 1, 1977. This has been passed by the full Senate and is currently being considered by the House of Representatives, along with a number of other legislative proposals. While S. 3521 is not the law of the land, it is a fact of life which the Commission cannot ignore. We do not, however, base our instant decision upon such pending legislation.

In light of the foregoing we direct the Administrative Law Judge to supervise the following procedures needed to complete the environmental portion of the record:

(a) We direct the Secretary to immediately notice in the Federal Register a request to all parties, the general public, and other Federal agencies to submit to Commission environmental Staff within 30 days their comments and views concerning the Alcan-Northwest proposal. Commission Staff should moreover provide immediate actual notice to those other Federal agencies and other parties from which comments were received in preparing the EISs on El Paso's and Alaskan Arctic's projects. All responses received by Staff shall be attached to its final supplemental EIS.

(b) Commission environmental Staff shall immediately commence its review of Alcan's and Northwest's applications and collection of all other necessary data. In this latter regard Alcan and Northwest shall make every effort necessary to quickly answer Staff's data requests. Staff should continue its preparation of a final supplemental EIS during the comment period provided above, and upon receipt of such comments and views it should then complete and serve the final EIS by September 23, 1976. It is understood that this truncated schedule will strain Staff's resources, and therefore content in the EIS should be emphasized at the expense of form.

(c) The parties shall thereafter have an opportunity to analyze this final supplemental EIS so as to prepare rebuttal evidence and cross-examination of the Staff witnesses responsible for the EIS. This cross-examination shall begin on October 12, 1976, and rebuttal evidence shall also be filed on that date. We anticipate that this cross-examination will refine the EIS and add to its evidentiary value.

(d) When the final suplemental EIS is served on September 23, 1976, the Secretary shall have placed in the FEDERAL REGISTER notice requesting from the general public and other Federal agencies their comments on this EIS within three weeks. Although Staff's EIS will not be amended as a result of these comments, Staff shall immediately introduce them into the record, and the parties can consider them in pursuing their cross-examination of Staff environmental witnesses.

(e) We expressly waive Sections 2.80 and 2.82 of our General Policy and Interpretations in order to accomplish the aforementioned procedures.

(f) We direct our General Counsel or his designee upon issuance of this order to apprise the Council on Environmental Quality of these procedures and to seek for the Commission the Council's opinion of such procedures in the context of CP 75–96, et al.

(3.) At this point we refrain from further circumscribing the procedural scope of this proceeding. Administrative Law Judge Litt has demonstrated through his reports to the Commission and the prog-

[3] S. 3521, 94th Cong., 2d Sess., 122 Cong. Rec. 11356 (July 1, 1976).

[4] Sections 2.80 and 2.82 of the Commission's General Policy and Interpretations.

[5] American Smelting and Refining Company v. FPC, 494 F. 2d 925 (D.C. Cir. 1974); State of Louisiana v. FPC, 503 F. 2d 844 (5th Cir. 1974); and Consolidated Edison Company v. FPC, 512 F. 2d 1332 (D.C. Cir. 1975). (Where the Commission finds that there is a "statutory conflict" between NEPA and its duties under the Natural Gas Act to act in a gas emergency, it can prescribe an interim curtailment plan for a jurisdictional interstate pipeline without having completed NEPA review, so long as the subsequent permanent curtailment plan contains the requisite NEPA review).

ress of the hearing that he both understands the need for expedition and can accomplish such expedition. Accordingly, we do not at this time prescribe a date for the issuance of the initial decision; however, depending on when the initial decision is issued we might have to shorten or otherwise modify the briefing process to the Commission under our rules of practice and procedure, § 1.31.

(4) Other matters have been raised in these proceedings which demand prompt Commission attention, and we deem it prudent to treat them as well in the instant order. By notice issued June 29, 1976, our Secretary advised the public of our intention to conduct, on or about August 1, 1976, a site inspection within the State of Alaska relating to the various gas transmission projects at issue in Docket Nos. CP75–96, et al. A second notice, issued July 16, 1976, referred to the Presiding Administrative Law Judge for disposition a suggestion by the State of Alaska that he accompany us on the announced inspection trip to Alaska. In filings of July 16 and July 19, 1976, respectively, Alcan and El Paso Alaska seek to have us expand or elaborate upon the scope of our inspection trip in other respects.

Alcan speaks to our itinerary for the trip and requests that we include a survey of the route and facilities which Alcan proposes in its applications. El Paso Alaska, by contrast, speaks to the personnel to be included on the trip. As recited in the notice of June 29, 1976, our original intent was to undertake this trip unaccompanied and unassisted by any representative of any party to the proceedings at Docket Nos. CP75–96, et al. While fully endorsing the trip in principle, El Paso Alaska views this condition thereof as improper. Premised upon the belief that an inspection trip of this nature constitutes the taking of evidence, El Paso Alaska asserts that due process will be violated unless principal parties[7] are permitted to accompany the Commission through Alaska in order to view what the Commission views and so confront the evidence. El Paso Alaska proposes no dialogue between the Commission and the parties during the trip itself, but instead suggests that upon its return the Commission issue a report in which it sets forth observations and perceptions made in the course of the trip. That report, continues El Paso Alaska, would become a part of the record in Docket Nos. CP75–96, et al., as would any responsive observations which a party, having taken the same inspection trip, might wish to offer.

Alcan's request has obvious merit, especially in light of our decision to consolidate its applications with those of El Paso Alaska and Alaskan Arctic. It will be noted that the itinerary which we have adopted and have had transcribed into the record (Tr. 32,501–32,503) provides for the inspection of significant portions of the Alcan route. The thrust of El Paso Alaska's request is likewise compelling, and, accordingly, we shall modify the notice of June 29, 1976 to permit the participation of key parties in this inspection trip. To this end, we take notice of the discussion on the record of July 29, 1976, in this proceeding and endorse the proposed arrangements whereby the Presiding Judge and representatives of Staff, the Conservation Intervenors, the State of Alaska, and each of the applicants will accompany the Commission on this endeavor, following which the Presiding Judge shall prepare a report and place it into evidence. These arrangements have the apparent support of all parties, and, to the extent that these arrangements diverge from those contemplated in El Paso Alaska's motion, we deem said motion withdrawn.

(5) By motion filed July 28, 1976, Alcan further suggests that, subsequent to the completion of its Alaskan trip, the Commission embark upon an inspection trip of the Canadian segments of Alcan's proposed gas transportation project and that proposed by Alaskan Arctic. We shall defer disposition of this motion until our return from Alaska, at which time we expect to be better able to assess the value and advisability of short term site inspections in the context of these proceedings. Our time and resources are not unlimited and we are concerned with making optimal use of both, consistent with due process. Moreover, we are mindful that a Canadian inspection trip will necessarily involve Canadian governmental authorities, whose consent and guidance must be solicited and obtained prior to the finalization of any arrangements.

(6) Finally, we note that petitions or notices to intervene out of time in Docket Nos. CP76–433, et al. have been received from Phillips Petroleum Company, San Diego Gas & Electric Company, Algonquin Gas Transmission Company, the Michigan Public Service Commission, the Idaho Public Utilities Commission, the Public Service Commission of Nevada, the People of California, and the Public Utilities Commission of the State of California, and (jointly) the Public Service Company of Colorado, Western Slope Gas Company, and Cheyenne Light, Fuel and Power Company. These petitions will be hereinafter granted. Furthermore, in order to forestall unnecessary paperwork, we find that any party granted intervention in Docket Nos. CP75–96, et al. prior to consolidation thereof with Docket Nos. CP76–433, et al. should be accorded intervenor status in the latter dockets as well.

The Commission finds and orders: (A) The Commission finds that it is neither possible nor necessary to rule upon the sufficiency of Alcan's and Northwest's several applications in light of the unique procedural posture of this consolidated proceeding.

(B) The parties are directed to comply with the evidentiary schedule prescribed herein for completion of the environmental record.

(C) The notice of proposed inspection trip issued June 29, 1976 in these proceedings should be and is hereby amended in a manner consistent with this order.

(D) Alcan's July 28, 1976, motion requesting the Commission to inspect routes and facilities within Canada is deferred until further notice.

(E) The petitioners named on page 9 of this order are permitted to intervene, subject to the Rules of the Commission provided that the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in their petitions to intervene, and that the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order issued by the Commission in this proceeding.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22747 Filed 8-4-76;8:45 am]

[7] According to El Paso Alaska, "principal parties" would include, at the very least, the applicants, Staff, the Conservation Intervenors, and the State of Alaska.

[Docket Nos. RP72-155 and RP75-30 (PGA76-1)]

EL PASO NATURAL GAS CO.

Further Extension of Time

JULY 29, 1976.

On July 12, 1976, Staff Counsel filed a motion to extend the procedural dates fixed by order issued September 30, 1975, as most recently modified by notice issued June 25, 1976, in the above-designated proceeding.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff and Intervenor Testimony, August 20, 1976.
Service of Company Rebuttal, September 3, 1976.
Hearing, September 21, 1976 (10 a.m., e.d.t.).

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22761 Filed 8-4-76;8:45 am]

[Docket No. ER76-211]

FLORIDA POWER & LIGHT CO.

Settlement Conference

JULY 26, 1976.

Take notice that on August 5, 1976, a conference of all parties to intervene in these proceedings, Florida Power & Light Company, and the Commission Staff will be held in the Commission's Conference Room No. 8402, at 825 North Capitol Street, NE., Washington, D.C., at 10:00 a.m.

Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, attendance at the confer-

V 41 152 AUG 5 76 UMI

ence will not be deemed to authorize intervention as a party in the proceedings.

All parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of the proposed rate increase and any procedural matters preparatory to a full evidentiary hearing or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22758 Filed 8-4-76;8:45 am]

[Docket No. RI76-137]

JACK M. WOLFE

Application for Special Relief

JULY 29, 1976.

Take notice that on July 15, 1976, Jack M. Wolfe (Applicant), Route 1, Box 90, Concepcion, Texas 78349, filed in Docket No. RI76-137 an application for special relief pursuant to § 2.76 of the Commission's General Policy and Interpretations. Applicants seek a rate of $1.95 per Mcf for the sale of natural gas to Valley Gas Transmission, Inc. from certain properties located in Duval County, Texas. Applicants assert that without a substantial price increase they will be unable to recover remaining reserves, including costs of additional equipment required, thereby making abandonment of the properties imminent.

Any person desiring to be heard or to make any protest with reference to said petition should on or before August 16, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22749 Filed 8-4-76;8:45 am]

[Docket No. CP76-424]

KENTUCKY WEST VIRGINIA GAS CO.

Petition for Declaratory Order

JULY 28, 1976.

Take notice that on June 30, 1976, Kentucky West Virginia Gas Company (Petitioner), Second National Bank Building, Ashland, Kentucky 41101, filed in Docket No. CP76-424 a petition pursuant to section 16 of the Natural Gas Act and § 1.7(c) of the Commission's rules of practice and procedure (18 CFR 157.7(c)) for a declaratory order to remove the uncertainty of whether or not certain sales of natural gas which the Kentucky Public Service Commission (Kentucky Commission), pursuant to Kentucky Revised Statute 278.485, has ordered to be made by Petitioner are subject to the regulatory jurisdiction of the Federal Power Commission under the terms of the Natural Gas Act, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

Petitioner asserts that it is a West Virginia corporation engaged in the business of producing natural gas and purchasing natural gas from independent producers, transporting it through pipelines and selling it to distributors and pipeline companies for resale and to one industrial customer for its own use. Further it is said that all of Petitioner's facilities are located in Kentucky and that Petitioner transports and sells all the natural gas available to it in Kentucky. Petitioner asserts that it is a "natural-gas company" within the meaning of the Natural Gas Act, and has been granted a "grandfather" certificate of public convenience and necessity by the Commission in Docket No. G-272.

Petitioner states that as of December 31, 1975, it owned and operated 2,567 gas wells, 1,892.7 miles of pipeline, and five compressor and ten booster stations all located in Kentucky, and of Petitioner's annual gas supply for the year ending December 31, 1975, approximately 91 percent was acquired from its own wells with the remaining 9 percent being acquired from independent producers under authorization from the Commission all of whom, except one located in Virginia, are located in Kentucky.

The petition indicates that for the year ending December 31, 1975, Petitioner sold and delivered 25,371,906 Mcf of gas of which amount 22,712,675 Mcf, or 92 percent, were delivered to Equitable Gas Company (Equitable) for resale in Pennsylvania and West Virginia in the amount of 17,958,444 Mcf and Columbia Gas Transmission Corporation (Columbia Gas) for resale in the amount of 4,754,231 Mcf. Petitioner states that these sales were authorized by the Commission in Docket No. CP68-81. Petitioner states that another 2,035,672 Mcf of gas, or 8 percent, was sold in varying amounts to customers in Kentucky and that most of these services are authorized under Petitioner's "grandfather" certificate. Additionally, it is indicated that Petitioner has secured additional certificates from the Commission covering the interim period from January 4, 1944, to the present.

It is indicated that service to Allen, Kentucky (now operated by Ohio-Kentucky Utilities, Inc.) commenced on or about October 15, 1945, from Petitioner's transmission line No. 1, a facility authorized in Docket No. G-272 and that whether or not this service was covered in Docket No. G-272 is difficult to determine. Petitioner states that the Kentucky Commission ordered an increase in the volume to be delivered for Allen in 1952 and that Petitioner has filed an application to continue said service as ordered by the Commission in Docket No. RP 76-93 on May 28, 1976.

It is further indicated that service for Right Fork of Middle Creek, Floyd County, Kentucky (now operated by Ohio-Kentucky Utilities, Inc.) commenced on or about November 9, 1965, not as firm service but as supplemental gas and that such service is now firm. Petitioner states that this gas is gathered from the wells and transported through various lines to Dwale, Kentucky, where the larger part of the stream is delivered to Columbia Gas for resale in interstate commerce or to Columbia Gas for the account of Equitable for resale in interstate commerce. It is asserted that an application to continue this service as required by the order of May 28, 1976, in Docket No. RP76-93 has been filed.

Additionally, it is indicated that service for Staffordsville, Kentucky (Mountain Utilities, Inc.) commenced on or about December 1958 as supplemental gas service to Shale Gas Company and also from Petitioner's transmission line No. 1 and that this is no longer supplemental service, but firm service. It is said that the source of this gas is downstream of the Dwale compressor and that the larger volumes goes not Columbia Gas with the remainder to Allen and Staffordsville. It is asserted that an application to continue this service as required by Commission order of May 28, 1976, in Docket No. CP76-93 has been filed.

Petitioner states that the confusion regarding the jurisdiction over these sales resulted from the decision of the Commission in Hazard Gas Company, Docket No. G-13561 wherein, it is stated, the Commission disclaimed jurisdiction. It is asserted that only when circumstances again permitted did Petitioner again present the question to the Commission in Docket No. CP75-288 and that recognizing changes in the law since the prior Hazard decision, the Commission found jurisdiction in Docket No. CP75-288. Additionally, it is stated, the Commission affirmed its jurisdiction over all the sales of Petitioner by its order issued May 28, 1976, in Docket No. RP76-93.

Petitioner states that as of the date of the order in Docket No. G-272 and continuing to the present, all of the gas, except for a few wells connected directly to the Paintsville distribution system, produced and purchased by Petitioner as well as all the gas sold by Petitioner leaves the wellhead in a commingled stream with gas ultimately delivered to Equitable for resale in Pennsylvania and West Virginia and Columbia Gas for resale in other states. Further, Petitioner states that there is no instance where all of the production from any well is produced, transported, and sold wholly in Kentucky, and additionally, the gas produced in Kentucky is supplemented by gas produced in Virginia and purchased at the Kentucky-Virginia state line.

Petitioner indicates that the volumes of gas that it has been delivering to Equitable are far below Equitable's authorized volumes in Docket No. CP68-81, and that Equitable began to experience and is still experiencing substantial

curtailments of its gas supply from Texas Eastern Transmission Corporation and Tennessee Gas Pipeline Company, a Division of Tenneco Inc., its main suppliers in its Pennsylvania and West Virginia service areas. As a result, it is said, Equitable has requested Petitioner to make available to it for its Pennsylvania and West Virginia market areas all the gas it has available up to the volume authorized in Docket No. CP68-81. As a further result, Petitioner states, it announced by advertisement in various local newspapers in its service area that it would no longer supply natural gas for new residential customers including those qualifying under Kentucky Revised Statute 278.85, effective as of January 1, 1973, and states further that it had previously announced in May 1972 that it would no longer supply gas for new or additions to existing commercial and industrial customers.

It is stated that on March 7, 1973, the Kentucky Commission ordered Petitioner to make available volumes of gas for all present applications and future applicants who qualify for gas service under Kentucky Revised Statute 278.485. Petitioner states that this order, with penalties, was upheld on appeal to the Circuit Court of Franklin County, Kentucky, and that the penalties as of the date of the subject petition approximate $102,000,000.

Petitioner states that it was its purpose and intention during hearings before the Kentucky Commission to make clear that, among other things, there were in existence valid and subsisting orders of the Federal Power Commission authorizing sales of gas in volumes in excess of the supply of gas currently available to Petitioner, and that consistent with that showing, it is stated, Petitioner pointed out to the Kentucky Commission that it should not, without more, order Petitioner to serve new customers in that Petitioner would be faced with conflicting orders and requirements of two regulatory agencies and, obviously, it could not at the same time comply with both. Petitioner states that notwithstanding this, it now finds itself facing substantial inroads in its limited gas supply to its existing customers and facing penalties beyond its financial means if it does not satisfy the demands of the order of the Kentucky Commission. Accordingly, Petitioner requests the subject declaratory order.

Any person desiring to be heard or to make any protest with reference to said petition should on or before August 19, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

NEVADA POWER CO.

Tender of Supplemental Data

JULY 29, 1976.

Take notice that on July 22, 1976, Nevada Power Company tendered supplemental data intended to make complete its original tender of June 10, 1976, in the above captioned docket. This action is in response to a deficiency letter issued by the Secretary of the Federal Power Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-735]

NEVADA POWER CO.

Tender of Supplemental Data

JULY 29, 1976.

Take notice that on July 22, 1976, Nevada Power Company tendered supplemental data intended to make complete its original tender of June 9, 1976, in the above captioned docket. This action is in response to a deficiency letter issued by the Secretary of the Federal Power Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-154, (PGA76-4)]

NORTHWEST PIPELINE CORP.

Change in Rates Pursuant to Purchased Gas Costs Adjustment

JULY 29, 1976.

Take notice that Northwest Pipeline Corporation, on July 9, 1976, tendered for filing and acceptance a notice of change in rates applicable to service rendered under rate schedules affected by and subject to the Purchased Gas Cost Adjustment Provision ("PGAC"), as contained in its FPC Gas Tariff, Original Volume No. 1. The proposed change in rates would increase revenues from jurisdictional sales and service by $54,169,835 based on the 12-month period ending December 31, 1975.

According to Northwest, such change in rates is occasioned by a substantial increase in the cost of Canadian gas purchased by Northwest from its Canadian pipeline supplier, Westcoast Transmission Company, Limited ("Westcoast"), in compliance with the Canadian Government's decision to increase the border export price to $1.80 per MMBtu (Canadian), effective September 10, 1976. Northwest obtains approximately two-thirds of its total gas supply from Westcoast. A border export price of $1.80 will result in an annualized increase in Northwest's purchased gas cost expense amounting to $54,896,688, which equates to an increase of 1.328¢ per therm above the currently effective rates. While this tariff filing covers only the effect of the Canadian price increase to $1.80 per MMBtu (Canadian) on September 10, 1976, Northwest will make an appropriate tariff filing later to cover the Canadian price increase to $1.94 per MMBtu (Canadian), effective January 1, 1977. Northwest estimates that the January 1, 1977 price increase will result in increased gas purchased costs of approximately $38.6 million so that the total of the September 10, 1976 and January 1, 1977 increases is estimated to be $93.5 million.

Although Northwest's PGAC provides for the tracking of changes in the cost of purchased gas each six months, Northwest emphasizes that the magnitude of the increase in Northwest's purchased gas cost expense requires immediate rate relief on a firm basis concurrently with the effective date of the increased export price. Northwest respectfully requests that waiver be granted of Northwest's PGAC and applicable Commission Regulations, as necessary, so as to permit acceptance and effectiveness of the tendered change in rates on September 10, 1976.

Copies of this filing have been served upon Northwest's jurisdictional customers and affected state commissions.

V41152 AUG 5 76 UMI

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 9, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-83]

OHIO POWER CO.

Modification of Procedural Schedule

JULY 29, 1976.

On June 25, 1976, Commission Staff Counsel filed a motion to modify the procedural schedule fixed by order dated November 14, 1975 in the above-designated proceeding. The motion states that none of the parties object to the proposed schedule.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff's Top Sheets, July 20, 1976.
Informal Settlement Conference, August 10, 1976.

All other procedural dates are deferred pending further action of the Commission.

By Direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI76-136]

PETROLEUM CORPORATION OF TEXAS

Petition for Special Relief

JULY 29, 1976.

Take notice that on July 6, 1976, Petroleum Corporation of Texas (Petitioner), P.O. Box 911, Breckenridge, Texas 76024, filed a petition for special relief in Docket No. RI76-136, pursuant to Order No. 481. Petitioner seeks a price increase up to 67 cents per Mcf for the sale of gas to Northern Natural Gas Company. The price increase is in consideration for the installation on compression facilities to serve both the Thonoff "A" and "C" units, Meade County, Kansas.

Any person desiring to be heard or to make any protest with reference to said petition should on or before August 19, 1976 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-791]

PUBLIC SERVICE COMPANY OF INDIANA, INC.

Agreement

JULY 29, 1976.

Take notice that on July 16, 1976, Public Service Company of Indiana, Inc. (PSI) tendered for filing an agreement dated January 1, 1976 between it and Warren County Rural Electric Membership Corporation (Warren). This agreement is the second supplement to a contract dated December 1, 1973 between these parties, designated as PSI's FPC Electric Tariff Original Volume No. 2. This supplement provides for addition of reference to a new delivery point, the Marshfield delivery point, and deletion to the termination or at the Covington delivery point.

PSI states it will notify the Commission when delivery is commenced at the Marshfield point.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 12, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ID-1796]

RICHARD C. MENGE

Application

JULY 29, 1976.

Take notice that on July 6, 1976, Richard C. Menge (Applicant) filed an application with the Federal Power Commission. Pursuant to section 305(b) of the Federal Power Act. Applicant seeks authority to hold the following position:

Director, Indiana-Kentucky Electric Corporation, Electric Utility.

Indiana-Kentucky Electric Corporation (IKEC), a wholly owned subsidiary of Ohio Valley Electric Corporation (OVEC), was organized in 1952. The two companies were formed by 15 investor-owned utilities furnishing electric service in the Ohio River Valley area, for the purpose of providing the large electric power requirements projected for the major gaseous diffusion complex being built by the then Atomic Energy Commission (AEC) now the Energy Research and Development Administration (ERDA) near Portsmouth, Ohio.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 23, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22766 Filed 8-4-76;8:45 am]

[Docket Nos. RP74-6, RP72-74]

SOUTHERN NATURAL GAS CO.

Proposed Changes in FPC Gas Tariff

JULY 29, 1976.

Take notice that Southern Natural Gas Company (Southern), on July 3, 1976, on tendered for filing proposed changes in its FPC Gas Tariff, Sixth Revised Volume No. 1, in compliance with the Commission's Opinion No. 747, Opinion and Order Prescribing Interim Curtailment Plan, issued November 27, 1975, and Opinion No. 747-B, Opinion and Order Granting Rehearing in Part and Denying Rehearing in Part, issued May 21, 1976, in Southern Natural Gas Company, Docket Nos. RP74-6 and RP72-74.

Southern states that the filed tariff sheet is filed to comply with Ordering Paragraph (E) of Opinion No. 747-B. The revised tariff sheet modifies Section 9.3 so as to provide for grouping of certain delivery points for purposes of curtailment orders pursuant to the interim plan adopted in Opinion Nos. 747 and 747-B.

Southern requests that the Fourth Revised Sheet No. 40B be made effective 30 days from the date of filing.

Copies of the filing were served upon the company's jurisdictional customers, interested state commissions, and the

parties of record in Docket Nos. RP74-6 and RP72-74.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 13, 1976.

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestant parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22752 Filed 8-4-76;8:45 am]

[Docket No. CI73-681]

TEXAS GAS EXPLORATION CORP.

Offer of Revised Settlement

JULY 29, 1976.

Take notice that on April 6, 1976, Texas Gas Exploration Corporation (TGE), Post Office Box 52310, Houston, Texas 77052, filed a Proposed Settlement Agreement in Docket No. CI73-681, pursuant to §§ 1.12 and 1.18 of the Commission's rules of practice and procedure. TGE stated that it would refund to Consolidated Gas Supply Corporation all amounts collected pursuant to § 2.75(o) above the Southern Louisiana area rate ceiling of 26 cents per Mcf during the period from October 11, 1973 (the date TGE began receiving the 45-cent contract rate) until July 19, 1974 (the date TGE filed its § 2.56a certificate application).

The proposed settlement provided that TGE would be granted a § 2.56a nationwide rate certificate, and TGE would credit the amounts in excess of actual collections to which TGE would have been entitled under the nationwide rate procedure during the period from July 19, 1974, until the date upon which the certificate issued pursuant to § 2.56a becomes effective.

Notice of the proposed settlement was issued on April 19, 1976. A comment was filed by the Public Service Commission of the State of New York, and a reply thereto was submitted by TGE. By order of May 14, 1976, the Commission denied the motion to approve the proposed settlement. The Commission pointed out that the so-called "credit" was greater than the promised refund, so there would be no actual repayment to the pipeline purchaser, and that approval of the settlement would result, in the long term, in substantial financial benefits to TGE at the expense of the consumer.

On July 23, 1976, TGE submitted a motion for consideration of a revised settlement. Under the new proposal TGE would forego the "credit" and actually repay $350,000, based on actual deliveries of 5500 Mcf per day. Further, TGE would waive its claim to the nationwide new gas rate until 30 days after the approval of the revised settlement.

Any person desiring to be heard or to protest said proposed settlement agreement should file comments with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before August 19. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP74-48, RP75-3]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Filing of Settlement Offer Regarding Reserved Issues

JULY 30, 1976.

Take notice that on July 2, 1976, Transcontinental Gas Pipe Line Corporation (Transco) tendered for filing an Offer of Settlement proposed to dispose of the reserved issue related to expenditures in the unsuccessful search for alternate gas supplies.

In a motion for approval accompanying Transco's tendered settlement offer, Transco states that it proposes (1) to remove from cost of service in this case all costs related to the naphtha gasification plant ($9,860,710), since the proposed naphtha gasification plant has obtained renewed vitality; and (2) the costs of the other unsuccessful projects (whose status is unchanged) will be removed from rate base. The settlement proposal, if approved, would reduce the annual cost of service reflected in Transco's rates on this issue from $6,977,140 to $2,870,343, according to Transco.

Any person desiring to be heard or to protest said settlement offer should file comments with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before August 10, 1976. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

PRIVACY ACT OF 1974

Manpower and Payroll Statistics System of Records

On June 21, 1976, there was published in the FEDERAL REGISTER (41 FR 24938) a notice of additional routine uses for the system of records identified as "Manpower and Payroll Statistics System (MAPS), GSA/OAD 32." The public was given the opportunity to submit, not later than July 21, 1976, written comments concerning the additional routine uses. No comments were received and the proposed additional routine uses are hereby adopted.

Dated at Washington, D.C., on July 29, 1976.

G. C. GARDNER,
Director of Administration.

[FR Doc.76-22823 Filed 8-4-76;8:45 am]

GENERAL SERVICES ADMINISTRATION

[Intervention Notice No. 6]

VIRGINIA STATE CORPORATION COMMISSION AND VIRGINIA ELECTRIC AND POWER CO.

Proposed Intervention in Electric Rate Increase Proceeding

The General Services Administration (GSA) seeks to intervene in a proceeding before the Virginia State Corporation Commission concerning an application by the Virginia Electric and Power Company for an increase in its tariffed rates for intrastate electric service. The GSA represents the interests of the executive agencies of the United States Government, as users of utility services.

Virginia Electric and Power Company has proposed a rate increase designed to increase its intrastate revenues by approximately $102.2 million annually.

Persons desiring to make inquiries concerning this case to GSA should submit them, in writing, to Mr. Spence W. Perry, Assistant General Counsel, Regulatory Law Division, General Services Administration, 18th and F Streets, NW., Washington, D.C. 20405, telephone (202) 566-0750, on or before September 7, 1976, and refer to this notice number.

Persons making inquiries are put on notice that the making of an inquiry not serve to make any persons parties of record in the proceeding.

(Sec. 201(a)(4), Federal Property and Administration Services Act, (40 U.S.C. 481(a)(4)))

Dated: July 29, 1976.

JACK ECKERD,
Administrator of General Services.

INTERNATIONAL TRADE COMMISSION

[603-TA-2]

CROCHETED BOOTIE SETS FROM THE REPUBLIC OF KOREA

Termination of Investigation

1. On May 30, 1975, a complaint, subsequently amended, was filed with the Commission under section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), alleging unfair methods of competition and unfair acts in the importation of crocheted bootie sets from the Republic of Korea into the United States, or in their sale. As a result of its consideration of the amended complaint, the Commission ruled that the complaint was defi-

V 41 152 AUG 5 76 UMI

cient in that it did not comply with the Commission's rules of practice and procedure (19 CFR Part 201 et seq.). In its letter of October 29, 1975, advising the complainants of its ruling, the Commission requested that they provide a new complaint adequately framing the issues and providing requisite factual support for the alleged violations of section 337. In a letter dated February 26, 1976, the complainants' attorney communicated to the Commission his clients' decision to withdraw their complaint "because of the expense involved." (Commission motion docket No. M–212.)

2. On April 13, 1976, the Commission instituted a preliminary investigation pursuant to the provisions of section 603 of the Trade Act of 1974 (19 U.S.C. 2482) to determine whether to institute an investigation under section 337 of the Tariff Act of 1930, as amended, with respect to the importation of crocheted bootie sets into the United States, or their sale. A Notice of Preliminary Investigation was published in the FEDERAL REGISTER on April 29, 1976 (41 FR 17977). As a result of its preliminary investigation, the Commission determined, on July 6, 1976, that there is no factual basis to support the allegations of the amended complaint, and that therefore the institution of a section 337 investigation based upon the allegations in the amended complaint is not warranted. Accordingly, complainants' motion to withdraw their complaint (M–212) is granted, and this preliminary investigation is terminated.

Issued: August 2, 1976.

By order of the Commission.

KENNETH R. MASON,
Secretary.

LEGAL SERVICES CORPORATION

AUDIT AND ACCOUNTING GUIDE FOR RECIPIENTS AND AUDITORS

Request for Comments

On Tuesday, July 20, 1976, the Legal Services Corporation published in the FEDERAL REGISTER its "Audit and Accounting Guide for Recipients and Auditors" (41 FR 29951–29979). Pursuant to section 1008(e) of the Legal Services Corporation Act (42 U.S.C. 2996g(e)), the Corporation hereby requests comment from interested persons on the procedures described in the "Guide." Comments will be received by the Office of the Comptroller at the Corporation's office, Suite 700, 733 15th Street, NW., Washington, D.C. 20005 by September 7, 1976. Comments must be in writing and may be accompanied by supporting documents. Comments received may be seen at the above office during business hours, Monday through Friday.

If no substantial changes are required by comments received pursuant to this notice, the "Audit and Accounting Guide for Recipients and Auditors" will become effective on October 4, 1976.

Pending final adoption, recipients and auditors are requested to treat the "Guide" as a Corporation directive and to follow the procedures described therein.

THOMAS EHRLICH,
President.

[FR Doc.76–22768 Filed 8–4–76;8:45 am]

NATIONAL TRANSPORTATION SAFETY BOARD

[N–AR 76–32]

ACCIDENT REPORTS; SAFETY RECOMMENDATIONS AND RESPONSES

Availability and Receipt

Pipeline Accident Report and Recommendations.—The National Transportation Safety Board has released the report of its investigation of the December 1, 1974, pipeline accident near Abilene, Texas. The report, No. NTSB–PAR–76–4, was released July 27. The accident occurred when a repair crew, working on a leak in a 26-inch pipeline, began to excavate the pipe while it was pumping sour crude oil. Of the seven-man repair crew, six died after being overcome by fumes from the sour crude oil.

The Safety Board determined that the probably cause of the accident was the attempted repair, in a manner which failed to follow the company's written procedures, of a leak in a cracked fillet weld on a full-wrap repair sleeve. The fillet weld, made improperly during the repair of an earlier leak, failed. The failure allowed toxic, sour crude oil to spray and permeate the leak site.

In a separate letter issued July 27 to the West Texas Gulf Pipe Line Company, owner of the facility, the Safety Board recommended that the company (1) instruct its personnel in its own safety requirements and monitor work done to see that they are followed; (2) use qualified welders to instruct personnel in the proper fillet welding of repair sleeves; (3) be sure every repair contractor is familiar with company operation and maintenance procedures, and insist on the contractor's use of required safety equipment; (4) instruct its own maintenance and operating personnel in the hazards of sour crude oil; (5) provide in vehicles, or at strategic locations, oxygen breathing equipment, safety ropes, and gas vapor detection instruments; and (6) identify and excavate for inspection all other previous fillet weld repairs. These recommendations, Nos. P–76–30 through P–76–35, are designated Class II, for priority followup.

Railroad Accident Report and Recommendations.—The collision of three Penn Central passenger trains near Wilmington, Delaware, last October 17, has been investigated by the Safety Board. A northbound train struck the rear of a train which had made an unscheduled stop because of an engine malfunction; a southbound train, approaching on an adjacent track, struck the derailed equipment. The collision injured 25 persons and caused more than $800,000 property damage. In its report, NTSB–RAR–76–7 released July 30, the Board determined that the probable cause of the rear end collision was the engineer's failure to operate his train according to established procedures. Contributing to the accident was the operational practice of the railroad industry which permits trains to enter occupied blocks. The second collision was caused by the absence of flagging.

As a result of its investigation, the Safety Board on July 30 issued eleven Class II safety recommendations in three separate letters. The Board recommended that:

The Federal Railroad Administration (1) establish regulations on mainlines used by passenger trains that will require trains to stop if the block in front of them is occupied (recommendation R–76–24); (2) establish standards for rear

end visibility of trains (R–76–25); (3) require that trains are equipped with emergency flagging equipment (R–76–26); (4) establish regulations for the protection by flagging of the rear end of all stopped trains in passenger territory (R–76–27); (5) require carriers to provide emergency lighting and communication systems on passenger cars and to provide for predeparture inspection to assure their operability (R–76–28); (6) require carriers to train employees in emergency procedures to be used after an accident, to establish priorities for emergency action, and to conduct accident simulations to test the effectiveness of the program, inviting civic emergency personnel participation (R–76–29); (7) require railroads to include emergency procedures for cab evacuation in its training program for operating employees (R–76–30); (8) observe a statistically adequate sample of trains equipped with cab signals to establish the reliability of this system; take appropriate remedial action, based on these findings (R–76–31); and (9) require that trains be equipped with reasonably accurate speed indicators (R–76–32).

Consolidated Rail Corporation (Con Rail): Study the recommendations made to the Federal Railroad Administration in this report and take immediate appropriate action (R–76–33).

Southeastern Pennsylvania Transportation Authority and AMTRAK: Include in agreements with Con Rail requirements to provide for the safe transportation of passengers as well as for their protection and care in the event of an accident (R–76–34).

Recommendation R–76–32, requiring that trains be equipped with reasonably accurate speed indicators, was also addressed to Con Rail, Southeastern Pennsylvania Transportation Authority, and AMTRAK.

Aviation Safety Recommendations.—The Safety Board last week directed the following recommendations to the Federal Aviation Administration:

A–76–93 and A–76–94, issued by letter of July 26. These recommendations resulted from investigation of an incident last January 9 at Dulles International Airport involving extension of the right main landing gear of a Ransome Airlines Nord 262 aircraft. The Board recommended that FAA (1) review the design of the main landing gear actuators for corrective action to prevent entry or accumulation of moisture in the main landing gear actuators on Nord 262 aircraft; and (2), in the interim, issue an Airworthiness Directive to require repeated inspections, at appropriate intervals, of the main landing gear actuators to detect moisture.

A–76–97 through A–76–100, issued by letter of July 29. These recommendations related to accidents involving light twin-engine aircraft that fail to recover from apparently unintentional spins. The Board recommended that FAA (1) amend 14 CFR 23.149 to require that a safe one-engine inoperative speed (V_{sse}) be specified—this speed to be sufficiently above minimum control and single-engine stall speeds so that there will be no uncontrollable yaw or roll rate when thrust is suddenly reduced to idle on the critical engine with takeoff or maximum available power on the operable engine, and the speed to be demonstrated under the most adverse conditions; (2) publish the safe one-engine inoperative speed, V_{sse}, and appropriate procedures in the approved flight manuals and pilots' handbooks and revise the GAMA Specifications for Pilot's Operating Handbook accordingly; (3) revise Advisory Circulars AC 61–4C, AC 61–98, and AC 61–21 to include a discussion of safe procedures for the demonstration of V_{mca} and note the V_{sse} limitation; and (4) issue an Advisory Circular to supplement AC 61–67 dealing solely with simulated and actual engine-out emergencies in typical high performance multi-engine general aviation airplanes—the Advisory Circular to discuss the safe methods of demonstrating V_{mca}, to emphasize potential hazards of asymmetrical power on stalls, and to be disseminated to all multi-engine class-rated pilots, flight schools and flight instructor clinics, and safety seminars.

A–76–103 and A–76–104 were issued July 25, after the Safety Board found that in Cessna Models 300 and 400 series airplanes the wing structural areas aft of the engine nacelles—wing rear spars and flap wells—are particularly susceptible to corrosion because of chemical interaction with exhaust gases. The Board recommended that the FAA (1) conduct a directed safety investigation to determine the degree and criticality of corrosion affecting Cessna 300 and 400 series airplanes; and (2) issue an Airworthiness Directive, if the results of the investigation so dictate, containing specific field maintenance guidelines to assure the timely detection and correction of any corrosion which may affect the rear spars of these airplanes.

All of the above recommendations to FAA are designated Class II.

Railroad Safety Recommendations.—The Safety Board is currently investigating the July 13 collision of two Consolidated Rail Corporation commuter trains at New Canaan, Connecticut. Although the investigation is not yet complete, the need for issuance of two Class I, urgent followup recommendations is apparent. Accordingly, by letter of July 28, the Safety Board recommended that the Connecticut Department of Transportation require the Consolidated Railroad Corporation to: Extend the automatic-block signal system to the end of the track at New Canaan so that the last signal will require the engineer to stop when that portion of the track is occupied (recommendation R–76–46); and establish procedures until such signal protection can be provided to require that the engineer of each train approaching the New Canaan station be notified of the occupancy of the track between the last signal and the station and be authorized to pass the last signal, based upon that condition (R–76–47).

Letters in Response to Safety Board Recommendations.—During the past week, letters concerning previously issued recommendations were received by the Board from both the Federal Aviation Administration and the U.S. Coast Guard, as follows:

FAA's letter of July 22 is in response to recommendations A–76–17 through A–76–19 asking for review of procedures for handling in-flight emergencies both by pilots and air traffic controllers. (See 41 FR 17974, April 29, 1976.) Re A–76–17, FAA states, "We have reviewed Handbook 7110.65, Chapter 8, Emergencies, and feel that the contents of that chapter are adequate and provide sufficient guidance to controller personnel in handling the infinite variety of emergency situations that arise and the undefinable conditions that might surround an inflight distress." Also, FAA said that it is impossible to legislate every situation, even in a very general nature, that a controller might face.

Recommendation A–76–18 asked FAA to modify its ATC handbook to require the controller to seek further information from any pilot who is unable to execute an ATC clearance during adverse conditions. In response, FAA states that the pilot is in command of his aircraft and has the right to refuse any clearance that he cannot execute. FAA considers the ATC handbook to be "completely satisfactory." A–76–19 called for review of FAA regulations surrounding the formal declaration of an emergency to remove any doubt which may exist between the pilot and the controller as to the existence and extent of the emergency, the ability of the pilot and airborne equipment to deal with it, and the realistic options which are available to the pilot. FAA responded, "The situation itself dictates whether it is necessary to formally declare an emergency or not, and whether it would benefit the pilot to know that he was being given priority handling. The pilot obviously must give basic information and controllers are already trained to consider and offer alternatives." FAA considers the regulations and procedures covering inflight emergencies to be satisfactory; however, FAA thinks that refresher training in this area through its flight instructor units, Accident Prevention Program, and Operation Raincheck may be of some benefit, and will issue instructions within 30 days for requiring discussion of emergency reporting procedures in the seminars.

FAA's letter of July 26 is in response to recommendation A–76–90 concerning issuance of an Airworthiness Directive on air conditioning compartment access doors. (41 FR 29222, July 15, 1976.) In response, FAA cites issuance of a notice of proposed rulemaking on July 6, proposing to require a one-time inspection of the rigging of the air conditioning compartment doors and modification of the doors and their latching mechanisms. All communications received on or before August 24 will be considered before taking action on the proposed rule, according to FAA.

V 41 152 AUG 5 76 UMI

Coast Guard's letter of July 20 is in response to the Safety Board's letter request of May 26 for an update on recommendations M–74–7 and M–74–8. These recommendations, concerning towing vessel stability, resulted from investigation into the foundering of the *M V Maryland* in Albemarle Sound on December 18, 1971. (Report No. USCG/NTSB–MAR–74–3. released July 11, 1974.) Coast Guard responded that upon completion of its Towing Vessel Stability Study, public notice of availability of the study was given through an advance notice of proposed rulemaking in the April 12, 1976, FEDERAL REGISTER. Comments are being evaluated and a new stability standards for tugboats will be published later this year. With the assistance of the U.S. Coast Guard Towing Industry Advisory Committee, Coast Guard is preparing a publication on towing vessel operations entitled, "A Guide to Safety in Towing." This publication will include guidance on the proper use and handling of towing hawsers. The length of towline to be used, determined by operation safety considerations, will be discussed. The guide will be published early next year.

Another Coast Guard letter dated July 20 concerns recommendation M–74–19, issued following investigation of the *SS African Neptune* collision with the Sidney Lanier Bridge at Brunswick, Georgia, November 7, 1972. (USCG/NTSB–MAR–74–4, released July 22, 1974.) Coast Guard's letter is in reply to Safety Board letter of May 26 asking for a more detailed explanation of formalized procedures used by Coast Gurad in making a safety analysis of a proposed bridge over navigable waters. In its July 20 response, Coast Guard states, "There is a sound and efficient review process conducted on applications for bridge construction that insures that bridges provide for the reasonable needs of navigation and safety. It is implicit in the issuance of a bridge permit that the bridge render navigation through or under it reasonably free, easy and unobstructed." Coast Guard adds that upon submission of an application, their bridge staff reviews the navigational and navigation safety aspects, and a full opportunity for public, State, or Federal agency comment is provided. Coast Guard further states, "The permit review process is in itself a safety of navigation analysis considering all factors involved which individually or severally affect safety of navigation." In conclusion, Coast Guard considers the precautions taken prior to issuance of bridge permits "more than adequate to insure transportation safety."

The accident reports and the safety recommendation letters are available to the general public: single copies may be obtained without charge. Copies of the letters responding to safety recommendations may be obtained at a cost of $4.00 for service and 10¢ per page for reproduction. All requests must be in writing, identified by report or recommendation number and date of publication of this FEDERAL REGISTER notice. Address inquiries to: Publications Unit, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of the accident reports may be purchased by mail from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93–633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)).)

MARGARET L. FISHER,
Federal Register Liaison Officer.

NUCLEAR REGULATORY COMMISSION

ABNORMAL OCCURRENCE REPORT

Fourth Report Submitted to Congress

Notice is hereby given that pursuant to the requirements of Section 208 of the Energy Reorganization Act of 1974, the Nuclear Regulatory Commission has published and issued the fourth periodic report to Congress on abnormal occurrences (NUREG 0090–3). The release date is July 28, 1976.

Under the Energy Reorganization Act of 1974, which created the NRC, an abnormal occurrence is defined as "an unscheduled incident or event which the Commission (NRC) determines is significant from the standpoint of public health or safety." The NRC has made a determination, based on interim criteria, that events involving an actual loss or significant reduction in the degree of protection against radioactive properties of source, special nuclear, and byproduct materials are abnormal occurrences.

The fourth report to Congress is for the first quarter of 1976 and indicates that during this period:

(a) There were two abnormal occurrences at the 57 licensed operating nuclear power plants. One involved a potential design problem and the other involved an occupational incident exposure of 8 rems.

(b) There were no abnormal occurrences at fuel cycle facilities (other than nuclear power plants).

(c) There were three abnormal occurrences at other licensee facilities. One involved the loss of a small radioactive source during shipment; one involved the unauthorized removal of material from a waste disposal site; and the third involved an occupational incident exposure of 6.9 rems.

The incidents involved temporary reductions in margins of safety normally provided.

The fourth report to the Congress also contains updating information on abnormal occurrences reported in previous reports.

Interested persons may review the report at the NRC's Public Document Room, 1717 H Street, NW, Washington, DC or at any of the 130 local Public Document Rooms throughout the country. The report, designated NUREG 0090–3, may be purchased from the National Technical Information Service, Springfield, Virginia 22161, at $3.50 a copy on or about August 15, 1976.

Dated at Washington, D.C. this 29th day of July 1976.

For the U.S. Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary of the Commission.

[FR Doc.76–22630 Filed 8–4–76;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS WORKING GROUP ON PEAKING FACTORS

Meeting

In accordance with the purposes of Sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the ACRS Working Group on Peaking Factors will hold a meeting on August 20, 1976 in Room 1046, 1717 H St., N.W., Washington, DC 20555. This is the fifth of a series of meetings to review current methods of measuring power distribution in light-water power reactors whose cores are fabricated by the various reactor vendors. This meeting will be used to discuss power distribution in reactors whose cores have been fabricated by the Babcock and Wilcox Company.

The agenda for the subject meeting shall be as follows:

Friday, August 20, 1976, 8:30 a.m. Members of the Working Group will meet in closed Executive Session, with any of their consultants who may be present, to explore their preliminary opinions regarding matters which should be considered during the open session so that the Working Group can prepare a report and recommendations to the full Committee.

9:00 a.m. until conclusion of business. The Working Group will meet in open session to discuss with representatives of the NRC Staff and the Babcock and Wilcox Company current methods of measuring power distribution in nuclear reactor cores built by the Babcock and Wilcox Company.

At the conclusion of the open ssesion, the Working Group may caucus in a brief, closed session to determine whether the matters identified in the initial closed session have been adequately covered. During this session, Working Group members and consultants will discuss their opinions and recommendations on these matters.

In addition to these closed deliberative sessions, it may be necessary for the Working Group to hold one or more closed sessions for the purpose of exploring with the NRC Staff and representatives from other Government agencies and the nuclear industry matters involving proprietary information, particularly with regard to specific features of plant designs.

I have determined, in accordance with Subsection 10(d) of Public Law 92–463, that it is necessary to conduct the above closed sessions to protect the free interchange of internal views in the final stages of the Working Group's deliberative process (5 U.S.C. 552(b)(5)) and to protect proprietary information (5 U.S.C. 552(b)(4)). Separation of factual material from individuals' advice, opinions and recommendations while closed Executive Sessions are in progress is considered impractical.

Practical considerations may dictate alterations in the above agenda or schedule. The Chairman of the Working Group is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by providing a readily reproducible copy to the Working Group at the beginning of the meeting. Comments should be limited to safety related areas within the Working Group's purview.

Persons desiring to mail written comments may do so by sending a readily reproducible copy thereof in time for consideration at this meeting. Comments postmarked no later than August 13, 1976 to Mr. T. G. McCreless, ACRS, NRC, Washington, DC 20555 will normally be received in time to be considered at this meeting.

(b) Those persons wishing to make an oral statement at the meeting should make a written request to do so, identifying the topics and desired presentation time so that appropriate arrangements can be made. The Working Group will receive oral statements on topics relevant to its purview at an appropriate time chosen by the Chairman of the Working Group.

(c) Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call on August 19, 1976 to the Office of the Executive Director of the Committee (telephone 202/634–1374, Attn: Mr. T. G. McCreless) between 8:15 a.m. and 5:00 p.m., EDT.

(d) Persons with agreements or orders permitting access to proprietary information may attend portions of ACRS meetings where this material is being discussed upon confirmation that such agreements are effective and relate to the material being discussed.

The Executive Director of the ACRS should be informed of such an agreement at least three working days prior to the meeting so that the agreement can be confirmed and a determination can be made regarding the applicability of the agreement to the material that will be discussed during the meeting. Minimum information provided should include information regarding the date of the agreement, the scope of material included in the agreement, the project or projects involved, and the names and titles of the persons signing the agreement. Additional information may be requested to identify the specific agreement involved. A copy of the executed agreement should be provided to Mr. T. G. McCreless of the ACRS Office, prior to the beginning of the meeting.

(e) Questions may be propounded only by members of the Working Group and its consultants.

(f) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(g) A copy of the transcript of the open portion of the meeting will be available for inspection on or after August 27, 1976 at the NRC Public Document Room, 1717 H St., NW., Washington, DC 20555.

Copies of the minutes of the meeting will be made available for inspection at the NRC Public Document Room 1717 H St., NW., Washington, DC 20555 after November 22, 1976. Copies may be obtained upon payment of appropriate charges.

Dated: July 29, 1976.

JOHN C. HOYLE,
Advisory Committee Management Officer.

[FR Doc.76–22629 Filed 8–4–76;8:45 am]

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 4.11, "Terrestrial Environmental Studies for Nuclear Power Stations," provides technical information for the design and execution of terrestrial environmental studies for nuclear power stations. The information resulting from these studies will be appropriate for inclusion in an applicant's environmental report, thereby reducing the time required to prepare and review individual license applications.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 4.11 will, however, be particularly useful in evaluating the need for an early revision if received by September 30, 1976.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a).)

Dated at Rockville, Maryland, this 27th day of July 1976.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,
Director, Office of Standards Development.

[FR Doc.76–22377 Filed 8–4–76;8:45 am]

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 2.3, Revision 1, "Quality Verification for Plate-Type Uranium-Aluminum Fuel Elements for Use in Research Reactors," describes a method acceptable to the NRC staff for establishing and executing a quality assurance program for verifying the quality of plate-type uranium-aluminum fuel elements in research reactors. This guide endorses ANSI Standard N398–1974, "Quality Verification for Plate-Type Uranium-Aluminum Fuel Elements." This revision reflects comments received from the public and from additional staff review.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies

V 41 152 AUG 5 76 UMI

of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

[Docket No. 50-293]

BOSTON EDISON CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 17 to Facility Operating License No. DPR-35, issued to Boston Edison Company (the licensee), which revised Technical Specifications for operation of Unit No. 1 of the Pilgrim Nuclear Power Station (the facility) located near Plymouth, Massachusetts. The amendment is effective as of its date of issuance.

The amendment modified the allowable total leak rate specification for testable penetration and isolation valves to conform with the requirements of Appendix J of 10 CFR Part 50.

The portion of the application for the amendment relating to modifications of the allowable total leak rate specification for testable penetration and isolation valves complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated October 10, 1975, (2) Amendment No. 17 to License No. DPR-35, and (3) the Commission's concurrently issued related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Plymouth Public Library on North Street in Plymouth, Massachusetts 02360.

A single copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 23rd day of July, 1976.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[FR Doc.76-22374 Filed 8-4-76;8:45 am]

[Docket Nos. 50-237 and 50-249]

COMMONWEALTH EDISON CO.

Consideration of Proposed Modification to Facility Spent Fuel Storage Pool

The U.S. Nuclear Regulatory Commission (the Commission) is considering the approval of modification to the spent fuel storage pools of Unit Nos. 2 and 3 of the Dresden Nuclear Power Station (the facilities) operated under Facility Operating License Nos. DPR-19 and DPR-25 issued to the Commonwealth Edison Company (the licensee). The facilities are boiling-water reactors located in Grundy County, Illinois, and are currently authorized to operate at 2527 megawatts (thermal).

The proposed modification being considered involves the addition of 28 fuel storage racks to the existing racks in the spent fuel storage pool of the facilities resulting in a capacity capable of accommodating up to 2880 fuel assemblies in accordance with the licensee's request dated September 17, 1975, and supplemental filings dated December 8, 1975 and April 23, 1976. The existing racks have a capacity for storage of 2320 fuel assemblies. The proposed action also would permit storage of Dresden and Quad Cities Stations fuels in either the storage pools of Dresden Unit Nos. 2 and 3 or Quad Cities Unit Nos. 1 and 2. This notice does not relate to that portion of the licensee's request dated September 17, 1975, pertaining to the more generalized manner of stating possession and use limits for special nuclear, byproduct, and source materials in License No. DPR-2 (Dresden Unit No. 1—Docket No. 50-10), License No. DPR-19 (Dresden Unit No. 2—Docket No. 50-237), and License No. DPR-25 (Dresden Unit Nos. 3—Docket No. 50-249).

If it is later determined that the modification requires changes to the facility licenses and/or their appended Technical Specifications, a license amendment would be issued for each facility along with approval of the modification.

Prior to approval of the proposed modification and any license amendments, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By September 7, 1976 the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the approval of the modification to the subject facility spent fuel storage pool. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Mr. John W. Rowe, Esquire, Isham, Lincoln and Beale, Counselors at Law, One First National Plaza, Chicago, Illinois 60603, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to these actions, see (1) Commonwealth Edison Company's request dated September 17, 1975, and supplemental filings dated December 8, 1975 and April 23, 1976, and (2) the Commission's letter to Commonwealth Edison Company dated January 13, 1976, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Morris Public Library, 604 Liberty Street, Morris, Illinois 60451. The Commission's approval (including any license amendment that may be required) and the Safety Evaluation, when issued, may be inspected at the above locations and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 2nd day of August, 1976.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[FR Doc.76-22899 Filed 8-4-76;8:45 am]

[Docket Nos. 50-254 and 50-265]

COMMONWEALTH EDISON CO. AND IOWA-ILLINOIS GAS AND ELECTRIC CO.

Consideration of Proposed Modification to Facility Spent Fuel Storage Pool

The U.S. Nuclear Regulatory Commission (the Commission) is considering the approval of modification to the spent fuel storage pools of Unit Nos. 1 and 2 of the Quad Cities Nuclear Power Station (the facilities) operated under Facility Operating License Nos. DPR-29 and DPR-30 issued to the Commonwealth Edison Company (the licensee—acting for itself and on behalf of the Iowa-Illinois Gas and Electric Company). The facilities are boiling-water reactors located in Rock Island County, Illinois, and are currently authorized to operate at 2511 megawatts (thermal).

The proposed modification being considered involves the addition of 32 fuel storage racks to the existing racks in the spent fuel storage pool of the facilities resulting in a capacity capable of accommodating up to 2920 fuel assemblies in accordance with the licensee's request dated September 17, 1975, and supplemental filings dated December 8, 1975 and April 23, 1976. The existing racks have a capacity for storage of 2280 fuel assemblies. The proposed action also would permit storage of Dresden and Quad Cities Stations fuels in either the storage pools of Dresden Unit Nos. 2 and 3 or Quad Cities Unit Nos. 1 and 2. This notice does not relate to that portion of the licensee's request dated September 17, 1975, pertaining to the more generalized manner of stating possession and use limits for special nuclear, byproduct, and source materials in License No. DPR-29 (Quad Cities Unit No. 1—Docket No. 50-254) and License No. DPR-30 (Quad Cities Unit No. 2—Docket No. 50-265).

If it is later determined that the modification requires changes to the facility licenses and/or their appended Technical Specifications, a license amendment would be issued for each facility along with approval of the modification.

Prior to approval of the proposed modification and any license amendments, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By September 7, 1976, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the approval of the modification to the subject facility spent fuel storage pool. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Mr. John W. Rowe, Esquire, Isham, Lincoln and Beale, Counselors at Law, One First National Plaza, Chicago, Illinois 60603, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to these actions, see (1) Commonwealth Edison Company's request dated September 17, 1975, and supplemental filings dated December 8, 1975 and April 23, 1976, and (2) the Commission's letter to Commonwealth Edison Company dated January 13, 1976, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Local Public Document Room at the Oak Ridge Public Library, Civic Center, Oak Ridge, Tennessee.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Chief, Antitrust and Indem-

[Docket No. 50-564]

EXXON NUCLEAR CO., INC.

Receipt of Partial Application for Construction Permit and Facility License: Time for Submission of Views on Antitrust Matters

AUGUST 5, 1976.

Exxon Nuclear Company, Inc. (the applicant), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed a partial application in connection with their plans to construct and operate the Nuclear Fuel Recovery and Recycling Center (NFRRC) in Roane County, Tennessee. The NFRRC will have the capacity to store up to approximately 7000 tonnes of irradiated nuclear fuel and to process 2100 tonnes of fuel per year. The portions of the application accepted for docketing contain the information requested by the Attorney General for the purpose of an antitrust review of the application, the Preliminary Safety Analysis Report, and general and financial information. The partial application was tendered by Exxon Nuclear Company, Inc. on January 28, 1976. Following a preliminary review for completeness, the PSAR was revised, resubmitted, and the application accepted for docketing on June 16, 1976. Docket No. 50-564 has been assigned to the application; antitrust information will be filed under Docket No. 50-564-A.

The environmental report will be submitted within 30 days for acceptance review. Upon acceptance and docketing of the environmental report, a separate notice will be published on its availability.

A Notice of Hearing will then be published setting forth the radiological and environmental issues to be considered during the review. A date for submitting Petitions for Leave to Intervene will also be set forth in the Notice of Hearing.

A copy of the partial application is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., 20555, and at the Local Public Document Room at the Oak Ridge Public Library, Civic Center, Oak Ridge, Tennessee.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Chief, Antitrust and Indem-

[Docket No. 50-331]

IOWA ELECTRIC LIGHT & POWER CO.

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 22 to Facility Operating License No. DPR-49 issued to Iowa Electric Light and Power Company which revised Technical Specifications for operation of the Duane Arnold Energy Center, located in Linn County, Iowa. The amendment is effective as of its date of issuance.

The amendment permits changes in the environmental monitoring program, sampling frequency, sampling location, a change in the corporate structure, and changes in administrative details.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the applications for amendment dated May 5, 1975, December 15, 1975, and April 23, 1976, and (2) Amendment No. 22 to License No. DPR-49. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Cedar Rapids Public Library, 426 Third Avenue, S.E., Cedar Rapids, Iowa.

A copy of item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Site Safety and Environmental Analysis.

Dated at Bethesda, Maryland, this 26th day of July, 1976.

[Docket No. 50-219]

JERSEY CENTRAL POWER & LIGHT CO.

Issuance of Amendment to Provisional Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 16 to Provisional Operating License No. DPR-16 issued to Jersey Central Power & Light Company which revised Technical Specifications for operation of the Oyster Creek Nuclear Generating Station, located in Ocean County, New Jersey. The amendment is effective as of its date of issuance.

The amendment involves changes to the Technical Specifications minimum critical power ratio (MCPR) safety and operating limits, an increase in Maximum Average Planar Linear Heat Generation Rate (MAPLHGR) and changes in selected surveillance requirements and remedial actions related to these limits.

The applications for amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Notice of Proposed Issuance of Amendment to Facility Operating License in connection with the change in MCPR was published in the FEDERAL REGISTER on December 17, 1975 (40 FR 58518). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the applications for amendment dated October 20, 1975 (supplemented by February 4, 1976 letter and revised by February 9, 1976 letter) and June 18, 1976 (supplemented by June 30, 1976 letter), (2) Amendment No. 16 to License No. DPR-16, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street N.W., Washington, D.C. and at the Ocean County Library, 15 Hooper Avenue, Toms River, New Jersey 08753.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland this 26th day of July, 1976.

[Docket No. 50-289]

METROPOLITAN EDISON CO., ET AL.

Proposed Issuance of Amendment to Facility Operating License

The Nuclear Regulatory Commission (the Commission) is considering the issuance of an amendment to Facility Operating License No. DPR-50, issued to Metropolitan Edison Company, Jersey Central Power & Light Company & Pennsylvania Electric Company for operation of Three Mile Island Nuclear Station, Unit No. 1 (the facility), located in Dauphin County, Pennsylvania.

The amendment would result in a less restrictive variable low pressure trip setpoint of the Reactor Protective System for the condition of four reactor coolant pumps operating. This change results from the elimination of the reactor internals vent valve flow penalty which the Commission has determined to be no longer required.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By September 7, 1976, the licensees may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of Section 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER Notice and Section 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and G. F. Trowbridge, Esquire, Shaw, Pittman, Potts & Trowbridge, 1800 M Street, NW., Washington, D.C. 20036, the attorney for the licensees.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularly the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated July 7, 1976, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Government Publications Section, State Library of Pennsylvania, Box 1610, (Education Building), Harrisburg, Pennsylvania.

Dated at Bethesda, Maryland, this 23rd day of July 1976.

[Docket Nos. 50-496 and 50-497]

NORTHEAST NUCLEAR ENERGY CO. ET AL.

Availability of Safety Evaluation Report for Montague Nuclear Power Station, Units 1 and 2

Notice is hereby given that the Office of Nuclear Reactor Regulation has published its Safety Evaluation Report on the proposed construction of the Montague Nuclear Power Station, Units 1 and 2, to be located in the northern Massachusetts Town of Montague, Franklin County, 1.8 miles east of the Connecticut River. Notice of receipt of the application of Northeast Nuclear Energy Company, et al., to construct and operate the Montague Nuclear Power Station, Units 1 and 2, was published in the FEDERAL REGISTER on August 13, 1974 (39 FR 29019).

The report is being referred to the Advisory Committee on Reactor Safeguards and is being made available at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Carnegie Library, Avenue A, Turners Falls, Massachusetts 01376, for inspection and copying. The report (Document No. NUREG-0091) can also be purchased at current rates, from the National Technical Information Service, Springfield, Virginia 22161.

[Dockets Nos. 50-277 and 50-278]

PHILADELPHIA ELECTRIC CO., ET AL.

Issuance of Amendments to Facility Operating Licenses and Negative Declaration

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 20 and 20 to Facility Operating Licenses Nos. DPR-44 and DPR-56, respectively, issued to Philadelphia Electric Company, Public Service Electric and Gas Company, Delmarva Power and Light Company, and Atlantic City Electric Company, which revised Technical Specification for operation of the Peach Bottom Atomic Power Station, Units 2 and 3, located in Peach Bottom, York County, Pennsylvania. The amendments are effective as of their date of issuance.

The amendments will revise the provisions in the Environmental Technical Specifications relating to the monitoring of free residual chlorine and to the quantities of eight chemicals used in plant operation.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations to 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments are not required since these amendments do not involve a significant hazards consideration.

The Commission has prepared an environmental impact appraisal for the revised Technical Specifications and has concluded that an environmental impact statement for this particular action is not warranted because there will be no environmental impact attributable to the proposed action other than that which has already been predicted and described in the Commission's Final Environmental Statement for the Peach Bottom Atomic Power Station Units Nos. 2 and 3 published in April 1973, and that a negative declaration to this effect is appropriate.

For further details with respect to this action, see (1) the application for amendments dated July 23, 1975, (2) Amendments Nos. 20 to Licenses Nos. DPR-44 and DPR-56, and (3) the Commission's Environmental Impact Appraisal. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Martin Memorial Library, 159 E. Market Street, York, Pennsylvania 17401.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 27th day of July, 1976.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Operating Reactors.

[FR Doc.76-22626 Filed 8-4-76;8:45 am]

[Docket No. PRM-51-2]

TOWNSHIP OF LOWER ALLOWAYS CREEK, NEW JERSEY

Filing of Petition for Rulemaking

Notice is hereby given that the Honorable David A. Fogg, Mayor of the Township of Lower Alloways Creek, New Jersey, by letter dated July 7, 1976, has filed with the Nuclear Regulatory Commission, on behalf of the Township, a petition for rule making.

The petitioner requests that the Commission amend 10 CFR 51.24(c)(4) to provide that copies of the draft environmental impact statement and the applicant's environmental report will be provided to:

All parties to the licensing proceedings, if the draft statement is for a licensing action, including the chief executives of all the municipalities which are considered in the draft statement as either preferred or alternate locations for the licensed facility or activity.

The petitioner also requests the Commission to amend 10 CFR 2.101 to provide that if the applicant is required to consider alternate locations in his application, as in the case of an environmental report, the applicant will also serve a copy of the application on the chief executives of the appropriate alternate municipalities or countries.

The petitioner states that although existing regulations of the Commission require the consideration of alternate sites for a facility, the regulations provide for notification only of the authorities having jurisdiction over the preferred site, and officials with jurisdiction over alternate sites are not guaranteed the knowledge that a site in their area is under consideration or that the relative merits of such a site may have been the subject of dispute at hearings held in a different locale.

V 41 152 AUG 5 76 UMI

The petitioner states also that authorities for the preferred site have an opportunity at Commission hearings to present evidence in favor of moving the facility to an alternate location, without rebuttal from representatives from that location, and the present rules place an unreasonable burden on the authorities in the alternate location if the preferred site is disallowed or deemed unsuitable at some point in the licensing.

It is the view of the petitioner that in the interest of providing a thorough, well-balanced, and informed review of preferred and alternate sites for nuclear facilities, all of the communities involved should be notified at the time the original application is submitted to the Commission.

A copy of the petition for rule making is available for public inspection in the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. A copy of the petition may be obtained by writing to the Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

All interested persons who desire to submit written comments or suggestions concerning the petition for rule making should send their comments to the Secretary of the Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by October 4, 1976.

Dated at Washington, D.C. this 29th day of July 1976.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary of the Commission.

[Docket No. 50-29]

YANKEE ATOMIC ELECTRIC CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 28 to Facility Operating License No. DPR-61, issued to Yankee Atomic Electric Company (the licensee), for the operation of the Yankee Nuclear Power Station (Yankee-Rowe) located in Rowe, Franklin County, Massachusetts. The amendment is effective as of its date of issuance.

The amendment allows the installation of a pulsation dampener on the Charging Pump No. 3 discharge header.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated April 21, 1976, (2) Amendment No. 28 to License No. DPR-3, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Greenfield Public Library, 422 Main Street, Greenfield, Massachusetts 01581. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 15th day of July 1976.

For the Nuclear Regulatory Commission.

A. SCHWENCER,
Chief, Operating Reactors Branch No. 1, Division of Operating Reactors.

SECURITIES AND EXCHANGE COMMISSION

NATIONAL MARKET ADVISORY BOARD

Meeting

This is to give notice pursuant to Section 10(a) of the Federal Advisory Committee Act, 5 U.S.C., App. I 10(a), that the National Market Advisory Board will conduct open meetings on August 16, 17 and 18, 1976 in Room 776, 500 North Capitol Street, Washington, D.C., 25049 beginning at 9:30 a.m. on August 16 and at 8:30 a.m. on August 17 and 18. The Board will also conduct open meetings on September 20 and 21. The location and summarized agenda for the September meetings will be published in the FEDERAL REGISTER at a later date. Initial notice of the August meeting was published in the FEDERAL REGISTER on June 3, 1976 and of the September meeting on June 28, 1976.

The summarized agenda for the August meeting is as follows:

1. Discussion of the submission of the New York Stock Exchange;
2. Discussion of the Board's report to the Securities and Exchange Commission on in-house agency cross transactions in listed securities by exchange members;
3. Discussion of off-board principal transactions in listed securities by exchange members;
4. Discussion of the submission of the American Society of Corporate Secretaries;
5. Discussion of the Board's report to the Securities and Exchange Commission regarding the establishment of a consolidated limit order book; and
6. Discussion of such other matters as may properly be brought before the Board.

Further information may be obtained by writing Martin L. Budd, Executive Director, National Market Advisory Board Staff, Securities and Exchange Commission, Washington, D.C. 20549.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 34-12672; File No. SR-DTC-76-6]

DEPOSITORY TRUST CO.

Self-Regulatory Organizations

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on July 6, 1976, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed rule change establishes an interface between The Depository Trust Company (DTC) and Pacific Securities Depository Trust Company (PSDTC). This matter requires a determination pursuant to Rules 8c-1(g) and 15c2-1(g) under the Securities Exchange Act of 1934. The proposed rule change consists of the description of the operational procedures and the agreements attached as Exhibits 2(A), 2(B), 2(C) and 2(D) to DTC's filing on Form 19b-4A, File No. SR-DTC-76-6.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

3. *Purpose of Proposed Rule Change*

The purpose of the proposed rule change is to establish an interface between DTC and PSDTC for all dual participants (participants in both DTC and PSDTC) and dually-eligible securities issues. The interface will permit dual participants to make book-entry transfers of securities in their DTC accounts to their PSDTC accounts where the securities will be available for delivery by book-entry within PSDTC and to make book-entry transfers from their PSDTC accounts to their DTC accounts where the securities will be available for delivery by book-entry within DTC.

4. *Basis under the Act for Proposed Rule Change*

(a) Not Applicable.

(b) The proposed rule change relates to DTC's carrying out the purposes of Section 17A of the Securities Exchange Act of 1934 (the Act) by increasing DTC's capacity to facilitate the prompt and accurate clearance and settlement of securities transactions in that the proposed rule change will allow dual participants with security positions in DTC or PSDTC to make book-entry delivery of those positions from DTC to PSDTC or from PSDTC to DTC instead of more costly physical withdrawals and shipment of the securities.

(c) Not Applicable.

5. *Comments Received from Members, Participants or Others on Proposed Rule Change*

No comments on the proposed rule change have been solicited or received.

6. *Burden on Competition*

None.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER (September 9, 1976) of within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Comimssion will:

(A) by order approve such proposed rules change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the public reference room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should be submitted within 21 days from the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

JULY 29, 1976.

[FR Doc. 76-22735 Filed 8-4-76;8:45 am]

[Release No. 34-12673; File No. SR-MSE-76-12]

MIDWEST STOCK EXCHANGE, INC.

Self-Regulatory Organizations

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on July 27, 1976, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

MIDWEST STOCK EXCHANGE RULES ARTICLE IV, RULE 34

"MAX" EXECUTION SYSTEM

Rule 34. The Midwest Stock Exchange Agency Execution System ("MAX") shall be available to Exchange member firms in all dually traded issues. Max orders from 100 up to and including 300 shares shall be executed pursuant to the following formula:

Next Sale an Up Tick:
a. Buy orders executed on next sale.
b. Sell orders executed on previous sale.

Next Sale A Down Tick.
a. Buy orders executed on previous sale.
b. Sell orders executed on next sale.

Next Sale A Zero Plus Tick.
a. Buy orders executed on next sale.
b. Sell orders held until next different sale.

Next Sale A Zero Minus Tick.
a. Buy orders held until next different sale.
b. Sell orders executed on next sale.

MSE'S STATEMENT OF BASIS AND PURPOSE

The purpose of the proposed rule change is to increase the number of shares which can be included in a Max order thereby making the Midwest Stock Exchange's "MAX" Program competitive with other exchanges' formula execution processes.

The proposed rule change promotes just and equitable principles of trade and removes impediments to and the perfection of the mechanism of a free and open market and a national market system.

The rule change was proposed by the Exchange's Committee on Market Structure. Furthermore, in an open Floor meeting held on July 22, 1976, the staff advised the approximately 50 members attending of the action by the Board.

The Midwest Stock Exchange, Incorporated believes that no burdens have been placed on competition by this change.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of Section 6 and the rules and regulations thereunder.

Further, the Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof. The rule change is designed to promote competition in the securities markets. In addition, the Commission has recently approved a similar rule change by another national securities exchange in connection with its pricing formula system.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submission should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted within 21 days of the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

JULY 29, 1976.

[Release No. 34-12657; File No. SR-MSRB-76-6]

MUNICIPAL SECURITIES RULEMAKING BOARD

Self-Regulatory Organizations

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, § 16 (June 4, 1975), notice is hereby given that on July 15, 1976, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission proposed rule changes as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGES

The Municipal Securities Rulemaking Board (the "Board") has filed proposed rule changes that would amend paragraph (b) of rule G-1 of the Board. The proposed rule changes are technical in nature and are designed to conform the description of activities engaged in by a separately identifiable department or division of a bank to the description of activities performed by personnel associated with a municipal securities broker or non-bank municipal securities dealer subject to the Board's proposed rules G-2 through G-7 establishing standards of professional qualification.[1]

The text of the proposed rule changes follows:[2]

Rule G-1.—*Separately Identifiable Department or Division of a Bank.*

(a) No change.

(b) For purposes of this rule the activities of the bank which shall constitute municipal securities dealer activities are as follows:

(1) underwriting trading and sales of municipal securities;

[1] These rules are not yet in effect. Rules G-2 through G-6 were filed with the Commission in File No. SR-MSRB-76-3 (Securities Exchange Act Release No. 12177 (Mar. 8, 1976), 41 FR 10686 (1976)), and are being amended concurrently herewith (Amendment No. 1 to Form 19b-4A, File No. SR-MSRB-76-3.) Rule G-7 was filed with the Commission in File No. SR-MSRB-76-5 (Securities Exchange Act Release No. 12469 (May 20, 1976); 41 FR 22650 (1976)). Rule G-1 (formerly designated as rule 4 as originally filed in File No. SR-MSRB-75-1 (Securities Exchange Act Release No. 11741 (Oct. 15, 1975), 40 FR 49420 (1975)) was redesignated as such in File No. SR-MSRB-75-3 (Securities Exchange Act Release No. 11838 (Nov. 17, 1975), 40 FR 54636 (1975)). Additional amendments to rule G-1 (b) and G-3(a) are being filed concurrently herewith in File No. SR-MSRB-76-7.

(c) No change.

(d) No change.

STATEMENT OF BASIS AND PURPOSE OF PROPOSED RULE CHANGES

The basis and purpose of the proposed rule changes are as follow:

The proposed rule changes are intended to conform certain of the municipal securities dealer activities set forth in rule G–1(b) with the description of activities performed by bank and nonbank personnel subject to the Board's rules on professional qualification as set forth in proposed rule G–3(a)(iii). The proposed rule changes would also clarify the Board's intent to exclude trust department activities and investment management services from the scope of bank dealer activities to the extent that they are not related to underwriting, trading and sales acivities of the bank dealer.

BASIS UNDER THE ACT FOR PROPOSED RULE CHANGES

The Board has adopted the proposed rule changes pursuant to sections 15B(b)(2)(A) and 15B(b)(2)(H) of the Securities Exchange Act of 1934, as amended (the "Act").

COMMENTS RECEIVED FROM MEMBERS, PARTICIPANTS, OR OTHERS ON PROPOSED RULE CHANGES

In view of their technical nature, the Board has not solicited or received any letters of comment relating to the proposed rule changes.

BURDEN ON COMPETITION

The Board is of the opinion that the proposed rule changes will not constitute a burden on competition.

Within thirty-five days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such rule changes, or

(B) Institute proceedings to determine whether the proposed rule changes should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before August 30, 1976.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

JULY 26, 1976.

[Release No. 34-12658; File No. SR-MSRB-76-7.]

MUNICIPAL SECURITIES RULEMAKING BOARD

Self-Regulatory Organizations

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, § 16 (June 4, 1975), notice is hereby given that on July 15, 1976, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission proposed rule changes as follow:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGES

The Municipal Securities Rulemaking Board (the "Board") has filed proposed rule changes that would amend paragraph (b) of rule G–1[1] and subparagraph (a)(iii) of proposed rule G–3, which is not yet in effect. The proposed rule changes would add financial advisory and consultant services for issuers in connection with the issuance of municipal securities (hereinafter referred to as "advisory services") to the list of municipal securities dealer activities set forth in rule G–1(b) and the list of activities performed by municipal securities representatives set forth in proposed rule G–3(a)(iii). Since the definition of "municipal securities principal" in proposed rule G–3(a)(i) incorporates by reference the activities described in rule G–1(b) and proposed rule G–3(a)(iii), a person who performs advisory services in a supervisory capacity would be a municipal securities principal subject to the Board's proposed standards of professional qualification set forth in proposed rules G–2 through G–7.[2]

The Board intends to consider the advisability of establishing separate examinations for persons performing or responsible for advisory services. In the interim, however, such persons would be required, subject to the provisions of paragraph (c) and (e) of proposed rule G–3, to take and pass the examinations for municipal securities principals or municipal securities representatives, as the case may be.

The text of the proposed rule changes, which embodies changes proposed by the Board in File Nos. SR–MSRB–76–3 (Amendment No. 1) and SR–MSRB–76–6, follows:[3]

Rule G–1. *Separately Identifiable Department or Division of a Bank.*

(a) No change.

(b) For purposes of this rule, the activities of the bank which shall constitute municipal securities dealer activities are as follows:

(1) underwriting, trading and sales of municipal securities;

(2) *financial advisory and consultant services for issuers in connection with the issuance of municipal securities;*

(3) [(2)] processing and clearance activities with respect to municipal securities;

(*4*) [(3)] research and investment advice with respect to municipal securities;

(5) [(4)] any activities other than those specifically enumerated above which involve communication, directly or indirectly, with public investors in municipal securities; and

(*6*) [(5)] maintenance of records pertaining to the activities described in paragraphs (1) through (5) [(4)] above;

provided, however, that the activities enumerated in paragraphs (*4*) *and* (5) [(3) and (4)] above shall be limited to such activities as they relate to the activities enumerated in paragraphs (1) *and* (2) above.

(c) No change.

(d) No change.

Rule G–3(a)(iii). *Municipal Securities Representative.*

The term "municipal securities representative" means a natural person associated with a municipal securities broker or municipal securities dealer, other than a municipal securities principal or a person whose functions are solely clerical or ministerial, whose activities include one or more of the following:

---

[1] Rule G–1 (formerly designated rule 4 as originally filed in File No. SR–MSRB–75–1, Securities Exchange Act Release No. 11741 (Oct. 15, 1975), 40 FR 49420 (1975) was redesignated as such in File No. SR–MSRB–75–3 (Securities Exchange Act Release No. 11838 (Nov. 17, 1975), 40 FR 54636 (1975)). Additional amendments to rule G–1(b) are being filed concurrently herewith in File No. SR–MSRB–76–6.

[2] These rules are not yet in effect. Rules G–2 through G–6 were filed with the Commission in File No. SR–MSRB–76–3 (Securities Exchange Act Release No. 12177 (Mar. 8, 1976), 41 FR 10686 (1976)) and are being amended concurrently herewith (Amendment No. 1 to Form 19b–4A, File No. SR–MSRB–76–3). Rule G–7 was filed with the Commission in File No. SR–MSRB–76–5 (Securities Exchange Act Release No. 12469 (May 20, 1976), 41 FR 22650 (1976)).

[3] Additions are in italics; deletions are bracketed.

(A) underwriting, trading or sales of municipal securities;

(B) *financial advisory or consultant services for issuers in connection with the issuance of municipal securities;*

(C) [(B)] research or investment advice with respect to municipal securities; or

(D) [(C)] any activities other than those specifically enumerated above which involve communication, directly or indirectly, with public investors in municipal securities;

provided, however, that the activities enumerated in subparagraphs (*a*)(iii)(C) [(a)(iii)(B)] and (*a*)(iii)(D) [(a)(iii)(C)] above shall be limited to such activities as they relate to the activities enumerated in subparagraphs (a)(iii)(A) *and* (*a*)(iii)(*B*) above.

STATEMENT OF BASIS AND PURPOSE OF PROPOSED RULE CHANGES

The basis and purpose of the proposed rule changes are as follow:

The proposed rule changes reflect the Board's determination that advisory services constitute an integral and important part of the municipal securities business and require a high degree of knowledge and competence in their performance. Persons performing advisory services for issuers frequently communicate with public customers, and their services often are used in connection with the marketing of new issues of municipal securities.

The purpose of the proposed rule change amending rule G–1 is to require banks that render advisory services and have a registered separately identifiable department or division to include within such department or division their activities relating to advisory services and to extend the Board's standards of professional qualification to the persons managing, directing or supervising such activities.

The purpose of the Board's proposed rule changes amending proposed rule G–3(a)(iii) is to extend the Board's standards of professional qualification to natural persons associated with a municipal securities broker or a municipal securities dealer who perform advisory services.

BASIS UNDER THE ACT FOR PROPOSED RULE CHANGES

The Board has adopted the proposed rule changes pursuant to sections 15B(b)(2)(A), 15B(b)(2)(C), and 15B(b)(2)(H) of the Securities Exchange Act of 1934, as amended (the "Act"). Section 15B(b)(2)(A) of the Act authorizes the Board to adopt rules prohibiting municipal securities brokers and municipal securities dealers from effecting transactions in municipal securities unless they and the natural persons associated with them meet "such standards of operational capability and . . . training, experience, competence, and such other qualifications as the Board finds necessary or appropriate in the public interest or for the protection of investors." Under section 15B(b)(2)(A) of the Act, the Board is authorized to classify municipal securities brokers, municipal securities dealers, and their respective associated persons for purposes of establishing standards of qualification. Section 15B(b)(2)(C) of the Act authorizes the Board to adopt rules designed "to protect investors and the public interest." Section 15B(b)(2)(H) of the Act authorizes the Board to define the term "separately identifiable department or division" of a bank for purposes of section 3(a)(30) of the Act.

COMMENTS RECEIVED FROM MEMBERS, PARTICIPANTS, OR OTHERS ON PROPOSED RULE CHANGES

The Board received letters of comment relating to the proposed rule changes amending rule G–1(b) and proposed rule G–3(a)(iii) from the following:

Continental Illinois National Bank and Trust Company of Chicago ("Continental Illinois")
National Association of Securities Dealers, Inc. ("NASD")
Securities Industry Association ("SIA")
Shearson Hayden Stone, Inc. ("Shearson")
Mr. Willard E. Vadman
Wells Fargo Bank ("Wells Fargo")

The Continental Illinois, SIA, and Shearson letters commented that the extension of the Board's standards of professional qualification to natural persons associated with a municipal securities broker or municipal securities dealer who perform advisory services ("related advisors") would result in a competitive disadvantage to the municipal securities brokers and municipal securities dealers with which such advisors are associated in comparison with other firms whose activities with respect to municipal securities relate only to providing advisory services to issuers and which therefore are not subject to regulation by the Board. The Continental Illinois letter also recommend a technical clarification of the language of the Board's proposal regarding rule G–3(a)(iii), which has been adopted in the proposed rule change as filed.

Although the SIA expressed concern regarding the inapplicability of the Board's standards of professional qualification to all persons performing advisory services for issuers of municipal securities, the SIA indicated its support for the intent of the proposed rule changes.

The Shearson letter commented that, if the Board's standards of professional qualification are to be extended to related advisors, the Board should establish a new category with separate standards of professional qualification for related advisors, rather than classifying such persons as municipal securities representatives. In addition, the Shearson letter recommended distinguishing clearly between related advisors and persons who perform financial advisory and consultant services for investors in municipal securities.

The NASD letter approved the approach taken by the Board in the proposed rule changes and commented that the proposed rule changes are "appropriate" and "in the public interest."

Mr. Vadman's letter questioned the appropriateness of extending the Board's standards of professional qualification at an early stage in the development of the regulatory structure for the municipal securities industry. Mr. Vadman commented concerning the continued viability of small municipal securities brokers and municipal securities dealers in light of increased regulatory requirements and the continuing availability of advisory services to small- and medium-size issuers served by such firms. He also raised questions relating to the administration of the Board's standards of professional qualification in this area and the regulation of advisory functions performed by engineers and attorneys.

The Wells Fargo letter raised questions concerning the inclusion within a separately identifiable department or division of a bank of advisory services and the activities that would be deemed for purposes of rule G–1 to constitute advisory services for issuers. The proposed rule change amending rule G–1 reflects this latter concern expressed by Wells Fargo and limits such services to those performed for issuers "in connection with the issuance of municipal securities."

Copies of all letters of comment received by the Board are on file at the offices of the Board and the Commission.

BURDEN ON COMPETITION

The Board recognizes that persons involved in rendering advisory services who are associated with a municipal securities broker or municipal securities dealer will be subject to regulation under the Board's rules, while persons involved in comparable activities who are associated with independent firms will not be, and that this may constitute a burden on competition. The Board is not authorized under the Act to adopt rules that would extend its standards of professional qualification to all persons who are involved in rendering advisory services without regard to their employment or business affiliation. The Board believes, however, that this potential anti-competitive effect will be minimal in light of the limited number of independent firms rendering advisory services for issuers (estimated to be approximately 20 firms) and the broad application of the term "associated person," as defined in the Act and used in the Board's proposed rules relating to standards of professional qualification, to include all persons associated with municipal securities brokers or municipal securities dealers, whether by direct employment or otherwise. (*See* Amendment No. 1 to File No. SR–MSRB–76–3.) Further, the Board believes that the proposed rule change could effect a competitive advantage favoring municipal securities brokers and municipal securities dealers whose associated persons involved in rendering advisory services qualify as municipal securities representatives or municipal securities principals under the Board's rules.

The Board concludes that any burden on competition is justified by the statutory purposes of the Board to adopt standards of professional qualification for municipal securities brokers and municipal securities dealers, as well as

V 41 152 AUG 5 76 UMI

their associated persons, and to protect investors in municipal securities and further the public interest.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule changes, or

(B) institute proceedings to determine whether the proposed rule changes should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted within 30 days of the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 34-12605; File No. SR-PHLX 76-14]

PHILADELPHIA STOCK EXCHANGE, INC.

Self-Regulatory Organizations

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on July 2, 1976, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The Philadelphia Stock Exchange, Inc., (PHLX) proposes a revision of its rule relating to the hours of trading on the Exchange. The text of the proposed amendment follows. Brackets indicate deletions, italics indicate new material.

Rule 101. Except as otherwise ordered by the Board of Governors, the Exchange shall be open for the entrance of members upon every business day at nine o'clock A.M. [At ten o'clock A.M. an official announcement shall be made that the Exchange is open for the transaction of business, and it shall so remain until three-thirty o'clock P.M. when it shall officially be announced to be closed.] The Exchange shall conform with daylight saving time when effective in the City of Philadelphia. *The Board of Governors shall determine by resolution the hours during which business may be transacted on the Exchange.*

STATEMENT OF BASIS AND PURPOSE

The amendment is made for purposes of administrative efficiency and to conform the rule to present practice. Upon due notice, the Board by resolution will be able to establish hours of trading on the equities and options floors.

The amendment is consistent with fair administration of the Exchange in furtherance of its purposes under the Exchange Act and its own rules.

No comments have been received from members on the proposed amendment.

No burden on competition will be imposed by the proposed rule change.

The foregoing rule change has become effective, pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted within 21 days of the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

JULY 7, 1976.

[Release No. 9364]

AETNA VARIABLE ANNUITY LIFE INSURANCE CO.

Application for Approval of Offers of Exchange for Order of Exemption

JULY 23, 1976.

In the Matter of Variable Annuity Account E of Aetna Variable Annuity Life Insurance Company and AEtna Variable Annuity Life Insurance Company, 151 Farmington Avenue, Hartford, Connecticut 06156 (812-3969).

Notice is hereby given that Variable Annuity Account E of AEtna Variable Annuity Life Insurance Company ("Account E") registered under the Investment Company Act of 1940 ("Act") as a unit investment trust, and AEtna Variable Annuity Life Insurance Company ("AEtna Variable"), an Arkansas stock life insurance company (sometimes hereinafter referred to as "Applicants") filed an application on June 16, 1976, and an amendment thereto on July 20, 1976, pursuant to Section 11 of the Act for approval of offers of exchange and pursuant to Section 6(c) of the Act for an order of exemption from Sections 27(a)(3), 26(a) and 27(c)(2). All interested persons are referred to the application and amendment on file with the Commission for a statement of the representations therein which are summarized below.

AEtna Variable is a wholly-owned subsidiary of AEtna Life and Casualty Company, a Connecticut corporation. Account E is a separate account of AEtna Variable established in 1975 pursuant to the insurance laws of Arkansas for the purpose of holding reserves attributable to certain variable annuity contracts. All amounts allocated to Account E will be invested, at the option of the contractowner, in shares of AEtna Variable Fund, Inc. ("Fund") and/or AEtna Variable Encore Fund, Inc. ("Encore Fund"), both open-end management investment companies registered under the Act.

AEtna Variable is registered as a broker-dealer under the Securities Exchange Act of 1934 and is principal underwriter for Account E. It is also registered as an investment adviser under the Investment Advisers Act of 1940 and, as such, acts as investment adviser to both the Fund and Encore Fund. Applicants anticipate that Account E will be taxed as a separate entity for federal income tax purposes and will qualify as a regulated investment company under the provisions of Subchapter M of the Internal Revenue Code of 1954, as amended ("Code").

Applicants have filed a registration statement under the Securities Act of 1933 for certain group variable annuity contracts designated "Group Variable Fund Retirement Contracts" hereinafter ("Contracts"). Such Contracts are designed for use with certain deferred compensation plans not eligible for the tax preferred treatment of Subchapter D, Part 1, of the Code, and are available only to governmental and certain other tax-exempt organizations. The Contracts are of two types—installment purchase payment Contracts ("Installment Payment Contracts") and Contracts issued for stipulated amounts of $5,000 or more consisting of all or part of the assets held by the contractowner pursuant to a previously established plan.

Installment Payment Contracts provide for (1) a deduction of 1% from each installment purchase payment made on behalf of a participant as the premium for an insurance rider where, at the

option of the contractowner, a pre-retirement minimum death benefit guarantee has been purchased with respect to an individual account, (2) a deduction for any applicable premium taxes where such taxes are assessed at the time the purchase payment is made, and (3) a deduction of 6% of the balance of such payment for sales and administrative expenses. Applicants presently anticipate that premium taxes will be deducted from individual accounts at the time annuity payments commence, however, AEtna Variable reserves the right to make a deduction from purchase payments should such taxes be assessed by the applicable jurisdiction at the time purchase payments are made. A daily deduction equivalant to 1.25% on an annual basis will be made from the value of the variable portion of each Contract for mortality and expense risks, and termination of an Installment Payment Contract will be subject to a termination fee of 2% where the contractowner elects to terminate the Contract before five years' purchase payments have been made and to a termination fee of .2% thereafter.

The owner of a Contract may elect to have the assets attributable to a participant's individual account invested in Fund shares or Encore Fund shares transferred to the other fund or transferred to the Company's general account for accumulation on a fixed basis without any charge in connection therewith. A transfer cannot be elected until after three months have elapsed since the date of the establishment of such individual account or the date of a prior transfer with respect to such account. Moreover, the amount to be transferred may not be less than $500, and if the amount requested for transfer would result in less than $500 invested in either fund, the Company may transfer the total amount invested in such fund. Amounts accumulating on a fixed basis may not be transferred to any other investment medium for the purpose of accumulation. Upon a participant's retirement, the contractowner may elect to have the accumulated value of an individual account, regardless of how accumulated, applied to provide a variable annuity with payments varying once each year, a fixed annuity, or a combination of both, provided that the first monthly payment to be made on each basis would be at least $20. Only Fund shares can be used as an investment medium for variable payments during the annuity payment period, and assets invested in shares of Encore Fund prior to the annuity commencement date will be invested in Fund shares unless the contractowner directs that such assets be transferred to the general account.

SECTION 11

Section 11(a) of the Act makes it unlawful for any registered open-end company or principal underwriter therefor to make an offer to the holder of a security of such company or of any other open-end investment company to exchange his security for a security in the same or another such company on any basis other than the relative net asset values of the respective securities to be exchanged, unless the terms of the offer have first been submitted to and approved by the Commission. Section 11(c) provides that, irrespective of the basis of exchange, the provisions of Section 11(a) shall be applicable to any type of offer of exchange of the securities of registered unit investment trusts for the securities of any other investment company.

Applicants request an order pursuant to Section 11 to permit with respect to a participant's individual account (1) the transfer of assets invested in Fund shares or Encore Fund shares to the other fund not more frequently than once in any three month period and (2) the transfer of assets to the Fund from Encore Fund in connection with the contractowner's election to have annuity payments made on a variable or fixed and variable basis. Applicants state that the transfer provisions are consistent with the policies of Section 11 (a) and (c). According to Applicants, the principal abuse at which Section 11(a) is directed will not be present since no charge will be assessed in connection with the transfers permitted under the Contracts, and there is no element of unfairness involved. Applicants state that the main reason for the transfer provisions is to allow a contractowner to modify the prior allocation of purchase payments on behalf of a participant between investment media in light of the participant's personal changing needs and evolving economic conditions, that the transfer provisions are designed to afford greater flexibility in the selection of investment media under the Contracts, and that such provisions will benefit contractowners and participants.

Applicants further, request an order pursuant to Section 11 to permit amounts accumulated under a Contract on behalf of a participant to be transferred to an individual annuity contract without any charge by the Company in connection therewith. The individual contract will be of the type being issued by the Company for this class of individual at the time of the transfer, and such contract will be deemed to have been outstanding for the lesser of the number of full years the participant has been in the plan or the Contract has been in force. According to Applicants, the right to transfer amounts to an individual contract is available only for a participant who is terminating his participation under an employer's plan and is normally utilized only in connection with an employee's change of employer. Applicants state that the transfer privilege is designed to permit an employee to have payments accumuated for his retirement under a single contract despite a change in employment. Applicants submit that since exercise of the transfer privilege is without charge, the requested order should be granted.

SECTION 27(a)(3)

Section 27(a)(3) of the Act provides that no registered investment company issuing periodic payment plan certificates and no depositor of or underwriter for such company may sell any such certificate if the amount of sales load deducted from any one of the first twelve monthly payments exceeds proportionately the amount deducted from any other subsequent payment. Rule 27a-2 provides an exemption from the prohibitions of Section 27(a)(3) for certain registered separate accounts and depositors of and underwriters for such accounts provided that the proportionate amount of sales load deducted from any payment under a variable annuity contract participating therein does not exceed the proportionate amount deducted from any prior payment thereunder.

As noted above, the Installment Payment Contracts provide for a 6% deduction from each purchase payment made on behalf of a participant for sales and administrative expenses which is assessed on the balance of the payment remaining after a 1% deduction for the minimum death benefit guarantee, where elected.

In addition, the net payment against which the 6% deduction is applied may be further reduced by deductions for applicable premium taxes where such taxes are assessed at the time purchase payments are made. Accordingly, the deduction from purchase payments for sales and administrative expenses may vary as a percentage of the total purchase payment depending upon the election or termination of the optional minimum death benefit guarantee or any change in applicable premium taxes or in the manner of assessing same. Such factors may cause the amount deducted from any purchase payment for sales and administrative expenses to exceed proportionately the amount deducted from a prior payment. Thus, a termination of the optional minimum death benefit guarantee or a decrease in the percentage deduction for applicable premium taxes where such taxes have been assessed at the time a purchase payment is made will cause the amount deducted for sales and administrative expenses, as a percentage of the total purchase payment, to exceed the amount deducted from the preceding payment.

Applicants state that the variation in the deductions for sales and administrative expenses as a percentage of total purchase payments results from assessing the 6% deduction against the payment net of other deductions. Applicants assert that the purpose of assessing such deduction against the net payment remaining after other deductions is to avoid assessing a charge against amounts deducted for other purposes. In addition, Applicants assert that assessing such percentage deduction against the net payment provides for lower total deductions than would result if such percentage deduction were assessed on the basis of the total purchase payment.

Applicants assert than an exemption would not conflict with the purposes of Section 27(a)(3) which was designed to prevent abuses in connection with complicated sales load schedules.

Accordingly, Applicants request an exemption from Section 27(a)(3) to permit the variations in the proportionate

V 41 152 AUG 5 76 UMI

amounts deducted for sales and administrative expenses as described hereinbefore.

SECTION 26(A) AND 27(C)(2)

Section 27(c)(2) prohibits a registered investment company or any depositor of and underwriter for such trust from selling periodic payment plan certificates unless the proceeds of all payments, other than amounts deducted for sales load, are deposited with a qualified bank as trustee or custodian and held under an indenture or agreement containing, in substance, the provisions required by Sections 26(a)(2) and 26(a)(3) of the Act for a unit investment trust.

Applicants assert that AEtna Variable is subject to extensive supervision and control by the Arkansas insurance regulatory authorities and that the supervision and inspection to which it is subject are applicable to Account E so as to afford protection to variable annuity contractowners and provide assurance of performance by AEtna Variable of its obigations to such owners. Applicants further assert that the assets of Account E attributable to variable annuity contracts are not chargeable with liabilities arising out of any other business AEtna Variable may conduct and that all obligations under the variable annuity contracts participating in Account E are general obligations of AEtna Variable which AEtna Variable may not abrogate. Applicants state that the Fund shares and Encore Fund shares issued to Account E will be held pursuant to an open account system and will not be represented by any transferable stock certificates which might require a trusteeship or custodianship for safekeeping purposes. Applicants assert that under the foregoing circumstances the dangers of abandonment of Account E's assets or default with respect to the obligations to security holders are remote. Applicants represent that the obligations undertaken by AEtna Variable, a regulated insurance company, to the holders of such variable annuity contractholders, provide substantially the protection contemplated by the requirements of Section 27(c)(2).

Accordingly, Applicants request exemption from Sections 26(a) and 27(c)(2) to permit the sale of variable annuity contracts funded by Account E without depositing the net payments thereunder with a qualified bank.

Applicants consent that the order granting exemption from Section 27(c)(2) may be subject to the conditions: (1) that the charges to variable annuity contract owners for administrative services shall not exceed such reasonable amounts as the Commission shall prescribe, jurisdiction being reserved for such purpose; and (2) that the payments of sums and charges out of the assets of Account E shall not be deemed to be exempted from regulation by the Commission by reason of the order, provided that Applicants' consent to this condition shall not be deemed to be a concession to the Commission of authority to regulate the payments of sums and charges out of such assets other than charges for administrative services, and Applicants reserve the right in any proceeding before the Commission or in any suit or action in any court to assert that the Commission has no authority to regulate the payments of such other sums or charges.

SECTION 6(C)

Section 6(c) of the Act provides, in pertinent part, that the Commission may, by order upon application, conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provision or provisions of the Act or of any rule or regulation under the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than August 17, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of service (by affidavit or in the case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following August 17, 1976, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponement thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 9368]

AMERICAN SPECIAL FUND, INC. AND GROWTH FUND OF AMERICA, INC.

Filing of Application for Order Exempting Proposed Transaction

JULY 27, 1976.

In the Matter of American Special Fund, Inc. and The Growth Fund of America, Inc., 611 West Sixth Street, Los Angeles, California 90017 (812-3984).

Notice is hereby given that American Special Fund, Inc. ("AMSPC"), and The Growth Fund of America, Inc. ("GFA") ("Applicant(s)"), both open-end, diversified, management investment companies registered under the Investment Company Act of 1940 ("Act"), have filed an application on July 9, 1976, and amendments thereto on July 16, 1976, and July 21, 1976, for an order pursuant to Section 17(b) of the Act exempting a proposed merger of AMSPC into GFA from the provisions of Section 17(a) of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

According to the application, AMSPC was incorporated in the State of Delaware on July 10, 1967, and, on June 30, 1976, had 4,695,845 shares outstanding and net assets of $28,906,402; GFA was incorporated in the State of Delaware on October 31, 1958, and, on June 30, 1976, had 3,154,651 shares outstanding and net assets of $15,508,040.

Applicants state that they have entered into an Agreement and Plan of Merger ("Agreement") pursuant to which AM SPC will be merged into GFA and the separate existence of AMSPC will cease, and that, on the effective date of the merger, all of the assets, liabilities, rights, privileges, powers, duties and obligations of AMSPC shall be transferred to GFA pursuant to the Agreement.

Applicants submit, in part, the following information regarding the terms of the Agreement. To become effective, the Agreement requires the affirmative vote of at least a majority of the outstanding shares of each of the Applicants; the merger is also contingent upon certain conditions precedent set forth in the Agreement, including (1) the receipt of either a ruling from the Internal Revenue Service, or opinions of the Applicants' respective legal counsel, to the effect that the merger will constitute a tax-free reorganization, and (2) the issuance of the order requested herein and any other orders of federal and state authorities as may be necessary. The Agreement is said to contain customary representations and warranties by each of the Applicants, the truth and correctness of which are also conditions precedent to the consummation of the merger. Applicants further submit that each Applicant shall distribute to its shareholders substantially all of its net taxable income for the fiscal year through the effective date of the merger.

Applicants state that a meeting of shareholders of AMSPC has been scheduled to take place on August 24, 1976; that GFA's shareholders approved the proposed merger on June 29, 1976; and that the effective date of the transaction is stated in the Agreement as August 31, 1976, but that, however, the effective date can be any other date that is agreed to in writing by the Applicants.

The application states that, if the merger is consummated, the outstanding shares of AMSPC held of record by each shareholder of AMSPC will be converted into that number of full and/or fractional shares of GFA which when multiplied by the net asset value per share of such shares of GFA shall have an aggregate net asset value equal to the aggregate net asset value of such shareholder's former interest in AMSPC, and that the net asset value of the shares of common stock of GFA and AMSPC at the effective time of the merger shall be the net asset values of each Fund determined in the manner described in their current prospectuses as of the close of the New York Stock Exchange on the day of the effective time of the merger or, if the Exchange is not open on that date, on the last preceding day on which the Exchange is open.

The respective tax positions of the Applicants are set forth in the application as follows. As of June 30, 1976, AMSPC had total net assets of approximately $28,906,402, and a total capital loss carry-over of approximately $31,000,000 of which $9,000,000, $14,000,000, $4,000,000 and $4,000,000 may be used to offset capital gains realized during the five year periods ending August 31, 1976, 1978, 1979, and 1980, respectively. As of June 30, 1976, GFA had total net assets of $15,508,040, and a total capital loss carry-over of approximately $16,700,000 of which $900,000, $9,200,000, $4,100,000 and $2,500,000 may be used to offset capital gains realized during the five year periods ending October 31, 1977, 1978, 1979 and 1980, respectively. On June 30, 1976, AMSPC had net unrealized gains of $1,836,599 and net realized losses of $642,477, and GFA had net unrealized gains of $2,609,498 and realized gains of $547,350.

The Applicants have agreed that no adjustment need be made in the computation of their respective net asset values to reflect any potential income tax impact on their shareholders which might result from differences in proportionate amounts of realized and unrealized capital gains or losses in their respective portfolios. Applicants assert that the actual impact of capital loss carryovers and current net unrealized gains or losses is not readily determinable and largely would be a matter of speculation, and that any such impact would depend on many different factors, including each individual shareholder's personal tax status.

Applicants submit that the primary investment objective of each of them is growth of capital; that each of them normally invests in equity securities with a major portion of their investments in common stocks; and that their investment restrictions are substantially similar in content. Applicants state, however, that GFA, whose fundamental investment restrictions will be those of the surviving company, may not purchase any securities the resale of which is subject to restrictions, or for which there is no readily available market, while AMSPC is permitted to invest up to 10% of its assets in such securities. Applicants further state that AMSPC does not presently hold any such securities.

Applicants state that the portfolio of AMSPC will continually be reviewed to ascertain that all securities held by AM SPC are compatible with GFA's investment objective, and that, should any security held by AMSPC be deemed to be incompatible with that objective, it will be sold prior to the merger.

Capital Research and Management Company ("CRMC"), the investment adviser of each of the Applicants, owns approximately 13,363 shares of GFA. CRMC, a subsidiary of The Capital Group, Inc., agreed to enter into a new investment advisory and service agreement with GFA, which agreement became effective on July 1, 1976. That new agreement was entered into at a time when there was contemplation of the possibility that GFA, and others of the investment companies served by CRMC as investment adviser, might become parties to merger proposals.

Section 17(a) of the Act, in part, provides that it shall be unlawful for any affiliated person of a registered investment company, or an affiliated person of such a person, acting as principal, knowingly to sell or purchase from such registered investment company any security or other property, except securities of which such investment company is the issuer. Since CRMC acts as an investment adviser to each of the Applicants, they might be deemed to be under common control and, therefore, affiliated persons of each other, for purposes of Section 17(a).

The Applicants contend that they are not affiliated persons of each other, or affiliated persons of affiliated persons of each other, as defined by the Act. They state that they have only one common director; that the majority of the members of their respective Boards of Directors are not "interested persons" as defined in the Act; that they have no common officers with the exception of one individual; and that neither of them owns any of the outstanding shares of the other.

The Applicants are also of the opinion that they are not affiliated persons of each other by reason of having a common investment adviser. The Applicants state that they have filed this application to avoid any questions being raised under Section 17(a) of the Act with respect to the merger described herein.

Section 17(b) of the Act provides, in part, that the Commission, upon application, shall exempt a proposed transaction from the provisions of Section 17(a) if evidence establishes that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned, and that the proposed transaction is consistent with the policy of each registered investment company concerned and with the general purposes of the Act.

Applicants submit that the terms of the proposed transaction are fair and reasonable and do not involve overreaching on the part of any person concerned, in that shares of GFA will be issued for the shares of AMSPC on the basis of their respective net asset values. Applicants further submit that the transaction is consistent with the policies of each of them. Applicants are of the opinion that their shareholders will benefit from the spreading over their combined assets of certain relatively fixed expenses, such as certain (currently duplicated) expenses relating to: (i) auditing, accounting, and legal services; (ii) the qualification of shares for sale in the various jurisdictions where shares are sold; (iii) preparation and printing of shareholder reports, prospectuses and proxy materials; and (iv) possible further savings in custodian fees and other expenses. It is estimated by the Applicants that their combined expenses in the twelve months ending April 30, 1976, assuming that GFA's current investment advisory and service agreement had been in effect throughout the period, would have been reduced by more than $55,000 if the Applicants had been combined during that period. Applicants further assert that the increased size of the combined fund also would provide it with certain other strengths and flexibilities, including somewhat greater investment flexibility with respect to portfolio transactions. It is also expected by Applicants that the combined fund will benefit from the resulting concentration of marketing effort.

It is proposed that each Applicant will bear its own expenses in connection with this merger. Such expenses are estimated by Applicants to be $68,000 in the aggregate, of which AMSPC will bear $40,000 and the remainder of approximately $28,000 will be borne by GFA.

Notice is further given that any interested person may, not later than August 20, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon the Applicants, c/o Thomas E. Terry, Esq., at the address above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificates) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

ARTHUR ANDERSEN & CO.

Request for Partial Response and Solicitation of Comments on Certain Questions

On June 15, 1976, the public accounting firm of Arthur Anderson & Co. ("Andersen") filed a "petition" with the Commission requesting, essentially, that we consider whether to:

(1) revoke Instruction H(f) of Form 10–Q (17 CFR 249.308a) which requires that independent accountants express their judgment regarding the preferability of an accounting principle adopted when accounting principles are changed at the discretion of a registrant.

(2) Withdraw the statement of policy embodied in Accounting Series Release No. 150 (39 FR 1260) in which the Commission stated that it would consider accounting principles, standards and practices promulgated by the Financial Accounting Standards Board (FASB) as contrary to such FASB promulgations as having no such support.[1]

(3) define the current meaning of the term "substantial authoritative support."

Preferability

Instruction H(f) to Form 10–Q was adopted by the Commission in Accounting Series Release No. 177 on September 10, 1975 (40 FR 55837). It was originally proposed for comment in essentially the same form on December 19, 1974[2] and comments were received on it and carefully considered by the Commission. In addition, the issues regarding this instruction were presented at public hearings held in 1975 on the Commission's interim reporting proposals.

Subsequent to adoption of Instruction H(f), the Auditing Standards Executive Committee of the AICPA (AudSEC) requested that the Commission reconsider the instruction and, in response, the Commission held a public meeting with the Committee on April 23, 1976 at which the issues were discussed and at which time several submissions were received. On April 30, 1976, the Commission advised AudSEC that, after further consideration, it saw no reason to change its conclusion.

The substantive issues involving Instruction H(f) therefore have been thoroughly aired and the reasons for the Commission's conclusions have been fully set forth. In the absence of any showing by Andersen that it has presented any new substantive reasons for reconsideration of our action, the Commission has no basis before it warranting further reconsideration of the matter.

Establishment of accounting principles

The second and third actions requested by Andersen raise fundamental issues of importance upon which the Commission has concluded it wishes to have the benefit of public comment before determining what action, if any, it may be appropriate to take. In addition, the Commission expects to hold a public meeting on the issues with invited representatives of persons with significant interests in financial reporting.

A cornerstone of the disclosure process envisioned by the securities laws is the financial information included in audited financial statements. Since 1933, when Congress determined to rely on independent accountants to provide assurance of reliability in financial statements, the Commission has relied upon the judgments of the accounting profession both in individual factual circumstances and in the establishment of principles of general acceptance. In 1938, the Commission stated its administrative policy with respect to financial statements in Accounting Series Release No. 4 (11 FR 10913):

"In cases where financial statements filed with this Commission pursuant to its rules and regulations under the Securities Act of 1933 or the Securities Exchange Act of 1934 are prepared in accordance with accounting principles for which there is no substantial authoritative support, such financial statements will be presumed to be misleading or inaccurate despite disclosures contained in the certificate of the accountant or in footnotes to the statements provided the matters involved are material. In cases where there is a difference of opinion between the Commission and the registrant as to the proper principles of accounting to be followed, disclosure will be accepted in lieu of correction of the financial statements themselves only if the points involved are such that there is substantial authoritative support for the practices followed by the registrant and the position of the Commission has not previously been expressed in rules, regulations or other official releases of the Commission, including the published opinions of its Chief Accountant."

In 1973, various private sector groups concerned with financial reporting established the Financial Accounting Standards Board and this body was designated by the accounting profession as the entity having the responsibility for considering and promulgating accounting standards and interpretations. Following this action, the Commission issued a Statement of Policy (ASR 150) reflecting its recognition of the FASB's role in the setting of accounting principles, standards and practices. ASR 150 reflected an explicit statement of the Commission's administrative practice in carrying out its responsibilities under the securities laws. Historically, the Commission has accepted as having substantial authoritative support those practices which have been identified by the accounting profession as standards to be followed by members of the profession. With the creation of the FASB, the Commission believed that it should publicly indicate that it viewed the standards, practices and interpretations issued by the FASB as constituting those practices having substantial authoritative support.

Andersen requests that the Commission withdraw these policies which have governed the manner by which it has determined whether financial statements meet the requirements of the Securities Acts. Before responding to Andersen's request, the Commission hereby solicits public comment on the following basic issues raised:

1. Should the Commission continue its policy of recognizing the pronouncements of the Financial Accounting Standards Board as providing a frame of reference for publicly held companies to satisfy their statutory disclosure obligations?

2. Should the Commission further define the phrase "substantial authoritative support"?

3. Should the Commission further define the phrase "accounting principles and practices" used in Rule 2–02(c) of Regulation S–X (17 CFR 210.2–02(c))?

Comments in triplicate should be addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 and should be referenced to File S7–647. Comments should be received by September 15, 1976. All comments will be available for public inspection.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

JULY 27, 1976.

[Rel. No. 19628]

APPALACHIAN POWER CO.

Proposed Issue and Sale of First Mortgage Bonds at Competitive Bidding

JULY 27, 1976.

In the Matter of Appalachian Power Company, 40 Franklin Road, Roanoke, Virginia 24009 (70–5877).

Notice is hereby given that Appalachian Power Company ("Appalachian"), an electric utility subsidiary company of American Electric Power Company, Inc., ("AEP"), a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Appalachian proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, up to $70,000,000 principal amount of First Mortgage Bonds (the "new bonds"), to mature in not less than 5 years and not more than 30 years. The interest rate (which will be a multiple of ⅛ of 1%) and the price (which will be not less than 100%, unless Appalachian shall authorize a lower percentage not less than 99%, and shall not exceed 102.75% of the principal amount of the bonds thereof) will be determined by competitive bidding. The terms of the bonds preclude Appalachian from redeeming any such bonds prior to September 1, 1981, if such redemption is for the purapose of refunding such bonds with proceeds of funds borrowed at a lower effective interest cost. The bonds will be issued under and secured by the Mortgage and Deed of Trust, dated as of December 1, 1940, to Bankers Trust Company, and a new Supplemental Indenture thereto which will be dated as of the first day of the month in which the Bonds are to be issued. Appalachian shall notify prospective bidders no later than 72 hours prior to the time designated for the submission of bids the maturity date of the bonds.

The proceeds of the offering will be used to pay at maturity $70,000,000 principal amount of 8⅝% Series Bonds, due October 1, 1976.

The fees and expenses to be incurred in connection with the proposed issue and sale of the new bonds and the fees and expenses of counsel for the underwriters, to be paid by the successful bidders, will be supplied by amendment. It is stated that the State Corporation Commission of Virginia and the Tennessee Public Service Commission have jurisdiction over the proposed transaction and that no other state commisison and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than August 23, 1976, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76–22671 Filed 8–4–76;8:45 am]

[Release No. 12648; SR–CBOE–76–11]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Filing and Order Approving Proposed Rule Change

JULY 21, 1976.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) (the "Act"), as amended by Pub. L. No. 94–29, § 16 (June 4, 1975) notice is hereby given that on June 24, 1976, the Chicago Board Options Exchange, Inc. ("CBOE") filed with the Commission copies of a proposed rule change. The proposed rule change sets forth the Exchange's stated policy pursuant to CBOE Rule 5.3 that at the time its Securities Committee selects an underlying security for options transactions, the trading volume in such security on the principal securities exchange on which the underlying security is listed must have been at least 1,000,000 shares per year in each of the two previous calendar years; provided, however, that if an underlying security selected by the Securities Committee has not been trading on a securities exchange during the two previous calendar years, then the trading volume in that security in the over-the-counter market shall have been at least 1,000,000 shares per year in each of the two previous calendar years.

Interested persons are invited to submit written data, views and arguments concerning the proposed rule change. Persons desiring to make written submissions should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to File No. SR–CBOE–76–11.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of Section 6 and the rules and regulations thereunder.

Further, the Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof because (i) for purposes of approval of underlying securities for exchange listed options, the current distinction between those listed securities with the requisite trading volume history on a national securities exchange and those with their pertinent volume history in the over-the-counter market appears at present to be unwarranted; (ii) the CBOE states that this rule change will clarify the application of the requirements of its Rule 5.3 that underlying securities have been actively traded prior to the time of their selection in the situation where the underlying security was traded other than on an exchange during all or part of the period prior to its selection.

The Commission, through inadvertence, not having entered an order approving the proposed rule change as of the date of its determination to approve such change:

It is therefore ordered, nunc pro tunc, pursuant to Section 19(b)(2) of the Act, that the proposed rule change referenced above be, and it hereby is, approved as of July 1, 1976.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 9373; 811-1411]

FFV ACCUMULATION PLAN

Filing of Application for Order Declaring Applicant Has Ceased To Be Investment Company

JULY 28, 1976.

Notice is hereby given that FFV Accumulation Plan ("Applicant") One Wall Street, New York, New York 10005, registered under the Investment Company Act of 1940 ("Act") as a unit investment trust, filed an application on June 14, 1976, for an order of the Commission, pursuant to Section 8(f) of the Act, declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

Applicant was organized for the purpose of permitting the purchase of shares of First Fund of Virginia, Inc. ("FFV"), a diversified, open-end management company registered under the Act, through periodic payments over a ten year period. Applicant filed a notification of registration pursuant to Section 8(a) of the Act on July 25, 1966.

The application states that on October 17, 1974, the board of directors of First Virginia Management and Research Corporation, Applicant's sponsor and depositor, made a decision to terminate all further sales of Applicant's periodic payment plans ("Plans"), effective December 31, 1974. The application further states that on May 17, 1976 at a special meeting of shareholders the shareholders of FFV approved an Agreement and Plan of Reorganization ("Agreement"), pursuant to which on May 25, 1976, substantially all of FFV's assets were acquired by New York Venture Fund, Inc. ("Venture"), in exchange for shares of Venture, which shares were thereupon distributed to the stockholders of FFV as a liquidating dividend. Applicant represents that, as a result of this Agreement, all former holders of Applicant's Plans are now shareholders of record of Venture.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, which may be made upon appropriate conditions if necessary for the protection of investors, and upon taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than August 23, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided in Rule O-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 9374; 811-1412]

FIRST FUND OF VIRGINIA, INC.

Filing of Application for Order Declaring That Applicant Has Ceased To Be Investment Company

JULY 28, 1976.

Notice is is hereby given that First Fund of Virginia, Inc. ("Applicant") (910 Capitol Street, Richmond, Virginia 23219) registered under the Investment Company Act of 1940 ("Act") as a diversified, open-end management company, filed an application on June 7, 1976, for an order of the Commission, pursuant to Section 8(f) of the Act, declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representation contained therein which are summarized below.

Applicant was organized as a corporation under the laws of Virginia on July 19, 1966, and filed a notification of registration pursuant to Section 8(a) of the Act on July 25, 1966.

The application states that on May 17, 1976, at a special meeting of shareholders the Applicant's shareholders approved an Agreement and Plan of Reorganization ("Plan"), pursuant to which, on May 25, 1976, Applicant transferred substantially all of its assets to New York Venture Fund, Inc. ("Venture"), in exchange for shares of Venture, which shares were thereupon distributed to the stockholders of Applicant as a liquidating dividend.

Applicant represents that it is being dissolved as a Virginia corporation. Applicant represents that it has no assets other than $1,000 in cash retained for payment of wind-up liabilities and expenses. Any retained cash not required to be expended to pay such liabilities and expenses will be remitted to Venture, pursuant to the Plan.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, which may be made upon appropriate conditions if necessary for the protection of investors, and upon taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than August 23, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided in Rule O-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 9372; 811-1060]

INVESTORS INCOME FUND, INC.

Filing of Application for Order Declaring Applicant Has Ceased To Be Investment Company

JULY 28, 1976.

Notice is hereby given that Investors Income Fund, Inc. ("Applicant"), 910 Capitol Street, Richmond, Virginia 23219) registered under the Investment Company Act of 1940 ("Act") as a diversified, open-end management company, filed an application on June 7, 1976, for an order of the Commission, pursuant to Section 8(f) of the Act, declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

Applicant was organized under the laws of Delaware on February 15, 1961, and filed a notification of registration pursuant to Section 8(a) of the Act on or before May 19, 1961.

The application states that on May 17, 1976, at a special meeting of shareholders the Applicant's shareholders approved an Agreement and Plan of Reorganization ("Plan"), pursuant to which, on May 25, 1976, Applicant transferred substantially all of its assets to Monthly Income Shares, Inc. ("MIS") in exchange for shares of MIS, which shares were thereupon distributed to the stockholders of Applicant as a liquidating dividend.

Applicant represents that it is being dissolved as a Delaware corporation. Applicant represents that it has no assets other than $1,000 in cash retained for payment of wind-up liabilities and expenses. Any retained cash not required to be expended to pay such liabilities and expenses will be remitted to MIS, pursuant to the Plan.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, which may be made upon appropriate conditions if necessary for the protection of investors, and upon taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than August 23, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided in Rule O-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 9381; 811-1506]

THE MEDICI FUND, INC.

Filing of Application for Order Declaring That Company Has Ceased To Be Investment Company

JULY 29, 1976.

Notice is hereby given that on May 7, 1976, The Medici Fund, Inc. ("Applicant"), c/o John L. Goldstone, Esq., Cardozo, Goldstone & Cardozo, 488 Madison Avenue, New York, New York 10022, registered under the Investment Company Act of 1940 (the "Act"), as an open-end, non-diversified management investment company, filed an application pursuant to Section 8(f) of the Act for an order of the Commission declaring that it has ceased to be an investment company as defined by the Act. All interested persons are referred to the Application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant was incorporated under the laws of the State of Delaware on December 5, 1966, and registered under the Act on June 9, 1967.

As of December 31, 1975, Applicant had 57,403 shares registered and outstanding, representing net assets of $227,281.71.

Applicant states that at a special meeting of its shareholders held on December 22, 1975, approval was given to a certain Agreement and Plan ("Agreement") that had previously been approved by the Applicant's Board of Directors. The Agreement, entered into with The Clarence M. Whipple Fund ("Whipple"), an open-end, diversified management investment company registered under the Act, provided for the sale to Whipple of substantially all the assets of Applicant in exchange for shares of Whipple, with such shares of Whipple to be distributed to shareholders of Applicant.

On December 31, 1975, substantially all of the assets of the Applicant were transferred to Whipple in consideration of 15,827,417 shares of Whipple which were thereupon transferred to shareholders of the Applicant in proportion to their respective holdings of Applicant's capital stock. Applicant asserts that it has paid or reserved for all its liabilities and distributed all its net assets, and that it has ceased to function as an investment company and has filed a Certificate of Dissolution in the Office of the Secretary of State of Delaware on April 1, 1976.

Section 8(f) of the Act provides, in part, that whenever the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and, upon the taking effect of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than August 24, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon the Applicant at the address stated above. Proof of such service (by affidavit or, in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule O-5 of the Rules and Regulations promulgated under the Act, an order disposing of the matter will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76-22730 Filed 8-4-76;8:45 am]

[Release No. 12690; File Nos. SR-MSTC-76-5; SR-MSTC-76-6]

MIDWEST SECURITIES TRUST CO.

Order Approving Rule Changes Submitted Regarding Participants' Fund

JULY 29, 1976.

On April 19, 1976, Midwest Securities Trust Company (120 South LaSalle Street, Chicago, Illinois 60603) submitted, pursuant to Rule 19b-4 under the Securities Exchange Act of 1934 (the "Act"), proposed rule changes amending MSTC Rule 8.

SR-MSTC-76-6 proposes an amendment to Section 6 of Rule 8 to require that not less than ten percent of each member's contribution to the MSTC Participants' Fund be in cash. The proposal also would allow the balance of the contribution to be in unmatured negotiable debt securities of, or obligations guaranteed by, the United States government with a maturity of one year or less and would require such securities to be deposited by the participant with a bank or trust company approved by MSTC.

SR-MSTC-76-5 proposes an amendment to Section 7 of Rule 8 regarding investment by MSTC of the Participants' Fund. The proposed amendment would delete the right of MSTC to deposit securities pledged by the Participants with regulatory authorities to the extent that such deposits may be required by law. This deletion would conform Section 7 to the proposed amendment to Section 6 of Rule 8 which requires that the securities be deposited by Participants with a bank or trust company approved by MSTC.

In accordance with Section 19(b) of the Act and Rule 19b-4 thereunder, the rule changes were published in the FEDERAL REGISTER (41 Fed. Reg. 20031, May 14, 1976), and the public was invited to submit comments until June 4, 1976. Notice of the filings and an invitation for comments also appeared in Securities Exchange Act Release No. 12413, May 6, 1976. No letters of comment were received.

The Commission has reviewed the MSTC submissions and finds that the proposed rule changes are consistent with the requirements of the Act and the

V 41 152 AUG 5 76 UMI

rules and regulations thereunder applicable to registered clearing agencies.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule changes contained in File Nos. SR–MSTC–76–5 and SR–MSTC–76–6 be, and hereby are, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76–22731 Filed 8–4–76;8:45 am]

[Release No. 12671; File No. SR–MCC–76–2]

MIDWEST CLEARING CORP.

Order Approving Rule Change Submitted Regarding Participants' Fund

JULY 29, 1976.

On April 19, 1976, the Midwest Clearing Corporation ("MCC"), 120 South LaSalle Street, Chicago, Illinois 60603, submitted, pursuant to Rule 19b–4 under the Securities Exchange Act of 1934 (the "Act"), a proposed rule change amending Section 6 of MCC Rule 14 to require that not less than ten percent of each member's contribution to the MCC Participants' Fund be in cash. The proposal also would allow the balance of the contribution to be in unmatured negotiable debt securities of, or obligations guaranteed by, the United States government with a maturity of one year or less and would require such securities to be deposited by the participant with a bank or trust company approved by MCC.

In accordance with Section 19(b) of the Act and Rule 19b–4 thereunder, the rule changes were published in the FEDERAL REGISTER (41 Fed. Reg. 20234, May 17, 1976) and the public was invited to submit comments until June 7, 1976. Notice of the filing and an invitation for comments also appeared in Securities Exchange Act Release No. 12422, May 10, 1976. No letters of comment were received.

The Commission has reviewed the MCC submission and finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to registered clearing agencies.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change contained in File No. SR–MCC–76–2 be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76–22732 Filed 8–4–76;8:45 am]

[Release No. 12652; File No. SR–NASD–75–7]

NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC.

Order Approving Proposed Rule Change

JULY 23, 1976.

In the Matter of National Association of Securities Dealers, Inc., 1735 K Street, NW., Washington, D.C. 20006.

On December 3, 1975, the National Association of Securities Dealers, Inc. ("NASD") filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act"), as amended by the Securities Acts Amendments of 1975, and Rule 19b–4 thereunder, copies of a proposed rule change. The proposed rule change involves an interpretation and explanation by the Board of Governors of Article III, Sections 1, 27 and 28 of the Association's Rules of Fair Practice concerning private securities transactions by associated persons of member firms and members' responsibility to supervise such transactions.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 11897, December 3, 1975) and by publication in the FEDERAL REGISTER (40 Fed. Reg. 57735, December 11, 1975).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the NASD, and in particular, the requirements of Section 15A and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change filed with the Commission on December 3, 1975, be, and it hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76–22672 Filed 8–4–76;8:45 am]

[Rel. No. 9379; 812–3838]

VOYAGER LIFE INSURANCE CO. AND VOYAGER VARIABLE ANNUITY FUND

Application for Order of Exemption

JULY 29, 1976.

Notice is hereby given that Voyager Life Insurance Company ("Voyager") 2255 Phyllis Street, Jacksonville, Florida 32203, a stock life insurance company organized under the laws of Florida, and Voyager Variable Annuity Fund ("Fund"), a separate account of Voyager registered under the Investment Company Act of 1940 ("Act") as an open-end diversified management investment company, (collectively referred to as "Applicants") filed an application on November 17, 1975, and amendments thereto on December 10, 1975, June 16, 1976, and July 13, 1976, pursuant to Section 6(c) of the Act for an order of exemption from Section 27(a)(3) of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

The Fund was established for the purpose of funding benefits payable under certain individual and group variable annuity contracts sold by Voyager. In conjunction with Voyager, the Fund wishes to permit, under certain circumstances, the purchase of variable annuity contracts without sales and administrative charges assessed against initial payments and, therefore, at a sales load which varies from the sales load described in the prospectus, in order to reflect differences in costs or services. Applicants maintain that such provisions would not be unfairly discriminatory against any person, as provided for by Rule 22d–3 under the Act. As proposed, purchase payments would be subject to no load if they are made with funds constituting (i) surrender values or death benefits under a life insurance policy issued by Voyager; (ii) proceeds payable on the death of a contractholder under fixed or variable annuity contracts offered by Voyager and/or the Fund, either before or after annuity payments have begun; and (iii) previously accumulated funds held under pre-existing pension, profit-sharing or annuity plans transferred to Voyager to be used to purchase variable annuity contracts in order to fund retirement benefits under similar programs.

Section 27(a)(3) of the Act provides that no registered investment company issuing periodic payment plan certificates and no depositor of or underwriter for such company, may sell any such certificates if the amount of sales load deducted from any one of the first twelve monthly payments exceeds proportionately the amount deducted from any other such payment, or if the amount deducted from any subsequent payment exceeds proportionately the amount deducted from any other subsequent payment.

Applicants assert that when proceeds or accumulated funds are used or transferred for the purchase of a periodic payment plan certificate or contract, and no sales and administrative charges are deducted from the transfer payment, Section 27(a)(3) might be viewed as prohibiting deducting from subsequent accumulation payments of the usual sales and administrative charges described in the applicable prospectus.

Applicants represent that Section 27(a)(3) was designed to lessen losses which might be incurred upon early termination of periodic payment plan certificates involving front-end load arrangements. The proposed waiver of sales and administrative charges from the transfer payment does not involve a front-end load arrangement and the subsequent imposition on regular monthly payments of the usual charges described in the prospectus cannot lead to the abuses intended to be prevented by the enactment of Section 27(a)(3).

Applicants therefore request an exemption from Section 27(a)(3), which exemption would be applicable to contracts sold as described above pursuant to the provisions of Rule 22d–3, to permit the deduction of usual sales and administrative charges, as described in the applicable prospectus, from period monthly payments on annuity contracts offered by Applicants for which no sales load was charged on a transfer payment.

Applicants have consented to the requested exemption being made subject to the condition that Voyager will follow established procedures to minimize and prevent the inappropriate replacement of annuity contracts issued by other companies. Included in each application for

an annuity contract is a statement to be signed by the potential purchaser as to whether the proposed annuity will replace an existing policy or contract, and a similar statement is required to be submitted by the agent. If replacement is proposed, a written disclosure statement containing all material information, including, but not limited to, a comparison of the existing and proposed contract provisions and charges is furnished the potential purchaser. Voyager also will notify the company which issued the existing contract that the potential purchaser proposes to make a transfer of funds from that company.

Section 6(c) of the Act provides, in part, that the Commission may, by order upon application, conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions from any provision or provisions of the Act or of any rule or regulation under the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than August 24, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidavit, or in the case of an attorney of law by certificate) shall be filed contemporaneously with the request. As provided by Rule O–5 of the Rules and Regulation promulgated under the Act, an order disposing of the application will be issued as of course following August 24, 1976 unless the Commission orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

SMALL BUSINESS ADMINISTRATION

[License No. 05/05–0112]

INTERCAPCO, INC.

Application for a License

Notice is hereby given of the filing of an application with the Small Business Administration (SBA) pursuant to Section 107.102 of the SBA Regulations (13 CFR 107.102 (1976)) by Intercapco, Inc., Investment Plaza, Cleveland, Ohio 44114 for a license to operate as a small business investment company (SBIC) under the provisions of the Small Business Investment Act of 1958 (the Act), as amended (15 U.S.C 661 et seq.).

The proposed officers, directors and shareholders are:

Name	Title	Percent of ownership
Glenn Goldenberg, Investment Plaza, Cleveland, Ohio 44114.	Chairman of the board of directors.	4.75
Ronald E. Weinberg, Investment Plaza, Cleveland, Ohio 44114.	President and director.	4.75
Jeffrey A. Cole, Investment Plaza, Cleveland, Ohio 44114.	Secretary and director.	2.75
Wendell W. Robinson, Investment Plaza, Cleveland, Ohio 44114.	Director	[1] 2.75
Alejandro Branger, Paseo Las Mercedes, Piso 3—Ruta, 53, Caracas 106, Venezuela.	do	
Joseph, Miller & Russell, Inc., Investment Plaza, Cleveland, Ohio 44114.		[1] 20.0

[1] Class B common stock.

Joseph, Miller & Russell, Inc., is engaged in general stock brokerage and in investment banking.

The applicant will begin operations with a capitalization of between $500,000 and $1,500,000 depending on the success of the private sale of Class A common stock, and will be a source of equity capital and long term loan funds for qualified small business concerns.

Matters involved in SBA's consideration of the application include the general business reputation and character of the proposed owners and management, and the probability of successful operations of the new company under their management, including adequate profitability and financial soundness, in accordance with the Act and Regulations.

Notice is further given that any person may, not later than 15 days from the date of publication of this Notice, submit written comments on the proposed SBIC to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 "L" Street, N.W., Washington, D.C. 20416.

A copy of this Notice will be published in a newspaper of general circulation in Cleveland, Ohio.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: July 28, 1976.

DANIEL SCHLESINGER,
Acting Deputy Associate Administrator for Investment.

[Section 5b Application No. 7]

ASSOCIATION OF AMERICAN RAILROADS

Railroads Per Diem, Mileage, Demurrage and Storage; Agreement

JULY 27, 1976.

The Commission is in receipt of the above-entitled and numbered application for approval of an agreement under the provisions of Section 5b of the Interstate Commerce Act.

Filed June 25, 1976, by:

Stephen Alles, Attorney-in-Fact, Association of American Railroads, American Railroads Building, Washington, D.C. 20036.

James I. Collier, Jr., General Attorney, Association of American Railroads, American Railroads Building, Washington, D.C. 20036.

Agreement involves: Organization and procedures between and among rail common carriers under section 5b of the Interstate Commerce Act, relating to the joint consideration, initiation, or establishment and modification of: (1) the rates of compensation payable for the use of foreign line and other non-shipper furnished freight cars and other transportation equipment; (2) the rates of compensation payable for the use of freight cars and other transportation equipment furnished by shippers; (3) demurrage and storage charges payable by shippers for use of freight cars or other transportation equipment and facilities; and (4) rules and regulations pertaining to such rates and charges.

The complete application may be inspected at the Office of the Commission in Washington, D.C.

Any interested person desiring to protest and participate in this proceeding shall notify the Commission in writing on or before September 7, 1976. As provided by the general rules of practice of the Commission, persons other than applicants should fully disclose their interest and the position they intend to take with respect to the application. Otherwise, the Commission, in its discretion may proceed to investigate and determine the matters involved in such application, without further or formal hearing.

ROBERT L. OSWALD,
Secretary.

[Section 5b Application No. 8]

ASSOCIATION OF AMERICAN RAILROADS

Railroads Per Diem and Mileage Rates for Trailers and Containers; Agreement

JULY 27, 1976.

The Commission is in receipt of the above-entitled and numbered application for approval of an agreement under the provisions of Section 5b of the Interstate Commerce Act.

Filed June 25, 1976, by:

Stephen Alles, Attorney-in-Fact, Association of American Railroads, American Railroads Building, Washington, D.C. 20036.

James I. Collier, Jr., General Attorney, Association of American Railroads, American Railroads Building, Washington, D.C. 20036.

Agreement involves: Organization and procedures under the provisions of section 5b of the Interstate Commerce Act for approval of an agreement between and among rail common carrier members of the Association of American Railroads for the joint consideration, initiation, and establishment of per diem or mileage rates of compensation between the members for the use of trailers and containers, in trailer-on-freight-car service in interstate or foreign commerce between points in the United States, and rules and regulations pertaining thereto.

The complete application may be inspected at the Office of the Commission in Washington, D.C.

Any interested person desiring to protest and participate in this proceeding shall notify the Commission in writing on or before September 7, 1976. As provided by the general rules of practice of the Commission, persons other than applicants should fully disclose their interest and the position they intend to take with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application, without further or formal hearing.

ROBERT L. OSWALD,
Secretary.

[Rule 19, Ex Parte No. 241; Corrected Exemption No. 104, Amdt. No. 3]

EXEMPTION UNDER PROVISION OF THE MANDATORY CAR SERVICE RULES

Upon further consideration of Corrected Exemption No. 104 issued October 7, 1975.

It is ordered, That, under the authority vested in me by Car Service Rule 19, Corrected Exemption No. 104 to the Mandatory Car Service Rules ordered in Ex Parte No. 241, be, and it is hereby amended to *expire October 31, 1976.*

This amendment shall become effective July 31, 1976.

Issued at Washington, D.C., July 26, 1976.

INTERSTATE COMMERCE COMMISSION
LEWIS R. TEEPLE,
Agent.

[FR Doc.76–22832 Filed 8–4–76;8:45 am]

[Rule 19; In Ex Parte No. 241; Fifteenth Revised Exemption No. 90]

ATLANTA AND SAINT ANDREWS BAY RAILWAY CO. ET AL.

Exemption Under Provision of Mandatory Car Service Rules

To all railroads:

It appearing, That the railroads named below own numerous 50-ft. plain boxcars; that under present conditions there are substantial surpluses of these cars on their lines; that return of these cars to the owners would result in their being stored idle; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owners; and that compliance with Car Service Rules 1 and 2 prevents such use of these cars, resulting in unnecessary loss of utilization of such cars.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, 50-ft. plain boxcars described in the Official Railway Equipment Register, I.C.C.–R.E.R. No. 400, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation "XM," and bearing reporting marks assigned to the railroads named below, shall be exempt from the provisions of Car Service Rules 1, 2(a), and 2(b).

Atlanta & Saint Andrews Bay Railway Company, Reporting Marks: ASAB.
The Baltimore and Ohio Railroad Company, Reporting Marks: BO.
The Chesapeake and Ohio Railway Company, Reporting Marks: CO–PM.
Green Mountain Railroad Corporation, Reporting Marks: GMRC.
*Illinois Terminal Railroad Company, Reporting Marks: ITC.
Missouri-Kansas-Texas Railroad Company, Reporting Marks: BKTY–MKT.
New Jersey, Indiana & Illinois Railroad Company, Reporting Marks: NJII.
Norfolk and Western Railway Company, Reporting Marks: N&W–NKP–P&WV–WAB.
*Pearl River Valley Railroad Company, Reporting Marks: PRV.
The Pittsburgh and Lake Erie Railroad Company, Reporting Marks: P&LE.
Raritan River Rail Road Company, Reporting Marks: RR.
Sacramento Northern Railway, Reporting Marks: SN.
*St. Johnsbury & Lamoille County Railroad, Reporting Marks: SJL.
Sierra Railroad Company, Reporting Marks: SERA.
Tidewater Southern Railway Company, Reporting Marks: TS.
Toledo, Peoria & Western Railroad Company, Reporting Marks: TPW.
Vermont Railway, Inc., Reporting Marks: VTR.
WCTU Railway Company, Reporting Marks: WCTR.
Western Maryland Railway Company, Reporting Marks: WM.
Yreka Western Railroad Company, Reporting Marks: YW.

Effective: August 1, 1976, and continuing in effect until further order of this Commission.

Issued at Washington, D.C., July 26, 1976.

INTERSTATE COMMERCE COMMISSION,
LEWIS R. TEEPLE,
Agent.

FOURTH SECTION APPLICATION FOR RELIEF

AUGUST 2, 1976.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before August 20, 1976.

FSA No. 43204—*Joint Water-Rail Container Rates—Atlantica Line.* Filed by Atlantica Line (Atlantica, S.P.A. Genoa, Italy), (No. 3), for itself and interested rail carriers. Rates on general commodities, from rail stations on the U.S. Pacific Coast, to ports in the Mediterranean.

Grounds for relief—Water competition.

Tariff—Atlantica Line (Atlantica, S.P.A. Ganoa, Italy) tariff I.C.C. No. 2, F.M.C. No. 12. Rates are published to become effective on September 1, 1976.

By the Commission.

ROBERT L. OSWALD,
Secretary.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY ELIMINATION OF GATEWAY APPLICATIONS

JULY 30, 1976.

The following applications to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(d)(2)), and notice thereof to all interested persons is hereby given as provided in such rules.

Carriers having a genuine interest in an application may file an original and three copies of *verified statements* in opposition with the Interstate Commerce Commission within 30 days from the date of publication. (This procedure is outlined in the Commission's report and order in *Gateway Elimination,* 119 M.C.C. 530.) A copy of the verified statement in opposition must also be served upon applicant or its named representative. The verified statement should contain all the evidence upon which protestant relies in the application proceeding including a detailed statement of protestant's interest in the proposal. No rebuttal sttaements will be accepted.

No. MC 8973 (Sub-No. 42–G), filed July 6, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 Ninety-Fifth Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street, N.W., Washington, D.C. 20001. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: (1) *Aluminum sheet,* from the facilities of Alcan Aluminum Corporation, located at Oswego, N.Y., Warren, Ohio and Fairmont, W. Va., to points in Bergen, Essex, Hudson, Middlesex, Morris, Passaic, Somerset, and Union Counties, N.J., and points in that portion of the New York, N.Y., Commercial Zone as defined in *Commercial Zones and Terminal Areas,* 53 M.C.C. 451 within which local operations may be conducted pursuant to the partial exemption of Section 203(b)(8) of the Interstate Commerce Act (the exempt zone). The purpose of this filing is to eliminate the gateways at the plantsites and facilities of Alcan Aluminum Corporation, located at Woodbridge, N.J. or South Kearny, N.J., and points in the New York, N.Y., exempt zone.

(2) *Aluminum sheet and also building materials, equipment, and supplies and hardware,* from the origin points named in (1) above to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, and the District of Columbia.

The purpose of this filing is to eliminate the gateway at the plantsite of Alcan Aluminum Corporation, located at Woodbridge, N.J.

No. MC 129631 (Sub-No. 49G), filed June 29, 1976. Applicant: PACK TRANSPORT, INC., a Utah Corporation, 3975 South 300 West, Salt Lake City, Utah 84107. Applicant's representative: Max D. Eliason, P.O. Box 2602, Salt Lake City, Utah 84110. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Iron and steel articles,* (1) between Salt Lake City, Smithfield, Logan and Ogden, Utah, on the one hand, and, on the other, points in Bannock, Bear Lake, Caribou, Franklin, and Oneida Counties, Idaho; (2) between Cache County, Utah, on the one hand, and, on the other, Baker, Oreg.; and (3) from Salt Lake City, Smithfield, Logan and Ogden, Utah, and Cache County, Utah to points in Idaho south of Idaho County, Idaho.

The purpose of this filing is to eliminate the gateways of (1) Cache County, Utah; (2) Oneida and Franklin Counties, Idaho; and (3) Cache County, Utah; Franklin and Oneida Counties, Idaho and Baker, Oreg.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission *within 10 days* from the date of this publication. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 20582 (Sub-No. E12) (Correction), filed June 3, 1974, published in the FEDERAL REGISTER August 21, 1974, and republished, as corrected, this issue. Applicant: HENRY H. STEVENS, INC., 1273 Broadway, Flint, Mich. 48506. Applicant's representative: William C. Stevens (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Household goods,* as de-

V 41 152 AUG 5 76 UMI

fined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, between points in Maine, New Hampshire, and Vermont, on the one hand, and, on the other, points in Colorado, New Mexico, and Texas.

The purpose of this filing is to eliminate the gateways of Somerville, Mass., and points in Massachusetts within 15 miles thereof, and Kansas City, Kans. The purpose of this correction is to correct the gateways to be eliminated.

No. MC 20582 (Sub-No. E13) (Correction), filed June 3, 1974, published in the FEDERAL REGISTER August 21, 1974, and republished, as corrected, this issue. Applicant: HENRY H. STEVENS, INC., 1273 Broadway, Flint, Mich. 48506. Applicant's representative: William C. Stevens (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, between points in Maine, on the one hand, and, on the other, points in Alabama, Iowa, Kansas, Kentucky, Mississippi, and Nebraska.

The purpose of this filing is to eliminate the gateways of Somerville, Mass., and points in Massachusetts within 15 miles thereof and in that part of Michigan on, south and west of a line beginning at Detroit and extending along U.S. Highway 10 to Ludington. The purpose of this correction is to correct the gateways to be eliminated.

No. MC 20582 (Sub-No. E38) (Correction), filed June 3, 1974, published in the FEDERAL REGISTER August 21, 1974, and republished, as corrected, this issue. Applicant: HENRY H. STEVENS, INC., 1273 Broadway, Flint, Mich. 48506. Applicant's representative: William C. Stevens (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods* between points in Massachusetts and Rhode Island, on the one hand, and, on the other, points in Kansas.

The purpose of this filing is to eliminate the gateway of points in Illinois. The purpose of this correction is to correct the gateway to be eliminated.

No. MC 20582 (Sub-No. E42) (Correction), filed June 3, 1974, published in the FEDERAL REGISTER August 21, 1974, and republished, as corrected, this issue. Applicant: HENRY H. STEVENS, INC., 1273 Broadway, Flint, Mich. 48506. Applicant's representative: William C. Stevens (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, between points in Minnesota and Wisconsin, on the one hand, and, on the other, points in Mississippi. The purpose of this filing is to eliminate the gateway of points in Illinois. The purpose of this correction is to correct the gateway to be eliminated.

No. MC 22675 (Sub-No. E13), filed June 4, 1974. Applicant: ALLSTATES VAN LINES, INC., 50–18 97th Place, Corona, N.Y. 11368. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Avenue, N.W., Suite 1200, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Pennsylvania on and south of a line beginning at the Pennsylvania-New Jersey State line at Easton, Pa. and extending along U.S. Highway 22 to the Pennsylvania-West Virginia State line near Paris, Pa., on the one hand, and, on the other, points in Massachusetts.

The purpose of this filing is to eliminate the gateway of Essex County, N.J.

No. MC 22675 (Sub-No. E17), filed June 4, 1974. Applicant: ALLSTATE VAN LINES, INC., 50–18 97th Place, Corona, New York 11368. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Avenue, N.W., Suite 1200, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Connecticut on and west of a line beginning at the New York-Connecticut State line and extending along Connecticut Highway 124 to junction Connecticut Highway 136, thence along Connecticut Highway 136 to Norwalk, Conn., on the one hand, and, on the other, Burlington, Vermont.

The purpose of this filing is to eliminate the gateway of Essex County, N.J.

No. MC 22675 (Sub-No. E38), filed June 4, 1974. Applicant: ALLSTATES VAN LINES, INC., 50–18 97th Place, Corona, N.Y. 11368. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Avenue, NW., Suite 1200, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in New York on, south, and east of a line beginning at the New York-Connecticut State line and extending along New York Highway 199 to junction Interstate Highway 87, thence along Interstate Highway 87 to the New York-New Jersey State line, on the one hand, and, on the other, points in Pennsylvania on, west, and south of a line beginning at Erie, Pa., and extending along U.S. Highway 19 to junction Pennsylvania Turnpike at Warrendale, Pa., thence along Pennsylvania Turnpike to junction U.S. Highway 22 at Monroeville, Pa., thence along U.S. Highway 22 to junction Pennsylvania Highway 61 near Hamburg, Pa., thence along Pennsylvania Highway 61 to junction Interstate Highway 176, thence along Interstate Highway 176 to junction Pennsylvania Turnpike, thence along Pennsylvania Turnpike to the Pennsylvania-New Jersey State line. The purpose of this filing is to eliminate the gateway of Essex County, N.J.

No. MC 22675 (Sub-No. E40), filed June 4, 1974. Applicant: ALLSTATES VAN LINES, INC., 50–18 97th Place, Corona, N.Y. 11368. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Avenue NW., Suite 1200, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in New York on, north, and east of a line beginning at Buffalo, N.Y., and extending along U.S. Highway 20 to junction Thomas E. Dewey Thruway at Albany, N.Y., thence along Thomas E. Dewey Thruway to Suffern, N.Y., at the New York-New Jersey State line, on the one hand, and, on the other, points in Pennsylvania on and east of a line beginning at the Pennsylvania-New Jersey State line and extending along Pennsylvania Highway 263 to junction Pennsylvania Highway 611, thence along Pennsylvania Highway 611 to the Pennsylvania-New Jersey State line, including New Hope, Pa., and Philadelphia, Pa. The purpose of this filing is to eliminate the gateway of Essex County, N.J.

No. MC 22675 (Sub-No. E41), filed June 4, 1974. Applicant: ALLSTATES VAN LINES, INC., 50–18 97th Place, Corona, N.Y. 11368. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Avenue NW., Suite 1200, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in New York on, north, and east of a line beginning at Oswego, N.Y., and extending along New York Highway 104 to junction New York Highway 69, thence along New York Highway 69 to junction Thomas Dewey Thruway at Utica, N.Y., thence along

Thomas Dewey Thruway to Kingston, N.Y., thence along U.S. Highway 209 to the New York-Pennsylvania State line at Port Jervis, N.Y., on the one hand, and, on the other, points in Delaware. The purpose of this filing is to eliminate the gateway of Essex County, N.J.

No. MC 87966 (Sub-No. E3), filed May 9, 1974. Applicant: ELEVELD CHICAGO FURNITURE SERVICE, INC., 4020 W. 24th Street, Chicago, Ill. 60623. Applicant's representative: E. H. Eleveld (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture* (uncrated), as described in Appendix 11 to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from Kankakee, Ill., to points in Pennsylvania and points in Kentucky on and east of U.S. Highway 431. The purpose of this filing is to eliminate the gateway of Peru, Ind.

No. MC 87966 (Sub-No. E4), filed May 9, 1974. Applicant: ELEVELD CHICAGO FURNITURE SERVICE, INC., 4020 W. 24th Street, Chicago, Ill. 60623. Applicant's representative: E. H. Eleveld (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture* (uncrated), as described in Appendix 11 to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from Michigan City, Ind., to points in Kentucky, Pennsylvania, and Missouri. The purpose of this filing is to eliminate the gateway of Peru, Ind.

No. MC 87966 (Sub-No. E5), filed May 9, 1974. Applicant: ELEVELD CHICAGO FURNITURE SERVICE, INC., 4020 W. 24th Street, Chicago, Ill. 60623. Applicant's representative: E. H. Eleveld (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture* (uncrated), as described in Appendix 11 to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from La Porte, Ind., to points in Kentucky, Pennsylvania, and Missouri. The purpose of this filing is to eliminate the gateway of Peru, Ind.

No. MC 87966 (Sub-No. E8), filed May 9, 1974. Applicant: ELEVELD CHICAGO FURNITURE SERVICE, INC., 4020 W. 24th Street, Chicago, Ill. 60623. Applicant's representative: E. H. Eleveld (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture* (uncrated), as described in Appendix 11 to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from St. Charles, Ill., to points in Pennsylvania and Kentucky (except points west of Kentucky Highway 91). The purpose of this filing is to eliminate the gateway of Peru, Ind.

No. MC 108449 (Sub-No. E181), filed June 2, 1974. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 West County Road C, St. Paul, Minn. 55113. Applicant's representative: W. A. Myllenbeck (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned or preserved foodstuffs*, from Nebraska City, Nebr., to points in Wisconsin and north of a line beginning at the Minnesota-Wisconsin State line at or near Trempealeau, Wis., and extending east along Wisconsin Highway 93 to junction U.S. Highway 53 near Holmen, Wis., thence along north on U.S. Highway 53 to junction Wisconsin Highway 54 near Galesville, thence east on Wisconsin Highway 54 to junction Wisconsin Highway 71 near Melrose, Wis., thence south of Wisconsin Highway 71 to junction Interstate Highway 90 near Sparta, Wis., thence east along Interstate Highway 90 to junction U.S. Highway 12 at Tomah, Wis., thence north on U.S. Highway 12 to junction Wisconsin Highway 21 at or near North Tomah, Wis., thence east on Wisconsin Highway 21 to Lake Winnebago at Oshkosh, Wis., thence east on an imaginary line across the lake to junction U.S. Highway 151, thence east on U.S. Highway 151 to the shore of Lake Michigan at Manitowoc, Wis. The purpose of this filing is to eliminate the gateway of St. Paul, Minn.

No. MC 108449 (Sub-No. E117), filed May 22, 1974. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 West County Road C, St. Paul, Minn. 55113. Applicant's representative: W. A. Myllenbeck (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asphalt, road oils, and residual fuel oils*, in bulk, in tank vehicles, from Kansas City, Mo., to points in Illinois on, west and north of a line beginning at the Illinois-Wisconsin State line and extending along U.S. Highway 51 to junction U.S. Highway 24 near El Paso, Ill., thence along U.S. Highway 24 to junction Illinois Highway 116 near Peoria, Ill., thence along Illinois Highway 116 to junction U.S. Highway 67 at or near Roseville, Ill., thence along U.S. Highway 67 to junction Illinois Highway 17, at or near Viola, Ill., thence along Illinois Highway 17 to New Boston, Ill., at the Mississippi River.

The purpose of this filing is to eliminate the gateway of Bettendorf, Iowa.

No. MC 108449 (Sub-No. E160), filed May 24, 1974. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 West County Road C, St. Paul, Minn. 55113. Applicant's representative: W. A. Myllenbeck (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, in bulk, from the plantsite of the Marquette Cement Manufacturing Company, and the Penn-Dixie Cement Corporation, at Des Moines, Iowa, to points in Wisconsin on and north of a line formed by the south county lines of La Crosse, Monroe, Juneau, Adams, Marquette, Green Lake, Fond du Lac, and Sheboygan Counties, Wis., and including Portage and Wisconsin Dells, Wis. (except points in Polk County, Wis.). The purpose of this filing is to eliminate the gateway of Winona, Minn.

No. MC 112070 (Sub-No. E13), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colorado 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Michigan, on the one hand, and, on the other, points in (a) Wyoming, Nebraska, Colorado, and Kansas; (b) Arkansas and Oklahoma.

The purpose of this filing is to eliminate the gateways of Iowa and Illinois.

No. MC 112070 (Sub-No. E14), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Pennsylvania, on the one hand, and, on the other, points in Oklahoma. The purpose of this filing is to eliminate the gateways of Illinois, Iowa and Missouri.

No. MC 112070 (Sub-No. E15), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in New York on the one hand, and, on the other, (a) points in Oklahoma; (b) points in Arkansas on, south and west of a line beginning at the Arkansas-Missouri State line and extending along U.S. Highway 65 to junction U.S. Highway 167 to the Arkansas-Louisiana State line. The purpose of this filing is to eliminate the gateways of Illinois, Iowa and Missouri.

No. MC 112070 (Sub-No. E16), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Ohio, on the one hand, and, on the other, (a) points in that part of Oklahoma west of a line beginning at the Kansas-Oklahoma State line and extending along Interstate Highway 35 to the Oklahoma-Texas State line; (b) points in Colorado, Kansas, Nebraska, South Dakota, and Wyoming; (c) points in Minnesota and Wisconsin. The purpose of this filing is to eliminate the gateways of Illinois, Iowa and Missouri.

No. MC 112070 (Sub-No. E17), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above).

V 41 152 AUG 5 76 UMI

Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods* as defined by the Commission, between points in Pennsylvania, on the one hand, and, on the other, (a) points in Wisconsin and Minnesota; (b) points in South Dakota, Nebraska, Kansas, Wyoming, and Colorado; (c) between points in Pennsylvania, except Green County, on the one hand, and, on the other, points in Benton, Carrol, Washington, and Madison Counties, Ark. The purpose of this filing is to eliminate the gateways of Illinois, Iowa, and Missouri.

No. MC 112070 (Sub-No. E18), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods* as defined by the Commission, between points in Minnesota, on the one hand, and, on the other, points in Oklahoma. The purpose of this filing is to eliminate the gateways of Iowa and Missouri.

[Notice No. 98]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 2, 1976.

The following are notices of file of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 720 (Sub-No. 14TA), filed July 23, 1976. Applicant: BIRD TRUCKING CO., INC., Box 227, Waupun, Wis. 53968. Applicant's representative: Anthony C. Vance, 1300 Old Chain Bridge Road, McLean, Va. 22101. [Notice No. 97]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 30, 1976.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 C.F.R. § 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 1263 (Sub-No. 22TA), (Correction), filed June 17, 1976, published in the FEDERAL REGISTER issue of July 2, 1976, and republished as corrected this issue. Applicant: MCCARTY TRUCK LINE, INC., 17 & Harris Ave., Trenton, Mo. 64683. Applicant's representative: James M. McCarty (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Can and can ends*, from Mt. Vernon and Carthage, Mo., to Fort Madison, Iowa and from St. Joseph, Mo., to Fort Madison and Fort Dodge, Iowa, for 180 days. Supporting shipper: Carnation Company, 5045 Wilshire Blvd., Los Angeles, Calif. 90036. Send protests to: Vernon V. Coble, District Supervisor, Interstate Commerce Commission, 600 Federal Bldg., 911 Walnut St., Kansas City, Mo. 64106. The purpose of this republication is to correct the territorial description in this proceeding.

No. MC 43685 (Sub-No. 17TA), filed July 21, 1976. Applicant: MERCER TRUCKING CO. INC., N. 1414 Francher Road, Parkwater Box 11585, Spokane, Wash. 99211. Applicant's representative: George Hart, 1100 IBM Bldg., Seattle, Wash. 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Heavy machinery and contractors equipment, materials and supplies and commodities* the transportation of which because of their size or weight require the use of special equipment, between points in Spokane County, Wash., on the one hand, and, on the other, points in Idaho, Oregon, Montana and Washington, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: There are approximately 9 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: L. D. Boone, Transportation Specialist, Bureau of Operations, Interstate Commerce Commission, 858 Federal Bldg., 915 Second Ave., Seattle, Wash. 98174.

No. MC 56409 (Sub-No. 9 TA) (Correction), filed July 2, 1976, published in the FEDERAL REGISTER issue of July 14, 1976, and republished as corrected this issue. Applicant: MAJOR TRANSPORT, INC., Box 204, Highway 135 and Airport Rd., Palmyra, Wis. 53156. Applicant's representative: David V. Purcell, 111 E. Wisconsin Ave., Milwaukee, Wis. 53202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Grass pallets*, from the plantsite and facilities of Warren's Turf Nursery, Inc., in Jefferson County, Wis., to Toledo, Ohio and points in Alabama, Arkansas, Georgia, Illinois, Maryland, Massachusetts and Pennsylvania; and (2) *Shipper owned trailers and equipment, materials and supplies* used in the growing, harvesting, processing or distribution of the commodities described in (1) above, or ingredients thereof, between Suisun City, Calif., Denver, Colo.; Boise, Idaho; Anderson, Ind.; Burlington and Des Moines, Iowa; Goodland and Wichita, Kans.; Bangor, Maine; Marlette, Mich.; Anoka, Minneapolis and St. Paul, Minn.; Centerville, Md.; Kansas City, Mo.; Omaha and Ord, Nebr.; Hightstown, N.J.; Plymouth, Ohio; Pittsburgh, Pa.; West Kingston, R.I.; Rapid City, S. Dak.; Oshkosh, Wis.; and points in Jefferson County, Wis., Illinois and New York restricted to traffic originating at or destined for the plantsites, facilities or associate growers of Warren's Turf Nursery, Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Warren's Turf Nursery, Inc., 8400 West 111th St., Palos Park, Ill. 60464. Send protests to: Gail Daugherty, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, 135 West Wells St., Room 807, Milwaukee, Wis. 53203. The purpose of this republication is to correct the commodity description in this proceeding.

No. MC 61396 (Sub-No. 311TA), filed July 21, 1976. Applicant: HERMAN BROS., INC., 2565 St. Marys Ave., P.O. Box 189, Omaha, Nebr. 68101. Applicant's representative: John E. Smith, II (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Argon, oxygen, and nitrogen*, in bulk, in shipper-owned cryogenic tank vehicles, from Mt. Vernon, Ind., to points in Illinois, Kentucky and Tennessee; to West Memphis and New Port, Ark.; Clinton, Dyersville, Olin and Fort Madison, Iowa; Kansas City, and St. Louis, Mo.; and Cincinnati, Columbus and Barberton, Ohio, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: A. J. Sutton, Manager-Physical Distribution Chemetron Corporation, 111 East Wacker Drive, Chicago, Ill. 60601. Send protests to: Carroll Russell, District Supervisor, Interstate Commerce Commission, Suite 620, 110 North 14th St., Omaha, Nebr. 68102.

No. MC 105881 (Sub-No. 53TA), filed July 21, 1976. Applicant: M R & R TRUCKING COMPANY, 715 N. Ferdon Blvd., P.O. Box 997, Crestview, Fla. 32536. Applicant's representative: Sol H. Proctor, 1101 Blackstone Bldg., Jacksonville, Fla. 32202. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, and commodities in bulk and household goods as defined by the Commission), serving Trenton, Bell, Newberry, Dowling Park and Pinetta, Fla., as off route points in connection with applicant's authorized regular routes, Applicant intends to tack its existing authority with MC 105881. Applicant also intends to interline at Atlanta and Albany, Ga., Mobile and Dothan, Ala., Jacksonville, Tampa, Tallahassee and Pensacola, Fla., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of opertaing authority. Supporting shippers: There are approximately 10 statements of support attached to the application, which may be examined at the Interstate Commerce Commission, in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: G. H. Fauss, Jr., District Supervisor, Interstate Commerce Commission, Bureau of Operations, Box 35008, 400 West Bay St., Jacksonville, Fla. 32202.

No. MC 106707 (Sub-No. 9TA) (Correction), filed May 24, 1976, published in the FEDERAL REGISTER issued of June 22, 1976, and republished as corrected this issue. Applicant: ADAMS TRUCKING, INC., 1711 West Second St., Webster City, Iowa 50595. Applicant's representative: Ronald Adams (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Agricultural machinery;* (2) *tractors* (except truck tractors), when moving in mixed loads with commodities named in (1) above; and (3) *parts and attachments* for commodities in (1) and (2) above, when moving in mixed loads with these commodities, from Rock Island, Ill., to points in Kansas, Missouri, Nebraska, South Dakota, Minnesota and Iowa, and from Moline and East Moline, Ill., to points in Kansas, Missouri, Nebraska, South Dakota, and Minnesota, restricted to shipments originating at the warehouse and facilities of International Harvester Co., at the above-named origins when destined to the above-named states, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: International Harvester Co., 401 North Michigan Ave., Chicago, Ill. 60601. Send protests to: Herbert W. Allen, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 518 Federal Bldg., Des Moines, Iowa 50309. The purpose of this republication is to correct the territorial description.

No. MC 112617 (Sub-No. 348TA), filed July 21, 1976. Applicant: LIQUID TRANSPORTERS, INC., P.O. Box 21395, Louisville, Ky. 40221. Applicant's representative: Charles R. Dunford (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Soybean products*, in bulk, in tank vehicles, from Cairo, Ill., to points in Alabama, Arkansas, Georgia, Indiana, Kansas, Kentucky, Louisiana, Michigan, Mississippi, Missouri, Ohio, Tennessee and Wisconsin, for 180 days. Lowry, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 5514–B Federal Bldg., 550 Main St., Cincinnati, Ohio 45202.

No. MC 134082 (Sub-No. 8TA), filed July 22, 1976. Applicant: K. H. TRANSPORT, INC., 4796 Linthicum Road, Dayton, Md. 21036. Applicant's representative: Chester A. Zyblut, 1030 15th St., N.W., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from Baltimore, Md., to Dallas and Fort Worth, Tex., and their respective Commercial Zones, for 180 days. Supporting shipper: Al Silverman, Traffic Coordinator, Martin Brower Co., 1111 E. Touhy Ave., Des Plaines, Ill. 60018. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, 814–B Federal Bldg., Baltimore, Md. 21201.

No. MC 136301 (Sub-No. 4TA), filed July 22, 1976. Applicant: MER-LOU TRANSPORTATION, INC., P.O. Box 247, Millsboro, Del. 19966. Applicant's representative: Jack R. Turney, Jr., 2001 Massachusetts Ave., NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages*, from South Volney, N.Y., to points in Delaware; Salisbury, Cambridge and Centerville, Md., and points in Accomac and Northampton Counties, Va., for 180 days. Supporting shipper: Joseph Tigani, General Manager, Standard Wine & Spirits Company, 27th and Broom Sts., Wilmington, Del. 19899. Richard N. Carey, President, Carey Distributors, Inc., 707 Brown St., Salisbury, Md. 20801. George Yewell, Treasurer, G & G Distributors, Inc., Commerce St., Centreville, Md. 21617. Harry E. Engler, Owner, Aydelotte & Engler, Routes 316–736, Greenbush, Va. 23357. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, 814–B Federal Bldg., Baltimore, Md. 21201.

No. MC 136644 (Sub-No. 2TA), filed July 21, 1976. Applicant: U. W. S. MATERIALS & SUPPLY CO., 2001 Broadway, Vallejo, Calif. 94590. Applicants' representative: William D. Taylor, 100 Pine St., Suite 2550, San Francisco, Calif. 94111. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Gypsum wallboard and materials* used in the installation and application of gypsum wallboard, from the plantsite of Kaiser Gypsum Company, Inc., at or near Antioch, Calif., to points in Oregon, under a continuing contract with Kaiser Gypsum Company, Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Kaiser Gypsum Company, Inc., 300 Lakeside Dr., 11th Floor, Oakland, Calif. 94666. Send protests to: A. J. Rodriguez, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 450 Golden Gate Ave., Box 36004, San Francisco, Calif. 94102.

No. MC 138404 (Sub-No. 8TA), filed July 22, 1976. Applicant: DALE FOWLER & MERLE TRAPP, doing business as D & M TRANSPORT, P.O. Box 38, Sprague-ville, Iowa 52074. Applicant's representative: Dale Fowler (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Steel roadway paving joints*, between Maquoketa, Iowa, points in Maine, New Hampshire, Vermont, New York, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, Virginia, Tennessee, South Carolina, North Carolina, Louisiana, Mississippi, Alabama, Georgia, Florida, and the District of Columbia; (2) Materials used in the manufacture of (1) above, from points in Minnesota, Illinois, Indiana, Iowa to Maquoketa, Iowa, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Wady, Inc., 510 E. Grove, Maquoketa, Iowa. Send protests to: Herbert W. Allen, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 518 Federal Bldg., Des Moines, Iowa 50309.

No. MC 138762 (Sub-No. 2TA), filed July 22, 1976. Applicant: MUNICIPAL TANK LINES, LIMITED, P.O. Box 3500, Calgary, Alberta, Canada T2P 2P9. Applicant's representative: Richard H. Streeter, 704 Southern Bldg., 15th & H Streets, NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous aluminum chloride* (dry in bulk, in tank vehicles), from ports of entry on the United States-Canada Bounday line located in Michigan and New York, to points in Texas, Louisiana and Maryland; restricted to movements originating at the plantsite and facilities of Welland Chemical at Sarnia, Ontario, Canada, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: A. W. Ballantyne, Vice-President, Operations, Welland Chemical, Ltd., 3068 Universal Dr., Mississauga, Ontario, Canada L4X 2C8. Send protests to: Paul J. Labane, District Supervisor, Interstate Commerce Commission, 2602 First Ave., North, Billings, Mont. 59101.

No. MC 140820 (Sub-No. 1TA), filed July 21, 1976. Applicant: A & R TRANSPORT, INC., 106 N. Everett St., Streator, Ill. 61364. Applicant's representative: James E. Bedeker, 1609 E. First St., Streator, Ill. 61364. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sulfuric acid*, in bulk, in tank vehicles, between Marseilles, Ill., on the one hand, and, on the other, points in Iowa, Kansas, Missouri, Kentucky, Indiana, Michigan and Wisconsin, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Chemical Interchange, Inc., T. C. Welch, Vice President, 11 S. Meramec, St. Louis, Mo. Send protests to: Patricia A. Roscoe, Transportation Assistant, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1086, Chicago, Ill. 60604.

No. MC 141804 (Sub-No. 18TA), filed July 22, 1976. Applicant: WESTERN EXPRESS, DIV. OF INTERSTATE RENTAL, INC., Box 422, Goolettsville, Tenn. 37072. Applicant's representative: Richard A. Peterson, P.O. Box 81849, Lincoln, Nebr. 68507. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by retail stores (except foodstuffs and commodities in bulk), (1) from Hoboken, N.J., to the facilities of Best Products Co., Inc., at or near Ashland, Va.; Arlington, Tex.; and Union City, Calif.; (2) from the facilities of Best Products Co., Inc., at or near Arlington, Tex., and Union City, Calif.; and (3) from the facilities of Best Products Co., Inc., at or near Ashland, Va., and Arlington, Tex., to Union City, Calif. Restriction: Service to and from the facilities of Best Products Co., Inc., at or near Ashland, Va., and Arlington, Tex., is restricted to stopping-in-transit for partial loading and/or unloading of shipments originating at Hoboken, N.J., and destined to the facilities of Best Products Co., Inc., at or near Union City, Calif., for 180 days. Supporting shipper: Best Products Co., Inc., P.O. Box 26303, Richmond, Va. 23260. Send protests to: Joe J. Tate, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Suite A–422 U.S. Courthouse, 801 Broadway, Nashville, Tenn. 37203.

No. MC 142124 TA (Correction), filed June 4, 1976, published in the FEDERAL REGISTER issue of June 23, 1976, and republished as correct this issue. Applicant: PACKAGE DELIVERY, INC., 421 West Tremont Ave., Charlotte, N.C. 28203. Applicant's representative: Joseph T. Bambrick, Jr., 217 Old Airport Road, Douglassville, Pa. 19518. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *General commodities*, limited to individual parcels, packages, and other items not exceeding 100 pounds in weight, moving in shipments not exceeding 500 pounds in weight, from one consignor to one consignee in a single day, restricted to operations conducted exclusively in two axle vehicles, (1) between points in Franklin and Richmond Counties, Ga.; Alamance, Alexander, Anson, Buncombe, Burke, Cabarrus, Caldwell, Caswell, Catawba, Chatham, Cleveland, Cumberland, Davidson, Davie, Durham, Forsyth, Franklin, Caston, Granville, Greene, Guilford, Harnett, Henderson, Hoke, Tredell, Johnston, Lee, Lenoir, Lincoln, McDowell, Mecklenburg, Montgomery, Moore, Nash, Orange, Pitt, Polk, Randolph, Richmond, Robeson, Rockingham, Rowan, Rutherford, Scotland, Stanly, Union, Vance, Wake, Wayne and Wilson Counties, N.C.; Aiken, Anderson, Calhoun, Cherokee, Chester, Chesterfield, Clarendon, Darlington, Dillon, Fairfield, Florence, Greenville, Kershaw, Lancaster, Laurens, Lee, Lexington, Marlboro, Newberry, Orangeburg, Richland, Spartanburg, Sumter, Union and York Counties, S.C.; and Pittsylvania County, Va., restricted to shipments having a prior or subsequent movement by air, motor, rail and or water carrier, for 180 days. Supporting shippers: There are approximately 33 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C. or copies thereof which may be examined at the field office named below. Send protests to: Terrell Price, District Supervisor, 800 Briar Creek Road, Room CC516, Mart Office Bldg., Charlotte, N.C. 28205. The purpose of this republication is to correct the territorial description in this proceeding.

No. MC 142282 TA, filed July 20, 1976. Applicant: FLEET SERVICES CORP., P.O. Box 4112, Whittier, Calif. 90607. Applicant's representative: William J. Lippman, Suite 550, 1819 H St., N.W., Washington, D.C. 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lumber*, intended for use in the manufacture of furniture, from points in Washington and Umatilla County, Oreg., to points in California, under a continuing contract with Maher Forest Products, Ltd.; and (2) *Metal folding mechanisms*, for furniture and bedding, bed springs, bed frames and bed rails, from Whittier, Calif., to points in Washington, Oregon, Idaho, Montana, Utah, Nevada and Arizona, under a continuing contract with Bedline Mfg. Co., for 180 days. Supporting shipper: Bedline Mfg. Co., P.O. Box 4956, Whittier, Calif. 90607. Maher Forest Products, Ltd., P.O. Box 387, Medina, Wash. 98039. Send protests to: Mary A. Francy, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, Room 1312 Federal Bldg., 300 North Los Angeles St., Los Angeles, Calif. 90012.

No. MC 142284 TA, filed July 21, 1976. Applicant: AIR COURIERS INTERNATIONAL, INC., 4131 N. 36th St., Suite 1, Phoenix, Ariz. 85018. Applicant's representative: Jeremy Kahn, Suite 733, Investment Bldg., Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Business papers* used in and useful for the conduct of insurance business, between the offices and facilities of American Home Assurance Company, at New York, N.Y., and the offices and facilities of American Home Assurances Company, at Manchester, N.H., under a continuing contract with American Home Assurance Company, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: American Home Assurance Company, 102 Maiden Lane, New York, N.Y. Send protests to: Andrew V. Baylor, District Supervisor, Interstate Commerce Commission, Room 3427 Federal Bldg., 230 N. First Ave., Phoenix, Ariz. 85025.

By the Commission.

ROBERT L. OSWALD,
Secretary.

[Volume No. 42]

PETITIONS FOR MODIFICATION, INTERPRETATION OR REINSTATEMENT OF OPERATING RIGHTS AUTHORITY

Table of Contents Listing

JULY 30, 1976.

Permanent authority petitions and applications; finance matters (including

V 41 152 AUG 5 76 UMI

temporary authorities); railroad abandonments; alternate route deviation letter-notices; and intrastate applications concurrently seeking authority on interstate or foreign commerce.

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this Federal Register notice. Such protest shall comply with Special Rule 247(d) of the Commission's *General Rules of Practice* (49 CFR 1100.247)[1] and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

No. MC 115353 (Sub-No. 11) (Notice of filing of petition to modify territorial description), filed July 15, 1976. Petitioner: LOUIS J. KENNEDY TRUCKING COMPANY, 342 Schuyler Ave., Kearny, N.J. 07032. Petitioner's representative. Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Petitioner holds a motor *contract carrier* Permit in No. MC 115353 (Sub-No. 11), issued June 24, 1971, authorizing transportation over irregular routes, of *building materials, gypsum and gypsum products, paint and paint products, lime* (except liquid in bulk), and such *materials and supplies* as are used in the manufacture, installation and distribution of the aforementioned commodities (except commodities in bulk), between Staten Island and Stony Point, N.Y., and Kearny, N.J., on the one hand, and, on the other, points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia, under a continuing contract, or contracts, with United States Gypsum Company, of Chicago, Ill.

By the instant petition, petitioner seeks to modify its Permit by adding three base radial points of Danville, Norfolk, and Plasterco, Va. to the above authority.

No. MC 134599 (Sub-No. 114) (Notice of filing of petition to change origin point), filed June 22, 1976. Petitioner: INTERSTATE CONTRACT CARRIER CORPORATION, 265 W. 2700 South, Salt Lake City, Utah 84115. Petitioner's representative: Richard A. Peterson, 521 South 14th St., P.O. Box 81849, Lincoln, Nebr. 68501. Petitioner holds a motor *contract carrier* Permit in No. MC 134599 (Sub-No. 114), issued February 3, 1976, authorizing transportation over irregular routes, of (1) *games, toys,* and *plastic articles,* and (2) *materials, parts,* and *supplies* used in the manufacture of items in part (1) above (except commodities in bulk and those requiring the use of special handling or special equipment), from Metuchen and South Plainfield, N.J., to points in Wisconsin, Ohio, Nebraska, Kentucky, Arkansas, Alabama, Louisiana, South Carolina, Missouri, Colorado, and Arizona, under a continuing contract, or contracts, with Mattel, Inc., subject to the right of the Commission to impose such terms, conditions or limitations in the future as it may find necessary in order to insure that carrier's operations shall conform to the provisions of section 210 of the Act.

By the instant petition, petitioner seeks to modify its Permit by deleting from its authority the origin point of Metuchen, N.J., and substituting therefore the origin point of Edison, N.J.

No. MC 135072 (Sub-No. 5) (Notice of filing of petition to add an additional contracting shipper), filed July 19, 1976. Petitioner: HEATER TRUCKING, INC., P.O. Box 122, 6887 Versailles Road, North Evans, N.Y. 14112. Petitioner's representative: William J. Hirsch, Suite 1125, 43 Court St., Buffalo, N.Y. 14202. Petitioner holds a motor *contract carrier* Permit in No. MC 135072 (Sub-No. 5), issued February 18, 1976, authorizing transportation over irregular routes, of: (1) *Asphalt,* in bulk, *and equipment* utilized in the application of asphalt, between points in Allegany, Cattaraugus, Chautauqua, Erie, Genesee, Livingston, Monroe, Niagara, Ontario, Orleans, Steuben, Wayne, and Wyoming Counties, N.Y., on the one hand, and, on the other, points in Bradford, Cameron, Clarion, Crawford, Elk, Erie, Jefferson, Lycoming, McKean, Potter, Tioga, Venango, and Warren Counties, Pa.; (2) *Materials and supplies* used in the manufacture of asphalt products, from Lafayette, Ind., Carlstadt, N.J., Marietta, Ohio, Canton, N.C., and Nitro, W. Va., to Buffalo, N.Y.; and (3) *returned shipments* of the commodities in (2) above, From Buffalo, N.Y., to Nitro, W. Va., Marietta, Ohio, Canton, N.C., Carlstadt, N.J., and Lafayette, Ind., under a continuing contract, or contracts, with Allied Bitumens, Inc., of Buffalo, N.Y.

By the instant petition, petitioner seeks to modify its permit by adding Allied Emulsions, Inc., as an additional contracting shipper to the above authority.

No. MC 135381 (Notice of petition) (Correction), filed June 22, 1976, published in the FEDERAL REGISTER issue of July 22, 1976, and republished as corrected this issue. Petitioner: DRUM TRANSPORTATION COMPANY, R.D. No. 1, Montgomery, Pa. 17752. Petitioner's representative: J. G. Dail, Jr., 1111 E St., N.W., Washington, D.C. 20004. The purpose of this partial republication is to indicate the correct docket number assigned to this proceeding as MC 135381, in lieu of MC 135385 as was previously published. The rest of the publication remains as previously published.

No. MC 135921 (Notice of filing of petition to add an additional contracting shipper), filed July 2, 1976. Petitioner: HARCO TRUCKING CORPORATION, 86 Garden St., Westbury, N.Y. 11590. Petitioner's representative: Joyce Harvey (Same address as petitioner). Petitioner holds a motor *contract carrier* Permit in No. MC 135921, issued July 20, 1972, authorizing transportation over irregular routes, of *waste paper,* between points in Connecticut, New York, New Jersey, and Pennsylvania, under a continuing contract, or contracts, with Harmon Paper Stock Co., Inc., Harmon Assoc. Corp., Harmon Recycling Corp., and Gemini Paper Fibers Corp., all of Merrick, N.Y.

By the instant petition, petitioner seeks to modify its Permit by adding Lowe Fibre Corporation of Westbury, N.Y., as an additional contracting shipper to the above authority.

No. MC 136408 (Sub-No. 8) (Notice of filing of petition to add an additional origin point), filed July 16, 1976. Petitioner: CARGO CONTRACT CARRIER CORP., P.O. Box 206, U.S. Highway 20, Sioux City, Iowa 51102. Petitioner's representative: William J. Hanlon (Same address as petitioner). Petitioner holds a motor *contract carrier* Permit in No. MC 136408 (Sub-No. 8), issued April 2, 1975, authorizing transportation over irregular routes, of *chemicals* (except in bulk, in tank vehicles), from Wallingford, Conn., and Linden, N.J., to points in Wisconsin, Minnesota, Iowa, Nebraska, Kansas, and Missouri, under a continuing contract, or contracts, with American Cyanamid Co., of Wayne, N.J., and Merck & Co., Inc., of Rahway, N.J.

By the instant petition, petitioner seeks to modify its Permit by adding Hawthorne, N.J. as an additional origin point to the above authority.

No. MC 140104 (Sub-No. 2) (Notice of filing of petition to add additional origin and destination States), filed July 8, 1976. Petitioner: TOLEDO FREIGHT LINES, INC., 4117 Fitch Rd., Toledo, Ohio 43613. Petitioner's representative: David L. Pemberton, 50 West Broad St., Columbus, Ohio 43215. Petitioner holds a motor *contract carrier* Permit in No. MC 140104 (Sub-No. 2), issued April 9, 1976, authorizing, as pertinent, transportation over irregular routes, of (1) *Ice cream, ice cream confections, ice confections, ice water confections, and frozen desserts,* in vehicles equipped with mechanical refrigeration, from Toledo, Ohio, and Stamford, Conn., to points in Alabama, Arkansas, California, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia; and (2) *materials, ingredients, equipment, and supplies* (excluding commodities in bulk) used in the manufacture of the aforementioned commodities, from the destination states named above, to Toledo, Ohio, and Stamford, Conn., under a continuing contract, or contracts, with Vroman Foods, Inc., and Vroman Foods of New York, Inc.

By the instant petition, petitioner seeks to modify its Permit by adding Colorado, Louisiana and Mississippi as additional destination states to part (1) of the above authority as well as to the origin territory in part (2) of the above authority.

No. MC 140968 (Sub-No. 2) (Notice of filing of petition to add additional origin and destination territory), filed March 4, 1976. Petitioner: VALLEY TRANSPORT, INC., Drayton, N. Dak. 58225. Petitioner's representative: Charles E. Johnson, 425 Gate City Bldg., Fargo, N. Dak. 58102. Petitioner holds a motor *contract carrier* Permit in No. MC 140968 (Sub-No. 2), issued June 8, 1976, authorizing transportation over irregular routes, of (1) *sugar beet pulp and sugar beet pulp pellets,* from the facilities of American Crystal Sugar Company located at or near Drayton, N. Dak., to Duluth, Minn.; and (2) *lime rock,* from Duluth, Minn., to the facilities of American Crystal Sugar Company located at or near Drayton, N. Dak., under a continuing contract, or contracts, with American Crystal Sugar Company, of Moorhead, Minn.

By the instant petition, petitioner seeks to modify its Permit (a) by broadening the origin in part (1) so as to read: "from the plantsites of American Crystal Sugar Company located in North Dakota lying on and east of North Dakota Highway 32 and in Minnesota lying on and west of U.S. Highway 71;" and (b) by broadening the destination point in part (2) so as to read: "to the plantsites of American Crystal Sugar Company located in North Dakota lying on and east of North Dakota Highway 32 and in Minnesota lying on and west of U.S. Highway 71."

No. MC 141114 (Notice of filing of petition for modification of permit), filed July 9, 1976. Petitioner: Retailers Delivery Facility Co., Inc., 901 Washington Street, Wilmington, Del. 19899. Petitioner's representative: Frank Petralla, president of petitioner, 478 Prospect Street, Methuen, Mass. 01844.

Petitioner holds Permit No. MC-141114, issued June 23, 1976, authorizing operation as a motor *contract carrier* of *clay products, garden supplies, snowmobiles, lawn ornaments, building materials,* and *garden trellises* (except cement, chemicals, and commodities in bulk), from points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, and that part of New York on and east of a line beginning at the mouth of the Hudson River, thence extending north along the east bank of the Hudson River to Albany, N.Y., and thence over U.S. Highway 9 to the International Boundary Line between the United States and Canada, to points in the United States in and east of Minnesota, Iowa, Missouri, Arkansas, and Louisiana, restricted (1) against the transportation of the above-named commodities from points in Connecticut, Massachusetts, New York, and Rhode Island to points in North Carolina, South Carolina, Georgia and Florida, and (2) against the transportation of clay products and refractories from points in New York to points in Indiana, Michigan, and Ohio, under a continuing contract, or contracts, with Garden Merchandise and Supply Co., Inc.

By the instant petition, petitioner seeks modification of said permit to add the following firms as additional contracting shippers:

(1) Garden Shops Co., Inc., 901 Washington Street, Wilmington, Del. 19899;

(2) Lawn Shops Co., Inc., 901 Washington Street, Wilmington, Del. 19899;

(3) Ceramic Sales Co., Inc., 901 Washington Street, Wilmington, Del. 19899;

(4) Abbott Trading Co., Inc., 901 Washington Street, Wilmington, Del., 19899; and

(5) Homes & Gardens Co., Inc., 901 Washington Street, Wilmington, Del. 19899.

Petitioner states that the above-named five companies are newly formed separate satellite companies (affiliates) of Garden Merchandise and Supply Co., Inc., the present contracting shipper; that G. N. Newburgh is the sole stockholder of each of the six companies; that the six companies will handle the same traffic as that for which authority was granted to serve Garden Merchandise and Supply Co., Inc.; that upon modification of the permit petitioner will be authorized to handle the same traffic for six affiliated companies as it is now authorized to handle for Garden Merchandise and Supply Co., Inc.; and that no new privileges covering additional commodity description or geographical area is sought by this petition, and the only additional privilege sought is to add the five newly formed corporate affiliates.

Any person or persons desiring to participate in this proceeding may within 30 days from the date of this publication in the FEDERAL REGISTER file an appropriate pleading consisting of an original and six copies.

REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION

NOTICE

The following grants of operating rights authorities are republished by Order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER.

An original and one copy of protests to the granting of the authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rule 247(d) of the Commission's *General Rules of Practice* (49 CFR § 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition shall not be tendered at this time. A copy of the protest shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

No. MC 130335 (Republication), filed August 11, 1975, and published in the FEDERAL REGISTER issue of September 18, 1975, and republished this issue. Applicant: BARRINGTON TRAVEL GROUP ASSOCIATION, 610 White Horse Pike, Oaklyn, N.J. 08107. Applicant's representative: Doris Valleley (same address as applicant). An Initial Decision of the Commission, Administrative Law Judge, Warren C. White, served May 27, 1976 became the order of the Commission by effective notice served July 15, 1976, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *broker* at Oaklyn, N.J., to sell or offer to sell the transportation of *Passengers* as individuals and in groups, and *their baggage* in the same vehicle with passengers, in special and charter operations, by motor common carrier, beginning and ending at Barrington, Lawnside, and Oaklyn, in Camden County, N.J., and extending to points in the United States, including Alaska and Hawaii. The purpose of this republication is to indicate that the grant of authority includes Barrington, Lawnside and Oaklyn, in Camden County, N.J., as applicant's begining and ending points in lieu of Camden County, N.J.

No. MC 135082 (Sub-No. 23) (Republication), filed December 4, 1975, and published in the FEDERAL REGISTER issue of January 29, 1976, and republished this issue. Applicant: BURSCH TRUCKING, INC., doing business as ROADRUNNER TRUCKING, INC., P.O. Box 46748, 415 Rankin Rd., N.E., Albuquerque, N. Mex. 87125. Applicant's representative: D. F. Jones (same address as applicant). An Order of the Commission, Review Board Number 2, dated June 17, 1976, and served June 30, 1976, finds that the present and future public convenience and necessity require operations by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, in the transportation of *Gypsum, gypsum and gypsum products* (except commodities in bulk), from points in Hardeman County, Tex., to points in New Mexico, Colorado, Wyoming, Montana, Idaho, Nevada, California, Oregon, Washington, and Utah; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder.

The purpose of this republication is (1) to indicate the grant of authority excluding gypsum wallboard, gypsum joint cement and related commodities, and (2) to indicate points in Hardeman County, Tex., as applicant's origin point in lieu of Acme, Tex., as previously published in the FEDERAL REGISTER.

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

V 41 152 AUG 5 76 UMI

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

NOTICE

The following applications are governed by Special Rule 247 of the Commission's *General Rules of Practice* (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably to file a protest will be construed as a waiver of opposition and participation inthe proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures order by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 2202 (Sub-No. 515), filed July 1, 1976. Applicant: ROADWAY EXPRESS, INC., 1077 Gorge Blvd., P.O. Box 471, Akron, Ohio 44309. Applicant's representative: William O. Turney, Suite 1010, 7101 Wisconsin Avenue, Washington, D.C. 20014. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite of Kennedy Mfg. Co., located at or near Kennedy, Ala., as an off-route point in connection with applicant's presently authorized regular-route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Birmingham, Ala. or Washington, D.C.

No. MC 9692 (Sub-No. 5), filed June 25, 1976. Applicant: ROBERT D. ECKERT, 219 North President Avenue, Lancaster, Pa. 17603. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, Pa. 17101. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are generally made by a manufacturer of rugs, carpets and linoleum, and *equipment, materials and supplies* used in the installation and distribution thereof (except commodities in bulk) (1) from Lancaster, Pa. and points in East Hempfield Township, Lancaster County, Pa., to Baltimore, Md., and its commercial zone, the District of Columbia, and its commercial zone, and points in Harford and Baltimore Counties, Md.; under a continuing contract, or contracts, with the Jos. M. Zamoiski Co.; and (2) from Lancaster and Marietta, Pa., and points in East Hempfield Township, Lancaster County, Pa., to Baltimore, Md., and its commercial zone, the District of Columbia, and its commercial zone and points in Harford and Baltimore Counties, Md., under a continuing contract, or contracts, with J. J. Haines & Company, Inc., located at Baltimore, Md.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 13250 (Sub-No. 133), filed July 1, 1976. Applicant: J. H. ROSE TRUCK LINE, INC., 5003 Jensen Drive, P.O. Box 16190, Houston, Tex. 77022. Applicant's representative: James N. Doherty, 500 West Sixteenth Street, P.O. Box 1945, Austin, Tex. 78767. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building materials, millwork, lumber, and wood products* (except commodities in bulk), between points in Idaho, Montana, Oregon, and Washington, on the one hand, and, on the other, points in Arkansas, Oklahoma, and Texas, restricted against the transportation of lumber, wood products, and millwork from points in Montana on and west of U.S. Highway 89, to points in Texas and Oklahoma. If a hearing is deemed necessary, the applicant requests it be held on a consolidated record with a similar application of System Transport, Inc., at either Seattle, Wash. or Dallas or Houston, Tex.

No. MC 22229 (Sub-No. 110) filed June 22, 1976. Applicant: TERMINAL TRANSPORT COMPANY, INC., 248 Chester Avenue, S.E., Atlanta, Ga. 30316. Applicant's representative: Ralph B. Matthews (Same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment): Serving Honeoye, N.Y., as an off-route point in connection with applicant's presently authorized service, between Rochester, and Bath, N.Y.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Rochester, N.Y., or Washington, D.C.

No. MC 42261 (Sub-No. 124), filed June 22, 1976. Applicant: LANGER TRANSPORT CORP., Box 305, Jersey City, N.J. 07303. Applicant's representative: W. C. Mitchell, 370 Lexington Avenue, New York, N.Y. 10017. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Containers, container ends, and container closures*, and (2) *accessories, materials, equipment, and supplies*, used in the manufacture, sale, and distribution of the commodities in (1) above (except commodities in bulk), from Fogelsville, Pa., to points in Connecticut, Delaware, Maine, Maryland, Masachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Newark, N.J., or Washington, D.C.

No. MC 42487 (Sub-No. 851), filed June 18, 1976. Applicant: CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 175 Linfield Drive, Menlo Park, Calif. 94025. Applicant's representaitve: V. R. Oldenburg, P.O. Box 5138, Chicago, Ill. 60680. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, green hides, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment); Between Columbus, Ohio, and Parkersburg, W. Va.: From Columbus over U.S. Highway 50, thence over U.S. Highway 50 to Parkersburg, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only in connection with carrier's otherwise authorized regular-route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 43421 (Sub-No. 56), filed June 23, 1976. Applicant: DOHRN TRANSFER COMPANY, 4016 9th Street, P.O. Box 1237, Rock Island, Ill. 61201. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to

operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, livestock, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between Chicago, Ill., and Detroit, Mich., as an alternate route for operating convenience only: From Chicago over U.S. Highway 41 to junction U.S. Highway 30, thence over U.S. Highway 30 over Fort Wayne, Ind., to junction U.S. Highway 24, thence over U.S. Highway 24 to Interstate Highway 75, thence over Interstate Highway 75 to Detroit and return over the same route, serving no intermediate points.

NOTE.—The purpose of this alternate route application is to allow applicant to relay motor vehicle equipment at its Fort Wayne, Ind., terminal in connection with traffic moving between its Detroit, Mich., terminal on the one hand, and, on the other, its terminals at Chicago, Ill., and points west thereof. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 47583 (Sub-No. 32), filed July 6, 1976. Applicant: TOLLIE FREIGHTWAYS, INC., 1020 Sunshine, Kansas City, Kans. 66115. Applicant's representative: D. S. Hults, P.O. Box 225, Lawrence, Kans. 66044. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers*, from the plantsite and storage facilities of Midland Glass Company, Inc. located at or near Henryetta, Okla., to points in Arkansas, Colorado, Illinois, Iowa, Kansas, Louisiana, Minnesota, Mississippi, Missouri, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Tennessee, Texas, Wisconsin, and Wyoming.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Kans.

No. MC 55886 (Sub-No. 18), filed June 22, 1976. Applicant: BLUE LINE TRANSFER CO., INC., P.O. Box 4, 3d and Broomall Streets, Chester, Pa. 19013. Applicant's representative: Maxwell A. Howell, 1100 Investment Bldg., 1511 K St., NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper and paper products, and materials and supplies*, used in the maufacture thereof, between points in Kent County, Del., on the one hand, and, on the other, points in Connecticut, New Jersey, those points in New York on and south of U.S. Interstate Highway 84, and points in Pennsylvania.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 59241 (Sub-No. 3), filed June 22, 1976. Applicant: JOHN GIBBONS, INC., 650 Eddystone Avenue, Eddystone, Pa. 19013. Applicant's representative: Maxwell A. Howell, 1100 Investment Building, 1511 K Street, N.W., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper and paper products and materials and supplies* used in the manufacture thereof, between points in Kent County, Del., on the one hand, and, on the other, points in Fairfax, Fauquier, Loudoun, and Prince William Counties, Va., Maryland, and the District of Columbia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held on a consolidated record with a similar application of Blue Line Transfer Co. Inc., at Washington, D.C.

No. MC 78687 (Sub-No. 42), filed June 30, 1976. Applicant: LOTT MOTOR LINES, INC., 118 Monell St., Penn Yan, N.Y. 14527. Applicant's representative: E. Stephen Heisley, 666 Eleventh St., N.W. No. 805, Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Calcium chloride*, dry, in bulk, in dump vehicles, from Solvay, N.Y., to points in Delaware, Virginia and West Virginia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests a consolidated hearing in Washington, D.C.

No. MC 80428 (Sub-No. 93), filed June 23, 1976. Applicant: MCBRIDE TRANSPORTATION, INC., P.O. Box 430, Goshen, N.Y. 10924. Applicant's representative: S. Michael Richards, 44 North Avenue, P.O. Box 225, Webster, N.Y. 14580. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Products derived from corn and blends containing products derived from corn*, in bulk, in tank vehicles, from the Clinton Corn Processing Company plantsite located at Montezuma, N.Y., to points in the United States (except Alaska and Hawaii), restricted to the transportation of traffic originating at the above described facilities.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 82063 (Sub-No. 68), filed July 2, 1976. Applicant: KLIPSCH HAULING CO., 10795 Watson Road, St. Louis, Mo. 63127. Applicant's representative: E. Stephen Heisley, 666 Eleventh St., N.W. No. 805, Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from points in Columbia County, Ark., to points in Alabama, Florida, Georgia, Illinois, Kansas, Kentucky, Missouri, and South Carolina.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C. or Little Rock, Ark.

No. MC 82841 (Sub-No. 177), filed June 21, 1976. Applicant: HUNT TRANSPORTATION, INC., 10770 "I" Street, Omaha, Nebr. 68127. Applicant's representative: Donald L. Stern, 530 Univac Bldg., 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Steel cable strand, iron and steel wire, and spirals*, from the plant site and facilities of Wire-mil, Inc., located at or near Sanderson, Fla., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Jacksonville, Fla.

No. MC 83835 (Sub-No. 132), filed June 28, 1976. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from the facilities of Armco Steel Corporation located at or near Kansas City, Mo., to points in Arkansas, Kansas, Oklahoma, and Texas.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Kansas City, Mo. or Dallas, Tex.

No. MC 94068 (Sub-No. 6), filed July 12, 1976. Applicant: H. POMARLEAU, doing business as POMARLEAU TRANSFER, P.O. Box 1255, Wenatchee, Wash. 98801. Applicant's representative: Boyd Hartman, 221 First West, Seattle, Wash. 98119. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from points in Chelan, Okanogan, Yakima, and Lincoln Counties, Wash., to points in Multnomah County, Oreg.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Seattle or Wenatchee, Wash.

Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities*, as are usually transported in dump vehicles, between Burns Waterway Harbor, located in Portage, Ind., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 126276 (Sub-No. 153), filed June 17, 1976. Applicant: FAST MOTOR SERVICE, INC., 9100 Plainfield Road, Brookfield, Ill. 60513. Applicant's representative: Albert A. Andrin, 180 North La Salle St., Chicago, Ill. 60601. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Metal containers and metal container ends*, from the plant and warehouse facilities of Crown Cork & Seal Company located at St. Louis, Mo., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Indiana, Maine, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, and West Virginia, under a continuing contract, or contracts, with Crown Cork & Seal Company, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 126427 (Sub-No. 11), filed July 7, 1976. Applicant: PALMER TRANSPORTATION, INC., Cross & Main Streets, Chester, N.Y. 10918. Applicant's representative: Edward M. Alfano, 550 Mamaroneck Avenue, Harrison, N.Y. 10528. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Products* derived from corn and *blends* containing products derived from corn, in bulk, in tank vehicles, from the Clinton Corn Processing Company plantsite located at Montezuma, N.Y., to points in the United States (except Alaska and Hawaii), restricted to the transportation of traffic originating at the above described facilities.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 127625 (Sub-No. 20), filed July 7, 1976. Applicant: SANTEE CEMENT CARRIERS, INC., P.O. Box 638, Holly Hill, S.C. 29059. Applicant's representative: Frank B. Hand, Jr., P.O. Box 187, Berryville, Va. 22611. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement, mortar mix and hydrated lime*, including but not limited to in bags and in bulk, from the facilities of the Santee Portland Cement Corporation located near Holly Hill, S.C., to points in Florida.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Columbia, S.C. or Washington, D.C.

No. MC 127651 (Sub-No. 36), filed June 16, 1976 Applicant: EVERETT G. ROEHL, INC., P.O. Box 7, East 29th Street, Marshfield, Wis. 54449. Applicant's representative: Richard A. Westley, 4506 Regent Street, Suite 100, Madison, Wis. 53705. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plywood, wood paneling, and composition board*, from the facilities of Pluswood, Inc., located at or near Oshkosh, Wis., to points in Arkansas, Colorado, Iowa, Kansas, Kentucky, Missouri, Nebraska, North Dakota, South Dakota, Tennessee, and Wyoming; and (2) *materials and supplies*, used in connection with the manufacture and production of the commodities described in (1) above (except commodities in bulk), from points in the destination states named in (1) above, to the facilities of Pluswood, Inc., located at or near Oshkosh, Wis.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Milwaukee, Wis., or Chicago, Ill.

No. MC 127692 (Sub-No. 4), filed June 30, 1976. Applicant: FIDELITY STORAGE CORPORATION, P.O. Box 10257, Alexandria, Va. 22310. Applicant's representative: Paul F. Sullivan, 711 Washington Bldg., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, between points in Arlington, Clarke, Culpeper, Fairfax, Fauquier, King George, Loudoun, Prince William, Rappahannock, Spotsylvania, Stafford, and Warren Counties, Va.; Anne Arundel, Baltimore, Calvert, Carroll, Charles, Frederick, Howard, Montgomery, Prince Georges, St. Marys, and Washington Counties, Md.; Baltimore, Md.; Alexandria, and Falls Church, Va.; and the District of Columbia, restricted to the transportation of traffic having a prior or subsequent movement, in containers, beyond the points authorized, and further restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization or unpacking, uncrating, and decontainerization of such traffic.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 128117 (Sub-No. 24), filed June 17, 1976. Applicant: NORTON-RAMSEY MOTOR LINES, INC., P.O. Box 896 Hickory, N.C. 28601. Applicant's representative: Francis J. Ortman, 7101 Wisconsin Avenue, Suite 605, Washington, D.C. 20014. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dining room chairs*, from the plantsites of Century Furniture Company and Century Chair Company, at Hickory, N.C., to the plantsite and warehouse of Hooker Furniture Corporation, at Martinsville, Va.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Charlotte, N.C., or Washington, D.C.

No. MC 128527 (Sub-No. 65), filed June 30, 1976. Applicant: MAY TRUCKING COMPANY, P.O. Box 398, Payette, Idaho 83661. Applicant's representative: Edward G. Rawle, 4635 S.W. Lakeview Blvd., Lake Oswego, Oreg. 97034. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen pies*, from the plantsite of Mrs. Smith's Pie Company, located at or near McMinnville, Oreg., to points in Idaho, Montana, Utah, Washington, and Wyoming.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Boise, Idaho or Portland, Oreg.

No. MC 128642 (Sub-No. 16), filed June 24, 1976. Applicant: SKYLINE TRANSPORT, INC., 1910 Russell Street, Baltimore, Md. 21230. Applicant's representative: H. Neil Garson, Court Square Bldg., 1400 N. Uhle Street, Arlington, Va. 22201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Products* derived from corn and *blends* containing products derived from corn, in bulk, in tank vehicles, from the Clinton Corn Processing Co., plant site located at Montezuma, N.Y., to points in the United States (except Alaska and Hawaii), restricted to traffic originating at the above described facilities.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 128878 (Sub-No. 36), filed June 22, 1976. Applicant: SERVICE TRUCK LINE, INC., P.O. Box 3904, Shreveport, La. 71103. Applicant's representative: C. Wade Shemwell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, from Anse LaButte, Avery Island, Baldwin, Breaux Bridge, Jefferson Island, and Weeks Island, La., to points in Covington County, Ala.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Shreveport or New Orleans, La. or Jackson, Miss.

No. MC 129021 (Sub-No. 2), filed July 8, 1976. Applicant: FARM SUPPLY DISTRIBUTORS, INC., 710 N. Farr Road, Spokane, Wash. 99206. Applicant's representative: Donald A. Ericson, 708 Old National Bank Bldg., Spokane, Wash. 99206. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Dry fertilizer*, in bulk, from points in Shoshone County, Idaho, to points in Umatailla, Wallowa, Union, and Baker Counties, Oreg., under a continuing contract, or contracts, with Wallowa County Grain Growers, of Enterprise, Oreg.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Spokane, Wash. or Portland, Oreg.

No. MC 129326 (Sub-No. 22), filed June 23, 1976. Applicant: CHEMICAL TANK LINES, INC., Highway 60 West, P.O. Drawer 437, Mulberry, Fla. 33860. Applicant's representative: L. Agnew Myers Jr., 734 15th Street N.W., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Amines*, in bulk, in tank vehicles, from Mulberry Fla., to Aurora, N.C.; and (2) *fatty acids, pitch, tall oil heads*, in bulk, in tank vehicles, from Charleston, S.C. to Mulberry, Fla.

V 41 152 AUG 5 76 UMI

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Tampa or Jacksonville, Fla.

No. MC 129326 (Sub-No. 23), filed June 23, 1976. Applicant: CHEMICAL TANK LINES, INC., P.O. Drawer 437, Highway 60 West, Mulberry, Fla. 33860. Applicant's representative: L. Agnew Myers, Jr., 734 15th Street NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Defoamer*, in bulk, in tank vehicles, from Mulberry, Fla., to Cherokee, Ala.; Helena, Ark.; Donaldsonville, Taft and Uncle Sam, La.; Pascagoula, Miss., and Pasadena, Tex.; and (2) *crude butyls, glyacid, heavy oxo-ends, diethylnetriamine, armeen T/97, crude tall oil and polyglycol (crude)*, in bulk, in tank vehicles, from Bay Minette, Ala.; New Orleans, Lake Charles, Pineville and Taft, La.; Jackson, Miss.; and Corsicana, Freeport, Longview and Texas City, Tex., to Mulberry, Fla.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Tampa or Miami, Fla.

No. MC 133095 (Sub-No. 99), filed June 20, 1976. Applicant: TEXAS CONTINENTAL EXPRESS, INC., P.O. Box 434, Euless, Tex. 76039. Applicant's representative: Hugh T. Matthews, 2340 Fidelity Union Tower, Dallas, Tex. 75201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Electric motors, grinders, buffers, dental lathes, dust collectors and pedestals, and parts, accessories and attachments thereof*, and *materials, equipment and supplies* used in the manufacture and distribution thereof (except commodities in bulk), between Ft. Smith, Ark., on the one hand, and, on the other, points in the United States (except Alaska, Hawaii, Washington, Oregon, California, Idaho, Nevada, Arizona, New Mexico, Colorado, and Utah).

NOTE.—Applicant holds contract carrier authority in No. MC 136032 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Dallas, Tex.

No. MC 133119 (Sub-No. 96), filed July 6, 1976. Applicant: HEYL TRUCK LINES, INC., 200 Norka Drive, Akron, Iowa 51001. Applicant's representative: A. J. Swanson, 521 South 14th Street, P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Montezuma, Ga., to points in Alabama, Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Ohio, Oklahoma, Tennessee, Texas, and Wisconsin, and points in Florida on and west of the Apalachicola River.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Atlanta, Ga.

No. MC 133363 (Sub-No. 6), filed July 6, 1976. Applicant: WILLIAM T. HARRIS AND THEATRIS HARRIS, doing business as HARRIS BROS. CO., 1317 49th Street, Philadelphia, Pa. 19143. Applicant's representative: Morris J. Levin, 1620 Eye Street, NW., Washington, D.C. 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Stereo equipment, radios, sewing machines, and cabinets, and parts and materials therefore*, in trailers, between Philadelphia and King of Prussia, Pa., under contract with Morse Electro Products Corp., with prior or subsequent movement by rail.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 133689 (Sub-No. 76) (Correction), filed June 8, 1976, published in the FEDERAL REGISTER issue of July 8, 1976, and republished as corrected this issue. Applicant: OVERLAND EXPRESS, INC., 719 First St. SW., New Brighton, Minn. 55112. Applicant's representative: Robert P. Sack, P.O. Box 6010, W. St. Paul, Minn. 55118. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Confectionery* (except commodities in bulk), from Horseheads, N.Y., to Chaska, Minn., restricted to traffic destined to the facilities of Super Valu Store, Inc., located at or near Chaska, Minn.

NOTE.—The purpose of this republication is to correct the spelling of applicant's destination point, which was published Shaska, Minn., in lieu of Chaska, Minn. If a hearing is deemed necessary, the applicant requests it be held at Minneapolis, Minn.

No. MC 134387, (Sub-No. 33), filed June 24, 1976. Applicant: BLACKBURN TRUCK LINES, INC., 4498 Branyon Avenue, South Gate, Calif. 90280. Applicant's representative: David P. Christianson, 606 South Olive Street, Suite 825, Los Angeles, Calif. 90014. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic bottles, containers, fitments and closures*, from points in Orange County, Calif., to points in Maricopa County, Ariz.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Los Angeles, Calif.

No. MC 134408 (Sub-No. 6) (Amendment), filed December 31, 1975, published in the FEDERAL REGISTER issue of March 11, 1976, and republished as amendment this issue. Applicant: SARCHFIELD TRANSFER, LTD., Simonds Road, Box 84, Hartland New Brunswick, Canada. Applicant's representative: Peter L. Murray, 30 Exchange Street, Portland, Miane 04111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fencing*, from ports of entry on the International Boundary line between the United States and Canada, located at or near Houlton, Calais, Vanceboro, and Madawaska, Maine to points in Alabama, Kentucky, Illinois, Indiana, Michigan, Missouri, Tennessee, and Wisconsin, restricted to traffic originating at points in the Provinces of Quebec and New Brunswick; (2) *cedar shingles*, from ports of entry on the International Boundary line between the United States and Canada, located at or near Houlton, Calais, Vanceboro, and Madawaska, Maine to points in Connecticut, Maine, Massachusetts, New Hampshire, New York, New Jersey, and Rhode Island, restricted to traffic originating at points in the Provinces of Quebec and New Brunswick; and (3) *building materials*, from Bangor, Maine to ports of entry on the International Boundary line between the United States and Canada, located at or near Houlton, Calais, Vanceboro, and Madawaska, Maine, restricted to traffic for destinations in the Province of New Brunswick.

NOTE.—The purpose of this amendment is to add the restrictions to the above authority. Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Portland, Maine or Boston, Mass.

No. MC 134477 (Sub-No. 115), filed June 23, 1976. Applicant: SCHANNO TRANSPORTATION, INC., 5 West Mendota Road, P.O. Box 3496, West St. Paul, Minn. 55118. Applicant's representative: Robert P. Sack, P.O. Box 6010, West St. Paul, Minn. 55118. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by products, and articles distributed by meat packinghouses* as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from New London, Wis., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia, restricted to traffic originating at the plantsite and warehouse facilities utilized by Hillshire Farm Company, located at or near New London, Wis., and destined to the above described destination points.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Minneapolis, Minn.

No. MC 134599 (Sub-No. 147), filed July 2, 1976. Applicant: INTERSTATE CONTRACT CARRIER CORPORATION, P.O. Box 748, Salt Lake City, Utah 84110. Applicant's representative: Richard A. Peterson, P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Games, toys and plastic articles, and materials, parts and supplies* used in the manufacture of the above commodities (except commodities in bulk or those which because of size or weight require special handling or special equipment), between Edison and S. Plainfield, N.J., on the one hand, and, on the other, points in Idaho, Montana, Nevada, New Mexico, North Dakota, South Dakota, Utah, and Wyoming, under a continuing contract, or contracts, with Mattel, Inc.

NOTE.—Applicant holds common carrier authority in MC 139906 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Lincoln, Nebr. or Salt Lake City, Utah.

No. MC 134806 (Sub-No. 39), filed June 6, 1976. Applicant: B–D–R TRANSPORT, INC., P.O. Box 813, Brattleboro, Vt. 05301. Applicant's representative: Francis J. Ortman, 7101 Wisconsin Avenue, Suite 605, Washington, D.C. 20014. Authority sought to operate as a *contract carrier* by motor vehicle, over irregular routes, transporting: *Oils and greases, finishing compounds, and supplies for tanning leather* (except commodities in bulk), from points in Illinois and Wisconsin, to points in San Francisco, Alameda, Napa, Solano, San Mateo, and San Cruz Counties, Calif., under a continuing contract, or contracts, with West Coast Tanners Production Club.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at San Francisco, Calif.

No. MC 134820 (Sub-No. 6) (Amendment) filed January 12, 1976, published in the FEDERAL REGISTER issue of February 20, 1976, and republished as amended this issue. Applicant: ROBERT ALBRIGHT, 2212 1st Avenue South, Seattle, Wash. 98134. Applicant's representative: Robert Albright (Same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Decorative brick wall coverings, adhesives (not including bulk), and sealants (not including bulk)*, between shipper plantsites located at Woodinville, Wash. and Fort Wayne, Ind., and customer locations at Seattle, Wash.; Portland, Oreg.; between (1) Woodinville, Wash., on the one hand, and on the other, Seattle, Wash.; Portland, Oreg.; Missoula, Great Falls, and Billings, Mont.; Bismarck and Fargo, N. Dak.; Minneapolis-St. Paul, Minn.; Milwaukee, Wis.; Pocatello, Idaho; Wichita, Kans.; Kansas City, Mo.; Fernley, Nev.; and San Francisco, Stockton, Los Angeles, and San Diego, Calif.; and (2) between Fort Wayne, Ind., on the one hand, and on the other, Seattle, Wash.; Portland, Oreg.; Missoula, Great Falls, and Billings, Mont; Bismarck and Fargo, N. Dak.; Pocatello, Idaho; Fernley, Nev.; and San Francisco, Stockton, Los Angeles, and San Diego, Calif., under a continuing contract or contracts with VMC Corporation (Z-Brick).

NOTE.—The purpose of this republication is to show applicant's service to Fernley, Nev. in lieu of Fernley, Neb., and to restrictively amend the requested authority. If a hearing is deemed necessary, the applicant requests it be held at Seattle, Wash.

No. MC 135152 (Sub-No. 17), filed July 6, 1976. Applicant: CASKET DISTRIBUTORS, INC., Rural Route No. 2, P.O. Box 327, West Harrison, Ind. 45030. Applicant's representative: Jack B. Josselson, 700 Atlas Bank Building, Cincinnati, Ohio 45202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Uncrated caskets and crated caskets* in mixed loads with uncrated caskets, from Manchester and Salem, N.H. and Fresno, Calif., to points in the United States (except Alaska and Hawaii), with return of above commodities to the above origin; and (2) *uncrated caskets and crated caskets and knocked down casket parts* when moving with uncrated caskets, from Cloverdale, Calif., to points in the United States (except Alaska and Hawaii), with return of above commodities to the above origins.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 135616 (Sub-No. 9), filed June 28, 1976. Applicant: PERRYSBURG TRUCKING CO., INC., 24982 Thompson Road, Perrysburg, Ohio 43351. Applicant's representative: Herbert Alan Dubin, 1819 H St. N.W., Suite 1030, Washington, D.C. 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Flat glass*, from the facilities of ASG Industries, Inc. located at or near Kingsport and Greenland, Tenn., to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, West Virginia, Wisconsin, and the District of Columbia, under a continuing contract, or contracts, with ASG Industries, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 135797 (Sub-No. 58), filed July 6, 1976. Applicant: J. B. HUNT TRANSPORT, INC., P.O. Box 200, Lowell, Ark. 72745. Applicant's representative: L. C. Cypert, 204 Highway 71 North, Suite 3, Springdale, Ark. 72764. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *Petroleum sorbents, padding and cushioning materials*, (b) *wallboard, insulation and insulating materials*, (c) *mulch* and (d) *equipment, materials and accessories* used in the installation or application of the commodities named in (b) and (c) above, from Cloquet, Minn., to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming; and (2) *machinery, materials, equipment, and supplies* used or useful in connection with the manufacture, distribution or application of the commodities named in (1) above, from the destination points named in (1) above, to Cloquet, Minn.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Tulsa, Okla. or Duluth, Minn.

No. MC 135839 (Sub-No. 6), filed June 22, 1976. Applicant: B. LINE SERVICES, INC., P.O. Box 24, Greensburg, La. 70441. Applicant's representative: W. Hugh Sibley, P.O. Box 399, Greensburg, La. 70441. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel ball valves and valve parts*, from Houston, San Antonio, Lufkin, and Beaumont, Tex., to Hammond, La.; and (2) *rough iron and steel castings and forgings*, from Hammond, La., to the origin points named in (1) above, under a continuing contract, or contracts, with T. K. Valve & Manufacturing Co., Inc., located at Hammond, La.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Baton Rouge or New Orleans, La.

No. MC 135874 (Sub-No. 56), filed July 8, 1976. Applicant: LTL PERISHABLES, INC., 550 E. 5th St. South, South St. Paul, Minn. 55075. Applicant's representative: Paul Nelson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except in bulk), from Duluth, Minn. and Superior, Wis., to points in Illinois, Indiana, Michigan, and Ohio.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at St. Paul, Minn.

No. MC 135902 (Sub-No. 4), filed June 18, 1976. Applicant: KENNETH M. MOODY, doing business as K. M. MOODY, 3100 Dogwood Street, Washington, D.C. 20015. Applicant's representative: David C. Venable, Suite 805, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Tires and tubes, and accessories* for tires and tubes, between Akron, Cincinnati, Dayton, and Columbus, Ohio, on the one hand, and, on the other, Baltimore, Md., Wilmington, Del., and Fairfax, Newport News, Norfolk, Virginia Beach, and Winchester, Va., under a continuing contract, or contracts, with Friend's Tire & Fleet Service, Inc., and Circle Tire Co.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 136343 (Sub-No. 86), filed July 1, 1976. Applicant: MILTON TRANSPORTATION, INC., P.O. Box 355, Milton, Pa. 17847. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fiber pots, fiber vases, fiber bait buckets, and materials and supplies*, used or useful in the manufacture of fiber pots, fiber bait buckets and fiber vases (except commodities in bulk, and those commodities requiring special equipment), between the facilities of Formart Containers, Inc., at Shamokin, Pa., on the one hand, and, on the other, points in Alabama, Connecticut, Delaware, Florida, Georgia, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and the District of Columbia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Harrisburg, Pa., or Washington, D.C.

No. MC 136774 (Sub-No. 6), filed June 24, 1976. Applicant: MC–MORHAN TRUCKING CO., INC., P.O. Box 368, Shullsburg, Wis. 53586. Applicant's

V 41 152 AUG 5 76 UMI

representative: Carl L. Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Products* derived from corn, and *blends* containing products derived from corn in bulk, in tank vehicles, from the facilities of Clinton Corn Processing Company, located at Montezuma, N.Y., to points in the United States (except Alaska and Hawaii), restricted to traffic originating at said facilities.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Des Moines, Iowa or Washington, D.C.

No. MC 136786 (Sub-No. 99), filed June 28, 1976. Applicant: ROBCO TRANSPORTATION, INC., 309 5th Avenue N.W., New Brighton, Minn. 55112. Applicant's representative: Stanley C. Olsen, Jr., 7525 Mitchell Road, Eden Prairie, Minn. 55343. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Printed matter*, from Milwaukee, Wis., to points in Arizona, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota and Wyoming.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Minneapolis, Minn.

No. MC 138331 (Sub-No. 5), filed June 23, 1976. Applicant: ELLA BIGELOW, Box 25, Cobalt Ontario, Canada POJ 1PO. Applicant's representative: Victor Bigelow (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Grinding mill liners*, in bulk, from the ports of entry on the International Boundary line between the United States and Canada, located at or near International Falls, Minn., to Hibbing, Minn.; and *rejected liners* or return, restricted on traffic having a prior movement in foreign commerce, under a continuing contract or contracts with Canron Limited—Wabi Iron Works.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Toronto or Ontario, Canada.

No. MC 138375 (Sub-No. 20), filed June 23, 1976. Applicant: J. H. WARE TRUCKING, INC., 909 Brown St., P.O. Box 398, Fulton, Mo. 65251. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles* (except commodities the transportation of which because of their size or weight require the use of special equipment), from the facilities of Keystone Steel & Wire Division, Keystone Consolidated Industries, Inc., located at or near Peoria, Ill., to points in Idaho, Nevada and Utah, under a continuing contract, or contracts, with Keystone Consolidated Industries, Inc.

NOTE.—Applicant holds common carrier authority in No. MC 139973 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill. or St. Louis, Mo.

No. MC 138991 (Sub-No. 14), filed June 17, 1976. Applicant: K. J. TRANSPORTATION, INC., P.O. Box 9764, Rochester, N.Y. 14623. Applicant's representative: S. Michael Richards, 44 North Avenue, Webster, N.Y. 14580. NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Cincinnati, Ohio.

FREIGHT FORWARDER APPLICATION

No. FF-483, filed June 7, 1976. Applicant: A & P SHIPPING CORPORATION, 6650 Hawaii Kai Dr. Suite 207, Honolulu, Hawaii 96825. Applicant's representative: S. K. Alexander (same address as applicant). Authority sought to engage in operation, in interstate commerce, as a *freight forwarder*, through use of the facilities of common carriers by rail, motor, water, and air in the transportation of *used automobiles and trucks*, between points in the Continental United States, including Alaska, on the one hand, and, on the other, points in Hawaii to include transportation of import-export traffic.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Honolulu, Hawaii.

FINANCE APPLICATIONS

NOTICE

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, or rail carriers or motor carriers pursuant to Sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Each protest shall comply with Special Rules 240(c) or 240(d) of the Commission's General Rules of Practice (49 CFR § 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

No. MC-F-12892. Authority sought for purchase by SMITH TRUCK SERVICE, INC., P.O. Box 1329, Stoney Hollow Blvd., Steubenville, OH 43952, of a portion of the operating rights, of ECLIPSE MOTOR LINES, INC., 920 National Road, Bridgeport, OH 43912, and for acquisition by DINO B. ROTELLINI, P.O. Box 1329, Steubenville, OH 43952, of control of such rights through the purchase. Applicants' attorneys: James R. Stiverson, 1396 West Fifth Avenue, Columbus, OH 43212, and A. Charles Tell, 100 East Broad Street, Columbus, OH 43214. Off route service at Hugo, Colorado. Representative Points: Agate, Arriba, Bennett, Bethune, Byers, Burlington, Deer Trail, Flagler, Genoa, Hugo, Limon, Strasburg, Stratton, Vona, and Watkins, on the one hand, and, on the other, points in, or beyond, the CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE system, in Interstate Commerce. Representatives: G. T. West, Vice President, Traffic, 175 Linfield Drive, Menlo Park, CA 94025 and Robert M. Bowden, Commerce Supervisor, P.O. Box 3062, Portland, OR 97028. CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, is authorized to operate as a common carrier in all the States in the United States (except Hawaii).

No. MC-F-12896. Authority sought for control and merger by J & M TRANSPORTATION CO., INC., P.O. Box 488, Milledgeville, GA 31061, of MUSTANG TRANSPORTATION INC., 833 Warner Street, Atlanta, GA 30310, and for acquisition by JAMES W. McCLINTON, P.O. Box 589, Americus, GA and HAROLD A. SUMERFORD, P.O. Box 488, Milledgeville, GA 31061, of control of such rights through the transaction. Applicants' attorneys: Paul M. Daniell, 1600 First Federal Building, Atlanta, GA 30303, and Virgil H. Smith, Suite 12, 1587 Phoenis Blvd., Atlanta, GA 30349. Operating rights and property sought to be controlled and merged: *Bananas*, as a common carrier over irregular routes from Gulfport, Miss., New Orleans, La., Charleston, S.C., Mobile, Ala., and Tampa and Port Everglades, Fla., to Atlanta, Ga., from New Orleans, La. and Charleston, S.C. to Knoxville, Tenn., from New Orleans, La. to Gadsden, Ala., and Johnson City, Tenn., from Atlanta, Ga., to points in Alabama (except Birmingham), South Carolina and Tennessee; *Cured hams, cured bacon, cured sausage, and fresh sausage*, in vehicles equipped with mechanical refrigeration, from the site of the meat processing plants of Talmadge Farms, Inc., and Talmadge Farms Country Sausage, Inc., at or near Lovejoy (Clayton County), Ga., to points in Alabama, Florida, Louisiana, Mississippi, and South Carolina; *boxes, fiberboard, and beverage cartons*, from the plant site and warehouses of the Mead Packaging Division of Mead Corporation in Fulton County, Ga., to points in Mississippi, Arkansas, Oklahoma, Louisiana, and Texas; *fiberboard boxes and beverage cartons*, from the facilities of Mead Packaging Division of Mead Corporation in Fulton County, Ga., to points in that part of Tennessee on and west of a line beginning at the Alabama-Tennessee State line and extending along Tennessee Highway 13 to junction U.S. Highway 79, and thence along U.S. Highway 79 to the Tennessee-Kentucky State line; *carpets and rugs*, from the plant and storage facilities of Vernon Carpet Mills at Wedowee, Ala., to points in the United States (except Alaska and Hawaii); *malt beverages*, from Cincinnati, Ohio, to Atlanta and Augusta, Ga., from Pittsburgh, Pa., to points in Alabama, from Norfolk, Va. and Hammonton, N.J., to points in Alabama (except points in Russell County), from South Bend, Ind., Norfolk, Va., Newark, N.J., and Pittsburgh, Pa., to points in Georgia; and from St. Louis, Mo., to Augusta, Ga.; and *empty malt beverage containers*, from Augusta, Ga., to St. Louis, Mo., from points in Georgia, to South Bend, Ind., Norfolk, Va., Newark, N.J., and Pittsburgh, Pa.; *oyster shells*, crushed, in bags, and *fish meal* in bags, from Jacksonville and Fernandina, Fla., to points in Georgia, with restrictions: *citrae pulp*, from points in Pasco and Orange Counties, Fla., to points in Georgia; *malt beverages*, from Atlanta, Ga., to Richmond, Ind., and points in Michigan and Ohio, from Pittsburgh, Pa., to points in Tennessee; *Screen woven cloth, iron and steel pipe, and plastic film or sheeting*, from the facilities of X. S. Smith, Incorporated, at Eatontown, N.J., to points in the United States (except Alaska, Hawaii, and New Jersey). Vendee is authorized to operate as a *common carrier* in all the States in the United States (except Alaska and Hawaii) including the District of Columbia. Application has been filed for temporary authority under section 210a (b).

No. MC-F-12897. Authority sought for merger by BRANCH MOTOR EXPRESS COMPANY, 114 Fifth Avenue, New York, N.Y. 10011, of the operating rights and property of WHITE TRUCK LINE, INC., also of New York, N.Y. 10011, and for acquisition by BRANCH INDUSTRIES, INC., also of New York, N.Y. 10011 of control of such rights through the transaction. Applicants' attorney: Jack R. Turney, Jr., 21 Massachusetts Avenue N.W., Washington, D.C. 20036. Operating rights sought to be merged: General commodities, with the usual exceptions, as a *common carrier* over regular routes, between Atlanta and Rex., Ga., between Gainesville and Jefferson, Ga., between Gainesville and Commerce, Ga., between Gainesville, Ga. and Greenville, S.C., between junction U.S. Highway 129 and Interstate Highway 85 near Jefferson, Ga., and Greenville, S.C., between Atlanta and Gainesville, Ga., between Atlanta and Warm Springs, Ga., between Jonesboro and Woodbury, Ga., between

V 41 152 AUG 5 76 UMI

Atlanta and Fuford, Ga., between Atlanta and Doraville, Ga., between Manchester and Columbus, Ga., serving various intermediate and off-route points; *general commodities*, with the usual exceptions over irregular routes, between Atlanta, Ga., on the one hand, and, on the other, Peachtree City, Ga., and the sites of Tuckerstone Mountain Industrial District and Stone Mountain Industrial Park, De Kalb County, Ga. Vendee is authorized to operate as a *common carrier* in Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Delaware, Maryland, the District of Columbia, Virginia, North Carolina, South Carolina, Tennessee, Georgia, Ohio, Indiana, Michigan, Illinois, and Kentucky. Application has not been filed for temporary authority.

NOTE.—Pursuant to order dated October 14, 1975, in MC–F–12445, Transferee was granted control of Transferor.

NOTICE

WILLIAM M. GIBBONS, TRUSTEE OF PROPERTY OF CHICAGO, ROCK ISLAND AND PACIFIC RAILROAD COMPANY, DEBTOR, 139 West Van Burean Street, Chicago, Illinois 60605, represented by Mr. Bruce C. Spitzer, Assistant General Attorney, Chicago, Rock Island and Pacific Railroad Company, 139 West Van Buren Street, Chicago, Illinois 60605 hereby give notice that on the 19th day of July, 1976, it filed with the Interstate Commerce Commission at Washington, D.C., an application under Section 5(2) of the Interstate Commerce Act for an order approving and authorizing trackage rights over approximately 4.7 miles of track of the Ashley, Drew and Northern Railway Company between Crossett and Whitlow Junction, in Ashley County, Arkansas, which application is assigned Finance Docket No. 28232.

The proposed transaction is to acquire trackage rights to allow the applicant to operate approximately 4.7 miles between Whitlow Junction and Crossett, Arkansas over Ashley, Drew and Northern Railway Company trackage over which the applicant presently opreates pursuant to Interstate Commerce Commission's Car Service Order No. 1211. This agreement will become effective upon granting of this application and the issuance of a certificate and order permitting the abandonment by the applicant of its line of railroad between Whitlow Junction and Crossett, Arkansas, pursuant to Abandonment Application docketed AB–46 (Sub-No. 12). Trackage rights sought will enable applicant to continue service to Crossett, Arkansas, as now provided pursuant to Service Order No. 1211 and enable the applicant to abandon its own trackage between Whitlow Junction and Crossett, Arkansas.

In the opinion of the applicant, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 C.F.R. 1100.250) in Ex Parte No. 55 (Sub-No. 4), Implementation—Nat'l Environmental Policy Act, 1969, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), supra, Part (b)(1)–(5), 340 I.C.C. 431, 461.

Pursuant to the provisions of the Interstate Commerce Act, as amended, the proceeding will be handled without public hearings unless comments in support or opposition on such application are filed with the Secretary, Interstate Commerce Commission, 12th and Constitution Avenue, NW., Washington, D.C. 20423, and the aforementioned counsel for applicant, within 45 days after date of first publication in the FEDERAL REGISTER; that such comments shall be served upon (a) Mr. William T. Coleman, Jr., Secretary, Department of Transportation, 400 7th Street SW., Washington, D.C. 20590, (b) Mr. Edward H. Levi, Attorney General, Department of Justice, 10th and Constitution Avenue NW., Washington, D.C. 20530, and certificate of all such service is given to the Interstate Commerce Commission; and that all other applications, which are inconsistent, in whole or in part, with such applications, and all petitions for inclusion in the transaction, shall be filed with the Commission and furnished to the Secretary of Transportation, within 90 days after the publication of notice of the application in the FEDERAL REGISTER.

WILLIAM M. GIBBONS, TRUSTEE OF PROPERTY OF CHICAGO, ROCK ISLAND AND PACIFIC RAILROAD COMPANY.

OPERATING RIGHTS APPLICATIONS DIRECTLY RELATED TO FINANCE PROCEEDINGS

NOTICE

The following operating rights applications are filed in connection with pending finance applications under Section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with pending transfer applications under Section 212 (b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the authorities must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR § 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its applications.

No. MC 120523 (Sub-No. 2) (Correction), filed May 22, 1976, published in the FEDERAL REGISTER issues of June 24 and July 15, 1976, and republished as corrected this issue. Applicant: AURORA FAST FREIGHT, INC., 1859 Plain Avenue, Aurora, Ill. 60505. Applicant's representative: Daniel C. Sullivan, 327 South LaSalle St., Chicago, Ill. 60604. The purposes of this partial republication are: (1) to add "Hamel, Ill. and points within 10 miles of Hamel, Ill.," which was previously omitted as intermediate points in the territorial description in (1)(a) of the July 15, 1976 publication; and (2) to indicate the dual nature of applicant's request for conversion of a Certificate of Registration to a Certificate of Public Convenience and Necessity, and conversion of its irregular route authority to regular route authority. This matter is directly related to a Section 5(2) finance proceeding in MC–F–12844, published in the FEDERAL REGISTER issue of June 10, 1976. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

ABANDONMENT APPLICATIONS

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act that orders have been entered in the following abandonment applications which are administratively final and which found that subject to conditions the present and future public convenience and necessity permit abandonment.

A Certificate of Abandonment will be issued to the applicant carriers 30 days after this FEDERAL REGISTER publication unless the instructions set forth in the notices are followed.

Docket No. AB–19 (Sub-No. 15)

ALLEGHENY & WESTERN RAILWAY COMPANY, BUFFALO, ROCHESTER, AND PITTSBURGH RAILWAY COMPANY, AND THE BALTIMORE & OHIO RAILROAD COMPANY—ABANDONMENT PORTION RURAL VALLEY BRANCH BETWEEN ECHO AND MARGARET, IN ARMSTRONG COUNTY, PENNSYLVANIA

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on April 29, 1976, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in Chicago, B. & Q.R. Co., Abandonment, 257 I.C.C. 700, the present and future public convenience and necessity permit abandonment by the Allegheny & Western Railway Company, Buffalo, Rochester, and Pittsburgh Railway Company, and The Baltimore & Ohio Railroad Company of the Rural Valley Branch between Valuation Station 52+00 at or near Echo, Pa., and Valuation Station 408+68 at end of the line at or near Margaret, Pa., a distance of approximately 6.76 miles, in Armstrong County, Pennsylvania. A certificate of abandonment will be issued to the Allegheny & Western Railway Company, Buffalo, Rochester, and Pittsburgh Railway Company, and The Baltimore & Ohio Railroad Company based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

Docket No. AB–83

MAINE CENTRAL RAILROAD COMPANY—ABANDONMENT BETWEEN CARROLL, NEW HAMPSHIRE, AND CANAAN, VERMONT, IN COOS COUNTY, NEW HAMPSHIRE, AND ESSEX COUNTY, VERMONT

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on June 1, 1976, a finding, which is administratively final, was made by the Commission, Division 3, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in Chicago, B. & Q. R. Co., Abandonment, 257 I.C.C. 700, the present and future public convenience and necessity permit abandonment by the Maine Central Railroad Company of the line and operation thereof (1) between milepost 99.44 near Quebec Junction in Carroll, N.H., to milepost 112.46 near Coos Junction, Lancaster, N.H., a distance of 13.02 miles in length, the southern-most 2.5 miles of this segment between Quebec Junction and Waumbek Junction in Jefferson, N.H., proposed to be abandoned and the remainder to be sold to Boston and Maine Corporation under an agreement for $100,000 and (2) between milepost 131.75 at North Stratford to milepost 154.71 at Beecher Falls in the town of Canaan, Vt., a distance of 22.96 miles in length, and permitting abandonment of operations under trackage rights agreements (1) over 8.83 miles of the lines of the Boston and Maine Corporation, from milepost 112.46 at Coos Junction to Groveton in the town of Northumberland, N.H., and (2) over 12.72 miles of the lines of the Canadian National Railway Company from Groveton to milepost 131.75 at North Stratford in the town of Stratford, N.H., a total of 57.52 miles. A certificate of abandonment will be issued to the Maine Central Railroad Company based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS

NOTICE

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Commission's Deviation Rules—Motor Carriers of Property (49 CFR § 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules (49 CFR § 1042.4(c)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of this FEDERAL REGISTER notice.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its request.

MOTOR CARRIERS OF PROPERTY

No. MC 30504 (Deviation No. 15), TUCKER FREIGHT LINES, INC., P.O. Box 3144, South Bend, Ind. 46619, filed July 22, 1976. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Springfield, Mo., over U.S. Highway 66 to junction Missouri Highway 5, thence over Missouri Highway 5 to junction U.S. Highway 54, thence over U.S. Highway 54 to junction U.S. Highway 63, thence over U.S. Highway 63 to junction U.S. Highway 30, thence over U.S. Highway 30 to Marshalltown, Iowa, and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Springfield, Mo., over U.S. Highway 66 to junction U.S. Highway 71, thence over U.S. Highway 71 to junction U.S. Highway 69, thence over U.S. Highway 69 to junction Iowa Highway 330, thence over Iowa Highway 330 Marshalltown, Iowa, and return over the same route.

No. MC 3151 (Deviation No. 5), BENDER & LOUDON MOTOR FREIGHT, INC., 3024 Brecksville Rd., Richfield, Ohio 44286, filed July 22, 1976. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From junction Interstate Highway 94 and Interstate Highway 196, over Interstate Highway 196 to junction U.S. Highway 131 at Grand Rapids, Mich., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From junction Interstate Highway 196 and Interstate Highway 94, over Interstate Highway 94 to junction U.S. Highway 131 near Kalamazoo, Mich., thence over U.S. Highway 131 to Grand Rapids, Mich., and return over the same route.

No. MC 108859 (Deviation No. 7), CLAIRMONT TRANSFER CO., P.O. Box

V 41 152 AUG 5 76 UMI

717, 1803 Seventh Ave., North, Escanaba, Mich. 49829, filed July 22, 1976. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Rochelle, Ill., over U.S. Highway 51 to junction U.S. Highway 20, thence over U.S. Highway 20 to junction Interstate Highway 90, thence over Interstate Highway 90 to junction Wisconsin Highway 15, thence over Wisconsin Highway 15 to junction U.S. Highway 41 at Milwaukee, Wis., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Rochelle, Ill., over Illinois Highway 38 (formerly Alternate U.S. Highway 30) to De Kalb, Ill., thence over Illinois Highway 23 to Sycamore, Ill., thence over Illinois Highway 64 to Chicago, Ill., thence over U.S. Highway 41 to Milwaukee, Wis., and return over the same route.

MOTOR CARRIER INTRASTATE APPLICATIONS NOTICE

The following application for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to Section 206(a)(6) of the Interstate Commerce Act. These applications are governed by Special Rule 245 of the Commission's General Rules of Practice (49 CFR § 1100.245), which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

Florida Docket No. 760481–CCT, filed June 29, 1976. Applicant: RUSH TRUCKING, INC., 3006 SW. 2nd Avenue, Fort Lauderdale, Fla. 33315. Applicant's representative: John P. Bond, 2766 Douglas Road, Miami, Fla. 33133. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of *General commodities*, restricted however, against the transportation of said commodities in bulk; Classes A and B explosives, household goods, livestock, commodities which because of their size or weight require special handling and speical equipment, and commodities requiring refrigeration. All shipments having a prior or subsequent movement by air, between the City of Boca Raton on the one hand, and all points and places in Dade and Broward Counties on the other hand; to, from, and between all points and places in Dade and Broward Counties. Intrastate, interstate, and foreign commerce authority sought. Hearing: Date, time, and place not yet fixed. Requests for procedural information should be addressed to the Florida Public Service Commission, 700 South Adams Street, Tallahassee, Fla. 32304 and should not be directed to the Interstate Commerce Commission.

Florida Docket No. 760446–CCT, filed June 8, 1976. Applicant: ALLIED PARCEL DELIVERY, INC., 401 NE. 62nd Street Miami, Fla. 33138. Applicant's representative: Felix A. Johnston, Jr., 547 N. Monroe Street, Tallahassee, Fla. 32301. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: *General commodities* in an overnight parcel delivery service, except: (1) Class A & B explosives; (2) household goods; (3) commodities which require special equipment because of size; (4) commodities in bulk (excluding wearing apparel on hangers or loose); (5) parcels weighing over 125 pounds; (6) shipments exceeding 500 pounds; (7) Optical and dental goods and supplies; and (8) transportation of parcels in intra-county shipments within Dade County, Florida during the effective life of the inter-change system implemented by the Florida Public Service Commission in its Orders No. 4428 and 4428A, to, from, and between all points and places in Dade, Broward, Palm Beach, and Monroe Counties, Fla., and transportation as a limited common carrier in intrastate, interstate, and foreign commerce of packaged and unpackaged general commodities in a parcel delivery service limited to parcels weighing not more than 125 pounds and shipments not exceeding 500 pounds, except: (1) Class A & B explosives; (2) household goods; (3) commodities which require special equipment because of size; and (4) commodities in bulk (excluding wearing apparel on hangers or loose), to and from Dade, Broward, Palm Beach, and Monroe Counties on the one hand, and, Hillsborough and Pinellas Counties on the other hand, over the following route: U.S. 41 to Tampa and Interstate 275 to St. Petersburg or as an alternate route for operating convenience only, Alligator Alley (St. Rd. 84) from Andytown to St. Rd. 29 to Immokalee, thence over St. Rd. 82 to Ft. Myers, thence U.S. 41 to Tampa and Interstate 275 to St. Petersburg; serving all intermediate and off route points. Interastate, interstate, and foreign commerce authority sought. Hearing: Date, time, and place not yet fixed. Requests for procedural information should be addressed to the Florida Public Service Commission, 700 South Adams Street, Tallahassee, Fla. 32304 and should not be directed to the Interstate Commerce Commission.

Texas Docket No. 002600A1A, filed July 16, 1976. Applicant: RED ARROW FREIGHT LINES, INC., 3901 Seguin Road, San Antonio, Tex. 78205. Applicant's representative: Phillip Robinson, P.O. Box 2207, Austin, Tex. 78767. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of *General Commodities*, between Victoria, Texas, and site of the Coleta Creek Power Station of Central Power and Light Company near Fannin, Texas, as follows: From Victoria, Texas, over U.S. Highway 59 to Fannin, Texas, and thence over F.M. Road 2987 to the site of the Coleta Creek Power Station of Central Power and Light Company and return, serving no intermediate points, and joining, tacking, and coordinating the authority sought with other authority contained in Common Carrier Motor Carrier Certificate No. 002600 and MC 2226 and subs thereunder. Intrastate, interstate, and foreign commerce authority sought. Hearing: Date, time, and place not yet fixed. Requests for procedural information should be addressed to the Texas Railroad Commission, P.O. Drawer 12967, Capitol Station, Austin, Tex. 78711, and should not be directed to the Interstate Commerce Commission.

By the Commission.

PART II:

SECURITIES AND EXCHANGE COMMISSION

ELIGIBLE SECURITIES

Dissemination of Quotations

V 41 152
AUG 5 76
UMI

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

[Release No. 34-12670; File S7-648]

ELIGIBLE SECURITIES

Dissemination of Quotations

The Securities and Exchange Commission announced today that it has proposed for comment Rule 11Ac1-1 [17 CFR § 240.11Ac1-1] under the Securities Exchange Act of 1934 (the "Act") [15 U.S.C. 78a et seq., as amended by Pub. L. No. 94-29 (June 4, 1975)], governing dissemination of quotation information with respect to securities as to which last sale information is reported in the consolidated transaction reporting system (the "consolidated system") contemplated by Rule 17a-15 under the Act [17 CFR § 240.17a-15] ("eligible securities").

Rule 11Ac1-1 would require national securities exchanges to collect from their specialists, and national securities associations to collect from third market makers, quotations in eligible securities for disemination by those self-regulatory organizations to quotation vendors. In addition to requiring exchanges and associations to make quotations available to quotation vendors, those organizations also would be obligated to provide such vendors with their specialists' and market makers' quotation sizes if those specialists and market makers elect to make such sizes available for dissemination.

I. BACKGROUND

In February, 1972, in its Statement on the Future Structure of the Securities Markets, the Commission called for the establishment of a central market system for listed securities and, as an integral part thereof, "a nationwide disclosure or market information system to make universally available price and volume information from all markets and quotations from all market makers." [1] This nationwide disclosure system contemplated the development and implementation of both a consolidated transaction reporting system—a system which is now in place—and a composite quotation system so that "buyers and sellers of securities, wherever located, can make informed investment decisions and not pay more than the lowest price at which someone is willing to sell nor sell for less than the highest price a buyer is prepared to offer." [2] In discussing the proposed composite quotation system, the Commission noted that:

[t]he technology and hardware for such a system are said to be available, and any remaining regulatory problems should be promptly worked out so that the system can attain its objective of providing quotations which are truly comparable, notwithstanding the different assumptions on which they may be based.[3]

The Commission's commitment to the establishment of a composite quotation system was further demonstrated in its March, 1973, Policy Statement on the Structure of a Central Market System, in which the Commission stated:

At the very heart of the central market system * * * will be an efficient and comprehensive communications linkage between market centers consisting of a real-time composite transaction reporting system and *a composite quotation system displaying the bids and offers of all qualified market makers in listed securities.* The necessary steps which have to be taken to achieve the composite reporting system already are well under way. The next step will be to demonstrate a similar commitment to making the much-discussed composite quotation system a reality.[4]

Establishment of a composite quotation system has also found support in the Congress. Securities industry studies by both the Senate and the House of Representatives regarded the development of a composite quotation system as an essential element in the creation of a national market system and regarded Commission action as an integral part of the development of such a system.[5] Moreover, although the Congress, in enacting the Securities Acts Amendments of 1975 (the "1975 Amendments"),[6] did not mandate minimum elements of a national market system,[7] Section 11A of the Act [15 U.S.C. 78k-1], added by the 1975 Amendments, contains a Congressional finding that "[i]t is in the public interest and appropriate for the protection of investors and the maintenance of fair and orderly markets to assure * * * the availability to brokers, dealers and investors of information with respect to quotations for and transactions in securities," [8] and that "the linking of all markets * * * through communication and data processing facilities will foster efficiency, enhance competition, increase the information available to brokers, dealers and investors, facilitate the offsetting of investors' orders, and contribute to best execution of such orders." [9] That Section directs the Commission "to use its authority under [the Act] to facilitate the establishment of a national market system * * * in accordance with the findings and to carry out the objectives set forth [in Section 11A of the Act]." [10]

To date, Commission actions designed to facilitate the development of a composite quotation system have been limited to the proposal and reproposal of Rule 17a-14 under the Act [17 CFR § 240.17a-14],[11] and a formal request to national securities exchanges that such exchanges effect changes in their rules and practices to eliminate those which restrict access to or use of quotation information.[12]

II. PROPOSED RULE 11 Ac1-1

A composite quotation system continues to be viewed by the Commission as a basic element of a national market system. As the Commission has stated before,

quotation information * * * is essential to broker-dealers, whether members [of exchanges] or not, in discharging their duty of reasonable diligence in the execution of customers' orders. * * * In addition, quotation information is of significant value to the market place as a whole insofar as a quotation reflects the considered judgment of a market professional as to various factors affecting the market, including the current price levels and size of buying and selling interest * * * Finally, quotation information is of considerable value to investors, both individual and institutional, in determining the best market for execution and in the understanding the market forces at work at any given time.[13]

Since mid-1975, several major efforts have been made to develop and market a composite quotation service. GTE Information Systems, Inc., has been providing a "dynamic" best bid and offer service[14] to subscribers since September,

On May 7, 1975, the Commission announced that it had received responses (to its March 11, 1975 request) from all national securities exchanges and that all exchanges either had taken the action requested by the Commission or had informed the Commission that they had no rules or practices which restrict access to or use of such information. Securities Exchange Act Release No. 11406 (May 7, 1975).

[13] Securities Exchange Act Release No. 11288 (March 11, 1975) at 2, 40 FR 15015 (1975).

[14] This service displays the best bid and offer from reoprting market centers, updated automatically, but does not include complete quotations from all market centers.

1975, and the Institutional Networks Corporation ("Instinet") has recently begun providing a composite quotation montage to its subscribers which displays quotations from various exchange market centers accompanied by an indication of the time which has elapsed since each quotation was last updated. In addition, the National Association of Securities Dealers, Inc. ("NASD") has announced that it intends to initiate a composite quotation service early in 1977 similar to the NASDAQ service currently available for over-the-counter stocks.

The Commission believes, however, that despite the efforts made to develop a composite quotation service, the quality of quotation information disseminated to brokers, dealers and investors can be improved substantially, and that numerous problems relating to the dissemination of useful and reliable quotation information have yet to be resolved. Exchange markets still do not report "firm" quotations, and no market disseminates information as to quotation sizes. In many cases, quotation information supplied to vendors is not updated promptly to reflect changes in actual quotations in the various markets. Moreover, certain "regional" exchanges either supply no quotation information at all or supply such information only after the close of trading on the "primary" exchanges.

The Commission believes that the lack of reliable quotation information from the various markets is hampering private and self-regulatory efforts to establish a viable composite quotation system. In turn, the absence of such a system is impeding development of a national market system. As a result, it appears necessary in the public interest, for the protection of investors and to facilitate the establishment of a national market system, for the Commission to take additional regulatory steps to improve the quality of quotation information disseminated by the various markets.

The Commission, therefore, is proposing for public comment Rule 11Ac1-1 under the Act [17 CFR § 240.11Ac1-1]. Proposed Rule 11Ac1-1 would require, on and after November 1, 1976, every exchange and association have established and to maintain procedures and mechanisms for collecting quotations in eligible securities (and, if provided, quotation sizes) from its specialists and third market makers. Such quotations and quotation sizes would be required to be made available to quotation vendors in accordance with the requirements of the proposed rule.[15]

The proposed rule does not specify the manner in which, or the frequency with which, quotations are to be collected, processed and made available by exchanges and associations, or require that quotations be made available within any specified time limits. Proposed Rule 11Ac1-1, however, would require specialists and third market makers to communicate their quotations promptly to the relevant exchange or association in accordance with such exchange's or association's procedures to permit timely dissemination of that data to quotation vendors.

Proposed Rule 11Ac1-1 would require quotations covered by the rule to be "firm," subject to certain exceptions. In particular, the rule would provide that any specialist or third market maker who is presented with an order for the purchase or sale of any eligible security (other than an order for the purchase or sale of an odd lot) must stand ready to execute a transaction in that security in any amount up to such specialist's or third market maker's published quotation size (or, in the event no quotation size is disseminated, a normal unit of trading) at a price at least as favorable to the buyer or seller as the bid or asked price comprising part of that specialist's or third market maker's published quotation (i.e., the most recent quotation of such specialist or third market maker made available to quotation vendors pursuant to the rule which is displayed by quotation vendors on a terminal or other display device at the time the order is presented). The foregoing requirement would not apply if, after the dissemination of a published quotation and before an order is presented to the specialist or third market maker: (i) a transaction in that security is effected on the floor of the particular exchange involved, or by the third market maker, as the case may be, or a transaction in that security is reported in the consolidated system; or (ii) the specialist or third market maker has communicated a quotation to the relevant exchange or association superseding his published quotation. In addition, in no event would a specialist or third market maker be bound to execute an order in a size greater than the most recent quotation size communicated by him to the relevant exchange or association for dissemination to quotation vendors.

In the event a specialist or third market maker is relieved of his obligation to effect transactions in a particular eligible security at the price of the bid or offer comprising his published quotation for one of the foregoing reasons, if such specialist does not communicate a quotation superseding his published quotation for that security within three minutes after the occurrence of a transaction or a report of a transaction, such specialist or market maker nevertheless would be obligated to effect a transaction in that security in accordance with the general rule as to firmness.

III. REQUEST FOR PUBLIC COMMENT

The Securities and Exchange Commission hereby proposes Rule 11Ac1-1 [17 CFR § 240.11Ac1-1] pursuant to its authority under the Securities Exchange Act of 1934 [15 U.S.C. 78a *et seq.*, as amended by Pub. L. No. 94-29 (June 4, 1975)], and particularly Sections 2, 3, 6, 11A, 15, 15A, 17 and 23 thereof [15 U.S.C. 78b, 77c, 78f, 78k-1, 78o, 78o-3, 78q and 78w]. The text of the proposed rule is as follows:

§ 240.11Ac1-1 Dissemination of quotations for eligible securities.

(a) For purposes of this section:

(1) The term "third market maker" shall mean a "market maker" as defined in § 240.15c3-1(c)(8) (Rule 15c3-1(c)(8) under the Act) who makes markets over-the-counter in eligible securities;

(2) The term "specialist" shall mean any member of a national securities exchange ("exchange") who is registered as a specialist pursuant to the rules and regulations of such exchange, and any other member of an exchange who also performs on the floor of that exchange, either the market making or limit order representation function of a registered specialist;

(3) The term "quotation vendor" shall mean any securities information processor engaged in the business of disseminating to brokers and dealers, on a real-time or current and continuing basis, quotations for eligible securities, whether distributed through an electronic communications network or displayed on a terminal or other device, or otherwise;

(4) The term "eligible security" shall mean any security as to which last sale information is reported in the consolidated system;

(5) The term "consolidated system" shall mean the consolidated transaction reporting system contemplated by § 240.17a-15 (Rule 17a-15 under the Act);

(6) The term "make available," when used with respect to quotations supplied to quotation vendors by an exchange or a national securities association ("association"), shall mean to provide circuit connections at the premises of the exchange or association supplying those quotations for the delivery of such quotations to such vendors;

(7) The term "quotation" when used with respect to bids and offers of a specialist or a third market maker, shall mean the highest current bid price and the lowest current offer price most recently communicated by that specialist or third market maker to any broker, dealer or customer at which he is willing to buy or sell a particular amount of eligible securities, either as principal or agent, but shall not include (i) indications of interest or (ii) any bid or offer by that specialist or third market maker made in response to any inquiry by a broker, dealer or customer with respect to that specialist's or third market maker's willingness to buy or sell eligible securities in an amount greater than that bid for or offered by that specialist or third market maker in communicating his quotation;

(8) The term "published quotation," when used in connection with an order to buy or sell eligible securities presented to a specialist or third market maker, shall mean the most recent quotation of such specialist or third market maker made

[15] It is anticipated that each exchange's and association's procedures and mechanisms would include details as to the form in which quotations and quotations sizes would be made available to quotation vendors (including precise specifications and formats) so that quotation vendors will be able to use effectively the quotations and sizes required to be made available to them.

V 41 152 AUG 5 76 UMI

available to quotation vendors pursuant to this section which is displayed by quotation vendors on a terminal or other display device at the time the order is presented;

(9) The term "quotation size," when used with respect to a specialist's or third market maker's quotation, shall mean the number of shares (or units of trading) of an eligible security which that specialist or market maker has stated he is willing to buy at the bid price or sell at the offer price comprising his quotation, either as principal or agent;

(10) The term "published quotation size," when used in connection with an order to buy or sell eligible securiites presented to a specialist or third market maker, shall mear the most recent quotation size (if any) of that specialist or third market maker made available to quotation vendors pursuant to this section and displayed by quotation vendors on a terminal or other display device at the time the order is presented;

(11) The term "odd-lot" shall mean an order for the purchase or sale of an eligible security in an amount less than a normal unit of trading.

(b)(1) On and after November 1, 1976, every exchange and association shall have established and shall maintain procedures and mechanisms for collecting quotations and, if provided, quotation sizes, from specialists and third market makers, processing such quotations and sizes, and making such quotations and sizes available to quotation vendors, in accordance with paragraph (b)(2) of this section.

(2) Every exchange and every association shall collect, process and make available to quotation vendors quotations and quotation sizes of its specialists and market makers, as follows:

(i) Every exchange shall, at all times such exchange is open for trading, collect, process and make available to quotation vendors quotations of its specialists for each eligible security registered or admitted to unlisted trading privileges on that exchange; provided, however, that no quotation for an eligible security shall be required to be collected, processed and make available by an exchange during any period when trading in that security on that exchange has been suspended;

(ii) Every association shall, at all times list sale information with respect to eligible securities as reported in the consolidated system, collect, process and make available to quotation vendors quotations of third market makers who are members of such association for each eligible security for which one or more members act as a third market maker, provided, however, that no quotation for an eligible security shall be required to be collected, processed and made available by an association during any period when over-the-counter trading in that security has been suspended;

(iii) Every quotation for an eligible security made available to quotation vendors pursuant to this section shall be accompanied by a quotation size if the specialist or third market maker communicating that quotation elects to provide such size to the exchange or association for the purpose of disseminating such size to quotation vendors.

(3) Nothing in this section shall preclude any exchange or association from imposing fair and reasonable charges for the dissemination of quotations.

(c)(1) Every specialist and third market maker shall promptly communicate to his exchange or association (as the case may be), pursuant to the procedures established by that exchange or association, his quotations in eligible securities (and, if such specialist or third market maker so elects, his quotation sizes).

(2) Subject to the provisions of paragraphs (c)(3) and (c)(4) of this section, every specialist and third market maker shall be obligated to execute any order, other than an odd-lot order, to buy or sell eligible securities presented to him by a broker or dealer, or any other category of person with whom such specialist or third market maker customarily deals, at a price at least as favorable to such buyer or seller as the price of the bid or offer (as the case may be) comprising such specialist's or third market maker's published quotation in any amount up to the published quotation size (or, in the event no quotation size has been disseminated in connection with such published quotation, a normal unit of trading).

(3) Subject to the provisions of paragraph (c)(5) of this section, no specialist or third market maker shall be obligated to execute a transaction as provided in paragraph (c)(2) of this section if, after dissemination of such specialist's or third market maker's published quotation and before the order sought to be executed is presented, (i) a transaction in the eligible security sought to be bought or sold has been effected on the floor of such specialist's exchange or with such third market maker, or has been reported in the consolidated system, or (ii) such specialist or third market maker has communicated to his exchange or association (as the case may be), pursuant to paragraph (c)(1) of this section, a quotation superseding his published quotation.

(4) Notwithstanding paragraph (c)(2) of this section, if, prior to the presentation of an order to buy or sell eligible securities, a specialist or third market maker has communicated to his exchange or association (as the case may be), pursuant to paragraph (c)(1) of this section, a quotation size superseding his published quotation size (a "revised quotation size"), he shall not be obligated by this section to purchase or sell eligible securities in an amount greater than his revised quotation size.

(5) If a specialist or third market maker does not communicate a quotation superseding his published quotation in an eligible security within 3 minutes after the occurrence of a transaction in that security effected on such specialist's exchange or with such third market maker (as the case may be), or within 3 minutes of the reporting of a transaction in that security in the consolidated system, such specialist or third market maker shall, upon presentation of an order, be obligated to execute a transaction in accordance with the provisions of paragraph (c)(2) of this section notwithstanding paragraph (c)(3) of this section.

(d) The Commission may exempt from the provisions of this section, either unconditionally or on specified terms and conditions, any specialist, third market maker, national securities exchange, or national securities association if the Commission determines that such exemption is consistent with the public interest, the protection of investors, and the removal of impediments to and perfection of the mechanism of a national market system.

(Secs. 2, 3, 6, 15, 17, 23, Pub. L. 78-291, 48 Stat. 881, 882, 885, 895, 897, 901, as amended by Secs. 2 3, 4, 11, 14, 18, Pub. L. 94-29, 89 Stat. 97, 104, 121, 137, 155 (15 U.S.C. 78b, 78c, 78f, 78k-1, 78o, 78q, 78w, as amended by Pub. L. 94-29 (June 4, 1975)); Sec. 1, Pub. L. 75-719, 52 Stat. 1070, as amended by Sec. 12, Pub. L. 94-29, 89 Stat. 127-131 (15 U.S.C. 78o-3, as amended by Pub. L. 94-29 (June 4, 1975)); Sec. 7, Pub. L. 94-29, 89 Stat. 111 (15 U.S.C. 78k-1))

All interested persons are invited to submit written views, data and arguments with respect to proposed Rule 11Ac1-1. Persons wishing to make such submissions should file six copies thereof with George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Room 892, 500 North Capitol Street, Washington, D.C. 20549, not later than September 15, 1976. All submissions should make reference to File No. S7-648, and will be available for public inspection at the Commission's Public Reference Room, Room 6101, 1100 L Street, NW., Washington, D.C.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

PART III:

ADMINISTRATIVE COMMITTEE OF THE FEDERAL REGISTER

PREPARATION OF FEDERAL REGISTER DOCUMENTS

Clarity of Explanatory Material

V 41 1 52 AUG 5 76 UMI

ADMINISTRATIVE COMMITTEE OF THE FEDERAL REGISTER

[1 CFR Part 18]

PREPARATION OF FEDERAL REGISTER DOCUMENTS

Clarity of Explanatory Material

The Administrative Committee of the Federal Register is considering amending its regulations to make it easier for the affected public to use and understand the FEDERAL REGISTER. Specifically, the Committee proposes to require a standardized format for the opening portion of each FEDERAL REGISTER document so that each document will meet certain minimum standards of clarity.

COMMENTS BY: September 20, 1976.
ADDRESSED TO: Special Projects Unit, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, DC 20408.
FOR FURTHER INFORMATION CALL: 202–523–5240.

On November 26, 1975, GSA published a proposed Consumer Representation Plan (CRP) (40 FR 55245). With respect to the Office of the Federal Register (OFR) it stated: "The most significant role of the OFR is to provide through its publications • • • a vehicle for informing consumers of what Federal agencies are doing or proposing to do and what consumers can do about these actions • • •." (40 FR 55247). This notice of proposed rulemaking is directed to the concerns expressed in the proposed CRP.

BACKGROUND

The opportunity for the public to comment on proposed Federal regulations dates from 1946 (Administrative Procedure Act of 1946, 5 U.S.C. 551 et seq.) and it is clear that the Congress meant the opportunity to be a meaningful one. Specifically, the Administrative Procedure Act (APA) required that each proposal must contain "either the terms or substance of the proposed rule or a description of the subjects and issues involved." The legislative history of this provision indicates that Congress intended that each document "must be sufficient to fairly apprise interested parties of the issues involved, so that they may present responsive data or arguments relating thereto" (Legislative History of the APA, 79th Congress, 2nd Session, Senate Document No. 245, p. 200).

Similarly, the APA requirements for a final rule stated, "after consideration of the related matter presented, the agency shall incorporate in the rules adopted a concise general statement of their basis and purpose." It is clear from the legislative history of the APA that Congress intended that throughout the rulemaking process the public would be fully informed of the reasons for Federal regulations.

In an effort to introduce some uniform compliance with the public information function of the FEDERAL REGISTER and to make the information published easier to understand, the Administrative Committee adopted the present preamble requirement (§ 18.12) effective January 4, 1973. That requirement sought, as a minimum, a statement "that describes the contents of the document in a manner sufficient to apprise a reader, *who is not an expert in the subject area*, of the general subject matter of the rule making document." (Emphasis added.) The Committee's intent was to insure that each document would contain an explanation that would be intelligible to the average citizen. During the last four years, many agencies have made significant improvements in this regard. During the same period, however, both the volume of rule making documents and the extent of public interest in those documents have increased so substantially that the Committee believes that further steps are necessary. To fully accomplish the public notice giving function of the FEDERAL REGISTER, the Committee proposes to replace the present preamble requirement with a requirement which would establish—

(1) A standardized format for the opening portion of each FEDERAL REGISTER document; and

(2) A requirement that certain minimal information be provided in the remaining portion of each document.

A target date of January 1, 1977, is being considered for total agency compliance with these provisions.

The Committee is interested in public comment on the best common term to be used for the explanatory material being required. The Committee's term "preamble" used in § 18.12 is commonly understood by lawyers but seems inappropriate to laymen. The statutory phrase "basis and purpose" similarly seems inappropriate. The material being required is basically a report to the public by a Federal agency. It is an "explanation" to begin with a "summary" whenever the explanation is lengthy. These are the terms the Committee has used in its proposed regulatory language. Your comments and suggestions are invited.

The Committee is also considering deleting the provisions of § 18.16, the highlight requirement, since the opening portion of each FEDERAL REGISTER document would contain enough information to enable the staff of the OFR to draft meaningful highlight statements.

For the stated reasons, the Committee proposes to amend Title 1 CFR Part 18 by:

1. Revising § 18.12 of the regulations of the Administrative Committee of the Federal Register (1 CFR Chapter I) as follows:

§ 18.12 **Explanation and summary.**

(a) The issuing agency shall prepare, for each rule, proposed rule and notice, an explanation which will inform the reader, who is not an expert in the subject area, of the general contents, intended effect, and reasons for publication of that document. This statement shall be called the "explanation."

(b) The explanation shall contain an introductory summary which provides in simple language the following information:

(1) The name of the issuing agency;

(2) Identification of the document as a proposed rule, final rule, or notice;

(3) A brief statement of the intended effect of the document;

(4) A brief statement as to the circumstances which created the need for the action; and

(5) A listing, as appropriate, of relevant dates and addresses.

(c) The explanation shall contain, following the summary, a report of any matters the issuing agency considers to be in the public interest, including, but not limited to—

(1) The major issues involved;

(2) In the case of a final rule, the principal differences, if any, between it and the proposed rule;

(3) A response to public comments received;

(4) Whether the action will result in an increase, or decrease, in burden (including costs);

(5) Who will bear the burden; and

(6) The appropriate impact statements.

(d) The detailed report required by paragraph (c) of this section may be omitted if the document is simple or routine and if the issuing agency determines that the information contained in the summary is sufficient to adequately inform a reader who is not an expert in the subject area.

§ 18.16 [Revoked]

2. By revoking § 18.16 of the regulations of the Administrative Committee of the Federal Register (1 CFR Chapter I).

(44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR, 1954–1958 Comp., p. 189.)

Dated: July 30, 1976.

FRED J. EMERY,
Secretary.

SECURITIES OFFERING DISCLOSURE RULES

Notice of Proposed Rulemaking

V41152 AUG 5 76 UMI

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

[12 CFR Part 16]

SECURITIES OFFERING DISCLOSURE RULES

Notice of Proposed Rulemaking

Notice is hereby given that the Comptroller of the Currency, pursuant to the general authority of the national banking laws, R.S. 324 *et seq.*, as amended; 12 USC 1 *et seq.*, proposes to revise Part 16 of Title 12 of the Code of Federal Regulations containing the rules applicable to the offering by an existing or newly organized national bank, or a bank operating under the Code of Laws of the District of Columbia, of its securities. Part 16, as revised, would apply to all offerings and sales by a bank of its securities, subject to the exemptions provided therein.

The Comptroller of the Currency proposes these revisions to Part 16 in order that prospective investors are provided with all material facts and information relating to the business operations and financial condition of banks seeking to obtain funds through the public offer and sale of their securities. The securities of banks are exempt from the registration requirements of Section 5 of the Securities Act of 1933 (12 USC § 77e) by virtue of the provisions of Section (3)(a)(2) thereof (15 USC § 77c(a)(2)). The offer and sale of such securities are nevertheless subject to the antifraud provisions of Section 17(a) of Securities Act (15 USC § 77q(a)), and Section 10(b) of the Securities Exchange Act of 1934 (15 USC § 78j(b)) and Rule 10b–5 thereunder (17 CFR 240.10b–5).

The disclosure guidelines contained in the revised regulation evoke information relating to bank activities, in a form consistent with that presented to the Office of the Comptroller of the Currency in other reporting contexts, particularly the Consolidated Reports of Condition and Income as recently amended by the federal banking agencies.

The proposed disclosure guideline standards are intended to accommodate and facilitate their utilization by smaller banks seeking to avail themselves of the public capital markets. Thus, the guidelines should be viewed as a minimum standard to be supplemented as the character and circumstances of the issuer, and the standard of materiality may warrant.

The following highlights the major revisions proposed to Part 16:

(a) The regulations, as revised, will apply to the offer and sale of equity and debt securities by all banks. Part 16, as presently in force, is not applicable to the offer and sale of equity securities by existing banks.

(b) The regulation, as revised, will not permit the offer and sale by a bank of its securities until the offering circular required to be filed pursuant thereto has been declared effective by the Office of the Comptroller of the Currency, except where the offering is underwritten and prior approval of the Comptroller of the Currency is obtained.

(c) The regulation, as revised, incorporates separate disclosure guidelines for offerings by existing banks and banks in organization. This approach recognizes the different character of information relevant for prospective investors in banks in organization.

(d) Exemptions from the regulation have been provided for (1) a non-public offering, as discussed below; (2) a public offering by a bank of its securities where the offering when aggregated with the amount of all offerings of the bank's securities in the immediately preceding 12 month period does not exceed $100,000; (3) a reclassification of securities, merger, consolidation or acquisition of assets where the bank utilized a proxy statement prepared substantially in accordance with 12 CFR 11.5; and (4) a transaction in which the securities of a bank are offered to its employees or directors pursuant to a stock purchase or savings plan meeting the requirements of 12 CFR 13.

(e) An exemption from the regulation has been provided for a transaction not involving a public offering, as defined therein. A non-public offering is characterized by (1) negotiation of the terms of the offering by direct communication between the bank and the offeree or an independent investment representative of the offeree; (2) access by the offeree or the investment representative of the offeree to comprehensive financial information concerning the bank; (3) sale of the securities offered to not more than 15 persons within any continuous 12 month period; and (4) restriction of the security by its terms so as to prevent exchange of the security for securities of smaller denominations without requisite prior notification to the Comptroller of the Currency. Application may be made to the Comptroller of the Currency to increase the number of purchasers.

(f) The specific informational items set forth in Part 16, as presently in force, have been supplemented, reorganized and expanded to require more comprehensive disclosure. The areas of disclosure include: identification of any underwriter and a description of the terms of the underwriting or plan of distribution; the proposed uses of the proceeds of the offering; a description and analysis of the operations of the bank and its competitive position; a description of the terms of the securities offered; the identity, business experience, remuneration and securities ownership of management; the identity and securities ownership of each principal shareholder, and where the bank is controlled by a holding company, information concerning the holding company's operations; a description of material transactions between the bank, its management and principal shareholders; pending material legal and regulatory proceedings; and trading market activity, if any, relating to the securities of the bank.

(g) Financial information disclosure requirements have been revised to require comprehensive data, presented on a comparative basis with prior periods, consistent with information currently required in the Consolidated Reports of Condition and Income filed with the Comptroller. The specific financial statements required to be included in the offering circular are:

(1) Comparative Summary of Earnings for the last five fiscal years and any interim periods within 90 days of the effective date of the offering circular, together with a management discussion of the results for the last two fiscal years and reported interim periods and a computation of certain specified ratios;

(2) A Statement of Condition for the most recent fiscal year and any reported interim period;

(3) Comparative Statements of Income for the last two fiscal years and any reported interim periods and the same interim period for the previous year;

(4) Comparative Statements of Changes in Equity Capital Accounts for the last two fiscal years and any reported interim periods;

(5) A comparative reconciliaiton of the "Reserve for Possible Loan Losses" account for the last two fiscal years and any reported interim period and the same interim period for the previous year;

(6) Comparative Statement of Changes in Financial Position for the last two fiscal years and any reported interim period.

(7) It is expected that supplemental notes to the financial statement will be presented to the extent necessary to furnish a fair financial presentation. The financial statements are to be prepared in accordance with the instructions set forth by the Office of the Comptroller of the Currency in the publication entitled, "Instructions for Preparation of Consolidated Reports of Condition and Reports of Income by National Banking Associations" and in any other releases amending that publication.

(8) The financial statements must be updated during the offering period by attaching the most recent Consolidated Reports of Condition and Income of the bank.

(h) The general instructions to the offering circular disclosure guidelines clearly indicate that the standard of materiality may require inclusion of information in addition to that specified in the guidelines so as to make the information disclosed complete and not misleading. Information need be given only to the extent applicable or reasonably known or available to the bank. Information not known or reasonably available may be omitted under prior authorization of the Comptroller of the Currency. Such authorization will be granted only upon an appropriate showing by the bank as to the factual basis for the requested omission.

COMMENTS

All interested persons are invited to submit written comments on the proposed revision on or before September 20, 1976. The communications should be addressed to C. Westbrook Murphy, Deputy Comptroller for Law and Chief Counsel, Comptroller of the Currency, Washington, D.C. 20219. All comments will be available for public inspection.

It is proposed to revise 12 CFR Part 16 to read as follows:

Part 16—Securities Offering Disclosure Rules

Sec.
16.1 Authority.
16.2 Definitions.
16.3 Requirement of an offering circular, filing and effective date.
16.4 Exempt transactions.
16.5 Nonpublic offerings.
16.6 Form of, and information required in an offering circular of an existing bank.
16.7 Form of, and information required in an offering circular of a bank in organization.
16.8 Advertisements.

AUTHORITY: The provisions of this Part 16 issued under 12 U.S.C. 1 *et seq.*

REGULATIONS

§ 16.1 Authority.

This Part is issued under the general authority of the national banking laws, R.S. 324 *et seq.* as amended; 12 U.S.C. 1 *et seq.*, and contains rules applicable to the offering of securities.

§ 16.2 Definitions.

When used in this Part, unless the context otherwise requires—

(a) The term "bank" means an existing national bank, a national bank in organization, or a bank operating under the Code of Law of the District of Columbia.

(b) The term "offer," "offer to sell," "offer for sale," or "offering" shall include every attempt or offer to dispose of, or solicitation of an offer to buy, a security, for value. The terms defined in this paragraph shall not include, with respect to a bank in organization, the solicitation of indications of interest preliminary to any solicitation of subscriptions.

(c) The term "sale" or "sell" shall include every contract of sale or disposition of a security, for value, including every merger, transfer of assets, consolidation, and reclassification (other than a stock devidend, stock split, reverse stock split or change in par value) which involves the substitution of a security for another security.

(d) The term "security" means any common stock, preferred stock, or other equity security, or right to subscribe to any of the foregoing, or subordinated note or debenture. The term "security" shall not include any deposit as defined in § 217.1 of Regulation Q of the Federal Reserve Board, loan participation, letter of credit or other form of bank indebtedness incurred in the ordinary course of business.

(e) The term "executive officer" means a Chairman of the Board of Directors, Vice Chairman of the Board, Chairman of the Executive Committee, President, Vice President (except as indicated in the next sentence), Cashier, Treasurer, Secretary, Comptroller, and any other person who participates in major policy making functions of the bank. In some banks (particularly banks with officers bearing titles such as Executive Vice President, Senior Vice President, or First Vice President as well as a number of "Vice Presidents"), some or all "Vice Presidents" do not participate in major policy making functions, and such persons are not executive officers for the purpose of this part.

(f) The term "associate," when used to indicate a relationship with any person, means (1) any corporation or organization (other than the bank or a majority owned subsidiary of the bank) of which such person is an officer or partner or is, directly or indirectly, either alone or together with one or more members of his immediate family, the beneficial owner of 10 percent or more of any class of equity securities, (2) any trust or other estate in which such person has a substantial beneficial interest or as to which such person serves as trustee or in a similar fiduciary capacity, and (3) any relative or spouse of such person or any relative of such spouse, who has the same home as such person, or who is a director or officer of the bank or any of its parents or subsidiaries.

§ 16.3 Requirement of an offering circular, filing and effective date.

(a) No bank shall, directly or indirectly, offer, offer to sell, offer for sale or sell any security of which it is the issuer unless such offer, offer to sell, offer for sale or sale is made through the use of an offering circular which has been filed with, and declared effective by, the Office of the Comptroller of the Currency.

(b) Notwithstanding paragraph (a) above, securities of a bank to be offered by or through underwriters may be so offered through an offering circular filed pursuant to this Part but before its effective date if (1) the prior authorization of the Comptroller of the Currency is obtained; and (2) a copy of the offering circular as declared effective is furnished to each purchasing offeree prior to consummation of the sale.

(c) The offering circular required by this Part shall be filed in quadruplicate, in the form and containing the information specified by § 16.6 and § 16.7. The offering circular shall be accompanied by a certificate manually signed by the principal executive officer and the cashier of the bank, in the following form:

SIGNATURES

Pursuant to the requirements of 12 CFR 16, the bank has duly caused this Offering Circular to be filed on its behalf by the undersigned, thereunto duly authorized in the City of ---------- and State of ----------, on the ---- day of ----------, 19--.

(Bank)

By ----------
(Signature and Title)

By ----------
(Signature and Title)

(d) The effective date of the offering circular shall be the date on which it is declared effective by the Comptroller of the Currency. The offering circular shall be effective for a period of six months, which period may be extended for two consecutive 90 day periods upon request to the Comptroller of the Currency. The offering circular must be updated during the course of the offering period by attaching the most recent Consolidated Reports of Condition and Income of the bank.

(e) If the distribution is not completed by the expiration of the period of effectiveness, and any extentions thereof, an amended offering circular containing current information shall be filed and used in accordance with this Part.

(f) In no event shall an offering circular be used which is false or misleading in light of the circumstances then existing.

§ 16.4 Exempt transactions.

Except as provided in § 16.7(a), this Part shall not apply to:

(a) Any transaction by a bank not involving a public offering, as defined in § 16.5.

(b) Any offering by a bank of its securities where the amount of the securities offered for sale when aggregated with the amount of all other sales by the bank of its securities within the 12 months immediately preceding commencement of the subject offering does not exceed $100,000. A notice containing the following information shall be filed by the bank with the Comptroller of the Currency within 20 days prior to commencement of the offering.

(1) The name of the bank and location of its principal place of business;

(2) The class of security to be offered;

(3) The aggregate offering price of the securities; and

(4) The class and aggregate offering price of all securities sold within the 12 months prior to the proposed commencement date of the offering.

(c) Any reclassification of securities, merger, consolidation or acquisition of assets by a bank where the bank utilizes a proxy statement prepared substantially in accordance with the requirements of 12 CFR 11.5.

(d) Any transaction in which the securities of a bank are offered to its employees or directors pursuant to a stock purchase or savings plan meeting the requirements of 12 CFR 13.

§ 16.5 Nonpublic offerings.

Transactions by a bank involving the offer, offer to sell, offer for sale or sale of securities of the bank shall be deemed to be transactions not involving any public offering if all of the following conditions are satisfied:

(a) *Nature of offerees.* The bank shall have reasonable grounds to believe, and shall believe, prior to making an offer, that the offeree or his independent investment representative has such knowledge and experience in financial and business matters that they are capable of evaluating the information referred to in paragraph (c) below and the risks of the prospective investment. An "independent investment representative" means any person who is not an officer, director, or employee of the bank, is not acting on behalf of the bank, and is capable of

V 41 152 AUG 5 76 UMI

evaluating the merits and risks of the prospective investment.

(b) *Limitation on the manner of offering.* All offers and sales are made in negotiated transactions. A negotiated transaction means a transaction in which the securities are offered and sold through direct communication between the bank and the offeree or an independent investment representative of the offeree, and without use of any form of general advertising.

(c) *Access to information.* Each offeree or his independent investment representative shall have access to, prior to acceptance of any offer, the same type of information as is specified in § 16.6 hereof, including but not limited to the following financial information:

(1) The consolidated Reports of Condition and Income of the bank for the last two fiscal years and the most recent interim period for which the bank has filed the Reports with the Comptroller of the Currency and the same interim period for the previous year;

(2) The most recent Annual Report to Shareholders of the bank; and

(3) The most recent F–2 filed by the bank if it reports pursuant to 12 CFR 11.

(d) *Number of purchasers.* The securities are sold to not more than 15 purchasers within any continuous 12 month period. Application may be made to the Comptroller of the Currency to increase the number of purchasers.

(e) *Limitations on disposition.* The bank shall obtain from each purchaser a signed written agreement that the purchaser is acquiring the securities for his own account and not for distribution. Only one stock certificate, note or debenture shall be issued to each purchaser for the respective total amount of securities purchased; except that where an offeree purchases securities in an aggregate amount exceeding $100,000, more than one certficate may be issued to him in amounts not less than $100,000 each. Each certificate, note or debenture shall specifically provide that neither the bank or its transfer agent can exchange the security for securities of smaller denominations, unless a notice has been filed in accordance with the requirements of paragraph (f) below.

(f) *Note of nonpublic sales and exchanges.* A notice containing the following information, as applicable, shall be filed by the bank with the Comptroller of the Currency not later than 20 days prior to the time any security offered or sold in reliance on the exemption provided by § 16.5 is so offered or exchanged for securities of small denominations:

(1) The name of the bank and location of its principal place of business.

(2) The class of security to be offered or exchanged.

(3) The number of persons to whom the securities are to be offered.

(4) The offering price of the securities on an aggregate and per share or per security basis.

(5) A general description of the facts and circumstances on which the claim of exemption is based, or the security holder's reason for requesting an exchange of the security for securities of small denominations.

§ 16.6 Form of, and information required in an offering circular of an existing bank.

(a) General Instructions: This form is not to be used as a blank form to be filed in but only as a guide in the preparation of the offering circular. Unless otherwise stated, the information required shall be given as of a date reasonably close to the effective date. The offering circular may be printed, lithographed, mimeographed, or typewritten, or prepared by any similar process resulting in clearly legible copies suitable for a permanent record.

In addition to the information expressly required hereby, there shall be added such further material information, if any, as may be necessary to make the statements made in light of the circumstances under which they are made, not misleading.

Information required need be given only insofar as it is known or reasonably available to the bank. If any required information is unknown or not reasonably available to the bank, either because the obtaining thereof would involve unreasonable delay, effort or expense, or because it rests peculiarly within the knowledge of another person not affiliated with the bank, the information may be omitted, upon approval of the Comptroller of the Currency, subject to the following conditions:

(1) The bank shall give such information on the subject as it possesses or can acquire without unreasonable delay, effort or expense together with the sources thereof; and

(2) The bank shall furnish a separate statement to the Comptroller of the Currency either showing that unreasonable delay, effort or expense would be involved, or indicating the absence of any affiliation with the person within whose knowledge the information rests and stating the result of a request made to such person for the information.

(b) The following information shall be disclosed in the offering circular:

ITEM 1—COVER PAGE

The following information shall be included on the cover page of the offering circular:

(a) The caption "Offering Circular".

(b) The exact name, complete address and telephone number of the issuing bank.

(c) The type of security being offered.

(d) The following statements in capital letters and boldface type:

"THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE COMPTROLLER OF THE CURRENCY NOR HAS THE COMPTROLLER PASSED UPON THE ACCURACY OR ADEQUACY OF THIS OFFERING CIRCULAR."

"NO AGENT OR OFFICER OF THE BANK OR ANY OTHER PERSON HAS BEEN AUTHORIZED TO GIVE ANY INFORMATION OR TO MAKE ANY REPRESENTATIONS OTHER THAN THOSE CONTAINED IN THE OFFERING CIRCULAR AND, IF GIVEN OR MADE, SUCH INFORMATION AND REPRESENTATIONS MUST NOT BE RELIED UPON AS HAVING BEEN AUTHORIZED BY THE BANK."

(e) The following information if the bank is offering debt securities:

(1) The statement in capital letters and boldface type:

"THERE OBLIGATIONS WILL NOT REPRESENT DEPOSITS AND WILL NOT BE INSURED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION OR ANY OTHER GOVERNMENT AGENCY. THE MATURITY OF THESE OBLIGATIONS CANNOT BE ACCELERATED IN THE EVENT OF A DEFAULT WITHOUT THE IMMEDIATE PRIOR APPROVAL OF THE COMPTROLLER OF THE CURRENCY. THESE OBLIGATIONS WILL BE SUBORDINATE TO THE CLAIMS OF DEPOSITORS, AND OTHER CREDITORS, WILL BE INELIGIBLE TO SECURE A LOAN FROM THE BANK, AND WILL BE UNSECURED."

(2) The denominations, aggregate amount offered, interest rate, maturity, optional prepayment dates and offering price; and

(3) If the offering involves a convertible subordinated note or debenture, the information required by section (f) for the underlying equity security.

(f) If the bank is offering common stock, preferred stock, or other equity security or right to subscribe thereto, the offering price, the number of shares being offered, and the par value.

(g) The information called for by the following table presented in substantially the same form:

	Price to public	Underwriting commissions	Proceeds to bank [1]
Per unit	$		$
Total			

[1] Before deducting expense to be incurred by the bank estimated at .....

(h) The proposed means of distribution.

(i) The effective date of the offering circular.

ITEM 2—PLAN OF DISTRIBUTION

(a) If the securities being offered are to be offered through underwriters, give the names of the principal underwriters and state the respective amounts underwritten. State briefly the nature of the underwriters' obligation to take the securities.

(b) If there is no underwriter, outline briefly the bank's plan of distribution of the securities.

(c) Indicate the method and terms of subscription, and the offering termination date.

ITEM 3—USE OF PROCEEDS

State the principal purposes for which the net proceeds to the bank from the securities being offered are intended to be used, the expected time of the expenditure and the approximate amount intended to be used for each such purpose.

INSTRUCTIONS

The statement that the bank needs a broader capital base or that the proceeds will be used for general banking purposes will generally not be sufficient without additional information.

There need be furnished only a brief outline of any program of construction or of addition of equipment. If any material amounts of the proceeds are to be used to acquire assets, briefly describe the assets and give the names of the persons from whom they are to be acquired. State the cost of the assets to the bank and the principle followed in determining such cost.

ITEM 4—CAPITAL STRUCTURE

State in tabular format the title, basic terms, and amount authorized and outstanding as of a specified date within 90 days, of each class of securities of the bank, and the

amount authorized or the amount to be authorized and outstanding if all the securities being offered are sold.

ITEM 5—SUMMARY OF EARNINGS

(a) Present on a comparative basis, a summary of the earnings for the bank for each of the last five fiscal years and any interim period between the end of the last fiscal year and the date of the most recent Consolidated Statements of Condition and Income being filed and for the corresponding interim period for the preceding fiscal year. For the same periods, present in columnar form the following ratios: (1) net income to average stockholders' equity, (2) net income to average total assets, and (3) total interest expense to gross income. Include any additional information, if necessary, which will be of material significance to the investor.

(b) Fully discuss the earnings for the last two fiscal years and the reported interim periods. There should be an explanation of material changes which should include, but not be limited to, changes in the various elements which determine revenue and expense levels. In addition, the analysis should include an explanation of the effect of changes in accounting principles and practices or the method of their application that have a material effect on the net income as reported.

INSTRUCTIONS

1. At a minimum, this item should present operating revenues, operating expenses, income before income taxes and securities gains or losses, applicable income taxes, income before securities gains or losses, securities gains or loses, extraordinary items, net income, earnings per share and dividends per share.

2. In addition, if debt securities are being offered, the ratios of earnings to fixed charges, computed by both including and excluding interest on deposits, should be presented in tabular form for the last five fiscal years and any reported interim periods. There shall also be shown for the most recent fiscal year, a pro forma ratio of earnings to fixed charges, adjusted to give effect to (i) the issuance of the securities being offered, (ii) any issuance, retirement or redemption of securities during such period, or (iii) any issuance, retirement or redemption of securities after, or presently proposed for one year after, such period.

ITEM 6—DESCRIPTION OF BUSINESS

Describe briefly the present and proposed business operations of the bank and any significant developments or trend in such business during the last five years. The description shall also include, without limitation, appropriate information as to matters such as the following:

(a) The primary business locations of the bank.

(b) The competitive conditions and the competitive position of the bank in its service area.

(c) The commercial, consumer, international, trust, and municipal trading services and other business activities of the bank.

(d) The properties owned by the bank and its subsidiaries and any material leases.

(e) The liability management practices of the bank including a discussion of deposits, federal funds, and other liabilities.

(f) The loan portfolio.

(g) The investment portfolio.

(h) The importance of, and risks attendant to, foreign sources and application of funds.

(i) The bank regulatory agencies.

(j) The manner in which the law of the state where the bank is located may materially affect branching, interest rates, bank holding companies, etc.

(k) The business done by the parent holding company, if any, of the bank and any subsidiaries of the parent; the services provided to the bank by its parent and the subsidiaries of the parent; and the names of any other banks in which the parent owns in excess of 5% of the voting securities.

(l) The number of persons employed by the bank.

(m) Material statistical information (see Instructions).

INSTRUCTIONS

The following statistical information should be disclosed by the bank for the reported periods. The term "reported period" means each of the last specified number of fiscal years and any interim period between the end of the most recent fiscal year and the date of the most recent Consolidated Reports of Condition and Income being filed and for the corresponding interim period for the preceding fiscal year. If any required information is not reasonably available to the bank, the bank may present comparable information.

(i) *Consolidated statements of condition and income.* For a three-year reported period, present information similar to that required by the Consolidated Statements of Condition and Income. If the bank has assets in excess of $300 million, present information required by the Large-bank Supplements.

(2) *Distribution of assets, liabilities and capital.* (i) For a three-year reported period, present the monthly or quarterly average of total assets, liabilities and capital and each principal category of assets, liabilities and capital.

(ii) As of the end of a three-year reported period, present the percentage of each principal category of assets to total assets and each principal category of liabilities and equity capital to total liabilities and equity capital.

(3) *Loan portfolio.* (i) For banks with assets in excess of $300 million, disclose the total after-tax income effect of non-accruing and reduced-rate loans as of the end of a two-year reported period.

(ii) Explain the policies and practices of the registrant with regard to interest income recognition.

(iii) Describe any material risks relating to the loan portfolio.

(iv) State, by appropriate categories, the amount of loan and similar commitments (excluding check credit, overdraft and credit card lines) as of the end of a three-year reported period, and, with respect to the amount as of the end of the most recent fiscal year, the portion considered to be "firm" and the portion not reasonably expected to be exercised within the current year.

The categorization may include such items as commercial letters of credit, commitments to grant loans, and commitments to purchase loans or such other classifications deemed appropriate by the bank. Any specific category representing more than 25 percent of the total commitments shown shall, however, be identified and specific categories representing individually less than 25 percent of the total commitments shown may be aggregated as Other Commitments. If more than 25 percent of the total commitments shown are on terms whereby the prices or interest rates are not to be determined by the market conditions to be prevailing at the time of exercise of the commitments, the total and a description of such commitments should also be disclosed.

(4) *Intcrest rates and interest differentials.* For a three-year reported period, present:

(i) The dollar amounts of the changes in interest income from earning assets (in total and broken down into loans, investments, federal funds and other appropriate categories).

(ii) The dollar amounts of the changes in interest expense for borrowed funds (time deposits, short-term borrowings and other appropriate categories).

(iii) The net interest differential. For banks with assets in excess of $300 million, the dollar amounts should be analyzed to indicate the amount of the change resulting from variances in volume and from variances in rate and yield.

(5) *Summary of loan loss experience.* An analysis of the loan loss experience should present the following items:

(i) A discussion of the total actual losses for a two-year reported period. Discuss any specific material loan losses during the last fiscal year and any reported interim period.

(ii) For banks with assets in excess of $300 million, present a summary of loan loss experience by specific categories for a five-year reported period.

(iii) Set forth a comparison of the charges to provision for loan losses for a two-year reported period. Describe the factors which influenced management in determining the amount to be charged to operating expense.

(iv) Discuss the adequacy of the reserve for possible loan losses for the latest fiscal year and any reported interim period. Indicate whether the reserve for possible loan losses for the reported periods has increased or decreased as a percent of average loans outstanding.

(v) For a five-year reported period, present the bank's loan loss experience in the following format:

Year ended December 31

	19—	19—	19—	19—	19—	Interim 19—	Interim 19—
Balances (in thousands):							
Loans:							
Average loans							
Loans at end of period							
Net loan charge-offs							
Reserve for loan losses							
Provision for loan losses							
Ratios:							
Net loan charge-offs to average loans							
Net loan charge-offs to loans at end of period							
Reserve for loan losses to average loans							
Reserve for loan losses to loans at end of period							
Net loan charge-offs to reserve for loan losses							
Net loan charge-offs to provision for loan losses							

V 41 152 AUG 5 76 UMI

(6) If a material portion of the bank's deposits has been obtained from a single person or a few persons (including Federal, State, and local governments and agencies thereunder) the loss of any one or more of whom would have a material adverse effect on the business of the bank, or if a material portion of the bank's loans is concentrated within a single industry or group of related industries, a description of such customers, their other relationships, if any, to the bank, and material facts regarding their importance to the business of the bank.

(7) The extent to which the business is or may be seasonal.

(8) Any information required by current banking bulletins which relate to this part.

ITEM 7—CAPITAL STOCK

If capital stock is being offered, outline briefly (a) dividend rights and/or restrictions; (b) voting rights; (c) liquidation rights; (d) preemptive rights; (e) the vote required to amend any of the aforementioned rights, and (f) any other material terms. If any securities are being offered in exchange for other securities, an appropriate description of such other securities should be given.

ITEM 8—DEBT SECURITIES

If debt securities are being offered, set forth briefly the following:

(a) The terms relating to denomination, maturity, and subordination.

(b) The statement: "This obligation is not a deposit and is not insured by the Federal Deposit Insurance Corporation, is ineligible as collateral for a loan by the issuing bank, and is unsecured."

(c) The statement: "The maturity of this obligation cannot be accelerated in the event of a default without the immediate prior approval of the Comptroller of the Currency."

(d) The provisions with respect to interest, conversion, redemption, prepayment, retirement, events of dafault, modification of the terms of the debt security or any other material terms.

(e) The provisions restricting the declaration of dividends, the issuance of additional indebtedness that will rank on a parity with, junior to, or senior to this indebtedness, the incurring of additional aggregate amounts of indebtedness, and any other material restriction.

(f) The name of the trustee, if any, and the nature of any material relationship with the bank or any of its affiliates, and the material terms of the trust indenture.

ITEM 9—OTHER SECURITIES BEING OFFERED

If securities other than capital stock or debt are being offered, outline briefly the rights evidenced thereby. If subscription warrants or rights are being offered, state the title and amounts of the underlying securities and the exercise period and price.

ITEM 10—NATURE OF TRADING MARKET

As to each class of securities to be offered, state briefly the nature of the trading market, if any, in such securities, including the names of the principal market makers and the reported high and low bid prices for each quarterly period during the last two years.

INSTRUCTION

In furnishing high and low bid prices the bank may rely on quotations published in publications of general circulation, provided the source of the information is identified. If the principal market makers are not known, it will suffice to name such market makers as are believed to be actively engaged in making a market in the securities. If there is no active market for the securities, so state, and indicate the valuation procedure followed to determine the offering price.

ITEM 11—DIRECTORS AND OFFICERS

List the following information, in tabular form to the extent practicable, with respect to each director and executive officer of the bank and each person chosen to become a director or officer.

(a) Name, age, and length of service in this capacity.

(b) The amount of each class of equity securities of the bank, or of its parent or subsidiaries beneficially owned directly or indirectly by him as of the most recent practicable date.

(c) A brief account of the business experience during the last five years of each director and each officer, including his principal occupation during that period and the name and principal business of any corporation or other organization in which such occupation was carried on.

ITEM 12—PRINCIPAL SECURITY HOLDERS

Furnish the following information as of a specified date within 90 days prior to the effective date:

(a) The total number of shares of each class of equity securities both authorized and outstanding;

(b) As to each class of equity securities of the bank, the amount and percent owned of record or beneficially, directly, or indirectly, by all directors and officers of the bank, as a group, without naming them. The following format should be used:

Title of class	Record ownership	Amount beneficially owned	Percent of class beneficially owned
(a)	(b)	(c)	(d)

A footnote to the table should disclose the nature of the beneficial ownership.

(c) The name, business address, and relationship to the bank of any individual or corporation who owns of record or beneficially, directly, or indirectly more than 10 percent of the outstanding voting securities. The following format should be used:

Name and address	Relationship with bank	Record ownership	Amount beneficially owned	Percent of class beneficially owned
(a)	(b)	(c)	(d)	(e)

A footnote to the table should disclose the nature of the beneficial ownership.

INSTRUCTIONS

If, to the knowledge of the bank, more than 10% of any class of voting securities of the bank are held or to be held subject to any voting trust or other similar agreement, state the title of such securities, the amount held or to be held, and the duration of the agreement. Give the names of the voting trustees and outline briefly their voting rights and the other material terms of the agreement.

ITEM 13—REMUNERATION OF DIRECTORS AND OFFICERS

(a) Furnish the following information in substantially the tabular form indicated below as to all direct remuneration paid by the bank, or its parent holding company, during the latest fiscal year to the following persons:

(1) Each director and each of the three highest paid executive officers of the bank whose annual total direct remuneration exceeded $40,000, naming each person;

(2) All directors and executive officers of the bank as a group, without naming them but stating the number of persons included.

Name of individual or number of persons in group	Capacities in which remuneration was received	Aggregate remuneration
(a)	(b)	(c)

(b) Furnish a brief description of any present or contemplated bonus, retirement, pension, stock option, profit sharing or other similar plan or provision and the class of persons covered.

INSTRUCTIONS

The description of the stock options should state the consideration received and to be received for the options, the prices, expiration dates, the market value on the granting date, the per share market price of the securities subject to option as of the latest date, whether the options are qualified stock options or restricted stock options or options granted pursuant to a plan qualifying as an employee stock purchase plan. Indicate the number of options held by each officer and director named in Item 13(a)(1).

ITEM 14—MATERIAL TRANSACTIONS

Describe any direct or indirect material interest of any of the following specified persons in any material transactions during the last two years, or in any material proposed transactions, to which the bank was or is to be a party.

(a) Any director or executive officer of the bank.

(b) Any security holder who owns of record or beneficially, directly or indirectly, in excess of 10% of the outstanding voting securities as named in the answer to Item 12

(c) Any associate of any of the foregoing..

INSTRUCTIONS

(1) A material transaction generally is a transaction or series of transactions in which the annual payments plus the remaining amounts due under the terms of the transaction or series of transactions exceed $40,000. This will include all legal fees, rental payments, remuneration for services (other than in the capacity of an officer or director of the bank), and any other periodic payments or installments. It will not include extensions of credit unless (i) the credit involves more than the normal risk of collectibility or presents other unfavorable features or (ii) the transaction is not made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other than specified persons.

(2) Notwithstanding Instruction 1, a material transaction is any extension of credit either directly or indirectly, to (i) a specified person which at any time for the last full fiscal year to date, exceeds 10% of the equity capital of the bank or (ii) all the specified persons as a group which at any time for the last full fiscal year to date, exceeds 20% of the equity capital of the bank. If aggregate extensions of credit to a specified individual at any time during the year exceed 10% of the equity capital, the name of the specified person, the aggregate extensions of credit at its maximum amount during the year, and the aggregate amount of the extensions of credit as a percent of total equity capital should be disclosed. If aggregate extensions of credit to the specified persons, as a group at any time during the year, exceed 20% of the equity capital, the aggregate amount of the extensions of credit to the group at its maximum amount during the year and the aggregate amount of the extensions of credit as a percent of equity capital should be disclosed.

(3) If there has been a material sale of property by or to the bank to which a specified person was a party, disclose the cost of the property to the purchaser and the cost to the seller if acquired by the seller within two years prior to this transaction.

ITEM 15—PENDING LEGAL PROCEEDINGS

Briefly describe any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the bank, the parent holding company or any of its subsidiaries is a party or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted and the principal parties thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated.

ITEM 16—FINANCIAL STATEMENTS

The following financial statements shall be included:

(a) A Statement of Condition at the end of the most recent fiscal year and any required interim period.

(b) Comparative Statements of Income for the two most recent fiscal years and for any required interim period.

(c) Comparative Statements of Changes in Capital Accounts for the last two fiscal years and any required interim period.

(d) A comparative reconciliation of the "Reserve for Possible Loan Losses" account for the last two fiscal years and for any required interim periods.

(e) Comparative Statements of Changes in Financial Position for the last two fiscal years and any required interim periods.

(f) Supplemental notes to the financial statements.

INSTRUCTIONS

(1) These financial statements should be prepared in accordance with the instructions and format set forth by the Office of the Comptroller of the Currency in the publication entitled, "Instructions for Preparation of Consolidated Reports of Condition and Reports of Income by National Banking Associations" and in any other releases amending this publication.

(2) The financial statements shall be updated to the latest practicable date, which date shall be not more than 90 days prior to filing the offering circular expected to be declared effective.

(3) The following items shall be disclosed, where applicable, in general footnotes to the financial statements:

(i) A summary of significant accounting policies.

(ii) Assets subject to liens.

(iii) Pension plans.

(iv) Stock option plans.

(v) Dividend restrictions.

(vi) Contingent liabilities.

(vii) Accounting and estimated market value of investment securities.

(viii) An analysis of income tax expense.

(ix) An analysis of the loan portfolio.

(x) Standby letters of credit.

(4) Indicate any changes in accounting principles and practices and retroactive adjustments initiated by the bank.

(i) Any changes in accounting principles or practices or in the method of applying any accounting principles or practices, made during any period for which financial statements are filed which affects comparability of such financial statements with those of prior or future annual periods, and the effect thereof upon the net operating earnings for each period for which financial statements are filed, should be disclosed in a note to the appropriate financial statement where significant.

(ii) Any significant retroactive adjustment made during any period for which financial statements are filed, and the effect thereof upon net operating earnings and nonoperating additions and deductions of prior periods shall be disclosed in a note to the appropriate financial statement.

(5) If a cash basis of accounting has been used, it should be so stated.

(6) If the financial statements in the latest annual report to shareholders are accompanied by a report of an independent accountant, the financial statements in the offering circular should also be accompanied by the aforementioned accountant's report.

ITEM 17—UPDATING THE FINANCIALS AFTER THE EFFECTIVE DATE

The bank is required to update certain statistical and financial information in the offering circular continuously during the pendency of the offering by attaching the most recent Reports of Condition and Income of the bank to the offering circular. The reports shall be attached to, and made a part of the offering circular no later than the day the document is due to be filed with the Comptroller of the Currency. However, a completely amended offering circular will be necessary should the offering continue beyond the period of effectiveness, and any extensions thereof (see § 16.3(e)).

§ 16.7 Form of, and information required in an offering circular of a bank in organization.

(a) The exemptions of § 16.4 shall not be available to a national bank in organization unless there is only one offeree who intends to purchase all of the securities except the director's qualifying shares.

(b) General Instructions: This form is not to be used as a blank form to be filled in but only as a guide in the preparation of the offering circular. Unless otherwise stated, the information required shall be given as of a date reasonably close to the effective date. The offering circular may be printed, lithographed, mimeographed, typewritten, or prepared by any similar process resulting in clearly legible copies suitable for a permanent record.

In addition to the information expressly required hereby, there shall be added such further material information, if any, as may be necessary to make the required statments, in light of the circumstances under which they are made, not misleading.

Information required need be given only insofar as it is known or reasonably to the bank. If any required information is unknown or not reasonably available to the bank, either because the obtaining thereof would involve unreasonable delay, effort or expense, or because it rests peculiarly within the knowledge of another person not affiliated with the bank, the information may be omitted, upon approval of the Comptroller of the Currency, subject to the following conditions:

(1) The bank shall give such information on the subject as it possesses or can acquire without unreasonable delay, effort, or expense together with the sources thereof; and

(2) The bank shall furnish a statement either showing that unreasonable delay, effort or expense would be involved or indicating the absence of any affiliation with the person within whose knowledge the information rests and stating the result of a request made to such person for the information.

(c) The following information shall be disclosed in the offering circular:

ITEM 1—COVER PAGE

The following information shall be included on the cover page of the offering circular:

(a) The caption "Offering Circular."

(b) The exact name and complete address of the bank.

(c) The type of security being offered.

(d) The statements in capital letters and bold-face type:

"THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE COMPTROLLER OF THE CURRENCY NOR HAS THE COMPTROLLER PASSED UPON THE ACCURACY OR ADEQUACY OF THIS OFFERING CIRCULAR."

"NO AGENT OF OFFICER OF THE BANK OR ANY OTHER PERSON HAS BEEN AUTHORIZED TO GIVE ANY INFORMATION OR TO MAKE ANY REPRESENTATIONS OTHER THAN THOSE CONTAINED IN THE OFFERING CIRCULAR, AND IF GIVEN OR MADE, SUCH INFORMATION AND REPRESENTATIONS MUST NOT BE RELIED UPON AS HAVING BEEN AUTHORIZED BY THE BANK."

"THE ISSUANCE OF THE STOCK IS SUBJECT TO THE APPROVAL OF THE COMPTROLLER OF THE CURRENCY, THE BANK RESERVES THE RIGHT TO CANCEL ACCEPTED SUBSCRIPTION OFFERS AT THE DIRECTION OF THE COMPTROLLER OF THE CURRENCY UNTIL THE DATE THE BANK COMMENCES OPERATIONS. IF, FOR ANY REASON, THE BANK DOES NOT OPEN FOR BUSINESS, ALL OF THE CASH PAID BY THE SUBSCRIBERS FOR THEIR SHARES WILL BE RETURNED, PLUS OR MINUS ANY PROFITS OR LOSSES INCURRED THROUGH INVESTMENT OF SUCH FUNDS IN UNITED STATES GOVERNMENT SECURITIES. ANY OTHER COSTS OR EXPENSES WILL BE BORNE BY THE ORGANIZERS."

(e) The offering price, the number of shares being offered, and the par value of the stock.

(f) The information called for by the following table presented in substantially the same form:

	Price to public	Underwriting commissions	Organizational expenses	Proceeds to bank[1]
Per unit	$	$	$	$
Total				

[1] Before deducting expenses to be incurred by the bank estimated at ____:

V 41 152 AUG 5 76 UMI

(g) The proposed means of distribution.

(h) The effective date of the offering circular.

(i) On the page immediately following the cover page, there should be a page with the following paragraph alone in capital letters and bold-face type:

"THIS OFFERING CIRCULAR DOES NOT CONSTITUTE AN OFFER TO SELL OR A SOLICITATION OF AN OFFER TO BUY ANY OF THE SECURITIES OFFERED HEREBY IN ANY JURISDICTION TO ANY PERSON TO WHOM IT IS UNLAWFUL TO MAKE SUCH OFFER IN SUCH JURISDICTION. NEITHER THE DELIVERY OF THIS OFFERING CIRCULAR NOR ANY SALE HEREUNDER SHALL UNDER ANY CIRCUMSTANCES CREATE AN IMPLICATION THAT THERE HAS BEEN NO CHANGE IN THE AFFAIRS OF THE BANK SINCE THE DATA HEREOF."

ITEM 2—OFFERING TO SUBSCRIBERS AND METHOD OF SUBSCRIPTION

The following information shall be stated:

(a) The number of shares being offered, offering price, the par value of the common stock, and the expiration date of the offering period, including any provisions for extending the offering period.

(b) The fact that the issuance of the stock is subject to the approval of the Comptroller of the Currency and the bank reserves the right to cancel accepted subscription offers at the direction of the Comptroller of the Currency until the date the bank receives its charter.

(c) The fact that shares of stock duly subscribed and paid for will be issued upon acceptance by the bank immediately after the bank receives its charter.

(d) The method or procedure for subscribing to the stock.

(e) A description of the location and basic terms of the escrow account in which the funds will be held until all the subscriptions have been accepted and the Bank opens for business.

(f) The statements:

"Subscriptions will be accepted until ____ p.m./a.m. on the expiration date, _____, 19____. It is anticipated that the bank will commence operations on or about _____, 19____."

"If, for any reason, the bank does not open for business, all of the cash paid by the subscribers for their shares will be returned plus or minus any profit or losses incurred through investment of such funds in United States Government Securities. Any other costs or expenses will be borne by the organizers."

ITEM 3—USE OF PROCEEDS

State the principal purposes for which the net proceeds to the bank from the stock to be offered are intended to be used, and the approximate amount intended to be used for each such purpose. Indicate the proposed expenditures in the following categories:

(a) The approximate amounts for a period of 12 months from the effective date of the offering circular for the salaries of directors, executive officers, and employees.

(b) The approximate amount for the acquisition of furniture, office machines, fixtures, and real property.

(c) The approximate amount of rental payment for the leasing of real property and personal property for a period of 12 months from the effective date of the offering circular.

(d) A schedule of estimated organizational expenses.

(e) The approximate amount for cash, investment and loans.

(f) The approximate amount for the purchase of temporary quarters.

(g) Other.

ITEM 4—BUSINESS OF THE BANK

Describe the proposed business operations of the bank. The description shall include without limitation, information as to matters such as the following:

(a) The current status and history of the new bank application with the Comptroller of the Currency, and the date the bank is expected to commence business.

(b) The potential market area, competitive conditions, and a summary of the economic conditions. Present the names and locations of other financial institutions within the market area and indicate their total assets, deposits, and equity capital. Discuss the effect these financial institutions will have on competition.

(c) The proposed services of the bank in the commercial, consumer, and trust areas.

(d) The expected sources of deposits and loans once operations commence.

(e) The material effects that compliance with Federal and State banking laws, and rules or regulations enacted thereunder, will have on the business of the bank. Indicate the manner in which the laws of the state where the bank is located may materially affect such matters as (a) branching and (b) bank holding companies.

(f) The likelihood of profitable operations during each of the banks first three years.

(g) Transactions respecting the bank's purchase and/or lease of land and/or buildings; include a discussion about the valuation of these assets.

ITEM 5—ORGANIZERS, DIRECTORS AND OFFICERS

List the following information, in tabular form, with respect to all organizers and proposed directors and executive officers of the bank:

(a) State the name, business address, and age of each individual.

(b) State the approximate number of shares of common stock and the percent of the class each person intends to own of record or beneficially, directly or indirectly.

(c) Give a brief account of the business experience during the past ten years of each organizer, and proposed director and executive officer, including his principal occupations and employment during that period, the name and principal business of any corporation or other organization in which such occupations and employment were carried on, and the name of any bank of which he has been a director or executive officer.

(d) State the amount of all direct and indirect remuneration from the bank each individual in his capacity as an organizer, director or exectuive officer has received during the last 12 months, and the amount each such individual is expected to receive in the 12 months commencing with the effective date of the offering circular. Indicate the aggregate amounts which these individuals have received or will receive, as a group. State whether or not there are contemplated any stock option, stock bonus, money purchase, thrift, pension or employee stock ownership plans, qualified or unqualified, and if there will be any deferred compensation arrangements.

(e) The following statement should be inserted:

"The Comptroller of the Currency has the authority to disallow any of the above persons from assuming his or her designated position."

ITEM 6—PRINCIPAL SECURITY HOLDERS

Furnish the following information:

(a) The total outstanding number of shares of common stock that will be issued, and the amount to be authorized.

(b) The amount and percent of the class to be owned of record or beneficially, directly or indirectly, by all directors, officers, and organizers of the bank, as a group, without naming them and the amount that will be held by the investing public. The following format should be used:

Title of class	Record ownership	Amount beneficially owned	Percent of class beneficially owned
(a)	(b)	(c)	(d)

A footnote to the tabular form should disclose the nature of the beneficial ownership.

(c) The name, business address, and relationship to the bank of any person who will own of record or beneficially, directly or indirectly, 5 percent or more of the outstanding voting securities. The following format should be used:

Name and address	Relationship with bank	Record ownership	Amount beneficially owned	Percent of class beneficially owned
(a)	(b)	(c)	(d)	(e)

A footnote to the tabular form should disclosed the nature of the beneficial ownership.

(d) A description of any arrangements for future stock purchases between the above individuals listed in part (c) and any member of the investing public which may at a subsequent date increase his percent of ownership as disclosed above. If there are no arrangements, so indicate.

(e) A summarization of any borrowing arrangements to finance the stock subscription of the individuals or corporations listed in paragraph (c).

ITEM 7—CAPITAL STOCK

Outline briefly (a) dividend rights; (b) voting rights; (c) liquidation rights; (d) preemptive rights; (e) vote required to amend any of the aforementioned terms; (f) shareholder liability under 12 U.S.C. 55, and (g) any other material terms of the stock being offered.

ITEM 8—MATERIAL TRANSACTIONS

(a) Describe any direct or indirect material interest of any of the following persons in any material transactions, or proposed material transactions, to which the bank was or is to be a party.

(1) Any organizer, proposed director, or executive officer of the bank.

(2) Any person who owns or will own of record or beneficially 5% or more of the outstanding voting securities as named in the answer to Item 6(c).

(3) Any associate of any of the foregoing.

INSTRUCTIONS

(1) For purposes of this item, any of the following transactions may be deemed material if the amount of the transaction or series of transactions exceed 1% of the equity capital being offered:

(i) Any transaction or proposed transaction in which a specified person sells real property, fixtures or any other assets to the bank. State the cost of the assets to the bank, and the cost of the asset to the specified person if acquired by the specified person within five years prior to the sale.

(ii) Any transaction or proposed transaction in which a specified person receives remuneration for services, directly or indirectly (other than in the capacity of an organizer, proposed director, or executive officer of the bank).

(iii) Any transaction or proposed transaction in which a specified person leases real or personal property to the bank. Indicate the cost of the asset if acquired by the lessor within five years, the annual lease payments, the terms of the lease, and the total aggregate lease payments.

ITEM 9—MARKETABILITY OF SECURITIES

Indicate the anticipated nature of the secondary market for the securities being offered. If there can be no assurance of the marketability of the securities, so state.

ITEM 10—DIVIDEND POLICY

State the policy of the bank as to the declaration of dividends and the retention of profits. Briefly describe the restrictions on the declaration of dividends imposed by banking law, and state that under certain circumstances, the approval of the Comptroller of the Currency may be required prior to the payment of a dividend.

ITEM 11—PENDING LEGAL PROCEEDINGS

Briefly describe any material pending or contemplated legal proceeding to which the bank is or may be a party.

ITEM 12—FINANCIAL STATEMENTS

The requirements as to financial statements are described in Item 16 to Section 16.6. In addition to those required statements, the bank should provide:

(a) A description of any assets contributed by organizers or stockholders and the method used in valuing these assets.

(b) An estimate of organizational expenses expected ot be incurred prior to the commencement of business.

§ 16.8 Advertisements.

Any written advertisement (or other written communication, if not accompanied by an offering circular), or any film, radio, or television broadcast, which refers to a present or proposed public offering of securities subject to this Part may be published, distributed, or broadcast only after a copy of the advertisement and the preliminary offering circular have been filed with the Comptroller of the Currency. Such advertisement may contain only the following information:

(a) A statement that the announcement is neither an offer to sell nor a solicitation of an offer to buy any of the securities and that the offering is made only by the offering circular.

(b) The name and address of the bank, and the principal underwriters, if any.

(c) The title of the security, the dollar amount and number of securities being offered, and the per unit offering price to the public.

(d) If debt securities are being advertised, indicate in capital letters and boldface type.

"THESE OBLIGATIONS ARE NOT DEPOSITS AND ARE NOT INSURED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION. THEY ARE SUBORDINATE TO THE CLAIMS OF DEPOSITS AND OTHER CREDITORS AS MORE FULLY DESCRIBED IN THE OFFERING CIRCULAR."

(e) Where a copy of the offering circular may be obtained.

Dated: July 30, 1976.

[SEAL] JAMES E. SMITH,
Comptroller of the Currency.

PART V:

CONSUMER PRODUCT SAFETY COMMISSION

PRIVACY ACT

Systems of Records

V 41 1 52 AUG 5 76 6 UMI

CONSUMER PRODUCT SAFETY COMMISSION

PRIVACY ACT OF 1974

Notices of Systems of Records Amendment

The Consumer Product Safety Commission hereby amends its Notice of System of Records designated CPSC—6, Employee Career Development, originally published September 30, 1975 (40 F.R. 45125), to reflect an additional system location and system manager.

The amended Notice of System of Records shall read as follows:

CPSC—6

System name: Employee Career Development—CPSC

System location: (1) Division of Personnel Management (2) Division of Training and Manpower Development. Consumer Product Safety Commission, 5401 Westbard Avenue, Washington, D.C. 20207.

Categories of individuals covered by the system: CPSC employees who have expressed interest in and made application for extramural training courses, and courses designed exclusively for internal use.

Categories of records in the system: These records contain applications for training in government and non-government facilities; approvals; disapprovals; cancellations and deferrals of course offerings; evaluations of course offerings; records on payment of training bills; statistical reports on training activities; counseling notations pertaining to employees interested in courses.

Authority for maintenance of the system: Executive Order 11348; USC 4103, 4108, 4109, 4110, 4113, 4118. .

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information in these records is used or a record may be used:

(a) To obtain enrollment into training course or seminar.

(b) To provide statistical reports to Congress, agencies, and the public on characteristics of the Federal work force.

(c) To provide information or disclose to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

(d) To request information from a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement or other pertinent information concerning the hiring or retention of an employee.

(e) To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, to the appropriate agency, whether Federal, state, or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.

(f) As a data source for management information for production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained, or for related personnel management functions or manpower studies; may also be utilized to respond to general requests for statistical information (without personal identification of individuals) under the Freedom of Information Act or to locate specific individuals for personnel research or other personnel management functions.

(g) To provide data for the automated Central Personnel Data File (CPDF).

(h) By the Civil Service Commission for purpose of making a decision when a Federal employee or former Federal employee is questioning the validity of a specific document in an individual file.

(i) To any agency of the Federal Government having oversight or review authority with regard to Civil Service Commission activities.

(j) To provide data to update the Federal Automated Career Systems (FACS).

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained in file folders.

Retrievability: Records are indexed by names.

Safeguards: Records are located in metal file cabinets in secured rooms with access limited to those whose official duties require access.

Retention and disposal: Records are maintained indefinitely. Disposal is by normal procedures.

System manager(s) and address:

1) Director, Division of Personnel Management, ORU
2) Director, Division of Training and Manpower Development, BIE

Consumer Product Safety Commission
Washington, D.C. 20207

Notification procedure: Employees and former employees: Director, Office of Resource Utilization, Consumer Product Safety Commission, 5401 Westbard Avenue, Washington, D.C. 20207. Others: Office of the Secretary, Consumer Product Safety Commission, 1750 K Street, N.W., Suite 800, Washington, D.C. 20207.

Record access procedures: Same as notification.

Contesting record procedures: Same as notification.

Record source categories: Information in this system of records comes from the individual to whom it applies or is derived from, information he/she supplied, except information provided by agency officials.

Dated: July 29, 1976.

Sadye E. Dunn.
Secretary, Consumer Product Safety Commission.

Guide to Record Retention Requirements

[Revised as of January 1, 1976]

This useful reference tool, compiled from agency regulations and U.S. Statutes, is designed to assist industry and the public with their recordkeeping obligations.

The various digests in the 96-page "Guide" tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept. Each digest also carries a reference to the full text of the basic law or regulation providing for such retention.

The booklet's index lists for ready reference the categories of persons, groups, and products affected by Federal record retention requirements.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTION, MARKETING PRACTICES, DEPARTMENT OF AGRICULTURE

SUBCHAPTER A—COMMODITY STANDARDS AND STANDARD CONTAINER REGULATIONS

PART 35—EXPORT GRAPES AND PLUMS

Minimum Grade and Other Requirements

This amendment would (1) apply regulations under the Export Grape and Plum Act, as amended (74 Stat. 734; 75 Stat. 220; 88 Stat. 1966; 7 U.S.C. 591–599), to all varieties of vinifera species (European-type) table grapes, and (2) prescribe separate minimum grade and other requirements to such grapes exported to different destinations consistent with the demand in each market.

Notice was published in the FEDERAL REGISTER on June 18, 1976 (41 FR 24715), regarding a proposed amendment to the regulations (7 CFR Part 35) issued pursuant to the provisions of the Export Grape and Plum Act, as amended (74 Stat. 734, 75 Stat. 220; 88 Stat. 1966; 7 U.S.C. 591–599), and to the authority set forth in Section 7, 74 Stat. 734; 7 U.S.C. 597, for carrying out the provisions of said act.

The notice provided a period of 38 days after publication thereof in the FEDERAL REGISTER during which interested persons could file written data, views, or arguments pertaining thereto.

A total of fifteen letters were submitted. These were from growers, shippers, exporters, and industry organizations handling a majority of the shipments of table grapes from California and Arizona. All except two were favorable and suggested no change in the amendment as set forth in the notice. On the negative side, one grower-shipper opposed the changes expressing the view that the amendment would reduce the quantity of better quality table grapes available for domestic use, and effecting compliance with requirements that differ by destinations would be difficult. Indications are that ample supplies of quality table grapes normally are and would continue to be available to serve export demands and domestic consumers' needs. No compliance problems are expected which cannot be overcome.

One letter was submitted by an exporter who requested that the quantity that may be exported exempt from the regulation be increased to 100 packages. The amendment as published in the notice would permit shipment in export of 25 packages or less, either of a single variety or a combination of two or more varieties, not exceeding 1,250 pounds gross weight exempt from regulation requirements. In view of the fact that the exemption of 25 packages or less of grapes has proven to be satisfactory and consistent with purposes of the act to expand export markets, and it is favored by the majority of those who submitted views, it is concluded that no increase in the quantity exempted should be made at this time.

Average annual exports of fresh U.S. grapes during the five-year period 1970–71 through 1974–75 were 107,096 metric tons. Exports of fresh grapes to Japan during 1974–75 were 767 metric tons compared to 729 metric tons in 1973–74 and 213 metric tons in 1972–73. Exports of fresh grapes to Sweden, the leading European export destination, were 1,419 metric tons in 1974–75, down from exports of 2,016 metric tons in 1973–74.

The amendment requires exports of U.S. fresh European-type grapes in packages to Europe, Greenland, and Japan to meet the minimum requirements of the U.S. Fancy Table Grade with the additional requirement that the minimum bunch size for all varieties shall be one-half pound. Exports of such grapes to any other destination, excluding Canada and Mexico, are required to meet the minimum requirements of the U.S. No. 1 Table Grade except that an additional tolerance of 2 percent is permitted for sealed berry cracks in Ribier and Exotic varieties. The amendment recognizes that differences exist in quality preferences in different export markets and prescribes grade requirements for grapes appropriate to the demand in each such market. Under the amendment, shipments of fresh grapes to Canada and Mexico are exempt from the regulations. Demand in these contiguous countries is similar in character to that in domestic markets and this tends to minimize the need for export regulations to destinations in such countries. Additionally, in the case of Canada, that country applies quality and inspection requirements to imports of grapes which are similar to those prescribed by the amendment.

The amendment requires packages to be marked with the inspection lot stamp number and, as currently required, the name and address of the grower or packer and the name of the variety. Mandatory grade marking of packages would not be required. Inspection certificates certifying compliance with the requirements of the act are designated as an "Export Form Certificate" and bear one of the following statements as applicable: (1) For any variety meeting specifications of paragraph (a) of § 35.11, "Meets requirements of Export Grape and Plum Act" or (2) For any variety meeting specifications of paragraph (b) of § 35.11, "Meets requirements of Export Grape and Plum Act except for export to destinations in Europe, Greenland, or Japan."

After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, and the views and comments submitted during the notice period, it is hereby found that the amendment of the said regulations as hereinafter set forth is in accordance with the provisions of the act.

1. Sections 35.5 and 35.6 are revised by deleting from each the words "Emperor variety" and substituting therefor the words "any variety of vinifera species table." As revised §§ 35.5 and 35.6 read as follows:

§ 35.5 Package.

"Package" means any container of any variety of vinifera species table grapes.

§ 35.6 Shipment.

"Shipment" means one or more lots of any variety of vinifera species table grapes shipped or offered for shipment by any one person in a single conveyance to a foreign country regardless of the number of consignees, receivers, or ports of destination in that country.

2. Section 35.11 is amended by revising the introductory language and paragraphs (a), (b), and (c) to read as follows:

§ 35.11 Minimum requirements.

No person shall ship, or offer for shipment, and no carrier shall transport, or receive for transportation, any shipment of any variety of vinifera species table grapes unless such grapes meet the following quality and container marking requirements applicable to the variety and destination specified:

(a) Any such variety for export to destinations in Japan, Europe (defined to mean the following countries: Albania, Austria, Belgium, Bulgaria, Czechoslovakia, Denmark, East Germany, England, Finland, France, Greece, Hungary, Iceland, Ireland, Italy, Liechtenstein, Luxembourg, Netherlands, Northern Ireland, Norway, Poland, Portugal, Rumania, Scotland, Spain, Sweden, Switzerland, Wales, West Germany, Yugoslavia), or Greenland shall meet each applicable minimum requirement of the U.S. Fancy Table grape grade as specified in the U.S. Standards for Grades of Table Grapes (European or Vinifera Type) (§§ 51.880–51.912 of this title) except that the minimum bunch size for all varieties shall be one-half pound.

(b) Any such variety for export to any foreign destination, other than destinations in Japan, Europe, Greenland, Canada, or Mexico, shall meet each applicable minimum requirement of the U.S. No. 1 Table grape grade as specified in the U.S. Standards for Grades of Table Grapes (European or Vinifera Type) (§§ 51.880–51.912 of this title) except that

V 41 153 AUG 6 76 UMI

an additional 2 percent tolerance for sealed berry cracks on Ribier and Exotic varieties is allowed.

(c) Each package of any such variety, other than those in packages of 5 pounds or less in master containers, to any destination other than in Canada or Mexico shall be plainly and conspicuously marked with the name and address of the grower or packer, the variety, and the applicable inspection lot stamp number, except that when the packages are unitized, the requirement as to inspection lot stamp marking shall be deemed as met if the exposed box ends on one end of the unit are so marked.

3. Paragraphs (a), (b), and (e) of § 35.12 are revised to read as follows:

§ 35.12 Inspection and certification.

(a) Each person shipping or offering for shipment any variety of vinifera species table grapes, to any foreign destination other than destinations in Canada or Mexico, shall cause them to be inspected within 14 days prior to date of export by the Federal or Federal-State Inspection Service in accordance with regulations governing the inspection and certification of fresh fruits, vegetables, and other products (Part 51 of this chapter) and certified as meeting the requirements of the act and this part.

(b) The Federal or Federal-State certificate shall be designated as an "Export Form Certificate" and shall include one of the following statements as applicable: (1) For any variety meeting specifications of paragraph (a) of § 35.11 "Meets requirements of Export Grape and Plum Act" or (2) For any variety meeting specifications of paragraph (b) of § 35.11 "Meets requirements of Export Grape and Plum Act except for export to destinations in Europe, Greenland, or Japan." No carrier shall transport or receive for transportation any such variety to any foreign destination other than Canada or Mexico unless a copy of the certificate of inspection issued thereon showing that the grapes meet requirements for the applicable export destination is surrendered to such carrier when such variety is so received. The shipper shall deliver a copy of such certificate covering the shipment to the export carrier. Such grapes may be inspected at points other than port of exportation. Whenever such grapes are inspected and certified at any point other than port of exportation, the shipper shall deliver a copy of such certificate to the agent of the first carrier that thereafter transports such grapes and such agent shall deliver such copy to the proper official of the carrier on which the grapes are to be exported.

* * * * *

(e) If the inspector has reason to believe that samples of a lot of any variety of vinifera species table grapes have been obtained for a determination as to compliance with tolerance for spray residue, established under the Federal Food, Drug and Cosmetic Act, as amended (52 Stat. 1040; 21 U.S.C. 301 et seq.), he shall not issue a certificate on the lot unless it complies with such tolerances.

4. Section 35.13 is revised to read as follows:

§ 35.13 Minimum quantity.

Any person may, without regard to the provisions of this part, ship or offer for shipment, and any carrier may, without regard to the provisions of this part, transport or receive for transportation to any foreign destination, a shipment of 25 packages or less of vinifera species table grapes, either a single variety or a combination of two or more varieties, not exceeding 1,250 pounds gross weight.

5. Section 35.14 is revised by deleting the words "Emporer variety" and substituting therefor the words "any variety of vinifera species table." As revised, § 35.14 reads as follows:

§ 35.14 Notice.

If the Secretary is considering withholding the issuance of certificates under the act for a period of not exceeding 90 days to any person who ships, or offers for shipment, any variety of vinifera species table grapes to any foreign destination in violation of any provisions of the act or this part, he shall cause notice to be given to the person accused of the nature of the charges against him and of the specific instances in which violation of the act or the regulations in this part is charged.

Dated, August 2, 1976, to become effective September 15, 1976.

DONALD E. WILKINSON,
Administrator.

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 4]

PART 722—COTTON

Subpart—Marketing Quota Regulations for the 1972 and Succeeding Crops of Extra-Long Staple Cotton and Recordkeeping Requirements for Extra-Long Staple and Upland Cotton

1976 CROP MARKETING QUOTA PENALTY RATE

This amendment is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31), as amended (7 U.S.C. 1281 et seq.). The purpose of this amendment is to incorporate the rate of penalty applicable to excess extra-long staple cotton produced in the 1976 crop year.

Under the Agricultural Adjustment Act of 1938, the extra-long staple cotton penalty rate per pound on the farm marketing excess is equal to the higher of 50 percent of the parity price as of June 15 of the calendar year in which the crop is produced or 50 percent of the 1976 support price of extra-long staple cotton.

Since the rate of penalty is simply a methematical determination, it is hereby determined and found that compliance with the notice, public procedure, and effective date requirements of 5 U.S.C. 553 is unnecessary and contrary to the public interest, and this document shall become effective August 6, 1976.

The regulations for Marketing Quotas for the 1972 and Succeeding Crops of Extra-Long Staple Cotton and Recordkeeping Requirements for Extra-long Staple and Upland Cotton (37 FR 25029, 38 FR 20840, 39 FR 30340, 40 FR 52715), are amended as follows:

1. Section 722.73 is amended by adding a new subparagraph (c)(5) to read as follows:

§ 722.73 Rate of penalty.

* * * * *

(c) * * *

(5) 1976 ELS cotton penalty rate is 58.5 cents per pound.

(Secs. 346, 347, 373, 375, 63 Stat. 674, as amended, 63 Stat. 675, as amended, 52 Stat. 65, 66, as amended (7 U.S.C. 1346, 1347, 1373, 1375).)

Effective date: This amendment becomes effective on August 6, 1976.

Signed at Washington, D.C., on July 30, 1976.

SEELEY G. LODWICK,
Acting Administrator, Agricultural Stabilization and Conservation Service.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 51]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period August 8–14, 1976. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.351 Lemon Regulation 51.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is good on first grade fruit and easier on all other grades. Average f.o.b. price was $6.49 per carton the week ended July 31, 1976, compared to $6.51 per carton the previous week. Track and rolling supplies at 175 cars were down 5 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 3, 1976.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period August 8, 1976, through August 14, 1976, is hereby fixed at 270,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 4, 1976.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Regulations, 1976 and Subsequent Crops Rice Supplement]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1976 and Subsequent Crops Rice Loan and Purchase Program

REVISION OF REGULATIONS

On March 2, 1976, a notice of proposed rulemaking was issued relative to the operating provisions of the loan and purchase program for 1976-crop rice. No comments were received regarding the 1976 program.

In order to incorporate amendments and certain changes in operating provisions determined desirable for more efficient operation of the program and to include necessary provisions as required by the Rice Production Act of 1975 (Pub. L. 94–214, 90 Stat. 181, approved February 16, 1976), the regulations issued by Commodity Credit Corporation published as the 1970 and Subsequent Crops Rice Loan and Purchase Program (35 FR 8443, as amended; 7 CFR § 1421.300–312) are hereby revised effective as to the 1976 and subsequent crops of rice. The material previously appearing in these regulations remains in full force and effect as to the crop years to which it was applicable. The revised regulations delete the cross compliance provisions, define eligible producer, specify the quantity of rice eligible for loans and purchases, and provide for refunds of prepaid handling charges. Accordingly, §§ 1421.300 through 1421.313 of Title 7 are revised to read as follows:

Sec.
1421.300 Purpose.
1421.301 Definitions.
1421.302 Availability.
1421.303 Eligible Rice.
1421.304 Compliance requirements.
1421.305 Determination of quality.
1421.306 Determination of quantity.
1421.307 Warehouse receipts.
1421.308 Warehouse charges.
1421.309 Fees and charges.
1421.310 Inspection certificates.
1421.311 Settlement.
1421.312 Maturity of loans.
1421.313 Support rates.

AUTHORITY: Secs. 4, 5, 62 Stat. 1070, 1072, as amended (15 U.S.C. 714 b and c); secs. 101, 401, 63 Stat. 1051, as amended (7 U.S.C. 1441, 1421); sec. 102, 90 Stat. 183 (7 U.S.C. 1441).

§ 1421.300 Purpose.

This supplement contains program provisions which together with (a) the annual crop year supplement, (b) the General Regulations Governing Price Support for the 1976 and Subsequent Crops, (c) the Cooperative Marketing Association Eligibility Requirements for Price Support regulations in Part 1425 of this chapter, and (d) any amendments or revisions of such regulations, set forth the requirements with respect to price support for the 1976 and subsequent crops of rice.

§ 1421.301 Definitions.

(a) *Farm Operator.* A farm operator is a producer in a farm allotment area who has general control of the farming operations on the farm.

(b) *Rice Operator.* A rice operator is a producer in a producer allotment area who carries out or arranges for the actual planting, cultivation, harvesting, and marketing of a specific acreage of rice on a farm and to whom zero allotment or a specific allotment acreage is attributed.

§ 1421.302 Availability.

A producer desiring price support must request a loan on or notify the ASCS county office of his intention to sell his eligible rice no later than the date(s) set forth in the applicable annual crop supplement to the regulations in this part.

§ 1421.303 Eligible rice.

(a) *General.* To be eligible for loans and purchases, rice must meet the requirements of this section in addition to the other eligibility requirements of the program.

(1) *Eligible producer.* The rice must have been produced by an eligible producer.

(2) *Classes.* The rice must be one of the classes specified in: (i) The applicable annual crop year supplement or (ii) The Official Standards of the United States for Rough Rice other than "Mixed Rough Rice".

(3) *Contamination and poisonous substances.* Rice must not be contaminated by rodents, birds, insects, or other vermin or contain mercurial compounds, toxin producing molds, or other substances poisonous to man or animals.

(b) *Grade requirements for loans.* In addition to the requirements of paragraph (a) of this section, rice at the time it is placed under loan must:

(1) Grade U.S. No. 5 or better (rice of special grades, shall not be eligible), and

(2) Contain not more than 14 percent moisture.

(c) *Quantity Eligible for Loan and Purchase.* (1) *Loans and Purchases.* Loans and purchases shall be available to eligible producers on a farm with respect to a quantity of rice produced on the farm determined by multiplying the farm allotment by the established yield for the farm or, in the producer allotment areas, by multiplying the allotment allocated to

V41153 AUG 6 76 UMI

the farm by each rice operator by the yield established for the rice operator.

(2) *Farm Allotment Areas.* In a farm allotment area, if there is more than one eligible producer on a farm on which there is an acreage allotment, each producer's share of the eligible rice produced on the farm shall be the quantity furnished to the county ASCS office by the farm operator. If any farm operator fails to give such information by August 1 of the crop year or such later date as may be approved by the county office, the county office will determine each producer's share, based on leasing arrangements and other available information. Each producer will be notified of his share of eligibility. The farm operator may, with the concurrence of the county office, reallocate shares on the farm anytime after the original allocation is made: *Provided*, That such reallocation shall not affect the eligibility of rice previously tendered for loan or purchase hereunder.

(3) *Producer Allotment Areas.* In a producer allotment area, if there is more than one eligible producer on a farm to which one or more rice operators have allocated allotments, each producer's share of the eligible rice produced on each such allotment shall be the quantity furnished to the county office by the rice operator who allocated such allotment to the farm. If any rice operator fails to give such information by August 1 of the crop year or such later date as may be approved by the county office, the county office will determine each producer's share, based on leasing arrangements and other available information. Each producer will be notified of his share of eligibility. The rice operator may, with the concurrence of the county office, reallocate shares within an individual allotment on a farm after the original allocation is made: *Provided*, That such reallocation shall not affect the eligibility of rice previously tendered for loan or purchase hereunder.

(4) *Designation of Eligibility.* If an eligible producer is a member of an approved cooperative and delivers a quantity of rice produced on a farm to the cooperative for marketing, such rice shall not be deemed to be eligible rice unless the producer has filed with the cooperative a designation of such quantity of rice as eligible rice to be delivered to the cooperative, the cooperative has notified the county office, and the county office has returned to the cooperative a verification that the producer has eligible rice in this quantity produced on the farm which has not been tendered to the county office for loan or purchase. The producer may cancel such designation in whole or in part at any time prior to delivery of the rice to the cooperative.

§ 1421.304 Eligible producer.

An eligible producer is a rice producer who is a cooperator, who shares in the production of rice on a farm on which there is an acreage allotment or to which a producer allotment has been allocated, whose production of rice is attributable to the acreage allotment, and if a set aside is in effect, who has set aside the required acreage. A producer, for loan and purchase eligibility purposes, shall be considered as a rice producer when he actively participates in the farming operations necessary to produce and harvest a crop of rice on the farm and shares in the rice crop by virtue of furnishing all or part of the land on which the rice is being produced or the labor, water, or equipment necessary to produce and harvest the crop.

§ 1421.305 Determination of quality.

(a) *Quality.* The class, grade, grading factors, milling yield, and all other quality factors shall be determined in accordance with the Official Standards of the United States for Rough Rice, whether or not such determinations are made on the basis of an official inspection.

(b) *Loans and Purchases.* In the case of rice stored commingled in an approved warehouse, loans and purchases will be made on the quality shown on the warehouse receipts or supplemental certificate, if applicable. In the case of rice stored modified commingled or identity preserved, loans and purchases will be made on the basis of the quality shown on the Federal or Federal-State Sample Inspection Certificate, based on a representative sample of each lot of rice taken as authorized by the county office. Loans and purchases on farm stored rice will be based on the rate specified in the annual crop year supplement.

§ 1421.306 Determination of quantity.

(a) *In warehouse*—(1) *Commingled.* The amount of a loan on the quantity of eligible rice stored commingled in an approved warehouse shall be based on the weight specified on the warehouse receipt representing such rice which is pledged as security for the loan, or on the supplemental certificate, if applicable.

(2) *Identity preserved or modified commingled.* The amount of a loan on the quantity of eligible rice stored identity preserved or modified commingled in an approved warehouse shall be based on a percentage, as determined by State committee, of the weight specified on the warehouse receipt representing such rice which is pledged as security for the loan, or on the supplemental certificate, if applicable. Such percentage shall not exceed 95 percent of the weight so specified. The State committee's determination shall be made on a statewide basis or for specified areas within the State. The county committee may lower such percentage on an individual basis when determined to be in the best interest of CCC. Weights determined on the basis of such percentages shall be expressed in terms of whole units of 100 pounds (round 49 pounds or less to the next lowest hundredweight and round 50 pounds or more to the next highest hundredweight).

(b) *On farm.* The quantity of rice placed under a farm storage loan shall be determined in accordance with § 1421.17 and shall be expressed in whole units of 100 pounds.

(c) *Bagged or bulk.* In determining the quantity of bagged rice by weight, the gross weight, including bags, shall be used. When necessary to convert bagged rice to a bulk basis or bulk rice to a bagged basis, an adjustment of 0.6 pounds for each 100 pounds of gross weight shall be made as allowance for the weight of the bag.

§ 1421.307 Warehouse receipts.

(a) *General.* A warehouse receipt representing rice to be placed under a warehouse storage loan, delivered in satisfaction of a farm storage loan, or delivered for purchase must meet the requirements of this section and the General Regulations Governing Price Support for 1976 and Subsequent Crops, as amended or revised. A separate warehouse receipt must be submitted for each class by variety, grade, and milling yield of rice. Each warehouse receipt must carry an endorsement by the warehouseman in substantially the following form:

> Warehouse charges through (applicable maturity date) including, but not limited to, receiving and loading out charges accrued or to accrue and all other charges incident to the acquisition of the rice by CCC on the rice represented by this warehouse receipt have been paid or otherwise provided for and a lien for such charges will not be claimed by the warehouseman from CCC or any subsequent holder of the warehouse receipt. If the rice represented by this warehouse receipt is to be loaded out in bags, the warehouseman agrees that any and all right, title, and interest which he has in such bags shall pass with the rice when such rice is acquired under the price support program or shall pass at the time the rice is loaded out if the rice is not in bags at the time of acquisition by CCC.

(b) *Entries.* Each warehouse receipt or warehousemen's supplemental certificate properly identified with the warehouse receipt must be issued in accordance with the Uniform Rice Storage Agreement.

The following items must be shown on the warehouse receipt and/or supplemental certificate in the case of rice stored commingled or on the warehouse receipt, supplemental certificate, or Federal or Federal-State inspection certificate in the case of rice stored identity preserved or modified commingled:

(1) Whether the rice is stored in bulk or in bags;
(2) Whether the rice is to be delivered in bulk or in bags;
(3) Gross weight for bagged rice and net weight for bulk rice;
(4) Class and variety;
(5) Grade;
(6) Grading factors;
(7) Milling yield;
(8) Moisture;
(9) Method of storage (modified commingled or identity preserved); and
(10) Manner by which rice was received (truck or rail).

(c) *Supplemental certificate.* When required, the supplemental certificate shall be executed by the warehouseman for commingled rice, by the warehouseman and producer for modified-commingled rice, and by the producer for identity-preserved rice.

§ 1421.308 Warehouse charges.

(a) *Farm-stored loans and purchases.* CCC will assume receiving and warehouse storage charges on rice delivered to an approved warehouse after loan maturity date and acquired by CCC (1) in satisfaction of a farm storage loan or (2) through purchase, except that warehouse storage charges will be assumed by CCC only from and after the date of completion of deposit of such rice in the warehouse.

(b) *Warehouse-stored loans and purchases.* CCC will assume warehouse storage charges accruing on and after the day following the loan maturity date on rice which is in approved warehouse storage under loan and is acquired by CCC and on rice which is in approved warehouse storage on the loan maturity date and is purchased by CCC.

(c) *Refund of prepaid handling charges.* The receiving or the receiving and loading out charges to be refunded on the rice referred to in paragraph (a) of this section and § 1421.22(i) shall be at the rate charged the producer by the storing warehouse.

§ 1421.309 Fees and charges.

The producer shall pay a loan service fee and delivery charge as specified in § 1421.11. In addition, a charge of $13.45 for each lot sampled will be made in connection with each warehouse receipt serving as security for either a modified-commingled or identity-preserved warehouse-stored loan.

§ 1421.310 Inspection certificates.

Except in the case of a loan on rice stored commingled in an approved warehouse, settlement with the producer on rice acquired by CCC will be based on the quality shown on the Federal or Federal-State sample inspection certificates. Such inspection certificates shall be dated not earlier than 30 days prior to the maturity date. The cost of Federal or Federal-State inspections as required by this section and § 1421.310 shall be for the account of CCC.

§ 1421.311 Settlement.

Settlement for eligible rice acquired by CCC under loan or by purchase will be made with the producer as provided in § 1421.22, the annual crop year supplement and this section. Where rice is placed under a farm storage loan in an area where a location differential is in effect and is delivered to CCC in satisfaction of the loan in an area where no differential is applicable, settlement for rice acquired by CCC will be made on the basis of the support rate for the area where the rice is delivered. Deliveries of rice shall be in accordance with instructions issued by the county office.

(a) *Commingled warehouse storage.* Settlement for eligible rice stored commingled in an approved warehouse and acquired by CCC under a loan or by purchase shall be made on the basis of the class and the grade, quality, and quantity as shown on the warehouse receipt or supplemental certificate if applicable. Settlement shall also be made on such a basis: (1) Where an approved warehouse issues a commingled warehouse receipt for loan rice delivered into the warehouse from farm storage pursuant to instructions of the county, (2) Where an approved warehouse issues commingled warehouse receipts in exchange for warehouse receipts representing rice under identity preserved or modified commingled warehouse storage loan and (3) Where CCC determines that a warehouseman failed to maintain the identity of rice covered by an identity preserved warehouse storage loan or modified commingled warehouse storage loan. In such case, the warehouseman shall issue a commingled warehouse receipt covering such rice. In the case of purchases, the producer shall, not later than the day following the maturity date specified in the annual crop year supplement, deliver to the county office warehouse receipts under which an approved warehouse guarantees the class and the grade, quality, and quantity of rice sold to CCC.

(b) *Modified commingled—(1) Loans.* Settlement for eligible rice stored modified commingled in an approved warehouse and acquired by CCC under a loan shall be made on the basis of the class, grade, and quality shown on Federal or Federal-State sample inspection certificates and on the basis of the quantity shown on the warehouse receipt or supplemental certificate, if applicable. The county office shall sample the rice for settlement purposes within 10 days after the maturity date.

(2) *Purchases.* Settlement for eligible rice stored modified commingled in an approved warehouse and acquired by CCC under a purchase shall be made on the basis of the class, grade, and quality shown on Federal or Federal-State sample inspection certificates and on the basis of the quantity shown on the warehouse receipt or supplemental certificate, if applicable. The producer shall, within 5 days following the maturity date, deliver to the county office warehouse receipts representing rice stored modified commingled in an approved warehouse. The county office shall sample the rice for settlement purposes within 5 days of the time the producer delivers the warehouse receipt or 10 days after the maturity date, whichever is later.

(c) *Other storage.* Settlement for eligible rice acquired under loan or purchase not covered by paragraph (a) or (b) of this section shall be made on the basis of the class and of the grade and quality shown on Federal or Federal-State sample inspection certificate and on the basis of the quantity shown on official weight certificates. Certificates required by this paragraph (c) shall be dated not earlier than 30 days before the maturity date.

(d) *Weight Determination—(1) Farm storage.* The weight of farm-stored bulk rice acquired by CCC on which settlement will be made shall be the net weight of the rice. The weight of farm-stored bagged rice acquired by CCC on which settlement will be made shall be the combined net weight of the rice and the bags, and title to the bags will pass to CCC with the rice. CCC shall not otherwise pay any amount representing the value of the bags.

(2) *Warehouse-stored.* Rice in approved warehouse storage shall be acquired by CCC on a bagged or bulk basis in accordance with the manner in which the rice is to be loaded out by the warehouseman as indicated on the warehouse receipt. The quantity for settlement purposes shall be the net weight of the rice when acquired in bulk and the combined net weight of the rice and the bags when acquired in bags. Where the warehouse receipt indicates that rice will be loaded out in bags, title to the bags shall pass to CCC at the time of acquisition of the rice. CCC shall not otherwise pay any amount representing the value of the bags. In the event any person should successfully dispute the passing of title to the bags, the producer shall indemnify CCC for any loss sustained by reason thereof.

§ 1421.312 Maturity of loans.

Loans will mature on demand but not later than the date specified in the annual crop year supplement to the regulations in this part.

§ 1421.313 Support rates.

The basic support rate, premium and discounts, and location differentials for use in making loans and purchases shall be set forth in the annual crop year supplement to the regulations in this part.

Effective date: These regulations shall be effective on August 6, 1976.

Signed at Washington, D.C., on August 2, 1976.

SEELEY G. LODWICK,
Acting Executive Vice President,
Commodity Credit Corporation.

[Amendment 1]

PART 1430—DAIRY PRODUCTS

Subpart—Price Support Program for Milk

PURCHASE OF FORTIFIED NONFAT DRY MILK

The United States Department of Agriculture has announced that effective

V 41 N 153 AUG 6 76 UMI

July 14, 1976, the Commodity Credit Corporation will also purchase nonfat dry milk fortified with vitamins A and D under the dairy support program as provided herein. Accordingly, 7 CFR § 1430.282 is amended by adding a new paragraph (b) (3), as follows:

§ 1430.282 Price support program for milk.

* * * * *

(b) * * *

(3) Beginning July 14, 1976, CCC will consider offers of nonfat dry milk fortified with vitamins A and D in bulk containers meeting specifications in the announcements at 63.40 cents per pound.

(Secs. 201, 401, 63 Stat. 1052, 1054, as amended (7 U.S.C. 1446, 1421); sec. 4(d), 62 Stat. 1070, as amended (15 U.S.C. 714b(d)).)

Signed at Washington, D.C., on July 30, 1976.

SEELEY G. LODWICK,
Acting Executive Vice President,
Commodity Credit Corporation.

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 73—SCABIES IN CATTLE

Area Quarantined

This amendment guarantines a portion of Graham County in Arizona because of the existence of cattle scabies. The restrictions pertaining to the interstate movement of cattle from quarantined areas as contained in 9 CFR Part 73, as amended, will apply to the area quarantined.

Accordingly, Part 73, Title 9, Code of Federal Regulations, as amended, restricting the interstate movement of cattle because of scabies is hereby amended as follows:

In § 73.1a, paragraph (c) relating to the State of Arizona is added to read:

§ 73.1a Notice of quarantine.

* * * * *

(c) Notice is hereby given that cattle in a certain portion of the State of Arizona are affected with scabies, a contagious, infectious, and communicable disease; and therefore, the following area in such State is hereby quarantined because of said disease:

That portion of Graham County comprised of the south ½ of the southeast ¼ of sec. 18, T. 6, R. 26E.

* * * * *

(Sec. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; secs. 1-4, 33 Stat. 1264, 1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132 (21 U.S.C. 111-113, 115, 117, 120, 121, 123-126, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141)

Effective date: The foregoing amendment shall become effective August 2, 1976.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of cattle scabies and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 2d day of August 1976.

J. M. HEJL,
Deputy Administrator,
Veterinary Services.

[FR Doc.76-22820 Filed 8-5-76;8:45 am]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Area Quarantined

● *Purpose.* The purpose of this amendment is to quarantine the entire State of New Jersey because of hog cholera. ●

This amendment quarantines the entire State of New Jersey because of the existence of the contagion of hog cholera. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will apply to the quarantined areas.

Accordingly, Part 76, Title 9, Code of Federal Regulations, as amended, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respect:

§ 76.2 [Amended]

In § 76.2, a new paragraph (e) (4) relating to the State of New Jersey is added to read:

* * * * *

(e) * * *

(4) *New Jersey.* The entire State.

(Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; secs. 1-4, 33 Stat. 1264, 1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111-113, 114g, 115, 117, 120, 121, 123-126, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141.)

Effective date. The foregoing amendment shall become effective August 3, 1976.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of hog cholera, and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 3rd day of August, 1976.

PIERRE A. CHALOUX,
Acting Deputy Administrator,
Veterinary Services.

SUBCHAPTER E—VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS; ORGANISMS AND VECTORS

PART 113—STANDARD REQUIREMENTS

Miscellaneous Amendments

● *Purpose:* To make conforming changes in a test procedure and to correct a copying error in a Standard Requirement. ●

Statement of Considerations: On February 13, 1976, (41 FR 6751), paragraphs (b) (1) and (c) (5) of section 113.28, were amended to permit the use of purified water instead of distilled water. On July 6, 1976, (41 FR 130), paragraph (a) of § 113.25 was also amended to permit the use of purified water instead of distilled water.

To conform with these changes, § 113.28(a) (1) (ii) and § 113.28(c) (1) are amended by substituting the word "purified" for the word "distilled."

On May 28, 1976, (41 FR 105), paragraph (c) (10) of section 113.203 was published with a copying error under the heading of *Specificity Index.* "400 mm³ or greater" should read "440 mm² or greater." These amendments correct this error.

Each word in the heading for § 113.203 is to be capitalized.

1. Section 113.28 is amended by revising paragraphs (a) (1) (ii) and (c) (1) to read:

§ 113.28 Detection of mycoplasma contamination.

* * * * *

(a) * * *

(1) * * *

(ii) Prepare 1 gram/100 milliliters (ml) purified water (1 percent solution) of each. Mix the solutions together; the cysteine reduces the DPN. Filter sterilize, dispense in appropriate amounts and store frozen at —20 degrees centigrade.

* * * * *

(c) * * *

(1) Dissolve in 900 ml of purified water by boiling the following:

Heart infusion agar	g	25
Heart infusion broth	do	10
Proteose peptone No. 3	do	10
1 pct thallium acetate	ml	25

* * * * *

2. Section 113.203 is amended by revising paragraph (c) (10) to read:

§ 113.203 Tuberculin—PPD Bovis, Intradermic.

(c) * * *

(10) * * *

Specificity index:	*Classification*
440 mm² or greater	Satisfactory.
Between 360 mm² and 440 mm²	Inconclusive.
Less than 360 mm²	Unsatisfactory.

* * * * *

(21 U.S.C. 151 and 154; 37 FR 28477; 38 FR 19141)

These amendments provide a correction in one test procedure and a change in media preparation in each of two test procedures used in the veterinary biologics control program administered in accordance with the Virus-Serum-Toxin Act. In order to be of maximum benefit, they must be made effective immediately.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure concerning these amendments are impracticable and unnecessary, and good cause is found for making these amendments effective less than 30 days after publication in the FEDERAL REGISTER.

The foregoing amendments shall become effective August 6, 1976.

Done at Washington, DC, this 2nd day of August, 1976.

J. M. HEJL,
Deputy Administrator,
Veterinary Services.

Title 18—Conservation of Power and Water Resources

CHAPTER I—FEDERAL POWER COMMISSION

[Docket No. RM76-8; Order No. 539-B]

PART 2—GENERAL POLICY AND INTERPRETATIONS

PART 157—APPLICATIONS FOR CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY FOR ORDERS PERMITTING AND APPROVING ABANDONMENT UNDER SECTION 7 OF THE NATURAL GAS ACT

Enforcement of Deliverability and Rendition of Natural Gas Service Under Certificated Arrangements

JULY 30, 1976.

In Order No. 539[1] the Commission reiterated its policy to enforce certificated delivery obligations. In Order No. 539-A[2] the Commission clarified its prior order, granted in part and denied in part reconsideration, and issued a notice of proposed rulemaking to promulgate § 2.83 as a section of the Commission's general policy and interpretations. Written comments on the proposed rulemaking were received and oral argument before the Commission was held on May 4, 1976. The entire record in Docket No. RM76-8 is now before us for final determination.

In Order No. 539, we spoke of a "certificated minimum daily delivery obligation". From the reactions of the parties, we learned that the quoted phrase meant different things to different persons, depending, of course, on their respective views of the certainty of natural gas production. Some respondents interpreted the phrase to mean that a producer would be required to deliver a set volume of gas every day for the entire contract term or be subject to the criminal penalties of the Natural Gas Act,[3] while other persons related the meaning of the phrase to the producer's best efforts to deliver presently producible supplies. Our attempt in Order No. 539-A to clarify the meaning of "certificated minimum daily delivery obligation" did not settle the matter, as the continued confusion in the rulemaking proceeding showed. We must conclude that the clause is not one that has a generally accepted meaning among pipelines and producers. In this order, based on all material submitted in Docket No. RM 76-8, we will make clear the intention of the Commission with respect to its policy on certificate obligations and enforcement of such obligations.

Under section 7 of the Natural Gas Act,[4] the Commission authorizes a natural gas company to perform a service, the sale for resale in interstate commerce of natural gas. In order for this sale by a producer to be lawful, it must procure from the Commission a certificate of public convenience and necessity. This certificate is the physical evidence of the producer's right to commence the approved service.[5] The certificate itself sets forth the terms and conditions under which the producer must operate, which include but are not limited to those obligations incurred by reason of the contract of sale.

Whatever the obligations voluntarily entered into by the producer in the contract of sale with the pipeline, the contract terms must normally bow to the conditions included in the certificate. Where, however, the contract provisions incorporated into the certificate include greater responsibilities and obligations than those imposed by the certificates, such as in a warranty of delivery agreement, the producer, of course, will be held accountable to those greater responsibilities and obligations.

Some parties to this proceeding advance the argument that a common term in producer-pipeline contracts called the "sole discretion" clause permits the producer complete control over deliverability to the pipeline. Thus, a typical reservations clause in a sales contract provides, in part, that the seller reserves the right "to operate its property free from any control by Buyer in such manner as Seller, in its *sole discretion* may deem advisable, including without limitation, the right to drill new wells, to repair and rework wells and to abandon any well * * *"[6] (Emphasis added.) Even though the view that the seller rules the transaction is not universally held even in the industry,[7] the Commission wants to make clear that its certificate conditions, and the incidents of service which it represents, are superior to any limitations on Commission authority contained in the contract.

The question then, which the Commission attempted to address in Order Nos. 539 and 539-A, is what standard or test of deliverability the producer is required to live up to under the provisions of the Natural Gas Act and the rules and regulations of this Commission. Natural gas companies,[8] as that term is defined in the Natural Gas Act,[9] are required under sections 4, 5, and 7[10] to fulfill certain service obligations arising from the Act itself,[11] together with other responsibilities that may result from other Federal or State laws or the law of private contracts. Pursuant to the Act itself, however, jurisdictional sales, service, and operation of natural gas companies must be just, reasonable, not unduly discriminatory, preferential, or otherwise unlawful, and in the public interest.

In response to the allegations that have been made concerning our authority to enforce certificate obligations and to condition certificates to aid in this enforcement, section 7(e) of the Natural Gas Act[12] provides that, in order for the Commission to issue a certificate of public convenience and necessity, it must determine that the applicant is "* * * able and willing *properly* to * * * perform the service proposed * * *" (emphasis added). Certain parties to this proceeding have asserted that this finding is made only at the commencement of the sale. Such a contention does not comport with the ordinary meaning of "service", which implies a continuing obligation, nor with the remainder of the section, which requires that the applicant be found to be willing to conform to the provisions of the Natural Gas Act and the Commission's regulations.[13] The Commission has long recognized a distinction between the service to the public that is

certificated and the contractual agreement that provides for the sale, especially since the service obligation outlives the contractual authorization.[14] Since the requirement of service continues until the Commission permits abandonment, and since the holder of a certificate from the Commission must comply with the rules and regulations thereof, it is simply incorrect to assert that the Commission cannot act to preserve the integrity of its certification process by conducting an oversight review of an on-going service obligation.[15] A mere reference to the authority granted the Commission in section 5(a) of the Act [16] should suffice to prove the correctness of the view that the Commission has a continuing responsibility to the public to insure that recipients of certificates issued by the Commission are, throughout the life of the certificate, performing consistent with their obligations under the Natural Gas Act.

Historically, jurisdictional actions of natural gas companies have been reviewed by this Commission on the basis, among others, of whether the company acted prudently under the circumstances presented.[17] The prudent operator standard has long been established as an implied covenant in lease agreements, which means that producers are very familiar with the requirements of this standard.[18] Furthermore, state regulatory agencies, whose principal purpose is conservation of natural resources, require producers to conform to their codified regulations, which are consistent with the responsibilities imposed by the prudent operator standard.[19] The Department of the Interior has, in effect, incorporated the prudent operator test into its offshore regulations by the use of the terms "reasonable" and "diligence" in describing the lessee's obligations as set forth in the leasing agreement.[20] Obviously, then, all producers are acquainted with the strictures of the prudent operator standard. Therefore, there should be no contention that the Commission's action in the instant order is insufficiently specific for respondents to understand the responsibilities incurred in complying with the prudent operator standard.[21]

Once deliveries have commenced under the certificate, as conditioned, the responsibility for the development and maintenance of the gas reserves underlying the committed acreage rests with the producer, and the applicable standard by which to judge whether a producer is properly proceeding with these responsibilities will be the above-referenced "prudent operator standard".

This standard encompasses the obligations to develop the properties consistent with the performance requirements of lease agreements with mineral owners and/or assignors; all valid rules and regulations of any Federal,[22] state or local government having jurisdiction; and the standard of what a reasonably prudent producer would do with respect to the drilling completion, workover, recompletion or abandonment of wells.

We have set forth in this order the nature and extent of the service obligations incurred by a natural gas company in accepting a certificate from this Commission, along with tracing the historical link between service and prudent operation. Therefore, it is consistent with the expression in Order Nos. 539 and 539–A of a statement of policy, that the Commission reiterates its intention to enforce the prudent operator standard as implicit in the service obligations contained in all existing certificates.

The Commission's authority to hold certificate recipients to the prudent operator standard rests, as we have previously stated, in the concept expressed in the Natural Gas Act as service, as that term has been interpreted by the Commission and the courts. For example, the Supreme Court in *Sunray Mid-Continent Oil Company* v. *Federal Power Commission* [23] stated:

> [t]he Commission's practice supports its authority here in the terms of section 7(e). It has long drawn a distinction between the underlying service to the public a natural gas company performs and the specific manifestation—the contractual relationship—which that service takes at a given moment.[24]

The Commission has embodied this idea into its certificates of public convenience and necessity by including as a condition thereof the following language;

> The grant of the certificates issued in paragraph (A) above shall not be construed as a waiver of the requirements of section 7 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's regulations thereunder and is without prejudice to any findings or orders which have been or which may hereafter be made by the Commission in any proceedings now pending or here instituted by or against Applicants. Further, our action in this proceeding shall not foreclose or prejudice any future proceedings or objections relating to the operation of any price or related provisions in the gas purchase contracts herein involved. The grant of the certificates aforesaid for service to the particular customers involved does not imply approval of all of the terms of the contracts, particularly as to the cessation of the service upon termination of said contracts as provided by section 7(b) of the Natural Gas Act. The grant of the certificates aforesaid shall not be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales of natural gas subject to said certificates.[25]

The Commission has only recently spoken to the issue presented in this rulemaking procedure, the relationship of the contract to the certificate and which prevails if there is a conflict. In its Opinion No. 662 the Commission held that:

> [t]he contract between Texas Eastern and Gulf obviously gave rise to rights and obligations; much is made in the briefs before us concerning the nature, extent and enforceability of those rights and obligations. We set these matters aside. We look instead to Gulf's certificate of public convenience and necessity, for it too gave rights and obligations, and these are clearly ours to interpret, modify, or enforce as the case may require. (Footnote omitted.) [26]

As an additional objection to a Commission imposed standard of deliverability, the producers have strenuously argued that Section 1(b) of the National Gas Act prohibits the Commission from conditioning, pursuant to section 7(e) of the Act, a certificate to aid in the enforcement of delivery obligations that exist in a contract as certificated. Section 1(b) does not, however, preclude the Commission from enforcing the contractual provisions of a gas sales contract and various delivery obligations contained therein or in the certificate. As the Court indicated in *Phillips Petroleum Company* v. *Wisconsin*,[27] "sales in interstate commerce for resale by producers to interstate pipeline companies do not come within the 'production or gathering' exemption." Once a contract has been certificated, the obligations must be performed in accordance with the provisions of the Natural Gas Act, including section 7(b) of the Act. If the seller under a certificate is not meeting the delivery obligations of such certificate, there has been either a partial or total abandonment of certificated service which requires Commission approval pursuant to section 7(b). Accordingly, attachment of a condition to a certificate to assure compliance with section 7(b) of the Act cannot be considered an unreasonable condition contrary to the requirements of section 7(e) of the Act. Moreover, section 1(b) of the Act does not, in any fashion, limit the Commission's authority conferred upon it by section 7(b).

Despite the Commission's belief that the prudent operator standard is implicit in the service obligation included in all

[27] 347 U.S. 672, 680–81 (1954).

certificates issued by this Commission, we wish to make this point clear to all future certificate applicants by including as a condition in all certificates issued on or after the date of this order notice of the supremacy of the certificate to the contract and the application of the prudent operator standard to deliverability obligations. Therefore, pursuant to the notice of proposed rulemaking set forth in Order No. 539–A, the Commission will amend its rules and regulations to add a new § 157.41, to read as set forth below.

A party that objects to the inclusion of this condition in its certificate may reject the certificate outright or accept with the reservation of its right to appeal the offending condition under section 19(b).[28]

In light of our clarification of Order Nos. 539 and 539–A holding a producer to the legally applicable principle of the prudent operator standard, § 2.83 of the Commission's regulations is hereby deleted from the Commission's general policy and interpretations. As to all certificates issued from October 14, 1975 to date that contain § 2.83(d) as a condition thereof, whether accepted and/or whether rehearing or reconsideration of the order issuing said certificate was sought or not, the § 2.83(d) condition contained therein is hereby vacated, but each and every other condition included in said certificate is fully applicable, unless such condition has become the subject of a petition for rehearing or reconsideration that has been granted by this Commission.

In lieu of the § 2.83(d) condition included in all certificates issued on or after the October 14, 1975 date of Order No. 539, the Commission will substitute therefore the prudent operator standard presented herein and incorporated into the Commission's regulations as new § 157.41. This provision applies whether rehearing or reconsideration was sought for the § 2.83(d) condition. If, however, rehearing or reconsideration was sought, whether granted as yet or not, those proceedings are incorporated into this rulemaking proceeding for resolution. Because of the Commission's decision expressed in this order to use the prudent operator test to judge the service obligation of the producer under the certificate, all petitions for rehearing or reconsideration pending before this Commission are granted in part and denied in part.

Finally, the data necessary to facilitate any Commission action deemed necessary in implementing the instant order is either currently required to be filed by the appropriate persons or will be required as a result of our order implementing Form No. 108. More specifically, any information and materials submitted by virtue of Form No. 108, Form No. 15 and Form No. 40 will be used to assist the Commission and its Staff in enforcing certificated obligations.

The Commission finds. (1) The Commission's prior orders, Order Nos. 539 and 539–A, should be clarified consistent with this order.

(2) The notice and opportunity to participate in this proceeding with respect to the matter presently before the Commission through the submission, in writing of comments and through participation at oral argument before the Commission, is consistent and in accordance with all procedural requirements therefore as prescribed in Section 553, Title 5 of the United States Code.

(3) The amendment to section 157 of the Commission's regulations under the Natural Gas Act is necessary and appropriate for the administration of the Natural Gas Act.

(4) Section 2.83 should be deleted from Part 2, statements of general policy and interpretations of the Commission.

(5) The Commission should include in all certificates issued on or after the date of issuance of this order a condition stating that all sales made pursuant to the certificate are subject to review under the prudent operator standard.

(6) It is the public interest to delete § 2.83(d) as a condition to all certificates issued on or after October 14, 1975, whether such certificates were accepted or not, and insert in its place the condition set forth in the newly promulgated § 157.41 of the Commission's Regulations under the Natural Gas Act.

(7) It is in the public interest that all petitions for rehearing or reconsideration raising an issue regarding the imposition of § 2.83(d) as a condition to a certificate are incorporated into this proceeding for disposition of that issue and should be granted in part and denied in part for the reasons expressed in this order.

The Commission orders. (A) The Commission's Order Nos. 539 and 539–A are clarified consistent with this order.

(B) The Commission, acting pursuant to its authority under the Natural Gas Act, as amended, particularly sections 4, 5, 7, and 16 thereof, 15 U.S.C. 717c, 717d, 717f, and 717o, hereby orders that its general rules, Title 18 of the Code of Federal Regulations, be amended by adding a new § 157.41 as follows:

§ 157.41 Condition for producer certificates of public convenience and necessity.

On and after July ____, 1976, all certificates of public convenience and necessity for the sale of natural gas for resale in interstate commerce shall be conditioned as follows:

All persons making jurisdictional sales pursuant to the authority granted by this certificate are hereby given notice that the contractual obligations between the buyer and the seller are incorporated into the certificate obligations, and that the certificate is further conditioned to require that the seller shall observe the standard of a prudent operator to develop and maintain deliverability from reserves dedicated hereunder.

§ 2.83 [Removed]

(C) Section 2.83 is deleted from Part 2, Statements of General Policy and Interpretations of the Commission.

(D) The § 2.83(d) condition attached to all certificates issued on or after October 14, 1975, is deleted from such certificates and the condition contained in § 157.41 of the Commission's regulations under the Natural Gas Act is inserted in its place.

(E) All petitions for rehearing or reconsideration raising an issue regarding the imposition of § 2.83(d) or as a condition to a certificate of public convenience and necessity are incorporated into this proceeding for disposition of that issue and are granted in part and denied in part for the reasons expressed in this order.

By the Commission.

Commissioner Watt, dissenting, filed a separate statement appended hereto.[29]

KENNETH F. PLUMB,
Secretary.

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Regulations No. 4]

PART 404—FEDERAL OLD-AGE, SURVIVORS AND DISABILITY INSURANCE (1950.....)

Introduction, General Definitions and General Provisions

On March 11, 1976, there was published in the FEDERAL REGISTER (41 FR 10446) a notice of proposed rule making with proposed amendments to Subpart A, Regulations No. 4. The proposed amendment brings up to date the existing Subpart A by adding to the general definitions section, reference to the 1965, 1967, 1969, and 1972 Amendments to the Social Security Act along with their corresponding U.S. Statutes at Large references. "Special payments at age 72" for certain uninsured individual, as provided in section 228 of the Social Security Act and § 404.374 of Subpart D of Regulations No. 4, is included under the definition of the term "Benefit." In addition the category of father's benefits is included under the definition of the term "Benefit." Father's insurance benefits are provided as a result of the Supreme Court decision in "Weinberger v. Wiesenfeld, 420 U.S. 636 (1975). Section 404.335a of Subpart D, published in final in the FEDERAL REGISTER on March 30, 1976, at 41 FR 13335, effectuated the Supreme Court's decision by providing that father's insurance benefits are payable on the same basis and under the same conditions as they are payable to mothers having children of the deceased worker in their care.

Interested persons were given the opportunity to submit, within 30 days, data, views, or arguments with regard to the proposed changes. The comment period has expired and no adverse comments were received. The proposed amendment is hereby adopted without change and is set forth below.

V 41 1153 AUG 6 76 UMI

(Secs. 205 and 1102 of the Social Security Act, as amended; 53 Stat. 1368, as amended; 79 Stat. 379, 49 Stat. 647, as amended; 42 U.S.C. 405 and 1302.)

This amendment shall be effective August 6, 1976.

(Catalog of Federal Domestic Program Nos. 13.802, 13.803, 13.804, and 13.805—Disability Insurance, Retirement Insurance, Special Benefits for Persons Age 72 and Over, and Survivors Insurance.)

Dated: July 19, 1976.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: August 2, 1976.

MARJORIE LYNCH,
Acting Secretary of Health, Education, and Welfare.

Part 404 of Chapter III of Title 20 of the Code of Federal Regulations is amended as follows:

Section 404.2 is amended by revising paragraph (a)(1), redesignating paragraphs (a)(10) through (a)(15) as paragraphs (a)(14) through (a)(19) respectively, by adding new paragraphs (a)(10) through (a)(13), by revising the heading to paragraph (b), and by revising paragraph (c)(2) to read as follows:

§ 404.2 General definitions and use of terms.

(a) *Terms relating to the acts and regulations.* (1) "The Act" means the Social Security Act, as amended.

• • • • • •

(10) "Social Security Amendments of 1965" means the act approved July 30, 1965 (79 Stat. 286).

(11) "Social Security Amendments of 1967" means the act approved January 2, 1968 (81 Stat. 821).

(12) "Social Security Amendments of 1969" means the act approved December 30, 1969 (83 Stat. 487).

(13) "Social Security Amendments of 1972" means the act approved October 30, 1972 (86 Stat. 1329).

• • • • • •

(b) *Secretary; Commissioner; Administration; Appeals Council; Administrative Law Judge defined.*

• • • • • •

(c) *Miscellaneous.* • • •

(2) "Benefit" means an old-age insurance benefit, disability insurance benefit, wife's insurance benefit, husband's insurance benefit, child's insurance benefit, widow's insurance benefit, widower's insurance benefit, mother's insurance benefit, father's insurance benefit, parent's insurance benefit, or special payment at age 72 under title II of the Act. (Lump sums, which are death payments under title II of the Act, are excluded from the term "benefit" as defined in this part to permit greater clarity in the regulations).

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

[Docket No. 76N-0216]

PART 2—ADMINISTRATIVE PRACTICES AND PROCEDURES

Cross-Reference Amendment

The Food and Drug Administration is amending the administrative practices and procedures regulations to update a cross-reference that was inadvertently omitted in the redesignation of Subpart F as Subpart B, which was published in the FEDERAL REGISTER of June 28, 1976 (41 FR 26636).

§ 2.52 [Amended]

§ 2.75 [Amended]

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 701(a), 52 Stat. 1055 (21 U.S.C. 371(a))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), Part 2 is amended in § 2.52 *Definitions* and § 2.75 *Exclusion of witnesses and documentary evidence* by changing the reference "Subpart F" to read "Subpart B."

Effective date: This amendment shall become effective August 6, 1976.

Dated: August 2, 1976.

JOSEPH P. HILE,
Acting Commissioner of Food and Drugs.

[FR Doc.76-22885 Filed 8-5-76;8:45 am]

[Docket No. 76N-0275]

PART 27—CANNED FRUITS AND FRUIT JUICES

Clarification of Definitions and Standards of Identity

The Food and Drug Administration is clarifying the definition for canned fruits and fruit juices and the standards of identity for canned peaches, canned apricots, canned pears, canned fruit cocktail, canned plums, and canned figs. The clarifications are being made to avoid misinterpretation. Although the amendments are considered to be nonsubstantive, the Commissioner of Food and Drugs is providing the statutory 30-day period for objections so that anyone who is adversely affected and wishes to object may do so. Except for any provisions that may be stayed by the filing of proper objections, compliance with this regulation, which shall include any required labeling changes, may begin October 5, 1976, and all products initially introduced into interstate commerce on or after January 1, 1978, shall fully comply; objections by September 7, 1976.

A discussion of the amendments that will clarify the definitions and standards of identity follows:

1. Drained weight. The Commissioner is amending the procedure for the determination of compliance for drained weight (21 CFR 27.1(o)(4)) by adding the statement "The sample unit shall be the entire contents of the container."

2. Canned peaches. The Commissioner is amending the labeling section of the standard for canned peaches (21 CFR 27.2(d)(2)) to state that pieces or irregular pieces shall be designated "Pieces", "Irregular Pieces", or "Mixed Pieces of Irregular Sizes and Shapes". The Commissioner is also amending paragraph (d)(2) to state that "'Halves' may be alternatively designated as 'Halved', 'Halves and Pieces' as 'Halved and Pieces', 'Quartered' as 'Quarters', 'Sliced' as 'Slices', and 'Diced' as 'Dice'".

3. Canned apricots. The Commissioner is amending the labeling section of the standard for canned apricots (21 CFR 27.10(d)(2)) to state that pieces or irregular pieces shall be designated "Pieces", "Irregular Pieces", or "Mixed Pieces of Irregular Sizes and Shapes".

4. Canned pears. The Commissioner is revising the section of the standard for canned pears (21 CFR 27.20(b)) that sets forth the optional styles and forms of pack. The Commissioner is also amending the labeling section of the standard (21 CFR 27.20(d)(2)) to state that pieces or irregular pieces shall be designated "Pieces", "Irregular Pieces", or "Mixed Pieces of Irregular Sizes and Shapes". He is also amending paragraph (d)(2) to state that "The style of the pear ingredient shall be preceded or followed by 'Unpeeled' when the units are whole or halves and are unpeeled". The Commissioner is also amending paragraph (d)(2) to provide that "'Halves' may be alternatively designated as 'Halved', 'Quarters' as 'Quartered', 'Slices' as 'Sliced', and 'Diced' as 'Dice'".

5. Canned fruit cocktail. The Commissioner is amending the labeling section of the standard for canned fruit cocktail (21 CFR 27.40(d)(1)) to state that the names "cocktail fruits" or "fruits for cocktail" may be used optionally for the name "fruit cocktail".

6. Canned plums. The Commissioner is revising the section of the standard for canned plums that sets forth the optional styles and forms of pack (21 CFR 27.45(b)). He is also correcting paragraph (c)(2)(i) by including the term "slightly sweetened fruit juice(s)" rather than "lightly sweetened fruit juice(s)" when the density of the syrup packing medium is 11 percent or more but less than 15 percent. The Commissioner is amending the labeling section of the standard (21 CFR 27.45(d)(2)) to state that "The style of the plum ingredient shall be preceded or followed by 'Peeled' when the plums are peeled and by 'Pitted' in the case of whole pitted plums". The Commissioner is also amending paragraph (d)(2) to state that "'Halves' may be alternatively designated 'Halved'".

7. Canned figs. The Commissioner is amending the standard for canned figs (21 CFR 27.70(b)) to define "split" or "broken" fig as "open to such an extent that the seed cavity is exposed, the shape of the fruit may be distorted, and the fruit may or may not be broken apart into entirely separate pieces."

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 401, 701(e), 52 Stat. 1046, 70 Stat. 919 (21 U.S.C. 341, 371(e))), and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), Part 27 is amended as follows:

1. By revising § 27.1(o)(4) to read as follows:

§ 27.1 Definitions.

• • • • • •

(o) • • •

(4) *Drained weight.* A lot shall be deemed to be in compliance for drained weight based on the average value of all samples analyzed according to the sampling plans. The sample unit shall be the entire contents of the container.

• • • • • •

2. By revising the introductory text of § 27.2(d)(2) to read as follows:

§ 27.2 Canned peaches; identity; label statement of optional ingredients.

(d) • • •

(2) The color type and style of the peach ingredient as provided in paragraph (b)(2) and (3) of this section and the name of the packing medium specified in paragraph (c)(1) and (2) of this section, preceded by "In" or "Packed In" or the words "solid pack", where applicable, shall be included as part of the name or in close proximity to the name of the food, except that pieces or irregular pieces shall be designated "Pieces", "Irregular Pieces", or "Mixed Pieces of Irregular Sizes and Shapes". "Halves" may be alternately designated as "Halved", "Halves and Pieces" as "Halved and Pieces", "Quartered" as "Quarters", "Sliced" as "Slices", and "Diced" as "Dice". The terms "Cling" and "Free" may be used as optional designations for "Clingstone" and "Freestone" respectively. When the packing medium is prepared with a sweetener(s) which imparts a taste, flavor, or other characteristic to the finished food in addition to sweetness, the name of the packing medium shall be accompanied by the name of such sweetener(s), as for example in the case of a mixture of brown sugar and honey, an appropriate statement would be "--------- sirup of brown sugar and honey" the blank to be filled in with the word "light", "heavy", or "extra heavy" as the case may be. When the liquid portion of the packing media provided for in paragraph (c)(1) and (2) of this section consists of fruit juice(s), such juice(s) shall be designated in the name of the packing medium as:

• • • • • •

3. By revising the introductory text of paragraph (d)(2) of § 27.10 to read as follows:

§ 27.10 Canned apricots; identity; label statement of optional ingredients.

• • • • • •

(d) • • •

(2) The style of the apricot ingredient as provided in paragraph (b) of this section and the name of the packing medium as used in paragraph (c)(1) and (2) of this section, preceded by "In" or "Packed In" or the words "solid pack", where applicable, shall be included as part of the name or in close proximity to the name of the food, except that pieces or irregular pieces shall be designated "Pieces", "Irregular Pieces", or "Mixed Pieces of Irregular Sizes and Shapes". The style of the apricot ingredient shall be preceded or followed by "Unpeeled" or "Peeled", as the case may be. "Halves" may be alternatively designated "halved", "quarters" as "quartered" and "slices" as "sliced". When the packing medium is prepared with a sweetener(s) which imparts a taste, flavor or other characteristic to the finished food in addition to sweetness, the name of the packing medium shall be accompanied by the name of such sweetener(s), as for example in the case of a mixture of brown sugar and honey, an appropriate statement would be "---------- sirup of brown sugar and honey" the blank to be filled in with the word "light", "heavy", or "extra heavy" as the case may be. When the liquid portion of the packing media provided for in paragraph (c)(1) and (2) of this section consists of fruit juice(s), such juice(s) shall be designated in the name of the packing medium as:

• • • • • •

4. By revising paragraph (b) and the introductory text of paragraph (d)(2) of § 27.20 to read as follows:

§ 27.20 Canned pears; identity; label statement of optional ingredients.

• • • • • •

(b) *Styles and forms of units.* The optional pear styles and forms of units referred to in paragraph (a) of this section are:

(1) Whole.
(2) Halves.
(3) Quarters.
(4) Slices.
(5) Diced.
(6) Pieces or irregular pieces.

Each such ingredient is peeled, except whole and halves may be, alternatively, unpeeled. Except in the case of whole pears, each such ingredient is cored.

• • • • • •

(d) • • •

(2) The style and forms of units of the pear ingredient as provided in paragraph (b) of this section and the name of the packing medium specified in paragraph (c)(1) and (2) of this section, preceded by "In" or "Packed In" or the words "solid pack", where applicable, shall be included as part of the name or in close proximity to the name of the food, except that pieces or irregular pieces shall be designated "Pieces", "Irregular Pieces", or "Mixed Pieces of Irregular Sizes and Shapes". The style of the pear ingredient shall be preceded or followed by "Unpeeled" when the units are whole or halves and are unpeeled. "Halves" may be alternatively designated as "Halved", "Quarters" as "Quartered", "Slices" as "Sliced", and "Diced" as "Dice". When the packing medium is prepared with a sweetener(s) which imparts a taste, flavor or other characteristic to the finished food in addition to sweetness, the name of the packing medium shall be accompanied by the name of such sweetener(s), as for example in the case of a mixture of brown sugar and honey, an appropriate statement would be "---------- sirup of brown sugar and honey" the blank to be filled in with the word "light", "heavy", or "extra heavy" as the case may be. When the liquid portion of the packing media provided for in paragraph (c)(1) and (2) of this section consists of fruit juice(s), such juice(s) shall be designated in the name of the packing medium as:

• • • • • •

5. By revising the first sentence of § 27.40(d)(1) to read as follows:

§ 27.40 Canned fruit cocktail; identity; label statement of optional ingredients.

• • • • • •

(d) *Labeling requirements.* (1) The name of the food is "fruit cocktail", "cocktail fruits", or "fruits for cocktail". • • •

• • • • • •

6. By revising paragraphs (b) and (c)(2)(i) and the introductory text of paragraph (d)(2) of § 24.45 to read as follows:

§ 27.45 Canned plums; identity; label statement of optional ingredients.

• • • • • •

(b) *Optional styles of the plum ingredient.* The optional plum ingredients specified in paragraph (a) of this section are peeled or unpeeled:

(1) Whole.
(2) Halves.

Peeled or unpeeled whole plums are pitted or, alternatively, unpitted. Peeled or unpeeled plum halves are pitted.

• • • • • •

(c) • • •

(2) • • •

(i) When the density of the solution is 11 percent or more but less than 15 percent, the medium shall be designated as "slightly sweetened water", or "extra light sirup", "slightly sweetened fruit juice(s) and water" or "slightly sweetened fruit juice(s)", as the case may be.

• • • • • •

(d) • • •

(2) The style of the plum ingredient as provided in paragraph (b) of this

V 41 153 AUG 6 76 UMI

section and the name of the packing medium specified in paragraph (c) (1) and (2) of this section, preceded by "In" or "Packed in" shall be included as part of the name or in close proximity to the name of the food. The style of the plum ingredient shall be preceded or followed by "Peeled" when the plums are peeled and by "Pitted" in the case of whole pitted plums. "Halves" may be alternatively designated "Halved". When the packing medium is prepared with a sweetener(s) which imparts a taste, flavor or other characteristic to the finished food in addition to sweetness, the name of the packing medium shall be accompanied by the name of such sweetener(s), as for example, in the case of a mixture of brown sugar and honey, an appropriate statement would be "_____ sirup of brown sugar and honey", the blank to be filled in with the word "light", "heavy", or "extra heavy", as the case may be. When the liquid portion of the packing media provided for in paragraph (c) (1) and (2) of this section consists of fruit juice(s), such juice(s) shall be designated in the name of the packing medium as:

* * * * *

7. By revising § 27.70(b) to read as follows:

§ 27.70 Canned figs: identity; label statement of optional ingredients.

* * * * *

(b) The optional fig ingredients referred to in paragraph (a) of this section are prepared from mature figs of the light or dark varieties. Figs (or whole figs), split figs (or broken figs), or any combination thereof are optional fig ingredients. A "whole fig" is one which is whole, but may be slightly cracked, provided it retains its natural conformation without exposing the interior. A "split" or "broken" fig is one that is open to such an extent that the seed cavity is exposed. The shape of the fruit may be distorted, and the fruit may or may not be broken apart into entirely separate pieces.

* * * * *

The Commissioner concludes that notice and public procedure are unnecessary for the promulgation of this final regulation as it is of a minor nature and does not impose an additional duty or burden on any person, but rather relieves unnecessary requirements and clarifies the intent prescribed in the regulations.

Any person who will be adversely affected by the foregoing regulation may at any time on or before September 7, 1976, file with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the regulation, specify with particularity the provisions of the regulation deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Six copies of all documents shall be filed and should be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date: Except as to any provisions that may be stayed by the filing of proper objections, compliance with this final regulation, including any required labeling changes, may begin October 5, 1976 and all products initially introduced into interstate commerce on or after January 1, 1978, shall fully comply. Notice of the filing of objections or lack thereof will be published in the FEDERAL REGISTER.

(Secs. 401, 701(e), 52 Stat. 1046, as amended, 70 Stat. 919 (21 U.S.C. 341, 371(e)).)

Dated: August 2, 1976.

JOSEPH P. HILE,
Acting Commissioner of Food and Drugs.

[FRL 594-2; FAP6H5106/T19]

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 193—TOLERANCES FOR PESTICIDES IN FOOD ADMINISTERED BY THE ENVIRONMENTAL PROTECTION AGENCY

Glyphosate

On October 29, 1975, the Environmental Protection Agency (EPA) gave notice (40 FR 50304) that Monsanto Co., 800 N. Lindbergh Blvd., St. Louis MO 63166, had submitted a petition (FAP 6H5106). This petition proposed that 21 CFR 123 (since redesignated 21 CFR 193) be amended by the establishment of a regulation permitting the use of the herbicide glyphosate (N-(phosphonomethyl)-glycine) and its metabolite aminomethylphosphonic acid in a proposed experimental program involving application to and near impounded and flowing water, with a tolerance limitation of 0.05 part per million (ppm) for residues of the herbicide and its metabolite in potable water, in accordance with an experimental use permit to be issued concurrently under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). No comments were received in regard to this notice.

Monsanto Co. has subsequently amended the petition by requesting that the tolerance limitation be increased to 0.1 ppm and by limiting the sites of application of the herbicide and its metabolite to the banks of small water impoundments, irrigation ditch banks, and drainage ditch banks.

The scientific data reported and all other relevant material have been evaluated, and it has been determined that the pesticide may be safely used in accordance with the provisions of the experimental use permit issued under FIFRA. It has further been determined that since residues of the pesticide may result in potable water from the uses provided for by the experimental use permit, the food additive regulation requested by the petitioner should be established and should include a tolerance limitation.

Accordingly a food additive regulation is established as set forth below. Any person adversely affected by this regulation may, on or before September 7, 1976, file written objections with the Hearing Clerk, Environmental Protection Agency, Room 1019, East Tower, 401 M St. SW., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and should specify both the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on August 6, 1976, 21 CFR 193 is amended by adding new § 193.235 as set forth below.

(Sec. 409(c) (1) and (4) of the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 346(c) (1) and (4)].)

Dated: July 29, 1976.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

Part 193 is amended by adding new § 193.235 to read as follows:

§ 193.235 Glyphosate.

(a) A tolerance of 0.1 part per million is established for residues of the herbicide glyphosate (N-(phosphonomethyl)-glycine) and its metabolite aminomethylphosphonic acid in potable water resulting from application of the herbicide in accordance with the provisions of an experimental use permit that expires July 28, 1977.

(b) Residues in potable water not in excess of 0.1 part per million resulting from the use described in paragraph (a) of this section remaining after expiration of the experimental program will not be considered to be actionable if the pesticide is legally applied during the term of and in accordance with the provisions of the experimental use permit and food additive tolerance.

(c) Monsanto Co. shall immediately notify the Environmental Protection Agency of any findings from the experimental use that have a bearing on safety. The firm shall also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the Environmental Protection Agency or the Food and Drug Administration.

[FR Doc.76-22959 Filed 8-5-76;8:45 am]

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Dichlorophene and Toluene Capsules

The Food and Drug Administration (FDA) has evaluated a new animal drug application (101–078V) filed by Bayvet Corp., P.O. Box 390, Shawnee Mission, KA 66201, proposing the safe and effective use of dichlorophene and toluene capsules for treating dogs and cats for certain helminth infestations. The application is approved effective August 6, 1976.

The Commissioner of Food and Drugs is amending Part 520 (21 CFR Part 520) to reflect this approval.

In accordance with § 514.11(e) (2) (ii) (21 CFR 514.11(e) (2) (ii)) of the animal drug regulations, a summary of the safety and effectiveness data and information submitted to support the approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, Monday through Friday from 9 a.m. to 4 p.m., except on Federal legal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))), and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), Part 520 is amended in § 520.580 by adding a new sponsor, "000859" to paragraph (d) (1); the paragraph is thus revised to read as follows:

§ 520.580 Dichlorophene and toluene capsules.

* * * * *

PART 522—IMPLANTATION OR INJECTABLE DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Gentamicin Sulfate Injection

The Food and Drug Administration is amending the animal drug regulations for use of gentamicin sulfate injection to include a required statement inadvertently omitted in the initial promulgation. For the treatment of dogs and cats, the drug is restricted to use by or on the order of a licensed veterinarian. The amendment is effective August 6, 1976.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), § 522.1044 is amended by adding paragraph (c) (3) to read as follows:

§ 522.1044 Gentamicin sulfate injection.

* * * * *

(c) * * *

(3) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

* * * * *

Effective date. This amendment shall be effective August 6, 1976.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated: July 30, 1976.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER D—MISCELLANEOUS EXCISE TAXES [TEMPORARY PENSION EXCISE TAX REGULATIONS]

[T.D. 7424]

PART 141—TEMPORARY EXCISE TAX REGULATIONS UNDER THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974

Temporary Regulations Relating to the Election To Pay an Excise Tax for Certain Pre-1975 Prohibited Transactions

To officers and employees of the Internal Revenue Service and others concerned:

This document contains Temporary Excise Tax Regulations under the Employee Retirement Income Security Act of 1974 (26 CFR Part 141) under section 2003(c) (1) (B) of such Act, which provides an election to pay an excise tax under section 4975 of the Internal Revenue Code of 1954 for certain pre-1975 transactions. They supersede guidelines announced in Technical Information Release 1450 on March 23, 1976.

Under § 141.4975–14 of these regulations the election is available for persons who, before January 1, 1975, engaged in transactions which were prohibited transactions within the meaning of sections 503 (b) and (g) of the Code. Making the election results in the nonapplication of a denial of exempt status under section 501(a) on account of the transaction with respect to which the election is made. However, making the election has no effect on the application of section 6501 (relating to limitations on the assessment and collection of tax) and section 6511 (relating to limitations on the filing of a claim for credit or refund) to taxpayers affected by the nonapplication of a denial of exempt status.

The election is made by filing the form and paying the tax that the taxpayer claims thereon is due in the manner prescribed in these temporary regulations. Only a person making an election is liable for the taxes resulting from the election. The amount of tax and what constitutes correction are computed as if section 4975 had been in effect at the time of the transaction. For purposes of determining the amount of tax and what constitutes correction, regulations in the private foundation area are incorporated by reference. However, except as necessary for such purposes, taxpayers are advised that no inference should be drawn from these regulations regarding questions arising under section 4975 with respect to prohibited transactions occurring after December 31, 1974.

Accordingly, TIR–1450 is hereby superseded and the Temporary Excise Tax Regulations under the Employee Retirement Income Security Act of 1974 (26 CFR Part 141) are hereby amended, effective immediately, by inserting in the appropriate place the following new section to 26 CFR Part 141:

§ 141.4975–14 Election to pay an excise tax for certain pre-1975 prohibited transactions.

(a) *In general.* Section 2003(c) (1) (B) of the Employee Retirement Income Security Act of 1974 (88 Stat. 978) provides an election to pay an excise tax by certain persons involved prior to 1975 in prohibited transactions within the meaning of section 503 (b) or (g).

(b) *Effect of election.* If a valid election is made under this section with respect to a particular transaction, any loss of exemption under section 501(a) because of a prohibited transaction within the meaning of section 503 (b) or (g) shall not apply. Instead, the person who made the election referred to in this section shall be subject to the taxes which would have been imposed by section 4975 (a) or (b) as though section 4975 had imposed a tax in respect of the transaction. (However, section 4975(f) (1), relating to joint and several liability, shall not apply to any person who has not made an election under this section, and interest for late payment of tax shall not begin to accrue until after the date of the election.) Such an election is irrevocable. However, the making of the election does not affect the application of section 6501 for purposes of assessment and collection of tax and section 6511 for purposes of filing a claim for credit or refund with respect to taxpayers and to taxable years of taxpayers whose tax liability is or may be affected by reason of the nonapplication of a denial of exempt status.

(c) *Method of election.* A person shall make the election referred to in this section by filing the form issued for such purpose by the Internal Revenue Service, including therein the information required by such form and the instructions issued with respect thereto, and by paying the tax which the taxpayer indicates is due at the time the return is filed. To be valid the election must be made prior to the later of December 6, 1976, or 120 days after the date of notification referred to in § 1.503(a)–1(b)

V 41 1153 AUG 6 76 UMI

of this chapter (Income Tax Regulations), relating to loss of exemption for certain prohibited transactions. If there has been no notification of loss of exemption, the election may be made at any time.

(d) *Computation of section 4975 excise tax.* To the extent applicable, and solely for purposes associated with the payment of a section 4975 excise tax under the election referred to in this section, § 53.4941(e)–1 of this chapter (Foundation Excise Tax Regulations) is controlling.

Because of the need for immediate guidance with respect to the provisions contained in this Treasury decision, it is found impracticable to issue it with notice and public procedure thereon under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

(Sec. 2003(c)(1)(B), Employee Retirement Income Security Act of 1974 (88 Stat. 978) and section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).)

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved: July 30, 1976.

CHARLES M. WALKER,
Assistant Secretary of the Treasury.

[T.D. 7425]

PART 141—TEMPORARY EXCISE TAX REGULATIONS UNDER THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974

Definition of Certain Terms in the Prohibited Transaction Provisions

To officers and employees of the Internal Revenue Service and others concerned.

This document amends the Temporary Excise Tax Regulations under the Employee Retirement Income Security Act of 1974 (26 CFR Part 141) by adding § 141.4975–13. This new section prescribes temporary use of 26 CFR 53.4941(e)–1 (Foundation Excise Tax Regulations relating to foundation self-dealing taxes) for matters involving the terms which appear both in section 4941(e) of the Internal Revenue Code of 1954 (the Code) (relating to foundation self-dealing) and section 4975(f) of the Code (relating to employee benefit plan prohibited transactions). These terms are: "taxable period," "amount involved," "correction," and "correction period." These regulations will be effective until superseded by permanent regulations under the relevant paragraphs of section 4975(f). No inferences should be drawn from these temporary regulations concerning the contents of permanent regulations, which have not yet been proposed.

Accordingly, Part 141 of the Temporary Excise Tax Regulations under the Employee Retirement Income Security Act of 1974 are amended by adding the following new section to 26 CFR Part 141:

§ 141.4975–13 Definition of "taxable period", "amount involved", "correction", and "correction period".

Until superseded by permanent regulations under sections 4975(f) (2), (4), (5) and (6), § 53.4941(e)–1 of this Chapter (Foundation Excise Tax Regulations) will be controlling to the extent such regulations describe terms appearing both in section 4941(e) and section 4975(f).

Because of the need for immediate guidance with respect to the provisions contained in this Treasury decision, it is found impracticable to issue it with notice and public procedure thereon under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

(Sec. 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).)

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved: July 30, 1976.

CHARLES M. WALKER,
Assistant Secretary of the Treasury.

Title 40—Protection of the Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 593–6]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Approval of Oklahoma State Implementation Plan; Strategy for Control of Sulfur Oxides

On May 31, 1972 (37 FR 10887), pursuant to section 110 of the Clean Air Act (42 U.S.C. 1857c–5), the Administrator approved, with some exceptions, the plan submitted by the State of Oklahoma for the implementation of the National Ambient Air Quality Standards (NAAQS). The plan, as submitted on January 28, 1972, did not incorporate strategies for attainment and maintenance of sulfur oxide standards. All air quality control regions in Oklahoma were designated Priority III with respect to sulfur oxides, indicating that emissions of sulfur oxides were low and ambient air measurements showed a quality better than secondary NAAQS. For this reason, Oklahoma elected not to submit a formal strategy for control of sulfur oxides.

Since the submittal of the State Implementation Plan on January 28, 1972, further evaluations have been made. While source emissions and ambient air concentrations remain low, causing no immediate threat to the NAAQS, the possibility of increased contaminants in the future prompted the State to develop a control strategy and to adopt formal regulations to assure continued maintenance of standards. The resultant strategy and regulation represent a revision to the Oklahoma State Implementation Plan as submitted by the Governor on March 4, 1975. In addition, the Administrator disapproved the Oklahoma State Implementation Plan as well as other State plans as a group on March 8, 1973 (38 FR 6280) with regard to maintenance of standards. The disapproval notice was reaffirmed on February 25, 1974 (39 FR 7276). The Oklahoma revision offers correction to this deficiency in the plan as it relates to the maintenance of sulfur oxide standards.

With regard to the Oklahoma regulation, it should be pointed out that new source emission limitations under Sections 16.1, 16.3, and 16.5 of Regulation 16 are being incorporated in the Implementation Plan. Other sections of Regulation 16 referring to property-line ambient air quality sulfur oxide measurements, while effective under State law, are not considered part of the Federally approved plan. Certain sections of the control strategy refer to non-criteria pollutants and control by property line measurement. These also are not considered part of the plan.

The Oklahoma control strategy and regulation were subjected to public hearings in accordance with 40 CFR 51.4 and the Regional Administrator of the Environmental Protection Agency published a notice of intent to approve the plan on November 4, 1975. There was adequate opportunity for interested persons to participate in the rulemaking. In addition, the regulatory requirements are already in effect under State law and the approval imposes no additional regulatory burdens. Therefore, the Administrator finds good cause to make this approval effective on August 6, 1976. Approval is issued under the authority of section 110(a) of the Clean Air Act as amended (42 U.S.C. 1857c–5).

Dated: August 2, 1976.

JOHN QUARLES,
Acting Administrator,
Environmental Protection Agency.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart LL—Oklahoma

1. In § 52.1920, paragraph (c) is amended by adding a paragraph (7) as follows:

§ 52.1920 Identification of plan.

* * * * *

(c) * * *

(7) Sections 16.1, 16.3, and 16.5 of Regulation No. 16, "Control of Emissions of Sulfur Compounds," the Control Strategy which relates to sulfur oxides control under the applicable sections of Regulation 16, and emission limitations on existing sources as adopted on December 1, 1974 and submitted by the Governor on March 4, 1975.

[FR Doc.76–29760 Filed 8–5–76;8:45 am]

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARATMENT OF THE INTERIOR

PART 3300—OUTER CONTINENTAL SHELF LEASING; GENERAL

Qualified Joint Bidders

Under the regulation 43 CFR 3302.3–2 (a) any person who wishes to submit a joint bid for an oil and gas lease under the Outer Continental Shelf Lands Act (43 U.S.C. 1331–1343) during the six month bidding period which began on May 1, 1976, must have filed 45 days before that date a Statement of Production covering the prior production period. The joint bidding regulations were published on October 1, 1975, and many prospective bidders are still not familiar with their requirements. Consequently, some Statements of Production have been filed after the prescribed cutoff date. It has been determined that acceptance of these late filings will not be incompatible with the purpose of the regulations.

Accordingly, the first sentence of 43 CFR 3302.3–2(a) is hereby amended by the substitution of a comma for the period and by the addition of the following:

§ 3302.3–2 Joint bidding requirements.

(a) * * * and except that for the bidding period commencing May 1, 1976, all Statements of Production must be filed no later than August 13, 1976.

* * * * *

RONALD G. COLEMAN,
Assistant Secretary of the Interior.

AUGUST 4, 1976.

[FR Doc.76–22833 Filed 8–5–76;8:45]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

PART 19—EMPLOYEE RESPONSIBILITIES AND CONDUCT

Editorial Amendment

Adopted: August 2, 1976.

Released: August 3, 1976.

1. We think it will be helpful to include in Part 19 of the Rules and Regulations (Employee Responsibilities and Conduct) a cross-reference to Section 1.25, which summarizes restrictions applicable to former members of the Commission and its staff. We are therefore adding such a cross-reference as Section 19.735–103, which is set out in the attached Appendix.

2. *Accordingly, it is ordered,* effective August 16, 1976, That Part 19 is amended as set out in the Appendix hereto. Authority for the amendment is contained in Section 4 (i) and (j) and 303(r) of the Communications Act of 1934 as amended, 47 U.S.C. 154 (i) and (j) and 303(r), and in Section 0.231(d) of the Rules and Regulations, 47 CFR 0.231(d). Because the amendment is editorial and informational in nature, the prior notice and effective date provisions of 5 U.S.C. 553 are inapplicable.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

FEDERAL COMMUNICATIONS COMMISSION,
R. D. LICHTWARDT,
Executive Director.

In Part 19 of Chapter I of Title 47 of the Code of Federal Regulations, § 19.735–103 is added to read as follows:

§ 19.735–103 Cross-reference; former Commissioners and employees.

For provisions pertaining to former Commissioners and employees, see § 1.25 of this chapter.

[FR Doc.76–22846 Filed 8–5–76;8:45 am]

[FCC 76–729]

PART 73—RADIO BROADCAST SERVICES

Reregulation of Radio and Television Broadcasting, To Clarify Type-Approval Specifications for Antenna Monitors

Adopted: July 27, 1976.

Released: August 5, 1976.

1. In a Report and Order released on January 15, 1973[1] the Commission adopted rules to provide for the type approval of antenna (phase) monitors and for the implementation of their use by AM broadcast stations having directional antenna systems. Subparagraph (c)(9) of Section 73.53 of the new rules adopted was worded so as to indicate that all monitors, in order to be type-approved, must be designed so that the sampling functions of the monitor could be switched from an external point and that the monitor indications could be read using external meters. These specifications for type-approval were included in the rules so that the monitors would be suitable for use by stations operating their transmission systems by remote control. Many of the monitors marketed prior to 1974 were not designed, or readily adaptable, for remote control operation. Consequently, AM stations with directional antennas and operating by remote control were required to have a licensed operator visit the transmitter site one or more times each day to observe the monitor indications and determine that the directional antenna was functioning correctly.

2. The rules as adopted in 1973 impose the same design specifications for monitors used by stations having an operator on duty at the transmitter site at all times as those for monitors used by stations having remote control facilities. The Gorman-Redlich Manufacturing Co. of Athens, Ohio, has requested a waiver of Section 73.53(c)(9) of the rules so that it could apply for type-approval of a monitor specifically designed for stations which would not need remote control switching and metering functions. The rules required that AM stations operating directional antenna systems by remote control must have installed type-approved antenna monitors by June 1, 1976, in order to take advantage of less stringent requirements for monitor readings each day at the transmitter site. Most such stations have already obtained new type-approved monitors. All stations using directional antenna systems are required to have type-approved monitors by June 1, 1977.[2] A significant cost savings could be accomplished, particularly for the small market broadcaster having a simple directional antenna system by eliminating the requirement that all monitors be designed for remote control use. Paragraph 12 of the Report and Order which implemented the type-approval specifications states in part:

> There was general agreement that, as the Commission proposed, a phase monitor type approved for the *provision of remote control indications* should be required *if a station licensee undertakes to observe and log phase indications at a remote control point.* * * * (Emphasis added)

3. It is obvious from the above quotation that only monitors used at stations where the directional antenna systems were to be operated by remote control, be specifically designed for such use. The Commission staff involved in development of the type-approved specifications also agree that the rules were not intended to require that antenna monitors used by stations with operators on duty at the transmitter site include remote control functions. In keeping with the original intent of Paragraph 12 of the Report and Order, it is appropriate that we amend the rules to clearly distinguish the difference in monitor requirements for remote controlled and non-remote controlled stations.

4. Subsequent to the adoption of the antenna monitor rules in January 1973, the Commission authorized the use of transmitter extension meters in lieu of remote control for certain types of transmitting system installations.[3] Stations using extension meters were not required to locate the antenna monitor at the duty operator position nor to install extension meters for the monitor indications. Stations could, however, use extension monitor meters if they so desired. The rule changes made by this Order will reference the specifications for external metering of the antenna monitor for both remote control and extension meter use.

5. Type-approval designation as well as the monitor instructions should clearly distinguish between monitors that may be used for remote control and extension meter installations, and those that are not designed for such use. Since all antenna monitors that have been submitted for type-approval up to this time were designed with features for observing the monitor indications at an external point, it would be more appropriate that monitors type-approved subsequent to this Order that cannot be used with external

[1] Docket No. 18471, FCC 73–40.

[2] Note 4 to Section 73.69 of the Rules and Regulations.

[3] Docket No. 19906, FCC 74–1150, released October 30, 1974.

V 41 1153 AUG 6 76 UMI

metering be specifically designated for restricted use. The rules being amended will provide for this procedure. Monitor manufacturers should take care to make this distinction in their marketing to avoid any misunderstanding by broadcast licensees concerning the capabilities of the monitor.

6. We conclude that the adoption of the amendments shown in the Appendix would serve the public interest. Prior notice of rule making, effective date provision, and public procedure thereon are unnecessary pursuant to the Administrative Procedure and Judicial Review Act provisions of 5 U.S.C. 553(b)(3)(B), inasmuch as these amendments impose no additional burdens and raise no issue upon which comments would serve any useful purpose.

7. *Therefore, it is ordered,* That pursuant to Sections 4 and 303 of the Communications Act of 1934, as amended, Part 73 of the Commission's Rules and Regulations are amended as set forth below, effective August 11, 1976.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

1. Section 73.53(c)(9) is revised to read as follows:

§ 73.53 Requirements for type approval of antenna monitors.

* * * * *

(c) * * *

(9) The monitor, if intended for use by stations operating directional antenna systems by remote control or using extension meters to observe the monitor indications shall be designed so that the switching functions required by subparagraph (c)(7) of this section may be performed from a point external to the monitor and phase and amplitude indications be provided by external meters. The indications of external meters furnished by the manufacturer shall meet the specifications for accuracy and repeatability of the monitor itself, and the connection of these meters to the monitor, or of other indicating instruments with electrical characteristics meeting the specifications of the monitor manufacturer shall not affect adversely the performance of the monitor in any respect. The type-approval designations and the instruction manuals for monitors not designed for external switching of the indications as specified in this subparagraph shall clearly show that the monitors are not acceptable for use at stations using remote control for the operation of directional antennas or extension meters to read and log the monitor indications.

* * * * *

2. In Section 73.69 the heading and paragraph (a) are revised to read as follows:

§ 73.69 Antenna monitors.

(a) Each station utilizing a directional antenna shall have in operation at the transmitter an antenna monitor which is of a type approved by the Commission: *Provided, however,* That if the instrument of authorization of the station sets specific tolerances within which phase and amplitude relationships must be maintained, or requires the use of a monitor of specified repeatability or accuracy, the antenna monitor employed under such circumstances shall be authorized on an individual basis. The antenna monitor installed at a station operating a directional antenna by remote control or using extension meters to read and log the monitor indications shall be designed and type approved for such use in accordance with the provisions of § 73.53(c)(9).

PART 591—ALLOWANCES AND DIFFERENTIALS

Increase in Certain Transportation Expense Rates

Part 591 is amended to show that the Civil Service Commission has approved an increase in the transportation expense rates used in computing an allowance under the remote worksite commuting allowance program. The schedule presently appearing in 5 CFR is being retained for future reference.

Appendix A is amended as follows to show the two schedules with their respective effective dates:

APPENDIX A.—DAILY TRANSPORTATION ALLOWANCE SCHEDULES, COMMUTING OVER LAND BY PRIVATE MOTOR VEHICLE TO REMOTE DUTY POSTS

SCHEDULE I.—*Effective Jan. 8, 1971, through July 12, 1975*

Round trip distance in excess of 50 mi	Degree A commuting conditions	Degree B commuting conditions	Degree C commuting conditions
Miles:			
Up to 9 miles	$0.20	$0.22	$0.24
10 to 19	.70	.77	.84
20 to 29	1.20	1.32	1.44
30 to 39	1.70	1.87	2.04
40 to 49	2.20	2.42	2.64
50 to 59	2.70	2.97	3.24
60 to 69	3.20	3.52	3.84
70 to 79	3.70	4.07	4.44
80 to 89	4.20	4.62	5.04
90 to 99	4.70	5.17	5.64
100 to 109	5.20	5.72	6.24
110 to 119	5.70	6.27	6.84
120 to 129	6.20	6.82	7.44
130 to 139	6.70	7.37	8.04
140 to 149	7.20	7.92	8.64
150 to 159	7.70	8.47	9.24
160 to 169	8.20	9.02	9.84
170 and over	8.70	9.57	[1] 10.00

[1] Under the statute, $10 a day is the maximum allowance.

SCHEDULE II.—*Effective on or after July 13, 1975*

Round trip distance in excess of 50 mi	Degree A commuting conditions	Degree B commuting conditions	Degree C commuting conditions
Miles:			
Up to 9 miles	$0.30	$0.32	$0.34
10 to 19	1.05	1.12	1.19
20 to 29	1.80	1.92	2.04
30 to 39	2.55	2.72	2.89
40 to 49	3.30	3.52	3.74
50 to 59	4.13	4.32	4.68
60 to 69	4.80	5.12	5.44
70 to 79	5.55	5.92	6.29
80 to 89	6.30	6.72	7.14
90 to 99	7.05	7.52	7.99
100 to 109	7.80	8.32	8.84
110 to 119	8.55	9.12	9.69
120 to 129	9.30	9.92	[1] 10.00
130 to 139	[1] 10.00	[1] 10.00	10.00
140 to 149	10.00	10.00	10.00
150 to 159	10.00	10.00	10.00
160 to 169	10.00	10.00	10.00
170 and over	10.00	10.00	10.00

[1] Under the statute, $10 a day is the maximum allowance.

Degree A Commuting Conditions. Good paved roads; climatic conditions cause intermittent driving difficulty.

Degree B Commuting Conditions. Roads typically fair but may be good for part of distance or may be unpaved for short distance; climatic conditions during part of a season, in relation to terrain, contribute to additional cost.

Degree C Commuting Conditions. Fair to poor roads; unpaved for part of distance, or travel over open range; hilly or mountainous terrain; climatic conditions during most of a season contribute to additional cost.

(5 U.S.C. 5942; sec. 8, E.O. 11609)

UNITED STATES CIVIL SERVICE COMMISSION,

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 76-219]

PART 153—ANTIDUMPING

Modification or Revocation of Dumping Finding

Antidumping—Potassium Chloride, Otherwise known as Muriate of Potash from Canada. § 153.46. Customs Regulations, amended.

On May 16, 1975, there was published in the FEDERAL REGISTER (40 FR 21499) a "Notice of Tentative Determination to Modify or Revoke Dumping Finding" with respect to potassium chloride, otherwise known as muriate of potash, from Canada, produced and/or sold by

V 41 1 153 AUG 6 76 UMI

Brockville Chemical Industries, Ltd.; Hudson Bay Mining and Smelting Company, Ltd.; and Swift Canadian Company, Ltd. On December 16, 1975, there was published in the FEDERAL REGISTER (40 FR 58323) a "Notice of Tentative Determination to Modify or Revoke Dumping Finding" with respect to potassium chloride, otherwise known as muriate of potash, from Canada, produced and/or sold by Cominco, Ltd.

Reasons for the tentative determinations were published in the above-mentioned notices, and interested persons were afforded an opportunity to make written submissions or request the opportunity to present oral views in connection therewith.

No written submissions or requests to present oral views having been received, I hereby determine that for the reasons stated in the above-mentioned notices, potassium chloride, otherwise known as muriate of potash, from Canada is no longer being, nor is likely to be, sold in the United States at less than fair value by Brockville Chemical Industries, Ltd.; Hudson Bay Mining and Smelting Company, Ltd.; Swift Canadian Company, Ltd.; and Cominco, Ltd., and the above-mentioned finding of dumping is hereby modified to exclude the subject merchandise produced and/or sold by the aforesaid firms.

§ 153.46 [Amended]

Accordingly, § 153.46 of the Customs Regulations (19 CFR 153.46) is hereby amended to show the exclusion from the finding of dumping of potassium chloride, otherwise known as muriate of potash, from Canada, produced and/or sold by Brockville Chemical Industries, Ltd.; Hudson Bay Mining and Smelting Company, Ltd.; Swift Canadian Company, Ltd.; and Cominco, Ltd.

Merchandise	Country	T.D.	Modified by
Potassium chloride, otherwise known as muriate of potash, except that produced and sold by U.S. Borax Chemical Co., Kalium, Saskatchewan, Canada; Kalium Chemicals, Ltd., Regina, Saskatchewan, Canada; Potash Co. of Canada, Ltd., Lanigan, Saskatchewan, Canada; Potash Co. of America, Saskatoon, Saskatchewan, Canada; International Minerals & Chemical Corp., Libertyville, Ill., U.S.A.; CF Industries, Inc., Chicago, Ill.	Canada	69 265	74-157
Brockville Chemical Industries, Ltd., Montreal, Quebec, Canada; Hudson Bay Mining & Smelting Co., Ltd., Toronto, Ontario, Canada; Swift Canadian Co., Ltd., Etobicoke, Ontario, Canada; and Cominco, Ltd., Vancouver, British Columbia, Canada.			76-210

This determination is published pursuant to § 153.44(d), Customs Regulations (19 CFR 153.44(d)).

(Sec. 201, 407, 42 Stat. 11, as amended, 18; 19 U.S.C. 160, 173.)

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

AUGUST 3, 1976.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 54]

RETIREMENT INCOME PLANS

Election To Pay an Excise Tax for Certain Pre-1975 Prohibited Transactions

Notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by September 20, 1976. Pursuant to 26 CFR 601.601(b), designations of material as confidential or not to be disclosed, contained in such comments, will not be accepted. Thus, persons submitting written comments should not include therein material that they consider to be confidential or inappropriate for disclosure to the public. It will be presumed by the Internal Revenue Service that every written comment submitted to it in response to this notice of proposed rule making is intended by the person submitting it to be subject in its entirety to public inspection and copying in accordance with the procedures of 26 CFR 601.702(d)(9).

Any person submitting written comments who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit a request, in writing, to the Commissioner by September 20, 1976. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 2003(c)(1)(B) of the Employee Retirement Income Security Act of 1974 (88 Stat. 978) and section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

PREAMBLE

This document contains proposed amendments to the Regulations on Excise Taxes Imposed with respect to Retirement Income Plans (26 CFR Part 54) under section 2003(c)(1)(B) of the Employee Retirement Income Security Act of 1974, which provides an election to pay an excise tax under section 4975 of the Internal Revenue Code of 1954 for certain pre-1975 transactions. If adopted, the proposed regulations will supersede § 141.4975-14 (Temporary Pension Excise Tax Regulations), the adoption of which appears in the Rules section of this issue of the FEDERAL REGISTER.

Under § 54.4975-14 of these proposed regulations the election is available for persons who, before January 1, 1975, engaged in transactions which were prohibited transactions within the meaning of sections 503 (b) and (g) of the Code. Making the election results in the nonapplication of a denial of exempt status under section 501(a) on account of the transaction with respect to which the election is made. However, making the election has no effect on the application of section 6501 (relating to limitations on the assessment and collection of tax) and section 6511 (relating to limitations on the filing of a claim for credit or refund) to taxpayers affected by the nonapplication of a denial of exempt status.

The election is made by filing the form and paying the tax that the taxpayer claims thereon is due in the manner prescribed in these proposed regulations. Only a person making an election is liable for the taxes resulting from the election. The amount of tax and what constitutes correction are computed as if section 4975 had been in effect at the time of the transaction. For purposes of determining the amount of tax and what constitutes correction, regulations in the private foundation area are incorporated by reference. However, except as necessary for such purposes, taxpayers are advised that no inferences should be drawn from these regulations regarding questions arising under section 4975 with respect to prohibited transactions occurring after December 31, 1974.

Accordingly, it is proposed to supersede 26 CFR 141.4975-14 of the Temporary Excise Tax Regulations under the Employee Retirement Income Security Act of 1974 (26 CFR Part 141) and to amend the Regulations on Excise Taxes with respect to Retirement Income Plans (26 CFR Part 54) by inserting in the appropriate place the following new section:

§ 54.4975-14 Election to pay an excise tax for certain pre-1975 prohibited transactions.

(a) *In general.* Section 2003(c)(1)(B) of the Employee Retirement Income Security Act of 1974 (88 Stat. 978) provides an election to pay an excise tax by certain persons involved prior to 1975 in prohibited transactions within the meaning of section 503 (b) or (g).

(b) *Effect of election.* If a valid election is made under this section with respect to a particular transaction, any loss of exemption under section 501(a) because of a prohibited transaction within the meaning of section 503 (b) or (g) shall not apply. Instead, the person who made the election referred to in this section shall be subject to the taxes which would have been imposed by section 4975 (a) or (b) as though section 4975 had imposed a tax in respect of the transaction. (However, section 4975(f)(1), relating to joint and several liability, shall not apply to any person who has not made an election under this section, and interest for late payment of tax shall not begin to accrue until after the date of the election.) Such an election is irrevocable. However, the making of the election does not affect the application of section 6501 for purposes of assessment and collection of tax and section 6511 for purposes of filing a claim for credit or refund with respect to taxpayers and to taxable years of taxpayers whose tax liability is or may be affected by reason of the nonapplication of a denial of exempt status.

(c) *Method of election.* A person shall make the election referred to in this section by filing the form issued for such purpose by the Internal Revenue Service, including therein the information required by such form and the instructions issued with respect thereto, and by paying the tax which the taxpayer indicates is due at the time the return is filed. To be valid the election must be made prior to the later of December 6, 1976, or 120 days after the date of notification referred to in § 1.503(a)-1(b) of this chapter (Income Tax Regulations), relating to loss of exemption for certain prohibited transactions. If there has been no notification of loss of exemption, the election may be made at any time.

(d) *Computation of section 4975 excise tax.* To the extent applicable, and solely for purposes associated with the payment of a section 4975 excise tax under the election referred to in this section, § 53.4941(e)-1 of this chapter (Foundation Excise Tax Regulations) is controlling.

Proposed Determination of Critical Habitat for Cape Sable Sparrow

Correction

In FR Doc. 76-20261 appearing at page 28978 of the issue for Wednesday, July 14, 1976, in the third column, page 28978, in the sixth line of the second paragraph under the heading "Basis for Determination," the text now reading "5–7; T58S R38E" should read "5–8; T58S R38E".

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 51]

STANDARDS FOR GRADES OF POTATOES FOR CHIPPING[1]

Addition of Subpart

Notice is hereby given that the U.S. Department of Agriculture is considering issuance of U.S. Standards for Grades of Potatoes for Chipping. These grade standards are issued under authority of the Agricultural Marketing Act of 1946 (60 Stat. 1087 as amended; 7 U.S.C. 1621–1627), which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use of producers, buyers and consumers. Official grading services are also provided under this act upon request of any financially interested party and upon payment of a fee to cover the cost of such services.

All persons who desire to submit written data, views or arguments for consideration in connection with the proposal should file the same, in duplicate, not later than February 1, 1977, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, where they will be available for public review during official hours of business (7 CFR 1.27(b)).

Statement of considerations leading to the proposed issuance of the grade standards. In 1973 a joint liaison committee consisting of members of the National Potato Council and Potato Chip Institute International met to develop a uniform potato purchasing format for use in grower-chipper contracts.

In March of 1974, after a year of discussions, the Joint-Committee formally requested the U.S. Department of Agriculture to conduct investigations leading to the development of U.S. Standards for Grades of Potatoes for Chipping.

During March 1974, Department Standardization Specialists met with the Joint-Committee and presented a "Plan of Action" to be taken by the Department in developing the new standards using the Committee's glossary of terms and tolerances whenever possible.

During July 1974 a comprehensive report from a Departmental study team, initiated by Secretary of Agriculture Earl L. Butz, titled "Report of the Potato Processing Study Group" was finalized. This report recommended that AMS work with growers, processors and researchers to develop acceptable grade standards, testing procedures, and methods for arbitrating disagreements regarding potatoes delivered under chip contracts.

In June 1974 a survey conducted by the Fresh Inspection and Standardization Branch indicated that a substantial portion of the national potato crop is used by the potato chip industry. The survey also pointed out that the percentage of potatoes, in a given production area, used for chipping purposes varied from as little as 5 percent to as much as 85 percent of the total production.

Chip manufacturers have for years purchased potatoes on the basis of he U.S. Standards For Grades of Potatoes either U.S. No. 1, a percentage of U.S. No. 1 quality or U.S. Commercial grade, plus size, specific gravity and "satisfactory chipping quality" requirements. This latter requirement has been very controversial.

Chippers interviewed are in favor of buying a uniform quality raw product that would yield a light colored potato chip to meet competition.

After consolidating the information from the surveys and interviews with industry representatives the data was presented to the Joint-Committee for their consideration.

In December 1974 a study was widely distributed to individuals, groups and organizations of potato growers and chip manufacturers with the period of comment to end June 30, 1975.

After 6 months of evaluation a second study draft was initiated consolidating comments and recommendations received from both growers and chippers. A revised edition of the study draft was issued and given the same distribution as the original with the comment period ending June 30, 1976.

The Potato Chip Institute International had requested a year's extension on the second draft to better inform their membership about grade standards. Their request was acknowledged and a comprehensive instructional program was initiated.

Departmental personnel explained the study draft proposal at each of the four regional meetings, annual meetings of the national and State organizations and NPC–PCII co-sponsored grower-chipper seminars held throughout the country.

During this time producers' bargaining committees and chippers incorporated many portions of the proposal in their contracts. The Department has also inspected shipments on the basis of the proposal. This proposal has been prepared in response to recommendations made by the Joint-Committee and comments from others in the industry to improve uniform trading practices. The proposal would provide industry with a uniform method to determine the color of potato chips objectively and form the basis for developing a sound and satisfactory purchasing system.

The following major points are proposed:

(1) Two grades, U.S. No. 1 and U.S. No. 2.

(2) Most defects listed under the definitions of damage and serious damage are based on the percentage of loss caused when defects are removed.

(3) Size requirements would be closely related to size specifications in the present "Tablestock" potato standards. This would enable lots failing to meet size requirements under the proposal to be diverted to fresh market or other processing channels using the same size nomenclature.

(4) Optional test procedures for determining specific gravity and fry color for use in grower-chipper contracts.

(5) A USDA fry color chart consisting of five color classifications with corresponding Agtron colorimeter indices.

(6) Minimum and maximum diameter or weight for Size A, B or Small with 40 percent or more 2½ inches in diameter or 6 ounces in weight for Size A to ensure a fairly uniform range in size.

(7) When a lot of potatoes is required to meet one of the grades, a total tolerance of 15 percent for defects would be provided, including 10 percent for external and 5 percent for internal defects.

It is proposed to add the following subpart to Title 7 Part 51 as follows:

Subpart—United States Standards for Grades of Potatoes for Chipping

GRADES

Sec.

51.4575 U.S. No. 1 Potatoes for Chipping.
51.4576 U.S. No. 2 Potatoes for Chipping.

SIZE

51.4577 Size.

OPTIONAL TESTS FOR SPECIFIC GRAVITY AND FRY COLOR

51.4578 Optional tests for specific gravity and fry color.

APPLICATION OF STANDARDS

51.4579 Application of Standards.

SAMPLES FOR GRADE AND SIZE DETERMINATION

51.4580 Samples for grade and size determination.

DEFINITIONS

51.4581 Similar varietal characteristics.
51.4582 Firm.
51.4583 Fairly firm.
51.4584 Fairly clean.
51.4585 Seriously damaged by dirt.
51.4586 Fairly well shaped.
51.4587 Seriously misshapen.
51.4588 Soft rot or wet breakdown.
51.4589 Sprouts.
51.4590 Foreign or extraneous material.
51.4591 Damage.
51.4592 Serious damage.
51.4593 External defects.
51.4594 Internal defects.

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug and Cosmetic Act or with applicable State laws and regulations.

AUTHORITY: Secs. 203, 205, 60 Stat. 1087, as amended, 1090 as amended; 7 U.S.C. 1622, 1624.

Subpart—United States Standards for Grades of Potatoes for Chipping

GRADES

§ 51.4575 U.S. No. 1 potatoes for chipping.

"U.S. No. 1 Potatoes for Chipping" consists of potatoes which meet the following requirements:

(a) Basic requirements:
(1) Similar varietal characteristics;
(2) Firm;
(3) Fairly clean;
(4) Fairly well shaped;
(b) Free from:
(1) Freezing;
(2) Blackheart;
(3) Late Blight Tuber Rot;
(4) Southern Bacterial Wilt;
(5) Bacterial Ring Rot;
(6) Nuts of nut sedge;
(7) Tuber Moth injury;
(8) Soft rot and wet breakdown;
(c) Free from damage by any other cause.
(d) Size. Not less than 1⅞ inches (47.7 mm) in diameter, unless otherwise specified. See § 51.4577.
(e) For tolerances see § 51.4579.

§ 51.4576 U.S. No. 2 potatoes for chipping.

"U.S. No. 2 Potatoes for Chipping" consists of Potatoes which meet the following requirements:

(a) Basic requirements:
(1) Similar varietal characteristics;
(2) Fairly firm;
(3) Not seriously damaged by dirt;
(4) Not seriously misshapen;
(b) Free from:
(1) Freezing;
(2) Blackheart;
(3) Late Blight Tuber Rot;
(4) Southern Bacterial Wilt;
(5) Bacterial Ring Rot;
(6) Nuts of nut sedge;
(7) Tuber Moth injury;
(8) Soft rot and wet breakdown;
(c) Free from serious damage by any other cause.
(d) Size. Not less than 1¾ inches (44.5 mm) in diameter, unless otherwise specified. See § 51.4577.
(e) For tolerances see § 51.4579.

SIZE

§ 51.4577 Size.

(a) The minimum size, maximum size or range in size may be specified in connection with the grade in terms of diameter or weight of the potato, or in accordance with one of the size classifications given in the following table:

TABLE I

Size classification	Minimum diameter[1]	Maximum diameter[1] or weight[2]
A[3]	1⅞ in (47.7 mm)	16 oz (453 gr).
B	1½ in (38.1 mm)	2¼ in (57.2 mm).
Small	1¾ in (44.5 mm)	2½ in (63.5 mm).

[1] Diameter means the size designation in terms of inches or eighths of an inch indicating the greatest dimension at right angles to the longitudinal axis, without regard to the position of the stem end.
[2] Weight means the size designation in terms of whole ounces indicating the minimum weight of the potato. For example, a potato having a designation of 10 oz (283.50 gr) is one which weighs at least 10 oz (283.50 gr) but not more than 11 oz (311.85 gr).
[3] In addition to the minimum size specified, a lot of potatoes designated as size A shall contain at least 40 pct of potatoes which are 2½ in (63.5 mm) in diameter or larger or 6 oz (170.10 gr) in weight or larger.

OPTIONAL TESTS FOR SPECIFIC GRAVITY AND FRY COLOR

§ 51.4578 Optional tests for specific gravity and fry color.

Tests to determine specific gravity and fry color shall be made in accordance with the procedures set forth in this section. The potatoes used for such determinations shall be taken at random from a composite sample drawn from containers thoughout a load, or a comparable sample from a bulk load or storage bin.

(a) *Optional test for specific gravity.* Specific gravity shall be determined by either hydrometer,[2] or by calculation from the weights of the sample in air and in water, with equipment which has been tested and calibrated to give accurate results. The reading obtained from each specific gravity test shall be corrected for temperature variations as prescribed by Table II of this section. The specific gravity for any lot of potatoes shall be the average of at least 3 such corrected readings on separate tests from the composite sample.

(1) *Temperature correction.* The pulp temperature of the potatoes and the temperature of water shall be recorded immediately before testing and the specific gravity reading corrected as indicated in the following table:

[2] A hydrometer designed specifically for determining the specific gravity of potatoes is available from Potato Chip/Snack Food Association, Euclid Office Plaza, 26250 Euclid Avenue, Suite 915, Euclid, Ohio 44132.

TABLE II—*Correction Factors for Specific Gravity of Potatoes*[1] *(Corrected to Zero of 50° F Tuber Temperature and 50° F Water Temperature)*

[1] To apply correction factor, change actual specific gravity reading by adding or subtracting the appropriate factor according to the plus or minus sign.

(b) *Optional test for fry color.* The test to determine compliance with fry color requirements is made by frying in cottonseed oil slices 0.05 inch (1.3 mm) in thickness from the center portion of the potato sliced longitudinally. Fry one minute and 40 seconds at a starting temperature of 365 degrees Fahrenheit (185 C). A minimum of 20 slices shall be used for visual evaluation and 40 slices for photoelectric readings. Fry color may be based on one or more of the color designations or corresponding photoelectric instrument readings (Agtron) specified in Table III. Agtron photoelectric equipment shall be calibrated at 0 and 90 using M–00 and M–90 calibration discs on the red mode.

(1) Fry color standards USDA Visual Aid POT–L–1 consists of a chart containing five color photographs illustrating the color designations as set forth in Table III of this section. This visual aid may be examined in the Fruit and Vegetable Division, AMA, U.S. Department of Agriculture, South Building, Washington, D.C. 20250; in any field office of the Fresh Fruit and Vegetable Inspection Service; or upon request of any authorized inspector of the Service. Duplicates of this visual aid may be purchased from The John Henry Co., Post Office Box 1410, Lancing, Michigan 48904.

TABLE III

Color designation	Agtron index range
1	70 and higher.
2	60 to 69.
3	50 to 59.
4	40 to 49.
5	30 to 39.

V 41 153 AUG 6 76 UMI

APPLICATION OF STANDARDS

§ 51.4579 Application of standards.

In the application of these standards to determine the percentage of the lot which meets the requirements of the grades, tolerances shall not apply.

(a) *Tolerances.* When a lot of potatoes is required to meet one of the grades, the following tolerances, by weight, are provided as specified:

(1) *For defects:* 15 percent for potatoes in any lot which fail to meet the requirements of the grade: *Provided,* That included in this tolerance not more than the following percentages shall be allowed for the defects listed:

(i) 5 percent internal defects;

(ii) 10 percent external defects, including not more than 3 percent for potatoes which are affected by freezing, Blackheart; Late Blight Tuber Rot; Southern Bacterial Wilt; Bacterial Ring Rot; nuts of nut sedge; Tuber Moth injury, soft rot or wet breakdown, including therein not more than 1 percent for potatoes which are frozen or affected by soft rot or wet breakdown.

(2) *For offsize:* (i) Undersize: 3 percent when the minimum size specified is less than 2¼ inches (57.2 mm) in diameter or less than 6 ounces (170.10 gr) in weight; and 5 percent when the minimum size specified is 2¼ inches (5.7 mm) or more in diameter or 6 ounces (170.10 gr) or more in weight.

(ii) Oversize: 10 percent.

(3) For Off-color—Visual determination: (i) When a lot of potatoes is required to meet one of the color designations listed in Table III, not more than 5 percent of the slices tested may be darker than the specified color.

SAMPLES FOR GRADE AND SIZE DETERMINATION

§ 51.4580 Samples for grade and size determination.

Individual samples shall consist of 25 pounds (11.34 kg). The number of individual samples drawn for grade or size determination will vary with the size of the lot.

DEFINITIONS

§ 51.4581 Similar varietal characteristics.

"Similar varietal characteristics" means that the potatoes in any lot have the same general shape, color, character of skin and color of flesh.

§ 51.4582 Firm.

"Firm" means the individual potato is not shriveled or wrinkled over more than 15 percent of the surface.

§ 51.4583 Fairly firm.

"Fairly firm" means that the individual potato is not soft or flabby or excessively shriveled over more than 25 percent of the surface.

§ 51.4584 Fairly clean.

"Fairly clean" means that the individual potato is not caked with dirt over more than 5 percent of the surface or not more than ⅓ of the surface is affected by smearing or staining.

§ 51.4585 Seriously damaged by dirt.

"Seriously damaged by dirt" means that more than 25 percent of the surface of the individual potato is affected by caked dirt or more than ⅔ of the surface is affected by smearing or staining.

§ 51.4586 Fairly well shaped.

"Fairly well shaped" means that the individual potato is not ridged, lumpy, dumbbell-shaped, materially affected by second growth or otherwise misshapen.

§ 51.4587 Seriously misshapen.

"Seriously misshapen" means that the individual potato is seriously dumbbell-shaped, ridged, lumpy or seriously affected by second growth or otherwise seriously misshapen.

§ 51.4588 Soft rot or wet breakdown.

"Soft rot or wet breakdown" means any soft, mushy or leaky condition of the tissue such as leak, slimy soft rot, wet breakdown, or wet type Fusarium Tuber Rot.

§ 51.4589 Sprouts.

"Sprouts" means any sprout more than 1 inch (25.4 mm) in length attached to the potato.

§ 51.4590 Foreign or extraneous material.

"Foreign or extraneous material" means rocks, loose or chunks of dirt, vines, stems, trash and other material including detached sprouts:

§ 51.4591 Damage.

"Damage" means any defect or combination of defects other than those listed in Tables IV and V, which cannot be removed without a loss of more than 5 percent of the total weight of the potato.

§ 51.4592 Serious damage.

"Serious damage" means any defect or combination of defects other than those listed in Tables IV and V, which cannot be removed without a loss of more than 10 percent of the total weight of the potato.

§ 51.4593 External defects.

"External defects" are defects which can be detected externally. However, cutting may be required to determine the extent of the injury. Some external defects are listed in Table IV.

TABLE IV.—*External defects*

Defects	Damage	Serious damage [1]
Air cracks	Removal causes loss of more than 5 pct of total weight of potato.	Removal causes loss of more than 10 pct of total weight of potato.
Bruises	do	Do.
Flea beetle injury	do	Do.
Scab, pitted	do	Do.
Sunburn, greening, windburn, or silvery scurf.	do	Do.
Pressure bruise discoloration.	do	Do.
Wire worm, grass, grub, and other insects.	do	Do.
Dry rots	do	Do.
Growth cracks	The length of the crack or aggregate lengths of 2 or more cracks exceed ⅔ the length of the potato or the maximum depth exceeds the maximum width of the cracks.	The length of the crack or aggregate lengths of 2 or more cracks equals the length of the potato or the maximum depth exceeds the maximum width of the cracks.
Rhizoctonia light	More than 50 pct of surface affected	More than 75 pct of surface affected.
External surface discoloration.	do	Do.
Scab, surface	do	Do.
Cuts (slab, knife)	Cuts aggregating more than 1 inch in diameter (25.4 mm) on a potato 2½ in (63.5 mm) in diameter or 6 oz (170.10 gr) in weight and correspondingly smaller and larger cuts on smaller and larger potatoes.	Cuts aggregating more than 1½ in (38.1 mm) in diameter on potato 2½ in (63.5 mm) in diameter or 6 oz (170.10 gr) in weight and correspondingly smaller and larger cuts on smaller and larger potatoes.
Dirt	More than 5 pct of the surface is affected by caked dirt or more than ⅓ of the surface is affected by staining or smearing.	More than 25 pct of the surface is affected by caked dirt or ⅔ of the surface is affected by staining or smearing.
Rhizoctonia, caked	More than 25 pct of surface affected	More than 50 pct of surface affected.
Sprouts	More than 10 pct of the potatoes have any sprout more than 1 in (25.4 mm) in length.	

[1] The following defects are considered serious damage when present in any degree: Freezing; blackheart; late blight tuber rot; southern bacterial wilt; bacterial ring rot; nuts of nut sedge; tuber moth injury; soft rot; and, wet breakdown.

§ 51.4594 Internal defects.

"Internal defects" are defects which cannot be detected without cutting the potato. Some internal defects are listed in Table V.

TABLE V.—*Internal Defects*

Defects	Damage	Serious damage
Hollow heart	Cracks aggregating ¾ in (0.6 mm) in width or exceeds ¼ the length of the largest diameter of the potato.	Cracks aggregating ½ in (12.7 mm) in width or exceeds ½ the length of the largest diameter of the potato.
Ingrown sprouts	Removal causes a loss of more than 5 pct of the total weight of the potato.	Removal causes a loss of more than 10 pct of the total weight of the potato.
Vascular discoloration	do	Do.
Internal discoloration	More than the equivalent of 3 scattered light brown spots ⅛ in (3.2 mm) in diameter in a potato 2½ in (63.5 mm) in diameter or 6 oz (170.10 gr) in weight, or correspondingly lesser or greater amounts in smaller or larger potatoes.	More than the equivalent of 6 scattered light brown spots ⅛ in (3.2 mm) in diameter in a potato 2½ in (63.5 mm) in diameter or 6 oz (170.10 gr) in weight, or correspondingly lesser or greater amounts in smaller or larger potatoes.

Dated: July 30, 1976.

DONALD E. WILKINSON,
Administrator.

Commodity Credit Corporation

[7 CFR Part 1430]

DAIRY PRODUCTS—PURCHASES AND OTHER OPERATIONS

Price Support Program for Milk

Notice is hereby given that the Secretary of Agriculture, under authority of section 201(c) of the Agricultural Act of 1949, as amended (63 Stat. 1051, as amended; 7 U.S.C. 1446), and sections 4 and 5 of the Commodity Credit Corporation Charter Act, as amended (62 Stat. 1070, as amended; 15 U.S.C. 714b and 714c), is considering the terms and conditions of the price support program for milk, for the third quarter (October 1–December 31) of the 1976–77 marketing year, including the general level of prices to producers for milk and the prices for the terms of purchase by CCC of butter, nonfat dry milk, and Cheddar cheese. Section 201(c) of the Agricultural Act of 1949, as amended, provides as follows:

> The price of milk shall be supported at such level not in excess of 90 per centum nor less than 75 per centum of the parity price therefore as the Secretary determines necessary in order to assure an adequate supply of pure and wholesome milk to meet current needs, reflect changes in the cost of production, and assure a level of farm income adequate to maintain productive capacity sufficient to meet anticipated future needs. • • • Such price support shall be provided through purchases of milk and the products of milk.

Consideration will be given to any data, views, and recommendations which are submitted in writing to the Director, Commodity Operations Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250. In order to be sure of consideration, all submissions must be received by the Director not later than September 1, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director during regular business hours (8:15 a.m.–4:15 p.m.).

Signed at Washington, D.C., on July 30, 1976.

SEELEY G. LODWICK,
Acting Executive Vice President,
Commodity Credit Corporation.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 180]

[FRL 596-5;PPGE1772/P31]

PESTICIDE CHEMICAL SODIUM CHLORATE

Proposed Exemption From Requirement of a Tolerance

Dr. C. C. Compton, Coordinator, Interregional Research Project No. 4, New Jersey State Agricultural Experiment Station, Rutgers University, New Brunswick, NJ 08903, has submitted a pesticide petition (PP 6E1772) to the Environmental Protection Agency (EPA) on behalf of the IR-4 Technical Committee and the Agricultural Experiment Stations of Louisiana and Texas. This petition requests that the Administrator, pursuant to section 408(e) of the Federal Food, Drug, and Cosmetic Act, propose that 40 CFR 180.1020 be amended by exempting from the requirement of a tolerance residues of the pesticide chemical sodium chlorate in or on the raw agricultural commodities rice and rice straw, when it is used with urea as a fire retardant in accordance with good agricultural practice as a desiccant in rice production.

The data submitted in the petition and all other relevant material have been evaluated, and it concluded that the exemption from the requirement of a tolerance established by amending 40 CFR 180.1020 will protect the public health. There is no reasonable expectation of residues in eggs, meat, milk, or poultry, as delineated in 40 CFR 180.6(a)(3). It is proposed, therefore, that the exemption from the requirement be established as set forth below.

Any person who has registered or submitted an application for the registration of a pesticide under the Federal Insecticide, Fungicide, and Rodenticide Act which contains any of the ingredients listed herein may request, on or before September 7, 1976, that this proposal be refered to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on the proposed regulation to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, Environmental Protection Agency, Room 401, East Tower, 401 M Street SW, Washington DC 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and of others interested in inspecting them. The comments must be received on or before September 7, 1976, and should bear a notation indicating the subject (PP6E1772/P31). All written comments filed pursuant to this notice will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

(Sec. 403(e), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346(a)(e)))

Dated: August 2, 1976.

MARTIN H. ROGOFF,
Acting Director,
Registration Division.

It is proposed that Part 180, Subpart D, § 180.1020 be amended by revising paragraph (b) to include the raw agricultural commodities rice and rice straw as follows:

§ 180.1020 Sodium chlorate; exemption from the requirement of a tolerance.

• • • • • •

(b) Sodium chlorate is exempted from the requirement of a tolerance for residues in or on grain sorghum, fodder, and forage and rice and rice straw, when used with urea as a fire retardant, in accordance with good agricultural practice as a desiccant in the production of grain sorghum and rice.

• • • • • •

FEDERAL MARITIME COMMISSION

[46 CFR Part 531]

[Docket No. 76-40]

FREIGHT AND PASSENGER RATES, FARES, AND CHARGES IN THE DOMESTIC OFFSHORE TRADE

Filing

Notice is hereby given that the Federal Maritime Commission is considering the revision of Part 531 of this chapter which contains the regulations governing the filing of tariffs by common carriers by water in the domestic commerce of the United States.

Part 531 became effective February 17, 1948. The purpose of the Part was to provide regulations governing the form and manner of filing tariffs by common carriers by water in the domestic commerce of the United States. The Commission has now had several years' experience working with the tariffs filed under the existing rules, and has determined that clarification and improvement of such rules is necessary in a number of areas.

Certain minor changes in wording and renumbering have been made in the revised rules without discussion. The major changes in the rules and their discussion are set forth below.

Section 531.0 has been expanded to incorporate those exemptions which are equally applicable to all carriers affected by that Part. Carriers offering domestic

V 41 153 AUG 6 76 UMI

round-trip passenger excursion voyages have been exempted from the requirement to publish, post or file their tariffs with the Federal Maritime Commission.

Section 531.2(b) establishes a series designation (Tariff FMC–G No. ------) applicable to tariffs governing the movement of Government cargo or passengers.

Section 531.2(c) sets forth a positive specification of the receipt time from which required notice periods are to be counted.

Section 531.2(n) sets out the requirement for the cancellation of inactive tariffs within thirty days of the cessation of service for reasons other than seasonal discontinuance.

Section 531.3(a) requires that tariffs be published in looseleaf form. Bound publications would now require special permission authority.

Section 531.3(f) deletes the requirement for issue dates on tariff publications.

Section 531.4(b) now requires that tariffs contain certain rules, in a prescribed order, as a minimum. Of a particular importance are new stipulations requiring: an index of subjective matter contained in the tariff; the publication of an effective date rule; and the publication of a container description rule.

Section 531.5(b) requires that tariffs which publish rates on the mixed commodity "Freight, All Kinds" or other similar provisions, shall clearly and specifically describe that commodity to include the percentage composition required to qualify for the rate item. It also sets forth the requirement that the composition of cargo moving under such provision be set forth in the bill of lading.

Section 531.5(m) allows the filing of project rates without the requirement to first obtain special permission authority.

Section 531.6(a)(2)(v) permits the filing of title pages, which change only the name and/or address of the issuing officer, on one day's notice (such changes now require the revision of the title page on statutory notice).

Section 531.7(a) permits the filing of supplements to loose-leaf tariffs, without first obtaining special permission authority, for the purpose of: effecting a general rate change affecting substantially all the rates; providing for a transfer of operations or change in names; implementing a suspension order; providing for a change in effective date affecting the entire tariff; and to cancel an entire tariff or supplement.

Section 531.8(g)(1) requires that special permission applications be accompanied by a copy of the page(s), for which special permission authority is sought, to include any and all proposed revisions.

Section 531.8(i) requires that special permission applications be received by the Commission no less than five days in advance of the date for which such application seeks authority.

Section 531.11(a)(2) requires that the adoption of a tariff be indicated by the issuance of a revised title page to the adopted tariff with said title page to reflect that data pertinent to the adoption.

Section 531.11(b) requires the cancellation of adopted tariffs within ninety days of the effective date of the adoption.

Section 531.11(c) requires adopting carriers to publish replacement tariffs, in the adopting carrier's name and series, simultaneous with the cancellation required under § 531.11(b). Further, it is required that the replacement tariff cancel the adopting carrier's adoption notice.

Section 531.11(f) prohibits partial adoptions.

Section 531.12 deletes the requirement for specific wording in the submission of applicable powers of attorney.

Section 531.13 (Reserved)

Section 531.14(b) requires that intermodal tariffs publish a notice of their nature and scope on their title pages.

Section 531.14(c) requires that intermodal tariffs: identify participants, to include the mode of transportation they provide; list the places to, from and between which the rates apply; and provide a clear specification of the liability of each of the participating carriers.

Section 531.14(d)(1) requires that intermodal tariffs show the through rate together with the port-to-port division of that through rate.

Section 531.17 establishes the series designator for tariff indices as Tariff FMC–I No. ------.

Section 531.17(c) sets forth specific requirements for the form and contents of tariff indices.

Section 531.19(b)(1) establishes the effective date of suspension supplements as the effective date of the applicable suspension order and, further, requires its publication on the first page of the supplement.

Section 531.19(b)(4) requires that a suspension supplement reproduce the applicable suspension order in its entirety.

The Commission has determined that the proposed revision of Part 531 of 46 CFR will have no significant impact on the human environment.

Therefore, pursuant to the provisions of section 4 of the Administrative Procedure Act (5 U.S.C. 553), sections 18(a) and 43 of the Shipping Act, 1916 (46 U.S.C. 817, 841a)), and section 2 of the Intercoastal Shipping Act, 1933 (46 U.S.C. 844), notice is hereby given that the Federal Maritime Commission is considering amending 46 CFR by revising and reissuing Part 531 as follows:

PART 531—FILING OF FREIGHT AND PASSENGER RATES, FARES, AND CHARGES IN THE DOMESTIC OFFSHORE TRADE, PUBLICATION AND POSTING

Sec.
- 531.0 Scope and exemptions.
- 531.1 Definitions.
- 531.2 Filing of tariffs; general.

- 531.16 Seasonal discontinuance and restoration of transportation service.
- 531.17 Index of tariffs.
- 531.18 Cancellation.
- 531.19 Suspension of tariff publications.

AUTHORITY: (Secs. 18(a) and 43 of the Shipping Act, 1916 (46 USC 817, 841(a)); sec. 2 of the Intercoastal Shipping Act, 1933 (46 USC 844).

§ 531.0 Scope and exemptions.

(a) Every common carrier by water engaged in the transportation for hire of passengers or property on the high seas on regular routes between continental ports of the United States (including Alaska and Hawaii) and ports in its Territories, Districts or possessions; between a port in any such Territory, District or possession, and a port in another such Territory, District or possession; and between places in the same Territory, District or possession, is required by the Shipping Act, 1916, as amended by the Intercoastal Shipping Act, 1933, as amended, (39 Stat. 964, 46 U.S.C. 845(b); 54 Stat. 929, 49 U.S.C. 901) to file with the Federal Maritime Commission and keep open to public inspection schedules showing its actual rates, fares and charges for or in connection with transportation between points on its own route; and if a through route has been established, all the rates, fares and charges for or in connection with transportation between points on its own route and points on the route of any other carrier by water. It is further required that the schedules shall plainly show the places between which freight and passengers will be carried and shall contain the classification of freight and passenger accommodations in force and shall state separately each terminal or other charge, privilege, or facility granted or allowed, and any rules or regulations which in anywise change, affect, or determine any part of the aggregate of such rates, fares or charges, or the value of service rendered to the consignor, consignee or passenger. Terms such as "Taken by Special Agreement or Arrangement Only" and "Subject to Carrier's Option of Acceptance" are not permitted. These terms imply that there may be different arrangements for similarly situated shippers and accordingly they are potentially discriminatory. Further, statements in the tariff conditioning the transportation to "cargo owner's risk" are unacceptable. Common carrier liability is governed by law, not tariff publication and the validity of loss and damage claims is a matter for the proper courts to decide. Tariff publications shall not contain rules which purport to limit common carrier liability contrary to law; and which improperly imply that the tariff user has no recourse under the law.

(b) No change shall be made in any rates, fares, charges or classifications, rules or regulations, except by the publication, filing and posting of new schedules which, unless otherwise authorized by the shipping statutes, the Commission or the rules of this part, shall become effective not earlier than 30 days after the date of posting and filing with the Commission.

(c) All tariffs, supplements and revised pages as are filed, subject to paragraphs (a) and (b) of this section, shall on and after the effective date of this circular, unless otherwise authorized by the Commission, conform to the rules of this part.

(d) Carriers offering round trip passenger excursion voyages are exempt from the tariff filing requirements of section 2 of the Intercoastal Shipping Act, 1933, section 18(a) of the Shipping Act, 1916, and the rules of this part. For the purposes of this exemption, a round trip excursion voyage is defined as a single voyage which originates and terminates at the same port; does not permanently disembark passengers at any intermediate port; and does not call at any port outside the domestic range as defined in paragraph two, section one, Shipping Act, 1916.

(e) Operators of small vessels not in excess of 100-ton cargo carrying capacity or not more than 100-indicated horsepower are exempt from the tariff filing requirements of section 2 of the Intercoastal Shipping Act, 1933, section 18(a) of the Shipping Act, 1916, and the rules of this part provided such vessels: (1) are not employed by or under common control or management of a common carrier by water which operates vessels in excess of 100 tons or 100-indicated horsepower in the same service; (2) are not used as a part of a continuous through movement by another common carrier by water subject to the Shipping Act, 1916; and (3) are not performing lighterage services in connection with or on behalf of another common carrier by water subject to the Shipping Act, 1916.

(f) Carriage by vessels operated by the State of Alaska between Seattle, Washington, and ports in Southeastern Alaska is exempt from the provisions of the Intercoastal Shipping Act, 1933, and section 18(a), Shipping Act, 1916, with respect to the transportation of passengers, commercial buses carrying passengers, personal vehicles and personal effects; provided that such vehicles and personal effects are the accompanying personal property of the passengers, and are not being transported for the purpose of sale.

(g) The provisions of sections 2, 3 and 4 of the Intercoastal Shipping Act, 1933, and section 18(a), Shipping Act, 1916, as amended, shall not apply to the transportation between the continental United States and Puerto Rico of liquid cargoes in bulk of not less than 200,000 gallons per shipper for any one consignee per voyage in tank vessels designed exclusively for the carriage of such cargoes and certified under regulations approved by the Commandant of the Coast Guard pursuant to the provisions of section 391 (a) of Title 46 U.S.C.

(h) The Commission may at any time direct the reissue or cancellation of any tariff publication that may not be in accordance with the provisions of the Intercoastal Shipping Act, 1933, as amended, or the regulations of this part. Tariff publications which fail to provide the required notice or fail to comply with the rules of this part are subject to rejection.

§ 531.1 Definitions.

The following definitions of terms used in this part shall apply unless the context specifically indicates otherwise.

(a) *Amendment:* a change, alteration, correction, or modification made in an existing tariff, rule, publication, or order.

(b) *Absorption:* the assumption of any or all of the cost of performing a transportation or other service from revenues received in the course of performing a different service.

(c) *Act:* the Shipping Act, 1916.

(d) *Carrier:* unless otherwise provided, a shortened form of "common carrier"; one who holds himself out by the establishment and maintenance of tariffs, by advertisement and solicitation, and otherwise, to provide transportation for hire in interstate or foreign commerce, assumes responsibility or has liability imposed by law for the safe transportation of the shipments, and arranges in his own name for the performance of such transportation, whether or not owning or controlling the means by which such transportation is effected.

(e) *Class Rates:* rates which are assessed according to the class ratings established in a governing classification or a classification section of a rate tariff.

(f) *Classification:* a governing publication (not a rate tariff) setting forth rules, regulations or charges to be used in connection with a published class rate tariff or section of a tariff containing class rates.

(g) *Commission:* the Federal Maritime Commission.

(h) *Commodity Rates:* rates, which when specified displace class rates, applying on a commodity or on commodities specifically named or described in the tariff in which the rate or rates are published; apply to certain mixed shipments and are the lawful rates even though certain parts of the mixtures are covered by the class rates when shipped separately.

(i) *Equalization:* a rate basis that equalizes natural disadvantages of shippers and localities as regards transportation facilities and costs, usually brought about by a voluntary adjustment of rates.

(j) *Feeder Service:* the transpotration of cargo by water by an ocean carrier between ports directly served by its vessels and ports not so served, but shall not include water services between ports of the United States subject to the Interstate Commerce Act.

(k) *Filing, Filed, File:* when used with respect to time of filing with the Commission, shall mean the actual receipt by the Federal Maritime Commission at its offices in Washington, D.C.

(l) *Interchange:* relative to cargo, the transfer of cargo from one carrier to another where both vessels are under the operational control of the same carrier; the change from one mode of transport to another in the course of through intermodal transportation.

(m) *Intermodal Transportation:* the carriage of cargo from origin to destination utilizing, during the movement, two or more different modes of transportation, at least one of which is water carriage subject to the Shipping Act, 1916, as amended, and the Intercoastal Shipping Act, 1933, as amended. For the purposes of this usage, the modes are: water, highway, air and railroad.

(n) *Joint Rate:* a rate agreed upon by two or more carriers and applies between a point in the scope of one and a point in the scope of another.

(o) *Local Rate:* rates or charges for transportation over the route of a single water carrier between two points, the application of which is not contingent upon a subsequent movement or any other separate consideration.

(p) *Open for Public Inspection:* each carrier shall maintain a complete and current set of the tariffs issued by it or to which it is a party in each of its offices and those of its agents in any city where it transacts business involving such tariffs. Such tariffs shall be freely available to interested parties during the carrier's/agent's normal business hours as posted at each such location.

(q) *Person:* includes individuals, firms, partnerships, corporations, companies, associations, joint stock associations, trustees, receivers, assignees, agents or personal representatives.

(r) *Port:* a place having facilities to originate or terminate water transportation and at which the actual transportation by water, subject to the Shipping Act, 1916, as amended, commences or terminates as to any particular movement of cargo.

(s) *Post, Posting, Posted:* the filing of tariffs and other schedules for public use as required by law at local and general offices of the carrier and to which the carrier is a party.

(t) *Project Rates:* rates applicable to the transportation of materials and equipment to be employed or incorporated in the construction or development, by the shipper or consignee, of a named facility used in manufacturing processes, the exploitation of natural resources, public utilities, or other production/service facilities. Such materials or equipment may not be intended for sale or resale.

(u) *Proportional Rates:* rates or charges assessed by a carrier for transportation services, the application of which is predicated on a prior or subsequent movement.

(v) *Substituted Service:* the use of the facilities of another carrier or another mode of transportation than that which the carrier normally and regularly offers to the public; as used in shipping docu-

V 41 153 AUG 6 76 UMI

ments and tariffs, those instances where transportation of cargoes is occasionally performed by utilizing the transport facilities of another carrier due to unexpected operating exigencies. The offering or performing of a regular service by means of overland or air transportation over part of its route, or by using a waterborne feeder service not under the control of the publishing carrier, is not to be described as substituted service, but, rather, is an arrangement for through transportation.

(w) *Tariff:* a publication containing the actual rates, charges, classifications, rules, regulations, and practices of a carrier for transportation, a segment of which is performed by a carrier by water.

(x) *Tariff Filing:* any tariff, or modification thereto, which is received by the Commission as filed pursuant to these rules.

(y) *Tariff Publication:* a tariff, an amendment or supplement thereto, or a revision or reissue thereof.

(z) *Through Rate:* a rate applicable from point of origin to its destination. Such rate may consist of a joint rate offered by two or more carriers; a combination of two or more local rates; or a combination of proportional rates or factors, operating as a unit for a single transportation service and on a through bill of lading.

(aa) *Through Route:* an arrangement for the continuous carriage of goods between origin and destination offered or performed by: two or more water carriers in a movement entirely by water; one or more water carriers in connection with one or more other carriers when the origin and/or destination of the cargo lies beyond port terminal areas; or, a carrier which is a water carrier and also offers transportation service beyond port terminal areas under the regulatory scope of agencies other than this Commission.

(bb) *Transshipment:* the physical transfer of cargo from the vessel of one common carrier by water to a vessel of another common carrier by water.

§ 531.2 Filing of tariffs; general.

(a) Tariff publication shall be filed by an officer or duly authorized agent of the carrier. When filing is made, the power of attorney of every carrier participating therein shall either be on file with the Commission in accordance with § 531.12 of this part or shall accompany the filing. Such filing shall constitute filing for all carriers who are parties thereto.

(b) Each carrier, or agent, as applicable, shall number their respective tariff publications in a consecutive numerical order with their initial filing being number 1 in their particular series. In the event that such numbering may conflict with prior filings, it is required that any filing, not so numbered, be accompanied by a letter of explanation which clearly sets forth the reason for such noncompliance. Freight, passenger and government tariffs shall be numbered in separate series. Freight tariffs filed by, or on behalf of, a carrier shall be designated as Tariff FMC–*F* No. ____; passenger tariffs will be designated as Tariff FMC–*P* No. ____; tariffs governing the movement of government cargo or passengers will be designated as Tariff FMC–*G* No. ____; and tariff indices will be designated FMC–*I* No. ____.

(c) Every tariff, supplement, revised page, or other tariff publication published, posted and filed, including tariff publications of carriers entering a trade for the first time, shall bear an effective date, unless otherwise provided for by rule, special permission, or order of the Commission, which allows the full statutory notice period of thirty (30) days, said period to run from 12:01 a.m. on the day of receipt by this Commission as indicated by the currently authorized receipt notation of this Commission. Such receipt may be accomplished only during normal business hours of this Commission as published in § 502.2 of this chapter or subsequent revisions thereof or supplements thereto.

(d) Except as otherwise provided, carriers, or their agents, shall transmit to the Commission, in one package, two copies of each publication to be filed. At least one copy of each new tariff, supplement and/or loose-leaf page must also be transmitted to each subscriber thereto, including those state, commonwealth or territorial governors who have requested such publications, by first-class mail, not later than the time the official filings are transmitted to the Commission. The letter of transmittal accompanying the copies to the Commission must certify that such service has been made. As to those publications sent to this Commission for the purpose of filing, no such publications will be received by the Commission unless it is delivered free of all charges, including postage.

(e) All tariff publications tendered for filing with this Commission shall be accompanied by a letter of transmittal, not to exceed 8½ inches by 11 inches in size, which shall:

(1) identify the filing party;

(2) identify the publication(s) being submitted for filing;

(3) describe the specific effect of any changes being proposed; and

(4) set out such certifications as are required by paragraph (d) of this section and part 512 of this chapter.

The form of the letter of transmittal shall be substantially as follows:

(Name of Carrier, or Agent, in Full as Shown on Applicable Tariffs) (Mailing Address)

Transmittal No. ---------- ----------, 19____.

OFFICE OF DOMESTIC COMMERCE,
FEDERAL MARITIME COMMISSION,
1100 L Street, NW.,

(List submitted publications in tabular form)

and is/are concurred in by all carriers named therein as participants under applicable powers of attorney either currently on file with the Federal Maritime Commission or accompanying this filing.

Certification

I, the undersigned, ----------
(type or print name and title of officer in charge of accounts)
of ----------, certify
(full name of reporting company)
that the changed rate submitted herewith does not meet the criteria set forth in 46 CFR § 512.3(d)(1)(i) and (ii), and for that reason no financial and operating data as set forth in subparagraphs (2) and (3) of § 512.3(d) are necessary.

I hereby certify that I have on or before this day sent at least one copy of each publication listed hereon to each subscriber thereto by first-class mail, free or at a charge not to exceed the cost of postage.

Signature ----------
Date ----------, 19____
---------- (Signature)
---------- (Title)

Enclosures

(f) Several publications may be transmitted via a single letter of transmittal, however, they must be of the same series; *i.e., passenger* tariffs may not be transmitted on the same letter of transmittal with a *freight* tariff.

(g) All letters of transmittal are to be tendered in duplicate. One copy will be receipted, and returned to the submitting party, provided that a self-addressed, stamped envelope is included.

(h) The acceptance of a tariff publication does not constitute proof of its legality for all purposes. That fact that a tariff publication is on file with the Commission does not relieve the publishing party from responsibility at law or for infractions of this Commission's regulations as may be published either prior to or after the effective date of an accepted tariff publication.

(i) No carrier may publish, or permit to be published in its behalf, any tariff publication or portion thereof, which in any way duplicates or conflicts with any other tariff publication or provision to which said carrier is a party.

(j) The Commission may reject any tariff publication which fails to meet the requirements of this Commission's regulations as set forth herein or which are not in accord with the provisions of the Intercoastal Shipping Act, 1933, as amended, or any other orders of the Commission. In the event of such rejection, the party tendering the filing will be notified, in writing, of the reason for the rejection. One copy of the rejected publication will be returned to the filing party.

(k) The revision number or, in the case of an entire tariff, the series number, of a rejected publication may not be used again, nor may the rejected publication be referred to in any subsequent publication as being, or having been, cancelled, amended, or withdrawn. Any publication submitted in place of a rejected publication must bear the notation:

Issued in lieu of (here identify the rejected publication) rejected by the Federal Maritime Commission.

and must cancel any prior publication which the rejected publication was originally intended to cancel.

(l) The Commission will not surrender, or permit to be withdrawn, any tariff publication filed with it, except as provided in paragraph (j) of this section.

(m) Each common carrier by water, subject to this part, or its agent, shall maintain its tariff or tariffs in a complete, accessible and usable form and shall make such tariff publications available to the public, upon request and during normal business hours, as follows:

(1) Each common carrier by water shall post at each loading port, or facility, at which freight is received for transportation, and/or at which an agent is employed, all tariffs relevant to the transportation of freight from that port or facility by the publishing carrier or agent.

(2) Each common carrier by water shall post at its principal office a complete set of all tariffs published by it, for it, or to which it is a party. The location of said principal office to be clearly and distinctly set out in an appropriate rule or item of all tariffs published by, for, or on behalf of, said carrier; and

(3) All such posted tariff publications shall be posted a minimum of thirty (30) days prior to their effective date unless otherwise provided for by rule, regulation, permission, or order of this Commission.

(n) Any carrier who shall cease operations, for other than seasonal discontinuances as provided for in this part and without having a successor, shall, within thirty (30) days of such cessation, act to cancel its applicable tariff(s) and power(s) of attorney in accordance with § 531.12(d).

§ 531.3 Form and preparation of tariffs.

(a) All tariff publications except as otherwise provided by special permission of this Commission and in accordance with § 531.15 hereof shall be published in loose-leaf form. Pages shall be 8½ by 11 inches in size and shall be plainly and legibly printed, mimeographed, planographed or reproduced by other similar durable process on paper equivalent to, or better than, offset book paper, Sub. 100. Pages shall be printed on one side only, using not less than 8-point bold or full face type except that 6-point type may be used for reference marks, explanations, column headings, and bills of lading. Original typewritten or proof sheets shall not be used for filing or posting.

(b) Tariff publications submitted for filing, or utilized for posting, shall not contain erasures or original alterations of any nature.

(c) A margin, without any printing or tariff matter thereon, of not less than three-quarters of an inch is required on all edges of all pages of all tariffs.

(d) Tariff publications containing rates will be arranged in an orderly columnar fashion with vertical ruling separating columns of rates, rate bases, and commodity/item descriptions. Horizontal groupings will be done in a manner which clearly defines the rates, terms, conditions, etc., applicable to a given commodity or item, with no more than six horizontal lines of type without a page-wide break or horizontal ruling.

(e) All pages of all tariff publications will be consecutively numbered beginning with the title page as page number one. The first edition of a page shall be designated as "Original Page No. ____" with subsequent revisions to be designated as "(*Show Revision No.*) Revised Page No. ____." Revisions of individual pages are to be published in a numerically consecutive order. Any departure from such consecutive ordering must be explained in writing and is subject to rejection. Page/Revision numbers will be published in the upper right hand corner of the page.

(f) In addition to the required numbering, each tariff publication page will be identified by printing the carrier's name and the applicable FMC tariff designation at the top of the page.

(g) The page number, revision number and effective date of each page will be printed in the upper right-hand corner of the page.

§ 531.4 Contents of tariffs.

(a) The first page of every tariff shall be a title page and shall contain, as a minimum, the following information (See Exhibit No. 1):

(1) The operating name of the carrier, appropriately identified as a Nonvessel Operating Common Carrier (NVOCC) or a Vessel Operating Common Carrier (VOCC). In the case of an agent or bureau tariff, the operating name of the agent or bureau is to be shown.

(2) Applicable agreement numbers.

(3) A tariff number assigned by the filing party in conformity with § 531.2(b) herein.

(4) The designation of any tariff(s) cancelled by the instant tariff, in accordance with § 531.18(a), to be located immediately under subparagraph (3) of this paragraph, except that, when the cancellations are so numerous as to make it impractical to show such cancellations, they may be shown on an interior page, in which event a reference thereto shall be shown on the title page in lieu of the cancellation itself.

(5) A list of the ports from and to, or between, which the tariff publishes services or reference to an interior page where such list can be found.

(6) A statement of the type of service offered, i.e., direct, transshipment, or both.

(7) A statement of the type of rates published, i.e., local, proportional, class, commodity, joint, through, intermodal, etc.

(8) Identification of governing publications.

(9) (i) The effective date of the page in accordance with the requirements of § 531.2(c) and § 531.3(g) herein. In addition to the statutorially required effective date, all revised title pages must set out the effective date of the original title page.

(ii) Expiration notice. In the event that the publication contains provisions which are published to expire at a specific time, notice of such expiration is to be shown.

(10) The current name, title and mailing address of the issuing party as prescribed in § 531.2(a) and § 531.6(a)(2)(v) of this part.

(11) The names of all carriers participating in the tariff or reference to an internal page on which such participants are listed.

(12) Except as provided in § 531.15(d), the title page shall contain a list of all supplements which are currently applicable to the tariff.

(b) The body of the tariff shall contain, in the order named, the following:

(1) A table of contents and a full and complete index of the exact locations where information in the tariff will be found. Such index will list all subjects in alphabetical order and shall show the item, rule or unit numbers and the page numbers where such subjects will be found.

(2) An alphabetically arranged list of all carriers who are currently participants in the tariff. The full operating name, current address, and applicable agreement numbers will be shown for all such participants.

(3) A list of the ports/facilities from and to, or between, which the carrier provides service. Such list shall show the street address of the receiving/disbursing freight station. Mailing address(es) will not suffice, nor will simple port names be adequate.

(4) A single, complete, alphabetically arranged index of commodities, for which rates are published in the tariff, showing the page on which such rate will be found. Such index may be omitted where rates on less than 100 commodities are included in the tariff, provided, however, that such rates are published in an alphabetical arrangement. In either event, all articles generic to different species of the same commodity shall be grouped together.

(5) A full explanation of any symbols, reference marks, or abbreviations used in the tariff to include, but not limited to, the following standard symbols:

(i) ↓ to denote reductions;
(ii) ♦ to denote increases;
(iii) ▲ to denote changes which result in neither increases nor reductions in rates or charges;
(iv) ● to denote no change in rate;
(v) [r] to denote reissued matter; and
(vi) [d] to denote deletions.

These symbols shall be used only for the purposes indicated and no other purpose, nor shall any other symbol be used for these purposes.

(6) If governed in any manner by any other publication, as set out in § 531.10, such publications are to be listed in alphabetical order by the name of their respective issuing party, to include the series designation and number.

(7) Rules and regulations which affect the application of the tariff. Specific rules shall be published to govern the following, as a minimum:

(i) Application of rates. Tariffs shall clearly state all of the services provided

V 41 153 AUG 6 76 UMI

to the shipper and included in the transportation rates set forth therein.

(ii) Effective date rule. Every tariff shall contain a rule, which sets forth in clear and definite terms, the time at which rate changes become applicable on any particular shipment. In the case of intermodal shipments, the effective date will be the date the originating carrier takes possession of the cargo.

(iii) Heavy lift.

(iv) Extra length.

(v) Minimum bill of lading charges.

(vi) Payment of freight charges. Every tariff shall contain a rule which clearly sets forth the terms of payment for services rendered; *i.e.* COD, prepaid etc. If credit is to be extended, the rule must include the credit terms available and the conditions under which credit will be extended.

(vii) Specimen Bill of Lading. The rules shall include specimens of any bill of lading, contract of affreightment, or other document evidencing the transportation agreement, unless a separate bill of lading tariff is on file with this Commission as permitted in § 531.10. In either event, such documents shall indicate that they are subject to the terms and conditions of the carrier's tariffs as are currently in effect and on file with the Federal Maritime Commission in Washington, D.C. and such documents shall not contain provisions which are in any way in conflict with, or more stringent than the terms and conditions of said current tariffs.

(viii) Freight forwarder compensation. Every tariff shall contain a rule specifying the rate or rates, if any, to be paid to licensed ocean freight forwarders in accordance with § 510.24(f) of this chapter.

(ix) Application of effective surcharges, arbitraries, or other charges of a similar nature. Whenever one or more such charges are applicable to a single shipment, the tariff shall clearly set forth the method of such application, *i.e.*, are they applied in aggregate; are they compounded, etc.

(x) Minimum quantity rates (alternation of rates). Every tariff that names two or more rates, dependent upon different quantities of the same commodity, shall contain the following rule:

When two or more freight rates are named for the carriage of goods of the same description, and the application is dependent upon the quantity of the goods shipped, the freight charges assessed against the shipment shall not exceed the charges computed for a larger quantity.

(xi) *Ad Valorem* rates. When an *ad valorem* rate is published in a tariff, a rule shall be published to specify the exact method of computing the charge, and the additional liability, if any, assumed by the carrier in consideration thereof.

(xii) Transshipment Service. When transshipment services are offered under either nonexclusive transshipment agreements filed with this Commission in compliance with part 524 of this chapter; or pursuant to agreements approved by the Commission under section 15 of the Act; the tariff shall set out those tariff provisions required by the applicable agreement and as stated in part 524 of this chapter.

(xiii) Explosives or other dangerous articles. Tariffs which contain rates for the transportation of explosives, inflammables, corrosive material, or other dangerous articles, or which do not specifically prohibit the carriage of such materials, shall contain the rules and regulations of the carrier, which govern the transportation of such articles, or shall bear reference to a separate publication, on file with this Commission in conformity with § 531.10 herein, which contains such rules and regulations.

(xiv) Automobile measurement rule. Tariffs naming rates and charges for the transportation of automobiles, or which do not prohibit their carriage, shall contain either a measurement rule or a weight rule governing such transportation. The measurement and weight rules shall be worded: (A) In the computation of charges for the transportation of automobiles, the cubic measurement for the five most recent model years will be those prescribed by the manufacturer of the particular make and model as shown[1] on pages _____ to _____ herein.

(*1*) Automobiles whose measurements are not shown in the carrier's tariff or in the Federal Maritime Commission's Publication No. 1, whichever is controlling, shall be individually measured by the carrier for rating purposes.

(2) Automobiles which, because of added accessories or equipment, vary in dimensions from the standard measurements shown in the carrier's tariff or in the Federal Maritime Commission's Publication No. 1 shall be individually measured by the carrier for rating purposes. The fact that such vehicles were individually measured by the carrier and the actual variation from the standard measurement (in cubic feet) shall be noted on the bill of lading.

(B) Freight charges for transportation of automobiles on a weight basis shall be determined by individually weighing each automobile on the carrier's scale. Where the carrier does not provide weighing facilities, the shipper shall have the vehicle weighed and provide the carrier with a certification showing the weight thereof.

(xv) Container Description Rule

(A) *Definitions:* For the purposes of this subparagraph the following definitions will apply:

Container means a demountable trailer body transported without wheels on board vessels.

Trailer means a vehicle, on or in which freight may be carried, transported on wheels on board vessels.

Capacity means the available cubic or weight limit of a container/trailer.

(B) *Rates and/or charges relative to capacity of containers.*

Tariffs which publish rates and/or charges (where the level of such rates and/or charges is relative to the capacity of the container/trailer utilized), on shipments transported in containers/trailers must specify the capacity of the container/trailer to which said rate and/or charge applies.

(C) *Carrier-provided containers.*

In the instance of carrier-provided containers/trailers, the specifications (to include capacity *and* container/trailer identification) of said container/trailer must be set forth in the tariff rate item, an applicable tariff rule, or in an appropriately referenced governing publication currently on file with the Federal Maritime Commission in Washington, D.C. Further, the tariff shall provide (in the event that the carrier should provide a container/trailer of a specification other than that set out in the tariff rate item, tariff rule, or governing publication) a conversion formula or table which is easily capable of adjusting the applicable tariff rate and/or charge relative to the capacity of the container/trailer supplied.

(D) *Shipper/consignee-provided containers.*

In the instance where shipper/consignee-provided containers/trailers are accepted, under the terms of the tariff, for shipment, the applicable rate will be determined through reference to the conversion formula or table prescribed in subdivision (C).

(xvi) Additional rules which affect the application of the tariff shall follow the rules specified above and shall be numbered consecutively.

(8) Where exceptions apply to classification, rules or rates, they shall be enumerated in the tariff to which they apply and shall be set forth in an item to be titled *"Exception to the Application of this Tariff."*

(9) A special rule affecting only a particular item or rate must be specifically referred to in such item or rate. All such rules to be assigned an individual number to be consecutive with the above rules.

(531.4(a)(9)(ii)), Expiration Notice: Supplement No. 6 Expires Aug. 25, 1960

§ 531.5 Statement of rates.

(a) The application of all rates shall be clear, definite, and explicitly stated per: 100 pounds; ton of 2,000 pounds; ton of 2,240 pounds; per cubic foot or some clearly defined unit of freight.

(b) Tariffs containing rates per barrel, or other package, shall define such package. Clear and concise rules, to be used in determining weights or measurements of such units, shall be included in the tariff.

(c) Where rates vary depending upon whether the cargo is packed, crated, palletized, loose or otherwise prepared or delivered for shipment, there shall be a clear and specific statement governing the application of such rates.

(d) Where rates are published on a weight or measurement basis, a specific statement will be made that the basis producing the greater or lesser revenue to the carrier will apply.

(e) No rule shall be permitted which allows either the carrier or the shipper to exercise any option as to the rates to be applied. The publication of rates which duplicate, or conflict with, the rates published in the same, or any other, tariff, to which the carrier is a party, is not permissible. In addition, the publication of a statement, in a tariff, to the effect that the rates published therein take precedence over, or alternate with, rates published in some other tariff, is prohibited.

(f) When commodity rates are established, they displace class rates otherwise applicable. Commodity rates must be specific and shall not apply by implication, or otherwise, on analogous articles.

(g) Commodities and generic commodity groupings, on which rates are stated, shall be listed in alphabetical order. Item numbers, if published in the index, shall be shown with the item. All rates will be stated in a systematic and straight forward manner.

(h) A commodity item may provide rates on a number of articles, without naming them, provided the commodity item makes reference to an item or rule in the tariff naming such commodities or to a governing classifiaction on file with this Commission in accordance with § 531.10 hereof.

(i) A tariff may provide rates from or to designated ports by the application of an arbitrary or differential charge, said application to be clearly defined and referenced in the rate item, to the base rate as applicable to a specified base port.

(j) Where commodity rates are published subject to a minimum quantity provision, the provision will be clearly stated and contained in the commodity item description to which it applies. In the case of mixed shipment, described in § 531.5(k), the applicable minima shall be similarly stated and their application clearly defined.

(k) In the event that provision is made for the movement of different articles in mixed lots as a single shipment, and without a specific mixture being defined, the tariff will set forth rules which clearly define the rate(s) to be applied and basis for that application.

(l) Where a tariff publishes rates for the movement of different articles as a single generic commodity, other than that specified in § 531.5(k) above, the commodity description shall clearly and precisely set forth a description of the mixture of such articles, that is required in order that the rate may be applied. In the case of cargo moving under this rule, the tariff shall require that the composition of the qualifying shipment be shown on the face of the applicable bill of lading governing the movement. In the event that the shipment contains a greater number of different commodities, than is required to qualify for the rate, the bill of lading description need show the quantity composition of the load only to the extent necessary to qualify for the specified minimum number of commodities.

(m) All filings which purport to establish a project rate shall be accompanied by:

(1) A narrative disclosing the economic justification for the project rates and a demonstration that the rates would cover the variable out-of-pockets expenses of the movement and would make some contribution to the fixed voyage expenses;

(2) a certification that all carriers, having tariffs on file with the Federal Maritime Commission covering services between the involved ports, have been served a copy of the proposed project rate filing (exclusive of the financial data), to include the names of all carriers so served; and

(3) shall include in the applicable tariff publication;

(i) a list of the commodities to be transported under the project rates;

(ii) a date upon which the project rates will expire; and

(iii) a statement that the bill of lading used to move cargo under the project rates will be claused "All materials included in this bill of lading are of a wholly proprietary nature and may not be resold at destination or otherwise placed in commercial channels for resale."

(n) Publications setting forth proportional rates must clearly and definitely state the circumstances under which, and the points between which, such proportional rates may be applied. If the application of a proportional rate is not prescribed, such proportional rate will be usable in connection with any other rate which is applicable to or from the proportional rate point.

(o) Tariffs, published subject to a governing classification, shall not state the applicable rates as a percentage of any base rate, but, rather, shall publish a specific and individual rate for each and every class or percentage thereof, for which service is proposed.

§ 531.6 Amendments to tariffs.

(a) General Tariff Amendments.

(1) All changes in, additions to, or deletions from a tariff shall be known as amendments. All amendments to tariffs shall be in a permanent form at set forth hereinafter.

(2) Notice Requirements

(i) Amendments which provide for new or initial rates; changes in rates, charges, rules or other provisions in a tariff shall be published and filed with the Commission to become effective not earlier than 30 days after the date of receipt, by the Washington, D.C. offices of this Commission, as evidenced by the official receipt stamp applied thereto in accordance with § 531.2(c), unless special permission has been obtained, as detailed in § 531.8, to do otherwise, and/or unless otherwise specified herein.

(ii) Changes which provide for extension of actual service to additional ports, at rates or fares already in effect for similar service at the nearest port of call to said additional ports, by the filing carrier, shall be effective immediately upon receipt by this Commission.

(iii) Changes which provide for the adoption of a tariff, as provided in § 531.11, shall be effective upon the actual date of such change in name or control, provided that such tariff changes are received by this Commission on or before said effective date.

(iv) Changes which provide for the complete cancellation of a tariff in accordance with § 531.7, due to a cessation of service, and without any successor organization and/or tariff publications, shall be effective on the actual day of such cessation, provided that such tariff change is received by this Commission on or before said effective date.

(v) Changes in the title page, which change only the name and/or address of the issuing officer (§ 531.4(a)(10)), shall be effective on not less than one day's notice to this commission.

(vi) Changes in terminal rates, charges and provisions, based upon changes in rates, charges and provisions of terminal operators over which the carrier has no control, shall be filed to be effective on not less than ten days' notice to this Commission provided that such action is taken by the carrier within thirty days after the effective date of the change made by the terminal. Amendments filed pursuant to this rule shall be accompanied by a narrative justification which, as a minimum, shall cite the terminal change which makes such an amendment necessary. (The terminal tariff is to be cited by name, series, page, item number and the effective date thereof).

(viii) Carriers may publish, post and file, on not less than one day's notice, schedules which establish additional terminal facilities for the loading and/or discharging of cargo, at the rates currently applicable at other facilities in the same port or harbor, for the account of the carrier for which the additional facility is established.

(viii) Amendments announcing seasonal discontinuance or restoration of service shall be filed so as to allow not less than ten days' notice. It shall contain no other amended matter other than

V 41 153 AUG 6 76 UMI

a simple statement as to the date of discontinuance/restoration.

(3) Amendments to loose-leaf tariffs shall be made by reprinting the entire page upon which such amendments are made. Such page shall be designated, in the upper right-hand corner, as a revised page and shall cancel the preceding edition of the same page; i.e.:

1st Revised Page 10
Cancels
Original Page 10

(4) Amendments to bound tariffs, filed pursuant to approved authority in accordance with § 531.8, shall be made by the issuance of a supplement, to the applicable tariff, which publishes the entire page on which the change is desired. The content, number and designation of such supplements to be in accordance with § 531.7.

(5) Changes made in existing rates, charges, classification, rules, or other provisions shall be indicated by the use of the symbols specified in § 531.4(b)(5). When a change of the same nature is made in all, or in substantially all, rates and fares in or on a tariff publication, the nature of the change may be indicated in boldface type at the top of the title page of such publication, or on each page, in substantially the following form, "All rates or fares in this tariff (or supplement or on this page) are increases (reductions), except as otherwise indicated." When the foregoing notation is shown, a bold-faced dot, in accordance with § 531.4(b)(5)(iv), shall be used to denote a rate or fare in which no change has been made.

(6) When an amendment deletes any matter previously contained in a publication, the deletion shall be indicated by the symbol [d]. Should the deletion result in a change in expense to the shipper/consignee, the effect of the change will be indicated as required by § 531.4(b)(5). In addition, the amendment shall state what provision, if any, now applies. In the event that the deleted matter is republished on a different page, the page from which it is deleted shall make specific reference to the page on which the relocation provisions will be found.

(7) Every tariff amendment which accomplishes a change upon less than statutory notice pursuant to special permission authority granted by this Commission, shall show in a connection with such a change a notation as provided for in § 531.8(k).

(8) If, as a result of the expansion of the matter on any page, it becomes necessary to add an additional page, such additional pages (except where it follows the final page) shall be given the same number as the previous page with a consecutive letter suffix; i.e., Original Page 4–A, Original 4–B, etc. In the event that it is necessary to change matter on such a page, it may be done by issuing First Revised Page 4–A, which shall indicate the cancellation of Original Page 4–A.

(9) If, after a loose-leaf tariff has been filed with this Commission, it is desired to file additional pages at the end of the tariff, they shall be numbered consecutively with the last page of the tariff, and shall be designated as original pages.

§ 531.7 Supplements.

(a) Supplements may be filed to a loose-leaf tariff to accomplish the following:

(1) To provide for a general rate change applicable to all, or substantially all, of the commodities listed in the tariff.

(2) To provide for a transfer of operations or changes in carrier name and/or control in accordance with § 531.11.

(3) To implement a suspension order in accordance with § 531.19(b).

(4) To provide for a change in effective date affecting the entire tariff.

(5) To cancel either the tariff being amended or previously issued supplements to that tariff—either cancellation to be in its entirety with partial cancellation not being permitted.

(b) Supplements shall be the only method of amending those bound tariffs whose publication has been authorized by this Commission and shall be used for all changes authorized by this part.

(c) Such supplements shall refer specifically to the page *and* item of the tariff or supplement to be amended thereby.

(1) When an amendment is made in a numbered item or other designated unit, such item or unit must be published in its entirety, as amended.

(2) All such amendments to a single item must be shown in a single amendment and in a single supplement. No more than one supplement may be in effect which affects any single unit or item.

(3) Changes to such numbered items or units shall bear the same designation, as the amended item/unit, with a consecutive letter suffix and shall show the cancellation of the prior item/unit edition; i.e., Item 10–A cancels Item 10; Item 10–B cancels Items 10–A, ad infinitum.

(d) The matter contained in each supplement shall be arranged in the same manner and order as that which it seeks to amend.

(e) Every supplement shall contain either a list of carriers participating therein, arranged in accordance with § 531.4(b)(2), or a statement that the participating carriers are "as shown in tariff" or "as shown in tariff amended as follows."

(f) Matter brought forward, without change, from one supplement to another shall be designated "Reissued" and shall show the original effective date and the number of the supplement from which it was reissued.

(g) No one tariff shall contain more than four active supplements.

(h) The first page of every supplement shall accomplish the following:

(1) Identify the carrier by its operating name as shown on the title page of the tariff being amended.

(2) It shall set out, in the upper right-hand corner, the series and number of the tariff being amended and shall be numbered consecutively with the first supplement issued being number one; i.e.:

Supplement No. 1 to FMC–F No. 3

(3) In the event that the supplement cancels either a previous supplement or the entire tariff to which it belongs, such cancellation shall immediately follow the designation required in § 531.7(h)(2); i.e.:

(i) Supplement No. 1 to FMC–F No. 3
cancels
FMC–F No. 3
or
(ii) Supplement No. 2 to FMC–F No. 3
cancels
Supplement No. 1 to FMC–F No. 3

(4) Immediately following such designation, it shall clearly indicate the supplements currently in effect; i.e.:

Supplement No. 5 to FMC–F No. 3
cancels
Supplement No. 2 to FMC–F No. 3
Supplements Nos. 3, 4, and 5 contain all changes

(5) In a similar fashion, the issuance of a supplement to a loose-leaf tariff shall require the revision of the title page, of the tariff being amended, to reflect those supplements in effect in accordance with § 531.4(a)(12).

(6) All supplements shall publish an effective date in the upper right-hand corner of the first page in accordance with § 531.6(a)(2).

(i) Supplements containing more than one page shall be firmly bound at the left-hand edge; may be printed on both sides of the page; and all printed pages shall be consecutively numbered with the first page of each individual supplement being page number one.

§ 531.8 Application for special permission.

(a) The Commission may, in its discretion and for demonstrated good cause, permit changes in rates, or the issuance of new or initial rates on less than statutory notice and/or permit departure from the regulations in this Part.

(b) Special permission authority may be granted for the following purposes:

(1) To correct typographical errors. Every application based thereon must plainly specify the error with evidence thereof, together with a full statement of the attending circumstances, and must be presented with reasonable promptness after the issuance of the defective tariff publication.

(2) To obtain relief from the regulations in this Part. The application must state the specific rules from which relief is requested, the special circumstances which require such relief, and the end result of the relief, if granted.

(c) Special permission authority will not be granted to allow a carrier to change his rates or provisions on less than statutory notice for the purpose of meeting the rates/provisions of competitors, where such competitor's rates/provisions were filed on full statutory notice. For the purpose of this rule, competitive reaction will be considered good cause only in such instance as the competing carrier has been granted rule relief to allow short notice filing.

(d) Special permission authority will not be granted to permit the modification of a formal order of this Commission. Such modification may be made only by petition to the Commission.

(e) If the authority granted by special permission is used, it must be used in its entirety and in the manner set forth in such special permission.

(f) Application for special permission must be made by the agent that holds authority to file the applicable tariff publication.

(g) The application for special permission shall set forth the following:

(1) The proposed tariff provisions shall be shown by the attachement of a copy of the amended page(s) on which the change is proposed. Such attachment shall be clearly designated as an exhibit to the application. If the proposed provision consists of rates, all points of origin and destination must be shown or definitely indicated; if permission is sought to establish a rule, the exact wording of the proposed rule must be given.

(2) The tariffs and series designations of the publication in which the proposed rates, rules, or other provisions will be published. If publication is to be made in supplemental form to tariffs already published, this is to be shown. The extent to which cancellations will be made shall be clearly shown.

(3) The application shall state the names of carriers known to maintain provisions competitive to those for which the applicant seeks relief.

(4) The application shall certify that such carriers, named in (3), have been advised of the applicant's intentions by copy of the subject application.

(5) Sufficient data and/or narrative to satisfy the requirements of § 531.8(b)(2).

(6) The contents of all such applications shall be attested to by proper authority and shall be certified as such by the seal of a notary public.

(h) All such applications, attachments thereto, and amendments thereof shall be submitted to this Commission in duplicate.

(i) All such applications shall be submitted in a timely manner with no less than five days notice to the Commission in advance of the authority sought.

(j) From time to time, the Commission may, either upon application or on its own motion, establish and/or rescind such outstanding special permission authorities as it may deem prudent. At such time, filings dealing with the relevant content of such outstanding special permission authorities shall comply with the instructions and stipulations published therein.

(k) Any tariff publication, filed pursuant to a grant of special permission, shall publish the following notation at the bottom of each page of such publication, in the case of a loose-leaf publication, or at the bottom of the first page, in the case of bound or supplemental publications: "Published under the authority of Federal Maritime Commission Special Permission No. ---------."

§ 531.9 Terminal Rules, Charges and Allowances.

(a) Every tariff filed pursuant to this part shall clearly and separately state any terminal privilege, facility or service which is included in the basic rates, fares, and charges published by such tariff. In the event that these services are to be performed by an outside company, over whom the carrier has no control, and the carrier collects or absorbs all or a portion of the charges, the particulars surrounding such collection/absorption shall likewise be published in the tariff.

(b) Provisions for the payment of allowances to shippers, consignees, or passengers in lieu of the performance of the above-mentioned privileges, facilities, or services shall be published and filed giving particular attention as to the specific privilege, facility, or service involved, the amount for the specific allowance and the rules governing the making of such allowances.

(c) Changes in such terminal rules, charges and allowances shall be filed on not less than 30 days' notice to this Commission, except as provided in § 531.6(a)(2)(vi).

§ 531.10 Governing Tariffs.

(a) In the event that it is not desirable or practical to include the governing rules of a tariff, as required by § 531.4, or bills of lading or the contract of affreightment, as also required by § 531.4, in the rate tariff itself, these may be separately published and filed in a rules tariff and/or bill of lading tariff. Similarly, classifications of freight, equipment registers, hazardous cargo rules, and other, similar tariffs, may be separately published and filed.

(b) Only one such separate tariff, containing general rules and regulations affecting freight rates or passenger fares, may be filed by or on behalf of any carrier, and each such governing tariff may be used only when referred to by name and series designator in the governed tariff of rates or fares as prescribed in § 531.4(a)(8) and § 531.4(b)(6).

(c) All such governing tariffs shall conform with such provisions of § 531.4 as are applicable.

(d) All tariffs which are subject to such governing publications shall clearly state that subservience.

(e) A governing tariff, containing a classification of the articles upon which the rates named in other tariffs apply and to which proper governing reference is made, may be filed. The articles must be listed in the classification in an orderly manner and a designated rating must be shown in connection with each description thereof. Rules, if any, having an application to the classification must precede the list of articles and must be separately numbered. Such classification has application only in connection with and to the extent provided for in tariff publications which refer thereto.

§ 531.11 Transfer of operations; changes in name and control.

(a) When the name of a carrier is changed, or when its operating control is transferred, or otherwise acquired the carrier which will thereafter operate the properties shall simultaneously file:

(1) An adoption notice in the form of a one-page tariff, numbered in the adopting carriers FMC series (in accordance with § 531.2(b) and § 531.4(a)) and reading as follows:

FMC–F (or –P or –G) No.---------

(Operating name of adopting carrier)

ADOPTION NOTICE

The (operating name of adopting carrier) hereby adopts, ratifies, and makes its own, in every respect and as if the same had been originally filed and posted by it, all freight (or passenger, or rules) tariffs, notices, divisions, authorities, powers of attorney, or other instruments whatsoever, including supplements or amendments thereto, filed with the Federal Maritime Commission by, or heretofore adopted by, the (operating name of carrier being adopted) prior to (effective date of change in operating control).

Issued by (Issuing Officer in accordance with § 531.2(a))

Effective Date (in accordance with § 531.6(a)(2)(iii))

and;

(2) A consecutively numbered, revised title page to each of the tariffs of the adopted carrier, covered by the adoption notice in § 531.11(a)(1), reading as follows:

Effective (in accordance with § 531.6(a)(2)(iii)) this tariff, as amended or supplemented, became the tariff of the (operating name of adopting carrier) as per its adoption notice published in its Tariff FMC–F (or P or G) No. ---------

Such revised title pages shall be accompanied by a letter of authority, on the letterhead of, and issued by the issuing officer of, the adopted carrier, which states his full knowledge of and concurrence in the proposed adoption action and the subsequent cancellation required by § 531.11(b). Such letter of authority shall be duly sworn to and certified by a notary public.

(b) Tariffs, adopted in accordance with § 531.11(a)(2), shall be cancelled, in their entirety, within ninety days of the effective date and shall not be further supplemented or amended other than to accomplish said cancellation.

(c) The adopting carrier shall publish replacement tariffs, for those cancelled under § 531.11(b), under its own operating name and bearing its own consecutive FMC series and number designation to be effective on the first day following the effective date of the tariff cancelled in accordance with § 531.11(b). The new tariff to give full statutory notice, in accordance with § 531.2(c), and to cancel the adopting carrier's adoption notice published under the provision of § 531.11(a)(1).

(d) Tariffs naming participating carriers shall be amended when any of those participating carriers are adopted or otherwise have a change in name and/or control. In the event that participation is to continue under the new operating name of the adopting carrier, the amendment shall add the new operating name

V 41 1153 AUG 6 76 UMI

of the participating carrier and shall delete all reference to the participating carrier's former name. Should the adopting carrier not intend to continue the participation, the amendment shall delete all reference to the adopting carrier's former name. Such amendment shall be published on full statutory notice to coincide with the effective date of the tariff cancellation required under § 531.11(b). Similarly, all powers of attorney, adopted by the adopting carrier, shall be replaced and superseded by new powers of attorney issued by and numbered in the series of the new carrier with such new powers of attorney to be effective with the cancellation required under § 531.11(b). Such cancellations of powers of attorney shall include the name of the adopted carrier. Any power of attorney that will not be replaced must be revoked in accordance with § 531.12.

(e) In the event that a carrier falls into receivership, similar notices, as required in § 531.11(a) through (d), shall be filed in the FMC series of the carrier by the receiver or trustee to be effective when he assumes possession and control of the carrier's operations. When the receivership/trusteeship is terminated, the carrier taking over the properties shall publish such notices, supplements and tariffs as are herein above prescribed.

(f) Partial adoptions, where the operating control of only a part of a carrier's properties and publication is transferred to another carrier, shall not be allowed. Such changes in operations are to be accomplished by the cancellation of currently applicable tariffs and their subsequent reissuance, on full statutory notice, to show the changes in operations.

§ 531.12 Delegation of authority to file tariffs.

(a) A carrier may grant authority to a person, not an official or employee of such carrier, to act as agent for such carrier in the issuance of all its tariffs, or any particular tariff.

(b) In the event that there is such delegation of authority by a carrier, there shall be filed with this Commission a power of attorney indicating the appointment of such agent and setting forth the exact limit of the authority of such appointed agent. Such power of attorney must be signed by a corporate officer and sworn to before a notary public.

(c) A carrier may not have more than one power of attorney in effect to file or issue amendments to any single tariff publication.

(d) A power of attorney may be revoked by revocation notice or cancelled by a new power of attorney. The revocation notice must bear an effective date, which must not be earlier than the date of receipt by the Commisison for filing. A power of attorney, cancelling a previous issue, will become effective upon date of receipt by the Commission. A revocation notice shall specify the power of attorney to be revoked and the name of the agent and alternate agent in whose favor it was executed, and shall be executed in the same manner as the instrument to which it is directed.

§ 531.13 [Reserved]

§ 531.14 Special rules governing the filing of tariffs containing rates and/or rules and regulations for through intermodal transportation.

(a) Tariffs filed pursuant to the requirements of this part and which publish rates or charges or rules or regulations, or any combination thereof, for the through movement of cargo by intermodal means are subject to these special rules and, in addition, to those other rules in this part which govern tariff filing generally.

(b) In addition to the requirements of § 531.4(a), and/or as modified by the following, the title page to such tariffs as are filed subject to § 531.14(a) shall contain:

(1) A list of the places from and to which the rates apply or reference to an interior page where such list may be found. The places shall be described by the names of cities, states, or political subdivisions thereof, or other definite geographical designations.

(2) A statement indicating that the tariff contains rates or provisions relative to the movement of freight by intermodal transportation.

(c) In addition to the requirements of § 531.4(b), and/or as modified by the following, the body of tariffs, as are filed pursuant to this subpart, shall provide:

(1) The identity of each carrier joining in an arrangement to provide through transportation when such transportation results in a joint service, together with a designation of the mode of transportation provided by each such carrier.

(2) A list of the places from and to which the rates apply, if not shown on the title page, together with a list of the ports through which the cargo can move.

(3) A rule setting forth the liability and responsibility of each carrier participating in the performance of such through intermodal services, together with a specimen of the bill of lading or other contract of affreightment which, in conjunction with the tariff, governs the movement of such through intermodal traffic.

(d) In addition to the requirements of § 531.5, and/or as modified by the following, any tariff filed pursuant to this subpart shall provide that:

(1) Except as otherwise provided in this subpart, tariffs naming through intermodal rates shall show the through rate together with the port-to-port division, rate or charge that is to be collected by the water carrier subject to regulation under the Shipping Act, 1916. The port-to-port portion may be shown in:

(i) a column adjacent to the column showing the applicable through rate; or

(ii) directly under the commodity description or the through rate.

(2) In the event that the through intermodal rate is to be constructed by combining the ocean rates with inland rates as are published in effective tariffs filed with the Interstate Commerce Commission (ICC) or with the Civil Aeronautics Board (CAB), the ICC tariff or the CAB tariff may be incorporated into the through intermodal rate tariff as a separate section provided for information only and filed with the Federal Maritime Commission. For the purpose of facilitating the filing of such an information section the tariff format requirements of this part are hereby waived as to that portion of the through intermodal tariff which is also an ICC or CAB tariff only, provided that each page of such a section is clearly and distinctively marked to indicate that it is for informational purposes only and that the pages bear the FMC series designation of the FMC regulated tariff to which they belong. At such time as such tariffs on file with the ICC or CAB are revised, amended, supplemented, cancelled, or otherwise altered, the corresponding information sections of the FMC filed intermodal tariffs will be simultaneously and identically so altered.

(e) A memorandum of every arrangement to which a carrier, or carrier's agent, subject to the jurisdiction of the Shipping Act, 1916, is or becomes a party, with carriers and/or persons not subject to that Act, for transportation between points in the domestic commerce of the United States, establishing any joint rate or through route which is offered in connection with any other carrier, shall be filed with the Commission concurrently with the filing of the through intermodal rate tariffs. Arrangements subject to Section 15 of the Shipping Act, 1916, must also be filed and approved in accordance with the requirements of Part 522 of this chapter.

§ 531.15 Special rules for bound tariffs filed pursuant to special permission authority.

(a) Such bound tariffs as may be permitted to be filed by this Commission are subject to these special rules and, in addition, to those other rules in this part which govern tariff filing generally.

(b) In addition to the requirements of § 531.3(a) of this part, and/or as modified by the following, tariffs filed pursuant to this section shall be firmly and permanently bound on the left edge. The simple insertion of one or two staples in the binding edge shall *not* suffice to meet this requirement.

(c) The requirements of § 531.3(g) of this part are waived to the extent that an effective date shall not be published on any page other than the title page of such bound tariffs.

(d) So much of the requirements of § 531.4(a)(12) are waived to the extent that the title page need not reflect the supplements currently in effect.

(e) All changes to bound tariffs shall be made in accordance with the provisions of § 531.7(b) of this part.

(f) The requirements of § 531.3(a) are waived to the extent that tariffs, filed pursuant to this section, may be printed on both sides of their pages.

§ 531.16 Seasonal discontinuance and restoration of transportation service.

(a) Tariffs naming all water rates, fares and/or rules applicable via routes which are closed to navigation during part of a year shall either:

(1) expire at the close of navigation;

(2) be cancelled at the close of navigation; or

(3) provide for discontinuance/restoration of service by the publication, either on the title page of the applicable tariff or in an internal rule referenced on the title page, of provisions governing such seasonal discontinuance/restoration.

(b) Tariffs, utilizing the provisions of § 531.16(a), shall also publish provisions governing the handling of shipments which may arrive at carrier's facilities after the date on which service is discontinued.

§ 531.17 Index of tariffs.

(a) Each carrier which has five or more tariffs in effect, in its own name or to which it is a party, shall publish, post and file an index, carrying an FMC–I No. _____ designation, of such tariffs. Such indices shall be effective upon receipt by this Commission.

(b) The title page of the index shall follow the requirements of § 531.4(a) of this part except that it shall not publish a scope (§ 531.4(a)(5)); a statement of service (§ 531.4(a)(6)); a statement of rate types (§ 531.4(a)(7)); an effective or expiration date (§ 531.4(a)(9)); or a list of participating carriers (§ 531.4(a)(11)). In addition, the title page shall bear a notation as follows:

This index contains a list of tariff publications in effect on (here show publication date).

(c) The body of the index shall be arranged in the following order, as applicable:

(1) (i) Specific Commodities Tariffs
(ii) General Commodities Tariffs
(iii) Class Tariffs
(iv) Passenger Tariffs
(v) Rules Tariffs
(vi) Miscellaneous Tariffs

(2) Classifications (i) through (iv) and, if applicable, classification (vi) above will be arranged in a columnar manner which sets out the following for each tariff:

(i) FMC series and number designation (§ 531.4(a)(3))
(ii) The name of the issuing carrier (§ 531.4(a)(1))
(iii) The character of the tariff (§ 531.4(a)(6) and (7))
(iv) The ports from, to and between which the tariff applies (§ 531.4(a)(5)).

(3) Specific commodities tariffs shall be arranged in alphabetical order of the commodities covered; general commodities tariffs shall be arranged in alphabetical order of the ports or territory from and to which they apply in either the "From" or "To" column; miscellaneous tariffs shall be arranged in alphabetical order of the descriptions; for example, classification, rules and terminals.

(4) Passenger tariffs shall be arranged in alphabetical order of the ports or territories from and to which they apply in either the "From" or "To" column. Miscellaneous tariffs applicable thereto shall be arranged in alphabetical order of their descriptions.

(d) The index shall be revised to reflect changes, resulting from supplements to or reissues of tariffs, either by reissue of the index every three months or by supplement thereto every three months and reissue every 12 months. Tariff indices should not remain in effect longer than a period of one year.

(e) Supplements to indices must be numbered consecutively and shall be arranged in the same general order as the index and shall show additions, changes and cancellations by reference to the page and item number of the entry changed or canceled. Each new supplement shall bear on its title page the notation:

Supplements Nos. _____ and _____ contain changes in effect on date hereof, to which may be added or which have been filed to become effective at a later date as shown within.

§ 531.18 Cancellations.

(a) An entire tariff may be canceled by the issuance of a similar tariff to take its place. The cancellation notice is to be printed on the title page of the replacement tariff in accordance with § 531.4(a)(4) of this part.

(b) An entire tariff may be canceled by the issuance of a consecutively numbered supplement to the tariff being canceled. The cancellation notice is to be printed on the first page of the supplement in accordance with § 531.7(h)(3)(i) of this part. In the case of cancellation by such supplement, the restrictions of § 531.7(g) of this part do not apply.

(c) The cancellation of an entire tariff also cancels all amendments or supplements thereto.

(d) The cancellation of individual items shall be performed as provided in § 531.6 of this part, in the case of loose-leaf tariffs, and as specified in § 531.7 of this part for such bound tariffs as this Commission may grant authority for.

(e) When tariff matter is to be canceled, the canceling publication shall show what, if anything, will thereafter apply and where it may be found in the tariff publication. In the event that such cancellation or omission affects changes in charges or services, that fact shall be indicated by the use of the uniform symbols prescribed by § 531.4(b)(5) of this part.

§ 531.19 Suspension of tariff publication.

(a) Pursuant to the authority of sections 18(a) and 22 of the Shipping Act, 1916, and sections 3 and 4 of the Intercoastal Shipping Act, 1933, the Commission may, either upon proper complaint or on its own motion, direct that any rate, fare, charge, classification, regulation, or practice be investigated as to its justness or reasonableness and pending such investigation and decision, may suspend from use such rate, fare, charge, classification, regulation, or practice for a period of up to four months beyond the time when it would otherwise go into effect.

(b) Upon receipt of an order suspending any publication in part or in its entirety, the carrier, or agent, who filed such publication shall immediately publish, post and file with this Commission, in accordance with § 531.2 and § 531.7 of this part, a supplement which shall:

(1) bear an effective date coinciding with that of the applicable suspension order;

(2) contain a notice which specifically indicates the portion(s) of the publication that is/are suspended;

(3) contain a notice which specifically states those provisions which are to continue in effect in lieu of the suspended provisions; and

(4) reproduce the suspension order in its entirety.

(c) Neither suspended matter nor matter continued in effect, as a result of such suspension, may be amended, deleted or withdrawn except by order or special permission of this Commission.

(d) If, prior to receiving an applicable suspension order, a carrier, or agent, files a later amendment which either reissues, deletes, cancels or amends the matter named in the suspension order, the suspension supplement, required by § 531.19(b), shall also specifically cancel from such later amendment such reissuance, deletion, cancellation or amendment.

(e) The effective matter in a tariff publication, where such publication has been suspended in part, may be amended during the period of suspension, provided that the new tariff publication shall cancel the partially suspended publications only to the extent that unsuspended matter is canceled or revised. This is to be accomplished by the addition of the following notation to the cancellation notation prescribed in § 531.6 or 7 of this part:

• • • except portions under suspension in Docket No. _____.

(f) In the event that the Commission vacates a suspension order as of a date earlier than the date to which the subject tariff publication was suspended, the carrier or agent, who filed the publication, may file with this Commission a vacating supplement, stating the date upon which the previously suspended tariff publication will become effective. Such vacating supplement, unless otherwise provided by the Commission's order, shall be effective on not less than one day's notice. Should a carrier elect to not publish such a vacating supplement, the suspended provisions will become effective on the date to which it was originally suspended.

(g) In the event that an order, which suspended a traiff in its entirety is vacated, the vacating supplement, filed under authority of this section, shall con-

V 41 153 AUG 6 76 UMI

tain no material other than the notice of vacating.

(h) Should the Commission order, the subsequent cancellation of a tariff publication, or any part thereof, theretofore suspended, the cancellation shall be effected by filing with the Commission, upon not less than one day's notice or as may be specified in the order, a supplement or revised page stating the date upon which, in accordance with the Commission's order, such suspended matter is canceled. If the suspended matter is not canceled on or before the date to which it was suspended, but allowed to become effective, the matter which has continued in effect, during the period of suspension, will be canceled automatically.

(i) Suspension, vacating, and cancellation supplements issued under the authority of this section will be issued without regard to the requirements of § 531.7 (g) of this part.

Therefore, it is ordered, That interested persons may participate in this rule making proceeding by filing with the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before October 4, 1976, an original and 15 copies of their views or arguments pertaining to the proposed amended rules. All suggestions for changes in the text as set out above should be accompanied by drafts of the language thought necessary to accomplish the desired change and by statements and arguments in support thereof;

It is further ordered, That the Federal Maritime Commission, Bureau of Hearing Counsel, shall participate in the proceeding and shall file Reply to Comments on or before November 3, 1976, serving an original and 15 copies on the Federal Maritime Commission and one copy to each party who filed written comments. Answers to Hearing Counsel's replies shall be submitted to the Federal Maritime Commission on or before November 23, 1976.

By order of the Federal Maritime Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[FR Doc.76-22943 Filed 8-5-76;8:45 am]

FEDERAL POWER COMMISSION

[18 CFR Part 2]

[Docket No. RM76-29]

ELECTRIC RATE SCHEDULE FILINGS AND REQUIREMENT FOR FILING OF COMPARATIVE RATE INFORMATION IN CERTAIN SITUATIONS

Proposed Statement of Policy

JULY 29, 1976.

Pursuant to 5 U.S.C. 553, sections 209 (b), 309 of the Federal Power Act (40 Stat. 853, 858–859; 16 U.S.C. 824h(b), 825h), and Sections 16 and 17(b) of the Natural Gas Act (52 Stat. 830; 15 U.S.C. 717p(b), 717o), the Commission gives notice it proposes to amend Chapter I, Title 18, CFR Part 2 as hereinafter specified.

On June 7, 1976, the Supreme Court issued its opinion in *F.P.C. v. Conway, Corp.*, No. 75–342 which affirmed the Court of Appeals remand (510 F.2d 1284 (D.C. Cir. 1975) of our orders refusing to allow intervenors to present evidence of an alleged price squeeze. It was the Commission's view that since it lacked jurisdiction to set retail rates, it could not consider allegations of discrimination between wholesale jurisdictional rates and retail non-jurisdictional rates.

The holding of the Courts was that the Commission erred in believing itself jurisdictionally barred from even considering intervenors' allegations. Because the case was decided by both the Commission and the Courts on jurisdictional grounds neither has adequately addressed the elements of a claim of price squeeze or the nature of the relief which the Commission can afford.

Jurisdictional questions aside, the substantive standards governing the Commission's evaluation of an allegation of price squeeze are those of Section 205(b) and 206(a) of the Federal Power Act, 16 U.S.C. 824d(b) and 825e(a). As applied to allegations of price squeeze, these sections prohibit rates which are "unduly discriminatory or preferential." Since Conway teaches that these standards should be applied in considering the relationship of jurisdictional to non-jurisdictional rates, we view our responsibility to include an attempt to eliminate undue differences between the rates charged by a utility for wholesale and retail service. We expect that our responsibilities in this regard can be discharged by an analysis of a utility's pricing policies. Where the rates charged for comparable service are equal, there is no undue discrimination. Similarly, where rates vary due to differences in the character of service rendered, there may nevertheless be no undue discrimination.

Where discrimination is shown, the Court has suggested a remedy. The Courts recognize the Commission's responsibility to set wholesale rates which permit recovery of fully allocated wholesale costs. However, the Courts have concluded that there is a "zone of reasonableness" in ratemaking and that it may be possible, by setting the rate at the lower end of the zone, "to partially or wholly abolish any discriminatory effects found to exist" and still recover wholesale costs (*F.P.C. v. Conway, Corp.*, 75–342, Slip op. p. 8). However, the only zone of reasonableness which might be found in utility ratemaking is the range of potentially appropriate rates of return on common equity. Where discrimination is shown, the Commission may attempt to eliminate discrimination with respect to non-jurisdictional rates by adjustment of the rate of return to the lowest reasonable level.

The Supreme Court did not focus on another regulatory tool available to remedy discrimination. The Commission may, in some cases be able to eliminate discrimination by regulating the rate design and rate form of public utilities.

While we do not intend to hold cases in abeyance, faced with Conway's interpretation of applicable precedent, we are free to proceed on a case-by-case approach, by rulemaking, or by a combination of the two approaches. We have decided that greater clarity, expedition and predictability can be obtained by resort to the rulemaking or policy statement approach for new cases.

Under the proposed Statement of Policy in the pre-suspension period, staff will have to use whatever data it has on hand or which is received from intervenors or the company.[1] If the staff suspects the existence of a Conway issue it may recommend a "protective" order of suspension to preserve the Commission's refund jurisdiction.

The proposed Statement of Policy would amend Part 2 of Title 18 CFR by adding § 2.15 as follows:

§ 2.15 Electric rate schedule filings and the requirement for filing of comparative rate information in certain situations.

(a) We believe that the responsibility to raise a price squeeze issue should lie with an affected person, but that the filing utility may be possessed of more complete information to aid the Commission in the discharge of its responsibilities. The procedure for raising the price squeeze issue should therefore be the following: any purchaser, state commission or other interested person may file allegations of a discriminatory relationship between wholesale and retail rates for comparable service. Upon receipt of well-pleaded allegations of discrimination (Indiana and Michigan Electric Co., Docket No. E–7740, Order of May 31, 1973), the Secretary shall request the filing public utility to file within 15 days a revenue comparison of the proposed wholesale rates with the retail rates for service comparable as to voltage level and size of load served that are alleged to cause the price squeeze. See Commonwealth Edison Co., 51 FPC 86.

(b) In the event that the retail rate produces less revenue than the proposed wholesale rate, the utility should furnish an explanation together with relevant data as to the reasons which justify the differentials. Such explanation should

[1] The proposed statement of policy directs public utilities to file comparative rate information within 15 days of the receipt of a well pleaded allegation of discrimination. Public utilities may wish to anticipate discrimination issues and file comparative rate information and analyses as part of their rate schedule filings. Such a comparison should also include reference to the essential terms and conditions of any special industrial contracts of comparable size and voltage level. In deriving the wholesale and retail revenues, both the wholesale and retail rates should be applied to the billing determinants of one or more of the wholesale customers as necessary to be representative of the wholesale class. The billing determinants to be utilized are those used to compute the Period I and Period II revenues for such wholesale customers.

include, but not be limited to, the discussion of the respective billing load patterns as contrasted to the load pattern utilized for cost allocations, in the filing.

(c) The comparison of retail and wholesale rates should also include a statement as to when each referenced retail rate was last increased and as to the anticipated date of the company's next referenced retail rate increase filing. It should also include reference to and copies of all relevant state public service commission retail rate orders.

Since the Court's Conway opinion requires comparison between wholesale and retail rates, this proceeding seems to be uniquely well suited to invocation of the cooperative Federal Power Commission state public service commission procedures authorized by Section 209(b) of the Federal Power Act. There has been an exchange of ideas between the Commission's staff and the Washington staff of the National Association of Regulatory Utility Commissioners (NARUC). By letter of June 28, 1976, Paul Rodgers, Administrative Director and General Counsel of NARUC has indicated that the following 5 State Commissioners have agreed to serve as a board of consultants to advise this Commission on the state public service commission view of the problems to be decided by the Commission in this proceeding.

The 5 state commissioners are:

'The Honorable William H. Bevis, Commissioner, Florida Public Service Commission; The Honorable Donald H. Brazier, Chairman, Washington Utilities and Transportation Commission; The Honorable Norman M. Clapp, Chairman, Wisconsin Public Service Commission; The Honorable Alfred E. Kahn, Chairman, New York Public Service Commission; and The Honorable John C. Pickett, Commissioner, Arkansas Public Service Commission.

It is anticipated that board of consultants may render a written advisory report to the Commission, as an outgrowth of their study of comparative rate problems in behalf of NARUC. If the board of consultants renders a written report to this Commission it will be placed in the Commission public files. As a result of their independent review and analysis of the problem, and the responses to this notice, the board of consultants may ultimately decide to endorse the concepts and techniques devised by this Commission and recommend that NARUC adopt a cognate view for state regulatory purposes. This approach was followed successfully, previously, when NARUC adopted a uniform system of accounts which closely paralleled the Commission's uniform system.

Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426, not later than 30 days from the date of this notice, data, views, comments or suggestions in writing concerning the proposed Statement of Policy. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Washington, D.C. 20426, during regular business hours. The Commission will consider all such written submittals before acting on the matters proposed herein. An original and 24 conformed copies should be filed with the Secretary of the Commission. The Secretary will serve 2 copies of each submittal on each of the five state public service Commissioners designated herein as the board of consultants. Submittals to the Commission should indicate the name, title, mailing address and telephone number of the person to whom communications concerning the proposals should be addressed and whether the person filing them requests a conference with the staff of the Federal Power Commission to discuss the proposals. The staff, in its discretion, may grant or deny requests for conferences.

The Secretary shall cause prompt publication of this notice in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. RM76-17]

ADVANCED APPROVAL OF RATE TREATMENT FOR RESEARCH AND DEVELOPMENT

Accounting-Rulemaking, Research and Development; Extension of Time

JULY 29, 1976.

On July 13, 1976, the Edison Electric Institute and Carolina Power and Light Company filed motions to extend the time for filing comments in the above-designated proceeding, by order issued June 17, 1976 (41 FR 25914, June 23, 1976). A motion for extension of time was also filed by Tennessee Gas Pipeline Company on July 21, 1976, and by Georgia Power Company on July 26, 1976. Gas Research Institute (GRI) has filed an objection to the granting of the extension stating that the promulgation of the proposed regulations is critical to the commencement of new R & D operations by GRI.

Upon consideration, notice is hereby given that the date for filing comments in this proceeding is extended from August 2, 1976 to and including September 1, 1976, for all interested persons.

KENNETH F. PLUMB,
Secretary.

FEDERAL TRADE COMMISSION

[16 CFR Part 704]

CALCULATION OF DEPRECIATION DEDUCTION FOR REFUNDS UNDER FULL WARRANTIES ON CONSUMER PRODUCTS

Cancellation of Public Hearings on Proposed Rule

On June 1, 1976, the Federal Trade Commission published in the FEDERAL REGISTER a notice of proceeding on the proposed rule on Calculation of Depreciation Deduction for Refunds under Full Warranties on Consumer Products. All interested persons were thereby invited to file written data, views or arguments concerning the proposed rule and given notice of the opportunity to orally present such data, views or arguments at a public hearing to be held commencing 9 a.m., e.d.t., August 9, 1976 in Room 332 of the Federal Trade Commission Building, Sixth and Pennsylvania Avenue, NW., Washington, D.C. Notice was also given that any person desiring to orally present his or her views at the public hearing should inform the Special Assistant Director for Rulemaking no later than August 2, 1976. In view of the lack of requests to make an oral presentation at the public hearing, the Federal Trade Commission hereby gives notice that the public hearing on the proposed rule has been cancelled.

Issued: August 4, 1976.

By direction of the Commission.

JAMES A. TOBIN,
Acting Secretary.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1910]

[Docket No. OSH-37]

EXPOSURE TO INORGANIC ARSENIC

Proposed Standard; Rescheduling of Informal Public Hearing; Extension of Time To Submit Comments and Notices of Appearance

The Occupational Safety and Health Administration (OSHA) announced on June 24, 1976 in the FEDERAL REGISTER (41 FR 26029, republished on June 25, 1976, 41 FR 26229) the scheduling of an informal public hearing on inorganic arsenic to commence on August 24, 1976. Interested parties, representing both industry and labor, have requested a brief extension of the hearing date to permit better preparation of complex data to be submitted. OSHA finds these requests and supporting rationale to have merit.

Accordingly, the informal public hearing on inorganic arsenic is rescheduled to commence at 9:30 a.m. on September 8, 1976 in the Departmental Auditorium, Conference Room B, Constitution Avenue between 12th and 14th Streets NW., Washington, D.C. On September 9 and 10, the hearing will be held in the Department of Commerce Auditorium, 14th and Constitution Avenue NW., Washington, D.C. Thereafter, the hearing will reconvene, if necessary, in Conference Room B of the Departmental Auditorium. The hearing will be limited to the issues of economic and inflationary impact and specific new evidence as set forth in the notices of June 24 and July 16, 1976 (41 FR 29425).

The FEDERAL REGISTER notice of June 24, 1976 set July 23, 1976 as the last date for filing comments and notices of intention

V 41 153 AUG 6 76 UMI

to appear in regard to the issues set forth therein. A FEDERAL REGISTER notice of July 16, 1976, set August 16, 1976 as the last date for filing comments and notices of appearance limited solely to the appropriateness of using sputum cytology as a medical surveillance technique for employees exposed to inorganic arsenic. Since the comments and notices of appearance relating to sputum cytology may be submitted until August 16 and the hearing date has now been rescheduled to September 8, 1976, the time for submitting all comments and notices of appearance is hereby extended to August 16, 1976. All procedures and requirements set forth in the June 24th notice remain in effect.

(Secs. 4(b), 6(b), 8, Occupational Safety and Health Act of 1970 (84 Stat. 1592, 1593, 1599; (29 U.S.C. 653(b), 655(b), 657), 29 CFR Part 1911, Secretary of Labor's Order No. 8-76 (41 FR 25054, June 22, 1976))

Signed at Washington, D.C., this 3d day of August 1976.

BERT M. CONCKLIN,
Deputy Assistant Secretary of Labor.

[FR Doc.76-22977 Filed 8-3-76;4:11 pm]

[29 CFR Part 1910]

[Docket No. OSH-11A]

OCCUPATIONAL NOISE EXPOSURE

Availability of Economic Impact Analysis Hearing; Extension of Comment Period and Rescheduling of Hearing

On Friday, June 18, 1976, a notice announcing the availability of an economic impact analysis (EIA) and scheduling an informal public hearing regarding the proposed standard on occupational noise exposure was published in the FEDERAL REGISTER (41 FR 24718). Interested persons were given until July 29, 1976, to submit written data, views and arguments with respect to the EIA and other specified issues, and to submit notices of intention to appear at the hearing.

OSHA has received numerous requests from interested persons in industry and labor for an extension of the deadline for submission of comments and notices of intention to appear at the hearing, as well as for a delay in the scheduled starting date of the hearing. In view of the complexity of the issues raised in the EIA and in the notice extending on June 18, OSHA is hereby extending the period for submission of written comments and notices of intention to appear at the hearing until August 20, 1976, and is rescheduling the informal public hearing on the economic impact analysis and other specified issues to Tuesday, September 21, 1976. The hearing will commence at 9:30 a.m. on that date in the Departmental Auditorium, Constitution Avenue between 12th and 14th Streets, NW., Washington, D.C. Should the hearing extend beyond the first week, the locations of subsequent sessions will be announced at the hearing, and will be available from the OSHA Committee Management Office, Docket No. OSH-11A, Room N-3633, U.S. Department of Labor, 3rd Street and Constitution Avenue, NW., Washington, DC 20210 (telephone: 202-523-8024).

Written data, views, and arguments must be submitted in quadruplicate to the Docket Officer, Docket No. OSH-11A, Occupational Safety and Health Administration, Room N-3620, U.S. Department of Labor, 3rd Street and Constitution Avenue, NW., Washington, D.C. 20210, and postmarked on or before August 20, 1976. Notices of intention to appear at the hearing, also postmarked on or before August 20, 1976, must be sent to Ms. Jeanne Werner, OSHA Committee Management Office, Docket No. OSH-11A, Room N-3633, U.S. Department of Labor, 3rd Street and Constitution Avenue, NW., Washington, D.C. 20210 (telephone: 202-523-8024). Detailed requirements for submission of comments and notices are contained in the notice of availability of the economic impact analysis and notice of hearing, published in the FEDERAL REGISTER on June 18, 1976 (41 FR 24718).

In addition, a draft report on noise control technology, which OSHA believes should be subjected to public scrutiny before the hearing begins, is currently being prepared. Under contract from OSHA, Bolt Beranek and Newman Inc. (BBN) is presently compiling a listing of noise sources in industry and an evaluation of the state of noise control technology with regard to these noise sources. This document is expected to be received in draft form by OSHA on August 24, and copies will be made available to the public at that time. (Orders for copies of the draft document may be sent to the Technical Data Center, Occupational Safety and Health Administration, Room N-3620, U.S. Department of Labor, 3rd Street and Constitution Avenue, NW., Washington, D.C. 20210.)

OSHA recognizes that the scheduled availability of this draft document will make it impossible for interested persons to comment on its contents within the established comment period. Therefore, written data, views, and arguments on the draft document on noise control technology will be received into the public record until September 21, 1976, the first day of the public hearing on the economic impact analysis. In addition, interested persons who have submitted a notice of intention to appear at the hearing by August 20 will be permitted to offer testimony at the hearing on the draft document on noise control technology as well as on the economic impact analysis. Persons wishing to offer such additional testimony must submit a written notice of their intention to do so, together with a detailed summary of the evidence to be adduced at the hearing with regard to the draft document, at least 48 hours before the hearing begins. This information is to be submitted to Ms. Jeanne Werner, OSHA Committee Management Office, Docket No. OSH-11A, Room N-3633, U.S. Department of Labor, 3rd Street and Constitution Avenue, NW., Washington, D.C. 20210.

OSHA invites interested persons to submit data, views, and arguments on the draft document on noise control technology. In the development of the final noise control technology document, BBN will evaluate and revise their draft document solely in light of the comments and testimony received in the public record of this proceeding.

(Sec. 6 Pub. L. 91-596, 84 Stat. 1593 (29 U.S.C. 655); 29 CFR Part 1911; Secretary of Labor's Order No. 8-76 (41 FR 25059))

Signed at Washington, D.C., this 3d day of August, 1976.

BERT M. CONCKLIN,
Deputy Assistant Secretary of Labor.

[29 CFR Part 1952]

HAWAII

Proposed Supplements to Approved Plan

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) under which the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter referred to as the Assistant Secretary) will review changes and progress in the development and implementation of State plans which have been approved in accordance with section 18(c) of the Act and Part 1902 of this chapter. On January 4, 1974, a notice was published in the FEDERAL REGISTER of the approval of the Hawaii plan and of the adoption of Subpart Y of Part 1952 describing the plan and containing the approval decision (39 FR 1010). On June 18, 1975, the State of Hawaii submitted supplements to its plan involving developmental changes and State-initiated changes (see Subparts B and E of 29 CFR Part 1953).

2. *Description of the supplements.* One developmental change involves the Administrative Rules of Procedure of the Hawaii Division of Occupational Safety and Health. The Rules of Procedure, which were promulgated in September, 1972, and revised in January, 1974, include the following:

(a) Chapter 101—General Provisions and Definitions;

(b) Chapter 102—Regulations on Inspections, Citations and Proposed Penalties, corresponding to the Federal regulations in 29 CFR Part 1903;

(c) Chapter 102—Regulations for Recording and Reporting Occupational Injuries and Illnesses, corresponding to the Federal regulations in 29 CFR Part 1904;

(d) Chapter 104—Rules of Practice for Variances, corresponding to the Federal regulations in 29 CFR Part 1905;

(e) Chapter 105—Regulations concerning Administration Witnesses and Documents in Private Litigation, corresponding to 29 CFR Part 1906; and

(f) Chapter 106—Regulations for Promulgating, Modifying, or Revoking Occupational Safety and Health Standards.

A second supplement concerns with completion of the Hawaii Management Information System. In accordance with the commitment in the State's developmental timetable (29 CFR 1952.313(c)), the system was fully computerized and in operation by December 31, 1975. The system produces internal Division of Occupational Safety and Health management reports as well as the quarterly reports required by the Federal Occupational Safety and Health Administration.

The State-initiated change concerns amendments to the Hawaii enabling legislation, chapter 396, Hawaii Revised Statutes. The amendments, Act 95, were passed by the Hawaii legislature in its 1976 session and were signed by the Governor and became effective on May 13, 1976.

The amendments provide for the following:

(a) The definition of "Director" is broadened to include the Director of Industrial Relations or his designee, and a definition of "Employee of the State" has been added (section 396-3, H.R.S., as amended);

(b) Criteria are set out against which the need for temporary emergency standards and variances may be measured (sections 396-4(a)(2) and 396-4(a)(3), H.R.S., as amended);

(c) An employee of the State acting within the scope of his employment shall not be liable in or made a party to any civil action growing out of the administration or enforcement of the Hawaii Occupational Safety and Health Law (section 396-4(b)(8), H.R.S., as amended);

(d) Clarification is provided that the Division of Occupational Safety and Health has authority to issue citations, standards, rules and regulations, and to issue penalties for violation of citations, orders and regulations (sections 396-4(d) and 396-10, H.R.S., as amended);

(e) Penalties are authorized for assaulting, resisting, or killing Division enforcement personnel in the course of their duties (section 396-10(c), H.R.S., as amended);

(f) A civil penalty of not more than $1000 may be assessed for a violation of the provision against discrimination against employees for exercising their rights under the Hawaii Occupational Safety and Health Law (section 396-10(h), H.R.S., as amended);

(g) If the Department of Industrial Relations arbitrarily and capriciously fails to seek an injunction restraining an imminent danger situation, any employee who may be injured by such failure may bring action for a writ of mandamus to compel the department to seek such an order (section 396-4(d)(4), H.R.S., as amended);

(h) The requirement for posting of citations is clarified (section 396-10(m), H.R.S., as amended); and

(i) Petitions for modification of abatement requirements may be filed after the twenty-day period for contesting the citation has expired (section 396-11, H.R.S., as amended).

3. *Location of the plan and its supplements for inspection and copying.* A copy of the proposed supplements along with the approved plan may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room N3608, 200 Constitution Avenue, NW., Washington, D.C. 20210; Office of the Regional Administrator, Occupational Safety and Health Administration, Room 9470, Federal Office Building, 450 Golden Gate Avenue, San Francisco, California 94210; and the Department of Labor and Industrial Relations, Room 308, 825 Mililani Street, Honolulu, Hawaii 96813.

4. *Public participation.* Interested persons are hereby given until September 7, 1976, to submit written data, views and arguments concerning whether the supplements should be approved. Such submissions are to be addressed to the Associate Assistant Secretary at his address as set forth above where they will be available for inspection and copying.

Any interested person may request an informal hearing concerning the proposed supplements by filing particularized written objections with respect thereto within the time allowed for comments specified above. If, in the opinion of the Assistant Secretary, substantial objections are filed, which warrant further public discussion, a formal or informal hearing on the subjects and issues involved may be held.

The Assistant Secretary shall consider all relevant comments, arguments and requests submitted in accordance with this notice and shall thereafter issue his decision as to approval or disapproval of the supplements, make appropriate amendments to Subpart Y of Part 1952 and initiate further appropriate proceedings if necessary.

(Secs. 8(g)(2), 18, Pub. L. 91-596, 84 Stat. 1600, 1608 (29 U.S.C. 657(g)(2), 667))

Signed at Washington, D.C., this 2d day of August 1976.

MORTON CORN,
Assistant Secretary of Labor.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

OFFICE OF THE FEDERAL REGISTER

EXPERIMENTAL PROGRAM FOR SCHEDULING AGENCY DOCUMENTS

Continuation, Expansion, and Request for Comments

The Office of the Federal Register (OFR) announces and invites comments on:

Results of the voluntary two-day-a-week publication schedule undertaken by certain agencies from February 6, 1976, to August 6, 1976;

Continuation of the two-day-a-week schedule for interested agencies; and

Possible expansion of the program to include other agencies and request for specific information on the impact of an expanded system.

COMMENTS BY: September 20, 1976.

ADDRESSED TO: Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, DC 20408.

FOR FURTHER INFORMATION CALL: 202-523-5227.

PRIOR ACTION BY OFR

On June 20, 1975 (40 FR 26046), the OFR published an advance notice of proposed rulemaking requesting comments on a new system for scheduling agency documents. Under this new system, each Federal agency would be assigned a specific day of the week for publishing its documents in the FEDERAL REGISTER.

OFR envisioned that this system might reduce the number of FEDERAL REGISTER issues that users interested in the documents of a limited number of agencies would need to examine and file. OFR also mentioned the possibility of limited subscriptions geared to day-of-the-week scheduling.

As a result of the many favorable comments received on this proposal, OFR issued a notice on February 6, 1976 (41 FR 5453) announcing an experimental scheduling program. The participating agencies and their assigned publication days were scheduled as follows:

AGENCY	PUBLICATION DAYS
Agriculture Department:	
—Agricultural Stabilization and Conservation Service	Tuesday/Friday
—Animal and Plant Health Inspection Service	Tuesday/Friday
—Food and Nutrition Service	Tuesday/Friday
—Rural Electrification Administration	Tuesday/Friday
Civil Service Commission	Tuesday/Friday
Labor Department	Tuesday/Friday
Nuclear Regulatory Commission	Monday/Thursday
Transportation Department:	
—Coast Guard	Monday/Thursday
—Federal Aviation Administration	Monday/Thursday
—National Highway Traffic Safety Administration	Monday/Thursday
—Office of Hazardous Materials [1]	Monday/Thursday
—Office of Pipeline Safety Operations [1]	Monday/Thursday

[1] Note: These agencies were added to the experimental program after February 6, 1976.

The trial period for this experimental scheduling system began on February 6, 1976, and ended on August 6, 1976.

COMMENTS ON EXPERIMENTAL PROGRAM

A limited number of comments have been received since the experimental program began. Of these comments, most favored continuing and expanding the day-of-the-week scheduling program.

Persons who commented favorably said that the assigned scheduling program has made it easier for them to review the FEDERAL REGISTER for items of special interest and has saved reviewing time. Most of those who commented favorably liked the basic idea of being able to limit their review of certain agencies' documents to specified days of the week, and requested that the system be expanded. Many recommended that additional agencies be grouped together on the basis of related subject matter. Some commenters expressed potential interest in limited subscriptions if an expanded system meeting their needs should be implemented.

Several of the favorable comments were submitted by officials of Federal agencies participating in the experimental program. Although some Federal officials had earlier expressed concern over possible difficulties involving statutory deadlines and the scheduling of meetings, these commenters indicated that the system has been of benefit to the agencies involved.

Those commenters who opposed continuing the program stated that in its experimental state, it did not include enough agencies to facilitate their review of the FEDERAL REGISTER. They opposed expanding the program because they felt that no potential agency groupings would be likely to meet their own reviewing needs on a once or twice a week basis.

Two of these commenters also expressed concern for timeliness. They felt that assigning agencies to a publication schedule would lengthen the time between agency action and public notification. One was concerned that the time for commenting on agency actions might be shortened.

CONTINUATION OF DAY-OF-THE-WEEK EXPERIMENTAL PROGRAM

On the basis of the comments received, OFR believes that the experimental day-of-the-week scheduling has been of real value in helping some readers keep abreast of certain agency actions. OFR also believes that the system has helped some of the participating agencies to better organize their own publication and review schedules. OFR has found that these agencies have not experienced serious problems in conforming to their assigned schedules. This observation is based not only on the comments received, but also on the fact that during the trial period only a relatively small number of documents submitted by these participating agencies required immediate emergency publication with subsequent republication on the assigned day.

OFR does not feel that comment period deadlines have been generally affected by the day-of-the-week publication schedule. In most cases, comment period deadlines are based on the actual publication dates. The issuing agency specifies that the comment period shall end a certain number of days after publication. The actual date itself is then computed by OFR in accordance with 1 CFR 18.17 and inserted in the text.

After considering all comments received throughout the history of this project, especially those received during the trial period just ending, and after weighing the difficulties involved in implementing the experimental system, OFR has decided to continue the present experimental day-of-the-week program for those interested agencies who are already participating. We invite other interested agencies to consider taking part in this continued program.

EXPANSION OF DAY-OF-THE-WEEK PROGRAM

Consideration of all comments and an evaluation of the experimental program have led OFR to conclude that expansion of the day-of-the-week program to include most Federal agencies would benefit a large number of FEDERAL REGISTER users only if the following conditions were met:

1. Readers could subscribe to issues for particular days of the week that contained documents of agencies they were interested in.

2. Adequate subject groupings of agencies could be developed for each day.

3. A separate weekly finding aid could be published to provide readers with information in the issues they didn't subscribe to.

In light of these findings, OFR will continue the voluntary experimental program for agencies interested in participating. At the same time, OFR will also explore the possibility of making available subscriptions for issues on specific days of the week and a weekly finding aids publication. To resolve the problem of useful agency groupings, OFR will study those suggestions already received and will attempt to develop and offer for public comment in the near future a sample list of related subject area groupings of agencies.

REQUEST FOR FURTHER INFORMATION

OFR invites all interested persons to further assist in developing this plan by submitting information on the following questions:

1. Would a day-of-the-week scheduling system, that includes many more agencies than the 12 that have participated in the initial trial of the day-of-the-week concept, help you to monitor the FEDERAL REGISTER for documents of interest to you—even if you should find that due to the agency groupings, you must review each day's issue?

2. Can you name the agencies whose inclusion in the day-of-the-week schedule would be helpful to you?

3. One commenter complained that because they review all documents from a particular agency and advise their clients on what action to take, day-of-the-week scheduling would increase their workload and make it impossible for them to meet short agency deadlines. As the commenter stated, "If all the notices were issued on the same day, we could not handle all of them on that day, and the quality of our work for our clients would necessarily suffer." Would you have similar workload difficulties if day-of-the-week included most Federal agencies?

All comments received will be available for public inspection between the hours of 8:45 a.m. and 5:15 p.m. at:

Office of the Federal Register, 1100 L Street N.W.—Room 8401, Washington, D.C.

FRED J. EMERY,
Director of the Federal Register.

AUGUST 4, 1976.

DEPARTMENT OF LABOR

Employment and Training Administration

EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS UNDER THE RURAL DEVELOPMENT ACT

Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 USC 1924(b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75, published January 29, 1975 (40 FR 4393). In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.

2. Employment trends in the same industry in the local area.

3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.

4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).

5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding these applications are invited to submit such information in writing within two weeks of publication of this notice to: Deputy Assistant Secretary for Employment and Training, 601 D St., NW, Washington, D.C. 20213.

Signed at Washington, D.C., this 2nd day of August, 1976.

BEN BURDETSKY,
Deputy Assistant Secretary for Employment and Training.

Applications received during the week ending July 30, 1976

Name of applicant	Location of enterprise	Principal product or activity
Benson Welding & Fabricating, Inc	Mineral Wells, W. Va.	Manufacture dump truck bodies.
Watsontown Brick Co	Watsontown, Pa.	Manufacture hard shale face brick and acid resistant chimney block.
Chromalox Division of Emerson Electric (tenant of city of Vernon).	Vernon, Ala.	Manufacture of electric heating element products.
Freeman Electric Gin Co	Greenwood, Miss.	Ginning cotton.
Superior Health Haven	Munising, Mich.	Nursing care.
Prairie Agri-Enterprises, Inc	Postville, Iowa	Retail feed store outlet handling bulk and bag feeds.
Osage Products Co	Eldon, Mo.	Manufacture of cedar closet linings, cedar shavings, kitchen cabinets, and related products.

Proposed Sanctions

The following Notice of Intent to Debar and Cancel Uniroyal, Inc., from all further Federal government contract activity pursuant to Sections 209(a) (5) and (6) of Executive Order 11246, as amended, and the Secretary of Labor's regulations issued pursuant thereto, is published in accordance with 41 Code of Federal Regulations 60–1.26(b) and 41 Code of Federal Regulations 60–30.6 which require that notice of such proposed sanctions must be published in the FEDERAL REGISTER.

Signed at Washington, D.C., this the 29th day of July 1976.

LAWRENCE Z. LORBER,
Deputy Assistant Secretary,
Director, OFCCP.
July 28, 1976.

Mr. DAVID BERETTA,
President and Chairman of the Board,
Uniroyal, Incorporated,
Oxford Management & Research Center,
Middleburg, Connecticut 06749.

Dear Mr. BERETTA: Uniroyal, Incorporated (hereinafter Uniroyal) is hereby notified pursuant to Title 41 Code of Federal Regulations Part 60–1 and Part 60–30, that I, as the Director of the Office of Federal Contract Compliance Programs, propose to request that the Secretary of Labor cause the termination of any and all existing Government contracts and subcontracts between Uniroyal and any agency of the United States and to declare Uniroyal ineligible for further Government contracts and subcontracts pursuant to Section 209(a) (5) and (6) of Executive Order 11246 (30 F.R. 12319), as amended by Executive Order 11375 (32 F.R. 14303) (hereinafter Executed Order 11246 or the Executive Order) until such time as Uniroyal's Mishawaka, Indiana facility (hereinafter the Mishawaka facility) is brought into full compliance with Executive Order 11246 and the Secretary of Labor's regulations issued pursuant thereto which are published at Title 41, Code of Federal Regulations, Chapter 60 (hereinafter 41 CFR 60–1.1, et seq.).

Jurisdiction for the hearing, which will be held by the Chief Hearing Examiner of the United States Department of Labor (i.e., the Chief Administrative Law Judge) or his designee, is provided by Sections 208 (a) and (b) of Executive Order 11246 and 41 CFR 60–1.26(b) and 41 CFR Part 60–30 of the Secretary of Labor's regulations issued pursuant thereto.

Uniroyal is a Government contractor within the meaning of Executive Order 11246 and is now, and at all material times has been, subject to the contractual obligations imposed upon Government contractors and subcontractors by Executive Order 11246 and the Executive Orders which preceded it, including Executive Order 10925, and the implementing regulations issued thereunder. Cancellation and termination of Uniroyal's Government contracts and subcontracts and debarment from further contracts and subcontracts will apply to all of Uniroyal's Government contracts and subcontracts and is not limited to Uniroyal's Mishawaka facility.

Under the provisions of 41 CFR 60–2.2(c) (1) and 41 CFR 60–1.26(b), Uniroyal has fourteen (14) days from receipt of this Notice in which to file an answer and to request a hearing respecting this Office's proposed actions. **Such a hearing request should be directed to the Chief Administrative Law Judge, United States Department of Labor, 1111 20th Street NW., Suite 700, Washington, D.C. 20036. Service should also be made upon the Department of Labor by mailing a copy to James D. Henry, Associate Solicitor, United States Department of Labor, Washington, D.C. 20210.**

If a request for a hearing is not made within the fourteen (14) day period, Uniroyal will be declared ineligible for future Government contracts and subcontracts, and its current contracts and subcontracts will be terminated for default.

The following is a general summation of the events which necessitate this Notice.

On September 6, 1972, the United States Department of the Interior conducted an on-site review at Uniroyal's Mishawaka facility in order to determine the facility's compliance with Executive Order 11246. The review revealed that the Mishawaka facility was not in compliance with Executive Order 11246 or the Secretary of Labor's regulations issued pursuant thereto. Among the deficiencies found were the following:

1. the existence of an "affected class" of females (as defined by 41 CFR 60–2.1) who had been discriminated against in employment by Uniroyal;

2. Uniroyal's Affirmative Action Plan failed to meet many of the requirements of 41 CFR Part 60–2, including, inter alia, the following:

a. the Plan failed to establish appropriate goals and timetables for minority group persons and females for "job classifications" (i.e., for specific jobs as opposed to EEO–1 classifications) in accordance with 41 CFR 60–2.12.

b. the Plan failed to identify problem areas by organizational units and job classifications (e.g., underutilization of minorities and females in many job classifications, a deficiency in the number of minorities and females promoted, and sex segregation in many departments and jobs) as required by 41 CFR 60–2.23.

c. the Plan failed to assure that promotions would occur without regard to race or sex as required by 41 CFR 60–2.24(f).

d. the Plan failed to correct deficiencies caused by Uniroyal's past failure to provide training to minorities and females as required by 41 CFR 60–2.23(b) and 41 CFR 60–2.22(b)(7)(iii).

The deficiencies which were found in the 1972 compliance review were not corrected by Uniroyal.

During the week of January 12–16, 1976, the Department of the Interior conducted another review of Uniroyal's compliance, at its Mishawaka facility, with the Executive Order and the Secretary of Labor's implementing regulations.

On February 26, 1976, the Department of the Interior issued a Notice to Show Cause to Uniroyal regarding its Mishawaka facility in which Uniroyal was given 30 days to "Show Cause" why enforcement procedures under Section 209(b) of Executive Order 11246 should not be initiated against it. The Show Cause Notice listed deficiencies found at the Mishawaka facility during the January, 1976, compliance review. Among these deficiencies were the following:

1. That Uniroyal has violated Section 202 (1) of the Executive Order which is a part of Uniroyal's Government contracts.

2. That Uniroyal has violated the provisions of 41 CFR Chapter 60 which require it to remedy discrimination against its production and white collar female employees and applicants for employment.

3. That Uniroyal has in the past assigned and restricted females to lower level jobs than those held by males of comparable ability and seniority.

4. That the Department of the Interior informed Uniroyal in a June 6, 1973, letter than an "Affected Class" of female employees, as defined by 41 CFR 60–2.1, existed at the Mishawaka facility, and that the 1976 compliance review indicated that the "Affected Class" is still in existence.

5. That Uniroyal's present employment practices and its Affirmative Action Plan do not provide adequate relief for its discrimination in employment against females. Such relief includes, inter alia, job assignments, bidding, departmental transfers, promotions, layoffs, and recalls. In addition, Uniroyal has not provided monetary relief (i.e., back pay) to females who suffer monetary effects of Uniroyal's discrimination in employment against them.

6. That Uniroyal has discriminated in employment against minority group persons in violation of the Executive Order and that it has failed to provide appropriate relief under Executive Order 11246 and the regulations issued pursuant thereto.

In order to assist Uniroyal in achieving compliance with the Executive Order at its Mishawaka facility, representatives of the Departments of Interior and Labor met with Uniroyal representatives in an attempt to resolve the matter as required by Section 209(b) of Executive Order 11246. In a June 17, 1976 meeting, Uniroyal was presented with a joint back pay proposal from the Government and from the plaintiffs in *Chrapliwy, et al. v. Uniroyal, et al.*, C.A. No. 72 S 243 (N.D., Ind.) which involved female production and maintenance workers at the Mishawaka facility. In a July 15, 1976 meeting, Uniroyal representatives responded to the Government's portion of the back pay proposal by stating that Uniroyal would not negotiate with the Government on any back pay recovery for Affected Class members as defined by 41 CFR 60–2.1 of the Secretary of Labor's regulations implementing the Executive Order. On behalf of the Government, I informed Uniroyal that its refusal necessitated the issuance of a Notice of Intent to Debar and Cancel Uniroyal from Government contract activity. I subsequently assumed formal jurisdiction over the Mishawaka facility pursuant to 41 CFR 60–1.25.

Please be advised that even if Uniroyal requests a hearing, that Federal contracting agencies will continue to determine Uniroyal's eligibility for any new or additional Government contracts as provided by 41 CFR 60–2.2(d). Please be further advised that if a hearing is held, this Department will seek, in addition to the relief requested in the February 26, 1976 Department of the Interior Show Cause Notice, such other additional relief as justice may require.

I would also like to advise Uniroyal that this Department continues to be willing to attempt to reach a negotiated settlement on any of the items listed in the June 6, 1973 Department of the Interior letter to Uniroyal, and in that Department's February 26, 1976 Show Cause Notice. As stated at our July 15, 1976 meeting, arrangements for such negotiations may be made with Mr. Louis G. Ferrand, Jr., Acting Counsel for Civil Rights, Office of the Solicitor, United States Department of Labor, Washington, D.C.

Sincerely,

LAWRENCE Z. LORBER,
Deputy Assistant Secretary,
Director, OFCCP.

Occupational Safety and Health Administration

ARIZONA STATE STANDARDS

Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health (hereinafter called the Regional Administrator) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. In October 29, 1974, notice was published in the FEDERAL REGISTER (39 FR 39037) of the approval of the Arizona plan and the adoption of Subpart CC to Part 1952 containing the decision.

The Arizona plan provides for the adoption of Federal standards as State standards after public hearing. Section 1952.353 of Subpart CC sets forth the State's schedule for the adoption of Federal standards. By letter dated May 14, 1975, from Donald G. Wiseman, Director, Division of Occupational Safety and Health, Arizona Industrial Commission to John Landis of the Occupational Safety and Health Administration, and incorporated as part of the plan, the State submitted State standards comparable to 29 CFR Part 1910, as published in the FEDERAL REGISTER (39 FR 23502) dated June 27, 1974, and all amendments thereto through July 28, 1975, and 29 CFR Part 1926, as published in the FEDERAL REGISTER (39 FR 22801) and all amendments thereto through July 2, 1974. These standards, which are contained in Arizona Occupational Safety & Health Standards and Arizona Construction Safety and Health Regulations, were promulgated after hearings held on January 16, 1975, by resolution adopted by the Industrial Commission of Arizona, Division of Occupational Safety and Health on February 28, 1975, pursuant to The Arizona Occupational Safety and Health Act of 1972.

2. *Decision.* Having reviewed the State submission in comparison with the Federal standards it has been determined that the State standards are identical to the Federal standards with the exception of the maritime standards of 29 CFR 1910.13 through 1910.16 and accordingly are approved.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator-OSHA 450 Golden Gate Avenue, San Francisco, California, 94102; Director, Division of Occupational Safety and Health, 1624 West Adams, Phoenix, Arizona, 85007; and the Technical Data Center, Room N3620, 200 Constitution Avenue, Washington, D.C. 20210.

4. *Public participation.* Under 29 CFR 1953.2(c), the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Arizona State plan as a proposed change and making the Regional Administrator-OSHA's approval effective upon publication for the following reasons:

1. The standards are identical to the Federal standards which were promulgated in accordance with Federal law including meeting requirements for public participation.

2. The standards were adopted in accordance with the procedural requirements of State law and further participation would be unnecessary.

This decision is effective August 6, 1976.

(Sec. 18, Pub. L. 91–596, 84 Stat. 1608 (29 U.S.C. 667)).

Signed at San Francisco, Calif., this 7th of May 1976.

GABRIEL J. GILLOTTI,
Regional Administrator, Occupational Safety and Health Administration.

NATIONAL ADVISORY COMMITTEE ON OCCUPATIONAL SAFETY AND HEALTH

Meeting

Notice is hereby given of a meeting of the National Advisory Committee on Occupational Safety and Health (NACOSH), established under section 7(a) of the Occupational Safety and Health Act of 1970. The purpose of this Committee is to advise the Secretary of Labor and the Secretary of Health, Education, and Welfare on matters relating to the administration of the Act.

The meeting will be held September 9 and 10, 1976, starting at 9:00 a.m. in the South Ballroom of the Fresno Hilton, 1055 Van Ness, Fresno, California 93721. The public is invited to attend.

Agenda items will include an update of OSHA and NIOSH activities; information on OSHA training; and a status report on the National Emphasis Program, a special compliance effort aimed at reducing job-related deaths, injuries, and illnesses at foundries. In addition, the Committee will be informed about activities of its Subgroups on Budget, Compliance, Standards, and Policy and Issues. The Compliance Subgroup will present recommendations to NACOSH on the definition of repeated violations.

For additional information on these items, please contact:

Nancy L. Hucke, National Advisory Committee on Occupational Safety and Health, Room N–3635, Department of Labor—OSHA, Third Street and Constitution Avenue, NW., Washington, D.C. 20210, Phone: (202) 523–8024.

Any written data or views concerning any agenda item which are received by the Committee Management Office before the meeting, preferably with 20 copies, will be presented to the Committee and included in the official record of the meeting.

Anyone wishing to request an oral presentation should notify the Committee Management Office before the meeting. The request should state the amount of time desired, the capacity in which the person will appear, and a brief outline of the content of the presentation. Oral presentations will be scheduled at the discretion of the Committee Chairman, depending on the extent to which time permits.

Official records of the meeting will be available for public inspection at the above address.

Signed at Washington, D.C., this 30th day of July 1976.

J. GOODELL,
Executive Secretary.

AMERICAN MOTORS CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On July 27, 1976, the Department of Labor received a petition dated July 19, 1976, which was filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the United Automobile, Aerospace & Agricultural Implement Workers of America on behalf of the workers and former workers of Kenosha Manufacturing Facilities, Kenosha, Wisconsin, of American Motors Corp., Detroit, Mich. (TA–W–999).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with passenger cars and parts produced by American Motors Corporation or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of

V 41 153 AUG 6 76 UMI

the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 16, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 16, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd Street and Constitution Avenue NW., Washington, D.C. 20210.

Signed at Washington, D.C., 27th day of July 1976.

DOMINIC SORRENTINO,
Acting Director, Office of Tradc Adjustment Assistance.

[TA-W-998]

AMERICAN MOTORS CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On July 27, 1976, the Department of Labor received a petition dated July 19, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Automobile, Aerospace & Agricultural Implement Workers of America on behalf of the workers and former workers of National Parts Distribution Center, Milwaukee, Wisconsin of American Motors, Detroit, Mich. (TA-W-998).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(d) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with the distributing of automobile body parts to the American Motors body plants provided by American Motors Corporation or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 16, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 16, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd Street and Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 27th day of July 1976.

[TA-W-860]

AVC MODULUS CORP.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-860; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on April 30, 1976 in response to a worker petition received on that date which was filed by the United Steelworkers of America on behalf of workers producing industrial ferrous fasteners at AVC Modulus Corporation, Gary Indiana.

The notice of investigation was published in the FEDERAL REGISTER on May 21, 1976 (41 FR 20956). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of AVC Modulus Corporation, Screw and Bolt Division, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or appropriate subdivision thereof, have become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation revealed that although the first two criteria have been met, the third and fourth criteria have not been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employment of production workers at Screw and Bolt Division of AVC Modulus Corporation, Gary, Indiana declined 7 percent in 1975 from 1974 and declined 16 percent in the first quarter of 1976 compared to the first quarter of 1975. Salaried worker employment remained the same in 1975 from 1974 and declined 12 percent in the first quarter of 1976 from the first quarter of 1975.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Total sales by the Gary, Indiana plant of AVC Modulus declined three percent in 1974 from 1973, declined 26 percent in 1975 from 1974, and decreased 19 percent in the first quarter of 1976 compared to the first quarter of 1975.

Production of special ferrous fasteners comprised approximately 85 percent of total output by the Gary, Indiana plant in recent years. Total production remained constant in 1974 from 1973, declined 19 percent in 1975 from 1974 and declined 20 percent in the first quarter of 1976 compared to the first quarter in 1975.

INCREASED IMPORTS

Imports of special ferrous fasteners are negligible and do not account for a significant share of domestic consumption.

CONTRIBUTED IMPORTANTLY

The evidence developed in the Department's investigation reveals that separations of workers from AVC Modulus Corporation, Gary, Indiana were due to a decline in sales of special ferrous fasteners by the firm. Customers of special ferrous fasteners produced by the Gary, Indiana plant indicated that purchases from that firm were reduced due to general economic conditions, depletion of exces inventories and switches to other domestic suppliers. Customers of standard products cited reasons other than import competition for decreasing purchases from AVC Modulus Corporation, Screw and Bolt Division, Gary, Indiana.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with industrial ferrous fasteners produced by AVC Modulus Corporation, Screw and Bolt Division, Gary, Indiana did not contribute importantly to the total or partial separations of workers of that firm.

Signed at Washington, D.C., this 27th day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[TA-W-908]

B. W. FREEMAN HEEL COMPANY, INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-908: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on May 27, 1976 in response to a worker petition received on May 27, 1976 which was filed by the United Shoe Workers of America on behalf of workers and former workers producing heel and sole combinations made from urethane at the B. W. Freeman Heel Company, Inc., Owensville, Missouri.

The notice of investigation was published in the FEDERAL REGISTER on June 18, 1976 (41 FR 24798). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the B. W. Freeman Heel Company, Inc., the U.S. Department of Commerce, the International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important that any other cause.

FINDINGS OF THE INVESTIGATION

Without regard to whether any of the other criteria have been met, criterion (3) has not have been met. The evidence developed in the Department's investigation reveals that the B. W. Freeman Heel Company produces heel and sole combinations exclusively. The B. W. Freeman Heel Company produces for other companies which are not corporately related to the B. W. Freeman Heel Company.

A report published by the International Trade Commission reveals that imports of heels which include heel and sole combinations represent less than one-half of one percent of the total number of heels consumed as components of footwear. Imports of shoes which incorporate heel and sole combinations of the same origin are not like or directly competitive with heel and sole combinations produced by the B. W. Freeman Heel Company.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that imports of heel and sole combinations have not contributed importantly to the total or partial separation of workers at the B. W. Freeman Heel Company, Inc., Owensville, Missouri as required in Section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 27th day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[TA-W-966]

CARTERET PRODUCTS CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On July 27, 1976, the Department of Labor received a petition dated July 12, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America on behalf of the workers and former workers of Carteret Products Co., Carteret, New Jersey (TA-W-996).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's dress shirts produced by Carteret Products Company or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of

V 41 153 AUG 6 76 UMI

the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 16, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 16, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd Street and Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 27th day of July 1976.

DOMINIC SORRENTINO,
Acting Director, Office of Trade Adjustment Assistance.

C.C.C. CLOTHES

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On July 20, 1976, the Department of Labor received a petition dated June 6, 1976, which was filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the on behalf of the workers and former workers of C.C.C. Clothes, New York, New York (TA-W-995).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's clothes produced by C.C.C. Clothes or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 16, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 16, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd Street and Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 20th day of July 1976.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

[FR Doc.76-22776 Filed 8-5-76;8:45 am]

[TA-W-619]

CROWN CLOTHING CO.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the result of TA-W-619: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 20, 1976 in response to a worker petition received on February 20, 1976 which was filed by the Amalgamated Clothing Workers Union on behalf of workers and former workers producing men's and boys' tailored clothing at the Crown Clothing Company, Vineland, New Jersey.

The notice of investigation was published in the FEDERAL REGISTER on March 12, 1976 (41 FR 10637). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Crown Clothing Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with articles produced by such workers' firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation reveals that all four criteria have been met for men's tailored dress coats and sportcoats.

SIGNIFICENT TOTAL OR PARTIAL SEPARATIONS

Production employment at Crown Clothing declined by 12.2 percent from 1974 to 1975. Employment declined in every quarter of 1975 compared to the same quarter of the previous year. Employment increased in the first quarter of 1976 from the same quarter previous year.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production of suit coats and sportcoats in quantity decreased by 20.2 percent in the first six months of 1975 from the same period of 1974. Production of dress coats and sportcoats ceased in June, 1975.

Production of women's jackets commenced in the third quarter of 1975. Production of women's jackets increased in quantity from the third quarter of 1975 to the fourth quarter of 1975, and from the fourth quarter of 1975 to the first quarter of 1976.

INCREASED IMPORTS

Imports of men's and boys' dress coats and sportcoats increased absolutely and relatively in every year from 1971 to 1973. Imports increased relatively from 1973 to 1974 and then increased absolutely and relatively from 1974 to 1975. The ratios of imports to domestic production and consumption increased from 21.2 per cent and 17.5 percent, respectively, in 1974 to 28.2 percent and 22.0 percent, respectively, in 1975.

CONTRIBUTED IMPORTANTLY

The Department's investigation revealed that the manufacturer for whom Crown Clothing performed most of its contract work reduced orders for men's sportcoats in 1975 due to competition from lower priced imports. Retail customers of Crown's largest manufacturer reduced purchases of sportcoats from this manufacturer and increased purchases of lower priced imports. Crown Clothing switched production to women's jackets in the second half of 1975.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude

that increases of imports like or directly competitive with men's and boys' dress coats and sportcoats produced at the Vineland, New Jersey plant of Crown Clothing Company contributed importantly to the total or partial separations of the workers at that plant. In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of men's and boys' suit coats and sportcoats at the Vineland, New Jersey plant of Crown Clothing Company who became totally or partially separated from employment on or after February 3, 1975 and before December 31, 1975 be certified as eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974. All employees who became totally or partially separated from employment on or after December 31, 1975 are denied certification.

Signed at Washington, D.C. this 23rd day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[FR Doc.76-22777 Filed 8-5-76;8:45 am]

[TA-W-701]

ESSEX MANUFACTURING COMPANY, INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-701: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 19, 1976 in response to a worker petition received on March 19, 1976 which was filed by the Amalgamated Clothing workers of America on behalf of workers and former workers producing men's sports jackets and women's sports jackets at the Fall River, Massachusetts plant of the Essex Manufacturing Company.

The notice of investigation was published in the Federal Register on April 2, 1976 (41 FR 14229). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Essex Manufacturing Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although the first three criteria have been met, the fourth criterion has not been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Average annual employment of production workers declined 3.0 percent from 1973 to 1974 and declined 20.8 percent from 1974 to 1975. Average weekly hours worked declined 7 percent from 1974 to 1975.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales of men's sports jackets declined by 5.9 percent in quantity from 1973 to 1974. Sales in the first quarter of 1975 increased 3.8 percent compared to the first quarter of 1974. Essex switched from the production of men's sports jackets to women's sports jackets during the second quarter of 1975. Sales of women's jackets declined 5 percent from the second quarter of 1975 to the third quarter of 1975 and then increased 39.8 percent from the third to the fourth quarter of 1975. In the first quarter of 1976, sales fell 11.9 percent from the first quarter of 1975.

INCREASED IMPORTS

Imports of men's and boys' tailored dress coats and sport coats increased both absolutely and relatively in each year from 1971 to 1973 then increased relatively from 1973 to 1974. The ratio of imports to domestic production and consumption increased from 19.2 percent and 16.2 percent, respectively, in 1973 to 21.2 percent and 17.5 percent, respectively, in 1974.

Imports of women's sports jackets decreased relatively in each year from 1971 to 1975. The ratio of imports to domestic production and consumption decreased from 26.4 percent and 20.9 percent, respectively, in 1974 to 21.3 percent and 17.6 percent, respectively, in 1975.

CONTRIBUTED IMPORTANTLY

The Department's investigation revealed that the sole manufacturer for which Essex produced men's sports jackets decided to phase out its sportswear line. Customers of this manufacturer did not switch to purchases of imported men's sports jackets. Customers who reduced purchases did so because of the styling change toward leisurewear which captured much of the market for sports jackets. Customers further indicated that this leisurewear was not imported.

The investigation also revealed that customers of the manufacturers for whom Essex produced women's jackets did not switch to imported jackets.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's sports jackets and ladies' sports jackets produced by the Fall River, Massachusetts plant of the Essex Manufacturing Company, Inc., did not contribute importantly to the total or partial separations of the workers of the plant.

Signed at Washington, D.C. this 27th day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[FR Doc.76-22778 Filed 8-5-76;8:45 am]

[TA-W-871]

FISHER CORP.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-871: investigation regarding certification of eligibility to apply for adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on April 30, 1976 in response to a worker petition received on that date which was filed by three workers on behalf of workers and former workers on the Engineering Department of the Fisher Corporation, Long Island City, New York and the Milroy, Pennsylvania plant of the Fisher Corporation, Long Island City, New York.

The Notice of Investigation was published in the FEDERAL REGISTER (41 FR 20947) on May 21, 1976. No public hearing was requested and none was held.

The information upon which was determination was made was obtained from officials of the Fisher Corporation.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

V 41 153 AUG 6 76 UMI

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion 2 has not been met for the Milroy, Pennsylvania plant and the Long Island City facility and criterion 4 has not been met for the Long Island City engineering department.

The Fisher Corporation currently operates two domestic facilities. The original New York facility in Long Island City is the corporate headquarters and research and development center. The Long Island City facility provides support services which not only extend to Fisher's other domestic facility but also to the Hong Kong facility and to other independent foreign suppliers of the Fisher Corporation.

Fisher's only domestic manufacturing facility is located in Milroy, Pennsylvania. The plant converted to speaker system production exclusively by the end of 1973. Since then the Fisher Corporation has not imported any speaker systems nor has it domestically produced other electronic components.

Production of speaker systems at the Milroy, Pennsylvania plant of Fisher Corporation increased 107.3 percent in quantity in 1974 compared to 1973 and 40.3 percent in 1975 compared to 1974. Sales at the Milroy plant increased 51.3 percent in 1974 compared to 1973 and 4.7 percent in 1975 compared to 1974.

Those workers classified as engineers at the Long Island City facility of the Fisher Corporation, provided a service both for Fisher's electronic components produced abroad since 1973 and for Fisher's speaker systems produced only in the U.S. The engineering staff at the Long Island City facility has been reduced resulting from a transfer of corporate headquarters to California and the transfer of some engineering functions to Japan for electronic components produced only in Japan.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that sales or production, or both, of the Fisher Corporation including the Milroy, Pennsylvania plant and the Long Island City, N.Y. facility have not decreased absolutely as required in Section 222 of the Trade Act, and that increases in imports of electronic components have not contributed importantly to the total or partial separations of the Engineering staff of the Long Island City, N.Y. facility of the Fisher Corporation as required in Section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 27th day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[FR Doc.76-22779 Filed 8-5-76;8:45 am]

[TA-W-876]

INDUSTRIAL MICA CO.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-876: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on May 19, 1976 in response to a worker petition received on that date which was filed by the International Union of Electrical Radio and Machine Workers on behalf of workers and former workers producing mica products at Industrial Mica Company, Englewood, New Jersey.

The notice of investigation was published in the Federal Register on June 15, 1976 (41 FR 24234). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Industrial Mica Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firms or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion three (3) has not been met.

The evidence developed in the Department's investigation reveals that imports of punched and stamped mica declined both absolutely and relative to domestic production and consumption in 1975 compared to 1974. The ratio of imports to domestic production declined from 28.2 percent in 1974 to 9.4 percent in 1975. The 1975 ratio was at the lowest level for the period 1971 through 1975.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that articles like or directly competitive with those produced by the Industrial Mica Company are not being imported in increased quantities, either actual or relative to domestic production as required in Section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 26th day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[FR Doc.76-22780 Filed 8-5-76;8:45 am]

[TA-W-683]

JAY GARMENT CO.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-683: investigation regarding certification of eligibility to apply for adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 19, 1976 in response to a worker petition received on March 19, 1976 which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing men's permanent press jeans and work pants at the Portland, Indiana production plant and distribution facility of Jay Garment Company.

The notice of investigation was published in the FEDERAL REGISTER on April 2, 1976 (41 FR 14231). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Jay Garment Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all of the above criteria have been met.

Significant Total or Partial Separations

Employment data for Portland represents total figures for both the production facility and the distribution facility. The average number of workers at the Portland, Indiana plants of Jay Garment Company declined 7 percent from 1973 to 1974 and declined 20 percent from 1974 to 1975. Employment decreased in the first three quarters of 1975 from the same quarters of the previous year. Employment increased 8 percent in the fourth quarter of 1975 from the same quarter of the previous year, and increased 50 percent in the first quarter of 1976 from the first quarter of 1975. The average number of hours worked declined 3 percent from 1973 to 1974, and then increased one percent from 1974 to 1975.

Sales or Production, or Both, Have Decreased Absolutely

Sales of permanent press jeans and work pants at the Portland, Indiana plant declined 15 percent from 1973 to 1974, and then increased 13 percent from 1974 to 1975. Production declined 9 percent from 1974 to 1975.

Increased Imports

Imports of men's and boys' woven cotton and man-made fiber trousers and one-piece suits increased absolutely from 1971 to 1972, increased relatively from 1972 to 1973, and increased absolutely and relatively in each year from 1973 to 1975. The ratios of imports to domestic production and consumption increased from 2.3 percent and 2.2 percent, respectively in 1974, to 3.5 percent and 3.4 percent, respectively, in 1975.

Contributed Importantly

The evidence developed during the Department's investigation indicated that customers of Jay Garment Company reduced purchases from Jay from 1974 to 1975 and began to purchase imported men's one-piece work suits and permanent press jeans. These customers listed price, quality and availability of product as the factors influencing their decision to switch to imports.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's permanent press jeans and work pants produced by Jay Garment Company in Portland, Indiana contributed importantly to the total or partial separation of the workers of those plants. In accordance with the provision of the Act, I make the following certification.

All workers engaged in employment related to the production of men's permanent press jeans and work pants at the production plant and the distribution facility of Jay Garment Company in Portland, Indiana, who became totally or partialy separated from employment on or after March 9, 1975 and before October 31, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974. All workers who become totally or partially separated on or after October 31, 1975 are denied certification.

Signed at Washington, D.C., this 27th day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[FR Doc 76-22781 Filed 8-5-76;8:45 am]

[TA-W-685]

JAY GARMENT CO.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-685: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 19, 1976 in response to a worker petition received on March 19, 1976 which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing men's permanent press work shirts, and one-piece work suits and jumpsuits at the Clarksville, Tennessee plant for Jay Garment Company.

The notice of investigation was published in the Federal Register on April 2, 1976 (41 FR 14232). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Jay Garment Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all of the above criteria have been met.

Significant Total or Partial Separations

The average weekly employment at the Clarksville, Tennessee plant of Jay Garment Co. increased 3 percent from 1973 to 1974 and then declined 24 percent from 1974 to 1975. The average number of hours worked declined 1 percent from 1973 to 1974 and declined 19 percent from 1974 to 1975.

Sales or Production, or Both, Have Decreased Absolutely

Sales of work shirts at Clarksville declined 14 percent from 1973 to 1974 and declined 32 percent from 1974 to 1975. Production of work shirts decreased 5 percent from 1973 to 1974 and decreased 42 percent from 1974 to 1975. Sales of one-piece work suits and jumpsuits at Clarksville increased 9 percent from 1973 to 1974, and then decreased 31 percent from 1974 to 1975. Production of work suits and jumpsuits increased 12 percent from 1973 to 1974 and then decreased 18 percent from 1974 to 1975.

Increased Imports

Imports of men's and boys' woven cotton and man-made fiber trousers and one-piece suits increased absolutely from 1971 to 1972, increased relatively from 1972 to 1973, and increased absolutely and relatively from 1973 to 1975. The ratios of imports to domestic production and consumption increased from 2.3 percent and 2.2 percent, respectively, in 1974 to 3.5 percent and 3.4 percent, respectively, in 1975. Imports of men's and boys' cotton and man-made fiber work shirts increased absolutely and relatively from 1970 to 1974. Imports increased relatively from 1974 to 1975. The ratios of imports to domestic production and consumption increased from 147.6 percent and 59.6 percent, respectively, in 1974 to 200.7 percent and 66.7 percent, respectively, in 1975.

Contributed Importantly

The evidence developed during the Department's investigation indicated that customers of Jay Garment Company reduced purchases from Jay from 1974 to 1975 and began to purchase imported men's workshirts, jumpsuits, and one-piece work suits. These customers listed price, quality and availability of product as the factors influencing their decision to switch to imports.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's permanent press work shirts, and one-piece work suits and jumpsuits produced by Jay Garment Company in Clarksville, Tennessee, contributed importantly to the total or partial separation of the workers of that plant. In accordance with the provision of the Act, I make the following certification:

All workers engaged in employment related to the production of men's permanent press work shirts and one-piece work suits

V 41 1153 AUG 6 76 UMI

and jumpsuits at the Clarksville, Tennessee plant of Jay Garment Company who became totally or partially separated from employment on or after March 9, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 27th day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[TA-W-907]

LYN-FLEX FREEMAN

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-907: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on May 27, 1976 in response to a worker petition received on May 27, 1976 which was filed by the United Shoe Workers of America on behalf of workers and former workers producing shoe components at Lyn-Flex Freeman, Owensville, Missouri.

The Notice of Investigation was published in the FEDERAL REGISTER on June 18, 1976 (41 FR 24802). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Lyn-Flex Freeman, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof, have increased either actual, or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (3) has not been met. The evidence developed during the Department's investigation reveals that there are no separately identifiable imports of shoe components. Industry spokesmen indicate that there are no imports of these items. Imported shoes which incorporate components of the same origin are not like or directly competitive with domestically produced shoe components.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of shoe components did not contribute importantly to the total or partial separations at Lyn-Flex Freeman, Owensville, Missouri as required in Section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 27th day of July 1976.

JAMES F. TAYLOR,
Director, Plannning and Evaluation Staff.

[TA-W-686]

MARSHALL RAY CORP.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-686: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 19, 1976 in response to a worker petition received on March 19, 1976 which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing men's sports coats and leisure suits at the Troy, New York plant of the Marshall Ray Corporation located at 701 River Street.

The notice of investigation was published in the FEDERAL REGISTER on April 2, 1976 (41 FR 14232). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Marshall Ray, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers declined 12.3 percent from 1973 to 1974 and 26.5 percent from 1974 to 1975. The average number of office workers declined 5.1 percent from 1973 to 1974 and 13.5 percent from 1974 to 1975. Labor turnover data for the Troy, New York plant of Marshall Ray indicates that layoffs occurred throughout 1975.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Marshall Ray's sales of men's sportswear declined by 1.7 percent in quantity 1.7 percent in value in 1974 as compared to 1973. In 1975 sales of men's sportswear declined 25.7 percent in quantity and 36.6 percent in value as compared to 1974.

Production of men's sportswear at Marshall Ray declined by 3.6 percent in quantity and 3.6 percent in value in 1974, as compared to 1973. Production declined 22.0 percent in quantity and 16.7 percent in value from 1974 to 1975.

INCREASED IMPORTS

Imports of men's and boys' tailored dress coats and sportscoats increased absolutely and relatively in each year from 1971 to 1973. Imports increased relatively from 1973 to 1974 and then increased absolutely and relatively from 1974 to 1975. The ratios of imports to domestic production and consumption increased from 21.2 percent and 17.5 percent, respectively, in 1974 to 28.2 percent and 22.0 percent, respectively, in 1975.

Imports of men's and boys' tailored suits increased absolutely and relatively in each year from 1971 through 1975. The ratio of imports to domestic production and consumption increased from 12.2 percent and 10.9 percent, respectively, in 1974 to 17.2 percent and 14.6 percent, respectively, in 1975.

CONTRIBUTED IMPORTANTLY

The Department's investigation revealed that at least one customer of Marshall Ray accounting for approximately 40 percent of sales by Marshall Ray increased purchases of imported men's sports jackets and leisure suits and decreased domestic purchases of the same products.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's sports jackets and leisure suits produced by the Troy, New York plant of the Marshall Ray Corporation contributed importantly to the total or partial separation of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of men's sports jackets and leisure suits at the Troy, New York plant of the Marshall Ray Corporation who became totally or partially separated from employment on or after March 8, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 27th day of July 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76-22784 Filed 8-5-76;8:45 am]

[TA-W-737]

MLM SPORTSWEAR, INC.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-737: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 26, 1976 in response to a worker petition received on March 26, 1976 which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing men's sportcoats and sport jackets at MLM Clothing Inc., Philadelphia, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER on April 13, 1976 (41 FR 15491). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of MLM Sportswear, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales, production, or both, of the firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation reveals that all of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers at MLM Sportswear, Inc. declined 33 percent from 1973 to 1974 and declined 12 percent from 1974 to 1975. Employment decreased in the first three quarters of 1975 from the same quarters of the previous year. Employment increased in the fourth quarter of 1975 from the same quarter of the previous year. The average weekly hours worked increased 6 percent in 1974 over 1973, and then declined 5 percent from 1974 to 1975.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales data was obtained from monthly shipment figures. Shipments at MLM Sportswear, Inc. declined 22 percent from 1973 to 1974, and declined 58 percent from 1974 to 1975. Production is based on orders received, although shipments lag behind actual production in any given time period.

INCREASED IMPORTS

Imports of men's and boys' tailored dress coats and sportcoats increased absolutely and relatively in each year from 1971 through 1973, increased relatively from 1973 to 1974, and then increased absolutely and relatively from 1974 to 1975. The ratios of imports to domestic production and consumption increased from 21.2 percent and 17.5 percent, respectively, in 1974 to 28.2 percent and 22.0 percent, respectively, in 1975.

CONTRIBUTED IMPORTANTLY

The Department's investigation indicated that MLM's manufacturer decreased purchases from MLM by 50 percent from 1974 to 1975 and increased purchases of imported men's sportcoats and suit coats. The manufacturer increased its import purchases by 30 percent from 1975 to 1976. The manufacturer switched to imports because of the price differential between imports and MLM products.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of men's sportcoats and suit coats produced at MLM Sportswear, Inc. contributed importantly to the total or partial separation of the workers of that plant. In accordance with the provision of the Act, I make the following certification:

All workers engaged in employment related to the production of men's sportcoats and suit coats at MLM Sportswear, Inc., Philadelphia, Pa. who became totally or partially separated from employment on or after March 16, 1975 and before October 31, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974. All employees who became totally or partially separated from employment on or after October 31, 1975 are denied certification.

Signed at Washington, D.C., this 23rd day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[FR Doc.76-22785 Filed 8-5-76;8:45 am]

[TA-W-551]

MOTOROLA, INC.

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-551: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on January 16, 1976 in response to a worker petition received on January 16, 1976 which was filed on behalf of workers and former workers producing automotive sound accessories and monochrome and color televisions at the Quincy, Illinois plant of Motorola, Incorporated, Chicago, Illinois.

The notice of investigation was published in the Federal Register on January 30, 1976 (41 FR 4692). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Motorola, Inc., and Quasar, their customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974, must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

V 41 1153 AUG 6 76 UMI

The investigation has revealed that all four criteria have been met for color televisions but that criterion (3) has not been met for automotive sound accessories and monochrome televisions.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of workers engaged in automotive sound accessory production at Quincy declined 31.7 percent from 1973 to 1974 and declined 56.0 percent from 1974 to 1975. All employment was terminated in May 1976.

The average number of workers engaged in TV production at Quincy increased 15.2 percent from 1973 to 1974 and then declined 41.9 percent in the first eight months of 1975 compared to the first eight months of 1974. All TV production employment at Quincy was terminated in September 1975.

SALES, PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production of automotive sound accessories at Quincy (including radios, tape players, and radio-tape player combinations) declined 42.2 percent from 1973 to 1974 and declined 71.3 percent from 1974 to 1975.

Production of Quasar televisions (both monochrome and color) at Quincy increased 16.1 percent from 1973 to 1974. In the first eight months of 1975, total television production declined 41.1 percent compared to the first eight months of 1974.

Television production from Quincy was consolidated into the Franklin Park, Illinois plant in 1975. Combined Quincy and Franklin Park Quasar color television production declined 34.0 percent from 1973 to 1974 and declined 23.3 percent from 1974 to 1975.

INCREASED IMPORTS

The quantity of imports of automobile radios (including AM, AM–FM stereo, AM with tape player, and tape player separately) when compared to the preceding year increased absolutely in each year from 1971 to 1973 and declined in 1974 to 1975.

Imports of automobile radios increased relative to domestic production and consumption in each year from 1972 through 1974 and then declined from 1974 to 1975. The ratios of imports to domestic production and consumption declined from 109.3 percent and 53.2 percent, respectively, in 1974 to 108.1 percent and 53.0 percent, respectively, in 1975.

The quantity of imports of black and white TV's decreased absolutely each year from 1972 to 1975.

Imports of black and white TV's increased relative to domestic production and consumption declined from 210.3 percent and 69.0 percent, respectively, in 1974 to 193.8 percent and 67.3 percent, respectively, in 1975.

The quantity of imports of color TV's increased absolutely each year from 1971 through 1973 and then declined in 1974 and 1975.

The ratios of imports to domestic production and consumption increased from 21.7 percent and 18.4 percent, respectively, in 1974 to 23.4 percent and 1915 percent, respectively, in 1975.

CONTRIBUTED IMPORTANTLY

The Department's investigation revealed that Quasar televisions are sold through exclusive Quasar distributors. These distributors reduced purchases from the Quincy plant because of increased imports of cheaper imported televisions purchased by consumers. As a result, Quasar was faced with excess production capacity. This led to the consolidation of Quincy and Franklin Park television production in the Franklin Park plant.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with color televisions produced at the Quincy, Illinois plant of Motorola, Incorporated contributed importantly to the total or partial separation of the workers of that plant.

In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of color televisions at the Quincy, Illinois plant of Motorola, Incorporated, (Quasar) Chicago, Illinois who become totally or partially separated from employment on or after January 16, 1975 and before November 1, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974. All employees who became totally or partially separated from employment on or after November 1, 1975 are denied certification.

I further conclude that increases of imports like or directly competitive with black and white televisions and automotive sound accessories produced at the Quincy, Illinois plant of Motorola, Incorporated did not contribute importantly to the total or partial separation of the workers of that plant.

Signed at Washington, D.C., this 23rd day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[TA–W–1,000]

MURPHY'S WHOLESALE TAILOR'S

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On July 27, 1976, the Department of Labor received a petition dated July 6, 1976, which was filed under Section 221(a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of Murphy's Wholesale Tailor's, New Orleans, Louisiana (TA–W–1,000).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or or directly competitive with men's custom made suits produced by Murphy's Wholesale Tailor's or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 16, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 16, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd Street and Constitution Avenue NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 27th day of July 1976.

DOMINIC SORRENTINO,
Acting Director, Office of Trade Adjustment Assistance.

[FR Doc.76–22787 Filed 8–5–76;8:45 am]

[TA–W–994]

PARIS SHOE CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On July 20, 1976, the Department of Labor received a petition dated July 14, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of Paris Shoe Company, Lowell, Massachusetts (TA–W–994).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's footwear produced by Paris Shoe Company or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 16, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 16, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd Street and Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 20th day of July 1976.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

[FR Doc.76–22788 Filed 8–5–76;8:45 am]

[TA–W–857]

REDI-BOLT, INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA–W–857: investigation regarding certification of eligibility to apply for adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on April 30, 1976 in response to a worker petition received on that date which was filed by the United Steelworkers of America on behalf of workers and former workers at the East Chicago, Indiana plant of Redi-Bolt, Incorporated, Division of Medalist Industries.

The Notice of Investigation was published in the Federal Register on May 21, 1976 (41 FR 20954). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Redi-Bolt, Incorporated Division of Medalist Industries, its customers, the Department of Commerce, the International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the worker's firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although the first three criteria have been met, the fourth criterion has not been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employment of production workers at Redi-Bolt, Inc., East Chicago, Indiana increased 17.5 percent in 1974 from 1973, declined 31.9 percent in 1975 from 1974, and decreased 25.0 percent in the first quarter of 1976 compared to the first quarter of 1975.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales of bolts increased 28.6 percent in 1974 from 1973, declined 35.5 percent in 1975 from 1974, and declined 11.2 percent in the first quarter of 1976 compared to the first quarter of 1975.

Production of bolts increased 8.9 percent in 1974 from 1973, declined 40.5 percent in 1975 from 1974, and decreased 20.6 percent in the first quarter of 1976 compared to the first quarter of 1975. Bolts comprised 85 percent of output by the East Chicago plant in 1975, the remainder of production consisting primarily of special expanded metal products.

INCREASED IMPORTS

Domestic production of ferrous bolts increased 16.3 percent between 1970 and 1974 and decreased 37.8 percent in 1975 from 1974. Consumption during the 1970–1974 period increased 22.2 percent, however, and, thus, imports increased their share of domestic consumption from 11.6 percent in 1970 to 17.1 percent in 1974. In 1975, U.S. consumption declined 40.6 percent from 1974, with imports increasing their share to 17.9 percent from 17.1 percent in the prior year.

CONTRIBUTED IMPORTANTLY

The evidence developed in the Department's investigation reveals that separations of workers from Redi-Bolt, Incorporated, Division of Medalist Industries, East Chicago, Indiana were due primarily to a decline in sales of bolts by the firm. Customers of bolts produced by the East Chicago, Indiana plant indicated that purchases from that firm were reduced due to general economic conditions and switches to other domestic suppliers.

Expanded metal products produced by the East Chicago plant are primarily specialty items made to customer specifications. Customers of such products cited reasons other than import competition for decreasing purchases from Redi-Bolt, Inc., Division of Medalist Industries.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with bolts and expanded metal items produced by Redi-Bolt, Incorporated, Division of Medalist Industries, Each Chicago, Indiana did not contribute importantly to the total or partial separations of workers of that firm.

Signed at Washington, D.C. this 28th day of July 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76–22789 Filed 8–5–76;8:45 am]

[TA–W–889]

STATION STREET CORP.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA–W–889; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on May 19, 1976 in response to a worker petition received on May 19, 1976 which was filed on behalf of workers and former workers producing men's suits and sportcoats at the Biddeford, Maine plant of Station Street Corporation.

The notice of investigation was published in the Federal Register (41 FR 24235) on June 15, 1976. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Station Street Corporation, its customers, the U.S. Department of Commerce, the U.S.

V 41 1153 AUG 6 76 UMI

International Trade Commission, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employment of production workers at the Biddeford, Maine plant decreased 6.4 percent in 1974 compared to 1973 and 4.9 percent in 1975 compared to 1974. However, average quarterly employment increased in each of the first two quarters of 1976 from the previous quarter and increased 9.1 and 19.9 percent, respectively, compared to the same quarter of the previous year.

SALES OR PRODUCTION OR BOTH, HAVE DECREASED ABSOLUTELY

Station Street Corporation is a contractor. Sales and production are the same. Company production of men's suits and sportcoats declined 15.6 percent in 1974 compared to 1973 and 20.9 percent in 1975 compared to 1974. However, unit production in the first quarter of 1976 was greater than the level in any of the previous seven quarters.

INCREASED IMPORTS

Import's of men's and boys' tailored dress coats and sportcoats increased from 1971 to 1973, decreased in 1974 compared to the previous year, and increased to 5.5 million units in 1975 from 5.1 million units in 1974.

Imports of men's and boys' tailored suits increased in every year from 1.3 million units in 1971 to 3.1 million units in 1975, an increase of 26.9 percent over the 2.4 million units in 1974.

CONTRIBUTED IMPORTANTLY

All customers of Station Street Corporation increased purchases of imported men's suits and sportcoats. All but one customer either decreased or held stable purchases from Station Street. The remaining customer increased purchases of men's suits and sportcoats, but to a relatively lesser extent than they increased purchases of imported men's suits and sportcoats.

CONCLUSION

After careful review of the facts obtained in the investigation, I concluded that increases of imports like or directly competitive with men's suits and sportcoats produced by the Biddeford, Maine plant of Station Street Corporation contributed importantly to the total or partial separation of the workers of that plant. In accordance with the provision of the Act, I make the following certification:

All workers at the Biddeford, Maine plant of the Station Street Corporation who became totally or partially separated from employment on or after April 26, 1975 and before January 1, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974. All employees who became totally or partially separated from employment on or after January 1, 1976 are denied certification.

Signed at Washington, D.C. this 23rd day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[FR Doc.76-22790 Filed 8-5-76;8:45 am]

[TA-W-682]

STRONGWEAR SLACKS COMPANY, INC.

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-682: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 19, 1976 in response to a worker petition received on March 19, 1976 which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing men's and women's slacks at the Easton plant of Strongwear Slacks Company Inc., Easton, Pennsylvania.

The Notice of Investigation was published in the FEDERAL REGISTER on April 2, 1976 (41 FR 14234). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Strongwear Slacks Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation revealed that criteria one, two, and three have been met. However, criterion four has been met for only those workers engaged in employment related to the production of men's slacks.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of workers declined 7.7 percent from 1973 to 1974 and declined 32.6 percent from 1974 to 1975. In each quarter of 1975, employment declined when compared to the same quarter of 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Strongwear Slacks Company is not involved in the sale of finished products.

Men's slacks represented 30 percent of production and women's slacks represented 70 percent of producton at Strongwear Slacks.

Production of men's and women's slacks at Strongwear Slacks declined 3.9 percent from 1973 to 1974 and declined 18.3 percent from 1974 to 1975. In the first two quarters of 1975, production declined compared to the same quarters of 1974. In the third and fourth quarters of 1975, production increased 3.1 percent and 20.1 percent, respectively, compared to the third and fourth quarters of 1974.

INCREASED IMPORTS

Imports of men's and boys' trousers increased from 39.7 million pairs in 1971 to 55.3 million pairs in 1972. Imports then declined in 1973 and 1974. Imports increased again in 1975 to 55.5 million pairs. Imports increased 39.4 percent from 1974 to 1975. Domestic production of men's and boys' trousers declined 18.9 percent during the same period. The ratios of imports to domestic production and consumption increased from 18.2 percent and 15.4 percent, respectively, in 1974 to 31.4 percent and 23.8 percent, respectively, in 1975.

Imports of ladies' and children's woven slacks, jeans, and shorts decreased from 61.7 million pairs in 1971 to 55.0 million pairs in 1974. In 1975, imports increased to 65.2 million pairs. Imports of ladies' and children's woven slacks, jeans, and shorts increased 18.5 percent from 1974 to 1975. Domestic production increased 14.2 percent during the same period. The ratios of imports to domestic production and consumption increased from 23.9 percent and 19.3 percent, respectively, in 1974 to 24.8 percent and 19.9 percent, respectively, in 1975.

Imports of ladies' and children's knit slacks and shorts increased in each year from 74.7 million pairs in 1971 to 80.1 million pairs in 1973. Imports declined in 1974 and then increased to 55.2 million pairs in 1975. Imports of ladies' and children's knit slacks and shorts increased 6.0 percent from 1974 to 1975. Domestic production declined 3.3 percent during the same period. The ratios of imports to domestic production and consumption increased from 41.9 percent and 29.5 percent, respectively, in 1974 to 45.9 percent and 31.5 percent, respectively, in 1975.

CONTRIBUTED IMPORTANTLY

Customers of men's slacks reduced or discontinued purchases from Strongwear as a result of increasing purchases of lower priced imported men's slacks.

Strongwear manufactured ladies' slacks for two firms only. One of these reduced purchases from Strongwear. The customer switched purchases to another domestic firm.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's slacks produced at the Easton, Pennsylvania plant of Strongwear Slacks Company, Incorporated contributed importantly to the total or partial separations of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of men's slacks at the Easton plant of Strongwear Slacks Company, Inc., Easton, Pennsylvania who became totally or partially separated from employment on or after March 9, 1975 and before June 30, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Trade Act of 1974. All employees who became totally or partially separated from employment after June 30, 1975 are denied certification.

It is further concluded that increases of imports like or directly competitive with womens slacks produced at the Easton, Pennsylvania plant of Strongwear Slacks Company, Incorporated did not contribute importantly to the total or partial separations of the workers of that plant.

Signed at Washington, D.C., this 23rd day of July 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[TA-W-681]

STRONGWEAR PANTS COMPANY, INC.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-681: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 19, 1976 in response to a worker petition received on March 19, 1976 which was filed by the Amalgamated Clothing workers of America on behalf of workers and former workers producing men's slacks at the Easton plant of Strongwear Pants Company, Inc., Easton, Pennsylvania.

The Notice of Investigation was published in the FEDERAL REGISTER on April 2, 1976 (41 FR 14233). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Strongwear Pants Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of workers declined 3.0 percent from 1973 to 1974 and declined 12.3 percent from 1974 to 1975. In each quarter of 1975, employment declined when compared to the same quarters of 1974.

Average weekly hours declined 12.1 percent from 1973 to 1974 and declined 6.5 percent from 1974 to 1975.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Men's slacks represent 95 percent of production at Strongwear Pants Co., Inc. Production at Strongwear Pants declined 13.6 percent from 1974 to 1975. In the first three quarters of 1975, production declined compared to the same quarters of 1974. In the fourth quarter of 1975, production increased 21.8 percent compared to the fourth quarter of 1974.

INCREASED IMPORTS

Imports of men's and boys' trousers increased from 39.7 million pairs in 1971 to 55.3 million pairs in 1972. Imports then declined in 1973 and 1974. Imports increased again in 1975 to 55.5 million pairs. Imports increased 39.4 percent from 1974 to 1975. Domestic production of men's and boys' trousers declined 18.9 percent during the same period. The ratios of imports to domestic production and consumption increased from 18.2 percent and 15.4 percent, respectively, in 1974 to 31.4 percent and 23.8 percent, respectively, in 1975.

CONTRIBUTED IMPORTANTLY

Customers reduced or discontinued purchases of men's slacks from Strongwear as a result of increasing purchases of lower priced imported men's slacks.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's slacks produced at the Easton, Pennsylvania plant of Strongwear Pants Company, Incorporated contributed importantly to the total or partial separation of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers at the Easton plant of Strongwear Pants Company, Inc., Easton, Pennsylvania who became totally or partially separated from employment on or after March 9, 1975 and before September 30, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Trade Act of 1974. All employees who became totally or partially separated from employment on or after September 30, 1975 are denied certification.

Signed at Washington, D.C., this 23rd day of July 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76-22792 Filed 8-5-76;8:45 am]

[TA-W-711]

SWEDA INTERNATIONAL

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-711: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 26, 1976 in response to a worker petition received on March 26, 1976 which was filed on behalf of former workers producing computers and peripheral equipment at Sweda International, Clifton, New Jersey.

The notice of investigation was published in the FEDERAL REGISTER on April 20, 1976 (41 FR 16623). No public

V 41 153 AUG 6 76 UMI

hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Sweda International, its customers, the U.S. International Trade Commission, the U.S. Department of Commerce, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all the criteria have been met.

SIGNIFICANT TOTAL OF PARTIAL SEPARATIONS

The average number of workers at the Clifton, New Jersey plant increased 3 percent in 1974 compared to 1973 and then decreased 40 percent in the first quarter of 1975 compared to the same period of 1974.

All employment was terminated in April 1975 when the plant closed.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production at the Clifton plant decreased 9 percent in 1974 compared to 1973 and decreased 38 percent in the first quarter of 1975 compared to the same period of 1974.

All production ceased in April 1975 when the plant closed.

INCREASED IMPORTS

When compared to each preceding year, U.S. imports of computers, peripheral, equipment and parts, in terms of value, increased in 1972, decreased in 1973 and increased in 1974 and 1975. The ratios of imports to domestic production decreased from 4.9 percent in 1974 to 4.7 percent in 1975.

CONTRIBUTED IMPORTANTLY

In 1974 Sweda's imports of computers and peripheral equipment which are of the types produced at the Clifton plant constituted 89 percent of the Clifton plant's production. In the first quarter of 1975 Sweda's imports of computers and peripheral equipment of the types produced at Clifton constituted 164 percent of the Clifton plant's production.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with computers and computer peripheral equipment produced by the Clifton, New Jersey plant of Sweda International contributed importantly to the total or partial separation of the workers of that plant. In accordance with the provision of the Act, I make the following certification:

All workers at the Clifton, N.J. plant of Sweda International who became totally or partially separated from employment on or after March 21, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 27th day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[TA-W-831]

WILLIAM H. OTTEMILLER CO.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-831: investigation regarding certification of eligibility to apply for adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on April 30, 1976 in response to a worker petition received on that date which was filed by the United Steelworkers of America on behalf of workers and former workers producing specialty fasteners at the York, Pennsylvania plant of the William H. Ottemiller Company.

The notice of investigation was published in the Federal Register on May 21, 1976 (41 FR 20971). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the William H. Ottemiller Company, the Department of Commerce, the International Trade Commission and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (3) has not been met.

The William H. Ottemiller Company produces special machine screws and standard screws. The special machine screws which are made to customer specifications account for approximately 85 percent of the firm's total production.

There has been no reduction in employment related to the production of standard fasteners which account for the remainder of the firm's output.

There are no known imports of special fasteners. Firms that make special fasteners produce them on order to the customer's specifications.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that articles like or directly competitive with special fasteners produced by the William H. Ottemiller Company, York, Pennsylvania are not being imported in increased quantities, either actual or relative to domestic production, and therefore workers and former workers at the William H. Ottemiller Company, York, Pennsylvania are not eligible to apply for adjustment assistance under the Trade Act of 1974.

Signed at Washington, D.C. this 27th day of July 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[NM 28428]

NEW MEXICO

Proposed Withdrawal and Reservation of Lands

JULY 30, 1976.

The Bureau of Reclamation, U.S. Department of the Interior, has filed application NM 28428 for the withdrawal of land described below, from all forms of appropriation under the public land laws including the general mining, but not the mineral leasing laws except that drilling will be restricted and allowed only with specific permission of the Bureau of Reclamation. The applicant desires the land for use in connection with the Brantley Reservoir Project.

On or before September 7, 1976, all persons who wish to submit comments, suggestions or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Chief, Division of Technical Services, P.O. Box 1449, Santa Fe, New Mexico 87501.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. We will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the land for purposes other than the applicant's, to eliminate land needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the land and its resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the land will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The land involved in the application is:

NEW MEXICO PRINCIPAL MERIDIAN

T. 20 S., R. 26 E.,
Sec. 16, E½SE¼.

The area described contains 80 acres in Eddy County.

MICHAEL T. SOLAN,
Chief, Division of Technical Services.

Applications

JULY 29, 1976.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has

V 41 153 AUG 6 76 UMI

applied for three 4½-inch natural gas pipeline rights-of-way across the following land:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 32 N., R. 10 W.,
Sec. 29, lots 3 and 4;
Sec. 30, lots 5 and 12;
Sec. 31, lots 5 and 6.

These pipelines will convey natural gas across .356 mile of national resource land in San Juan County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the applications should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, 3550 Pan American Freeway, NE, Albuquerque, NM 87107.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

National Park Service

STANDARD CONCESSION CONTRACT LANGUAGE

Proposed Change

Notice was given in the July 13, 1976, FEDERAL REGISTER, pp. 28809 to 28815, that the National Park Service is proposing to change its standard concession contract language and is soliciting written comments from all interested parties on or before August 12, 1976. However, it has been determined that it would be in the best interest of all interested parties and the United States to provide an additional period of time of 60 days from August 12, 1976, within which to submit written comments. Accordingly, written comments on the proposed standard concession contract language must be received on or before October 12, 1976, addressed to the Director, National Park Service, Department of the Interior, Washington, D.C. 20240. Copies of the proposed standard concession contract language are available at the same address.

EMERY POWER PLANT; PROPOSED IN EMERY COUNTY, UTAH

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepare a draft environmental statement for a proposed power plant in Emery County, Utah.

The Emery proposal involves construction of a 860 MW power complex, transportation systems, transmission lines, coal mine, and employment of approximately 800 people. The Department of the Interior invites written comments on the draft statement to be submitted on or before September 20, 1976, to the District Manager, Richfield District, Bureau of Land Management, 850 North Main Street, Richfield, Utah 84701.

A limited number of copies are available upon request to the District Manager at the above address.

Public reading copies will be available for review at the following locations:

Office of Public Affairs, Bureau of Land Management, Interior Building, 18th and C Streets, NW., Washington, D.C. 20240, Telephone: (202) 343-5717.
Utah State Office, Bureau of Land Management, University Club Building, 136 East South Temple, Salt Lake City, Utah 84111, Telephone: (801) 524-4257.
Richfield District Office, Bureau of Land Management, 850 North Main Street, Richfield, Utah 84701, Telephone: (801) 896-5401.
Price Area Office, Bureau of Land Management, 900 North 700 East, Price, Utah 84501, Telephone (801) 637-4584.
College of Eastern Utah, Library, 451 East 400 North, Price, Utah 84501, Telephone (801) 637-9943.
Emery County Library, Castle Dale, Utah 84513, Telephone (801) 748-2554.
Harold B. Lee Library, Brigham Young University, Provo, Utah 84602.

Notice is also given that oral and/or written comments will also be received at formal public hearings held at the following locations:

Emery County High School, Auditorium, Castle Dale, Utah, on September 8, 1976, at 8 p.m.
Provo City Center, Commission Chambers, 359 West Center, Provo, Utah, on September 9, 1976, at 7:30 p.m.

An administrative law judge will preside over the hearings. Witnesses presenting oral comments should limit their testimony to ten (10) minutes. Written request to testify orally should be submitted to the District Manager, Richfield District, Bureau of Land Management, 850 North Main Street, Richfield, Utah 84701, prior to close of business September 1, 1976.

Comments on the draft environmental statement, whether written or oral, will receive equal consideration in preparation of a final environmental statement.

Dated: August 3, 1976.

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

[FR Doc.76-22867 Filed 8-5-76;8:45 am]

DEPARTMENT OF AGRICULTURE

Forest Service

FLAMING GORGE NATIONAL RECREATION AREA

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the proposed management plan for the Flaming Gorge Recreation Area, Ashley National Forest, Utah and Wyoming. The Forest Service report number is USDA-FS-DES (Adm) R4-76-19.

The draft environmental statement identifies and evaluates the probable effects that management under the proposed management plan or alternatives would have upon the environment of the NRA. Future management of the NRA under a broad framework will be directed toward: (1) Continue to provide a high quality, varied recreation experience to the full capacity of the area; (2) Encourage utilization of resources where compatible with recreation; (3) Provide for the safety and enjoyment of the user; and (4) Fully involve the public, other agencies, and organizations in the planning and development processes.

Pub. L. 90-540 of October 1, 1968, states that management of the NRA will be primarily oriented toward recreation and related activities. Other uses may be permitted if they are compatible with recreation. Therefore, the proposed mix of uses and land practices is directed toward encouraging and providing varied recreation opportunities. Uses and activities conflicting with recreation-oriented values will be modified or curtailed as explained in the environmental statement.

This draft environmental statement was transmitted to CEQ on July 30, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service,
South Agricultural Bldg., Room 3230,
12th St. & Independence Ave., SW.,
Washington, D.C. 20250.
Regional Planning Office,
USDA, Forest Service,
Federal Building, Room 4408,
324-25th Street,
Ogden, Utah 84401.
Forest Supervisor,
Ashley National Forest,
437 East Main,
Vernal, Utah 84078.
Area Ranger,
Flaming Gorge Ranger District,
Dutch John Unit,
P.O. Box 157,
Dutch John, Utah 84023.

A limited number of single copies are available upon request to Forest Supervisor Robert A. Rowen, Ashley National Forest, 437 East Main, Vernal, Utah 84078.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor, Ashley National Forest, 437 East Main, Vernal, Utah 84078. Comments must be received by September 30, 1976, in order to be considered in the preparation of the final environmental statement.

Dated: July 30, 1976.

WILLIAM E. MURRAY,
Acting Regional Forester, Intermountain Region.

[FR Doc.76-22925 Filed 8-5-76;8:45 am]

LAND USE PLAN FOR THE QUINAULT PLANNING UNIT

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service; Department of Agriculture, has prepared a final environmental statement for a land use plan for the Quinault Planning Unit, Olympic National Forest, USDA-FS-R6-FES (ADM)-76-2.

The environmental statement concerns the proposed implementation of a comprehensive land use plan for the Quinault Planning Unit. The Unit contains four non-selected roadless areas.

This final environmental statement was transmitted to CEQ on July 30, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3210, 12th St. & Independence Ave., SW., Washington, D.C. 20250.
USDA, Forest Service, Multnomah Bldg., 319 SW. Pine St., Portland, Oregon 97208.
Olympic National Forest, Federal Bldg., 801 South Capitol Way, Olympia, Washington 98507.
Quinault Ranger Station, Quinault, Washington 98575.

A limited number of single copies are available upon request to:

Richard D. Beaubien, Forest Supervisor, Olympic National Forest, P.O. Box 2288, Olympia, Washington 98507.

Copies of the environmental statement have been sent to various Federal, state, and local agencies as outlined in the CEQ guidelines.

RICHARD D. BEAUBIEN,
Forest Supervisor.

JULY 30, 1976.

[FR Doc.76-22926 Filed 8-5-76;8:45 am]

Office of the Secretary

ADVISORY COMMITTEE ON AGRICULTURAL STATISTICS

Intent To Establish Committee

Notice is hereby given that the Secretary of Agriculture intends to establish an Advisory Committee on Agricultural Statistics.

The Committee shall be composed of six members, three who are members of the American Agricultural Economics Association (AAEA) and three who are members of the American Statistical Association (ASA). The Chairperson and

V 41 N 153 AUG 6 76 UMI

Chairperson-Elect will be elected by the Committee for a one-year term. These two positions will be alternated annually between the AAEA and ASA.

The purpose of this committee will be to review programs of the Statistical Reporting Service and Economic Research Service and advise the Administrators of these agencies on program content, concepts, definitions, scheduling and techniques. The establishment of the Committee is in the public interest since no existing committee can perform these functions, and it is advantageous to the Department to have the views of these two professional associations in formulating plans.

This notice is given in compliance with the Federal Advisory Committee Act (Pub. L. 92-463). Views and comments of interested persons shall be made in writing and must be received by the Director, Agricultural Economics, Room 214-A, United States Department of Agriculture, Washington, D.C. 20250 by August 23, 1976. Such comments will be available for public inspection during regular working hours.

Dated: August 3, 1976.

J. PAUL BOLDUC,
Assistant Secretary for Administration.

[FR Doc.76-22955 Filed 8-5-76;8:45 am]

Packers and Stockyards Administration

MOORES' LIVESTOCK AUCTION, NORCO, CALIFORNIA, ET AL.

Deposting of Stockyards

It has been ascertained, and notice is hereby given, that the livestock markets named herein, originally posted on the respective dates specified below as being subject to the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 *et seq.*), no longer come within the definition of a stockyard under said Act and are, therefore, no longer subject to the provisions of the Act.

Facility No., name, and location of stockyard	*Date of posting*
CA-167 Moores' Livestock, Norco, Calif.	July 15, 1975.
IN-138 Scottsburg Sales Barn, Scottsburg, Ind.	Mar. 17, 1960.
MD-111 Bar F Stables Auction, Manchester, Md.	Oct. 21, 1964.
NC-105 Beretich Livestock Corporation, Clinton, N.C.	Aug. 25, 1967.
NC-108 Fayetteville Graded Feeder Pig Sale, Fayetteville, N.C.	June 23, 1967.
NC-117 Bethune Stockyards, Lillington, N.C.	May 11, 1959.
NC-123 Murphy Livestock Auction Co., Murphy, N.C.	Apr. 10, 1959.
NC-124 Creech Livestock Market, Inc., Norlina, N.C.	July 1, 1959.
OK-186 Woodward Livestock Auction Market, Inc., Woodward, Okla.	July 23, 1940.
VA-104 Rockbridge Livestock Market, Inc., Buena Vista, Va.	Mar. 11, 1959.
VA-147 Tidewater Livestock Sales Co., Courtland, Va.	Jan. 10, 1974.
VA-107 Culpeper Livestock Exchange, Culpeper, Va.	July 7, 1959.
VA-115 Halifax County Livestock Market, Inc., Halifax, Va.	Sept. 30, 1970.
VA-124 Marshall Auction Sales, Marshall, Va.	Mar. 2, 1959.
VA-138 Jarman Stockyard, Suffolk, Va.	Aug. 7, 1961.

Notice or other public procedure has not preceded promulgation of the foregoing rule. There is no legal justification for not promptly deposting a stockyard which is no longer within the definition of that term contained in the Act.

The foregoing is in the nature of a rule relieving a restriction and may be made effective in less than 30 days after publication in the Federal Register. This notice shall become effective on August 6, 1976.

(42 Stat. 159, as amended and supplemented; 7 U.S.C. 181 *et seq.*)

Done at Washington, D.C., this 2nd day of August, 1976.

EDWARD L. THOMPSON,
Chief, Registrations, Bonds, and Reports Branch, Livestock Marketing Division.

Domestic and International Business Administration

IOWA STATE UNIVERSITY, ET AL.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before August 26, 1976.

Amended regulations issued under cited Act (15 CFR 301) prescribe the requirements applicable to comments.

A copy of each application is on file, and may examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00457. Applicant: Iowa State University, College of Veterinary Medicine, Ames, Iowa 50011. Article: Electron Microscope, Model HS-9-1, Haskaris Recirculating Water System, Model RO33SP and accessories. Manufacturer: Hitachi (Perkin-Elmer), Japan. Intended Use of Article: The article is intended to be used for teaching undergraduate and graduate courses in veterinary pathology. In the undergraduate courses students will obtain an understanding of the body's response to disease and the pathogenesis of specific diseases in domestic animals. This will include morphological and biochemical changes of organs, tissues and cells produced by disease. Specifically the article will be used to demonstrate and visualize the structural features unique to specific infestious agents and the changes produced by them in the course of disease processes. Graduate students will obtain an in-depth understanding of the disease processes in general in inflammation, degenrative processes, hearing, etc., as well as the pathogenesis of specific diseases. The article will also be used for research which will involve the study of changes in cells and tissues of animals produced by nutritional, metabolic, toxicological, infectious or parasitic diseases at the ultrastructural level. Application Received by Commissioner of Customs: June 30, 1976.

Docket Number: 76-00458. Applicant: University of Wisconsin, Food Research Institute, 1925 Willow Drive, Madison, Wisconsin 53706. Article: Electron Microscope, Model HU-12A with water recirculator. Manufacturer: Hitachi Ltd., Japan. Intended Use of Article: The article is intended to be used for microbiological and biochemical research activities which cover all the major food-poisoning hazards, including botulism, salmonella, staphylococcus, *Clostridium perfringens, Bacillus cereus*, enteropathogenic *Escherichia coli*, viruses and mycotoxins. This will also include research on the metabolism and potential pathobiology of several important food additives—sulfites, nitrites, phosphates and phenolic-based antioxidants—as well as the heavy metal contaminants, mercury and lead. In addition, the article will be used in the training of graduate students for advanced degrees in Bacteriology and Food Science and post-doctorate individuals. Application Received by Commissioner of Customs: June 30, 1976.

Docket Number: 76-00459. Applicant: North Carolina State University, Department of Geosciences, Withers Hall, P.O. Box 5966, Raleigh, N.C. 27607. Article: Buoy-mounted meterological sensors with datalogger, Model DL-1 and sea proof case. Manufacturer: Aanderaa Instruments, Norway. Intended Use of Article: The article is intended to be used to measure the transhore component of the wind stress in nearshore and offshore locations. Temperature, pressure, dew point, radiation and buoy orientation will also be measured as supporting information in calculating stress and in establishing general meterological conditions

above the water during the period of the experiment. Application Received by Commissioner of Customs: June 30, 1976.

Docket Number: 76-00460. Applicant: University of Chicago, Enrico Fermi Institute, 5640 South Ellis Avenue, Chicago, IL 60637. Article: Isotope Micromass, Model 602C. Manufacturer: VG-Micromass Ltd., United Kingdom. Intended Use of Article: The article is intended to be used in research which involves determination of the abundances of the stable isotopes of nitrogen (N^{15} and N^{14}) extracted from lunar rocks and soils. Nitrogen and other trace gases will be extracted from lunar samples by one of the following alternative procedures: (1) pyrolysis at various temperatures in a high-vacuum furnace; (2) acid dissolution of the sample followed by a Kjeldahl distillation of ammonia and a hypobromite oxidation to produce N_2. Application Received by Commissioner of Customs: June 30, 1976.

Docket Number: 76-00461. Applicant: University of Rochester, Hopeman 110, Rochester, N.Y. 14627. Article: Balzers 510 Vacuum System and Sputtron II DC Sputtering System. Manufacturer: Balzers, Liechtenstein. Intended Use of Article: The article is intended to be used in studying the deposition of durable optical films on phosphate based laser glass and the increased resistance of optical films to damage from high power laser radiation in connection with the applicant's laser fusion experiments e.g., comparing various film deposition methods (i.e., evaporation, sputtering) keeping other parameters (vacuum condition) constant. Application Received by Commissioner of Customs: June 30, 1976.

Docket Number: 76-00462. Applicant: University of Rochester, Hopeman 110, Rochester, N.Y. 14627. Article: Orthoplan Research Microscope. Manufacturer: Ernest Leitz, GmbH, Germany. Intended Use of Article: The article is intended to be used to scan relatively large areas in laser fusion experiments. Once located, areas containing defects or damage areas will be examined with greater resolution. This microscopic examination is an important technique in evaluation of new target and film preparation techniques. Application Received by Commissioner of Customs: June 30, 1976.

Docket Number: 76-00463. Applicant: University Hospital of Jacksonville, 655 West Eighth Street, Jacksonville, Florida 32209. Article: Electron Microscope, Model EM 9S-2. Manufacturer: Carl Zeiss, West Germany. Intended Use of Article: The article is intended to be used in a cancer research program to study tumors to elucidate their identity and predict their behavior. The article will also be used for clinical studies of renal disease. Experimental studies which might include any experiment where basic morphological alterations must be studied at the ultrastructural level will also be undertaken. Educational uses will include teaching Basic Electron Microscopy to pathology residents, residents from other medical subspecialties and graduate students. Application Received by Commissioner of Customs: June 30, 1976.

Docket Number: 76-00464. Applicant: Massachusetts Institute of Technology, Rm. E18-360, Cambridge, MA 02139. Article: Mass Spectrometer MAT 731. Manufacturer: Varian MAT GmbH, West Germany. Intended use of article: The article is intended to be used for studies of organic compounds of biological or clinical significance. High resolution mass spectra in the electron impact mode or field desorption will be determined and the resulting data will be interpreted in terms of their structure. Graduate students and postdoctoral fellows in chemistry will use this instrument in the course of studies and thus become experienced in the operation of this type of instrument and interpretation of the resulting data. Application Received by Commissioner of Customs: June 30, 1976.

Docket Number: 76-00465. Applicant: University of California, San Diego, Marine \Biology Research Division, La Jolla, California 92093. Article: I.O.S. Acoustic Net Control and Telemeter for use with the RMT4 (4-m² Rectangular Midwater Trawl). Manufacturer: Institute of Oceanographic Sciences, United Kingdom. Intended use of Article: The articles are components to be incorporated with an existing RMT4 which will be used for studies of living marine animals and the various parameters of their environment in the sea, e.g., temperature, pressure light and population density. The phenomenon of particular concern is the twice-daily vertical migration of certain communities of these animals. Investigations will be conducted to determine (a) the depth distributions of the multitude of animal species in particular volumes of ocean, (b) the temperature and pressure ranges tolerated by the various animals, (c) the degree of photo-orientation exhibited by certain species in their successful attempts to survive in the open ocean, and (d) over periods of time in a given area, the varied adaptations to environmental parameters exhibited by different age groups of any particular species during its larval and adult life. In addition, the articles will be used by students of biological oceanography conducting thesis research on inshore, shallow-water animals. Application Received by Commissioner of Customs: July 7, 1976.

Docket Number: 76-00466. Applicant: University of Washington, Department of Oceanography, Seattle, Washington 98195. Article: Two (2) Automatic weather stations and accessories. Manufacturer: Ivar Aanderaa, Norway. Intended use of Article: The articles will be used in conjunction with recording current meters to obtain in situ wind measurement together with current measurements to enable development of predictive models. Application received by Commissioner of Customs: July 7, 1976.

Docket Number: 76-00467. Applicant: University of California—Lawrence Livermore Laboratory, Post Office Box 808, Livermore, California 94550. Article: Two (2) each, high voltage power supply 400 kV/300 mA Ion source terminal, Isolating transformer 400 kV/75 kVA and one (1) spare parts. Manufacturer: Emile Haefely & Company, Ltd., Switzerland. Intended use of article: The article is intended to be used for investigation of 14 MeV neutron damage processes in materials to be used in controlled thermonuclear reactors. The materials to be investigated are construction types. Application Received by Commissioner of Customs: July 7, 1976.

Docket Number: 76-00468. Applicant: University of California—Lawrence Berkeley Laboratory, East End of Hearst Avenue, Berkeley, California 94720. Article: Raman Spectrometer System, Model HG-2S1 (double monochromator) including accessories. Manufacturer: Jobin-Yvon Optical Systems, France. Intended use of Article: The article is intended to be used in fundamental research in the following investigations:

(1) The detection, identification and structural characterization of novel compounds.

(2) Identification and structural information on a variety of substances, both in the solid-state and in solution.

(3) Utilization of Raman spectra in heterogeneous catalysis studies intended to yield bonding information on molecules adsorbed onto surfaces.

(4) Measurements on metal cluster compounds in connection with the use of these materials as catalysts.

(5) Studies of coal chemistry.

(6) Measurements on chelate compounds of actinide elements for purposes of identification and structural characterization. Application Received by Commissioner of Customs: July 7, 1976.

Docket Number: 76-00469. Applicant: Colorado State University, Ft. Collins, Colorado 80523. Article: Electron Microscope, Model HU-12A. Manufacturer: Hitachi Ltd., Japan. Intended use of Article: The article is intended to be used for research and diagnostic pathology in the following projects:

(1) Study of virus particles in partially purified preparations of diagnostic samples and tissue extracts.

(2) The morphology (high resolution) of MCF, picornavirus and other small viruses in cell cultures and tissues.

(3) The study of actin and myosin in situ and in isolated preparations following treatment of exposure to anthracycline antibiotics.

(4) The study of nuclear and mitochondrial DNA following treatment of rabbits and myocardial cell cultures with adriamycin. Application received by Commissioner of customs: July 7, 1976.

Docket Number: 76-00470. Applicant: Yale University, Purchasing Department, 260 Whitney Avenue, New Haven, Connecticut 06520. Article: Electron Microscope, Model EM 10A and accessories. Manufacturer: Carl Zeiss, West Germany. Intended use of Article: The ar-

V 41 153 AUG 6 76 UMI

ticle is intended to be used for studies of DNA from both small and large viruses, cellular and viral RNA molecules, subcellular organelles, such as ribosomes and isolated chromosomes. Studies will be conducted to determine the structure of DNA at its most elementary level and the role of the structure in its function. Application received by Commissioner of Customs: July 7, 1976.

Docket Number: 76-00471. Applicant: Milton S. Hershey Medical School of the Pennsylvania State University, 500 University Drive, Hershey, PA 17033. Article: Ultramicrotome, Model LKB 8800A and accessories. Manufacturer: LKB-Produkter AB, Sweden. Intended use of article: The article is intended to be used for biological studies involving investigations of control rat hearts. A model of whole heart ischemia will be used in the experiments to determine the effects of oxygen deprivation as a result of decreased retrograde flow through the entire coronary arterial tree. These experiments will be complemented by studies on the effects of anoxia and hypoxia on the isolated perfused rat heart. Other experiments will include the following studies: (1) changes in the morphology of the myocardium using the above model, (2) evaluation of alterations the lysosomal system using a modification of the Gomori reaction for demonstration of acid phosphatase, (3) modification in the ultrastructure of the transverse cell boundary using lanthanum perfusion and ferritin as a marker for the extracellular space. Application received by Commissioner of Customs: July 7, 1976.

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00255-01-41750. Applicant: Texas Tech University, Dept. of Chemistry, Lubbock, Texas 79409. Article: Willhart Jig set for holding flasks, funnels and ball joints and Sockets, set of three and Single internal universal glass jig for tubes, flasks, dewars, coils, beakers. Manufacturer: W. R. Eberhart Glass Blowing, Canada. Intended Use of Article: The article is intended to be used for the fabrication of scientific glass apparatus used in chemistry research, the main purposes being to hold joint and concentric tubes in alignment during fabrication on the glass lathe.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article has the capability of maintaining joint and concentric tube alignment during fabrication on the glassblower's lathe. The National Bureau of Standards (NBS) advises in its memorandum dated February 28, 1975 that the capability of the article described above is pertinent to the purposes for which the article is intended to be used. NBS further advises that it knows of no instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6 (c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before August 26, 1976.

Amended regulations issued under cited Act, (15 CFR 301) prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00472. Applicant: University of Chicago, Department of Chemistry, 5735 South Ellis Avenue, Chicago, Illinois 60637. Article: Extended Interaction Oscillator and Power Supply. Manufacturer: Varian Associates of Canada Ltd., Canada. Intended Use of Article: The article is intended to be used for studies of rare earth ions in inorganic and organic crystalline materials (e.g. lanthanum trichloride and lanthanum nicotinate crystals). Electronic states, hyperfine interactions, and structures of the environments of these ions will be investigated. Reserve Endor (electron nuclear double resonance) experiments will also be conducted. The article will also be used in research work of graduate students of candidates for the degree of Ph. D. in the Department of Chemistry. The educational objective of this research is the training and production of original investigators in the basic fields of chemistry and chemical physics. Application received by Commissioner of Customs: July 14, 1976.

Docket Number: 76-00473. Applicant: University of California, San Diego, Ocean Research Division, A-020, La Jolla, California 92093. Article: Recording Current Meter, Model RCM-5. Manufacturer: Ivar Aanderaa, Norway. Intended Use of Article: The article is intended to be used for long term measurements and recordings of Antarctic Bottom Water. The research data obtained will be used in teaching courses in ocean circulation. Application Received by Commissioner of Customs: July 14, 1976.

Docket Number: 76-00474. Applicant: Mississippi State University, Department of Plant Pathology and Weed Science, P.O. Drawer PG, Mississippi State, MS 39762. Article: Ultramicrotome, Model LKB 8800A and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article will be used for studies of biological materials which include plant and fungal specimens. Investigations will include ultrastructural studies on normal and diseased plant tissues, developmental studies on fungal systems, subcellular organelle localization in cells and tissues membrane interactions at host-parasite interfaces, and mechanisms of penetration of host tissues by pathogens. In addition, the article will be used to teach sectioning techniques employed in electron microscopy in the courses: PW 8513: Methods in Plant Pathology and Weed Science and PW 8123: Virology. Application Received by Commissioner of Customs: July 14, 1976.

Docket Number: 76-00475. Applicant: The Salk Institute, 10010 North Torrey Pines Road, La Jolla, California 92037. Article: Electron Microscope, Model EM 10A. Manufacturer: Carl Zeiss, West Germany. Intended Use of Article: The article is intended to be used to enlarge the scope of research efforts in that branch of biology which deals specifically with research on the mammalion nervous system. The research projects will include the following:

(1) Localization of specific synaptic neurochemical transmitters—elucidation, identification, mapping, and quantitative estimation of dynamic changes within nerve terminals which contain the transmitter substance norepinephrine.

(2) Enumeration and quantitative morphometry of synaptic junctional profiles—Research built around the discovery that brain tissue fixed by perfusion with glutaraldehyde and exposed only to enthanolic phosphotungstic acid after dehydration produced selective electron staining of synaptic junctional profiles.

(3) Localization of adenylate cyclase and related cell constituents—Locate the enzymes which synthesize or degrade cyclic AMP or which allow changes in cyclic AMP to be manifest on the cytoplasm of the cell.

The article will also be used in the education of post-doctoral and predoctoral scientists and a few graduate students in advanced neurobiology. Application Received by Commissioner of Customs: July 14, 1976.

Docket Number: 76-00476. Applicant: University of California—Los Alamos Scientific Laboratory, P.O. Box 990, Los Alamos, NM 87545. Article: Modelocked Dye Laser System, Model 33 and accessories. Manufacturer: Electro-Photonics Ltd., Ireland. Intended Use of Article: The article is intended to be used to irradiate cryogenic targets resulting in a nuclear fusion project. Typical targets would include various hydrocarbons and materials such as carbon dideuterium. Investigations will be conducted on the absorption and reflection of high power 10.6 micron targets as well as thresholds for fusion. Application Received By Commissioner of Customs: July 14, 1976.

Docket Number: 76-00477. Applicant: University of Chicago—Operator of Argonne National Laboratory, 9700 South Cass Avenue, Argonne, Illinois 60439. Article: Thermal Analysis System, TG-DTA. Manufacturer: Rigaku Inc., Japan. Intended Use of Article: The article is intended to be used to develop data of value to the environment of chemistry and fluidized-bed coal combustion program. More specifically, a variety of reactions associated with pollution control during combustion processes will be investigated by measuring weight changes and heat effects of the solid-gas reactions associated with pollution control. Application Received By Commissioner of Customs: July 14, 1976.

Docket Number: 76-00478. Applicant: Virginia Polytechnic Institute & State University, Department of Geological Sciences, 4044 Derring Hall, Blacksburg, Virginia 24061. Article: Automatic sequential x-ray spectrometer. Manufacturer: Philips Electronics Instruments NVD, The Netherlands. Intended use of Article: The article is intended to be used to analyze samples of naturally occurring rocks and minerals. These samples are to be analyzed for elemental constituents for understanding the origin of these rocks. There will be a careful study of the redistribution of the original elements of rocks along the eastern U.S. Also, correlation of elemental abundances determined by the XRF will be made with uranium and thorium concentrations to provide information on heat production of rocks and its relation to rock chemistry. Application Received By Commissioner of Customs: July 14, 1976.

Docket Number: 76-00479. Applicant: Rutgers Medical School—College of Medicine & Dentistry of New Jersey, Department of Biochemistry, Piscataway, N.J. 08854. Article: Rotating Anode X-Ray System, 6KW. Manufacturer: Rigaku Inc., Japan. Intended Use of Article: The article is intended to be used to do low angle x-ray diffraction studies on a variety of connective tissues which contain collagen, including tendon, skin and spleen reticulum. In addition, the article will be used to train students who are candidates for Ph. D. degrees in biochemistry, post-doctoral fellows who seek further research training, and medical students who are doing research. Application Received by Commissioner of Customs: July 14, 1976.

Docket Number: 76-00480. Applicant: University of New Orleans, Lakefront Drive, New Orleans, LA 70122. Article: Gas Chromatograph-Mass Spectrometer MAT 311A with (Computer Combination, 100 MS). Manufacturer: Varian MAT GmbH, West Germany. Intended Use of Article: The article is intended to be used for studies of complex mixtures of hydrocarbons, halogenated hydrocarbons, fatty acids and their esters, fused ring polycyclic aromatic hydrocarbons, petroleum products and miscellaneous biochemicals. Research studies will involve high and low resolution mass spectrometric identification of as many compounds as possible in complex environmental, biological, and biomedical samples. In addition, the article will be used for Master's level graduate research.

Educational purposes will involve master's level graduate research. Application Received by Commissioner of Customs: July 14, 1976.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. 76N-0244; DESI 10959]

MANUFACTURERS AND DISTRIBUTORS

Certain Dermatologic Anti-Infective and Corticosteroid Combination Prescription Drugs for Human Use Affected by the Drug Efficacy Study Implementation

The Food and Drug Administration is adding a drug product to the list of drugs that may remain on the market pending completion of clinical studies to determine effectiveness. The drug product contains calcium undecylenate and a corticosteroid and is used in the treatment of certain skin disorders. This notice specifies the conditions under which marketing of such drugs may continue.

A notice was published in the FEDERAL REGISTER of December 14, 1972 (37 FR 26623), informing manufacturers and distributors of prescription drugs for human use of the future schedule for implementation of the Drug Efficacy Study. That notice listed certain drugs, together with the justification of their medical need, that may remain on the market pending completion of scientific studies to determine effectiveness, and provided for future additions to, or deletions from, the list. The category of drugs designated III under paragraph 3 of the notice of December 14, 1972, included certain topical antibiotics. In the FEDERAL REGISTER of October 9, 1974 (39 FR 36365), category III was amended to add certain other topical antibiotics and also certain other products containing a non-antibiotic anti-infective component in combination with a corticosteroid with or without another component.

All of the products included in category III had been evaluated in the Drug Efficacy Study and classified as less than effective. Among the products now included in category III is a combination containing neomycin sulfate a corticosteroid, and calcium undecylenate. At present, category III does not include a combination consisting only of a corticosteroid and calcium undecylenate since no such product had been submitted to the DESI review.

The following drug product is the subject of a new drug application that became effective prior to October 10, 1962; however, it was not submitted for review by the National Academy of Sciences-National Research Council in the Drug Efficacy Study Implementation.

Caldecort Ointment, containing hydrocortisone acetate 1 percent, and calcium undecylenate 3 percent; Pennwalt Corp., Pharmaceutical Division, P.O. Box 1710, Rochester, NY 14603 (NDA 10-959).

The Commissioner of Food and Drugs concludes that the product, regarded as possibly effective, should be allowed to remain on the market for the same reasons and under the same conditions as those described in the October 9, 1974 notice, except that the time schedule will necessarily be different from that set forth in the notice.

Accordingly, the category of drugs designated III under paragraph 3 of the December 14, 1972 notice, as amended by the October 9, 1974 notice, is further amended to add to Group D the following combination:

Corticosteroid and calcium undecylenate

The specific conditions under which such drug may be marketed are the same as those described under the heading 2. Drugs in Groups B, C, and D, in the October 9, 1974 notice, except that the date by which protocols are to be submitted for a combination of corticosteroid and calcium undecylenate is November 4, 1976 instead of January 7, 1975, and except that the references to 21 CFR 3.86 are changed to read "21 CFR 300.50." No extensions of time for submission of protocols will be granted.

V 41 1153 AUG 6 76 UMI

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 505, 701, 52 Stat. 1052–1053, as amended, 1055–1056 as amended (21 U.S.C. 355, 371)) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)).

Dated: August 2, 1976.

JOSEPH P. HILE,
Acting Commissioner of Food and Drugs.

PANEL ON REVIEW OF OPHTHALMIC DRUGS

Availability of Panel Report

In accordance with the provisions of a notice to manufacturers concerning medical device classification procedures published in the FEDERAL REGISTER of May 19, 1975 (40 FR 21848), the Food and Drug Administration announces the availability of the report of the classification results of the Panel on Review of Ophthalmic Devices. This report, completed prior to May 28, 1976, the date on which the Medical Device Amendments of 1976 (Pub. L. 94-295) became effective, contains the tentative classification conclusions of the Panel and includes a list of the devices reviewed, the answers to the classification logic scheme questions, and the recommended classification for each device, pursuant to the May 19, 1975, FEDERAL REGISTER notice.

The Panel on Review of Ophthalmic Devices may be reconvened to determine whether to affirm or change the tentative recommendation in the report and, concurrently, to revise the logic scheme set forth in the May 19, 1975 FEDERAL REGISTER notice, where needed, to conform to the classification criteria and other requirements prescribed in Pub. L. 94-295.

The report has been placed on public display at the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, and may be seen during working hours Monday through Friday. Copies of the report are available upon request from the above office.

Dated: August 2, 1976.

JOSEPH P. HILE,
Acting Commissioner of Food and Drugs.

[NADA NO. 65-292V]

ZENITH LABORATORIES, INC.

Potassium Penicillin G Tablets: Notice of Withdrawal of Approval of New Animal Drug Application

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-351 (21 U.S.C. 360b)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), the following notice is issued:

The Food and Drug Administration is withdrawing approval of new animal drug application (NADA) No. 65-292V held by Zenith Laboratories, Inc., 140 Le Grand Ave., Northvale, NJ 07647. The application provides for the use of potassium penicillin G tablets as an antibiotic for dogs and cats.

The firm was requested by letter, dated May 3, 1976, to submit additional efficacy information concerning use of the drug; or in lieu of submitting the required information, the firm was asked to request that approval of its application be withdrawn and to waive its opportunity for a hearing. The firm replied by letter, dated May 18, 1976, requesting that the application be withdrawn.

Therefore, in accordance with § 514.-115(d) (21 CFR 514.115(d)), notice is given that approval of NADA No. 65-292V and all supplements and amendments thereto is hereby withdrawn, effective August 6, 1976.

Dated: July 30, 1976.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

Health Resources Administration

COOPERATIVE HEALTH STATISTICS ADVISORY COMMITTEE

Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the folowing National Advisory body scheduled to assemble during the month of August 1976:

Name: Cooperative Health Statistics Advisory Committee.

Date and Time: August 30-31, 1976, 9 a.m.

Place: Sheraton-Park Hotel, Wardman Tower, 2660 Woodley Road, NW., Washington, D.C.

Open for entire session.

Purpose: The Committee represents the interests of the people of the United States in providing advice and guidance to the Secretary and the National Center for Health Statistics on policies and plans in developing a major new national network of integrated or coordinated subsystems of data collections, processing, and analysis over a wide range of questions relating to general health problems of the population, health care resources, and the utilization of health care services.

Agenda: The Committee will review and discuss the final draft of the Definitions Report and receive a progress report on the activities of the Cost-Sharing Task Force. A report will be given on the Cooperative Health Statistics System Contracts and a discussion of the Bureau of Quality Assurance and the National Center for Health Statistics memorandum of understanding. There will be a discussion of the Data Use Laboratory Activities and Projects and a report on new Applied Statistics Training Institute courses developed for health planners. Suggestions for next meeting dates and agenda items will be discussed.

The meeting is open to the public for observation and participation. Anyone wishing to participate, obtain a roster of members, or other relevant information, should contract Mr. James A. Smith, Room 8-21, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852, Telephone (301) 443-1470.

Agenda items are subject to change as priorities dictate.

Dated: July 28, 1976.

JAMES A. WALSH,
Associate Administrator for Operations and Management.

[FR Doc.76-22866 Filed 8-5-76;8:45 am]

NATIONAL ADVISORY COUNCIL ON NURSE TRAINING

Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following National Advisory body scheduled to meet August 31 and September 1, 1976:

Name: National Advisory Council on Nurse Training.

Date and Time: August 31 and September 1, 1976, 9 a.m.

Place: Conference Room 6, Building 31, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014.

Open for entire meeting.

Purpose: The Council advises the Secretary and Administrator, Health Resources Administration, concerning general regulations and policy matters arising in the administration of the Nurse Training Act of 1971. The Council also performs final review of grant applications for Federal Assistance for capitation, construction and special projects for the improvement of nurse training, and research grants and makes recommendations to the Administrator, HRA.

Agenda: Agenda items will cover announcements; discussion of future dates; administrative and staff reports of a routine nature; and the final review of capitation grant appliactions for Federal Assistance under section 819 of the Public Health Service Act.

Anyone wishing to obtain a roster of members, minutes of meeting, or other relevant information should contact Dr. Mary S. Hill, Room 6008, Federal Building, 9000 Rockville Pike, Bethesda, Maryland 20014, Telephone (301) 496-6985.

Agenda items are subject to change as priorities dictate.

Dated: August 2, 1976.

JAMES A. WALSH,
Associate Administrator for Operations and Management.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

PARK WOODS OF BIRCH POINTE

Office of Interstate Land Sales Registration

[Docket No. N-76-574]

Hearing

In the matter of: Park Woods of Birch Pointe, Birch Pointe Properties, Inc. and John N. Carter, President, 76-193-IS OILSR No. 0-2250-26-30.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d)

Notice is hereby given that: 1. Park Woods of Birch Pointe, Birch Pointe Properties, Inc. and John N. Carter, President, authorized agent and officers, hereinafter referred to as "Respondent" being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1710, et seq.), received a notice of proceedings and opportunity for hearing issued July 9, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Park Woods of Birch Pointe located in Roscommon County, Michigan, contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received July 23, 1976, in response to the notice of proceedings and opportunity for hearing.

3. In said answer the respondent requested a hearing on the allegations contained in the notice of proceedings and opportunity for hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), *it is hereby ordered*, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on September 2, 1976 at 10:00 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before August 12, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: July 30, 1976.

JAMES W. MAST,
Administrative Law Judge.

CIVIL AERONAUTICS BOARD

[Docket 29424]

LEP TRANSPORT, LTD.

Postponement of Prehearing Conference and Hearing

In the matter of Lep Transport, Ltd. (U.K.), d/b/a Lep Transport, Inc. (U.S.A.), Foreign Indirect Air Carrier Renewal (United Kingdom).

Notice is hereby given that the prehearing conference and hearing in the above-entitled matter, now assigned to be held on September 1, 1976 (41 FR 29897, July 20, 1976), is indefinitely postponed.

Dated at Washington, D.C., August 2, 1976.

FRANK M. WHITING,
Administrative Law Judge.

[FR Doc.76-22936 Filed 8-5-76;8:45 am]

[Order 76-8-10; Docket 21448]

SPOKANE-MONTANA POINTS SERVICE INVESTIGATION

Order

Adopted by the Civil Aeronautics Board at its office in Washigton, D.C. on the 2nd day of August, 1976.

By Order 75-10-91, October 22, 1975, the Board directed interested persons to submit comments with respect to whether the above-cited case could or should go forward as then framed;[1] whether the proceeding or parts of it should be terminated; or whether and to what extent the issues in the proceeding should be modified. The Board pointed out that, since the institution of the proceeding, the route systems of Hughes Airwest and Frontier had been modified by route realignments, opening the possibility of many more competitive service opportunities than were contemplated by the original instituting orders, and placing in question the continued desirability of transferring Airwest's Spokane-Kalispell-Great Falls authority to Frontier.

Comments have been received from Northwest Airlines, Airwest, Frontier, the Spokane parties, and the City and Chamber of Commerce of Billings, Montana. Northwest urges that the proceeding be terminated, Frontier that the issues be confined to nonstop authority in the Spokane-Missoula/Billings/Denver markets, and Airwest that the proceeding not go forward but, if it does, that the issue of new authority for Airwest on Spokane-Idaho Falls-Pocatello-Denver and Spokane-Idaho Falls-Pocatello-Salt Lake City-Denver routings be considered.

[1] The proceeding was instituted by Orders 69-9-113, September 18, 1969, and 69-12-33, December 5, 1969, to consider: (1) the amendment of Frontier's then multisegment certificate so as to (a) extend segment 15 beyond Missoula to the new terminal point Spokane, (b) extend segments 4(b) and (c) beyond Billings to the new terminal point Spokane, (c) add the new intermediate point Kalispell to segments 15 and/or 4, or (d) extend segment 15 from the coterminal point Great Falls to the new intermediate point Kalispell, and the new coterminal point Spokane; (2) the amendment of Hughes Airwest's then multisegment certificate for Route 76 so as to extend segment 4(a) by adding Missoula and Billings as new intermediate points and Salt Lake City and Denver as new coterminal points; (3) the amendment of Hughes Airwest's certificate for Route 76 so as to delete the portion of segment 4(a) extending between Spokane and Great Falls; and (4) the amendment of Northwest Airlines' certificate for Route 3 so as to authorize service between Spokane and Denver via Missoula and Bozeman, Montana, and Casper, Wyoming, and between Spokane and Salt Lake City via Bozeman and Missoula.

V 41 153 AUG 6 76 UMI

Billings urges the Board to proceed with the investigation and the Spokane parties recommend that the case remain open, but refrain from making specific recommendations as to its scope.

In its answer to Frontier and Northwest, Airwest objects to Frontier's proposal for limiting the proceeding and states that, if it goes forward, it must include issues dealing with (a) the amendment of Airwest's Spokane-Kalispell-Great Falls route to include Missoula, Billings, and Denver and (b) the amedment of its certificate to authorize Spokane-Denver authority via Idaho Falls, Pocatello, and/or Salt Lake City, with nonstop authority between all points. Answers have also been filed by Frontier and Northwest, along with United Air Lines, who concurs with Northwest and Airwest that the Board should terminate the proceeding. Frontier has filed a reply, accompanied by a motion to file a late unauthorized document, which motion will be granted.

Upon consideration of the above pleadings and of other relevant facts, we have decided to set for hearing the Spokane-Montana Points Service Investigation, Docket 21448, in a significantly modified form as set forth below. This case was instituted over six years ago, and the most recent series of pleadings indicates that there is civic and carrier interest in pursuing the investigation in a modified form. Under these circumstances, we have decided to go forward with the proceeding. However, our decision should not be taken as an indication of whether, at this time, we would proceed to consider this matter were the question of the institution of this proceeding before us for the first time.

We have determined to limit the scope of this proceeding to the question of the need for additional service in the Denver-Spokane market, either nonstop or via Missoula and Billings. While the Denver-Spokane market, which generated 61,650 passengers in 1974, is not large in absolute terms it is the largest market which was in issue in the proceeding as originally framed. Further, the services of United, the incumbent nonstop carrier, have been characterized by high load factors. United's overall nonstop load factors in the market averaged 71 percent in 1974 and 74 percent in fiscal 1975.[2] Moreover, in the July-November 1975 period, load factors ranged from 69 percent in November to 81 percent in July and 89 percent in September.

Further, we have decided to include the consideration of additional Spokane-Denver service via the intermediate points Billings and Missoula, Montana. While the Billings and Missoula-Spokane markets are not large and ordinarily would not warrant consideration of competitive service, as we stated in our order instituting this proceeding, consideration of service from these points to Spokane holds the promise of various public benefits including both first single-plane and single-carrier services beyond Billings and Missoula. Moreover, since the Spokane-Denver market is not overly large, it may be that the operation of additional one-stop services alone would alleviate the load-factor problems which have been experienced on United's services. Further, unlike other proposed intermediate points, there are competing applications on file for authority to serve Billings and Missoula as intermediate points.

Finally, the applicants have not submitted sufficient information for us to determine the environmental consequences of their certificate amendment applications at this time. Therefore, we will require Frontier, Hughes Airwest, and Northwest and any other carriers filing applications in this proceeding to file the information set forth in Part 312 of the Board's Procedural Regulations. We will allow these carriers 30 days from the date of adoption of this order to file their environmental evaluations.

Accordingly, *it is ordered*, That:

1. The Spokane-Montana Points Service Investigation, Docket 21448, instituted by Order 69-9-113, as amended herein, be and it hereby is set down for hearing before an administrative law judge of the Board at a time and place hereafter designated, as the orderly administration of the Board's docket permits;

2. The issues in said proceeding shall include the following:

(a) Do the public convenience and necessity require the certification of an air carrier or air carriers to engage in additional air transportation between Spokane, Washington, on the one hand, and Denver, Colorado, on the other hand, either nonstop or via Missoula and/or Billings, Montana?[3]

(b) If the answer to (a) is in the affirmative, which air carrier(s) should be authorized to engage in such service? and

(c) What conditions, if any, should be placed on the operations of such carrier(s)?

3. Any authority awarded in this proceeding shall be without subsidy eligibility;

4. Frontier Airlines, Hughes Airwest, Northwest Airlines, United Air Lines, and the Billings, Missoula, Spokane, and Denver civic parties, be and they hereby are made parties to this proceeding;

5. Frontier Airlines, Hughes Airwest, and Northwest Airlines and all other carriers filing applications in this proceeding shall file environmental evaluations pursuant to section 312.12 of the Board's Procedural Regulations within 30 days from the date of adoption of this order;

6. Applications, motions to consolidate, and petitions for reconsideration of this order shall be filed within twenty days from the date of adoption of this order and answers thereto shall be filed within ten days thereafter; and

7. The motion of Frontier Airlines for leave to file an unauthorized document, be and it hereby is granted.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76-22937 Filed 8-5-76;8:45 am]

[2] We find, pursuant to 14 CFR 241.19-6, that the release of this service-segment data is in the public interest.

[3] Nonstop service between all four points is in issue.

CIVIL SERVICE COMMISSION

DEPARTMENT OF JUSTICE

Grant of Authority To Make a Noncareer Executive Assignment

Under authority of § 9.20 of Civil Service Rule IX (5 CFR 9.20), the Civil Service Commission authorizes the Department of Justice to fill by noncareer executive assignment in the excepted service the position of Deputy Director, U.S. Marshals Service, Office of the Deputy Attorney General.

INTERGOVERNMENTAL PERSONNEL ACT OF 1970

Allocations of Grant Funds

Pursuant to 5 CFR 900.301(a), notice is hereby given of the allocations of funds available for grants under the Intergovernmental Personnel Act of 1970, Pub. L. 91-648, 85 Stat. 1927. For grants under the Act, Congress has appropriated $15 million for Fiscal Year 1977. Eighty percent of this amount must be allocated by weighted formula among the States and between State and local government needs, as required by section 506 of the Act. Under the Act, the term "local government" also means Indian governing bodies performing substantial governmental functions.

INTERGOVERNMENTAL PERSONNEL ACT
FORMULA GRANT ALLOCATIONS FOR FISCAL YEAR 1977

STATE	TOTAL STATE ALLOCATION	MINIMUM SHARE FOR LOCAL GOV'T NEEDS *
Missouri	$ 259,000	$ 129,500
Montana	70,000	35,000
Nebraska	93,000	46,500
Nevada	70,000	36,500
New Hampshire	70,000	35,000
New Jersey	404,000	251,000
New Mexico	72,000	36,000
New York	1,099,000	805,200

Mississippi	133,000

*Must be a least 50 percent of the State's total allocation

V 41 153 AUG 6 76 UMI

PARAGRAPH 1. *Award of grant funds.*—The allocations for Fiscal Year 1977 are furnished now to permit advance planning for the use of these funds. The funds will be available for award to eligible grantees after September 30, 1976. In most States, formula funds are awarded to a State agency designated by the Governor on the basis of a statewide program developed cooperatively by the State and local jurisdictions.

PAR. 2. *Minimum allocations for individual States and for meeting the needs of local governments.*—When the dollar allocation for a State would be less than $70,000, the U.S. Civil Service Commission has added additional amounts from discretionary grant funds to increase the State's allocation to that level. The minimum allocation for meeting the needs of local governments in each State is established by the Intergovernmental Personnel Act as 50 percent of the State's total allocation.

PAR. 3. *Use of grant funds.*—Under the Intergovernmental Personnel Act, the U.S. Civil Service Commission is authorized to make grants to State governments; to general local governments, or combinations of local governments, that serve a population of fifty thousand or more; or to eligible Indian tribal governments for up to 50 percent of the costs of projects to strengthen personnel administration or to train professional, administrative, and technical employees and officials. To obtain the greatest benefit from limited funds, grant applicants are encouraged to place emphasis on projects that will produce products or otherwise serve as demonstration models for use by other jurisdictions.

PAR. 4. *Obtaining further information.*—State, local, and Indian government executives or other interested persons may obtain further information on the grant program from the appropriate office of the U.S. Civil Service Commission. Formula funds allocated for the use of the fifty States are awarded by the Commission's regional offices. Formula funds allocated for the use of the District of Columbia are awarded by the Commission's Bureau of Intergovernmental Personnel Programs.

UNITED STATES CIVIL SERVICE REGIONS

For convenience in administration of the field service the Commission has divided the United States into regions. The following shows the names of the Commission's regional directors and their headquarters, and the geographical areas over which these officials have jurisdiction, for Intergovernmental Personnel Act programs as well as other Commission programs.

Region	Headquarters	Directors	Area served
Atlanta	1340 Spring Street N.W., Atlanta, Ga. 30309.	David Caldwell	Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee.
Boston	John W. McCormack Post Office and Courthouse Bldg., Boston, Mass. 02109.	Charles A. Maher	Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont.
Chicago	Federal Office Bldg., 29th Floor, 230 South Dearborn St., Chicago, Ill. 60604.	Keith A. Roelofs	Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin.
Dallas	1100 Commerce St., Dallas, Tex. 75202.	Edward Vela, Jr	Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.
Denver	Building 20, Denver Federal Center, Denver, Colo. 80225.	George F. Dwyer	Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming.
New York	Federal Bldg., 26 Federal Plaza, New York, N.Y. 10007.	Virginia M. Armstrong.	New Jersey, New York, Puerto Rico, and the Virgin Islands.
Philadelphia	William J. Green, Jr., Federal Bldg., 600 Arch St., Philadelphia, Pa. 19106.	Robert E. Sperry	Delaware, Maryland, Pennsylvania, Virginia, and West Virginia.
St. Louis	1256 Federal Bldg., 1520 Market St., St. Louis, Mo. 63103.	Robert J. Dunn	Iowa, Kansas, Missouri, and Nebraska.
San Francisco	Federal Bldg., Box 36010, 450 Golden Gate Ave., San Francisco, Calif. 94102.	Francis V. Yanak	Arizona, California, Hawaii, Nevada, and the Pacific overseas area.
Seattle	Federal Bldg., 915 Second Ave., 26th Floor, Seattle, Wash. 98174.	Thomas G. McCarthy.	Alaska, Idaho, Oregon, and Washington.

For the IPA Grant Program in Washington, D.C.:

Joseph M. Robertson, Director, Bureau of Intergovernmental Personnel Programs, U.S. Civil Service Commission, Washington, D.C. 20415.

Dated: August 6, 1976.

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1976

Addition to the Procurement List

Notice of Proposed Additions to Procurement List 1976, November 25, 1975 (40 FR 54732) of the commodities listed below were published in the FEDERAL REGISTER on April 23, 1976 (41 FR 17008).

After consideration of all the relevant data presented, the Committee has determined that the commodities listed below are suitable for procurement by the Government under Pub. L. 92-28, 85 Stat. 77. Accordingly, they are hereby added to the Procurement List.

CLASS 7930

Wax, Floor (IB)
7930-00-205-2870
7930-00-141-5888
7930-00-205-2871

The above commodities will be furnished for GSA Regions 1, 2, 3, 5, and 10 only.

By the Committee.

E. R. ALLEY, Jr.,
Acting Executive Director.

[FR Doc.76-22927 Filed 8-5-76;8:45 am]

PROCUREMENT LIST 1976

Proposed Addition

Notice is hereby given pursuant to section 2(a)(2) of Pub. L. 92-28; 85 Stat. 77, of the proposed addition of the following commodities to Procurement List 1976, November 25, 1975 (40 FR 54742).

CLASS 1560

Wire Bundles
1560-00-222-3876 BF
1560-00-883-4487 BF

Proposed Deletion

Notice is hereby given pursuant to section 2(a)(2) of Pub. L. 92-28; 85 Stat. 77, of the proposed deletion of the following commodity from Procurement List 1976, November 25, 1975 (40 FR 54742).

CLASS 7510

Pointer, Pencil
7510-00-237-4926

Comments and views regarding the proposed addition and proposed deletion may be filed with the Committee on or before September 7, 1976. Communications should be addressed to the Executive Director, Committee for Purchase from the Blind and Other Severely Handicapped, 2009 Fourteenth Street North, Suite 610, Arlington, Virginia 22201.

This notice is automatically cancelled six months from the date of this FEDERAL REGISTER.

By the Committee.

E. R. ALLEY, Jr.,
Acting Executive Director.

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Availability

Correction

In FR Doc. 76-22154, appearing at page 31933, in the issue of Friday, July 30, 1976, on page 31934, the last two impact statements for the Environmental Protection Agency (Nebraska City Power Station No. 1, and Port of Grays Harbor/Kaiser Steel) should have been listed as the last two impact statements under the Department of Defense, Army Corps.

ENVIRONMENTAL IMPACT STATEMENTS

Availability

Environmental impact statements received by the Council on Environmental Quality from July 26 through July 30, 1976. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and comment on draft environmental impact statements in forty-five (45) days from this FEDERAL REGISTER notice of availability. (September 20, 1976) The thirty (30) day period for each final statement begins on the day the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies will also be available at cost from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

DEPARTMENT OF AGRICULTURE

Contact: Coordinator of Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 359-A, Washington, D.C. 20250, (202) 447-3965.

FOREST SERVICE

Draft

Ophir-Dog-Macdonald Pass, Helena National Forest, Powell, Lewis, and Clark Counties, Mont., July 25: The proposed action is the preparation and implementation of an intensive Multiple Use Plan for Ophir-Dog-Macdonald Pass Planning Unit, Helena N.F. The action will affect 50,600 acres of forest land and include the following major changes: a slight reduction in harvest of timber, more emphasis on production of red meat, and more specific direction on management of recreation and unroaded areas. Adverse impacts include soil movement, damage to residual vegetation, and restriction of motorized traffic in some areas. (ELR Order No. 61084.)

Santa Fe National Forest, Geothermal Leasing Rio Arriba and Sandoval counties, N. Mex., July 26: Proposed is the leasing of a 51,571 acre Known Geothermal Resource Area (KGRA) in Santa Fe National Forest and a 29,000 acre area of noncompetitive leasing interest outside the KGRA. The Statement also covers a larger area of about 496,950 gross acres extending southward and northeastward known as an area prospectively valuable for geothermal resources, which includes both the KGRA and noncompetitive area. Potential adverse effects include displacement of soils, removal of surface vegetation, and changes in the quality and quantity of water produced from this area. (ELR Order No. 61089.)

Beartooth Plateau Unit, Shoshone/Gallatin/Custer National Forest, Wyoming and Montana, July 27: Proposed is the implementation of a revised land use plan (multiple use plan) for the Beartooth Plateau Unit; Shoshone (Wyoming), Gallatin (Montana), and Custer (Montana) National Forests. The Unit contains 224,750 acres of National Forest lands and 4,950 acres of private lands. Plans include the provision of lands for timber production, sheep and cattle forage, visitor recreation use, and backcountry use. Adverse effects include increased soil erosion, loss of wilderness character, and loss of 82,400 acres to off-road vehicle use. (ELR Order No. 61095.)

Final

Conroe Unit, Sam Houston National Forest, Montgomery and Walker Counties, N. Mex., July 28: The statement concerns the proposed 10-year management plan for the Conroe Unit of the Sam Houston National Forest. Management goals for the 75,574-acre unit will be directed toward meeting the local and regional needs of the public while respecting the production and carrying capacities of the forest resources. Environmental impacts will be on water quality, soils, vegetation, wildlife and forest aesthetics due to timber harvesting, road and trail construction, and developed recreation facilities. Air quality will be affected by burning of forest floor fuels. Comments made by: DOI, EPA, USDA, and state agencies. (ELR Order No. 61101.)

Travel Registers on Trails and Areas, Olympic National Forest, Clallam, Jefferson, and Mason Counties, Wash., July 29: The proposed project is intended to prohibit motor-vehicle use on approximately 60 miles of trail, and prohibit livestock use on 28 miles of trail in Olympic National Forest. Use of motorized vehicles for cross country travel would also be prohibited. Exceptions to the prohibition on cross country travel to permit passing and overnight camping are defined in the statement. This action is expected to stop environmental degradation on the more fragile areas and reduce damage in areas where recovery is more rapid. No adverse effects are anticipated. Comments made by: USDA, DOI, EPA, concerned groups and individuals. (ELR Order No. 61109.)

DEPARTMENT OF DEFENSE

ARMY

Contract: Mr. George A. Cunney, Jr., Acting Chief, Environmental Office, Directorate of Installations, Office of the Deputy Chief of Staff for Logistics, Washington, D.C. 20310. (202) OX 4-4269.

Final

Carbonyl Chloride Disposition, Rocky Mt. Arsenal, Adams County, Colo., July 28: Proposed is the transfer of carbonyl chloride at Rocky Mountain Arsenal, Colorado. The proposed action involves transporting full ton containers from the storage yard to an existing facility where the material will be transferred into Department of Transportation specification shipping containers, sale of the material by the Defense Supply Agency, and subsequent commercial transportation. Potential emissions of carbonyl chloride from transfer operations will be processed through a scrubber system to insure protection of the working, and general population environments. Comments made by: DOI, HEW, State agencies, Defense Explosives Safety Board. (ELR Order No. 61100.)

V 41 153 AUG 6 76 UMI

ARMY CORPS

Contact: Dr. C. Grant Ash, Office of Environmental Policy Development, Attn: DAEN-CWR-P, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314. (202) 693-6795.

Draft

Ellicott Creek Flood Control, Erie County, N.Y., July 27: Proposed is a flood management plan for the lower Ellicott Creek basin, New York. The plan would provide 100 year flood discharge protection in the towns of Amherst and Tonawanda, and would call for 1.8 miles of major channelization and construction of two diversion channels for high flows totalling 1.8 miles in length. Adverse impacts include temporary increases in noise, dust, odors, and stream turbidity, and the disruption of 9 acres of aquatic creek habitat and 73 acres of terrestrial wildlife habitat. (ELR Order No. 61094.)

Bonneville Lock and Dam, Navigation, Oregon, July 27: Proposed is the construction and subsequent operation of a new navigation lock at Bonneville Dam on the Oregon Shore, south of the existing lock and powerhouse. The new lock chamber would have horizontal dimensions of 86 feet by 675 feet, matching the dimensions of the seven other locks on the Columbia-Snake River Navigation System. Adverse effects include the relocation of one building of the Corps of Engineers Hydraulic Lab and approximately ¼ mile of the Union Pacific Railroad's main line and siding. (ELR Order No. 61098.)

Final

Steuart Investment Co. Permit, Pier Addition, St. Mary's County, Md., July 30: Proposed is the construction of a 974-foot pier addition and installation of five dolphins in the Potomac River at Piney Point, Maryland. The purpose of the project is to provide simultaneous berthing of two oil transport vessels. The pier structure and accompanying vessels will have a negative aesthetic impact on the area, and should a major oil spill occur, significant adverse impacts will affect water quality, fish and wildlife, ecology, economics, and the needs and welfare of the people. (Baltimore District.) Comments made by: DOT, DOI, EPA, USDA, DOC, AHP, and state agencies and concerned groups. (ELR Order No. 61113.)

Oregon Slough Dredging, N. Portland Harbor (2) Oregon, July 28: Proposed is the construction of a navigation channel extension 40-feet-deep and 400-feet-wide from Columbia River to Oregon Slough river mile 1.5, and maintenance dredging of approximately 35 acres of river bottom annually. The project will result in reduction in biological productivity of aquatic and upland environments disturbed by dredging and by deposition of dredged materials, and possible land use changes on disposal areas. (Portland District). Comments made by: DOI, DOC, USCG, HEW, HUD, DOT, EPA, FPC, and state and local agencies, concerned citizens. (ELR Order No. 61103.)

NAVY

Contact: Mr. Peter M. McDavitt, Special Assistant to the Assistant Secretary of the Navy (Installations and Logistics), Washington, D.C. 20350, (202) 692-3227.

Final

Naval PET 3, Teapot Dome Field, Natrona County, Wyo., July 30: Proposed is the development of the Naval Petroleum Reserve No. 3 (Teapot Dome Field), Wyoming to aid in the energy independence program. Approximately 500 new wells will be drilled and oil will be produced at the maximum efficient rate. Peak production will be about 22,000 barrels of oil per day with a 6 year daily production of 12,000 bpd. Impacts will be those associated with petroleum production. Comments made by: AHP, EPA, FEA, HEW, DLAB, and DOI. (ELR Order No. 61111.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Director, Office of Environmental Quality, Room 7258, 451 7th Street SW., Washington, D.C. 20410, (202) 755-6308.

Draft

Punto Oro II Development, Puerto Rico, July 26: Proposed is a housing project known as Punto Oro II Development in Ponce, Puerto Rico. The project will include 1,042 lots in approximately 167 acres, and will also provide community facilities and flood control works for the area. Adverse impacts will be the negative effects on the quality of the Matilde River and temporary increases in air pollution, noise levels, and demand for public services. (ELR Order No. 61091.)

Final

Crofton Village Subdivision, Anne Arundel County, Md., July 26: Proposed is the construction of Crofton Village to provide residential development of 229 acres over 6 years to produce 1,698 dwelling units for a population of about 7,000. Adverse impacts of the project include the conversion of agricultural land to urban use, some increase in air pollution and noise levels, increased storm water runoff, traffic congestion, impact on sewage treatment, and possible impact on an historical site. Comments made by: EPA, DOI, COE, USDA, DOT, and state agencies and concerned citizens. (ELR Order No. 61090.)

Section 104(h)

The following are Community Development Block Grant statements prepared and circulated directly by applicants pursuant to section 104(h) of the 1974 Housing and Community Development Act. Copies may be obtained from the office of the appropriate local chief executive. (Copies are not available from HUD).

Final

617-Acre Sewer Construction, Cuyahoga County, Ohio, July 29: Proposed is the construction of sewer facilities on the property surrounding the Cuyahoga County Airport, Ohio, in order to promote industrial and economic development of the property. Six small sewage treatment plants that presently serve the airport will be abandoned; the new airport sewer system and the industrial area system will both be pumped into a centralized treatment plant. A pump station and force main will be constructed to transmit the airport and industrial wastewater into the City of Euclid sanitary sewer system. The construction process will result in some short-term adverse environmental effects. Comments made by: EPA and state agencies. (ELR Order No. 61108.)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, (202) 343-3891.

BUREAU OF LAND MANAGEMENT

Final

345 kV Transmission Lines, Greenlee Co. to El Paso, Tex. and Arizona, July 30: Proposed is the granting of rights-of-way to Public Service Company of New Mexico and El Paso Electric Company to construct two 345 kV transmission lines, running parallel on a single right-of-way for about four-fifths of the distance from Tucson Gas and Electric Company's Greenlee County substation to El Paso, Texas. The proposed lines will be an extension of the transmission line network from San Juan (Four Corners) generation complex and will be completed in two phases. Adverse effects include the stripping of vegetation and some change in water runoff patterns. Comments made by: DOI, USDA, AHP, HEW, DOT, HUD, EPA, ERDA, (ELR Order No. 61112.)

NATIONAL PARK SERVICE

Draft

Grand Canyon National Park Wilderness Area Mohave and Coconino Counties, Ariz., July 27: This statement proposes the designation as wilderness of 992,046 acres of Grand Canyon National Park in Mohave and Coconino Counties. In addition, 120,965 acres are proposed as potential wilderness additions to be added to the wilderness system at such times as the lands so qualify. The Wilderness designation will restrict management perogatives and limit development of visitor facilities to non-wilderness areas of the park but will have no adverse impact upon the natural, archeological, or historic resources of the area. (ELR Order No. 61093.)

Final

Big Thicket National Biological Preserve, several counties in Texas, July 27: This legislative proposal would provide for the establishment and acquisition of an 84,550-acre Big Thicket National Preserve in Hardin, Jefferson, Orange, Jasper, Liberty, Polk and Tyler Counties, Texas. Adverse effects are related to increased regional tourist industry and regional development. Approximately 20 to 25 people will be displaced. Comments made by: AHP, USDA, COE, DOI, EPA, and State agencies. (ELR Order No. 61099.)

INTERSTATE COMMERCE COMMISSION

Contact: Mr. Richard Chais, Supervisory Attorney Advisor for the Environmental Staff, Room 2370, 12th Street and Constitution Avenue NW., (202) 343-2086.

Draft

Chicago and North Western Transportation Co. Abandonment-Wisconsin, Ashland, Bayfield, and Sawyer Counties, Wis., July 30: Proposed is the abandonment and complete dismantling of the Chicago and North Western Transportation Company's branch line extending approximately 77.3 miles between Hayward and Bayfield, and Ashland Junction and Ashland, Wisconsin. Direct rail service will be eliminated to all the stations on the line. Although minimal, environmental effects attendant to the diversion of traffic from rail to motor carriers would occur. Increases in energy consumption and emissions are anticipated. (ELR Order No. 61110.)

NUCLEAR REGULATORY COMMISSION

Contact: Mr. Benard Rersche, Director of Division of Reactor Licensing, P-722, NRC, Washington, D.C. 20555, (301) 492-7373.

Final

Plutonium Cardiac Pacemakers, July 28: The statement, a generic EIS, refers to the proposed authorization of wide-scale use of plutonium powered pacemakers in cardiac patients. The statement outlines design and testing standards for pacemakers. Environmental impacts discussed include the possibility of plutonium release through accidental breach of the pacemaker, and the effects of exposure to the patient, those around him, and those involved in the handling and transport of the instrument. Comments made by: USCG, EPA, HEW, State and local agencies, and concerned citizens. (ELR Order No. 61105.)

Supplement

3 Mile Island Nuclear Station, Unit 2 (S-1), Dauphin County, Pa., July 26: This statement is a supplement to a final EIS filed with CEQ December 6, 1972. Proposed is the continuation of construction permit CPDR-66 and the issuance of an operating license to Metropolitan Edison Co., Jersey Central Power and Light Co., and the Pennsylvania Electric Co. for the operation of the Three Mile Island Nuclear Station, Unit 2, near Harrisburg, Pennsylvania. The station (Unit 2) has a designed thermal rating of 2772 megawatts with a maximum electrical output of 959 megawatts. Two natural draft cooling towers are utilized for dissipating the waste heat from the closed cycle cooling system. (ELR Order No. 61066.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 407 7th Street SW., Washington, D.C. 20590, (202) 426-4357.

FEDERAL AVIATION ADMINISTRATION

Draft

Stewart Airport, Runway Extension; Orange County, N.Y., July 27: The statement refers to proposed improvements of facilities at Stewart Airport, Jamaica, N.Y. These improvements would include extensions of the existing east-west runway and the taxiway adjacent to Runway 9-27, provision of 2 high speed exit taxiways for Runway 9-27, and the strengthening of the existing portion of Runway 9-27. Little change will take place regarding water resources, vegetation, wildlife or recreational areas. Adverse impacts will occur in the areas of noise exposure, air pollution, and energy resources. (ELR Order No. 61092.)

Richardson Municipal Airport, Dallas County, Tex., July 28: Proposed is the construction of a utility airport in Richardson, Texas to replace an existing privately owned airport adjacent to the project site. Construction plans include a 100' X 4000' runway, a parallel and connecting taxiway, an apron and access road, and lighting and miscellaneous facilities. The project site will consist of 73.5 acres of donated land and additional acquired land for clear zones. Adverse impacts include the displacement of 3 residences and one mobile home, some increase in noise and exhaust emissions, and loss of 75 acres of agricultural land. (ELR Order No. 61102.)

FEDERAL HIGHWAY ADMINISTRATION

Draft

U.S. 2 Bypass of Bemidji, Beltrami County, Minn., July 26: Proposed is the construction of 9 miles of U.S. 2 on new location in Beltrami County. The project would extend from the junction with U.S. 71 approximately 1 mile west of Bemidji, around the west and south of Bemidji, to a junction with inplace U.S. 2 approximately 3 miles southeast of Bemidji (the Bemidji bypass). Major adverse impacts will be increased noise, loss of 335 acres of pastureland, relocation of eight families and three businesses, temporary water degradation and seasonal water pollution due to highway runoff. (Region 5). (ELR Order No. 61085.)

U.S. 30 and Nebraska Highway Improvements, Schuyler and Colfax Counties, Nebr., July 28: This statement discusses three proposed FHWA projects which represent improvements to U.S. Highway 30 and Nebraska Highway 15 in the Schuyler, Colfax County, Nebraska area. FR-15-3(103)119 extends south from 11th and Colfax a distance of 1.7 miles on Nebraska Hwy. 15. FR-FG-3(102)119 represents a new four lane divided viaduct over the Union Pacific Tracks on Nebraska Hwy. 15 from 11th to 16th Streets, in Schuyler. FR-15-3(101)119 would improve U.S. 30 from Denver St. east to B Street and also Nebraska Hwy. 15 from the intersection with U.S. 30 north to 17th St. A 4(f) statement is included (Region 7). (ELR Order No. 61104.)

SR 53, Rome to Calhoun, Floyd and Gordon Counties, Ga., July 29: Proposed is the upgrading and new construction of 20 miles of SR 53, from the intersection of Anderson and North Broad streets in Rome to the southwest city limits of Calhoun at the Oothkalooga Creek Bridge, to a four-lane roadway. Adverse effects are displacement of sixty-six individuals; increased traffic-generated noise and air pollution near the highway; loss of an unspecified number of acres of agricultural land; possible increases in siltation and erosion; and encroachment onto flood plains with displacement of some game habitat. Comments made by: DOI, USDA, HUD, EPA, COE, HEW, and State and local agencies. (ELR Order No. 61106.)

US 24, Kansas City, Wyandotte County, Kans., July 26: The proposed action is the upgrading of 1.089 miles of US 24 in Kansas City. The project (associated with Urban Renewal Plan Number Kansas R-28) begins on State Avenue west of 11th Street and ends on Washington Blvd. at 5th street. Section 4(f) land from Big Eleven Park and the John F. Kennedy Recreation Area will be affected. Two businesses and one house will be displaced; the noise level will increase. Comments made by: USDA, EPA, HUD, DOI, and State agencies and concerned citizens. (ELR Order No. 61088.)

Route 52, Auburn-Oxford, Worcester County, Mass., July 29: The statement refers to the construction of SR-52 from Oxford north to the existing interchange of US 20 and I-290 in Auburn. The total length of the completed section will be 3.5 miles. Adverse impacts are increased noise levels, and the displacement of 12 families. A 4(f) statement is included for Eddy Pond. Comments made by: DOI, HUD, EPA, 2, and State and local agencies, and concerned citizens. (ELR Order No. 61107.)

I-676, South of Morgan Boulevard to Atlantic Avenue, Camden County, N.J., July 26: Proposed is the construction of a 1.6 mile, 6-lane segment of I-676 from just south of Morgan Boulevard north to Atlantic Avenue in Camden City. Displacements of families and businesses and increased noise levels will result. Comments made by: DOT, USDA, DOC, EPA, USCG, DOI, and State agencies. (ELR Order No. 61087.)

SR 167, from SR 410 to SR 18, Washington Pierce and King Counties, Wash., July 27: The proposed improvement involves the completion of a 7.71-mile section of SR 167, a fully-controlled access freeway with four lanes and four interchanges in the project area, from SR 410 to SR 18 in Washington state. The right of way for 416 acres of land has already been purchased. The purchase of an additional 180 acres is necessary, requiring the displacement of 88 dwellings, 2 commercial buildings, 2 fire stations and 1 city hall. Adverse impacts include the relocation of three streams, and increases in noise pollution, industrial and residential growth. Comments made by: COE, EPA, USDA, DOC, DOI, HUD, and State and local agencies. (ELR Order No. 61096.)

NATIONAL HIGHWAY TRAFFIC SAFETY ADMIN.

Draft

Motor Vehicle Occupant Crash Protection, July 30: This statement discusses several alternative actions which the Federal government could take to protect motor vehicle occupants from death or injury resulting from traffic accidents. These alternatives are (1) to continue the existing version of Federal Motor Vehicle Safety Standard 208; (2) to require States to take action to increase seat belt use; (3) to conduct a Federal field test of passive restraints; (4) to require that manufacturers provide passive restraints on all cars; or (5) to require that manufacturers make passive restraints available on some models. (29 pages). (ELR Order No. 61114.)

U.S. POSTAL SERVICE

Contact: Emerson Smith, Director, Office of Buildings Analysis and Design, Real Estate and Buildings Department, U.S. Postal Service, Washington, D.C. 20260, (202) 245-4242.

Final

Kennedy Airport Air-Mail Facility, Queens County, N.Y., July 27: Proposed is the construction of a 650,000 square foot building at the Kennedy International Airport to transfer, process, and distribute air mail. The facility, which will allow for the consolidation at one site the functions currently conducted at three dispersed sites, would be constructed on a 20-acre site near the north boundary of the airport. Comments made by: EPA, DOI, HEW, DOT, and State agencies. (ELR Order No. 61079.)

GARY L. WIDMAN,
General Counsel.

[FR Doc.76-22879 Filed 8-5-76;8:45 am]

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

NATIONAL PLAN FOR ENERGY RESEARCH, DEVELOPMENT AND DEMONSTRATION

Public Meetings

The Energy Research and Development Administration (ERDA) announces the third in a series of public meetings on its National Plan for Energy Research, Development and Demonstration: Creating Energy Choices for the Future (ERDA 76-1). The meeting will be held September 21 and 22 in San Francisco, California at the Sheraton Palace Hotel with the sessions beginning at 8:30 am on both days.

The purpose of the public meetings is to acquaint the public with ERDA's long-term comprehensive energy plan and to elicit public comment on all aspects of Federal energy research, development and demonstration, including emerging energy technologies. It is ERDA's intent to conduct a meaningful dialogue with local, state and regional groups and citizens concerning regional energy issues. These meetings are a major element in that process. A public meeting in Boston is planned also for later this year. Details, times and locations of any additional public meetings will be announced in future notices.

The format of the public meetings is designed to assure a meaningful dialogue. A panel composed primarily of ERDA Assistant Administrators responsible for the energy production, environment and safety, and conservation technologies described in the National Plan will be present at each public meeting to explain the purpose and content of the Plan and to receive the comments of the public. The moderator for the sessions

V 41 153 AUG 6 76 UMI

will be announced prior to each public meeting.

Single copies of the Plan may be obtained by writing to US–ERDA, Technical Information Center, P.O. Box 62, Oak Ridge, Tenessee 37830. Copies will also be available for inspection at ERDA Headquarters (20 Massachusetts Avenue, NW., Washington, D.C.) and at all ERDA Operations Offices.

A notice of intent to make a presentation at the San Francisco meeting should be addressed to Ms. Martha Dixon, 1333 Broadway, Oakland, California 94612.

This notice of intent should set forth:

1. The name and address of the participant;

2. The nature of the participant's interest in the National Plan, and the participant's organizational affiliation, if any;

3. The length of time requested for the presentation; and

4. Where practicable, the text of any statements to be presented, or a reasonably detailed summary thereof.

The notice to make a presentation must be received no later than one week in advance of the meeting to ensure scheduling. An effort will be made to schedule the full time requested, but, in order to assure all participants a fair opportunity to present their views within the time constraints, the presentations may be limited in length. Interested persons who have not filed a timely notice of intent to make a presentation may notify the moderator during the meeting of their desire to become participants. If time permits, the moderator will allow these persons the opportunity to make formal presentations.

Time will also be allotted during each public meeting to permit members of the audience to pose appropriate questions to the panel. Persons who do not wish to make an oral presentation, or whose schedules do not permit appearance at the meeting may submit a written statement to ERDA for consideration. The statements should be sent to the aforementioned address.

Dated at Washington, D.C. this 30th day of July 1976.

For the Energy Research and Development Administration.

RAYMOND G. ROMATOWSKI,
Assistant Administrator for Administration.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 595-5]

AMBIENT AIR MONITORING REFERENCE AND EQUIVALENT METHODS

Amendment to Equivalent Method for SO_2

Notice is hereby given that EPA, in accordance with 40 CFR Part 53 (40 FR 7044, February 18, 1975), has approved the addition of two options to SO_2 equivalent method number EQSA–1275–005 (FEDERAL REGISTER, Vol. 41, page 3893, January 27, 1976). The method identification is accordingly amended to read as follows:

EQSA–1275–005, Lear Siegler Model "SM1000 SO_2 Ambient Monitor," operated on the 0–0.5 ppm range, at a wavelength of 299.5 nm, with the "slow" (300 second) response time, with or without any of the following options:

SM–1 Span Timer Card
SM–2 Alternate Sample Pump

This method is available from Lear Siegler, Inc., Environmental Technology Division, 74 Inverness Drive East, Englewood, Colorado 80110.

This change is made in accordance with 40 CFR 53.14 and is based on additional information and test data submitted by the applicant subsequent to the original designation (41 FR 3893, January 27, 1976). The new information wil be kept on file at the address shown below and will be available for inspection to the extent consistent with 40 CFR Part 2 (EPA's regulations implementing the Freedom of Information Act).

As an equivalent method, this method is acceptable for use by States and other control agencies for purposes of section 51.17(a) of 40 CFR Part 51 ("Requirements for Preparation, Adoption, and Submittal of Implementation Plans") as amended on February 18, 1975 (40 FR 7042). For such use, the method must be used in strict accordance with the operation or instruction manual provided with the method and subject to any limitations (e.g., operating range) specified in the applicable designation (see description of method above). Modifications of a designated method used for purposes of § 51.17(a) are permitted only with prior approval of EPA. Provisions for vendor modification are given in 40 CFR 53.14, and provisions for user modifications are given in 40 CFR 51.17a(f) (promulgated on March 17, 1976; 41 FR 11255).

Additional information concerning the use of this designated method may be obtained from the original Notice of Designation (41 FR 3893, January 27, 1976) or by writing to: Director, Environmental Monitoring and Support Laboratory, Department E (MD–76), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711. Technical questions concerning the method should be directed to the manufacturer.

CARL R. GERBER,
Acting Assistant Administrator for Research and Development.

[FRL 594-3; OPP—180082]

DELAWARE DEPARTMENT OF AGRICULTURE

Issuance of a Specific Exemption To Use Guthion To Control the Carrot Weevil

Pursuant to the provisions of section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), notice is hereby given that the Environmental Protection Agency (EPA) has granted a specific exemption to the Delaware Department of Agriculture (hereafter referred to as the "Applicant"). Azinphos methyl (Guthion) will be used on 700 acres of the commercial processing carrot crop for the control of the carrot weevil in areas throughout the State of Delaware. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, issued December 3, 1973 (38 FR 33303), which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information required by regulation to be included in the notice. For more detailed information, interested parties are referred to the application on file with the Registration Division (WH–567), Office of Pesticide Programs, EPA, 401 M Street, SW., Room E–315, Washington, D.C. 20460.

According to the Applicant, the Carrot Weevil (*Listronotus oregonensis*) has damaged carrot crops on numerous farms throughout Delaware; the entire crop has been lost in some cases. Carrot weevil larvae tunnel in the tap root of carrots, leaving rust-colored feeding trails. Larval feeding early in the season results in mortality of seedling carrots, reducing the row-density. Later injury reduces the quality of market carrots, rendering many unmarketable. Further losses occur when carrots are placed in cold storage due to increased incidence of storage rot disease organisms (fungi and bacteria) which enter the carrots through weevil larvae feeding tunnels. The Applicant stated that, when the carrot weevil is not controlled, the average loss is approximately 25% of the crop, at about $150 per acre.

There appear to be neither alternative registered pesticides nor non-chemical methods of control available to control this insect. The Applicant proposed to apply azinphos methyl (Guthion) to commercial carrots grown for processing under contract to five food processors. The pesticide will be applied at the rate of one-half (½) pound of actual insecticide per acre. Up to six (6) applications may be applied at ten day intervals during the growing season, with a thirty-five (35) day pre-harvest interval. The Applicant stated that azinphos methyl has been used on other crops in Delaware for many years; it has been applied by ground and aerial equipment. The Applicant also stated that Delaware aerial applicators are familiar with this insecticide and with proper use procedures in order to avoid adverse effects on man and the environment.

The Fish and Wildlife Service of the U.S. Department of the Interior has advised EPA that no significant effects on fish and wildlife populations are expected from this limited use of azinphos methyl.

After reviewing the application and other available information, EPA has determined that (a) a pest outbreak of carrot weevils has or is about to occur; (b) there is no pesticide presently registered and available for use to control the carrot weevil in Delaware; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant economic problems may result if the carrot weevils are not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until August 31, 1976, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following restrictions:

1. Azinphos methyl applications are limited to commercial processing carrot crops;

2. The azinphos methyl (Guthion) will be applied by ground equipment or aircraft;

3. The dosage rate may not exceed one-half (½) pound of actual azinphos methyl per acre per application;

4. The number of applications may not exceed six (6);

5. A thirty-five (35) day pre-harvest interval must be observed;

6. Carrot tops treated with azinphos methyl may not be used for feed, food, or forage;

7. A residue level not to exceed 0.5 ppm on carrot roots used for processing has been determined to be adequate to protect the public health. The Food and Drug Administration of the U.S. Department of Health, Education, and Welfare, has been advised of this action; and

8. The Division of Production and Promotion, Delaware Department of Agriculture, is responsible for ensuring that the restrictions pursuant to this specific exemption are met.

Dated: July 29, 1976.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

[FRL 593-8; OPP-240002A]

STATE OF VIRGINIA

Approval of Amendment of Request for Interim Certification To Register Pesticides To Meet "Special Local Needs"

Pursuant to Section 24(c) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), the State of Virginia submitted to the Environmental Protection Agency (EPA) a request for Interim Certification to register pesticides for special local needs (Request), which was subsequently approved on November 20, 1975. Notice of approval of this Request was published in the FEDERAL REGISTER on December 11, 1975 (40 FR 57713). This initial Request sought authority to amend EPA registrations that involve "changed use patterns", as that term is defined in section 162.152(c) of the proposed regulations as they were published in the FEDERAL REGISTER on September 3, 1975 (40 FR 40538), and to amend EPA registrations that did not involve changed use patterns.

On April 30, 1976, the State of Virginia sought to amend their Request to include authority to register "new products", as that term is defined in Section 162.152(g) of the proposed regulations. This Agency has found that the specific requirements for registration of new products are satisfied in the Virginia Request, in that Virginia's registration program provides for both efficacy determination and product hazard review.

Accordingly, notice is hereby given that the Administrator, EPA, has approved the amendment from the State of Virginia for Interim Certification allowing that State the authority to register new products. The State agency designated responsible for issuance of such registrations, the Virginia Department of Agriculture and Commerce, was notified on May 27, 1976, that the amendment to its Request had been approved.

Copies of the amendment to the Request for Interim Certification from Virginia, along with the letter reflecting the Agency's decision to approve the amendment, are available for public inspection at the following locations:

Federal Register Section, Technical Services Division (WH–569), Office of Pesticide Programs, EPA, Room 401, East Tower, 401 M Street, SW., Washington, D.C. 20460.

Pesticide Branch, Hazardous Materials Control Division, EPA, Curtis Building, 6th and Walnut Streets, Philadelphia, Pennsylvania 19106.

Dated: July 29, 1976.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

SCIENCE ADVISORY BOARD EXECUTIVE COMMITTEE

Open Meeting

Pursuant to Public Law 92–463, notice is hereby given that a meeting of the Executive Committee of the Science Advisory Board will be held on August 24 and 25, 1976. The meeting will begin at 9:00 a.m. on both days in Room 1101, Waterside Mall West Tower, 401 M Street, S.W., Washington, D.C.

The agenda includes reports on the activities of member committees, consideration of a report: "Assessment of Scientific Information on Nitrosamines" by an ad hoc study group; discussion of Agency plants to review and update existing Air Quality Criteria; action to determine the approach of the Science Advisory Board to requests from the Agency to (a) review research programs concerned with emissions from vehicles equipped with catalytic exhaust control devices and (b) review a document relative to airborne lead in the environment, being prepared under Section 108 of the Clean Air Act; further consideration of Agency approaches to funding extramural research and development; and member items of interest.

The meeting is open to the public. Any member of the public wishing to attend, participate, present a paper, or obtain additional information should contact Dr. Thomas D. Bath, Executive Secretary, Science Advisory Board Executive Committee (202) 755–0263, no later than August 20, 1976.

Dated: August 2, 1976.

THOMAS D. BATH,
Staff Director, Science Advisory Board.

[FR Doc.76-22965 Filed 8-5-76;8:45 am]

[FRL 595-4]

TECHNICAL ADVISORY GROUP TO THE MUNICIPAL CONSTRUCTION DIVISION

Open Meeting

Pursuant to Public Law 92–463, notice is hereby given that a meeting of the Technical Advisory Group to the Municipal Construction Division will be held at 9:00 a.m. on August 30–31, 1976. On August 30 the meeting will be held at Crystal Mall No. 2, Room 1112, Conference Room A, 1901 Jefferson Davis Highway, Arlington, Virginia. On August 31 the meeting will be held at Waterside Mall, Room 2117–2123, 401 M Street SW., Washington, D.C.

The purpose of the meeting is to review and discuss the Construction Grants program of the Municipal Construction Division; Title II Producement; Status of Grant Obligations; Progress Payments; Value Engineering; Operation and Maintenance; and Facilities Planning.

The meeting will be open to the public. Any member of the public wishing to attend should contact the Executive Secretary, Mr. Harold Cahill, Director, Municipal Construction Division, EPA, Washington, D.C. 20460. The telephone number is area code 202–426–8986.

Dated: July 30, 1976.

ECKHARDT C. BECK,
Acting Assistant Administrator for Water and Hazardous Materials.

[FR Doc.76-22966 Filed 8-5-76;8:45 am]

[FRL 542-8]

QUALITY CRITERIA FOR WATER

Availability of Report

Notice is herewith given that the Environmental Protection Agency has completed a report entitled "Quality Criteria for Water" pursuant to the mandate of section 304(a)(1) of Pub. L. 92–500. Section 304(a)(1) requires the publication from time to time of criteria for water quality that accurately reflect the latest scientific knowledge on the kind and extent of all identifiable effects on health and welfare including, but not limited to, plankton, fish, shellfish, wildlife, plant life, shorelines, beaches, aesthetics, and recreation which may be expected from the presence of pollutants

V 41 153 AUG 6 76 UMI

in any body of water. The report, "Quality Criteria for Water," has been submitted to the Government Printing Office for publication and copies should be available for sale in the near future from the Superintendent of Documents, North Capitol Street between G & H Streets NW., Washington, D.C. 20402. A limited number of prepublication copies will soon be available at U.S. EPA Regional Offices or from the Office of Public Affairs, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

On October 26, 1973, a notice of availability was published for review and public comment on "Proposed Water Quality Criteria" (38 F.R. 29646, October 26, 1973). A six month public comment period was provided, during which numerous comments were received requiring fundamental changes in the criteria document. Generally, comments addressed the lack of treatment technology to bring waste effluents into conformance with criteria levels recommended for ambient waters, cost benefits of implementing waste treatment technology to achieve recommended criteria, lack of monitoring techniques to measure constituents at recommended criteria levels, and energy requirements associated with attempts to achieve the criteria levels. Such comments were not considered to be a basis for substantially altering recommended criteria goals. Such concerns, more appropriately, should be addressed in standards setting or regulatory processes. Water quality criteria are concentrations of water constituents necessary to protect organisms in water, the aquatic ecosystem, and water uses. Such criteria possess no inherent regulatory association and it is believed that their development should not be influenced by such regulatory considerations.

A large body of public comments addressed technical considerations in criteria development, the format for presentation, and the use of unpublished information not available to the public in the development of recommended criteria. These comments were given consideration by the Agency in the development of "Quality Criteria for Water" and, as a result, this report represents a completely revised and updated document in comparison with the 1973 "Proposed Water Quality Criteria."

The 1975 "Quality Criteria for Water" differs from the 1973 proposed criteria in the following ways:

1. Pollutants are listed in alphabetical order rather than by water use categories. This change was based on suggestions received during the initial public comment period that fragmentation of criteria according to particular water uses was difficult to follow for a water constituent. The new format is believed to reflect more nearly the goals of the Act that all waters are to be fishable and swimmable, wherever attainable, by 1983, and that the water quality criteria serve as the National water quality goals for the aquatic environment.

2. Pollutants, with few exceptions, have recommended numerical criteria. In a few instances a fraction of a 96-hour LC50 for a pollutant (e.g., copper, zinc, nickel) has been retained. In order to avoid any ambiguity in the guidance document, every attempt has been made to make the criteria definitive.

3. Ten constituents in the 1973 proposed criteria document have not been included in the "Quality Criteria for Water." These constituents are aluminum, antimony, bromine, cobalt, fluoride, lithium, molybdenum, thallium, uranium and vanadium. Sulfates had a separate criterion in the 1973 EPA publication but are not considered separately in the present volume; instead, they are incorporated as part of the "Total Dissolved Solids" criterion. The ten constituents for which no criteria are presented were omitted because data were not sufficiently convincing to support the development of National criteria. The fact that these or any other substances do not appear in the present volume of the "Quality Criteria for Water" does not preclude their consideration for any standard setting process or their inclusion in future criteria reports.

4. Criteria recommendations for some constituents have been changed (either to more restrictive levels, as with some pesticides, or to less restrictive levels, as with phthalates) as a result of consideration of latest data.

The Agency will continue to develop water quality criteria as data become available and, from time to time, will publish the results of such efforts.

Dated: July 28, 1976.

RUSSELL E. TRAIN,
Administrator.

[FRL 595-6]

AIR MONITORING REFERENCE METHODS; TRACEABILITY OF CALIBRATION STANDARDS

Meeting

The Environmental Protection Agency in its recent regulations has required that calibration standards used in reference methods of concern to air pollution measurements be traceable to certified Standard Reference Materials (SRM) available from the National Bureau of Standards. The Environmental Protection Agency and the National Bureau of Standards both desire that the mechanism establishing the traceability link between working calibration standards and the appropriate SRM be reliable. Protocols for traceability in air pollution measurements do not exist and the Environmental Protection Agency and the National Bureau of Standards will hold a workshop for the purpose of discussing the problems, advantages, disadvantages, and other features of traceability protocols. Of particular concern are the protocols to be used for establishing traceability of commercially available compressed gases used as working standards in air pollution measurements and the subject of the workshop will be limited to these standards.

The workshop will be held September 30–October 1, 1976 at the National Bureau of Standards facility in Gaithersburg, Maryland. There will be a number of invited participants and others who may wish to participate should make their interest known by contacting either Dr. J. A. Hodgeson, National Bureau of Standards, Washington, D.C., phone number (301) 921–3775, or Dr. J. B. Clements, Environmental Protection Agency, Research Triangle Park, North Carolina, phone number (919) 549–8411, extension 2196.

CARL R. GERBER,
Assistant Administrator for Research and Development.

CHEVRON CHEMICAL CO. ET AL.

Filing of Pesticide Petitions

Pursuant to the provisions of section 408(d)(1) of the Federal Food, Drug, and Cosmetic Act, the Environmental Protection Agency gives notice that the following petitions have been submitted for consideration:

PP 6F1822. Chevron Chemical Co., Ortho Div., 940 Hensley St., Richmond CA 94804, proposes that 40 CFR 180.108 be amended by the establishment of a tolerance for combined residues of the insecticide acephate (O,S-dimethyl acetylphosphoramidothioate) and its cholinesterase-inhibiting metabolite O,S-dimethyl phosphoramidothioate in or on the raw agricultural commodity potatoes at 8.0 parts per million (ppm), of which not more than 0.5 ppm is O,S-dimethyl phosphoramidothioate. Proposed analytical method for determining residues is a gas chromatographic procedure using a thermionic detector. PM16 (202/426-9425)

PP 6F1824. Phostoxin Sales, Inc., Box 469, Alhambra CA 91802, proposes that 40 CFR 180.225 be amended by the establishment of a tolerance for residues of the fumigant phosphine from the use of aluminum phosphide in or on the raw agricultural commodities, beans and peas, in dry form, at 0.1 ppm. Proposed analytical method for determining residues is a modification of the procedure of Bruce, R. B., et al., J. Agri. & Food Chem. 10, 18–21, 1962, in which the phosphine residues is oxidized by bromine to phosphate and determined colorimetrically. PM11 (202/755-9315)

PP 6F1814. Uniroyal Chemical, Agricultural Chemical and Research Div., Bethany CT 06525, proposes that 40 CFR 180.259 be amended by increasing the tolerance for residues of the insecticide propargite (2-(p-tert-butylphenoxy)-cyclohexyl 2-propenyl sulfite) in or on the raw agricultural commodity almonds from 0.1 ppm to 1.0 ppm. Proposed analytical method for determining residues is a gas chromatographic procedure using a specific sulfur detector. PM13 (202/755-9315)

Interested persons are invited to submit written comments on any petitions referred to in this notice to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, Room 401, East Tower, 401 M St. SW, Washington DC 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and of others interested in inspecting them. Inquiries concerning specific petitions referred to in this notice may be directed to the designated Product Manager (PM), Registration Division (WH-567), Office of Pesticide Programs, at the above address, or by telephone at the numbers cited. Written comments should bear a notation indicating the number of the petition to which the comments pertain. Comments may be made at any time while a petition is pending before the Agency. All written comments filed pursuant to this notice will be available for public inspection in the office of the Federal Register Section 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: August 2, 1976.

MARTIN H. ROGOFF,
Acting Director,
Registration Division.

[FRL 596-2; OPP-50236/50237, 50238 50239]

CIBA-GEIGY CORP.

Issuance of Experimental Use Permits

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), experimental use permits have been issued to the following applicants. Such permits are in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

No. 100-EUP-48. Ciba-Geigy Corporation, Greensboro, North Carolina 27409. This experimental use permit allows the use of 200 pounds of the insecticide 0-(5-chloro-1-[methylethyl]-1-*H*-1,2,4-triazol-3-yl) 0,0-diethyl phosphorothioate on turf to evaluate control of turf and lawn insects. A total of 25 acres is involved; the program is authorized in the 48 contiguous States and Hawaii and Puerto Rico. The experimental use permit is effective from July 1, 1976, to July 1, 1977.

No. 100-EUP-49. Ciba-Geigy Corporation, Greensboro, North Carolina 27409. This experimental use permit allows the use of 300 pounds of the insecticide 0-(5-chloro-1-[methylethyl]-1-*H*-1,2,4-triazol-3-yl) 0,0-diethyl phosphorothioate on turf to evaluate control of turf and lawn insects. A total of 38 acres is involved; the program is authorized in the 48 contiguous States and Hawaii and Puerto Rico. The experimental use permit is effective from July 1, 1976, to July 1, 1977.

No. 100-EUP-50. Ciba-Geigy Corporation, Greensboro, North Carolina 27409. This experimental use permit allows the use of 200 pounds of the insecticide 0-(5-chloro-1-[methylethyl]-1-*H*-1,2,4-triazol-3-yl) 0,0-diethyl phosphorothioate on turf to evaluate control of turf and lawn insects. A total of 25 acres is involved; the program is authorized in the 48 contiguous States and Hawaii and Puerto Rico. The experimental use permit is effective from July 1, 1976, to July 1, 1977.

No. 100-EUP-51. Ciba-Geigy Corporation, Greensboro, North Carolina 27409. This experimental use permit allows the use of 300 pounds of the insecticide 0-(5-chloro-1-[methylethyl]-1-*H*-1,2,4-triazol-3-yl) 0,0-diethyl phosphorothioate on turf to evaluate control of turf and lawn insects. A total of 38 acres is involved; the program is authorized in the 48 contiguous States and Hawaii and Puerto Rico. The experimental use permit is effective from July 1, 1976, to July 1, 1977. This permit and the ones above will use the same active ingredient, but different formulations.

Interested parties wishing to review the experimental use permits are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., SW., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permits may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: August 2, 1976.

MARTIN H. ROGOFF,
Acting Director,
Registration Division.

[FRL 596-1; OPP-50231/50232]

ELANCO PRODUCTS CO. AND PENNWALT CORP.

Issuance of Experimental Use Permits

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), experimental use permits have been issued to the following applicants. Such permits are in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

No. 1471-EUP-57. Elanco Products Company, Indianapolis, Indiana 46206. This experimental use permit allows the use of 545 pounds of the herbicide oryzalin on soybeans to evaluate broad spectrum weed control. A total of 530 acres is involved; the program is authorized only in the States of Alabama, Arkansas, Louisiana, Maryland, Mississippi, Missouri, Nebraska, North Carolina, Ohio, South Carolina, Tennessee, and Virginia. The experimental use permit is effective from June 17, 1976, to June 17, 1977. A permanent tolerance for residues of the active ingredient in or on soybeans has been established (40 CFR 180.304).

No. 4581-EUP-25. Pennwalt Corporation, Tacoma, Washington 98401. This experimental use permit allows the use of 991.2 pounds of the fungicide dimethyl[(1,2-phenylene) bis(iminocarbonothioyl)] bis[carbamate] on soybeans grown for planting seed only; none of the harvested soybeans will be used for feed or food purposes. A total of 1,416 acres is involved; the program is authorized only in the States of Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Maryland, Minnesota, Mississippi, Missouri, Nebraska, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, and Virginia. The experimental use permit is effective from June 17, 1976, to June 17, 1977.

Interested parties wishing to review the experimental use permits are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St. SW., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permits may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: August 2, 1976.

[FRL 594-1; PP6G1679/T73]

GLYPHOSATE

Establishment of a Temporary Tolerance

Monsanto Co., 800 N. Lindbergh Blvd., St. Louis MO 63116, has submitted a pesticide petition (PP 6G1679) to the Environmental Protection Agency (EPA). This petition requests that temporary tolerances be established for residues of the herbicide glyphosate (N-(phosphonomethyl)-glycine) and its metabolite aminomethylphosphonic acid in or on the raw agricultural commodity groups (cf. 40 CFR 180.34(f)) citrus fruits, cucurbits, forage grasses, forage legumes, fruiting vegetables, grain crops, leafy vegetables, nuts, pome fruits, root crop vegetables, seed and pod vegetables, small fruits, and stone fruits, the individual raw agricultural commodities avocados, cottonseed, and hops at 0.1 part per million (ppm) and in the liver and kidney of cattle, goats, hogs, horses, poultry, and sheep at 0.05 ppm. These residues may result from application of the herbicide to the banks of small water impoundments, irrigation ditch banks, and drainage ditch banks.

Establishment of these temporary tolerances will permit the marketing of the above raw agricultural commodities when treated in the manner described above in accordance with an experimental use permit that is being issued concurrently under the Federal Insecticide, Fungicide, and Rodenticide Act.

An evaluation of the scientific data reported and other relevant material has shown that the requested tolerances are adequate to cover residues resulting from the proposed experimental use, and it has been determined that the temporary tolerances will protect the public health. The temporary tolerances are established for the pesticide, therefore, with the following provisions:

1. The total amount of the pesticide to be used must not exceed the quantity authorized by the experimental use permit.

2. Monsanto Co. must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The firm must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or em-

V 41 1153 AUG 6 76 UMI

ployee of the EPA or the Food and Drug Administration.

These temporary tolerances expire July 28, 1977. Residues not in excess of 0.1 ppm remaining in or on citrus fruits, cucurbits, forage grasses, forage legumes, fruiting vegetables, grain crops, leafy vegetables, nuts, pome fruits, root crop vegetables, seed and pod vegetables, small fruits, stone fruits, avocados, cottonseed, and hops, and 0.05 ppm in the liver and kidney of cattle, goats, hogs, horses, poultry, and sheep after this expiration date will not be considered to be actionable if the pesticide is legally applied during the term of and in accordance with the provisions of the experimental use permit and temporary tolerances. These temporary tolerances may be revoked if the experimental use permit is revoked or if any scientific data or experience with this pesticide indicate such revocation is necessary to protect the public health.

(Sec. 408(j), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(j)))

Dated: July 28, 1976.

JOHN B. RITCH, Jr.,
Director, Registration Division.

[FRL 596-4; PP6G1728 T72]

METHAZOLE

Establishment of a Temporary Tolerance

Velsicol Chemical Co., 241 E. Ohio St., Chicago IL 60611, has submitted a pesticide petition (PP 6G1728) to the Environmental Protection Agency (EPA). This petition requests that a temporary tolerance be established for combined residues of the herbicide methazole [2-(3,4-dichlorophenyl)-4-methyl-1,2,4-oxadiazolidine-3,5-dione] and its metabolites, 1-(3,4-dichlorophenyl)-3-methylurea and 3,4-dichlorophenylurea in or on the raw agricultural commodity dry onions at 0.1 part per million (ppm).

Establishment of this temporary tolerance will permit the marketing of the above raw agricultural commodity when treated in accordance with an experimental use permit that is being issued concurrently under the Federal Insecticide, Fungicide, and Rodenticide Act.

An evaluation of the scientific data reported and other relevant material has shown that the requested tolerance is adequate to cover residues resulting from the proposed experimental use, and it has been determined that the temporary tolerance will protect the public health. The temporary tolerance is established for the pesticide, therefore, with the following provisions:

1. The total amount of the pesticide to be used must not exceed the quantity authorized by the experimental use permit.

2. Velsicol Chemical Co. must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The firm must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This temporary tolerance expires August 2, 1977. Residues not in excess of 0.1 ppm remaining in or on dry onions after this expiration date will not be considered to be actionable if the pesticide is legally applied during the term of and in accordance with the provisions of the experimental use permit and temporary tolerance. This temporary tolerance may be revoked if the experimental use permit is revoked or if any scientific data or experience with this pesticide indicate such revocation is necessary to protect the public health.

FEDERAL COMMUNICATIONS COMMISSION

[FCC 76-744; Docket No. 20682]

CHANGES IN ENTERTAINMENT FORMATS OF BROADCAST STATIONS

Development of Policy

Memorandum Opinion and Order re Inquiry [41 FR 22129].

1. The Commission has before it for consideration its Notice of inquiry in Docket No. 20682, 41 F.R. 2859, Jan. 20, 1976, 57 FCC 2d 580 (1976), concerning its policies and practices with respect to changes in the entertainment formats of broadcast stations. Also before the Commission for its consideration are the various comments and reply comments filed in response to the Notice of inquiry. These comments are summarized in Appendix A.

2. This Inquiry grows out of the opinion of the Court of Appeals, en banc, in *Citizens Committee to Save WEFM, Inc.* v. *FCC*, 506 F. 2d 246 (D.C. Cir. 1974), the latest in a line of cases[1] which hold that when an application for the sale of a radio station license is before the Commission, and in connection with that sale the purchaser intends to discontinue the station's existing entertainment format, if there has been expressed a significant amount of public protest to the effect that this change of format, if completed, would deprive the public of an entertainment format not otherwise available in the market, then the Commission must hold a hearing pursuant to section 309 of the Communications Act to determine whether the public interest would be served by a grant of the application. The Commission issued the Notice in this Docket to solicit public comments on the nature of the obligations imposed by these cases and whether the Commission could proceed to implement those obligations harmoniously with the Communications Act and the Constitution.[2]

3. We believe this important question must be examined within the framework of our basic legislative mandate. The Communications Act makes a fundamental distinction between common carrier and broadcast regulation, and, as the Court of Appeals has recognized, there is a degree of mutual exclusivity between them. See, *Hawaiian Telephone* v. *FCC*, 498 F. 2d 771 (D.C. Cir. 1974); Cf. *Federal Power Commission* v. *Texaco, Inc.*, 417 U.S. 380 (1975). Before the Communications Act was adopted, Congress debated carefully whether and to what extent the obligation of common carriage ought to be imposed on radio broadcast licensees.[3] It concluded, in the end, that the domains of radio broadcasting and common carriage ought to be kept distinct, and it enacted section 3(h) of the statute to express this conclusion. Section 3(h) reads: "'Common carrier' or 'carrier' means any person who is engaged as a common carrier for hire, in interstate or foreign communication by wire or radio or in interstate or foreign radio transmission of energy * * *; but a person engaged in radio broadcasting shall not, insofar as such person is so engaged, be deemed a common carrier."

4. Thus the Congress intentionally refrained from extending the full range of regulatory tools deemed appropriate for common carrier regulation to the field of broadcast regulation. While the Communications Act of 1934 created a public right to have access to any common carrier "* * * communications service upon reasonable request * * *", 47 U.S.C. 201(a), Congress expressly rejected proposals to establish an analogous public

[1] *Citizens Committee to Keep Progressive Rock* v. *FCC*, 478 F. 2d 926 (D.C. Cir. 1973); *Lakewood Broadcasting Service, Inc.* v. *FCC*, 478 F. 2d 919 (D.C. Cir. 1973); *Hartford Communications Committee* v. *FCC*, 467 F. 2d 408 (D.C. Cir. 1972); *Citizens Committee to Preserve the Present Programming of WONO (FM)* v. *FCC*, No. 71-1336 (D.C. Cir.) (Order, May 13, 1971); *Citizens Committee to Preserve the Voice of the Arts in Atlanta (WGKA-FM)* v. *FCC*, 436 F. 2d 263 (D.C. Cir. 1970).

[2] Several of the commenting parties, in addition to responding to the merits of this Inquiry, questioned the propriety if not the legality of conducting this proceeding at all. In the opinion of these parties, the opinion of the United States Court of Appeals in *Citizens Committee to Save WEFM, Inc.* v. *Federal Communications Commission*, 506 F.2d 246 (D.C. Cir. 1974), decides as a matter of law what policies may be pursued by this agency when a radio station seeks to modify an entertainment format despite wide-spread listener opposition to the proposed change. We reject this contention, for the reasons set forth in our Memorandum Opinion and Order of March 9, 1976, 58 FCC 2d 617 (1976).

[3] This background is set out in *Columbia Broadcasting System, Inc.* v. *Democratic National Committee*, 412 U.S. 94, 103-109 (1973).

right of access to the broadcast airwaves. Similarly, while the Act requires that common carriers receive Commission authority to commence or discontinue communications services, 47 U.S.C. 214, Congress did not enact an analogous requirement that broadcasters receive Commission authority to commence or discontinue programming, including program format services, offered to the public.

5. Notwithstanding this manifestation of Congressional intent, the Court of Appeals has in recent years attempted to impose various common carrier-like obligations on broadcast licensees, either by reading the Constitution to require it, or by interpreting the "public interest" language of the Communications Act to contain it. In *Business Executives Move for Vietnam Peace* v. *FCC*, 450 F.2d 642 (D.C. Cir. 1971), the Court held that a broadcast licensee's policy of refusing to accept any paid announcements concerning controversial matters of public importance violated both the public interest mandate of the Communications Act and the First Amendment. The Court rejected the proposition that the policies of broadcasters, as essentially private businesses, did not engage the obligations of "state action," and held that, since the station opened its doors to ordinary commercial messages, it could not be heard to assert that advertising, per se, was inherently disruptive of the proper functioning of the station. Having found the broadcasters' conduct to be constrained by the policies of the First Amendment, the Court of Appeals went on to hold that "The content of the idea which the excluded speakers wish to promote is—emphatically—*not* permitted as a distinguishing factor in itself." 450 F.2d at 600 (emphasis in original).

6. The Supreme Court, in reversing this decision, took account of Congress' manifest "desire to preserve values of private journalism under a regulatory scheme which would insure fulfillment of certain public obligations," *Columbia Broadcasting System, Inc.* v. *Democratic National Committee*, 412 U.S. 94, 109 (1973), and noted that "The judgment of the Legislative Branch cannot be ignored or undervalued simply because one segment of the broadcast constituency casts its claim under the umbrella of the First Amendment." 412 U.S. at 103.

7. The format change cases are closely related to the access issue presented in the CBS case. At issue in each situation is basically a conflict between the Commission and the Court of Appeals concerning the appropriate way to implement the policies of Congress under the Communications Act. As in the CBS case, the Court of Appeals here has sought to impose a common-carrier like obligation on radio broadcasters pursuant to its understanding of the public interest language—in this case, section 309—of the Communications Act. In *Michigan Consolidated Gas Co.* v. *Federal Power Commission*, 283 F. 2d 204, 214 (D.C. Cir. 1960), the Court of Appeals observed that a common carrier has "a special legal status and obligations * * * This includes an obligation, deeply embedded in law, to continue service." The Court of Appeals went on to note that abandonment of service could not be lightly granted: if the carrier "Wants to abandon service because it must now share [the] market, or because it prefers to use that gas for more profitable unregulated sales, or because it wants to be rid of what it considers a vexatious servitude, these are not reasons for granting its request. Abandonment may be allowed only if the 'public convenience or necessity' permit."

8. In contradistinction to the "obligation, deeply embedded in law, to continue service" which common carriers must bear, the Communications Act "recognizes that broadcasters are not common carriers and are not to be dealt with as such. Thus the Act recognizes that the field of broadcasting is one of free competition." *FCCS* v. *Sanders Brothers Radio Station*, 309 U.S. 470, 474 (1940). The Court goes on to explain:

> Congress intended to leave competition in the business of broadcasting where it found it, to permit a licensee who was not interfering electrically with other broadcasters to survive or succumb according to his ability to make his programs attractive to the public.

The implication of this holding for entertainment formats is not open to doubt: Broadcasters are to compete with one another, and they must necessarily do so in the domain of program formats, because there is virtually no other form that competition among broadcasters can take. It was through this regime of competition that Congress "aim[ed] * * * to secure the maximum benefits of radio to all the people of the United States." *National Broadcasting Co.* v. *United States*, 319 U.S. 190, 217 (1943).[4] The Court of Appeals all but concedes the inconsistency of its views with those expressed by the Supreme Court in Sanders Brothers by suggesting that more recent cases, such as *FCC* v. *RCA Communications Inc.*, 346 U.S. 86 (1953), or *Hawaiian Telephone Co.* v. *FCC*, 498 F. 2d 771, 776-777 (D.C. Cir. 1974), have placed in doubt the notion that competition was indeed Congress' plan for the broadcast industry under the Communications Act. But neither of these cases concerned the broadcasting industry. On the contrary, these are common carrier cases, whose relevance to the holding in Sanders Brothers is open to very serious question.

9. The record in this Docket bears out the factual correctness of the underlying legislative assumption of competition to which the Supreme Court in Sanders Brothers refers. The Commission's study of program diversity in major markets, whose findings are summarized in Appendix B, decisively shows how effective the tool of competition has been in carrying out Congress' plan for entertainment programming. We find that reliance on this tool will produce program diversity of a sort, and in a form, that equates both to the welfare of radio listeners and to the public interest generally. In addition, there exist practical considerations with constitutional overtones which supplement the issues of statutory interpretation in bringing us to the conclusion that we must refrain from the detailed supervision of entertainment formats which the Court of Appeals holds to be a part of the Commission's statutory responsibilities. These considerations are explained more fully herein.

10. The WEFM decision has far-reaching ramifications for our entire scheme of radio broadcast licensing. Although this case, like the other entertainment format cases which the Court of Appeals has seen, arose in the context of an application for assignment, section 309 deals not merely with transfers but, more broadly, with all written applications which it is the Commission's duty to grant or deny under Title III of the Act. The public interest finding that the Commission is required to make before granting an assignment application is in no respect different from the public interest finding that must be made before a renewal application may be granted; accordingly, nothing which the Commission is obliged to do in order to find that the public interest would be served by the grant of an assignment may properly be omitted in the much more common situation of an application for renewal.

11. The Commission's long and continuing reluctance to define and enforce the "public interest" in entertainment format preservation is based both on practical considerations and on our understanding of the structure and meaning of the Communications Act. The practical problems are simple to comprehend. To determine, in the context of a prospective format change, whether the public interest would be served by allowing it, we must ascertain: (1) What the station's existing format is; (2) whether there are any reasonable substitutes for that format in the station's market; (3) if there are not, whether the benefits accruing to the public from the format change outweigh the public detriment which the format abandonment would entail. Moreover, where a prospective purchaser alleged that its proposed new format would add as much program diversity to the communities in its service area as the abandonement of the old format would subtract, evidence would have to be heard on this issue as well.

12. In the renewal context, the Commission anticipates that the usual format abandonment protest would concern a fait accompli, i.e., would involve a complaint that a licensee, with an obligation to operate his station in the public interest, had deprived its service areas of

[4] The NBC case upheld the Commission's Chain Broadcasting regulations, the first in a series of regulatory efforts to preserve licensee discretion over program material and foster competition in local markets. In upholding the Prime Time Access Rule, a direct descendant of the Chain Broadcasting rules, the Second Circuit noted: "It is clear that the Nation's policy favoring competition is one which the FCC must incorporate in regulating the broadcast media." *National Association of Independent Television Producers and Distributors* v. *FCC*, 502 F. 2d 249, 256 (2d Cir. 1974).

V 41 N 153 AUG 6 76 UMI

a unique format during the previous license term, for which, accordingly, a sanction would in principle lie. The Commission could then well be obliged to designate a hearing on the renewal, similar to that described in paragraph 11, supra, but more complex also, because it might include the question whether a format change had in fact actually occurred.

13. This last question present an acute practical problem stressed in a number of the comments. How is the Commission to define what constitutes a particular entertainment format, and what demarks it from neighboring formats? The Court of Appeals has made it clear that it, for one, will not be satisfied by any Commission attempt to define formats broadly. Hence, "popular music" is not a sufficiently diacritical category to meet the Court of Appeals' conception of our public interest mandate; nor even, we infer, would be "rock music" or "classical music." Instead, the Commission is required to distinguish progressive rock music from the other species of the rock genre, *Citizens Committee to Keep Progressive Rock* v. *FCC*, 478 F.2d 926 (D.C. Cir. 1973); likewise, as the Court of Appeals suggests in the WEFM opinion, we may be obliged to distinguish between 19th Century and 20th Century classical music, 506 F.2d at 264 n.28, and to make, in the context of an application for renewal, very real consequences turn on such distinctions.

14. In practical terms, "format" means program material. As Commissioner Robinson has put it: "What makes one format unique makes all formats unique • • •. Questions of pacing and style, the personalities of on-the-air talent (both individually and in combination with one another) all contribute to those fugitive values that radio people call a station's 'sound' and that citizens' groups (and, alas, appellat judges) call format." 57 FCC 2d 580, 594, 595 (1976) (concurring statement).

15. The elusiveness of a format's definition has a practical consequence in addition to a vagueness that makes it impossible for a broadcaster to know prospectively what sort of entertainment programming the public interest standard requires it to present. The same uncertainty that plagues the licensee's decisionmaking in the first instance will plague our review of the licensee's discretion. The Commission does not know, as a matter of indwelling administrative expertise, whether a particular format is "unique" or, indeed, assuming that it is, whether it has been deviated from by a licensee. Furthermore, we have not been afforded any degree of latitude in summarily deciding whether the station's finances are probative of an untenable format, even assuming it to be unique.[6] Accordingly, the Commission would be obliged in the typical case to hold a hearing on renewal.

16. The evidence on this record supports the conclusion that the marketplace is the best way to allocate entertainment formats in radio, whether the hoped for result is expressed in First Amendment terms (i.e., promoting the greatest diversity of listening choices for the public) on in economic terms (i.e., maximizing the welfare of consumers of radio programs). The market allocation method is not, however, perfect. See Appendix B. We recognize that the market for radio advertisers is not a completely faithful mirror of the listening preferences of the public at large. But we are not required to measure any system of allocation against the standard of perfection; we find on the basis of the record before us that it is the best available means of producing the diversity to which the public is entitled. Appendix 2 of the filing of the National Association of Broadcasters, a description for the advertising trade of the radio stations in the New York and Washington, D.C. markets, shows that in large markets, with many aural services and intense competition, there appears an almost bewildering array of diversity. In New York, the menu includes all-news, classical music, rhythm and blues, Jewish ethnic, Greek ethnic, Spanish, country, modern country, country and gospel, talk, easy listening, middle of the road, show tunes, beautiful music, popular standard, and one which calls itself "mellow." How these various program themes differ from one another, and how each is faithful to its own conception, are questions we need not reach to observe the variety of choices available to radio listeners in the New York market.

17. Format allocation by market forces rather than by fiat has another advantage as well. It enables consumers to give a rough expression of whether their preference for diversity within a given format outweighs the desire for diversity among different formats. As Commissioner Robinson has observed, "with respect to formats which objectively seem identical, people—radio listeners—can and do make distinctions. For example, in most large markets there are a number of • • • formats which seem identical on any objective or quantifiable basis; yet they are far from interchangeable to their respective audiences. Indeed, if people did not distinguish among these stations, there would be no reason for them to co-exist—and little economic likelihood that they would." 57 F.C.C. 2d 580, 594–595 (1976).

18. A recent staff study of audience ratings for major market radio stations lends further credence to this observation. The results of that investigation indicate that audience ratings for major market radio stations tend to differ nearly as much for stations programming similar types of music (e.g., middle of the road) as they do for stations programming markedly different types (e.g., progressive rock as opposed to classical). This finding strongly indicates that audiences carefully discriminate in selecting stations. Given this situation, Professor Bruce Owen of Stanford University has demonstrated that maximization of format diversity will not necessarily lead to increased listener satisfaction.[7] Indeed, Professor Owen shows that efforts to maximize format diversity through regulatory fiat could very well result in a diminution of consumer welfare: a format protected under the WEFM rationale may be of lesser value than the format which the broadcaster proposes to substitute. There is no way to determine the relative values of two different types of programming in the abstract. This is a practical, empirical question, whose answer turns on the intensity of demand for each format. It is impossible to determine whether consumers would be better off with an entirely new format without reference to the actual preferences of real people. In these circumstances, there is no reason to believe that government mandated restrictions on format changes would promote the welfare of the listening public. Indeed, in view of the administrative costs involved in such a program of regulation, and in view of the chilling effect such regulations would doubtlessly have on program innovation, there is every reason to believe that government supervision of formats would be injurious to the public interest. The record in this proceeding clearly points to the conclusion that such a program of regulation would not be compatible with our statutory duty to promote the public convenience, interests and necessity, and we so find.

19. Finally, allocating entertainment formats by market forces has a precious element of flexibility which no system of regulatory supervision could possibly approximate. In our society, public tastes are subject to rapid change. The people are entitled to expect that the broadcast industry will respond to these changing tastes—and the changing needs and aspirations which they mirror—without having to endure the delay and inconvenience that would be inevitable if permission to change had to be sought from a government agency,[8] particularly after a full-scale evidentiary hearing. In this respect, it may not be widely appreciated what, precisely, is entailed in a hearing of the sort contemplated by Section 309 of our statute. It is not a brief or summary affair, but large-scale litigation which imposes enormous costs on the participants and the Commission alike. We do not know with any certainty the magnitude of the burdens imposed on broadcast licensees by hearing procedures of the sort contemplated by the Court of Appeals in WEFM, but it may be instructive to consider the costs to the Commission of the WEFM case, hearings on which have been proceeding pursuant to the Court's mandate on remand. The WEFM hearings may be considered fairly typical of format abandonment hearings; the administrative law judge is required to consider, basically, the issues mentioned in paragraph 11, supra, as well as a financial issue (see footnote 3, supra) and a misrepresentation issue. The ordinary case would generally be similar in complexity. And in this case, an administrative law judge held two prehearing conferences in Washington, D.C.; his preparation time was an additional eight hours. In addition, the Broadcast Bureau trial staff spent above two hundred man-hours of preparation time. Subsequently, hearings were held on nine separate dates in Washington, D.C., and on nine different dates in Chicago, from which a transcript of 3120 pages was compiled. Following the hearings, the Broadcast Bureau spent two hundred and forty hours preparing proposed findings of fact and the administrative law judge will have spent approximately two hundred and eighty hours preparing his initial decision. As Chairman Wiley has observed, "[e]ven after all relevant facts have been fully explored in an evidentiary hearing, we would have no assurance that a decision finally reached by our agency would contribute more to listener satisfaction than the result favored by station management." 57 FCC 2d 580, 586 (1976).

20. These costs, and the uncertainties that impose them, have a constitutional dimension as well. Under the threat of a hearing that could cost tens or hundreds of thousands of dollars, many licensees might consider the risks of undertaking innovative or novel programming altogether unacceptable. Several commenting parties mentioned this effect, and we regard it as of great importance. The existence of the obligation to continue service, we find, inevitably deprives the public of the best efforts of the broadcast industry and results in an inhibition of constitutionally protected forms of communication with no off-setting justifications, either in terms of specific First Amendment or diversity-related values or in broader public interest terms.

21. The administrative process "combines judicial supervision with a salutory principle of judicial restraint, an awareness that agencies and courts together constitute a 'partnership' in furtherance of the public interest, and are collaborative instrumentalities of justice." *Greater Boston Television Corp.* v. *FCC*, 444 F. 2d 841, 851–52 (D.C. Cir. 1970). When such "partners" come to a point of fundamental disagreement, it is incumbent upon us to take a step back and rethink our entire position if this relationship is to be creative rather than destructive. This Docket is the occasion for the Commission to reconsider its policy on entertainment formats. We view the matter as one wtih very serious implications for the structure of the broadcasting industry, the administration of the Communications Act, and the meaning of the First Amendment. Our reflection, aided by extensive public comment on virtually every aspect of this matter, has fortified our conviction that our regulation of entertainment formats as an aspect of the public interest would produce an unnecessary and menacing entanglement in matters that Congress meant to leave to private discretion. Also, this entanglement would certainly result from the Commission placing restrictions on the entertainment programming that a broadcaster could offer, because "a comprehensive, discriminating, and continuing state surveillance will inevitably be required to ensure that these restrictions are obeyed." *Lemon* v. *Kurtzman*, 401 U.S. 602, 619–20 (1971). See also *Columbia Broadcasting System, Inc.* v. *Democratic National Committee*, 412 U.S. 94, 126–27 (1973). Any such regulatory scheme would be flatly inconsistent with our understanding of congressional policy as manifested in the Communications Act, contraproductive in terms of maximizing the welfare of the radio-listening public, administratively a fearful and comprehensive nightmare, and unconstitutional as impermissibly chilling innovation and experimentation in radio programming." We are, of course, cognizant of our responsibility to implement the Court's mandate in the WEFM decision, 47 U.S.C. 403(h), and to that end a hearing on the WEFM assignment has been substantially completed. See Docket 20581, 40 FR 39549 (1975). Thus our statement here should not be viewed as a prejudgment of that proceeding, but rather as an expression of what, upon further serious reflection, we view to be an extremely unwise policy in which we and the Court have both become entangled. To emphasize our concern that the views we have set forth here will not be misinterpreted, the implementation of our new policy will be stayed for sixty days, and, if a petition for review is filed, until judicial review of this Order has been completed.

22. For the foregoing reasons, *it is ordered*, That, the policy set forth above is adopted effective 60 days from the release date of this Order or, if any party seeks judicial review of this Order, upon final disposition of any such review proceeding.

Adopted: July 28, 1976.

Released: July 30, 1976.

FEDERAL COMMUNICATIONS COMMISSION,[9]
VINCENT J. MULLINS,
Secretary

APPENDIX A—SUMMARY OF COMMENTS

1. The Commission received a variety of comments in response to its Notice of Inquiry in Docket 20682 from both broadcasters and several citizen and public interest groups, students and other interested parties.[1] Not surprisingly, given the background of this proceeding, all broadcasters' comments were critical of any attempt by the Commission to regulate the content of broadcast entertainment programming, while citizen and public interest group comments solidly favored Commission intervention in station entertainment format selection. The comments of other interested parties were divided on the question. The arguments for and against Commission regulation of broadcast station entertainment formats centered generally around the Commission's authority and responsibility under the First Amendment, and the statutory guidelines and dictates of the Communications Act of 1934, as amended. This breakdown corresponds to the two important questions we raised in the Notice and the comments may appropriately be discussed in terms of these two considerations.

THE CONSTITUTION

2. Critics and supporters of Commission regulation of entertainment formats agree that the First Amendment applies to broadcasting, *Associated Press* v. *United States*, 326 U.S. 1 (1944); *United States* v. *Paramount Pictures*, 334 U.S. 131 (1948), and that entertainment and music are included within the basic First Amendment protections, *Winters* v. *New York*, 333 U.S. 507 (1948). This, however, is the extent of agreement. Those who urge Commission regulation of entertainment formats on First Amendment grounds cite the following language in *Red Lion Broadcasting Co.* v. *FCC*, 395 U.S. 367

---

[6] In WEFM the Court was careful to note that the relevant financial inquiry was not whether the station had been financially profitable during the tenure of a particular format, because financial losses could proceed from a variety of causes (argued the Court) completely unrelated to the station's program menu. Rather, the relevant inquiry is whether the format might have been viable, 506 F.2d at 265–66. This is, we observe, an almost fantastically speculative point for inquiry, and one not subject to very satisfactory—and certainly not to incontestable—proof.

[7] See Comments of National Association of Broadcasters, Appendix 1.

[8] *National Broadcasting Co.* v. *FCC*, 516 F. 2d 1101, 1133 (D.C. Cir. 1974) (opinion of Leventhal, J.), *vacated*, 516 F. 2d 1180 (D.C. Cir. 1975, cert. denied sub nom. *Accuracy in Media, Inc.* v. *National Broadcasting Co.*, 96 S. Ct. 1105 (1976).

[9] Dissenting statement by Commissioner Hooks and Separate Statement by Commissioner Robinson filed as part of the original document.

[1] A list of parties filing comments is appended to this summary. The National Organization of Women (NOW), who filed the most comprehensive constitutional argument in favor of regulation, states that this holding encompasses five existing elements within the fundamental First Amendment rights of listeners, to wit: (1) the right to receive ideas and information, (2) the right to diverse and antagonistic ideas, (3) the right of minority audiences to be protected by the FCC, (4) the right to be free from monopolistic domination of information sources, and (5) the right to pick and choose from competing entertainment formats and viewpoints. NOW believes that the public has a compelling First Amendment right to hear programming at its first preference level and that broadcasters' "somewhat undefined First Amendment rights" are subservient to the above enumerated rights of listeners.

[8] The Commission has indicated that it would take an extra hard look at the reasonableness of any proposal that would deprive a community of its only source of a particular type of programming. Zenith Radio Corporation, 40 FCC 2d at 231. Having given the entire matter further study, however, we have concluded that such a position is neither administratively tenable nor necessary in the public interest. Rather, as discussed herein, we believe that the market is the allocation mechanism of preference for entertainment formats, and that Commission supervision in this area will not be conducive either to producing program diversity nor satisfied radio listeners.

V 41 153 AUG 6 76 UMI

(1969) (Red Lion), as primary support for that position:

It is the right of the viewers and listeners, not the right of the broadcasters, which is paramount. . . . It is the purpose of the First Amendment to preserve an uninhibited marketplace of ideas in which truth will ultimately prevail, rather than to countenance monopolization of that market, whether it be by the government itself or a private licensee. . . . It is the right of the public to receive suitable access to social, political, esthetic, moral and other ideas and experiences which is crucial here. Red Lion, *supra*, 395 U.S. at 390.

3. Opponents of Commission format regulation argue that the American system of broadcasting has, from the beginning, been founded on the principle that decisions regarding program content should be left to station licensees and that the application of First Amendment guarantees to broadcasters protects and gives life to this principle. Although the broadcast medium presents special circumstances, such as the scarcity of frequency space, which permit certain forms of regulation that would not otherwise be constitutionally permissible, broadcasters unanimously agree that neither Red Lion nor any other constitutional argument can support the type of program regulation suggested by the Court of Appeals in *Citizens Committee to Save WEFM* v. *FCC*, 506 F. 2d 246 (D.C. Cir. 1974) (WEFM). Since it is the Red Lion decision which provides much of the support for those who desire Commission regulation of formats on constitutional grounds, many broadcasters attempt to distinguish this case. The comments on Red Lion range from a charge of "constitutional misinterpretation" (National Association of Broadcasters, NAB), to "a shift in the First Amendment's traditional focus" (Cornhusker Television Corporation, et al., hereinafter "Cornhusker"). It is argued by the National Radio Broadcasters Association (NRBA) that the decision in Red Lion was based on the Court's conclusion that the Fairness Doctrine, while departing from the letter of preexisting First Amendment law, served the historical purpose of the Amendment to promote free and wide-ranging debate on public issues. This result is consistent, says NRBA, with constitutional decisions which permit the government to regulate the content of speech where such content regulation has a minimal impact on communication of ideas and is necessary to achieve a governmental interest of very great importance. NRBA makes the argument that access to different forms of entertainment formats is less compelling in constitutional importance than access to free debate on public issues and that the impact of format regulation on speech content would be far greater and more direct than that of the Fairness Doctrine. Cornhusker argues in its Comments that Red Lion's treatment of the Fairness Doctrine and personal attack rules was based on the long series of FCC rulings in the area, and reliance on Congressional approval of the Fairness Doctrine found in the legislative history of section 315 of the Communications Act. Cornhusker states that the decision dealt with questions concerning broadcaster obligations to present important public questions fairly and without bias, and notes that the Court strongly intimated that other questions related to the Commission's attempted oversight of program content would raise more serious First Amendment issues. Red Lion, supra at 396. Accordingly, it is asserted that Red Lion's doctrine is not a broad mandate that applies with equal force to the wide range of broadcaster program discretion, including format selection. Broadcasters further argue that the subsequent Supreme Court decisions in *Miami Herald Publishing Co.* v. *Tornillo*, 418 U.S. 241 (1974) and *Columbia Broadcasting System, Inc.* v. *Democratic National Committee*, 412 U.S. 94 (1973), have somewhat diluted the far reaching constitutional implications of Red Lion. Especially significant in this regard is the language in DNC, reaffirming the journalistic rights of broadcasters. NOW, on the other hand, finds distinctions in these decisions which make them inapplicable to the central issue under consideration herein.

4. Other constitutional theories were advanced in the comments by those parties who object to Commission regulation of entertainment formats. One of these, asserted by the National Broadcasting Company and many others, is that any attempt by the Commission to develop standards or guidelines to be applied in format regulation would be so vague as to be void under constitutional doctrine. This is so allegedly because broadcast formats contain many components, *i.e.*, music type, music selection and placement, announcers, personalities, number and quality of commercials, specialty features, news scheduling; and a change in any one or combination of such components could constitute a change in a station's program format. Another theory argued is that the action of forbidding the broadcast of a particular format would be an unconstitutional prior restraint of free speech. The NAB claims that governmental application of a prior restraint bears a heavy presumption against validity, requiring for its justification compelling circumstance and procedural safeguards rarely demonstrated to the satisfaction of courts where protected speech is involved. Cornhusker advances yet another constitutional argument, that of the First Amendment doctrine of "Less Drastic Means." This doctrine, according to Cornhusker, limits congressional power to enforce requirements that impinge upon free speech activities and is described as follows:

In a series of decisions (the Supreme Court) has held that, even though the governmental purpose be legitimate and substantial, that purpose cannot be pursued by means that broadly stifle governmental personal liberties when the end can be more narrowly achieved. The breadth of legislative abridgement must be viewed in the light of less drastic means for achieving the same basic purpose.

Shelton v. *Tucker*, 364 U.S. 479, 488 (1960).

Under this doctrine, to vindicate the WEFM requirement for Commission involvement in format selection, Cornhusker argues that if must be shown that the rights of listeners and viewers are unconstitutionally infringed without detailed oversight. It would have to be shown that a monopoly of the otherwise "uninhibited marketplace of ideas" prevail absent detailed FCC program scrutiny. Such a showing, Cornhusker alleges, is virtually impossible. There are "less drastic means" already available for program diversity: the combination of the commercial marketplace,[3] community ascertainment duties; and noncommercial educational radio and television to respond to programming incentives other than those of the commercial marketplace.

5. A recurring theme running through much of the broadcaster comments in the constitutional area is the recognition that the Commission does have the authority to exercise its powers in a way that affects the content of broadcast programming, but that in no instance has this authority been interpreted, by the Commission or the courts, to allow the Commission to override a licensee's discretion as to one type of legally permissible programming and order that a specific type of programming content either be retained, or if it has been removed, reinstated. Moreover, the NAB notes that although some limited FCC instrusions into programming have been approved by the courts,[4] and that other decisions have upheld the Commission's refusal to intrude,[4] no court decisions have compelled the FCC to invade the area of licensee discretion except those dealing with format change. It is argued that such direct and affirmative intervention in broadcast station programming is violative of First Amendment principles. Proponents of Commission intervention, however, argue that intrusion into entertainment format selection is no different, or not radically different, in terms of content control, from the non-entertainment areas where the Commission has intervened in the past, i.e., Fairness Doctrine, political broadcasting, obscenity. Moreover, NOW argues that the Commission already has taken an affirmative role in monitoring and reviewing entertainment programming. Examples of such activity are identified as: (1) the Commission's Prime Time Access Rule which prohibits the use of certain types of feature films and network programs during specific time periods; (2) the comparison of entertainment programming when a "specialized-service" station is competing with a "general-service" station for a license, Policy Statement on Comparative Hearings, 1 FCC 2d 393, 397 (1965); and (3) the examination of program policies and proposals if there are significant differences in the program plans of comparative license applicants. Id at 398. Opponents, however, raise several points in distinguishing Commission involvement in non-entertainment programming. Evening Star states that because of the vital role non-entertainment programs play in informing the public or current news and public affairs, there is a clear and logical public interest in the Commission taking a role in ensuring that such programming addresses the needs and problems of the community of each licensee. Entertainment programming, on the other hand, does not assume the same importance to community needs. Moreover, news and public affairs are not matters of public taste or preference, but rather are of universal interest and concern to the public. Rollins Broadcasting of Delaware, Inc., claims that the "scarcity of frequencies" argument used in Red Lion to support, in part, the need for "government imposed" diversity of viewpoints on controversial issue programming is inapplicable to entertainment programming. This is so because radio station entertainment is basically music provided by records, tapes, and cassettes, each of which is easily available to the public. WNCN Listeners Guild (WNCN) criticizes this reasoning, claiming that reliance on non-radio alternatves would mean that the airwaves no longer belong to the listeners. The NAB claims that the Commission's differing treatment of non-entertainment programming reflects Commission recognition that a station's entertainment format is its primary means of competition, and that competition alone would not result in sufficient news and public affairs programming.

[3] It is repeatedly alleged in the comments that the present commercial marketplace provides a wide, albeit not perfect, diversity of formats.

[4] E.g., Red Lion, supra, 395 U.S. 367; *National Broadcasting Company* v. *FCC*, 319 U.S. 190 (1943); *National Association of Independent Television Producers and Distributors* v. *F.C.C.* 516 F.2d 526 (2nd Cir. 1975).

[4] E.g., DNC, supra, 412 U.S. 94; *Public Interest Research Group* v. *FCC*, 522 F.2d 1060 (1st Cir. 1975).

STATUTORY

6. The comments filed by supporters of format regulation advance little statutory basis for their position other than the general directive of Congress that the Commission regulate in the public interest. It is upon the public benefit that such regulation would allegedly promote, though, that supportera primarily base their case. This benefit is asserted to be a greater diversity of entertainment formats in individual markets, thereby satisfying the programming tastes of more individuals than achieved by non-regulation, *i.e.*, the competitive marketplace. The premise that the widest diversity in entertainment formats satisfies the widest number of listeners, thus promoting the public interest, is not only the belief of format regulation supporters; but also the motivation of the Court of Appeals in directing the Commission to regulate formats to "(secure) the maximum benefits of radio to all the people of the United States." WEFM, supra at 268. Critics of entertainment format regulation not only challenge this premise, but claim that such regulation is contrary to the Act.

7. In commenting upon the Commission's responsibility and authority under the Act, many critics of Commission regulation looked for guidance to the legislative intent of Congress. It is argued that examination of the statute itself, together with previous court interpretation, clearly demonstrates no congressional intent for the Commission to become involved in entertainment format regulation. Metromedia and Doubleday Broadcasting Company, Inc. suggest that Congress' inclusion of section 326 in the Act proscribing censorship is virtually dispositive of the question. Other comments take a less truncated view, but claim that Congress' intent is clear from other indications. For example, although the Supreme Court, as noted in WEFM, has declared that "the avowed aim of the Communications Act of 1934 was to secure the maximum benefits of radio to all the people of the United States," there is no mention in the Act of formats, the nature of format diversity or the way in which such diversity is to be determined. In this connection, it should also be noted that no provision of the Act expressly grants the Commission even so much as general supervisory authority over programming content. Another indication of Congress' alleged intent to preclude the Commission from regulating program content was its desire to create a broadcasting system based on competition. Format regulation opponents claim the WEFM court's statement that "there is no longer room for doubt that, if the FCC is to pursue the public interest, it may not be able at the same time to pursue a policy of free competition" is inconsistent with the intent expressed in the Act and prior judicial interpretation. Congress' intent to create a competitive broadcasting system is said to be evident from its explicit rejection of broadcasters as common carriers (47 U.S.C. 3(h)). Additionally, the Supreme Court recognized this intent of Congress in *FCC* v. *Sanders Brothers Radio Station*, 309 U.S. 470 (1940), when it stated:

Congress intended to leave competition in the business of broadcasting where it found it, to permit a licensee who was not interfering electrically with other broadcasters to survive or succumb according to his ability to make his programs attractive to the public. Id, at 475.

Also cited is the D.C. Circuit's language in *National Association of Theatre Owners* v. *FCC*, 420 F. 2d 194 (D.C. Cir, 1969), cert. denied, 397 U.S. 922 (1970), stating:

• • • Congress apparently believed that once the clear dangers of combinations in restraint of trade were removed, competition among those providing broadcasting services in a given area would best protect the public interest. Id, at 203.

Since format is all a broadcast station has to compete with, it is argued that government dictation of format content will destroy competitive broadcasting.

8. The NAB strongly argues that the intent of Congress is further demonstrated by its inclusion in the Act of section 310(d). This section basically declares that, in passing upon assignment and transfer applications, the Commission may only consider the qualifications of the applicant before it, rather than determining whether some other applicant may be better qualified. The NAB cites several passages from the section 310(d) legislative history, and contends that said language clearly indicates the section was intended to prohibit not only comparisons between the proposed purchaser of a broadcast station and some third party, but comparisons between the qualifications of the seller and the purchaser as well. The NAB notes that in Wichita-Hutchinson Co., 20 FCC 2d 584 (1969), the Commission held that section 310(d) did permit comparisons between a seller and buyer, but maintains that such a holding is in error and should be reversed. Accordingly, the NAB concludes that the Commission is precluded from determining whether a proposed licensee's program format serves the public interest as well, or better than, an existing licensee's program format and that this section cannot serve as a basis for format consideration. NOW disagrees with this interpretation of section 310(d), claiming that the clear language of the statute only prohibits comparing the programming of a seller to the programming of any individual other than the proposed purchaser; and that the statute certainly cannot be read to prohibit the Commission from considering format changes.

9. Where the differences between proponents and opponents of Commission format regulation sharply come into focus is over the question of the extent to which such regulation will "serve the public interest." Proponents contend that the increasing number of protests against proposed format changes demonstrates that programming diversity in many markets is not as broad as it should be. WNCN alleges that broadcast licensees, rather than providing diversity, are moving more and more toward a bland uniformity of programming. This belief is based, in part, on the claimed increasing trend toward syndicated radio programming and the effects of a broadcast marketplace controlled by advertising rating systems. Opponents, on the other hand, argue that the present system of leaving the choice of program format to the discretion of the licensee has produced an extremely diverse, although not perfect, selection of programming, and any attempt by the government to intervene in this process would have severe adverse public interest consequences. In support of this assertion, ABC submitted a report prepared by Robert E. Henabery (hereinafter referred to as the Henabery Report), a consultant on radio positioning, programming and operations and a specialist in new radio format development. The Henabery Report states that broadcast programming, determined by competition, has produced a wide diversity in formats, particularly in the last decade. It is claimed that in the last decade, radio stations have gone from general service programming, i.e., all things for all people, to specialized programming, i.e., one particular program spread throughout the broadcast day. This transition has caused broadcasters to develop programming designed to appeal to specific categories of listeners, spurring a diversity in broadcast fare. In further support of the diversity achieved by operation of the marketplace, the Henabery Report submits the results of a study coonducted in Washington, D.C. and Tulsa, Oklahoma. The report concludes that Washington, D.C. is a highly specialized and, because of its particular ethnic and cultural life, individualized radio market. Tulsa, a smaller market, is beginning to take on more specialization than ever before. The report also concludes that "the greater the number of stations the greater the specialization". The NAB, in Appendix 2 to its Comments, submits a breakdown of format content in New York City and Washington, D.C., and asserts that these formats cater to almost every conceivable taste. Another oft repeated negative public interest result of regulation is that licensees forced to operate with only marginally profitable stations will economize on news, public affairs and other forms of non-entertainment programming.

10. Another basic area of disagreement between regulation critics and supporters is the role competition plays in creating program content diversity. In the competitive marketplace, NOW claims that the factor motivating broadcast programming is a desire to maximize profits through advertising revenue; and in seeking this end, broadcasters rely on the "demographics," rather than the "size," of a particular audience in choosing a program format. NOW states that the concept behind "demographics" is that there are certain audience groups which advertisers desire to reach because these groups are the most likely to spend money for the advertisers' products. It is crucial to the advertiser that the commercial reach as many people as possible who are likely to buy the product, but it is not crucial that the advertisement reach the maximum number of listeners because the advertiser has little interest in reaching individuals unlikely to purchase the product. Accordingly, broadcasters will appeal, through their entertainment programming, to the particular audience that will enable them to maximize advertising revenues. At the same time, broadcasters will shirk program formats which appeal to those audience groups whom advertisers do not wish to reach. Thus, listeners will not receive the type of programming they prefer unless the listener happens to belong to a "demographically" desirable group.

11. Broadcasters basically contend that the forces of competition create a wide diversity of program formats, some of which serve minority tastes, since all stations cannot utilize the same general format and economically survive. If there are 20 stations in the market, the point is very quickly reached where a minority-taste audience would be larger than a station's probable share of a majoritarian-taste audience. Thus, where there are many stations in the market, as there are in most urban markets, minority tastes will be served through the normal market mechanism. There is no dispute that broadcasters program to meet the tastes of particular demographic groups. It is claimed, though, that there is no evidence that radio advertisers, as a group, favor any particular demographic segment of the audience to the exclusion of others. (See Appendix 4, NAB Comments—Analysis of Requests From National Radio Advertisers.) NOW questions the validity of this explanation of marketplace behavior, arguing that the demographics of certain minority taste audiences may not be desired by advertisers. Under these circumstances, no programming will be directed to those minority tastes and the listeners in such groups will be deprived of the benefits of radio at their first preference level. WNCN rejects the Commission's position that regulation may not produce better results in the marketplace than competition, and opines that it could do no worse.

V 41 N 153 AUG 6 76 UMI

12. Regulation critics further allege that government regulation of formats will stifle innovation and experimentation in broadcast programming; resuting in less, not more, diversity. It is claimed that broadcasters will hesitate to try new programming if they fear being compelled to continue it against their better judgment. Comments from some parties indicate that such reluctance to experiment or change formats has already occured since the Court's and Commission's recent treatment of "format cases" (Henabery Report, p. 39; Doubleday Broadcasting Company, Inc.) WNCN claims this is a faulty "assumption," and asserts that until a careful and unbiased study of all format changes in major markets over a meaningful period of time is conducted neither it nor the Commission will know for sure whether this assumption is correct.

13. Another common argument against regulation is that it would result in an admintrative quagmire and extensive oversight. The principle problem in any scheme of format regulation is alleged to be the categorization of programming content. As noted above in this summary, it is claimed that a broadcast station's program format consists of many components, of which entertainment is only one, and that in this sense, all formats are "unique." The components of a radio format are described in the Henabery Report as material, structure and style. Material being what is broadcast by the station, i.e., music, personality coments, news, interviews, contests, weather and traffic bulletins, etc.; structure being the length of the material and its position in the hour relative to other material; and style being the personality of the material and the overall personality of the structure which houses the material, i.e., tempo and familiarity of songs, the mixing of the music, use of logos and jingles, tone of the newscaster. Alteration of any of these elements could produce either a format modification or a format change and, according to Henabery, the line between the two is often difficult to draw. A further problem in categorizing formats is the repeated contention in the comments that the same format may be perceived differently by different people. This conclusion was reached by Entertainment Response Analysts, a broadcast programming research company, after conducting tests on individuals who were exposed to programming believed by the testers to be extremely similar (see Metromedia Comments, Attachment 5). The regulation of formats would also have the Commission examining the day-to-day programming decisions of broadcasters on a constant basis to determine programming shifts; a task alleged to be an administrative nightmare. In addition to these practical problems of regulation, broadcasters question the fairness of regulations which would saddle one broadcaster with only a marginally profitable format, while others who declined to innovate were rewarded with profitable operations. Another question raised is why should the Commission favor one minority taste over another simply because one was tried and one was not. A survey could very well show that an untried format had more of a demand than a tried one that is "unique" and changing. WNCN claims, however, that the regulation required by the WEFM decision is hardly so pervasive as that in other areas, such as obscentity, prime time access, and family viewing. WNCN asserts that "to say adjudication of listeners' challenges to the loss of unique formats constitutes pervasive regulation of licensee speech is like saying that the availability of courts for libel actions involves pervasive regulation of speech and press—neither is true, both are absurd."

14. Finally, it is argued by several opponents of format, regulation that the WEFM decision, and the argument of regulation supporters, is based on the questionable assumption that the public interest is furthered by the greatest diversity in program formats. It is the opinion of Mr. Bruce M. Owen, an assistant professor of economics at Stanford University (see NAB comments, Appendix 1), that there is no necessary relation between diversity and consumer satisfaction. This conclusion is premised on the basis that consumers can and do have preferences among stations with similar formats. It could well be that the addition of a format already in a community would be more efficient in terms of consumer satisfaction.

APPENDIX B

Upon receipt of the comments in Docket 20682, the Office of Plans and Policy undertook an evaluation of the economic arguments raised in those submissions as well as an empirical investigation of radio format diversity in the 25 largest metropolitan markets. The subsequent discussion will set forth our finding regarding the regulation of format changes.

The comments of Professor Bruce Owen of Stanford University merit particularly close attention.[1] Professor Owen presents an excellent analysis of the economic issues surrounding the radio format change cases as well as a convincing demonstration that federally imposed restrictions on format change may actually result in a dimunition of consumer welfare. We are particularly concerned with this latter proposition given that our own empirical investigation tends to support Owen's analysis and subsequent conclusion.

In its format change decisions, the Court of Appeals has always assumed the existence of a necessary relationship between the number of different program formats available in a given market and the welfare of consumers of radio programming. At first glance, this line of reasoning would appear to be sound. If formats belonging to the category are close substitutes, then it follows that format duplication is wasteful. Those who prefer to listen to a particular type of programing gain little through duplication, while other people are deprived of additional listening opportunities. Under these circumstances it would appear that a policy designed to encourage format diversity would serve the public interest.

But this conclusion suffers from a decisive flaw. Stations programming apparently similar formats may not be regarded as close substitutes by listeners. If so, then we can no longer be certain that maximization of diversity among apparently distinct formats would necessarily tend toward maximizing the satisfaction of radio listeners. Listenera may prefer to have more variety of a given type of music than the opportunity to hear a distinctly different type of fare. To illustrate, suppose a station currently programming classical music proposes to change its format to progressive rock. Further suppose that members of the listening public who prefer classical music object on the ground that another station is already devoting most of its broadcast day to rock music. Should the licensee be permitted to change his format?

The answer to this question is not immediately obvious. In theory preference should be given to that format which is of greater value to the consumers. Unfortunately, the Commission will find it impossible to measure the relative values of different formats because there exists no litmus or a priori way of measuring how much particular formats are worth to the audiences. All that can be known is simply how many people listen to available programs.

Unfortunately, the size of a station's audience is not necessarily an appropriate measuring stick of the degree of satisfaction which listeners derive from its programming. That is, two different formats which attract audiences of equal size may not be of equal value. Preferences expressed by the audience of one format may be much stronger than preferences for the other, in which case the former should be the more valuable. In order

[1] See Bruce M. Owen, "Radio Station Format Changes, Diversity, and Consumer Welfare," Appendix 1 of the Comments of the National Association of Broadcasters in Docket 20682.

to ascertain which format is the more valuable, one would have to know the intensity of demand for each. Again, there exists no acceptable, reliable way of measuring aspects of these consumer preferences because consumers are not required to pay for the opportunity to listen to radio. Nor does a willingness by a group of listeners to contest a format change by litigation adequately express a cognizable intensity of preference for the format that they desire to have retained (or recovered). In every case, an intensity value could be assigned only after obtaining some information about the economic resources of the protestants and the opportunity costs associated with their protest. Given the legal complexities and expenses that characterize format change litigation, one would expect that a willingness to go forward with such cases would be especially typical of persons of higher educational attainment and socio-economic status. If this assumption is so, then it follows that rewarding the format preference of protestants would by definition discriminate against the effect on less well-off listeners who might be the beneficiaries of a licensee's proposed new programming plans.

In sum, there exists no economically rational basis for deciding which broadcasters should be allowed to change their formats and which should not. Nor, it may be added, is there any basis on which to conclude that Commission intereference in the absence of such information would accord with any plausible version of the public interest. Even in the largest markets, the number of radio stations is insufficient to assure that every radio listener will have access to his first preference of entertainment programming. This is simply an indication not so much of the imperfections of our advertiser-supported radio industry as it is of the pluralistic nature of our society. However unfortunate, broadcasters will inevitably cater to some tastes at the expense of others, regardless of what institution—whether the free market or the federal government—must bear the responsibility for determining the types of formats that will be made available.

Traditionally, we have relied on competition to make these choices. Admittedly, this is not a perfect mechanism of format selection since those decisions will, for the most part, be made on the basis of which format promises to maximize the size of the audience. Again this may lead to selection of certain formats which are actually of lesser value to consumers than are others which broadcasters could feasibly provide. Whatever the shortcomings of this allocative mechanism, it is highly unlikely that the Commission hearings will improve on it. In the absence of any information on the value which consumers place on particular formats, we simply cannot make a rational judgment as to which formats warrant protection and which do not.

This conclusion is further evidenced by an empirical investigation of format diversity in the 25 largest metropolitan markets. Table 1 summarizes an assessment of the availability of 18 logical groupings of format types in these markets as defined in the 1975 edition of Broadcasting Yearbook.[3] The categorization is, of course, somewhat subjective. For example, the "Black" format category consists of "jazz," "rhythm and blues," "soul" or any combination of the above. The "Classical Music" format, on the other hand, encompasses everything from the baroque oratorios of Handel to P.D.Q. Bach or Leonard Bernstein's "Mass." Afficianados may, of course object strongly to the suggestion that these composers and their works belong in the same pigeon-hole; this indicates that any effort to classify formats will be arbitrary. We therefore hasten to add that Table 1 is meant to provide only a rough indication of format diversity in the 25 largest markets. Moreover, as should be evident from the number and type of sub-categories which make up each of the major groupings (see Table 2), the figures in Table 1 by no means fully reflect the breadth and variety of programming available to listeners in these geographic areas.

In spite of this qualification, the figures indicate a variety of formats are rather evenly distributed across all stations, particularly those operating in the 10 largest markets, not a surprising finding given the rather high degree of competition which characterizes the radio industry in these areas of the country. Financial success is generally determined by the broadcaster's ability to program a format which is both popular and distinct enough to attract a relatively large, loyal audience.

An effort was also made to evaluate the relationship between the type of format programmed by a station and its share of the audience [2] as a rough measure of the degree to which stations programming the same format are considered by consumers to be close substitutes for one another. This is an extremely important point since the notion that format duplication is wasteful rests on the assumption that listeners are no better off when they are furnished with a choice between two stations programming the same type of music than they would be if only one of those stations were available. If this assumption proves to be false, then it is simply fallacious to conclude that seemingly similar program types are in fact duplicative and consequently wasteful. Indeed, preference for one station over another clearly indicates that each is offering a distinctly different type of service. If they are perceived as being different, then we again face the dilemma of deciding which format is the more valuable and worth protecting, knowing full well that restrictions on format change will deprive some other group of a format which they would prefer to listen to if given the opportunity.

The degree of substitution between stations programming the same type of format is very much less than might at first be supposed. We performed a statistical analysis of the relationship between audience shares and the type of programming presented by individual stations in order to test the hypothesis that format type has no effect on audience ratings. If this hypothesis is true, then it follows that our format categories do not realistically indicate how much format diversity is available in these markets. It would also suggest that those stations programming seemingly similar types of formats are perceived by listeners to be quite different and accordingly are not close subetitutes for one another.

The results of this analysis are reported in Table 3. They show that while the type of format did have a significant impact on audience, the magnitude of that impact is relatively small. Specifically, differences in formats accounted for only 6.6 percent of the variation in audience shares. Moreover, the results show that the variation in audience shares within given format types is nearly as large as the variation between different types. Again, this indicates that formats of the same type (as defined in Table 1) are not close substitutes for one another.

There are any number of possible explanations for this phenomenon. As mentioned previously, listeners may perceive distinct differences in the types of programming common to a single format category. To the extent that categories do not capture whatever it is about the station's programming that consumers perceive as "special," they are analytically meaningless and accordingly, do not afford an appropriate basis on which to judge whether a station's programming is "unique."

This problem could be ameliorated to some extend by increasing the number of descriptive categories of formats, but this procedure would complicate an already difficult hearing process in as much as administrative law judges will find it increasingly difficult to assess the extent of format duplication Consequently, their decisions will likely become ever more arbitrary and less intelligible thereby increasing the probability that such decisions will run counter to the public interest. Nevertheless, this is precisely what must be done if the Commission is to follow the procedures applicable to format change protests outlined by the Court of Appeals.

In conclusion, we believe that format regulation is unnecessary and may very well impose costs on the general public. We recognize the shortcomings of the marketplace in allocating formats. However, given the difficulties in defining a meaningful format classification coupled with a total lack of information on the relative values associated with different types of programs, we are convinced that Commission decisions in this matter will automatically lack a rational underpinning. In short, they will simply reflect the subjective and necessarily arbitrary opinions of administrative law judges. We fail to see how this process will result in a more efficient allocation of entertainment formats than would be obtained if programming decisions were left in the hands of broadcast licensees, who are, after all, far more familiar with listeners' tastes.

[2] The share of the audience simply reflects the percentage of all listeners who are listening to radio at a given time which are tuned into a particular station. For example, if station WXYZ has a share of 3 between 7 and 9 a.m., then we know that approximately 3 percent of the audience listening to radio during that period were tuned into WXYZ.

1979 WORLD ADMINISTRATIVE RADIO CONFERENCE ADVISORY COMMITTEE FOR AMATEUR RADIO

Meeting

Date: September 14, 1976.
Time: 9:30 a.m.
Location: Room 6331, 2025 M Street, NW., Washington, D.C..
Agenda: Chairman's welcome and remarks, Call of the Agenda, Secretary's announcements, Review and approval of minutes, June 7, 1976 meeting, Reports from task leaders, Discussion of future milestones and tasks, Discussion of Committee operation and organization, Review of action items, Other business to be determined, Adjournment.
Public participation: Meetings of the WARC Advisory Committee for Amateur Radio are open to U.S. Citizens. Persons not members of the Committee who desire to make a presentation at this meeting should coordinate their presentation with the Secretary, WARC Advisory Committee for Amateur Radio: Peter M. Hurd, 6425 Cygnet Drive, Alexandria, Virginia, 22307. Telephone: (202) 695-0520 or (703) 768-9535. Required information includes: Name, mailing address and telephone number of person making the presentation; outline of material to be presented; duration of presentation; audio/visual aids required. Written statements may also be submitted to the Committee, and should be addressed to the Chairman, WARC Advisory Committee for Amateur Radio (Safety and Special), Room 5114, Federal Communications Commission, Washington, D.C. 20554.

FEDERAL MARITIME COMMISSION

MOORE-MCCORMACK LINES, INC. AND IMPRESA LINES MARITIMAS ARGENTINAS, S.A.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before August 26, 1976. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

J. D. Straton, Jr., Manager, Rates and Conferences, Moore-McCormack Lines, Incorporated, 2 Broadway, New York, New York 10004.

Agreement No. 10038-2, between Moore-McCormack Lines, Incorporated and Empresa Lineas Maritimas Argentinas, S.A., modifies the approved basic agreement covering the apportionment of general liner cargo transported by the parties in the northbound and southbound trade between the East Coast of the United States and Argentina by (1)

amending Article 3 of both Annex I (Northbound) and Annex II (Southbound) to include certain cargoes in the accounting, however, they shall not be subject to payments or penalties as established in the pool; (2) amending Article 5 of both Annexes to provide for a minimum number of sailings of 20 per pool period, and providing that the number may be increased or decreased by mutual agreement, without impairing adequate service, on notice to the Commission; (3) amending Article 7(c) subparagraph VII of both Annexes relating to the computation of pool penalty payments to provide for a revised pool penalty formula; and (4) amending Article 16 to provide for a committee made up of representatives of each party to settle any differences that may arise and handle all matters relating to the operations of the agreement.

By order of the Federal Maritime Commission.

Dated: August 3, 1976.

FRANCIS C. HURNEY,
Secretary.

CONSERVATION-TECHNICAL ADVISORY TASK FORCE—EFFICIENCY IN USE OF GAS

Meeting

Agenda: Meeting of Conservation-Technical Advisory Task Force—Efficiency in Use of Gas: Conference Room 5200, Federal Power Commission, Union Plaza Building, 825 North Capitol Street, NE., Washington, D.C. 20426; September 15, 1976, 9:30 a.m.; Presiding: Mr. James R. Kirby, Coordinating Representative & Secretary, Federal Power Commission.

1 Call to order and introductory remarks—Mr. James R. Kirby.
2 Discussion of task Force Progress to date—Mr. James Woodruff and Mr. John A. Irwin.
3 Revise draft report.
4 Selection of next meeting date.
5 Discussion of other matters.
6 Adjournment—Mr. James Kirby.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the Committee—which statements, if in written form, may be filed before or after the meeting, or if oral, at the time and in the manner permitted by the Committee.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22893 Filed 8-3-76;1:46 pm]

[Docket Nos. CP76-433 and CP76-434, CP76-435, CP76-436 and CP76-437, CP75-96 et al.]

ALCAN PIPELINE CO. ET AL.

Procedure for Supplement to Environmental Impact Statement

AUGUST 3, 1976.

Take notice that on July 29, 1976, the Federal Power Commission, in connection with the proceeding pending in Docket No. CP75-96, et al., prescribed certain guidelines for the issuance of a supplement to the FPC Staff's Alaska Natural Gas Transportation Systems: Final Environmental Impact Statement (FEIS), issued on April 9, 1976.

On July 9, 1976, Alcan Pipeline Company (Alcan) and Northwest Pipeline Corporation (Northwest) filed with this Commission applications requesting authorization to construct and operate a pipeline system to bring natural gas from the North Slope of Alaska to the lower 48 states along a route following the existing Alyeska oil pipeline corridor to the vicinity of Fairbanks, Alaska, and therefrom following the Alcan highway.[1] Also proposed are the construction and operation of certain facilities in the states of Washington and Oregon. These applications have been consolidated with the present proceeding in Docket No. CP75-96, et al., which concerns the selection of an Alaskan natural gas transportation system, and originally involved two competing applicants, Alaskan Arctic Gas Pipeline Company and El Paso Alaska Company. An FEIS for these applications has previously been issued by the Commission staff.

Although the Commission staff considered in the "Alternatives to the Proposed Action" Section of its FEIS a route similar to that proposed by Alcan and Northwest, it will issue as a supplement an environmental evaluation of these subsequent applications. The Commission staff requests the views of any interested party on Alcan and Northwest's applications within 30 days hereto. Comments should be sent to the following address:

Alcan Proposal BNG/SOD, Federal Power Commission, 825 North Capitol Street, NW., Washington, D.C. 20426.

Any interested party desiring a copy of this application should send a request to the following address:[2]

Robert E. Guttery, Northwest Pipeline Corporation, P.O. Box 1526, Salt Lake City, Utah 84110.

The Commission staff will consider these comments in its own independent analysis and will prepare and issue a supplement to its FEIS on or before September 23, 1976. At that time, further comments from the general public and other Federal agencies may be submitted. The staff's supplement to the FEIS, along with both sets of comments, will be placed into the hearing record, and the parties in such proceeding can consider them in pursuing their cross-examination of the staff's environmental witnesses.'

KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-98]

ALGONQUIN GAS TRANSMISSION CO.

Order Granting Untimely Petition To Intervene

JULY 30, 1976.

By order issued May 28, 1976, the Commission accepted for filing and suspended a proposed purchase feedstock adjustment clause tendered for filing by Algonquin Gas Transmission Company (Algonquin) in the above-captioned proceeding. Notice of Algonquin's tender was issued on May 12, 1976 with comments, protests or petitions to intervene due on or before May 26, 1976. A Petition to Intervene was filed by Rhode Island Consumers' Council (Council) on June 15, 1976. The Council states that it is an agency of the State of Rhode Island whose principal responsibility is to appear on behalf of Rhode Island consumers in cases affecting the consumers' interests. The Council states further that the interests of Rhode Island consumers are affected by this proceeding because "four companies which are customers of the applicant provide substantially all natural gas service available to Rhode Island consumers." The Council states also that since it is already a party in Docket No. RP76-15, which is consolidated with Docket No. RP76-98, and thus, no further delay in procedural dates is anticipated.

The Commission finds: It is desirable and in the public interest to allow the above-named petitioner to intervene.

The Commission orders: (A) The above-named petitioner is hereby permitted to intervene in these proceedings subject to the rules and regulations of the Commission; *Provided, however,* That participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and *Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) The Secretary shal cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22907 Filed 8-5-76;8:45 am]

[1] The Canadian portion of these facilities would be built by Foothills Pipe Lines Ltd., Westcoast Transmission Company Limited and The Alberta Gas Trunkline (Canada) Limited.

[2] The Commission Staff has requested that Alcan and Northwest provide copies of their applications to a number of Federal agencies.

[3] At the request of the Council on Environmental Quality (CEQ) in addition to the foregoing in order to comply satisfactorily with CEQ guidelines, parties who have received or requested copies of the Staff's previous Draft EIS for this proceeding will be served with a copy of this notice.

V41153 AUG 6 76 UMI

[Docket No. ER76-802]

DETROIT EDISON CO.

Tender of Notice of Cancellation of Rate Schedule

JULY 30, 1976.

Take notice that on July 19, 1976, The Detroit Edison Company (DE) tendered for filing a Notice of Cancellation of Rate Schedule FPC No. 5 consisting of the Electricity Supply Agreement between DE and Consumers Power Company at Pontiac, Michigan. DE states that the effective date of the cancellation is August 16, 1976. DE states that the rate schedule is being cancelled because it has become uneconomic to perform the service under the aforesaid contract. DE states that it hopes a new agreement will be forthcoming shortly.

Any person desiring to be heard or to protest said tender should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this tender are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP72-155 and RP76-59 (PGA76-3)]

EL PASO NATURAL GAS CO.

Pipeline Rates; Order Accepting for Filing and Suspending Proposed PGA Increase and Staying Procedures With Respect to Certain Small Producer Purchases

JULY 30, 1976.

El Paso Natural Gas Company (El Paso), on July 1, 1976, tendered for filing proposed tariff sheets[1] reflecting increases in purchased gas costs. An effective date of August 1, 1976, is requested. As discussed herein, the Commission will accept the proposed tariff sheets for filing, suspend their effectiveness for one day, and permit them to become effective on August 2, 1976, subject to refund.

This filing consists of two rate increases under El Paso's purchase gas adjustment clause (PGA). The first is an increase of 8.85¢ per Mcf for sales under tariff Volumes 1, 2, and 2A–Group I and covers all sales except a portion of production sales under Volume 2A of El Paso's tariff, Group II. This increase reflects (1) a 3.42¢ per Mcf increase ($40,258,000 per year) in the average cost of gas; and (2) a 5.43¢ per Mcf special surcharge for August and September 1976, reflecting increased gas costs pursuant to Opinion Nos. 749 and 749–A.[2] The second increase of 0.8776¢ per Mcf for sales to Group II consists of: (1) a 0.5704¢ per Mcf increase ($158,000 per year) in gas costs; and (2) a 0.307¢ per Mcf special surcharge.

Public notice of this filing was issued on July 14, 1976, with all comments, protests or petitions to intervene due on or before July 27, 1976. No responses have been received.

Upon review, the Commission has determined that the rates proposed herein are based, in part, on small producer and emergency purchases at rates in excess of the rate levels prescribed in Opinion Nos. 742 and 699–H as applicable. Therefore, the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory and otherwise unlawful. Accordingly, El Paso's proposed increased rates and charges shall be suspended for one day until August 2, 1976, when they shall become effective subject to refund.

With regard to the issue of the small producer purchases described above, other than those small producer purchases made pursuant to the Commission's 60 day emergency sales regulation, we shall defer establishing a hearing schedule for this matter pending Commission action on rehearing of Opinion No. 742[3] and the proposed rulemaking in Docket No. RM76-5.[4]

Notwithstanding the deferral of a procedural schedule on the small producer issue, El Paso shall file within 15 days of the date of this order, a list of the small producers, other than small producers making 60-day emergency sales, reflected in the instant filing who are making sales at rates in excess of the "130% formula" rates.

With regard to the 60-day emergency purchases the Commission noted in Opinion No. 699-B[5] that a pipeline would be entitled to include in its purchased gas costs a rate for such purchases "which a reasonably prudent pipeline purchaser would pay for gas under the same or similar circumstances." To assist in Commission review of the 60-day emergency purchases and in determining whether a public hearing is necessary thereon, El Paso shall be required to file and serve on all its customers and interested state commissions within thirty days of the issuance hereof the following information: (1) the pipeline's need for the gas, (2) the availability of other gas supplies, (3) the amount of gas purchased under each 60-day transaction, (4) a comparison of each emergency purchase price with appropriate market prices in the same or nearby areas, and (5) the relationship between the purchaser and the seller. Upon receipt of this information, it will be duly noticed for receipt of comments with respect thereto. Should the Commission's review indicate that the information filed and any comments related thereto, meets the criterion set forth in Opinion No. 699–B, the Commission shall terminate the proceedings and relieve El Paso of its refund obligation. Should the Commission's review of the information and any comments related thereto indicate that further proceedings are required as to any or all of the 60-day emergency purchases they would be established by subsequent order.

The Commission has determined further that El Paso's filing and its purchased gas costs are in compliance with the standards set forth in Docket No. R–406 except for: (1) that portion of small producer purchases in excess of the rate levels established in Opinion No. 742; and (2) that portion of 60-day emergency purchases at rates in excess of the rate levels established in Opinion 699–H. Accordingly, we shall permit El Paso to file a revised tariff sheet to become effective August 1, 1976, to reflect only the inclusion of these approved costs.

The Commission finds: (1) It is necessary and appropriate to aid in the enforcement of the Natural Gas Act that hearing procedures on the issue of small producer purchases other than those small producer purchases made pursuant to the Commission's 60-day emergency sales regulation be deferred pending further Commission order, and that El Paso's filing of July 1, 1976, be accepted for filing and suspended for one day to become effective August 2, 1976, subject to refund, as hereinafter ordered and conditioned.

(2) El Paso should file with the Commission a list, including addresses, of the small producers other than small producers under 60-day emergency purchase sales, from whom it purchased gas at rates in excess of the "130% formula" established in Opinion No. 742.

(3) The claimed increased costs included in El Paso's filing have been reviewed and found in compliance with the standards set forth in Docket No. R–406 with the exception of: (1) that portion of small producer purchases in excess of the rate levels established in Opinion 742; and (2) that portion of 60 day emergency purchases from parties other than small producers at rates in excess of the rate levels established in Opinion 699–H.

The Commission orders: (A) El Paso's filing of July 1, 1976, is hereby accepted for filing and suspended for one day, until August 2, 1976, when it shall be made effective, subject to refund.

(B) The hearing procedures on the issue of small producer purchases, other than small producer purchases made pursuant to the Commission's 60-day emergency sales regulation, in excess of the rate levels prescribed by Opinion No. 742, are hereby deferred pending further Commission order.

(C) Within 15 days of the date of this order, El Paso shall file with the Commission a list, including addresses, of the small producers other than small producers under 60-day emergency purchase sales, from whom it purchased at rates in excess of the rate level provided for by Opinion No. 742.

(D) Within 15 days of the date of issuance of this order, El Paso may file a revised tariff sheet to become effective August 1, 1976, which reflects those claimed increased purchased gas costs contained in its PGA adjustment other than those claimed increased costs associated with: that portion of small producer purchases in excess of the rate levels resulting from the "130% formula" prescribed by Opinion 742; and that portion of the 60-day emergency purchases from producers other than small producers in excess of the rate levels prescribed in Opinion 699–H.

(E) To assist in Commission review of the 60-day emergency purchases and in determining whether a public hearing is necessary thereon, El Paso shall be required to file and serve on all its customers and interested state commissions within thirty days of the issuance hereof the following information: (1) the pipeline's need for the gas, (2) the availability of other gas supplies, (3) the amount of gas purchased under each 60-day transaction, (4) a comparison of each emergency purchase price with appropriate market prices in the same or nearby areas, and (5) the relationship between the purchaser and the seller. Upon receipt of this information it will be duly noticed for receipt of comments with respect thereto. Should our review indicate that the information filed, and the comments related thereto, meet the criterion set forth in Opinion No. 699–B, we shall terminate the proceedings and relieve El Paso of its refund obligation. Should our review of the information and any comments related thereto indicate that further proceedings are required as to any or all of the 60-day emergency purchases they would be established by subsequent order.

(F) The Secretary shall cause prompt publication of this order to be issued in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22909 Filed 8-5-76;8:45 am]

[Docket No. ER76-779]

ILLINOIS POWER CO.

Filing

JULY 30, 1976.

Take notice that Illinois Power Company (Illinois Power) on July 12, 1976, tendered for filing Revised Exhibits A and B to the International Agreement dated August 26, 1974, between the City of Highland (Highland) and Illinois Power.

Illinois Power states that the purpose of the filing is to revise Exhibits A and B to reflect the actual facilities installed for the interconnection and the actual costs thereof.

Illinois Power further states that it was the understanding of the parties that execution of Revised Exhibit B would not be finalized until the actual costs could be determined. For this reason it is requested that the filing become effective on March 19, 1976, the date the interconnection was placed in service.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 9, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22908 Filed 8-5-76;8:45 am]

[Docket No. ER76-5]

INDIANA & MICHIGAN POWER CO.

Electric Rates: Order Granting Late Intervention

JULY 30, 1976.

On May 5, 1976, Ormet Corporation (Ormet) filed an untimely petition to intervene in the instant proceeding. A response in opposition to Ormet's petition was filed by Indiana & Michigan Power Company (I&M Power) on May 21, 1976. Thereafter, on May 24, 1976 the Office of the Public Counselor of the State of Indiana (Public Counselor) filed a further untimely protest and petition to intervene. For the reasons set forth hereinafter the Commission will grant both petitions to intervene. However, the Commission will require that these intervenors accept the record in this case as they find it, and will not permit the grant of these petitions to delay the proceedings in this case.

The instant proceedings began on July 3, 1975, when I&M Power tendered for filing copies of a Power Agreement between I&M Power and Indiana & Michigan Electric Company (I&M Electric). This power agreement was tendered as an initial rate schedule to cover sales by I&M Power to I&M Electric. Notice of the filing was issued by the Commission on July 15, 1975, and was published in the Federal Register (40 FR 30752). Comments, protests and petitions to intervene were to be filed on or before July 31, 1975. A number of timely petitions to intervene were received by the Commission.[1] By order issued October 8, 1975 the Commission accepted the power agreement for filing, and instituted an investigation under Section 206 of the Federal Power Act to determine, inter alia, the justness and reasonableness of the proposed rate of return as well as the propriety of the methodology used to compute the return on equity. (Mimeo at 3.) In its October 8 order the Commission also granted the pending petitions to intervene and established procedural dates for service of evidence and for a hearing on the issues presented. Shortly thereafter, on October 10, 1975, an untimely petition to intervene was filed by Wabash Valley Power Association, Inc., et al. By order issued November 7, 1975, the Commission granted this untimely petition to intervene. Since that time I&M Power, the Staff and all Intervenors have filed their prepared direct testimony. On June 7, 1976, I&M Power filed its prepared rebuttal testimony. A hearing is presently scheduled to begin on August 7, 1976.

The untimely petitions to intervene were filed by Ormet and the Public Counselor on May 5, 1976 and May 24, 1976, respectively. Both petitions were thus filed after all parties and Staff had filed their prepared direct testimony but before the company had filed its prepared rebuttal testimony.

Ormet states that it is the largest single retail customer of Ohio Power Company (Ohio Power) which in turn purchases from Ohio Electric Company (Ohio Electric), a wholly owned subsidiary of Ohio Power, under a Power Agreement which was approved by the Commission in an order issued August 20, 1975 in Docket No. E–8888. Ormet has challenged the justness and reasonableness of the Ohio Power-Ohio Electric Power Agreement in a complaint filed with the Commission on May 5, 1976 in Docket No. E–9560.[2] As grounds for seeking intervention in the instant proceeding Ormet alleges that the factual and legal issues that will be addressed in determining the justness and reasonableness of the rates that I&M Power will receive for sales under the I&M Power-I&M Electric Power Agreement are the

[2] By Letter Order of April 5, 1976, the Commission granted El Paso's Motion of March 17, 1976, to defer until July 1, 1976, the appropriate surcharge filing under Opinion Nos. 749 and 749–A.

[3] ------ FPC ------ issued August 28, 1975, in Docket No. R–393.

[4] Small Producers, Docket No. RM76–5, Notice of Proposed Rulemaking, issued August 28, 1975.

[5] ------ FPC ------ issued September 9, 1975, in Docket No. R–389–B.

[1] A Petition To Intervene was filed by Richmond Power & Light of the City of Richmond, Indiana; a Joint Petition To Intervene was filed by the Cities of Anderson and Auburn, Indiana; and a Joint Petition To Intervene was filed by the Indiana & Michigan Municipal Distributors Association (IMMDA).

[2] Public notice of Ormet's complaint was issued by the Commission on May 27, 1976 in which the Commission set June 23, 1976, as the date by which comments, protests and petitions to intervene were to be filed. On June 18, 1976 Ohio Electric filed its answer to Ormet's complaint pursuant to Section 1.6 of the Commission's Rules of Practice and Procedure, 18 CFR 1.6.

V41153 AUG 6 76 UMI

same factual and legal issues that must be addressed in determining the lawfulness of the rates received by Ohio Electric from Ohio Power under their Power Agreement. For example, in each case the subject Power Agreement is between an operating company, which is a party to an American Electric Power Company, Inc. interconnection agreement, and the operating company's wholly-owned subsidiary. Furthermore, in each case the contractual and financing arrangements between the operating company and its wholly-owned subsidiary are allegedly identical in all material respects.

In its response in opposition to Ormet's petition to intervene I&M Power argues that Ormet's petition was filed more than nine months beyond the date established by the Commission for filing petitions to intervene and that Ormet has failed to explain the untimeliness of its petition. I&M Power further emphasizes that a pre-hearing conference has already been held and that at the time Ormet filed its petition the only testimony remaining to be filed was the Company's rebuttal testimony.[2] On the basis of the testimony that has been filed, I&M Power alleges that "the pivotal and sole issue in this proceeding * * * is the rate of return on common equity," which is the very issue in which Ormet expresses interest, and that this issue can be adequately litigated by the existing parties to the proceeding and Staff. Moreover, I&M Power argues that Ormet has no interest which will be directly affected by the instant proceeding and that Ormet's complaint in Docket No. E–9560 affords Ormet an adequate opportunity to seek protection for the interests it has asserted. I&M Power concludes by stating that if the Commission should grant Ormet's untimely petition, the Commission should limit Ormet's participation to the filing of briefs.

Upon consideration of Ormet's petition and I&M Power's response thereto the Commission has concluded that Ormet has alleged a sufficient interest in the instant proceeding to justify its participation and that it would be in the public interest to grant Ormet's petition. However, in granting Ormet's petition the Commission expressly refrains from expressing an opinion on the merits of Ormet's allegations. Nor should the Commission's action on the instant petition to intervene be construed as an indication of what action the Commission will take on Ormet's complaint in Docket No. E–9560.

In view of the stage that the instant proceedings have reached, and in further view of the fact that the existing parties and Staff have already focused their evidentiary presentations on the question which Ormet desires to address, the Commission will condition Ormet's intervention upon Ormet's accepting the record as it exists. In thus conditioning Ormet's intervention the Commission does not, however, agree with I&M Power that Ormet's participation should be limited to the filing of briefs. Accordingly, Ormet will, for example, be permitted to participate in the cross examination of witnesses at the hearing presently scheduled for August 17, 1976. Finally, the Commission wishes to make it clear that it will not permit the grant of Ormet's petition to intervene to delay the proceedings in this case.

The untimely petition to intervene filed by the Public Counselor has not been opposed. After careful review of this untimely petition the Commission concludes that the Public Counselor should be permitted to intervene. However, the Commission does not believe that the Public Counselor has alleged facts which would warrant a delay in these proceedings to permit the filing of further testimony. Accordingly, the Commission will condition intervention upon the Public Counselor's accepting the record as it exists.

The Commission further finds: Participation in this proceeding by Ormet and the Public Counselor may be in the public interest.

The Commission orders: (A) Ormet and the Public Counselor are hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission; *Provided, however,* That participation of Ormet and the Public Counselor shall be limited to matters affecting asserted rights and interests as specifically set forth in their petition to intervene; and *Provided further,* That the admission of Ormet and the Public Counselor shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) The intervention granted herein shall not be the basis for delaying or deferring any procedural schedules heretofore established for the orderly and expeditious disposition of this proceeding.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 76-22910 Filed 8-5-76;8:45 am]

[Docket No. RI76–125]

LOUISIANA CRUDE OIL AND GAS COMPANY, INC.

Amended Petition for Special Relief

JULY 30, 1976.

Take notice that on July 20, 1976, Louisiana Crude Oil And Gas Company, Inc. (Petitioner), 922 Richards Building, New Orleans, Louisiana 70112, filed an amendment to its petition for special relief in Docket No. RI76–125. Petitioner sought a price of 84.91 cents per Mcf, plus full reimbursement by the purchaser to the Seller of the 7 cent State of Louisiana Gas Severance Tax for the sale of gas to Texas Gas Transmission Corp.'s meter station No. 21491 in the Chalkley Field for the sale of gas to Texas Gas Transmission Corporation. Petitioner now seeks a "cost of production" price of 73.93 cents, plus Louisiana State Severance Tax of 7 cents, based upon a modified rate relief filing guide.

Any person desiring to be heard or to make any protest with reference to said petition should on or before August 25, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.18 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22911 Filed 8-5-76;8:45 am]

[Docket No. RP73–43 (PGA 76–3)]

MID LOUISIANA GAS CO.

Pipeline Rates; Purchased Gas Adjustment; Order Accepting and Suspending Proposed Tariff Sheet, Subject to Condition, and Staying Procedures With Respect to Certain Small Producer Purchases

Issued July 30, 1976.

On June 14, 1976, Mid Louisiana Gas Company (Mid Louisiana) tendered for filing a proposed tariff sheet[1] reflecting an increase in purchased gas costs. Mid Louisiana requests that such tariff sheet be permitted to become effective as of August 1, 1976. For reasons set forth hereinbelow, the Commission shall accept the proposed tariff sheet for filing, suspend its effectiveness for one day, and permit it to become effective, subject to refund, on August 2, 1976.

The instant filing proposes (1) an 11.69¢ per Mcf increase under Mid Louisiana's Rate Schedule G–1, SG–1, and I–1, and (2) an 8.4¢ per Mcf increase under Rate Schedule E–1. The 11.69¢ per Mcf increase reflects: (1) a 2.49¢ per Mcf increase in the cost of purchased gas; (2) a 9.12¢ per Mcf increase in the surcharge to recover the balance in the Deferred Account; and (3) an .08¢ per Mcf advance payment adjustment. The 8.4¢ per Mcf increase tracks an increase of that amount in the cost of gas purchased from United Gas Pipe Line Company.

Public notice of Mid Louisiana's filing was issued on June 23, 1976, with comments, protests, or petitions to intervene due on or before July 9, 1976.

The Commission's review of Mid Louisiana's filing indicates that the proposed tariff sheet reflects small producer purchases in excess of the rate levels permitted in Opinion No. 742.[3] Thus, the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. Accordingly, the Commission will accept the proposed tariff sheet for filing and suspend its use for one day until August 2, 1976, when it will be permitted to become effective subject to refund and as hereinafter conditioned.

With regard to the issue of the small producer purchases in excess of Opinion No. 742 rate levels, the Commission will defer establishing a hearing schedule pending Commission action on rehearing of Opinion No. 742 and the proposed rulemaking in Docket No. RM76–5.[5] Notwithstanding the deferral of a procedural schedule on the small producer issue, Mid Louisiana shall file within fifteen (15) days of the date of this order, a list of the small producers who made sales reflected in the instant filing which are in excess of the "130% formula" rates prescribed by Opinion No. 742.

The Commission's review of increased purchased gas costs claimed by Mid Louisiana other than those associated with small producer purchases in excess of "130% formula" level indicates that they should be approved insofar as they are in compliance with the standards set forth in Docket No. R–406. Accordingly, we shall permit Mid Louisiana to file revised tariff sheets to become effective on August 1, 1976, which reflect the costs in Mid Louisiana's filing which are in conformance with Docket No. R–406.

The above-noted .08¢ per Mcf advance payment adjustment is submitted by Mid Louisiana in purported compliance with advance payment tracking authority contained in a settlement agreement approved by the Commission in Docket No. RP75–68.[4] Such adjustment does not reflect increased advance payment costs incurred by Mid Louisiana; rather, it reflects only increased unit costs for advance payments as a result of declining annual sales volumes. However, the advance payment tracking provision approved in our January 30, 1976, order in Docket No. RP75–68 permits Mid Louisiana to increase or decrease its rates only as a result of increases or decreases in the balance of advance payments outstanding as of a given date and does not permit adjustment solely for changes in annual sales volumes. Therefore, the .08¢ adjustment reflected in the instant filing must be rejected as being inconsistent with Mid Louisiana's advance payment tracking authority. Accordingly, within 15 days of issuance of this order, Mid Louisiana shall file a revised tariff sheet eliminating the .08¢ adjustment from its rates to be effective on August 2, 1976. Moreover, Mid Louisiana shall reflect the elimination of the .08¢ per Mcf adjustment from the tariff sheet it will be permitted to file to be effective on August 1, 1976.

The Commission finds: (1) It is necessary and appropriate to aid in the enforcement of the Natural Gas Act that Mid Louisiana's proposed tariff sheet be accepted for filing, that the effectiveness thereof be suspended for one day until August 2, 1976, when the tariff sheet shall be permitted to become effective, subject to refund, as hereinafter ordered and conditioned, and that hearing procedures on the issue of small producer purchases be deferred pending further Commission order.

(2) Good cause exists to require Mid Louisiana to file within fifteen (15) days of the issuance of this order a list of small producers making sales reflected in Mid Louisiana's proposed tariff sheet which are in excess of the rate levels prescribed by Opinion No. 742.

(3) The proposed .08¢ per Mcf advance payment adjustment should be rejected as being inconsistent with Mid Louisiana's advance payment tracking authority granted by the Commission's January 30, 1976 order in Docket No. RP75–68.

The Commission orders: (A) Mid Louisiana's proposed tariff sheet as filed on June 14, 1976, is hereby accepted for filing and the effectiveness thereof suspended for one (1) day until August 2, 1976, when it shall become effective, subject to refund and as conditioned below.

(B) Mid Louisiana's proposed .08¢ per Mcf advance payment adjustment is hereby rejected as being inconsistent with its advance payment tracking authority. Accordingly, within 15 days of issuance of this order, Mid Louisiana shall file a revised tariff sheet eliminating such adjustment from its rates to be effective August 2, 1976.

(C) Mid Louisiana may file a revised tariff sheet to become effective August 1, 1976, which reflects those claimed increased purchased gas costs which are other than the claimed increased costs associated with small producer purchases in excess of the rate levels prescribed by Opinion No. 742 and which eliminates the proposed .08¢ per Mcf advance payment adjustment.

(D) Hearing procedures regarding the justness and reasonableness of the small producer purchases in excess of the rate levels prescribed in Opinion No. 742 are hereby deferred pending further order of the Commission.

(E) Mid Louisiana shall file within fifteen (15) days of the issuance of this order a list of the small producers making sales reflected in Mid Louisiana's proposed tariff sheet which are in excess of the rate levels prescribed by Opinion No. 742.

(F) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP76–114]

MIDWESTERN GAS TRANSMISSION CO.

Pipeline Rates: Order Accepting for Filing and Suspending Revised Tariff Sheets and Establishing Procedures

Issued July 30, 1976.

On June 30, 1976, Midwestern Gas Transmission Company (Midwestern) tendered for filing revised tariff sheets to its FPC Gas Tariff[1] seeking an increase in annual jurisdictional revenues of $8,555,227, composed of $4,758,726 for its Southern System and $3,796,501 for its Northern System. The proposed increase in rates is based on claimed increased costs for the twelve months ended February 29, 1976, as adjusted for changes known and measurable through November 30, 1976. Midwestern proposes that the revised tariff sheets become effective on August 1, 1976. For the reasons hereinafter stated, the Commission will accept the revised sheets for filing, suspend their use for five months, and establish procedures to determine the lawfulness of the rates and charges proposed therein.

Public notice of Midwestern's tender was issued on July 8, 1976, with comments, protests, and petitions to intervene due on or before July 23, 1976.

Midwestern's justification for the proposed increased rates includes a composite book depreciation and amortization rate of 5.50%; a return on common equity of 13.75% and an overall rate of return of 11.48%; restoration of the deficiency in Account 282; increases in costs of materials, supplies, wages and outside service; and increases in taxes Midwestern projects a decline in sales on its Southern System and utilizes the *Seaboard*[3] methodology for rate design.

The Commission's review of the proposed increased rates indicates that they have not been shown to be just and reasonable, and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. Accordingly, the Commission shall accept the proposed increased rates for filing, suspend the use thereof for five months until January 1, 1977, when they may be permitted to become effective, subject to refund, and establish hearing procedures to determine the lawfulness of the increased rates and charges proposed herein.

[1] As noted, supra, p. 2, I&M Power subsequently filed its prepared rebuttal testimony on June 7, 1976.

[1] Twentieth Revised Sheet No. 3a to Mid Louisiana's FPC Gas Tariff, First Revised Volume No. 1.

[3] Docket No. R–393, issued August 28, 1975.

[5] Small Producers, Docket No. RM76–5, Notice of Proposed Rulemaking, issued August 28, 1975.

[4] Mid Louisiana Gas Company, Docket No. RP75–68, Order Accepting Settlement and Terminating Proceeding, issued January 30, 1976.

V 41 153 AUG 6 76 UMI

The Commission finds: Good cause exists to accept for filing the revised tariff sheets tendered herein and suspend their use for five months, until January 1, 1977, and until such further time as they are made effective, subject to refund, by motion filed in the manner prescribed by Section 4(e) of the Natural Gas Act.

The Commission orders: (A) Pending hearing and decision as to the lawfulness of the rates and charges proposed therein, the revised tariff sheets designated in footnote 1 are hereby accepted for filing and suspended for five months, or until January 1, 1977, and until such further time as they are made effective, subject to refund, by motion filed in the manner prescribed by Section 4(e) of the Natural Gas Act.

(B) Pursuant to the authority of the Natural Gas Act, particularly Sections 4 and 5 thereof, a public hearing shall be held concerning the lawfulness of the rates and charges contained in the revised tariff sheets filed herein.

(C) The Staff shall prepare and serve top sheets on all parties for settlement purposes on or before November 1, 1976. (See Administrative Order No. 157).

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose, (See Delegation of Authority, 18 CFR 3.5 (d)), shall convene a settlement conference in this proceeding on a date certain within 10 days after the service of top sheets by the Staff, in a hearing or conference room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. Said Presiding Administrative Law Judge is hereby authorized to establish such further procedural dates as may be necessary and to rule upon all motions (with the exceptions of petitions to intervene, motions to consolidate and sever, and motions to dismiss), as provided for in the Rules of Practice and Procedure.

(E) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-89]

NORTHERN NATURAL GAS CO.

Settlement Conference

JULY 30, 1976.

Take notice that on August 18, 1976, a conference of all parties to intervene in this proceeding, Northern Natural Gas Company, and Commission Staff will be held in a Commission Hearing Room at 825 North Capitol Street, NE., Washington, D.C., at 10:00 a.m.

Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, attendance at the conference will not be deemed to authorize intervention as a party in the proceedings.

All parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of the proposed rate increase and any procedural matters preparatory to a full evidentiary hearing or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22914 Filed 8-5-76;8:45 am]

[Docket No. RP76-115]

NORTHWEST PIPELINE CORP.

Pipeline Rates: Order Accepting for Filing and Suspending Revised Tariff Sheets and Setting Procedures

JULY 30, 1976.

On July 1, 1976, the Northwest Pipeline Corporation (Northwest) tendered for filing proposed changes in its FPC Gas Tariff, Volume No. 1.[1] The proposed changes would increase revenues from jurisdictional sales and service by $22,266,065 annually based on the 12 month period ending March 31, 1976 as adjusted for known and measurable changes through December 31, 1976. The proposed effective date of the revised sheets is August 1, 1976. For the reasons hereinafter stated, the Commission shall suspend the proposed rate increase for the full statutory period of five months or until January 1, 1977, when the rates will be permitted to become effective, subject to refund, and institute a hearing concerning the lawfulness of the proposed rates.

Northwest asserts that the principal reason for the increase in rates is that the jurisdictional revenues at present rates are inadequate to meet the cost of service and provide a fair rate of return. It is further asserted that among the factors contributing to the need for the increase are:

(a) Cost associated with the Clay Basin Storage Project;

(b) Increased payroll and related costs;

(c) Increase in rate of return to compensate for higher cost of capital;

(d) Other increases in operation and maintenance expenses and taxes.

Northwest has included in the test period cost of service, costs related to certificate applications at Docket Nos. CP76-389 and CP75-287. The investment applicable to these projects requiring certification are related to the test period gas supply and sales levels reflected in this filing. Northwest requests that the Commission waive the requirements of Section 154.63(e)(2)(ii) of its Regulations to the extent required to permit the costs associated with these certificate applications to be included in this filing. Northwest also requests that the Commission waive the requirements of Section 154.63(e)(2)(i) of its Regulations to the extent required to permit the inclusion in the filing of amounts attributable to increases in the amounts payable as regular royalty and tax expense with respect to company-owned production which will become effective on January 1, 1977, only one day after the close of the test period herein. These additional costs result from the annual 1¢ increase in the national rate for natural gas produced from wells commenced on or after January 1, 1973 as prescribed by Opinion No. 699-H at Docket No. R-389-B. Northwest further claims cost of service treatment for company-owned production from wells commenced on or after January 1, 1973, from leases acquired prior to October 8, 1969.

Northwest claims that the fair rate of return is 10.47%, which would provide a return of 15.50% to the common equity portion of the rate base.

Public notice of the filing was issued on July 8, 1976, with protests and petitions to intervene due on or before July 23, 1976. Various petitions to intervene and notices of intervention have been received.[2] The Commission believes that the intervention of such parties may be in the public interest and, accordingly, they will be permitted to intervene in the proceedings hereinafter ordered.

The Commission's review indicates that the increased rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, or otherwise unlawful. Accordingly, the Commission shall accept Fourteenth Revised Sheet No. 10 for filing and suspend its use for five months, or until January 1, 1977, when it may be permitted to become effective, subject to refund, by motion filed in the manner provided by the Natural Gas Act, subject to conditions hereinafter specified. The Commission shall further establish procedures to determine the lawfulness of the increased rates proposed herein.

The Commission shall grant waiver of Section 154.63(e)(2)(ii) of the Regulations so as to permit costs associated with facilities which are not certificated and in service to be reflected in the proposed rates, subject to the condition that Northwest file revised tariff sheets prior to January 1, 1977, excluding costs associated with facilities which are not certificated and placed in service on or before December 31, 1976. In light of our earlier discussion, the Commission shall also grant waiver of Section 154.63(e)(2)(i) of the Regulations so as to permit the inclusion in Northwest's filing of amounts attributable to increases in the amounts

[1] Northwest filed two tariff sheets designated as proposed Fourteenth Revised Sheet No. 10 and Alternate Fourteenth Revised Sheet No. 10. The alternate sheet shows the impact of an increase in special overriding royalty cost to which Northwest is exposed. Northwest requests that it be allowed to amend its rate filing to recover these increased costs if the liability is established during the course of the rate proceeding.

[2] See Appendix A.

payable as regular royalty and tax expense with respect to company-owned production which will become effective on January 1, 1977, the effective date for the rates proposed herein.

With respect to Northwest's claimed cost of service treatment for company-owned production from wells commenced on or after January 1, 1973, from leases acquired prior to October 8, 1969, we note that in Opinion No. 731[3] we expressed our concern with respect to the standards that must be met to satisfy the "special circumstances" criterion for such cost of service treatment as set forth in Opinion No. 568[4] and Opinion No. 568-A.[5] In finding that the circumstances must be truly extraordinary, we concluded that the pipeline seeking the higher cost of service treatment must carry the same burdens of proof and persuasion that an independent producer must meet in order to gain an exception from the area rate applicable to its sale. Thus, more than a showing of unit costs higher than the area rate, or intimations that the company will have to discontinue its exploration program without the requested relief, is required. In light of Opinion No. 731, all parties submitting evidence on this issue should specifically address the *extraordinary* nature of the circumstances surrounding Northwest's production from leases acquired after October 8, 1969.

The Commission further notes that Northwest has prepared its rate increase filing both on the basis of including and excluding the potential increased special overriding royalty costs which may be payable during the test period as a result of a scheduled contractual rate increase in several of Northwest's special overriding royalty agreements (See footnote one). Northwest states that the Commission, in its order issued June 4, 1976 in Docket No. RP74-23 and in its order issued April 19, 1976 in Docket Nos. RP73-109 and RP74-95, has indicated that Northwest may track the increased special overriding royalty costs when and if the liability therefore is finally established.[6] Consistent with those orders, we shall reject Northwest's proposed Alternate Fourteenth Revised Sheet No. 10 as premature without prejudice to Northwest's refiling said sheet to collect currently a surcharge to recover any additional special overriding royalty payments it is required to make for the period from January 1, 1977, until the rates proposed in this docket are superseded. Northwest may, of course, file and collect this surcharge after the liability for special overriding royalty payments has been established and the added costs are being incurred.

The Commission finds: (1) Northwest's proposed Fourteenth Revised Sheet No. 10 should be accepted for filing, suspended for five months, and the use thereof deferred until January 1, 1977, when it may be permitted to become effective subject to refund.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of Northwest's proposed Fourteenth Revised Sheet No. 10.

(3) Northwest's proposed Alternate Fourteenth Revised Sheet No. 10 should be rejected without prejudice to Northwest's refiling said Sheet at such time as its liability for special overriding royalty payments has been established and the added costs are being incurred.

(4) Good cause exists to grant waiver of Sections 154.63(e)(2)(i) and 154.63(e)(2)(ii) of the Commission's Regulations subject to the conditions hereinafter ordered.

(5) Good cause exists to permit the intervention of the parties listed in Appendix A.

The Commission orders: (A) Northwest's proposed Fourteenth Revised Sheet No. 10 is hereby accepted for filing, suspended for five months, and the use thereof deferred until January 1, 1977, and until such further time as it is made effective, subject to refund, by motion filed in the manner prescribed by Section 4(e) of the Natural Gas Act.

(B) Pursuant to the authority of the Natural Gas Act, particularly Sections 4 and 5 thereof, and the Commission's Rules of Practice and Procedure a public hearing shall be held for the purpose of determining the lawfulness and reasonableness of Northwest's proposed Fourteenth Revised Sheet No. 10.

(C) Northwest's proposed Alternate Fourteenth Revised Sheet No. 10 is hereby rejected without prejudice to Northwest's refiling said sheet to collect currently a surcharge to recover any additional special overriding payments it is required to make for the period from January 1, 1977, until the rates proposed in this docket are superseded. This sheet may be refiled at such time as Northwest's liability for special overriding royalty payments has been established and the added costs are being incurred.

(D) The parties in Appendix A hereto are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission; *Provided, however,* That participation of such intervenors shall be limited to matters affecting asserted rights and interests specifically set forth in their petition to intervene; and *Provided, further,* That the admission of such intervenors shall not be construed as recogntion by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(E) The Staff shall prepare and serve top sheets on all parties for settlement purposes on or before November 1, 1976. (See Administrative Order No. 157.)

(F) Waiver of Section 154.63(e)(2)(i) of the Regulations is hereby granted to permit the inclusion in Northwest's filing of amounts attributable to increases in the amounts payable as regular royalty and tax expense with respect to company-owned production which will become effective January 1, 1977.

(G) Waiver of Section 154.63(e)(2)(ii) of the Regulations is hereby granted, subject to the condition that Northwest file a revised tariff sheet to become effective on January 1, 1977, excluding costs associated with facilities which are not certificated and placed in service on or before December 31, 1976.

(H) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose, (See Delegation of Authority, 18 CFR 3.5(d)), shall convene a settlement conference in this proceeding on a date certain within 10 days after the service of top sheets by the Staff, in a hearing or conference room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. Said Presiding Administrative Law Judge is hereby authorized to establish all procedural dates and to rule upon all motions (with the exceptions of petitions to intervene, motions to consolidate and sever, and motions to dismiss), as provided for in the Rules of Practice and Procedure.

(I) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to Section 1.18 of the Commission's Rules of Practice and Procedure.

(J) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-36 (PGA76-3) (DC76-2)]

PANHANDLE EASTERN PIPE LINE CO.

Pipeline Rates: Order Accepting for Filing and Suspending Proposed Tariff Sheet and Rejecting Alternate Tariff Sheet

JULY 30, 1976.

On June 15, 1976, Panhandle Eastern Pipe Line Company (Panhandle) tendered for filing a revised tariff sheet [1] to provide for a DCA commodity surcharge adjustment and for a purchased gas cost adjustment to its presently effective rates. The proposed effective date of the rate change is August 1, 1976. Panhandle filed an alternative tariff sheet [2] to be placed into effect on August 1 in the event the tariff sheet designated in footnote 1 is suspended. For the reasons hereinafter stated, the Commission will accept the tariff designated in footnote 1 and suspend it for one day, or until August 2, 1976, when it will be permitted to become effective, subject to refund. The sheet designated in footnote 2 will be rejected.

Public notice of Panhandle's filing was issued July 13, 1976, with comments, protests, or petitions to intervene due on or before July 24, 1976. To date, no responses to the notice have been received.

Commission review of the tariff sheet listed in footnote 1 indicates that the proposed PGA rate adjustment is based in part on small producer and 60-day emergency purchases in excess of the rate levels prescribed in Opinion Nos. 742 and 699-H, respectively. Therefore, the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, or otherwise unlawful. Accordingly, we shall accept the tariff sheet listed in footnote 1 for filing and suspend it for one day until August 2, 1976, when it shall become effective, subject to refund.

With regard to the issue of the small producer purchases described above, other than the small producer purchases made pursuant to the Commission's emergency sales regulations, we shall defer establishing a hearing schedule for this matter pending Commission action on rehearing of Opinion No. 742 [3] and the proposed rulemaking in Docket No. RM76-5.[4]

Notwithstanding our deferral of a procedural schedule on the small producer issue, Panhandle shall file within 15 days of the date of this order a list of the small producers showing the producer and its address (other than small producers from whom Panhandle purchases pursuant to Opinion No. 699-B [5]) reflected in the instant filing in excess of the "130% formula" rates.

With regard to the 60-day emergency purchases, the Commission provided in Opinion No. 699-B that a pipeline would be entitled to include in its purchased gas costs a cost for such purchases "which a reasonably prudent pipeline purchaser would pay for gas under the same or similar circumstances." To assist in Commission review of the 60-day emergency purchases and in determining whether a public hearing is necessary thereon, Panhandle shall be required to file and serve on all its customers and interested state commissions within thirty days of the issuance hereof the following information: (1) the pipeline's need for the gas, (2) the availability of other gas supplies, (3) the amount of gas purchased under each 60-day transaction, (4) a comparison of each emergency purchase price with appropriate market prices in the same or nearby areas, and (5) the relationship between the purchaser and the seller. Upon receipt of this information, notice will be issued for receipt of comments with respect thereto. If, upon review of the information filed and any comments related thereto, we find the subject purchases meet the criteria set forth in Opinion No. 699-B, the Commission shall terminate the proceedings and relieve Panhandle of its refund obligation. Should our review of the information and any comments related thereto indicate that further proceedings are required as to any or all of the 60-day emergency purchases, such proceedings will be established by subsequent order.

Review of the alternate tariff sheet listed in footnote 2 indicates that excessive costs for small producer and emergency purchases have been eliminated from the current adjustment but not from the deferred account upon which the surcharge is based. Accordingly, that tariff sheet shall be rejected, without prejudice to Panhandle's right to file a revised tariff sheet to be effective for August 1, 1976, based on the elimination of costs of small producer and emergency purchases in excess of purchases at Opinion Nos. 600-H and 742 rate levels.

The Commisison finds: (1) Good cause exists to reject the tariff sheet listed in footnote 2.

(2) Good cause exists to accept for filing the proposed tariff sheet listed in footnote 1 and to suspend the use thereof for one day, to become effective August 2, 1976, subject to refund.

(3) It is necessary and appropriate to aid in the enforcement of the Natural Gas Act that hearing procedures on the issue of small producer purchases (other than the small produced purchases made pursuant to the Commission's 60-day emergency sales regulation) be deferred pending further Commisison order.

The Commission orders: (A) The alternate tariff sheet listed in footnote 2 is hereby rejected.

(B) The tariff sheet listed in footnote 1 is hereby accepted for filing and suspended for one day, until August 2, 1976, when it shall become effective subject to refund.

(C) The hearing procedures on the issue of small producer purchases (other than small producer purchases made pursuant to the Commission's 60-day emergency sales regulation) in excess of the rate levels prescribed by Opinion No. 742, are hereby deferred pending further Commission order.

(D) Within 15 days of the date of this order, Panhandle shall file with the Commission a list, including addresses, of the small producers (other than small producers from whom Panhandle purchases under the 60-day emergency purchase regulations) from whom it purchased at rates in excess of the rate levels provided for by Opinion No. 742.

(E) To assist in Commission review of the 60-day emergency purchases and in determining whether a public hearing is necessary thereon, Panhandle shall file and serve on all its customers and interested state commissions within thirty days of the issuance of this order the following information: (1) the pipeline's need for the gas, (2) the availability of other gas supplies, (3) the amount of gas purchased under each 60-day transaction, (4) a comparison of each emergency purchase price with appropriate market prices in the same or nearby areas, and (5) the relationship between the purchaser and the seller. Upon receipt of this information, notice will be issued for receipt of comments with respect thereto. Should our review indicate that the information filed and the comments related thereto meet the criteria set forth in Opinion No. 699-B, we shall terminate the proceedings and relieve Panhandle of its refund obligation. Should our review of the information and any comments related thereto indicate that further proceedings are required as to any or all of the 60-day emergency purchases, such proceedings will be established by subsequent order.

(F) The Secretary shall cause the prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-221]

POTOMAC EDISON CO.

Electric Rates; Order Granting Rehearing for Further Consideration

JULY 30, 1976.

On July 1, 1976, Potomac Edison Company (Edison) filed a petition for rehearing of the Commission's order issued June 1, 1976, insofar as it determined that Edison cannot unilaterally raise its rates under its electric service agreement with the Town of Williamsport, Maryland (Williamsport). On July 1, 1976, a petition for rehearing of the June 1 order was also filed by the Borough of Chambersburg and Mont Alto, Pennsylvania and the Cities of Hagerstown and Thurmont, Maryland (Cities). The Cities seek rehearing insofar as the Commission determined that the increased rates could become effective as to that service to Chambersburg which exceeds 15,000 kw and on the grounds that the Commission erroneously failed to reject Edison's proposed increase as discriminatory. In order to permit additional time for the necessary analysis of the issues raised in the instant petitions for rehearing, rehearing will be granted for further consideration.

The Commission finds: Good cause exists to grant the petitions for rehearing, *supra*, for further consideration of the issues raised therein.

The Commission orders: (A) Edison's petition for rehearing, filed July 1, 1976, and Cities' petition for rehearing, filed July 1, 1976, are hereby granted in order to permit further consideration of the issues raised in the respective petitions.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22917 Filed 8-5-76;8:45 am]

[Docket Nos. RP72-156 (PGA76-3) and RP72-64 (DCA76-2)]

TEXAS GAS TRANSMISSION CORP.

Pipeline Rates: Suspension; Deferring Hearing Procedures With Respect to Certain Small Producer Purchases and Requiring Submission of Information Concerning 60-Day Emergency Purchases

JULY 30, 1976.

On June 14, 1976, Texas Gas Transmission Corporation (Texas Gas) tendered for filing a proposed PGA rate revision.[1] For the reasons hereinafter stated, we shall accept the proposed tariff sheet for filing, suspend its effectiveness for one day and permit it to become effective on August 2, 1976, subject to refund.

Texas Gas' proposed tariff sheet provides for a 5.07¢ per Mcf increase in the Company's commodity rate and a 1.0¢ per Mcf decrease in the demand rate. These rate revisions reflect (1) a 6.37¢ per Mcf increase in the commodity rate and a 1.0¢ per Mcf reduction in the demand rate to track increased gas costs of $49 million, (2) a 0.42¢ per Mcf reduction (from 2.49¢ to 2.07¢) in surcharge to reflect a reduced balance in the deferred account and (3) a DCA rate reduction of 0.88¢ per Mcf (from 1.65¢ to 0.77¢) to collect $2.7 million in the deferred account. An effective date of August 1, 1976, is requested.

Public notice of Texas Gas' filing was issued on June 23, 1976 with protests or petitions to intervene due on or before July 9, 1976. Petitions to intervene were filed on July 6, 1976, by the City of Hamilton, Ohio, (Hamilton) and on July 8, 1976, by Michigan Wisconsin Pipe Line Company, (Michigan Wisconsin). Having reviewed the petitions, the Commission concludes that the intervention of Hamilton and Michigan Wisconsin in these proceedings may be in the public interest. Accordingly, Hamilton and Michigan Wisconsin shall be permitted to intervene as hereinafter ordered.

The Commission's review of the Texas Gas' filing indicates that the proposed PGA rate adjustment is based in part on small producer and 60-day emergency purchases in excess of the rate levels prescribed in Opinion Nos. 742 and 699-H, respectively. Therefore, the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, or otherwise unlawful. Accordingly, the Commission will accept the tariff sheet for filing and suspend it for one day until August 2, 1976, when it will be permitted to become effective, subject to refund. Texas Gas' proposed rates shall be subject to downward revision if the Company does not incur the anticipated producer rate increases by August 1, 1976.

With regard to the issue of the small producer purchases other than the small producer purchases made pursuant to the Commission's emergency sales regulations, the Commission will defer establishing a hearing schedule pending Commission action on rehearing of Opinion No. 742 [2] and the proposed rulemaking in Docket No. RM76-5.[3]

Notwithstanding the Commission's deferral of a procedural schedule on the small producer issue, Texas Gas shall file within 15 days of the date of this order a list of the small producers (other than small producers making emergency sales) making sales reflected in the instant filing at rates in excess of the "130% formula" rates.

With regard to the 60-day emergency purchases, the Commission noted in Opinion No. 699-B [4] that a pipeline would be entitled to include in its purchased gas costs a rate for such purchases "which a reasonably prudent pipeline purchaser would pay for gas under the same or similar circumstances." To assist in Commission review of the 60-day emergency purchases and in determining whether a public hearing is necessary thereon, Texas Gas shall be required to file and serve on all its customers and interested state commissions within thirty days of the issuance hereof the following information: (1) the pipeline's need for the gas, (2) the availability of other gas supplies, (3) the amount of gas purchased under each 60-day transaction, (4) a comparison of each emergency purchase price with appropriate market prices in the same or nearby areas, and (5) the relationship between the purchaser and the seller. Upon receipt of this information, it will be duly noticed for receipt of comments with respect thereto. If, upon review of the information filed and any comments related thereto, the Commission finds that the subject purchases meet the criterion set forth in Opinion No. 699-B, the Commission will terminate the proceedings and relieve Texas Gas of its refund obligation. Should the Commission's review of the information and any comments related thereto indicate that further proceedings are required as to any or all of the 60-day emergency purchases, such proceedings will be established by subsequent order.

Our review of Texas Gas' claimed increased purchased gas costs other than those claimed increased costs associated with that portion of small producer and emergency purchases in excess of the rate levels prescribed by the "130% formula" in Opinion No. 742 and the rate levels prescribed by Opinion No. 699-H respectively, indicates that they comply with the standard set forth in Docket No. R-406. Accordingly, we shall permit Texas Gas to file a revised tariff sheet to reflect the elimination of these costs.

The Commission finds: (1) It is necessary and appropriate to aid in the enforcement of the Natural Gas Act that hearing procedures on the issue of small producer purchases, other than those small producer purchases made pursuant to the Commission's 60-day emergency sales regulation, be deferred pending further Commission order.

(2) Good cause exists to accept for filing the proposed tariff sheet filed herein and suspend its use for one day, until August 2, 1976, when it shall be made effective, subject to refund as hereinafter ordered.

(3) Good cause exists to require Texas Gas to file, within 15 days of the date of issuance of this order, a list (with addresses) of small producers other than small producers making 60-day emergency sales from whom Texas Gas' purchases reflected in the instant filing were made at rates in excess of the "130% formula" established in Opinion No. 742.

(4) Good cause exists to require Texas Gas to file, within 30 days of the date of issuance of this order, information concerning the 60 day emergency purchases included in its filing as outlined in this order.

(5) It is desirable and in the public interest to permit Hamilton and Michigan Wisconsin to intervene in these proceedings.

The Commission orders: (A) Texas Gas' proposed tariff sheet is hereby accepted for filing and suspended for one day, to become effective August 2, 1976.

[1] Designated: Fifteenth Revised Sheet No. 7 to FPC Gas Tariff, Third Revised Volume No. 1.

[2] ---- FPC ---- issued August 28, 1975, in Docket No. R-393.

[3] Small Producers, Docket No. RM76-5, Notice of Proposed Rulemaking, issued August 28, 1975.

[4] ---- FPC ---- issued September 9, 1975, in Docket No. R-389-B.

V 41 N 153 AUG 6 76 UMI

subject to refund, and as conditioned below.

(B) Texas Gas' proposed rates are hereby made subject to downward revision if Texas Gas does not incur the anticipated producer rate increases by August 1, 1976.

(C) Texas Gas may file a revised tariff sheet, to become effetcive August 1, 1976, reflecting the elimination of purchased gas costs associated with that portion of small producer and emergency purchases in excess of the rate levels established in Opinion Nos. 742 and 699-H, as appropriate.

(D) Hearing procedures on the issue of small producer purchases (other than small producer purchases made pursuant to the Commission's 60-day emergency sales regulation) in excess of the rate levels prescribed in Opinion No. 742 are hereby deferred pending further Commission order.

(E) Within 15 days of the date of issuance of this order, Texas Gas shall file with the Commission a list, including addresses, of the small producers other than small producers under 60-day emergency sales, from whom it purchased at rates in excess of the rate level established in Opinion No. 742.

(F) To assist in Commission review of the 60-day emergency purchases and in determining whether a public hearing is necessary thereon, Texas Gas shall be required to file and serve on all its customers and interested state commissions, within 30 days of the date of issuance of this order, the following information: (1) the pipeline's need for gas; (2) availability of other gas supplies; (3) the amount of gas purchased under each 60-day transaction; (4) a comparison of each emergency purchase price with appropriate market prices in the same or nearby areas; and (5) the relationship between the purchaser and the seller. Upon receipt of this information, it will be duly noticed for receipt of comments with respect thereto. Should the Commission's review of the information filed, and any comments related thereto, indicate that such 60-day emergency purchases meet the guideline set forth in Opinion No. 699-B, the Commission will terminate the proceedings and relieve Natural of its refund obligation. Should the Commission's review of the information filed and any comments related thereto indicate that further proceedings are required as to any or all of such 60-day emergency purchases, such proceedings will be established by subsequent order.

(G) Hamilton and Michigan Wisconsin are hereby permitted to intervene in these proceedings subject to the rules and regulations of the Commission; Provided, however, that participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in the petitions to intervene; and Provided, further, that the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in these proceedings.

(H) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22918 Filed 8-5-76;8:45 am]

[Docket Nos. RP73-35 and RP74-89 (PGA76-3 and AP76-3)]

TRUNKLINE GAS CO.

Order Accepting for Filing and Suspending Tariff Sheet, Staying Procedures With Respect to Certain Small Producer Purchases, and Establishing Procedures

JULY 30, 1976.

On June 15, 1976, Trunkline Gas Company (Trunkline) tendered for filing a tariff sheet[1] that amounts to a rate increase of 11.48¢ per Mcf. The proposed rate includes amounts associated with advance payments and transmission and compression costs tendered pursuant to tracking clauses in Article Nos. V and VI of the Settlement in Docket No. RP74-89, respectively, and increased purchased gas costs.

Trunkline requests an effective date of August 1, 1976, for the tariff sheet.

Notice of Trunkline's tender was issued on June 22, 1976, with comments, protests or petitions to intervene due on or before July 13, 1976.

The Commission's review of Trunkline's filing indicates that the proposed tariff sheet reflects small producer purchases in excess of the rate levels permitted in Opinion No. 742.[2] The Commission's review of the advance payment portion of Trunkline's tender indicates that all of the new advance payments reflected therein may not be reasonable and appropriate for rate base treatment as prescribed by Order Nos. 465 and 499, in that the advances may not be reasonably related to the costs to be incurred for exploration and development. Accordingly, the Commission will accept the proposed tariff sheet for filing and suspend its use for one day until August 2, 1976, when it will be permitted to become effective subject to refund. The Commission will establish hearing procedures to examine the lawfulness of Trunkline's new advance payments. Trunkline may refile rates to be effective on August 1, 1976, which exclude the effect of the small producer purchases in excess of the Opinion No. 742 rate level and all new advance payments.

With regard to the issue of the small producer purchases in excess of Opinion No. 742 rate levels, the Commission will defer establishing a hearing schedule pending Commission action on rehearing of Opinion No. 742 and the proposed rulemaking in Docket No. RM76-5.[3] Notwithstanding the deferral of a procedural schedule on the small producer issue, Trunkline shall file within fifteen (15) days of the date of this order, a list of the small producers who made sales reflected in the instant filing which are in excess of the "130% formula" rates prescribed by Opinion No. 742.

Our review of increased purchased gas costs claimed by Trunkline other than those associated with small producer purchases in excess of "130% formula" levels indicates that they should be approved insofar as they are in compliance with the standards set forth in Docket No. R-406.

The Commission finds: (1) It is necessary and appropriate to aid in the enforcement of the Natural Gas Act that Trunkline's proposed tariff sheet be accepted for filing, that the effectiveness thereof be suspended for one day until August 2, 1976, when the tariff sheet shall be permitted to become effective, subject to refund, that hearing procedures in the issue of small producer purchases be deferred pending further Commission order, and that hearing procedures be established to examine the lawfulness of the rate increase attributable to Trunkline's new advance payments, as hereinafter ordered.

(2) Good cause exists to require Trunkline to file within fifteen (15) days of the issuance of this order a list of small producers making sales reflected in Trunkline's proposed tariff sheet which are in excess of the rate levels prescribed by Opinion No. 742.

(3) It is necessary and appropriate to aid in the enforcecent of the Natural Gas Act that Trunkline be permitted to file revised tariff sheets excluding the effect of the small producer purchases in excess of Opinion No. 742 levels and the new advance payments to become effective August 1, 1976.

The Commission orders: (A) Trunkline's proposed tariff sheet as filed on June 15, 1976, is hereby accepted for filing and the effectiveness thereof suspended for one day until August 2, 1976, when it shall become effective subject to refund.

(B) Hearing procedures regarding the justness and reasonableness of the small producer purchases in excess of the rate levels prescribed in Opinion No. 742 are hereby deferred pending further order of the Commission.

(C) Trunkline shall file within fifteen (15) days of the issuance of this order a list of the small producers making sales reflected in the Trunkline's proposed tariff sheet which are in excess of the rate levels prescribed by Opinion No. 742.

(D) Trunkline may file a revised tariff sheet to become ecective August 1, 1976, which excludes the small producer purchases in excess of Opinion No. 742 levels and the new advance payments.

(E) Pursuant to the authority of the Natural Gas Act, particularly Sections 4 and 5 thereof, a public hearing shall be held in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 to determine the lawfulness of Trunkline's proposed rate increase attributable to the new advance payments.

[1] Sixteenth Revised Sheet No. 3-A to Original Volume No. 1.

[2] Docket No. R-393, issued August 28, 1975.

[3] Small Producers, Docket No. RM75-5, Notice of Proposed Rulemaking, issued August 28, 1975.

(F) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing in this proceeding, with authority to establish and change all procedural dates, and to rule on all motions (with the exceptions of petitions to intervene, motions to consolidate and sever, and motions to dismiss), as provided in the Rules of Practice and Procedure.

(G) Trunkline shall file its direct case in the new advance payments proceeding on or before August 20, 1976. The Presiding Administrative Law Judge shall preside at a prehearing conference to be held on August 30, 1976, at 9:30 a.m., in a hearing room at the address noted in ordering paragraph (E).

(H) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-798]

UNION ELECTRIC CO.

Interconnection Agreement

JULY 30, 1976.

Take notice that on July 21, 1976 Union Electric Company (Union) tendered for filing an Interconnection Agreement dated July 2, 1976, between Union and Kentucky Utilities Company.

Union states that the Interconnection Agreement, among other things, establishes the rights and obligations of the parties, the points of interconnections, the types of power and energy to be exchanged and the rates therefor.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules or Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22921 Filed 8-5-76;8:45 am]

FEDERAL RESERVE SYSTEM

BANCO DE SANTANDER, S.A.

Order Approving Formation of Bank Holding Company

Banco de Santander, S.A., Santander, Spain, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 67 percent or more of the voting shares of First National Bank of Puerto Rico, Hato Rey, Puerto Rico ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant (deposits of approximately $3.2 billion), a Spanish comercial bank, has 484 branches including branches in Paris, Frankfurt, and London. Applicant also owns indirectly banks in Argentina and Panama and operates representative offices in Europe, Latin America, New York, New York, and San Juan, Puerto Rico.

Bank (deposits of approximately $29.3 million)[1] is the only national bank headquartered in Puerto Rico and is the tenth largest of eleven nongovernment owned commercial banks operating in Puerto Rico. Because of the nature of the business conducted by Applicant's representative offices in Puerto Rico, it does not appear that any meaningful competition would be eliminated as a result of the proposal. In view of Bank's size and rank in the market, the Board views the proposed acquisition as a foothold entry by Applicant into the market.[2] Such a foothold entry by Applicant should have a salutory effect on competition by enhancing Bank's competitive capabilities relative to the other banks in the market. Therefore, on the basis of the record, the Board concludes that consummation of the proposal would not have a significant adverse effect on existing or potential competition in any relevant area and that competitive considerations are consistent with approval of the application.

The financial condition and managerial resources of Applicant are considered satisfactory and its future prospects appear favorable. Absent consummation of this proposal, the financial condition, managerial resources and future prospects of Bank would be less than satisfactory. However, in view of Applicant's agreement to inject needed capital of approximately $3.2 million and its intention to strengthen the management of Bank, the same conclusions which apply to Applicant with respect to its financial condition, managerial resources and future prospects also apply to Bank: Affiliation with Applicant should enable Bank to more effectively provide services it has been forced to reduce as a result of its weakened financial condition. In addition, affiliation with an international banking organization such as Applicant should enable Bank to offer international banking services not currently available at Bank. Thus, considerations relating to the convenience and needs of the community to be served are also consistent with approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of New York pursuant to delegated authority.

By order of the Board of Governors,[3] effective July 30, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-22894 Filed 8-5-76;8:45 am]

FIRST SECURITY CORP.

Order Denying Extension of Time for Divestiture

First Security Corporation, Salt Lake City, Utah ("FSC"), a bank holding company within the meaning of the Bank Holding Company Act ("Act"), has tendered an application for the Board's approval under section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), to retain 100 percent of the voting shares of First Security Savings and Loan Association, Pocatello, Idaho ("FSS&L"), a company engaged in the business of operating a savings and loan association. Although FSC is subject to an outstanding Order of the Board to effect divestiture of FSS&L, it has not done so, and it is apparently of the view that the tender of the application tolls the time for divestiture. For the reasons set forth below, the Board denies any further extension of the time for divestiture of FSS&L by FSC, and, accordingly, will not process the tendered application.

FSC is a multi-State, multi-bank holding company whose predecessor ("Old FSC") was organized in 1928. Old FSC was, at the time of the enactment of the Bank Holding Company Act of 1956, engaged in both banking and nonbanking activities (including the operation of FSS&L) in the States of Idaho, Utah and Wyoming. As a result of the 1956 Act, Old FSC was required to divest of its impermissible nonbanking activities, including FSS&L. However, these activities were held until 1959 when Old FSC took steps to divide its bank and nonbank assets (the latter including FSS&L) among two corporations—FSC, which came to

[1] All banking data are as of June 30, 1975.

[2] The San Juan banking market consists of the San Juan SMSA.

[3] Voting for this action: Chairman Burns and Governors Wallich, Partee, and Lilly. Absent and not voting: Governors Gardner, Coldwell, and Jackson.

V 41 153 AUG 6 76 UMI

hold the bank assets, and First Security Investment Company ("FSIC"), a company holding the impermissible nonbank activities of Old FSC. The division was accomplished through a pro-rata "spin-off" of the company controlling the bank assets. Following this "spin-off" there existed and continued to exist not only a substantial identity of ownership, but significant officer and director interlocks between FSC and FSIC.[1]

On September 30, 1969, FSIC contracted to sell FSS&L to U.I.P. Corporation, Milwaukee, Wisconsin ("UIP"),[2] contingent upon UIP obtaining the necessary Federal Home Loan Bank Board ("FHLBB") approval. The contract of sale provided that an escrow agent, First Security Bank of Utah, N.A., Salt Lake City, Utah, FSC's own lead bank, would hold the shares of FSS&L pending consummation of the sale. The contract further provided that the escrow agreement was to be terminated on June 30, 1970, if regulatory approval were not obtained.

On April 1, 1970, while the UIP application for FHLBB approval was still pending and FSIC was still the owner of the FSS&L shares, FSIC and FSC merged. FSC thereby became the owner of FSS&L's shares in clear violation of the Bank Holding Company Act.[3] It was not until six months later, on September 30, 1970, that the FHLBB denied UIP's application to acquire FSS&L. Following that denial, the escrow was terminated and all rights with respect to the FSS&L shares reverted to the merged company.

In June 1971, after the Federal Reserve Bank of San Francisco became aware of the unlawful reacquisition of FSS&L by FSC, it advised FSC to divest FSS&L "as soon as possible." Later in 1971, however, FSC filed an application with the Board for permission to retain FSS&L. On August 21, 1972, the Board returned this application without acting upon it and directed FSC to initiate steps to dispose of FSS&L "as soon as practicable." In its letter the Board stated that it had decided not to include operation of a savings and loan association on its list of permissible activities at that time. FSC has nevertheless continued to retain its ownership of FSS&L.

Based on the foregoing and other facts of record, the Board has determined that FSC has held FSS&L in clear violation of the Act since the merger of FSC and FSIC in April 1970. Because of this violation, the separation of FSC's banking and impermissible nonbanking assets that was required when the Act was passed in 1956 has been frustrated. For the Board to extend the time for divestiture further, or to consider approving retention of FSS&L by FSC would serve only to encourage violations of the Act and delays in effecting divestiture by other bank holding companies. Accordingly, FSC is denied any further extension of the time for divesting FSS&L and is hereby ordered to divest itself of any and all direct or indirect interest in and control over FSS&L by no later than November 1, 1976. FSC is further directed to file a plan of divestiture with the Board by no later than September 15, 1976. Divestiture shall be accomplished in such a manner that neither FSC nor any successor thereto will exercise or be capable of exercising any direct or indirect control or controlling influence over FSS&L, its management or policies.

By order of the Board of Governors,[4] effective July 30, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-22895 Filed 8-5-76;8:45 am]

[1] FSC and FSIC had the same president and chief executive officer, and three of FSIC's directors were on the board of FSC.

[2] UIP was a diversified non-operating holding company engaged in the finance and industrial fields.

[3] By this merger, FSC apparently also violated section 408(e)(1)(B) of the National Housing Act, 12 U.S.C. section 1730a(e)(1)(B), inasmuch as the merger resulted in FSC becoming a savings and loan holding company without prior approval of the FHLBB.

[4] Voting for this action: Vice Chairman Gardner and Governors Wallich, Partee, and Lilly. Absent and not voting: Chairman Burns and Governors Coldwell and Jackson

NATIONAL CENTRAL FINANCIAL CORP.

Proposed Acquisition of Land Mortgages, Inc.

National Central Financial Corporation, Lancaster, Pennsylvania, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire, through its wholly-owned subsidiary, Hartzler Mortgage Company, Columbus, Ohio, all of the mortgage servicing portfolio of Land Mortgages, Inc., Dayton, Ohio. Notice of the application was published on July 2, 1976, in the "Dayton Daily News," a newspaper circulated in Montgomery County, Ohio.

Applicant states that the proposed subsidiary would engage in the activities of a mortgage banking company, including, for its own account or for the account of others, making construction and development construction loans and originating, acquiring, packaging, selling and servicing residential, commercial and industrial mortgage loans; and selling credit life, accident and health insurance that is directly related to extensions of credit by Hartzler Mortgage Company. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reason why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Banks of Philadelphia and Cleveland.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 30, 1976.

Board of Governors of the Federal Reserve System, July 30, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-22896 Filed 8-5-76;8:45 am]

SIOUX NATIONAL CO.

Formation of Bank Holding Company

Sioux National Company, Harrison, Nebraska, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 per of the voting shares of Sioux National cent (less directors' qualifying shares) of the voting shares of Sioux National Bank, Harrison, Nebraska. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received no later than August 27, 1976.

Board of Governors of the Federal Reserve System, July 29, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-22897 Filed 8-5-76;8:45 am]

TOWER-SOUDAN AGENCY, INC.

Acquisition of Bank

Tower-Soudan Agency, Inc., Tower, Minnesota, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire additional voting shares, but only its pro-rata share of 43.67 percent, of a new stock offering of State Bank of Tower, Tower, Minnesota. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. § 1842(c)).

The application may be inspected at the offices of the Board of Governors or

at the Federal Reserve Bank of Minneapolis. Any person wishing to comment on the application should submit views in writing to the Reserve Bank to be received not later than August 25, 1976.

Board of Governors of the Federal Reserve System, July 29, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-22898 Filed 8-5-76;8:45 am]

MILCO BANCORPORATION, INC.

Formation of Bank Holding Company

Milco Bancorporation, Inc., Iberia, Missouri, has applied for the Board's approval under § 3(a)(1) of the Bank Holding Company Act (12 U.S.C. § 1842(a)(1)) to become a bank holding company through acquisition of 64.3 percent of the voting shares of Bank of Iberia, Missouri. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. § 1842(c)).

Milco Bancorporation, Inc., Iberia, Missouri, has also applied, pursuant to § 4(c)(8) of the Bank Holding Company Act (12 U.S.C. § 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire the assets of Donald R. Tritten Insurance Company, Iberia, Missouri. Notice of the application was published on July 29, 1976 in the Miller County Autograph-Sentinel, a newspaper circulated in Iberia, Missouri.

Applicant states that the proposed subsidiary would engage in the activities of an insurance broker with respect to credit life and health and accident insurance that is directly related to extensions of credit by Bank of Iberia and would conduct those activities from the premises of that bank. Further, Applicant states that such activities have been specified by the Board in § 225.4(a) of Regulations Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The applications may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of St. Louis.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 23, 1976.

Board of Governors of the Federal Reserve System, August 4, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 9384; 812-3966]

AMERICAN BAKERIES CO.

Hearing on Application for Order Exempting Transaction

JULY 30, 1976.

In the matter of American Bakeries Company, 10 South Riverside Plaza, Chicago, Illinois 60606; (812-3966).

Notice is hereby given that American Bakeries Company ("Applicant"), a Delaware corporation, filed an application on June 14, 1976, pursuant to section 6(c) of the Investment Company Act of 1940 ("Act") for an order retroactively exempting from the provisions of section 17(a)(2) of the Act the purchase by Applicant of shares of its outstanding common stock from Mathers Fund, Inc. ("Fund"), an open-end investment company registered under the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein, which are summarized below.

In December, 1974, Applicant purchased 178,200 shares of its outstanding common stock, at a price of $3 per share, from the Fund. Prior to the transaction, the Fund owned more than 5 percent of Applicant's outstanding voting securities; and, therefore, Applicant was an "affiliated person" of the Fund within the meaning of section 2(a)(3) of the Act.

Section 17(a) of the Act, as here pertinent, provides that it is unlawful for an affiliated person of a registered investment company knowingly to purchase from such investment company any security or property unless the Commission, upon application pursuant to section 17(b), grants an exemption from the provisions of section 17(a) after finding that the terms of the proposed transaction are fair and reasonable and do not involve any overreaching on the part of any person concerned, that the proposed transaction is consistent with the policy of each registered investment company concerned, and that the proposed transaction is consistent with the general purposes of the Act.

The transaction in question was part of a larger transaction involving numerous clients of the Fund's investment adviser, Mathers & Company, Inc. (the "Adviser"); and Applicant states that it was not aware of the identity of the sellers at the time it agreed to the purchase. Applicant is a manufacturing company and not an investment company and states that it was unaware of its possible status as a statutory affiliate of a registered investment company or of the provisions of section 17(a)(2) of the Act and was unaware that the Act could possibly be applicable to the transaction in any way. Applicant states that the transaction was reviewed by respective counsel for the Adviser and for Applicant; but the possible applicability of section 17(a)(2) of the Act was overlooked by all concerned.

Applicant states that at no time has there been any association or connection between Applicant and the Fund or the Adviser other than the stock ownership described herein. Applicant further states that the price and terms of the transaction were arrived at by arms'-length bargaining and that the price represented a normal discount for such a large block from the market price for Applicant's stock on the New York Stock Exchange at the time of the transaction. In this connection, Applicant states that an investment banking firm hired by the Fund has advised that in its opinion the price and execution obtained in the transaction were fair and reasonable and were at least as advantageous as could have been obtained had the shares been sold through other means. Applicant also states that the Fund's counsel has advised that in its opinion the transaction did not result from overreaching of the Fund by Applicant and the Fund did not suffer any loss recoverable from Applicant. Finally, Applicant states that the transaction was consistent with the Fund's policy and with the general purposes of the Act.

Section 6(c) of the Act provides, in part, that the Commission may conditionally or unconditionally exempt any person, security, or transaction from any provision of the Act, or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant contends that the standards of sections 6(c) and 17(b) have been met.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors that a hearing be held with respect to the application:

It is ordered, Pursuant to section 40(a) of the Act, that a hearing on the aforesaid application under the applicable provisions of the Act and the rules of the Commission thereunder be held on September 13, 1976, at 10 a.m., in Room 2116 at the offices of the Securities and Exchange Commission, 1100 L Street, NW., Washington, D.C. 20005. Any person other than the Applicant desiring to be heard or otherwise wishing to participate in this proceeding is directed to file with the Secretary of the Commission, on or before August 27, 1976, his application pursuant to Rule 9(c) of the Commission's rules of practice setting forth the nature and extent of his interest in the proceeding and any issues of law or fact which he desires to controvert or any additional issues which he deems raised by this Notice and

V 41 153 AUG 6 76 UMI

Order or by such application. A copy of such request shall be served personally or by mail upon Applicant at the address noted above, and proof of service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. Persons filing an application to participate or be heard will receive notice of any adjournment of the hearing as well as other actions of the Commission involving the subject matter of this proceeding.

It is further ordered, That any officer or officers of the Commission, designated by it for that purpose, shall preside at said hearing. The officer so designated is hereby authorized to exercise all the power granted to the Commission under Sections 41 and 42(b) of the Act and to an Administrative Law Judge under the Commission's rules of practice.

The Division of Investment Management has advised the Commission that it has made a preliminary examination of the application, and that upon the basis thereof the following matters and questions are presented for consideration, without prejudice to its specifying additional matters and questions upon further examination:

(1) Whether the terms of the transaction, including the consideration received, were reasonable and fair and did not involve overreaching on the part of any person concerned;

(2) Whether the transaction is consistent with the policy of the Fund, as recited in its registration statement and reports filed pursuant to the Act.

(3) Whether the transaction is consistent with the general purposes of the Act; and

(4) Whether it is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act to exempt the transaction retroactively from the prohibitions of Section 17(a).

It is further ordered, That at the aforesaid hearing attention be given to the foregoing matters.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing a copy of this Notice and Order by certified mail to American Bakeries Company at the address noted hereinabove, that notice to all other persons be given by publication of this Notice and Order in the FEDERAL REGISTER, that a copy of this Notice and Order shall be published in the "SEC Docket," and that an announcement of the aforesaid hearing shall be included in the "SEC News Digest."

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[File No. 1-7453]

MOXIE INDUSTRIES, INC.

Application To Withdraw From Listing and Registration

JULY 26, 1976.

In the matter of Moxie Industries, Inc. common stock, $1.00 par value. File No. 1-7453; Securities Exchange Act of 1934 Section 12(d).

The above named issuer has filed an application with the Securities and Exchange Commission pursuant to section 12(d) of the Securities Exchange Act of 1934 and Rule 12d2-2(d) promulgated thereunder, to withdraw the specified security from listing and registration on the Boston Stock Exchange.

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

The Company's common stock is principally traded in the over-the-counter market.

The Boston Stock Exchange has not objected to this application, and the Company states that it will continue to file periodic reports with the Commission pursuant to section 12(g) of the Securities Exchange Act.

Any interested person may, on or before August 20, 1976 submit by letter to the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549, facts bearing upon whether the application has been made in accordance with the rules of the Exchange and what terms, if any, should be imposed by the Commission for the protection of investors. An order granting the application will be issued after the date mentioned above, on the basis of the application and any other information furnished to the Commission, unless it orders a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Notice No. 99]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 3, 1976.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR § 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 11207 (Sub-No. 374TA), filed July 27, 1976. Applicant: DEATON, INC., 317 Ave. W, P.O. Box ??, Birmingham, Ala. 35201. Applicant's representative: G. E. Tickle (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing and roofing materials*, from the plantsite and facilities of Masonite Corporation, located in Pulaski County, Ark., to points in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, and Tennessee, for 180 days. TRANSPORTATION OF "WASTE" PRODUCTS FOR REUSE OR RECYCLING

Special Certificate Letter Notice(s)

The following letter notices request participation in a Special Certificate of Public Convenience and Necessity for the transportation of "waste" products for reuse or recycling in furtherance of a recognized pollution control program under the Commission's regulations (49 CFR 1062) promulgated in *"Waste" Products*, Ex Parte No. MC–85, 124 MCC 583 (1976).

An original and one copy of protests against applicant's participation may be filed with the Interstate Commerce Commission on or before August 26, 1976. A copy must also be served upon applicant or its representative. Protests against the applicant's participation will *not* operate to stay commencement of the proposed operation.

If the applicant is not otherwise informed by the Commission, operations may commence on or before September 7, 1976, subject to its tariff publication effective date.

P–4–76 (Special Certificate—Waste Products) filed July 29, 1976. Applicant: JUNEAU TRANSIT, INC., Manitowoc, Wis. 54220. Applicant's representative: Leslie J. Vallesky, 105 North Eighth Street, Manitowoc, Wis. 54220. Authority sought to operate pursuant to a certificate of public convenience and necessity authorizing operations in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, in the transportation of *waste products for recycling or reuse*, between points in Illinois, Michigan, Minnesota and Wisconsin, in furtherance of a recognized pollution control program sponsored by Millbrew, Inc. of Juneau, Wis., for the purpose of recovery of "waste" brewers yeast for recycling.

By the Commission.

FOURTH SECTION APPLICATIONS FOR RELIEF

AUGUST 3, 1976.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 43205—*Volcanic Scoria or Slag to Eau Claire, Wisconsin.* Filed by Southwestern Freight Bureau, Agent, (No. B–618), for interested rail carriers. Rates on volcanic scoria or slag, not pumice stone, in carloads, as described in the application, from specified points in New Mexico, also Planeport, Texas, to Eau Claire, Wisconsin.

Grounds for relief—Market and carrier competition.

Tariff—Supplement 147 to Southwestern Freight Bureau, Agent, tariff SW/W–2006–J, I.C.C. No. 5056. Rates are published to become effective on September 10, 1976.

FSA No. 43206—*Pipeline Rates—Petroleum Products from the Southwest.* Filed by Williams Pipe Line Company, (No. 6), for interested carriers. Rates on petroleum products, as described in the application, from points in Kansas, Oklahoma, and Texas, to points in Missouri, Iowa, and Illinois.

Grounds for relief—Market and carrier competition.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Section 5b Application No. 5; Service Date Aug. 3, 1976]

RAILROAD INTERTERRITORIAL AGREEMENT

JULY 29, 1976.

The Commission is in receipt of the above-entitled and numbered application for approval of an agreement under the provisions of Section 5b of the Interstate Commerce Act.

Filed, as amended, July 19, 1976.

By: Andrew C. Armstrong, (Counsel for Eastern Railroads).

P. R. Birkholz, (Counsel for Southern Railroads).

Joseph D. Feeney, and Robert T. Opal, (Counsel for Western Illinois and Illinois-Indiana Coal and Coke Railroads).

Louis A. Harris, (Counsel for members of Western Railroad Traffic Association, Southern Ports Foreign Freight Committee, and Alaska Rail-Water Association).

Address Correspondence To:

Louis A. Harris, Associated General Counsel, Burlington Northern, Inc., 176 East Fifth Street, St. Paul, MN 55101.

Agreement involves: Organization, practices, and procedures between and among rail common carrier members in Eastern, Southern, and Western territories, and jointly with water common carriers in the Alaskan Trade and the Alaskan Railroad, for the joint consideration, initiation, or establishment of interterritorial rates and related matters and rules and regulations pertaining thereto, governing the transportation of property between points in the United States which involve or affect, either directly or by interrelation, carriers party to agreements in two or more of the above specified territories; and procedures for the processing of interterritorial traffic matters by the Uniform Classification Committee, the National Perishable Freight Committee, and the National Diversion and Reconsignment Committee.

The complete application may be inspected at the Office of the Commission in Washington, D.C.

Any interested person desiring to protest and participate in this proceeding shall notify the Commission in writing within 30 days from the date of publication of this notice in the FEDERAL REGISTER. As provided by the General Rules of Practice of the Commission, persons other than applicants should fully disclose their interest and the position they intend to take with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application, without further or formal hearing.

ROBERT L. OSWALD,
Secretary.

PART II:

SECURITIES AND EXCHANGE COMMISSION

TENDER OFFERS

Rules and Schedules

V41153 AUG 6 76 6 UMI

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

[Release Nos. 33-5731; 34-12676; 40-9386; File No. S7-649]

TENDER OFFERS

Rules and Schedules

The Securities and Exchange Commission today proposed for comment certain rules and related schedules under Sections 14(d) and 14(e) of the Securities Exchange Act of 1934 ("Exchange Act") [15 U.S.C. 78a et seq., as amended by Pub. L. No. 94-29 (June 4, 1975)] with respect to tender offers. If adopted, these proposals would augment the present statutory requirements by providing specific disclosure and dissemination requirements, additional substantive regulatory protections, particular antifraud provisions and other regulations with respect to certain cash tender offers and exchange offers. The proposals, which are based in part on the record in the Commission's Public Fact-Finding Investigation in the Matter of Beneficial Ownership, Takeovers and Acquisitions by Foreign and Domestic Persons ("Tender Offer Hearings"),[1] are not applicable to presently pending tender offers or to tender offers announced prior to the actual adoption and effectiveness of any of the proposals contained herein. Interested persons are invited to submit their written comments on the proposals by September 30, 1976.

The Commission's primary mandate under the federal securities laws is to protect investors and to act in the public interest. In the context of tender offers, the Commission is empowered to require full and fair disclosure for the benefit of investors and to permit both the person making the tender offer (the "bidder") and the management of the company whose securities are being sought (the "subject company") an equal opportunity to fairly present their positions. The Commission is mindful that any efforts to benefit investors in this area must be made without tipping the balance of regulation in favor of either the bidder or the subject company.

Accordingly, the Commission has re-examined its present disclosure requirements relating to persons making tender offers. Proposed Schedule 14D-1 [17 CFR 240.14d-100] for tender offer statements contains several new items not contained in current Schedule 13D [17 CFR 240.-13d-101] (which is now used for acquisition statements and tender offer statements) and several significant modifications of items that are in Schedule 13D. A new Item 3 would require disclosure of business relationships and transactions between the bidder and the subject company during the past three years and would call for disclosure of any negotiations between those parties relating to the tender offer and other specified transactions or proposals. A new Item 9 would require additional disclosures including financial statements and the applicability of anti-trust laws and margin requirements when such information would be material to a reasonable shareholder in deciding whether to tender, sell or hold securities being sought in the tender offer. A revised Item 4 would require additional disclosure regarding a bidder's source of funds including how the bidder plans to repay any loan. A revised Item 5 would require disclosure of a bidder's plans or proposals regardless of whether the bidder is seeking control of the subject company.

To insure that investors have an adequate opportunity to consider the more meaningful disclosures required by those proposals, the Commission is also proposing certain dissemination rules designed to encourage prompt and widespread communications of cash tender offers through the use of: stockholder lists, which for the first time would be available under SEC rules; summary advertisements containing an undertaking to transmit complete materials upon request; or long form publication of the entire offer, which is the current practice in connection with conventional cash tender offers.

The Commission has also re-examined the present disclosure requirements relating to subject companies and other persons making a solicitation or recommendation in connection with a tender offer and is now proposing Schedule 14D-4 [17 CFR 240.14d-101] to replace current Schedule 14D [17 CFR 240.14d-101]. Although the proposed schedule generally conforms to the current one, several additional items would be included and several items would be modified. For example, disclosure of actual or potential conflicts of interest between the person filing the statement and the subject company, the bidder or their respective affiliates may be required in the description of contracts, understandings, or other relationships between such persons pursuant to Item 3(b).

To further insure that investors have an adequate opportunity to consider communications from the bidder as well as the subject company in deciding whether to sell, tender or hold part or all of their securities, the Commission is also proposing rules that: require all tender offers to remain open for at least fifteen business days and for at least ten business days after any increase by the bidder in the offered consideration; provide withdrawal rights for shares deposited by investors during the first ten business days of an offer and other withdrawal rights in the event of a competing tender offer; and permit bidders to extend pro rata acceptance rights throughout a tender offer.

To facilitate the communication of complete information to the trading markets and to assist the national securities exchanges and the National Association of Securities Dealers, Inc. in carrying out their responsibilities of self-regulation under the federal securities laws, the Commission for the first time is proposing rules that would require copies of schedules filed by the bidder and persons making a solicitation or recommendation to be mailed to such organizations.

The Commission is also proposing anti-fraud and other provisions to curb certain apparent abuses in connection with tender offers. The intended effect of such proposals is to require prompt status reports whenever a tender offer is extended; to require prompt payment or return of securities after the expiration of a tender offer; and to prohibit direct and indirect purchases of certain securities by a bidder immediately after termination of a tender offer whether or not it was successful.

It should be noted that proposed Rules 14d-2 [17 CFR 240.14d-2] and 14d-4 [17 CFR 240.14d-4] would require that nonrefundable fees be paid when the initial Schedule 14D-1 or Schedule 14D-4 is filed with the Commission. Under these proposals, no additional filing fees would be required for amendments to either schedule. The Commission plans to propose a formal fee structure for all Williams Act filings in a subsequent release. The determination of such fees by the Commission will take into consideration the direct and indirect cost to the Government, the value to the recipient, public policy or interest served and other pertinent factors.[2]

This release contains a general description of the legislative and administrative background of the proposals and a synopsis of the specific proposals to assist in a better understanding of their provisions. However, attention is directed to the proposals themselves for a more complete understanding.

I. Background

The Williams Act Amendments to the Exchange Act provided for federal regulation of tender offers. Section 14(d) of the Exchange Act is applicable to classes of equity securities which are registered pursuant to Section 12 of the Exchange Act, or which would have been required to be registered pursuant to that Section except for a specific statutory exemption for insurance companies or which have been issued by a closed-end investment company registered under the Investment Company Act of 1940. Generally, Section 14(d) makes it unlawful for any person (or group of persons) to make a tender offer for or request or invitation for tenders of such securities which, if successful, would result in that person being the direct or indirect beneficial owner of more than 5 percent of a class of such securities unless that person, at the time of publication or distribution of the tender offer, has filed with the Commission a statement disclosing the information specified in Section 13(d) as well as such other information required by the Commission's rules. Among other things, Section 14(d) also contains regulatory provisions relating to shareholders' withdrawal rights and their pro-rata acceptance rights, as well as the bidder's obligation to treat all tendering shareholders equally with respect to any increase in the offered consideration. Section 14(d)(4) requires that all recommendations relating to tender offers be made in accordance with rules adopted by the Commission. Section 14(e), which is applicable to all tender offers and recommendations related thereto, makes it unlawful for any person to make any untrue statement of a material fact or to omit to state any necessary fact or to engage in any fraudulent, deceptive or manipulative acts or practices in connection with any actual or planned tender offer.

In passing the Williams Act, P.L. 90-439, in 1968, Congress recognized that although "takeover bids should not be discouraged,"[3] regulation of tender offers was necessary for the purposes of disclosure of material information and substantive protection to investors.[4] The approach was considered necessary because:

> The competence and integrity of a company's management and of those persons who seek management positions, are of vital importance to stockholders. Secrecy in this area is inconsistent with the expectations of the people who invest in the securities of publicly held corporations and impair public confidence in securities as a medium of investment.[5]

Congress also heard testimony about the need to provide adequate communication with the shareholders and to insure sufficient time to make an investment decision in order to avoid undue pressure on shareholders during a tender offer.[6]

However, in adopting this approach Congress was aware of the positions of the bidder and the company whose securities are being sought in a tender offer and therefore took:

> • • • extreme care to avoid tipping the balance of regulation either in favor of management or in favor of the person making the takeover bid. The bill is designed to require full and fair disclosure for the benefit of investors while at the same time providing the offeror and management equal opportunity to fairly present their case.[7]

In order to immediately implement this statutory framework the Commission adopted emergency rules and regulations under the Williams Act Amendments.[8] Subsequent to the passage of the 1970 Williams Act Amendments, P.L. 91-567,[9] which provided additional investor protection in the context of tender offers, the Commission made further amendments to its rules.[10]

In November and December 1974, the Commission conducted its Tender Offer Hearings. The written and oral testimony of witnesses and letters of comment from interested persons highlighted certain issues such as the definition of the term "tender offer," communications with shareholders, adequate time for shareholders to evaluate tender offers and make investment decisions and disclosure pertaining to tender offers.

On the basis of the Tender Offer Hearings, Congressional hearings, judicial decisions and the Commission experience with the present regulatory framework, the Commission is proposing rules and schedules intended to provide more effective disclosure, communication and substantive regulation of tender offers while maintaining the balance between the bidder and the company whose securities are being sought by the tender offer. The Commission is of the view that these proposals, if adopted, would carry out the Congressional intent in enacting Sections 14(d) and 14(e).

II. Definition of the Term "Tender Offer"

Although testimony and letters of comment were received at the Tender Offer Hearings on the definition of the term "tender offer," no consensus of opinion was reached on the meaning of the term. Several commentators suggested exemptive provisions having the effect of excluding particular types of transactions from the definition of the term, such as offers made to a small group of shareholders. However, it is the Commission's view that such exemptions are not proper unless a definition of the term is first established. In light of the record of the Tender Offer Hearings, the Commission's position at this time is that a definition of the term "tender offer" is neither appropriate nor necessary. This position is premised on the dynamic nature of these transactions and the need of the Commission to remain flexible in determining what types of transactions, either present or yet to be devised, are or should be encompassed by the term. Therefore, the Commission specifically declines to propose a definition of the term "tender offer."

The Commission's position should in no way be construed to mean that the term applies only to so-called conventional tender offers whereby an offer is published by a person requesting that all or a portion of a class of a company's securities be deposited during a fixed period of time so that such person may purchase such securities at a specified price (whether cash and/or securities) and subject to specified conditions. But rather, the term is to be interpreted flexibility and applies to special bids;[11] purchases resulting from widespread solicitations by means of mailings, telephone calls and personal visits;[12] and any transaction where the conduct of the person seeking control causes pressures to be put on shareholders similar to those attendant to a conventional tender offer.

III. Synopsis of Proposals

A. Proposed Rule 14d-1: Certain Definitions [17 CFR 240.14d-1]

At present, Regulation 14D [17 CFR 240.14d-1 through 240.14d-101] does not contain a definitional section. In order to clarify terms frequently used in the proposed rules and schedules, the Commission is proposing Rule 14d-1. The decision by the Commission not to define the term "tender offer" at this time is discussed above. The terms "bidder" and "subject company" provide short-hand references to the principal participants in a tender offer. The term "tender offer material" is a non-exclusive reference to the types of information that are required to be disseminated to security holders by means of the summary publication and the stockholder list procedures set forth in proposed Rule 14d-3.

B. Proposed Rule 14d-2: Filing of Tender Offer Statement [17 CFR 240.14d-2]

Section 14(d)(1), the provisions of which are more fully described above, sets forth filing requirements applicable to all tender offers. At the present time, a person soliciting tenders must file with the Commission a statement containing the information specified in Schedule 13D prior to the time the offer, request or invitation is first sent or given to security holders. Copies of the statements in the form filed with the Commission are required to be sent to the issuer not later than the date such material is first published, sent or given to security holders. These requirements also apply to any additional material soliciting or requesting tender offers after the initial solicitation. The provisions of present Rule 14d-1 [17 CFR 240.14d-1] parallel those of Section 14(d)(1).

With certain changes, the provisions of proposed Rule 14d-2 would generally conform to the present filing framework. Under proposed Rule 14d-2(a), the bidder would be required to take certain actions prior to or simultaneously with the time the tender offer is first published, sent or given to security holders. In addition to making a filing with the Commission and a transmittal to the subject company, the bidder would be required to transmit a copy of the proposed Schedule 14O-1 with exhibits to any na-

tional securities exchange where the class of the subject company's securities sought by the tender offer is traded and to the National Association of Securities Dealers, Inc. ("NASD") if such class of the subject company's securities is traded in the over-the-counter market. The Commission recognizes the unsettling effect that tender offers have on trading markets and believes that this proposal will insure that securities exchanges and the NASD have direct access to complete information during a tender offer. The transmittals to the subject company, securities exchanges and the NASD would be made by registered or certified mail.

Proposed Rule 14d–2(b) would require a similar filing and mailing procedure with regard to additional material soliciting or requesting tender offers subsequent to the filing of a Schedule 14D–1 pursuant to paragraph (a) of this rule. However, additional material which only reports the number of shares deposited to date and/or announces an extension of time for depositing securities pursuant to a tender offer would be deemed to meet the requirements of Section 14(d)(1) if filed with the Commission within two business days after it is first published, sent or given to security holders. This exception would not apply to the requirement that a copy of such additional material be mailed to the subject company, securities exchanges and the NASD prior to or simultaneously with the time such additional material is first published, sent or given to security holders. The Commission received testimony at the Tender Offer Hearings about the logistical problems of filing such limited, but important, additional material with the Commission prior to its public release. The Commission believes that this exception would facilitate rapid communication of such limited additional material to shareholders and would resolve any procedural difficulties incurred in such communication.

Material changes to information in the Schedule 14D–1 filed in accordance with subparagraph (a)(1) of this proposed rule would be required to be promptly filed with the Commission and mailed to the subject company, securities exchanges and the NASD in the same manner as required by paragraph (a) of this rule.

C. PROPOSED RULE 14d–3: COMMUNICATION OF CASH TENDER OFFERS [17 CFR 240.14d–3]

Although present Rule 14d–1(c) specifies certain information which must be included when tender offers are published, sent or given to security holders, it does not specify any particular method of disseminating such information. Proposed Rule 14d–3 would establish standards whereby information communicated in compliance with its provisions would be deemed "published or sent or given to security holders" for the purposes of Section 14(d)(1). The proposed rule would pertain only to cash tender offers and is not intended by the Commission to be a mandatory or exclusive regulation of such offers.

The proposed rule covers three alternative methods of communicating cash tender offers: long form publication; summary publication; and use of stockholder lists to assist direct communication. So long as a bidder fully complies with the requirements of any one of the three methods, the bidder can utilize either of the other two methods in whole or in part. Thus, the three methods are not in any way mutually exclusive.

The long form publication of proposed Rule 14d–3(a) is substantially equivalent to the current practice with respect to conventional tender offers. The summary publication of proposed Rule 14d–3(b) would require that at least certain specified material information appear in a summary advertisement and would provide for security holders to be able to promptly obtain the bidder's tender offer materials at the bidder's expense. In order to comply with the provisions of this subsection, the bidder would be required to have sufficient copies of the tender offer materials available for distribution when the summary advertisement appears. The Commission believes that this method of communication will decrease the escalating costs and scheduling problems associated with publishing conventional tender offers in newspapers while, at the same time, insuring dissemination of the tender offer materials to record owners and beneficial owners who desire to consider more complete information.

The third method of communication is the use of stockholder lists by the bidder. After the bidder has obtained the lists from the subject company pursuant to proposed Rule 14e–1, which is discussed below, or through other means, the bidder would be required to mail its tender offer materials to all the persons named on the stockholder list and to furnish sufficient sets of tender offer materials to brokers, banks and similar persons whose name appears or whose nominee appears on the stockholder list or who is listed as a participant in the clearing agency's security position listing. The Commission is aware that access to shareholder lists is also a matter of state corporation law and recognizes that, if adopted, this rule would make stockholder lists available to bidders in the context of cash tender offers for the first time under the federal securities laws. Therefore, the Commission specifically invites comments on its rulemaking authority concerning the use of shareholder lists and any conflict with state law which would not be in the public interest or for the protection of investors.

By encouraging the prompt and widespread dissemination of cash tender offers, proposed Rule 14d–3 is intended to afford a greater number of security holders the opportunity to consider and evaluate the disclosures required by other proposals. However, specific comments are invited whether the three proposed alternative methods of communication will be sufficient to accomplish public disclosure of the tender offer to security holders and trading markets or whether additional measures are necessary.

D. PROPOSED RULE 14D–4: FILING OF RECOMMENDATION STATEMENT [17 CFR 240.14D–4]

Rule 14d–4 presently requires that, with certain exceptions, persons making a solicitation or recommendation to security holders to accept or reject a tender offer subject to Section 14(d) of the Act must file with the Commission a statement containing the information specified by current Schedule 14D at the time such solicitation or recommendation is first published, sent or given to such security holders. Amendments to such statements are also required to be promptly filed with the Commission.

Proposed Rule 14d–4 would generally conform to the present framework. Instead of present Schedule 14D, a proposed Schedule 14D–4, described below, would be filed with the Commission and sent by registered or certified mail to the bidder, any national securities exchange where the securities being sought by the tender offer are traded and to the NASD if the securities are traded in the over-the-counter market. Proposed Rule 14d–4(a) would require that these actions occur simultaneously with or prior to the time that the solicitation or recommendation, whether oral or written, is first made to security holders.

Under proposed Rule 14d–4(b), material changes in the information contained in the Schedule 14D–4 would be promptly filed as amendments to that Schedule and would be promptly sent by registered or certified mail to national securities exchanges and the NASD, if applicable.

As in present Rule 14d–4(c), proposed Rule 14d–4(c) would establish minimum informational requirements for the solicitation or recommendation that is communicated to security holders. The present disclosure regarding arrangements or understandings pertaining to the solicitation between the person filing the statement and the bidder and the subject company would be expanded to include all contracts, arrangements, understandings and relationships between such persons. In addition, recent transactions by the person filing the statement, its executive officers, directors, affiliates and subsidiaries in the securities being sought by the tender offer would be disclosed. The Commission believes that this additional disclosure will assist security holders in evaluating a solicitation or recommendation.

The exceptions to the proposed rule which are contained in proposed Rule 14d–4(d) are substantially similar to the exceptions provided by present Rule 14d–4(a) (1) and (2) [17 CFR 240.14d–4(a)(1) and (2)] and present Rule 14d–2(e) and (f) [17 CFR 240.14d–2 (e) and (f)]. Proposed Rule 14d–(c)(4) provides an exemption for a subject company's initial, limited communication regarding a tender offer and would establish definite periods for transmittal of a subsequent communication to insure that security holders have adequate time to consider

the subject company's position in making their investment decision. Under this proposal, such a subsequent communication must contain a recommendation to accept or reject a tender offer or must indicate management's decision not to make a recommendation.

E. PROPOSED RULE 14d–5: ADDITIONAL WITHDRAWAL RIGHTS [17 CFR 240.14d–5]

Section 14(d)(5) provides an unconditional right of withdrawal to persons who have deposited securities pursuant to a tender offer for seven days after the time definitive copies of such offer are first published, sent or given to security holders. Additionally, the Section provides a right of withdrawal at any time after sixty days after the date of the original offer, if the shares deposited have not been accepted for payment by the bidder by that time.

Extensive testimony was received at the Tender Offer Hearings concerning withdrawal rights. This testimony raised questions about the effectiveness of the seven day withdrawal right and pointed out that, with the possible exception of the sixty day provision, Section 14(d)(5) does not cover withdrawal in a competing tender offer situation.

The Commission believes that a depositor should not be permitted to withdraw any or all securities deposited during the entire period that the offer is open. At some point prior to expiration of its offer, the bidder should have the opportunity to ascertain the number of securities deposited in order to determine whether or not to accept securities for purchase or to extend or change other terms of the tender offer. However, in light of proposed Rule 14e–2(a), discussed below, which would establish a fifteen business days minimum period that an offer must remain open and the testimony at the Tender Offer Hearings, proposed Rule 14d–5(a) would extend the seven day withdrawal right to ten business days. The proposed rule would also provide a withdrawal right for any or all securities deposited but not accepted for payment by the bidder for seven business days following the date a proposed Schedule 14D–1 is filed with the Commission relating to a competing tender offer by a subsequent bidder. The Commission believes this provision would afford a further protection to shareholders and would not create an undue burden on a bidder.

F. PROPOSED RULE 14D–6: PURCHASE AFTER TERMINATION OF A TENDER OFFER [17 CFR 240.14D–6]

At present, Regulation 14D does not provide for the integration of purchases by the bidder either before the commencement of the tender offer or after its termination with those purchases made by the bidder pursuant to the tender offer. Under proposed Rule 14d–6(a), open market, private or other purchases of certain securities, described below, by either the bidder or its affiliates within forty business days after the termination of the bidder's tender offer would be integrated with and deemed a part of the tender offer only for the purposes of Section 14(d) of the Exchange Act. The proposed rule would be triggered by the termination of the bidder's tender offer, which would be determined by the date the tender offer actually ended, rather than the scheduled date of expiration of the tender offer or any extensions thereof. Thus, unsuccessful or partially successful tender offers would also be covered by the proposed rule.

The integration provisions of proposed Rule 14d–6(a) would apply to post-termination purchases of the securities described in proposed Rule 14d–6(b). Securities of the same class sought by the bidder in its tender offer would be included as well as options, warrants, rights, convertible securities or other securities which involve contractual rights, privileges or other provisions to purchase or acquire, through exercise, conversion, exchange or otherwise, securities of such class.

If adopted, the proposed rule would result in applying the disclosure and substantive protections, such as the best price and sixty day withdrawal provisions of Section 14(d) to such purchases. The effect of the rule as proposed would, in most circumstances, be to preclude such purchases by the bidder or its affiliates during the forty business day period, unless one of the exemptions described below is available. It should be noted that the proposed rule would have no effect on Rule 10b–13 [17 CFR 240.10b–13].

Proposed Rule 14d–6(c) would exclude certain purchases during the forty business day post-termination period from the operation of the proposed rule. These would include purchases made pursuant to a subsequent tender offer for securities of the same class sought in the bidder's previous tender offer, provided that the offered consideration in the subsequent tender offer is no lower than that offered at any time during the bidder's previous tender offer. Additionally, purchases pursuant to the exercise of options, warrants or rights, the conversion of convertible securities, or the execution of the terms of agreements to purchase securities of the class sought by the tender offer would be excluded if such options, warrants, rights, convertible securities or agreements were obtained or entered into prior to the date the tender offer was first published, sent or given to security holders and were disclosed in the Schedule 14D–1 filed by the bidder for the tender offer. Finally, other agreements or transactions would be excluded from the proposed rule which the Commission would exempt by order.

The intended purpose of the proposed rule is to prevent the bidder from taking advantage, either directly or indirectly, of any unsettling market condition after the termination of its tender offer. Mindful of this purpose, the Commission could find no valid distinction in the context of post-termination purchases between a tender offer for any or all securities of a class of the subject company and a tender offer for only a portion of the securities of such class.

At this time the Commission is not specifically proposing a similar integration rule relating to pre-commencement purchases of such securities. The Commission invites specific comment on the need for, and the Commission's authority to adopt, a parallel pre-commencement integration rule.

G. PROPOSED RULE 14d–7. CERTAIN EXEMPT TRANSACTIONS [17 CFR 240.14d–7]

Rule 14d–2 presently contains provisions that exempt certain communications from Regulation 14D. Two of these provisions, Rules 14d–2 (e) and (f), are proposed in modified form in proposed Rule 14d–4(c) which is discussed above. Proposed Rule 14d–7 would generally conform to the existing rule with the exception that current Rule 14d–2(g), which pertains to offers to purchase securities in transactions exempt from registration under the Securities Act of 1933 pursuant to Section 3(a)(10) thereof, would be withdrawn. This provision was adopted at a time when exchange tender offers were exempt from Section 14(d). Serious questions have been raised as to its utility in the proposed Regulation 14D. If this provision is withdrawn, the transactions covered by Rule 14d–2(g) could be considered on a case-by-case basis by the Commission pursuant to its exemptive power under Section 14(d)(8)(C). The Commission invites specific comment on the proposed deletion of this provision.

H. PROPOSED RULE 14d–8. EXEMPTION FROM STATUTORY PRO RATA REQUIREMENTS [17 CFR 240.14d–8]

When a tender offer is made for less than all the outstanding securities of a class of an issuer and if, within the first ten days after such tender offer is published, sent or given to the security holders, a greater number of shares are deposited than the bidder's bound or willing to take up, Section 14(d)(6) provides that any securities accepted by the bidder must be taken up on a pro rata *basis* according to the number of securities deposited by each depositor. In addition, Section 14(d)(6) provides that the pro-rata provision shall apply to securities deposited within ten days after notice of an increase in the offered consideration is first published, sent or given to security holders.

Proposed Rule 14d–8 would establish an exemption to Section 14(d)(6) for tender offers for less than all the outstanding equity securities of a class where the bidder provides that any and all securities taken up at any time pursuant to the tender offer will be accepted on a pro rata basis. The proposed Rule, which is intended to be voluntary in operation, is designed to resolve any doubts among practitioners that a bidder can extend pro rata acceptance rights for the entire length of the tender offer period without being in violation of Section 14(d)(6). If adopted, the Commission be-

V 41 153 AUG 6 76 UMI

lieves the proposed rule would implement the Williams Act by giving all holders of the securities being sought an equal opportunity to participate in the tender offer.

I. PROPOSED SCHEDULE 14D–1: TENDER OFFER STATEMENT [17 CFR 240.14D–100]

At present, in order to fulfill the requirements of Section 14(d) and Rule 14d–1, a bidder must file a statement containing the information and exhibits required by Schedule 13D. The Commission is proposing a separate Tender Offer Schedule—Schedule 14D–1. The Commission believes that a separate schedule for tender offers will avoid unnecessary confusion, will provide more meaningful disclosure to investors and, to the extent feasible, will be less burdensome on the bidder.

With certain significant exceptions discussed below, proposed Schedule 14D–1 generally conforms to present Schedule 13D, Acquisition Statement, and reflects the letter of comment received by the Commission with respect to a proposed amendment to that Schedule.[11] Instruction C to proposed Schedule 14D–1 would curtail and clarify previous conditions so that: a reporting corporation would need to disclose information only regarding its executive officers, rather than all officers; and in multiple tier corporate structures, no information would be required regarding any officers or directors of mid-tier corporations unless they were also controlling persons. Item 2 of the proposed Schedule would require disclosure regarding the bidder and related persons pertaining to employment history, criminal convictions and certain civil actions for the five year period prior to the tender offer.

Although proposed Schedule 14D–1 would retain much of the substance of Schedule 13D, certain items would be significantly modified and two new items are proposed. A new Item 3 of the proposed schedule would require disclosure of past relationships, transactions or negotiations between the bidder or its affiliates and the subject company or its affiliates. Item 3(a) would require a statement of the nature and approximate dollar amount of business relationships and transactions between such persons during the three years preceding the tender offer. Item 3(b) would require a description of certain other contacts, relationships, transactions or negotiations between such persons for a similar period, which concerned such events as a merger or consolidation with or acquisition of the subject company or any of its affiliates; a tender offer or other acquisition of the securities of any class of securities issued by the subject company; an election of directors of the subject company; and the sale or other transfer of a material amount of assets by the subject company or any of its subsidiaries.

[11] Exchange Act Release No. 11616 (August 25, 1975) (40 FR 42212). See SEC File S7–580.

A revised Item 4 of the proposed schedule would increase the disclosure concerning the source and amount of funds or other consideration to be employed by the bidder in the tender offer. If any part of such funds or other consideration is borrowed, Item 4 would require disclosure of the material terms or conditions of such loan agreements, such as the stated and effective interest rates, as well as a description of any plans or arrangements to finance or repay such loans. If no such plans or arrangements have been made, a statement to that effect would be required. To facilitate requests for confidential treatment of the identity of certain banks, which is provided in Section 13(d)(1)(B), Item 3 would establish a procedure of submitting such requests to the Secretary of the Commission.

In addition to a statement of the purpose or purposes of the tender offer, a revised Item 5 would require a description of certain plans or proposals by the bidder relating to or resulting in such events as: an extraordinary corporate transaction involving the subject company or any of its subsidiaries; a sale or transfer of a material amount of the assets of the subject company or any of its subsidiaries which would include, but not be limited to, a sale or transfer to the bidder or any of its affiliates; any change in the subject company's present board of directors, which would include any plan or proposal to fill vacancies or change the number or term of the directors; any material change in the subject company's present capitalization or dividend policy; and delisting a class of the subject company's securities from a national securities exchange or terminating the registration of such class of securities pursuant to Section 12(g)(4). It should be noted that this description of the bidder's plans and proposals would be required for all tender offers, not merely for those with the purpose of acquiring control of the subject company.

A new Item 9 of the proposed Schedule would require disclosure of additional information, if an average, prudent investor ought reasonably to be informed of such information in deciding whether to sell, tender or hold securities being sought in the tender offer. The materiality test of this item was derived from the definition of the term "material" in Rule 12b–2(j) [17 CFR 240.12b–2(j)]. For the first time, the bidder's financial statements, prepared in compliance with Form 10, as well as statements concerning the applicability of anti-trust laws and the margin requirements would be specifically required, if the materiality test is met. Item 9 is not intended to provide an exclusive list of additional information that would be required, but rather is designed to be illustrative of the types of information which might be material.

J. PROPOSED SCHEDULE 14D–4: RECOMMENDATION STATEMENT [17 CFR 240.14d–101]

A Schedule 14D is currently required to be filed by certain persons making a solicitation or recommendation to the holders of a security to accept or reject a tender offer subject to Section 14(d).

The Commission has re-examined Schedule 14D and proposes Schedule 14D–4 which is intended to provide more meaningful information to security holders. While the disclosure requried by several items would be modified, proposed Schedule 14D–4 would generally conform to Schedule 14D. In describing any contracts, agreements, arrangements, understandings or relationships between the person filing the statement or his affiliates and the subject company and the bidder or their respective executive officers and directors, as required by Item 3(b), disclosure of actual or potential conflicts of interest between such persons may be necessary. The Commission believes that such disclosure would enable security holders to more fully evaluate any recommendation concerning the tender offer. Items 4 would require a statement of the bases for as well as the reasons for the recommendation. In the Commission's view, such information would further assist security holders in evaluating the merits of a recommendation regarding a tender offer.

K. PROPOSED RULE 14e–1: FURNISHING OF STOCKHOLDER AND OTHER LISTS [17 CFR 240.14e–1]

Neither the Williams Act nor the rules promulgated thereunder presently require the subject company to furnish stockholder lists, either directly or indirectly, to a bidder in the context of a tender offer. On the basis of the Tender Offer Hearings and its experience, the Commission proposes Rule 14e–1 which would regulate the transmission by the subject company and the use by the bidder of shareholder and other lists in certain tender offers. Specifically, the failure of a subject company with a class of equity securities referred to in Section 14(d)(1) to furnish the most recent shareholder list and clearing agency's security position listing in its possession or under its control within two business days after receipt of a written request for such lists from a bidder planning to make a tender offer for such securities would constitute a fraudulent, deceptive or manipulative act or practice under Section 14(e). It should be noted that the proposed rule would require that the stockholder list contain the name and address of every security holder but the number of shares held by such persons would not be required. However, the proposed rule would provide that the subject company need not furnish such lists to the bidder unless the bidder has filed a Schedule 14D–1 with the Commission prior to submitting its written request to the subject company and unless such written request contains certain written representations and undertakings by the bidder to the subject company. These include: an undertaking that the lists furnished by the subject company will be used exclusively in connection with the bidder's tender offer and extensions

thereof; a representation that the bidder will promptly pay the reasonable costs incurred by the subject company in furnishing the lists; and an undertaking that the bidder will mail at its expense a copy of its tender offer material to every person whose name appears on the stockholders list and will furnish, at its expense, the number of sets of its tender offer material which are requested by participants named on the clearing agency's security position listing. Communications by the bidder after receiving such lists would be governed by Rule 14d–3(c), discussed above. Although Section 14(e) applies to all tender offers, the proposed rule would apply only to tender offers for securities of a class referred to in Section 14(d)(1).

Testimony was given at the Tender Offer Hearings that the Commission propose a rule requiring the subject company to mail the bidder's tender offer material to security holders. The Commission believes that proposed Rule 14e–1 is preferable since it would prevent potential abuses by the subject company such as delaying the mailing of the tender offer materials. The proposed rule is intended to provide the bidder with an opportunity to directly communicate with security holders equal to that of the subject company and to facilitate communication of a tender offer to the greatest number of record holders and beneficial owners of the securities being sought by the tender offer, many of whom might otherwise be unaware of such offer.

The Commission recognizes that the use of shareholder lists by a bidder in the context of a tender offer is also a matter of concern under state corporation law. Therefore, the Commission specifically requests comments on its rulemaking authority to adopt the proposed rule and any conflicts with state law which would not be in the public interest or for the protection of investors.

L. PROPOSED RULE 14e–2: UNLAWFUL TENDER OFFER PRACTICES [17 CFR 240.14e–2]

Prior to the proposals announced in this release, the Commission had not exercised the rulemaking power granted ot it under Section 14(e) by the 1970 amendments to the Williams Act.

In light of the testimony at the Tender Offer Hearings and the Commissions' experience since the 1970 amendments to the Williams Act, the Commission believes that specific anti-fraud provisions are necessary and appropriate in the public interest and for the protection of investors. Consequently, proposed Rule 14e–2(a) would require that any tender offer must remain open for at least fifteen business days from the date it is first published, sent or given to security holders in accordance with Rule 14d–3 or otherwise. Proposed Rule 14e–2(b) would require that any tender offer remain open for at least ten business days after the date of the notice of an increase in either the offered consideration or the dealer's soliciting fee. The Commission believes that these proposals would facilitate communication during tender offers and provide a more realistic time frame for security holders to evaluate a tender offer and certain changes thereto before making an investment decision. In the Commission's opinion these proposals if adopted would alleviate undue pressure on shareholders without unduly hindering the bidder making a tender offer.

Proposed Rule 14e–2(c) would require the bidder to pay the offered consideration or return the stock certificates deposited by or on behalf of security holders within 10 business days after the termination of a tender offer. This provision would apply only to securities actually on deposit and would not affect a guarantee of delivery when the securities represented by such guarantee have not been physically deposited in the bidder's named depository. The Commission believes that this provision would insure that deposited securities are not tied up for an unreasonable length of time while at the same time it would not unduly burden either the bidder or its depository in their operations after a tender offer terminates.

Finally, proposed Rule 14e–2(d) would require the bidder to issue a press release or similar public communication within one business day after the scheduled expiration whenever the length of the tender offer is extended. Such disclosure would require a statement of the approximate number of securities deposited at the time of the scheduled expiration date. This provision is intended by the Commission to assure fair treatment of all shareholders concerned with a tender offer by requiring prompt and widespread communication of certain minimum information when a tender offer is extended.

As noted above, the time periods that would apply to the provisions of proposed Rule 14e–2 are stated in terms of "business days." As in other rules proposed in this release, this term refers to days when the Commission is scheduled to be open for business.

IV. SPECIFIC INQUIRIES AND PROCEDURES

Any interested person wishing to submit specific written comments concerning the rules and schedules proposed herein is invited to do so at any time prior to the close of the comment period on September 30, 1976. In addition, the Commission invites written comments on three specific issues:

(1) Whether the Commission has adequate rule-making authority to adopt the proposals published in this release;

(2) Whether the costs imposed on bidders, subject companies and others by these proposals outweigh their benefits to investors and the public interest; and

(3) Whether any of the proposed rules or schedules, if adopted, would have an adverse impact on competition or would impose a burden on competition which is neither necessary nor appropriate in furthering the purposes of the Exchange Act. Comments on this item will be considered by the Commission in complying with its responsibilities under Section 23(a)(2) of the Exchange Act.

All communications should be submitted in triplicate and addressed to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549 on or before September 30, 1976. Such communications should refer to File No. S7–649 and will be available for public inspection. The text of the proposed rules and schedules follows.

V. TEXT OF PROPOSALS

1. Regulation 14D [17 CFR 240.14d–1 to 240.14d–101] is proposed to be revised to read as follows:

REGULATION 14D: TENDER OFFERS

§ 240.14d–1 Certain definitions.

For the purposes of Regulation 14D [§§ 240.14d–1 to 240.14d–101]:

(a) The term "bidder" means any person on whose behalf a tender offer is made;

(b) The term "subject company" means any issuer whose securities are sought by a bidder pursuant to a tender offer; and

(c) The term "tender offer material" includes, but is not limited to:

(1) The bidder's formal offer, including all material terms and conditions of the tender offer, and all amendments thereto;

(2) The related transmittal letter (whereby securities of the subject company may be transmitted to the bidder's depository) and all amendments thereto; and

(3) Press releases, advertisements, shareholder letters and other documents published, sent or given by or on behalf of the bidder with respect to the tender offer.

§ 240.14d–2 Filing of tender offer statement.

(a) No bidder shall make a tender offer for any class of securities referred to in Section 14(d)(1) of the Act if, after consummation thereof, such bidder would, directly or indirectly, be the beneficial owner of more than 5 per centum of such class of the subject company's securities, unless simultaneously with or prior to the time the tender offer is first published, sent or given to security holders, such bidder:

(1) Files or has filed eight copies of a Tender Offer Statement on Schedule 14D–1 [§ 240.14d–100] including all exhibits thereto with the Commission, and pays or has paid a nonrefundable fee of $_____ to the Commission;

(2) Sends, (or has sent, by registered or certified mail a copy of such Schedule 14D–1 [§ 240.14d–100] including all exhibits thereto, to the subject company at its principal executive office; and

(3) Sends, or has sent, by registered or certified mail a copy of such Schedule 14D–1 [§ 240.14d–100], including all exhibits thereto, to any national securities exchange where such class of the subject company's securities is traded and to the National Association of Securities Dealers, Inc. ("NASD") if such class of the subject company's securities is traded in the over-the-counter market.

V 41 153 AUG 6 76 UMI

(b) Additional material soliciting or requesting tender offers subsequent to the filing of a Schedule 14D–1 [§ 240.14d–100] pursuant to paragraph (a)(1) of this section shall be filed with the Commission without paying additional filing fees and shall be mailed to the subject company and to any exchange and the NASD as required by paragraph (a) of this section, *except that* additional material which only reports the number of shares deposited to date and/or announces an extension of time for depositing securities pursuant to the tender offer may be filed with the Commission at any time within two business days after the time such limited, additional material is first published, sent or given to security holders.

(c) If any material change occurs in the information set forth in the Schedule 14D–1 [§ 240.14d–100] required by this section, the bidder shall promptly file eight copies of an amendment on Schedule 14D–1 [§ 240.14d–100] with the Commission without paying additional filing fees and shall promptly mail a copy of such amendment to the subject company and to any exchange and to the NASD as required by paragraph (a) of this section.

§ 240.14d–3 Communication of cash tender offers.

The information required by Section 14(d)(1) of the Act shall be deemed to have been "published or sent or given to security holders" of the class of the subject company's equity securities in connection with a cash tender offer, if the bidder complies fully with any one of the following paragraphs:

(a) *Long-Form Publication:* A bidder shall make adequate publication of its formal offer which, depending on the facts and circumstances involved, may require publication in a newspaper with a national circulation or may only require publication in a newspaper with metropolitan or regional circulation. The formal offer shall contain at least the following information:

(1) The identity of the bidder;

(2) The identity of the subject company;

(3) The amount and class of securities being sought and the price being offered therefor;

(4) The scheduled expiration date of the tender offer and whether it is extendable;

(5) The information required by Items 1(c); 2(b), (c), (d), (e), (f) and (g); 3; 4; 5; 6; 7; 8 and 9 of Schedule 14D–1 [§240.14d–100] or a fair and adequate summary thereof, except that negative responses to any such item or sub-item need not be included;

(6) The exact dates prior to which, and after which, persons who deposit their securities will have the right to withdraw their securities pursuant to section 14(d)(5) of the Act, Rule 14d–5 [§ 240.14d–5], or otherwise; and

(7) If the tender offer is for less than all the outstanding securities of the class of equity securities and the bidder is not obligated to purchase all of the securities tendered, the date of expiration of the period during which the securities will be taken up pro rata pursuant to Section 14(d)(6) of the Act, Rule 14d–8 [§ 240.14d–8] or otherwise.

(b) *Summary publication:* A bidder shall make adequate publication of a summary advertisement of the tender offer which, depending on the facts and circumstances involved, may require publication in a newspaper with a national circulation or may only require publication in a newspaper with metropolitan or regional circulation. The summary advertisement shall include at least:

(1) The information required by paragraphs a (1) through (4) of this section;

(2) The general purpose of the tender offer; and

(3) Appropriate instructions for record holders and beneficial owners of securities of the class being sought regarding how to obtain promptly, at the bidder's expense, the bidder's tender offer materials.

(c) *Use of stockholder and other lists:* A bidder shall mail, at its own expense, its tender offer materials to all persons named on the list of stockholders, obtained pursuant to Rule 14e–1 [§ 240.14e–1] or otherwise, and shall furnish, at its own expense, the number of sets of tender offer material requested by brokers, banks and similar persons whose name appears or whose nominee appears on the list of stockholders or who is listed as a participant in a clearing agency's security position listing, obtained pursuant to Rule 14e–1 [§ 240.14e–1] or otherwise.

§ 240.14d–4 Filing of recommendation statement.

(a) No solicitation or recommendation to the holders of a class of equity securities referred to in Section 14(d)(1) of the Act to accept or reject a tender offer for such securities shall be made unless simultaneously with or prior to the time such solicitation or recommendation is first made, orally or in writing, to the holders of such securities, the person making such solicitation or recommendation:

(1) Files, or has filed, eight copies of a Tender Offer Recommendation Statement on Schedule 14D–4 [§ 240.14d–101] and pays, or has paid, a non-refundable fee of $_____ to the Commission;

(2) Sends, or has sent, by registered or certified mail a copy of such Schedule 14D–4 [§ 240.14d–101] to the bidder at its principal executive office; and

(3) Sends, or has sent, by registered or certified mail a copy of such Schedule 14D–4 [§ 240.14d–101] to any national securities exchange where such class of equity securities is traded and to the National Association of Securities Dealers, Inc. ("NASD"), if such class of the subject company's securities is traded in the over-the-counter market.

(b) If any material change occurs in the information set forth in the Schedule 14–D–4 [§ 240.14d–101] required by this section, the person who filed such Schedule 14D–4 [§ 240.14d–101] shall promptly file eight copies of an amendment on Schedule 14D–4 [§ 240.14d–101] with the Commission without paying additional filing fees and shall promptly mail a copy of such amendment to the bidder and to any exchange and to the NASD as required by paragraph (a) of this section.

(c) Any solicitation or recommendation to the holders of a class of securities to accept or reject a tender offer subject to Section 14(d) of the Act shall include the name of the person making such solicitation or recommendation and the information required by Items 2, 3(b), 4 and 6 of Schedule 14d–4 [§ 240.14d–101] or a fair and adequate summary thereof: *Provided, however,* That such solicitation or recommendation may omit any of such information previously furnished to the persons to whom the solicitation or recommendation is made.

(d) This section shall not apply to the following:

(1) A bidder who is required to file a Schedule 14D–1 [§ 240.14d–100] by Rule 14d–2 [§ 240.14d–2];

(2) A person, other than the subject company or its management, who makes no written solicitations or recommendations other than through copies of solicitations or recommendations which have been filed with the Commission pursuant to this section or Rule 14d–2 [§ 240.14d–2];

(3) Attorneys, banks, brokers, fiduciaries or investment advisers who are not participating in a tender offer who furnish information and advice regarding the tender offer to their customers or clients on the unsolicited request of such customers or clients or solely pursuant to a general contract for advice to the customers or clients to whom the information or advice is given; or

(4) A subject company which only makes a communication to its security holders which does no more than (i) Identify the tender offer made by the bidder; (ii) State that the subject company's board of directors is studying the matter, and within five business days but no later than three business days prior to the scheduled expiration of the tender offer, will advise such security holders of the initial recommendation of the board of directors to accept or reject the tender offer or its decision not to make a recommendation; and (iii) Request security holders to defer making a determination whether to accept or reject the tender offer until they have received such recommendation, or the decision not to take a recommendation from the board of directors in accordance with subsection (4)(ii).

§ 240.14d–5 Additional withdrawal rights.

Notwithstanding the provisions of section 14(d)(5) of the Act, a person who has deposited securities pursuant to a tender offer by a bidder has the right to withdraw:

(a) Any such securities until the expiration of 10 business days after the date the bidder's formal offer and the related transmittal letter are first published, sent or given to security holders pursuant to Rule 14d–3 [§ 240.14d–3] or otherwise; and

(b) Any such securities, which have not been accepted for payment by the bidder, any time during the seven business days following the date a Schedule 14D–1 [§ 240.14d–100] is filed with the Commission relating to a competing tender offer by a subsequent bidder.

§ 240.14d–6 Purchases after termination of a tender offer.

(a) Any open market, private or other purchase of any security described in paragraph (b) of this section by the bidder or any of its affiliates within forty business days after the date of the termination of the bidder's tender offer, which was subject to section 14(d) of the Act, shall be integrated with and deemed a part of such tender offer for the purposes of section 14(d) only.

(b) The securities referred to in paragraph (a) of this section include:

(1) Securities of the same class sought by the bidder in its tender offer; and

(2) Options, warrants, rights, convertible securities or other securities which involve contractual rights, privileges or other provisions to purchase or acquire through exercise, conversion, exchange or otherwise securities referred to in sub-paragraph (b)(1) of this section.

(c) Paragraph (a) of this section shall not apply to purchases by the bidder pursuant to:

(1) A subsequent tender offer by the bidder for securities of the same class of securities sought in the bidder's previous tender offer and with respect to which the offered consideration is no lower than that offered at any time during the bidder's previous tender offer;

(2) The exercise of options, warrants or rights; the conversion of convertible securities; or the execution of agreements to purchase such securities which were obtained or entered into prior to the date the bidder's tender offer was first published, sent or given to security holders and which were disclosed in the Schedule 14D–1 [§ 240.14d–100] filed by the bidder for the tender offer; or

(3) Other agreements or transactions which the Commission shall exempt by order.

§ 240.14d–7 Certain exempt transactions.

Section 14(d) of the Act and the rules contained in this regulation do not apply to the following transactions:

(a) Offers to purchase securities made in connection with a distribution of securities permitted by Rules 10b–6 [§ 240.10b–6]; 10b–7 [§ 240.10b–7]; or 10b–8 [§ 240.10b–8];

(b) The call or redemption of any security in accordance with the terms and conditions of the governing instruments;

(c) Offers to purchase securities evidenced by a scrip certificate, order form or similar document which represents a fractional interest in a share of stock or similar security; or

(d) Offers to purchase securities pursuant to a statutory procedure for the purchase of dissenting shareholders' securities.

§ 240.14d–8 Exemption for statutory pro rata requirements.

The limited pro rata provisions of Section 14(d)(6) of the Act shall not apply to any tender offer in which the bidder provides that any and all securities accepted for purchase pursuant to the tender offer will be accepted as nearly as practicable on a pro rata basis, disregarding fractions, according to the number of securities deposited by each depositor.

§ 240.14d–100 Schedule 14D–1.

Schedule 14D–1

Tender Offer Statement Pursuant to Section 14(d)(1) of the Securities Exchange Act of 1934

(Amendment No.——)

(Bidder)

(Name of Subject Company)

(Title of Class of Securities)

(CUSIP Number of Class of Securities)

(Name, address and telephone number of person authorized to receive notices and communications on behalf of bidder)

Instruction: Eight copies of this statement, including all exhibits, should be filed with the Commission.

Instructions: A. The item numbers and captions of the items shall be included but the text of the items is to be omitted. The answers to the items shall be so prepared as to indicate clearly the coverage of the items without referring to the text of the items. Answer every item. If an item is inapplicable or the answer is in the negative, so state.

B. Information contained in exhibits to the statement may be incorporated by reference in answer or partial answer to any item or sub-item of the statement unless it would render such answer incomplete, unclear or confusing. Matter incorporated by reference shall be clearly identified in the reference by page, paragraph, caption or otherwise. An express statement that the specified matter is incorporated by reference shall be made at the particular place in the statement where the information is required.

C. If the statement is filed by a partnership, limited partnership, syndicate or other group, the information called for by Items 2–7, inclusive, shall be given with respect to (i) each partner of any partnership or limited partnership; (ii) each member of such syndicate or group; and (iii) each person controlling such partner or member. If a person referred to in (i), (ii) or (iii) is a corporation or if the statement is filed by a corporation the information called for by the above mentioned items shall be given with respect to: (a) each executive officer and director of such corporation; (b) each person controlling such corporation; and (c) each executive officer and director of any corporation ultimately in control of such corporation. Executive officer shall mean the president, secretary, treasurer and vice president in chage of a principal business function (such as sales, administration or finance) and any other person who performs similar policy making functions for the corporation. It is assumed that a response to an item in the statement is made with respect to the person filing the statement and to all other persons referred to in this instruction unless there is a specific indication to the contrary.

D. Upon termination of the tender offer the bidder shall promptly file a final amendment to Schedule 14D–1 [§240.14d–100] stating that the tender offer has terminated, the date of such termination and the results of such tender offer. Unless there has been a material change in the information previously reported on Schedule 14D–1 [§240.14d–100], such final amendment shall be deemed to satisfy the reporting requirements of Section 13(d) of the Act.

ITEM 1. SECURITY AND SUBJECT COMPANY

(a) State the name of the subject company and its principal business address;

(b) State the exact title and the number of shares outstanding of the class of equity securities being sought; the exact amount of such securities being sought and the price being offered therefor; and

(c) Identify the principal market in which such securities are being traded and state the high and low sales prices for such securities (or, in the absence thereof, the range of high and low representative bid quotations) for each quarterly period during the past two years.

ITEM 2. IDENTITY AND BACKGROUND

State the following with respect to the person filing this statement:

(a) Name;

(b) Residence or business address;

(c) Present principal occupation or employment and the name, principal business and address of any corporation or other organization in which such employment or occupation is conducted;

(d) Material occupations, positions, offices or employments during the last 5 years, giving the starting and ending dates of each and the name, principal business and location of any business corporation or other organization in which such occupation, position, office or employment was carried on;

Instruction: If a person has held various positions with the same organization, or if a person holds comparable positions with multiple related organizations, each and every such position need not be specifically disclosed.

(e) Whether or not, during the last 5 years, such person has been convicted in a criminal proceeding (excluding traffic violations or similar misdemeanors) and, if so, give the dates, nature of conviction, name and location of court, and penalty imposed, or other disposition of the case;

(f) Whether or not, during the last 5 years, such person was a party to a civil proceeding of a judicial or administrative body of competent jurisdiction and as a result of such proceeding was or is subject to a judgment, decree or final order enjoining future violations of, or prohibiting activities subject to, federal or state securities laws or finding liability with respect to such laws; and, if so, identify and describe such proceeding and summarize the terms of such judgment, decree or final order; and

(g) Citizenship.

ITEM 3. PAST RELATIONSHIPS, TRANSACTIONS OR NEGOTIATIONS WITH THE SUBJECT COMPANY

(a) State the nature and approximate amount in dollars of business relationship and transactions between the person filing this statement or its affiliates and the subject

V 41 153 AUG 6 76 UMI

company or its affiliates during the three years preceding the tender offer.

(b) Describe any contacts, relationships, transactions or negotiations during the three years preceding the tender offer between the person filing this statement or its affiliates and the subject company or its affiliates concerning: a merger or consolidation with or acquisition of the subject company or any of its subsidiaries; a tender offer for, or other acquisition of, securities of any class of securities issued by the subject company; an election of directors of the subject company; or a sale or other transfer of a material amount of assets by the subject company or any of its subsidiaries.

ITEM 4. SOURCE AND AMOUNT OF FUNDS OR OTHER CONSIDERATION

State the source and the total amount of funds or other consideration for the purchase of the maximum number of securities for which the tender offer is being made. If all or any part of such funds or other consideration are directly or indirectly borrowed or similarly obtained for the purpose of the tender offer, identify the parties to the loan agreement; state the amount of such loan, the stated and effective interest rates, the terms, the collateral and other material terms or conditions relative to such loan agreement; and describe any plans or arrangements to finance or repay such loan, or if no such plans or arrangements have been made, make a statement to that effect. If the source of all or any part of the funds to be used in the tender offer is a loan made in the ordinary course of business by a bank as defined by Section 3(a)(6) of the Act, the name of such bank shall not be made available to the public if the person filing the statement so requests in writing and files such request, naming such bank, with the Secretary of the Commission.

ITEM 5. PURPOSE OF THE TENDER OFFER AND PLANS OR PROPOSALS OF THE BIDDER

State the purpose or purposes of the tender offer for the subject company's securities and describe any plans or proposals which relate to or would result in:

(a) An extraordinary corporate transaction involving the subject company or any of its subsidiaries, including but not limited to mergers and liquidations;

(b) A sale or transfer of a material amount of assets of the subject company or any of its subsidiaries;

(c) Any change in the present board of directors or management of the subject company, including any plans or proposals to change the number or term of directors or to fill any existing vacancies on the board.

(d) Any material change in the present capitalization or dividend policy of the subject company;

(e) Any other material change in the subject company's business or corporate structure, including, if the subject company is a registered closed-end investment company, any plans or proposals to make any changes in its investment policy for which a vote would be required by Section 13 of the Investment Company Act of 1940;

(f) The delisting of a class of securities of the subject company from a national securities exchange; or

(g) A class of equity securities of the subject company becoming eligible for termination of registration pursuant to Section 12(g)(4) of the Act.

ITEM 6. INTEREST IN SECURITIES OF THE SUBJECT COMPANY

(a) State the aggregate number and percentage of the class represented by such shares beneficially owned (identifying those shares in which there is a right to acquire) by each person named in Item 2 and by each associate and majority-owned subsidiary of such person giving the name and address of any such associate or subsidiary.

(b) Describe any transactions in the class of securities reported on that were effected during the past 60 days by the persons named in response to paragraph (a) and by any executive officer, director or affiliate or any subsidiary of such person.

ITEM 7. CONTRACTS, ARRANGEMENTS, UNDERSTANDINGS OR RELATIONSHIPS WITH RESPECT TO THE SUBJECT COMPANY'S SECURITIES

Furnish complete information regarding any contract, arrangement, understanding or relationship (legal or otherwise) with any person with respect to any securities of the subject company, concerning but not limited to transfer or voting of any of such securities, joint ventures, loan or option arrangements, puts or calls, guaranties of loans, guaranties against loss, or the giving or withholding of proxies, naming the persons with whom such contracts, arrangements, understandings or relationships have been entered into and giving the details thereof. Include such information for any of such securities that are pledged or otherwise subject to a contingency the occurrence of which would give another person the power to direct the voting or disposition of such securities, except that disclosure of standard default and similar provisions contained in loan agreements need not be included.

ITEM 8. PERSONS RETAINED, EMPLOYED OR TO BE COMPENSATED

Identify all persons and classes of persons employed, retained or to be compensated by the bidder, or by any person on the bidder's behalf, to make solicitations or recommendations in connection with the tender offer and describe briefly the terms of such employment, retainer or arrangement for compensation.

ITEM 9. ADDITIONAL INFORMATION

Furnish additional information including, but not limited to, the following, if an average, prudent investor ought reasonably to be informed of such information in deciding whether to sell, tender or hold securities being sought in the tender offer:

(a) The bidder's financial statements prepared in compliance with Form 10, as amended [§ 249.210 of this chapter];

(b) Any present or proposed contracts, arrangements, understandings or relationships between the bidder and the subject company and/or their respective executive officers, directors and affiliates;

(c) Applicable regulatory requirements which must be complied with or approvals which must be obtained in connection with the tender offer;

(d) The applicability of anti-trust laws; and

(e) The applicability of the margin requirements of Section 7 of the Act.

ITEM 10. MATERIAL TO BE FILED AS EXHIBITS

Furnish a copy of:

(a) Tender offer material.

(b) Any loan agreement referred to in Item 4.

(c) Any document setting forth the terms of any contracts, arrangements, understandings or relationships referred to in Item 7 or Item 9(b).

(d) Any and all opinions prepared by legal counsel pertaining to the tender offer, including but not limited to, the applicability of anti-trust laws, referred to in Item 9(d).

(e) In an exchange offer where securities of the bidder have been or are to be registered under the Securities Act of 1933, the prospectus containing the information to be included therein by Rule 434B of that Act.

(f) Any document or paper relating to the tender offer filed by or on behalf of the bidder in any court.

(g) Any document used in connection with any oral solicitation or recommendation by or on behalf of the bidder.

Signature.—After due inquiry and to the best of my knowledge and belief, I certify that the information set forth in this statement is true, complete and correct.

(Date) (Signature)

(Name and Title)

The original statement shall be signed by each person on whose behalf the statement is filed or his authorized representative. If the statement is signed on behalf of a person by his authorized representative, evidence of the representative's authority to sign on behalf of such person shall be filed with the statement. The name and any title of each person who signs the statement shall be typed or printed beneath his signature.

§ 240.101 Schedule 14D–4.

Recommendation Statement Pursuant to Section 14(d)(4) of the Securities Exchange Act of 1934.

(Amendment No. ——)

(Name of Person(s) Filing Statement)

(Name of Subject Company)

(Title of Class of Securities)

(CUSIP Number of Class of Securities)

Instruction: Eight copies of this statement, including all exhibits, should be filed with the Commission.

Instructions: A. The item numbers and captions of the items shall be included but the text of the items is to be omitted. The answers to the items shall be so prepared as to indicate clearly the coverage of the items without referring to the text of the items. Answer every item. If an item is inapplicable or the answer is in the negative, so state.

B. Informaton contained in exhibits to the statement may be incorporated by reference in answer or partial answer to any item or sub-item of the statement unless it would render such answer incomplete, unclear or confusing. Matter incorporated by reference shall be clearly identified in the reference by page, paragraph, caption or otherwise. An express statement that the specified matter is incorporated by reference shall be made at the particular place in the statement where the information is required.

ITEM 1. SECURITY AND SUBJECT COMPANY

State the title of the class of equity securities to which this statement relates and the name and principal business address of the subject company.

ITEM 2. TENDER OFFER OF THE BIDDER

Identify the tender offer to which this statement relates and the name and principal business address of the bidder.

ITEM 3. IDENTITY AND BACKGROUND

(a) State the name and business address of the person filing this statement.

(b) Describe any contracts, agreements, arrangements, understandings or relationships between the person filing this statement or his affiliates and (i) the subject company, its executive officers or directors, or (ii) the bidder, its executive officers or directors. In this regard, it may be necessary to describe actual or potential conflicts of interest between the person filing this statement or his affiliates and the subject company, the bidder or their respective affiliates, such as a determination by the person filing this statement or his affiliates to accept or reject the bidder's tender offer; any contracts, agreements, arrangements or understandings, either formal or informal, relating to employment; or other relationships with the subject company, the bidder or their respective affiliates.

ITEM 4. THE SOLICITATION OR RECOMMENDATION

State whether the solicitation or recommendation is in support of or opposed to the tender offer and the reasons for and bases of such solicitation or recommendation.

ITEM 5. PERSONS RETAINED, EMPLOYED OR TO BE COMPENSATED

Identify any person or class of persons employed, retained or to be compensated, by the person filing this Schedule or by any person on his behalf, to make solicitations or recommendations to security holders and describe briefly the terms of such employment, retainer or arrangement for compensation.

ITEM 6. RECENT TRANSACTIONS

Furnish information as to transactions in the securities referred to in Item 1 which were effected during the past 60 days by the person(s) named in response to Item 3(a) and by any executive officers, directors, affiliates or subsidiaries of such person.

ITEM 7. MATERIAL TO BE FILED AS EXHIBITS

(a) Copies of any written solicitation or recommendation and copies of any document used in connection with an oral solicitation and recommendation referred to in Item 4.

(b) Copies of any contract, agreement, arrangement, understanding or document relating to any relationship described in Item 3(b).

(c) Copies of any document or paper filed in any court by or on behalf of the person filing this statement which relates to litigation concerning the tender offer.

Signature.—After due inquiry and to the best of my knowledge and belief, I certify that the information set forth in this statement is true, complete and correct.

(Date) (Signature)

(Name/Title)

The statement shall be signed by each person on behalf of whom the statement is filed or his authorized representative. If the statement is signed on behalf of a person by his authorized representative, evidence of the representative's authority to sign on behalf of such person shall be filed with the statement. The name and any title of each person who signs the statement shall be typed or printed beneath his signature.

2. Section 240.14e–1 and Section 240.14e–2 are proposed to be added to Title 17 CFR Part 240 to read as follows:

FRAUDULENT TENDER OFFER PRACTICES

§ 240.14e–1 Furnishing of stockholder and other lists.

It shall constitute a fraudulent, deceptive, or manipulative act or practice within the meaning of Section 14(e) of the Act, for any subject company with a class of equity securities referred to in Section 14(d)(1) of the Act to fail to furnish, upon the written request of any bidder planning to make a tender offer for such securities, the most recent lists in the possession, or under the control, of the subject company of the names and addresses of the holders of record of such securities; and the security position listings, if any, from Depository Trust Company and similar clearing agencies, within two business days after receipt of such written request, provided that

(a) The bidder has filed a Schedule 14D–1 [§ 240.14d–100] pertaining to the tender offer with the Commission;

(b) The bidder undertakes in writing to the subject company that such lists will be used exclusively in connection with the tender offer and extensions thereof;

(c) the bidder represents in writing to the subject company that the reasonable costs incurred by the subject company in furnishing the lists will be promptly paid by the bidder; and

(d) the bidder undertakes in writing to mail, at its own expense, a copy of the tender offer material to each person whose name appears on the list of stockholders and to furnish, at its own expense, the number of sets of the tender offer materials requested by participants whose names appear on the clearing agency's security position listings.

§ 240.14e–2 Unlawful tender offer practices.

It shall constitute a fraudulent, deceptive, or manipulative act or practice within the meaning of Section 14(e) of the Act, whenever a bidder:

(a) Makes a tender offer which does not remain open for at least fifteen business days from the date such tender offer is first published, sent or given to security holders;

(b) Increases the offered consideration or the dealer's soliciting fee to be given in a tender offer unless such offer remains open for at least ten business days after the date of the notice of such increase;

(c) Does not pay the offered consideration or return the securities deposited by or on behalf of security holders within ten business days after the termination of a tender offer; or

(d) Extends the length of a tender offer without issuing a press release or other public announcement within one business day after the scheduled expiration date stating the approximate number of securities deposited at the time of the scheduled expiration date.

(Sec. 23(a), 48 Stat. 901; Sec. 203(a), 49 Stat. 704; Sec. 8, 49 Stat. 1379; Sec. 3, 82 Stat. 455; Secs. 3–5, 84 Stat. 1497; Sec. 18, 89 Stat. 155; 15 U.S.C. 78n(d), 78n(e), 78w(a).)

The Commission hereby proposes for comment proposed Rules 14d–1, 14d–2, 14d–3, 14d–4, 14d–5, 14d–6, 14d–7, 14d–8, 14e–1 and 14e–2 and Schedules 14D–1 and 14D–4 pursuant to Sections 14(d)(1), 14(d)(4), 14(d)(5), 14(d)(8), 14(e) and 23(a) of the Exchange Act.

By the Commission.

Dated: August 2, 1976.

GEORGE A. FITZSIMMONS,
Secretary.

PART III:

INTERSTATE COMMERCE COMMISSION

UNIFORM SYSTEM OF ACCOUNTS FOR RAILROADS

Revision

V41153 AUG 6 76 6 UMI

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 1201, 1241, and 1243]

[No. 36367]

UNIFORM SYSTEM OF ACCOUNTS FOR RAILROADS

Revision

AUGUST 2, 1976.

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 20th day of July, 1976.

This proceeding is being instituted to consider a comprehensive revision of the Uniform System of Accounts for Railroad Companies (USOA) (49 CFR 1201). The purpose of this revision is to update the current accounting system and to adopt a more reliable accounting information system, which will allow the Commission to adequately determine the cost of service. Furthermore, the USOA must be responsive to the requirements of Section 307 of the Railroad Revitalization and Regulatory Reform Act of 1976 (4R Act), Public Law 94-210, which directs the Interstate Commerce Commission to, among other things, issue not later than June 30, 1977, regulations and procedures prescribing a uniform cost and revenue accounting and reporting system for all railroads subject to the Interstate Commerce Act to be effective not later than January 1, 1978.

BACKGROUND

In September 1973, the Commission's Bureau of Accounts (Bureau) established a task force to determine whether the railroad accounting system should be revised, and if so, to what extent, by whom, and with what approach. The task force concluded that:

1. The railroad system of accounts is structurally deficient; it does not yield relevant cost information for evaluating whether rates are just and reasonable. Under the present ssytem, most operating revenues and expenses are not classified by functions, nor are they classified by natural expenses (or input factors). They are classified by types of property. Therefore, the most important cost information, cost of input factors, is lost. This further supports a criticism by both shippers and cost analysts that the existing system does not provide adequate data for costing purposes.

2. Many of the instructions and account texts are ambiguous, unclear, or silent about certain accounting issues.

3. The underlying theory in the railroad accounting system deviates from generally accepted accounting principles in some respects.

4. Many of the terms, captions, titles, etc., are obsolete or unclear.

From this study, the Bureau recognized the need for a comprehensive revision of the existing system. The proposed revised system will provide a basic framework which will allow the Commission to collect and identify data for applying various costing methodologies.

On September 11, 1975, the Bureau circulated a suggested revised chart of accounts and accompanying supporting schedules for comment by interested parties. The major conceptual changes considered in this Notice were (a) a new matrix structure of operating expense accounts and (b) accompanying supporting schedules.

On February 5, 1976, the President signed the 4R Act. The 4R Act directs the Commission to revise the railroad accounting system. Specifically, Section 307 requires the following be defined:

(i) Operating and non-operating revenue accounts;

(ii) Direct cost accounts for determining fixed and variable costs for materials, labor, and overhead components of operating expenses and the assignment of such costs to various functions, services, or activities including maintenance of way, maintenance of equipment (locomotive and car), transportation (train, yard, and station, and accessorial services), and general and administrative expenses; and

(iii) Indirect cost accounts for determining fixed, common, joint, and constant costs, including cost of capital, and the method for the assignment of such costs to various functions, services, or activities.

The 4R Act also requires that the system must be cost effective, nonduplicative, and compatible with present and desired managerial and responsibility accounting requirements of the carriers and give due consideration to appropriate economic principles.

On March 5, 1976, the Bureau issued a draft accounting system containing definitions, instructions, and account texts. The Bureau has continued to explore the possibility of implementing a restructured chart of accounts with simplified natural classifications assignable to existing activities that responds to the requirements of the 4R Act.

Our objective in developing a new railroad accounting system is to develop a basic model that can serve as a useful base for future expansion to meet the needs of the Commission and contribute toward meeting the requirements of Section 307 of the 4R Act. We believe that certain relevant conceptual changes, such as restructuring the elements of cost in a matrix format consisting of natural expense accounts and activities, should contribute toward meeting the requirements of Section 307 of the 4R Act.

Some contend that a system of accounts should be developed that would meet every conceivable accounting related matter in the 4R Act. While we believe that no system can or should contemplate doing this, we do believe that the information obtained through the proposed revised system will enable the Commission to meet the requirements of the 4R Act. An accounting system must be capable of providing basic data in a form suitable for application of statistical and mathematical techniques so that better cost data can be derived. Many have also criticized the draft railroad accounting system on the grounds that it is not a managerial accounting system suitable for management decisions. It is important to note that we are prescribing an accounting system which serves regulatory needs and which can serve as a model adaptable to managerial accounting systems.

Before drafting the chart of accounts, a Bureau representative visited 17 railroads to review their management accounting systems to determine improvements needed in making our revision compatible with existing railroad responsibility accounting systems. We realize it is difficult to design a system that is perfectly compatible with all railroad responsibility accounting systems. While we recognize that a certain amount of duplication in managerial accounting systems will exist, we intend to minimize that duplication as much as is practicable.

We believe the proposed system is cost effective and compatible with present and desired managerial accounting systems. We will continue to seek to improve the system of accounts where needed in meeting the requirements of the 4R Act with the constructive help of the railroad industry and other interested parties. We intend to build around this nucleus of expertise and continue our efforts in implementing the best possible accounting system for Commission needs.

The accounting firms of Haskins and Sells and Peat, Marwick, Mitchell & Company have been engaged as consultants to test this draft proposal. They will work with Commission personnel in making changes and modifications to develop a workable system that meets all the requirements of the 4R Act and satisfies our regulatory needs. The consultants will also select a railroad as an experimental model and obtain its cooperation in installing the proposed accounting system. The consultants will evaluate and summarize the costs incurred in installing the system and the effectiveness of the new system in meeting the data needs of the Commission.

Many respondents contended the suggested six-digit coding scheme in the revised chart of accounts would be too expensive to code on source documents. They also contended that related keypunching and computer costs would be prohibitive. We do not intend to require our coding scheme on railroads' source documents. Nor will we require the coding in the railroads' accounting systems. However, we will require railroads to maintain conversion systems to assist Commission auditors in their audits of railroads. Nothing in Instruction 1-3, "Records," should be construed to require our coding scheme within railroad's accounting systems.

The Bureau has reviewed the recommendations of the Association of American Railroads (AAR) and the Department of Transportation (DOT) for revisions to the suggested matrix of operating expenses; these two alternative approaches are believed to contain some merit and are included in Appendices C and D. We invite comments and

suggestions on these two alternatives. A brief discussion of these two proposals follows.

DEPARTMENT OF TRANSPORTATION'S (DOT) —PROPOSED MATRIX OF OPERATING EXPENSES—APPENDIX C

DOT recommends categorizing activities of a railroad into three major activities: "Transportation," Maintenance," and "General and Administrative" including a column entitled "Expenses not identified with a single cost center." The activities would then be divided into subcategories of train, yard, station, and other. Furthermore, these subcategories are to be broken into loosely defined cost centers.

We agree that managerial accounting requires areas of responsibility which will allow for cost planning, cost accumulation, and cost control. Therefore, we have adopted a cost center approach and the instructions and definitions have been revised to provide for the accumulation of costs by cost centers as those centers are defined and used by the railroads (See Definition 30 and Instruction 1-3 (f) in Appendix A). However, we realize it is difficult to define cost centers compatible with all existing managerial responsibility accounting systems. In determining which natural expenses are charged to which cost centers, the individual carrier's organizational structure and assignment of responsibilities must be taken into consideration.

The DOT, in response to our draft proposal, stated that it could not:

> Be certain that every railroad will be able, in its internal accounting system, to attribute every expense to a particular cost center. We believe, however, that if an expense can be so attributed, it must be, and that if it cannot be so attributed, it might then be considered as a separate cost center in and of itself. Only if neither of these alternatives is possible would an expense be placed in the "not identified with a single cost center" category.[1]

We do not agree that the accumulation of various costs in the column entitled "Expenses not identified with a single cost center" will produce a sound accounting system. An accounting system should confine itself to the collection of costs which are directly traceable, reportable, and applicable to clearly defined and understood activities.

We believe DOT's proposal will not provide the Commission with needed specific transportation information. DOT's proposal divides the Transportation activity into two general cost centers, "Terminal" and "Train." The "Terminal" includes all locations between which a train moves, whether such locations be yards, stations, TOFC terminals, coal and ore wharves, etc. Data aggregated in this manner would not be sufficient for our purposes. Their activity "Terminal" will not provide the Commission with clearly defined costs for some activities which are necessary, such as TOFC Terminal Costs. The TOFC Terminal Costs would only be identified by coincidence if the TOFC Terminals corresponded to the railroad's existing responsibility cost center.

DOT also submitted two additional petitions concerning (1) Method of Accounting for Existing Railroad Right-Of-Way, and (2) Railroad Asset Valuation. These petitions will be handled separately and are not considered part of this proceeding.

THE ASSOCIATION OF AMERICAN RAILROADS (AAR)—PROPOSED RAILWAY OPERATING MATRIX—APPENDIX D

The alternative proposal suggested by the AAR is basically a modified Schedule 320, Railway Operating Expenses, of the Annual Report for Class I Railroads, Form R-1. Essentially, it follows the existing structure of the uniform system of accounts with a breakdown of labor, material, and "other" for each expense account.

The AAR proposed revision is expedient rather than conceptual. Since it follows the existing structure, it necessarily inherits some deficiencies of the current uniform system of accounts. In the AAR proposed chart, some accounts are based on activities, while others are based on property units, and still others represent natural expenses. Under "Maintenance of Way and Structures," for instance, accounts 202 and 203, Roadway Maintenance, account 272, Removing Snow, Ice and Sand, and accounts 278, 279, Maintaining Joint Tracks, Yards and Other Facilities, are examples of accounts based on activities. Account 229, Roadway Buildings, account 231, Water Stations, and account 247, Communication Systems, are examples of accounts based on property units. Accounts 212, 213, Ties, accounts 214, 215, Rails, account 271, Small Tools and Supplies, account 275, Insurance, and many others are accounts for natural expenses.

This mixed clasification has some disadvantages:

(1) Accounts based on activities or property units are not discrete and homogeneous. When they are broken down into labor, material and "other" component costs charged to the "other" category are not idenitfiable. Also "labor" and "material" are not well defined. It is unclear which salaries, wages, and materials would be included in these accounts, and whether they would also include salaries and supplies in the nature of overhead items.

(2) Since the alignment mixes accounts based on property units, activities and natural expenses, the chart would not be flexible for future expansions or modifications.

(3) The AAR proposal does not offer any solution to compensation by type of car.

Many respondents, particularly DOT and AAR, whose alternative operating expense matrices have been enclosed, stated that the Bureau proposal contained arbitrary allocations. We recognize that the problem of determining allocation bases for accounts requiring allocation between activities exists. However, in a fully allocated system such as the system of acounts contained in Appendix A, allocations are made necessary in presenting data to the Commission for regulatory purposes.

RELEVANT AREAS OF CHANGE

The major improvements are as follows:

I. *Matrix of Operating Expenses*

We have restructured the elements of cost in a matrix format consisting of natural expense accounts and activities.

In summary, the matrix gives users the following cost information:

A. Total cost of each input factor, such as total cost of labor, and total cost of material, on a system-wide basis. This is shown as the total of each row of the matrix.

B. Total cost of each output activity, such as the total cost of locomotive maintenance, and total cost of TOFC terminal, etc. This is shown as the total of each column.

C. The input costs of each activity. This is the breakdown of each column.

D. The distribution of each input cost. This is the breakdown of each row.

E. A particular input cost associated with a particular output activity: for example, the labor cost is xx dollars for station operations, or yard operations, etc. This is shown as the amount in each cell of the matrix.

With these cost data provided, we believe the proposed system has a number of advantages:

A. It facilitates analyses and forecasts of railroad operating costs. The forecast of total operating expenses is usually compiled from forecasts for input costs based on their historical trends. The proposed system will provide relevant data of input costs.

B. It facilitates analyses of direct and indirect costs for operating functions. These analyses are possible only when input costs are separately reported under each output activity. Some of the input costs are directly related to a particular function, while others are indirectly related and may be common to more than one operating function.

C. It facilitates the development of a management cost control system. The matrix system is readily expandable for budgeting purposes and standard costing purposes. Within the framework of the system, cost elements for each activity can be budgeted, and unit cost of each cost element under each activity can also be predetermined. Management can subdivide or code the system with cost centers along the organizational responsibility lines.

D. It provides basic accounting information from which accurate cost and revenue data can be obtained for identifying and defining (1) operating and nonoperating revenue accounts, (2) direct cost accounts, and (3) indirect cost accounts, as required by Section 307(b) of the 4R Act.

In summary, the basic framework will provide flexibility for later expansion for branch line accounting and commodity

[1] Uniform System of Accounts for Railroad Companies—Comments of the United States Department of Transportation, p. 34, April 30, 1976.

V 41 1153 AUG 6 76 UMI

point-to-point cost determination. In future phases, we intend to improve service costing and statistical analysis and refine cost systems and standards.

II. *Balance Sheet Accounts*

The terminology was updated and obsolete or unclear terms were eliminated. We also propose to eliminate the following primary road property accounts:

A. *Account 21, Grain Elevators*—We propose to eliminate this account and incorporate the associated investment cost in account 35, Miscellaneous Structures.

B. *Account 38, Roadway Small Tools*—We propose that the cost of small tools be charged directly to the appropriate operating expense activity because of their nature and relatively short service life and that the current balance in account 38 be apportioned to the appropriate operating expense activity based on the normal usage of the tools involved over a period of five years.

C. *Account 43, Other Expenditures; Road*—We propose that carriers allocate these costs to the other road property accounts on an equitable basis.

III. *Income Statement Accounts*

The terminology was updated and obsolete or unclear terms were eliminated. Also, the provision for income taxes has been redesignated to conform with disclosure requirements under generally accepted accounting principles and for purposes of comparability between railroads and other industries. Financial statement presentation of income tax expenses and related deferred taxes will disclose amounts currently payable, amounts representing tax effects allocable to the period, and tax effects which are deferred for allocation to income tax expense of future periods. The line item "Net Railway Operating Income" (NROI) will no longer appear on the income statement. However, since capitalization of NROI is one method used in determining value of property for tax purposes, it will be defined in the system of accounts to have the same definition as it has had in the past. To arrive at NROI, the provision for income taxes must be deducted from "Net Revenue From Railway Operations."

REPORTS AND SUPPORTING SCHEDULES

Schedules of the annual and quarterly reports requiring significant changes caused by revisions to the accounting system are included in Appendix B. Specific supporting schedules intended to minimize the need for special cost studies also are included.

Other schedules currently appearing in the annual and quarterly reports will remain, with new account numbers and minor changes required as a result of the system revisions. Copies of all report form schedules are available for inspection in the Bureau of Accounts, Section of Reports. The schedules appearing in Appendix B are "noted" to show applicable report forms.

Report form schedules included in Appendix B are as follows:

ANNUAL REPORTS

(1) Schedule 200—Comparative General Balance Sheet
(2) Schedule 211-1—Road & Equipment Property Owned
(3) Schedule 211-2—Improvements on Leased Property
(4) Schedule 211-G-1—Amortization of Defense Projects—Road and Equipment Owned
(5) Schedule 211-G-2—Amortization of Defense Projects—Road and Equipment Leased From Others
(6) Schedule 300—Results of Operations
(7) Schedule 310—Railway Operating Revenues
(8) Schedule 320—Matrix of Railway Operating Expenses
(9) Schedule 701-1—Road & Equipment Property Owned
(10) Schedule 701-2—Improvements on Leased Property
(11) Schedule 2002—Matrix of Railway Operating Expense Accounts—(Form R-2)

SUPPORTING SCHEDULES

(12) Way and Structures
(13) Clerical Wages
(14) Equipment
(15) Hire of Freight Train Cars & Trailers

QUARTERLY REPORTS

(1) Form RE&I—Revenues Expenses & Income
(2) Form OSA—Train & Yard Service
(3) Form CBS—Quarterly Condensed Balance Sheet

Participants in this proceeding are invited to submit estimates of the carrier reporting burden in man-hours per proposed report or schedules and suggestions for minimizing the carrier's paperwork burden.

FURTHER CONSIDERATIONS

The Bureau emphasized when publishing the draft proposal that it was not bound to this particular system and has encouraged suggestions to improve the product and provide workable alternatives. We continue to seek any changes that will improve the product and provide accurate data within an accounting system flexible enough to meet the needs of any costing methodology within the timeframes required by the 4R Act.

We specifically solicit comments and suggestions on the following items under study:

(1) Combining activities such as the "Traffic" activity with "General and Administrative" and placing "Coal and Ore Wharves" in "Other Services—Other."

(2) Incorporating Electric Railways into the Uniform System of Accounts for Railroad Companies in 49 CFR Part 1201. Presently, Electric Railways maintain accounting systems as prescribed in 49 CFR Part 1202.

(3) Designing a coding system that would insure a conversion from the old system to a new system, and facilitate programming the new system into computers of railroads. We welcome suggestions on restructuring the accounts in the matrix to facilitate decreasing the necessary digits in the account numbers.

(4) Adopting a cost center approach to provide for the accumulation of costs by cost centers as those centers are defined and used by the railroads. A cost center is defined in the proposed system as an organizational subdivision for which cost data are desired and for which provision is made to accumulate costs such as a terminal, yard, or track segment. A cost center may correspond to a railroad's area of responsibility for which costs are presently accumulated for planning and control. A cost center is the smallest segment of activity or area of responsibility for which costs are accumulated and directly traceable.

Because of the statutory time limits within which the uniform cost and revenue accounting and reporting system must be prescribed, it is essential that substantially all the evidence to be relied upon by the representatives of carriers, shippers, and their employees, and the general public be submitted in writing at as early a point in the proceedng as possible in order to avoid any time extensions which would jeopardize the Commission meeting the requirements of the 4R Act.

Upon consideration of the above described matters and good cause appearing therefor:

It is ordered, That a proceeding be. and it is hereby, instituted under the authority of Section 20, as amended, of the Interstate Commerce Act and pursuant to Sections 553 and 559 of the Administrative Procedure Act with a view to adopting the proposed unform system of accounts set forth in Appendix A of this Notice and the reports and schedules set forth in Appendix B of this Notice, and for the purpose of taking such other and further action as the facts and circumstances may justify and require.

It is further ordered, That all railroads subject to the Interstate Commerce Act be, and they are hereby, made respondents in this proceeding.

It is further ordered, That no oral hearing be scheduled for the receiving of testimony in this proceeding unless a need therefor should later appear, but that respondents or any other interested parties may participate in this proceeding by submitting for consideration written statements of facts, views, and arguments on the subjects mentioned above. or any other subjects pertaining to this proceeding.

It is further ordered, That any interested persons wishing to submit written statements of fact, views, or arguments shall file an original (and, if possible, 15 copies) of such representation with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, by September 30, 1976, and that all such statements will be considered as evidence and as a part of the record in this proceeding.

It is further ordered, That written material or suggestions submitted shall be made available for public inspection at the offices of the Interstate Commerce Commission, 12th & Constitution Avenue, N.W., Washington, D.C., during regular business hours.

And it is further ordered, That statutory notice of the institution of this proceeding be given to all respondents and to the general public by mailing a copy of this order to the Governor of every state and to the Public Utilities Commissions or Board of each state having jurisdiction over transportation, by posting a copy of this order in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy thereof to the Director, Division of the Federal Register, for publication in the Federal Register as notice to all interested persons.

This decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

APPENDIX A

Part 1201, Chapter X, Title 49 of the Code of Federal Regulations is revised as follows:

PART 1201—RAILROAD COMPANIES

AUTHORITY: Sec. 20, Interstate Commerce Commission Act, as amended; Secs. 553 and 559, Administrative Procedure Act.

LIST OF INSTRUCTIONS AND ACCOUNTS

REGULATIONS PRESCRIBED

(i) Regulations prescribed.
(ii) Definitions.

GENERAL INSTRUCTIONS

1-1 Classification of carriers.
1-2 Classification of accounts.
1-3 Records.
1-4 Accounting period.
1-5 Accrual method of accounting.
1-6 Charges to be just and reasonable.
1-7 Unaudited items.
1-8 Delayed items.
1-9 Provisions for losses.
1-10 Reserved.
1-11 Transactions with affiliated companies.
1-12 Accounting for income taxes.
1-13 Items in texts of accounts.
1-14 Distribution of pay and expenses of employees.
1-15 Payroll related expenses.
1-16 Submission of questions.

INSTRUCTIONS FOR PROPERTY ACCOUNTS

2-1 Items to be charged.
2-2 Minimum rule applicable to additions to property.
2-3 Land.
2-4 Structures.
2-5 Equipment.
2-6 Components of construction cost.
2-7 Additions to and retirements of property—General.
2-8 Additions to and retirements of units of property.
2-9 Additions and retirements of other than units of property.
2-10 Expenses in connection with additions and betterments.
2-11 Units of property rebuilt or converted.
2-12 Changes in line of road.
2-13 Relocation of yard tracks.
2-14 Track connections.
2-15 Merger, consolidation, and purchase of a railway operating entity or system.
2-16 Reorganization of railway.
2-17 Construction projects in which governmental agencies, individuals, or others, and the carrier participate.
2-18 Leased property improvements and retirements.
2-19 List of units of property.

INSTRUCTIONS FOR MAINTENANCE EXPENSES

3-1 Items to be charged.

INSTRUCTIONS FOR DEPRECIATION ACCOUNTS

4-1 Method.
4-2 Rates of depreciation.
4-3 Depreciation records to be kept.
4-4 Leased property—depreciation.
4-5 Jointly used property—depreciation.

INSTRUCTIONS FOR INCOME AND BALANCE SHEET ACCOUNTS

5-1 Current assets.
5-2 Recorded value of securities owned.
5-3 Discount, expense and premium on debt.
5-4 Discount, premium, and assessment on capital stock.
5-5 Joint liabilities.
5-6 Contingent assets and liabilities.

PROPERTY ACCOUNTS

RAILWAY OPERATING REVENUE ACCOUNTS

Transportation Revenue Accounts

100 Transportation; rail line.
101 Freight.
102 Passenger.
103 Passenger-related.
104 Switching.
105 Water transfers.
106 Demurrage.
110 Incidental.

Joint Facility Revenue Accounts

120 Joint facility.
121 Joint facility—credit.
122 Joint facility—debit.

RAILWAY OPERATING EXPENSE ACCOUNTS

010000 Salaries of officers and superintendence.
020000 Salaries and wages.
030000 Miscellaneous paid-time off.
040000 Other fringes.
050000 Materials.
060000 Tools and operating supplies.
070000 Fuels and lubricants.
080000 Utilities.
090000 Purchased services.
100000 Casualty and damages.
110000 General.
120000 Operating taxes.
130000 Uncollectible accounts.
140000 Depreciation.
150000 Amortization.
160000 Retirements.

INCOME ACCOUNTS

501 Railway operating revenues.
502 Revenues from property used in other than carrier operations.
508 Joint facility rent income.
509 Income from lease of road and equipment.
510 Miscellaneous rent income.
512 Separately operated properties; profit.
513 Dividend income.
514 Interested income.
516 Income from sinking and other funds.
517 Release of premiums on funded debt.
518 Contributions from other companies.
519 Miscellaneous income.
531 Railway operating expenses.
534 Expenses of property used in other than carrier operations.
535 Taxes on property used in other than carrier operations.
541 Joint facility rents.
542 Rent for leased roads and equipment.
543 Miscellaneous rent expenses.
544 Miscellaneous taxes.
545 Separately operated properties; loss.
546 Interest on funded debt.
547 Interest on unfunded debt.
548 Amortization of discount on funded debt.
549 Maintenance of investment organization.
550 Income transferred to other companies.
551 Miscellaneous income charges.
553 Uncollectible accounts.
555 Unusual or infrequent items (debit) credit.
556 Income taxes on ordinary income.
557 Provision for deferred taxes.
560 Income or loss from operations of discontinued segments.
562 Gain or loss on disposal of discontinued segments.
570 Extraordinary items (net).
590 Income taxes on extraordinary items.
591 Provision for deferred taxes—extraordinary items.
592 Cumulative effect of changes in accounting principles.

REGULATIONS PRESCRIBED

(i) *Regulations prescribed.* Carriers by railroad subject to provisions of the Interstate Commerce Act and not independently operated as electric lines, and each lessor of such a carrier, shall comply with regulations in this part as presented hereinafter.

(ii) *Definitions.*

1. "Accounts" means the accounts prescribed in this system of accounts.

2. "Actually issued" as applied to funded debt securities or capital stock issued or assumed by the company, means those which have been sold to bona fide purchasers or holders for a valuable consideration (including those issued in exchange for other securities or other property) and such purchasers or holders secured them free from control by the carriers. Also securities issued as dividends on stock.

3. "Actually outstanding" as applied to funded debt securities or capital stock issued or assumed by the carrier means those which have been actually issued and are neither retired and canceled nor reacquired and held by or for the accounting company.

4. (a) "Affiliated companies" means companies or persons that directly, or indirectly through one or more intermediaries control, or are controlled by, or are under common control with, the accounting carrier.

(b) "Control" (including the terms "controlling", "controlled by", and "under common control with") means the possession directly or indirectly, of the power to direct or cause the direction of the management and policies of a company, whether such power is exercised through one or more intermediary companies, or alone, or in conjunction with, or pursuant to an agreement, and whether such power is established through a majority of minority ownership or voting of securities, common directors, officers or stockholders, voting trusts, holding trusts, associated companies, contract or any other direct or indirect means.

5. "Amortization" means the gradual extinguishment of an amount in an account by distributing such amount over a fixed period dependent on the requirements of regulatory bodies, over the life of the asset or liability to which it applies, or over the period during which it is anticipated the benefit will be realized.

6. "Carrier" as used herein and when not otherwise indicated in the context means any carrier to which this system of accounts is applicable.

7. "Commission" means the Interstate Commerce Commission.

8. "Cost of removal" means cost of demolishing, dismantling, tearing down or otherwise removing property.

9. "Debt expense" means all expenses in connection with the issuance and sale of evidences of debt, such as fees for drafting mortgages and trust deeds; fees for issuing or recording evidences of debt; cost of engraving and printing bonds and certificates of indebtedness; fees paid trustees; specific costs of obtaining governmental authority; fees for legal services; fees and commissions paid underwriters, brokers, and salesmen for marketing such evidences of debt; fees and expenses of listing on exchanges; and other like costs.

10. "Discount" as applied to funded debt securities or capital stock issued or assumed by the carrier, means the excess of the par or fact value of the securities plus interest or dividends accrued at the date of the sale over the cash value of the consideration received from their sale.

11. "Ledger value" of property means the value at which the property is carried in the property investment account in the general ledger of the carrier. In case the value of any item of property is not shown separately in the ledger, the ledger value of that item shall be its proportionate share of the value of the entire group in which the particular property is included.

12. "Minor items of property" means the associated parts or items of which units of property are composed.

13. "Nominally issued" as applied to funded debt securities or capital stock issued or assumed by the carrier, means those which have been signed, certified by trustees, or otherwise executed, and placed with the proper officer for sale and delivery, or pledged, or otherwise placed in some special fund of the accounting company, but which have not been sold or issued directly to the trustees of such fund in accordance with contractual requirements.

14. "Nominally outstanding" as applied to funded debt securities or capital stock issued or assumed by the carrier, means those which, after being actually issued, have been reacquired by or for the accounting company under such circumstances which require them to be considered as held alive and not retired and canceled.

15. "Premium" as applied to funded debt securities or capital stock issued or assumed by the carrier, means the excess of the cash value of the consideration received from their sale over the sum of their par (stated value of no par stock) or face value and interest or dividends accrued at the date of sale.

16. "Property retired" means units of property which have been removed, sold, abandoned, destroyed, or which for any cause have been permanently withdrawn from transportation service; also minor items of property not replaced.

17. "Salvage value" means the amount received from the sale of operating property retired less any expenses in connection with the sale or in preparing the property for sale. If the property is retained for reuse, the salvage value shall be recorded in account 733, Materials and Supplies, or other appropriate account at an amount not to exceed its recorded cost (ledger value) or current market value, whichever is lower.

18. "Service life" means the period between the date when operating property is placed in service and the date of its retirement.

19. "Service value" means the ledger value of operating property less its salvage value (see definition 17).

20. (a) "Income taxes" means taxes based on income determined under provisions of the United States Internal Revenue Code and foreign, state and other taxes (including franchise taxes) based on income.

(b) "Income tax expense" means the amount of income taxes (whether or not currently payable or refundable) allocable to a period in the determination of net income.

(c) "Pretax accounting income" means income or loss for a period, exclusive of related income tax expense.

(d) "Taxable income" means the excess of revenues over deductions or the excess of deductions over revenue to be reported for income tax purposes for a period.

(e) "Timing differences" means differences between the periods in which transactions affect taxable income and the periods in which they enter into the determination of pretax accounting income. Timing differences originate in one period and reverse or "turn around" in one or more subsequent periods. Some timing differences reduce income taxes that would otherwise be payable currently; others increase income taxes that would otherwise be payable currently.

(f) "Permanent differences" means differences between taxable income and pretax accounting income arising from transactions that, under applicable tax laws and regulations, will not be offset by corresponding differences or "turn around" in other periods.

(g) "Tax effects" means differentials in income taxes of a period attributable to (1) revenue or expense transactions which enter into the determination of pretax accounting income in one period and into the determination of taxable income in another period, (2) deductions or credits that may be carried backward or forward for income tax purposes and (3) adjustments of prior periods and direct entries to other stockholders' equity accounts which enter into the determination of taxable income in a period but which do not enter into the determination of pretax accounting income of that period. A permanent difference does not result in a "tax effect" as that term is used in this definition.

(h) "Deferred taxes" means tax effects which are deferred for allocation to income tax expense of future periods.

(i) "Interperiod tax allocation" means the process of apportioning income taxes among periods.

(j) "Tax allocation within a period" means the process of apportioning income tax expense applicable to a given period between income before extraordinary items and extraordinary items, and of associating the income tax effects of adjustments of prior periods and direct entries to other stockholders' equity accounts with these items.

21. (a) "Investor" means a business entity that holds an investment in voting stock of another company.

(b) "Investee" means a corporation that issued voting stock held by an investor.

(c) "Corporate joint venture" is a company owned and operated as a separate and specific business or project for the mutual benefit of the members of the group. Joint facilities for purposes of this system of accounts are not considered corporate joint ventures.

(d) "Dividends", unless otherwise specified, means dividends paid or payable in cash, other assets, or another class of stock and does not include stock dividends or stock splits.

(e) "Earnings or losses of an investee" and "financial position of an investee" refer to net income (or net loss) and financial position of an investee determined in accordance with generally accepted accounting principles.

(f) "Undistributed earnings of an investee" means net income less dividends declared whether received or not.

(g) "Date of acquisition" is the date on which the investor assumes the rights of ownership. Ordinarily, this is the date assets are received and other assets are given or securities issued.

22. "Cost of renewal" means the cost of additional material applied (other than the value assigned second-hand parts remaining in the rebuilt unit) plus the cost of labor used in the rebuilding process, exclusive of the portion applicable to dismantling and repair of old parts reused.

23. (a) "Segment of a business" refers to a component of an entity whose activities represent a separate major line of business or class of customer. A segment may be in the form of a subsidiary, a division, or a department, and in some cases a joint venture or other non-subsidiary investee, provided that its assets, results of operations, and activities can be clearly distinguished, physically and operationally and for financial reporting purposes, from the other assets, results of operations, and activities of the entity. The fact that the results of operations of the segment being sold or abandoned cannot be separately identified strongly suggests that the transaction should not be classified as a disposal of a segment of business.

(b) "Measurement date" means the date on which the management having authority to approve the action commits itself to a formal plan to dispose of a segment of the business, whether by abandonment or sale. The measurement date for disposals requiring Commission approval shall be the service date of the Order authorizing the disposal.

(c) "Disposal date" refers to the date of closing the sale, if the disposal is by sale or the date that operations cease if the disposal is by abandonment.

24. "Compensating balance" means the portion of any demand deposit (or any time deposit or certificate of deposit) maintained by a carrier (or by any person on behalf of the carrier) which constitutes support for existing borrowing arrangements of the carrier with a lending institution. Such arrangements include both outstanding borrowings and the assurance of future credit availability. (Compensating balances should be adjusted by the amount of the float for the period in order to state the balance in terms of book cash balance.)

25. "Joint facility", means any owned or leased carrier operating property occupied or operated jointly by the carrier and one or more other carriers, under an arrangement whereby the cost and income are apportioned to the parties to the joint agreement. Portions of a structure or other property used exclusively by each of two or more carriers are not joint facilities.

26. (a) "Merger" means the acquisition of one company by another. See Instruction 2–15.

(b) "Consolidation" means the formation of a new company. See Instruction 2–15.

27. "Abandonment" means the withdrawal from transportation service of a branch line or other track segment or facility, representing a permanent reduction in plant, subject to Commission approval.

28. "Work equipment" means equipment which can be coupled in a train for movement over the carrier's tracks, and which is used in the carrier's work service. See equipment listing for account 57, "Work equipment".

29. "Activity" refers to the cost groupings to which operating expense accounts shall be distributed. These activities are identified in the individual expense ac-

V 41 153 AUG 6 76 UMI

count numbers by the tens position of the account number. The activities are defined as follows:

(30) "Control": The control accounts contain the explanation for the content of the group of detail accounts for each natural class. They may include the total of the expenses in the natural class which have been distributed to the various activities.

(31) "Maintenance of Way and Structure": This activity refers to the maintenance of property used in transportation operations such as tracks, roadway buildings, stations, office buildings and facilities, including fixtures permanently attached. It includes such items as:

(a) Costs of Labor, materials and supplies in maintaining roadway property including depreciation expenses.

(b) The carrier's portion of the cost of maintaining joint facilities and the cost chargeable to others.

(32) "Maintenance of Equipment": This activity refers to repairing and servicing rolling stock, special machines and apparatus. It includes such items as:

(a) The cost of labor, parts and supplies in repairing and inspecting equipment.

(b) The repair and inspection costs billed to and billed by others.

(c) Equipment rental costs billed to and billed by others.

(33) "Transportation": This activity refers to the operation of yards, stations, terminals, trains and all facilities on the carrier's lines used for transporting passengers and freight, including transporting company materials and personnel. It includes such items as:

(a) Train crew wages and supplies.

(b) Station wages and supplies for employees engaged in handling freight and performing clerical duties.

(c) Wages and supplies for employees operating other facilities and equipment on the carrier's lines.

(d) The cost to the carrier for participating in joint weighing inspection, demurrage, and car distribution bureaus and associations.

(34) "Traffic": This activity refers to advertising, soliciting and securing traffic for the carrier's lines. It includes such items as:

(a) Salaries and wages of employees engaged in the preparation of tariffs and schedules.

(b) The cost of advertising, office rentals and travel expenses.

(c) The cost to the carrier for participating in traffic associations.

(35) "General and Administrative": This activity refers to overall administrative functions which relate to the carrier's transportation operations. It includes such items as:

(a) Salaries and wages of general officers and their staffs.

(b) Wages of employees performing clerical duties including auditing freight bills and handling claims for damaged freight and related items.

(c) Office machine rentals including automatic data processing machine rental costs, and all other office supplies.

(36) "Cost Center": An organizational subdivision for which cost data are desired and for which provision is made to accumulate costs such as a terminal, yard, or track segment. A cost center may correspond to a given area of responsibility for which costs are presently accumulated for planning and control. A cost center is the smallest segment of activity or area of responsibility for which costs are accumulated and directly traceable.

(37) "Net Railway Operating Income": Operating revenue remaining after deducting operating expenses, provision for income taxes, and joint facility rents.

GENERAL INSTRUCTIONS

1–1 *Classification of carriers.* (a) For purposes of the accounting and reporting regulations, carriers are grouped into the following two classes:

Class I: Carriers having annual carrier operating revenues of $10 million or more.

Class II: Carriers having annual carrier operating revenues of less than $10 million.

(b) (1) The class to which any carrier belongs shall be determined by annual carrier operating revenue. If at the end of any calendar year such annual carrier operating revenue is greater than the maximum for the class in which the carrier is classified, the carrier shall adopt the accounting and reporting requirements of the higher class in which it falls. Class II carriers shall adopt Class I classification effective as of January 1 of the following year.

(2) If at the end of any calendar year a Class I carrier's annual operating revenue is less than $10 million, and has been for three consecutive years, the carrier shall adopt the accounting and reporting requirements for Class II carriers. Such adoption shall be effective as of January 1 of the following year.

(3) Carriers shall notify the Commission of any change in classification by completing and returning the Carrier Classification Form with the Quarterly Financial Report for the third calendar quarter, if appropriate, or by October 31.

(4) Newly organized carriers shall be classified on the basis of their annual carrier operating revenues for the latest period of such operation. If actual data are not available, new carriers shall be classified on the basis of their carrier operating revenue known and estimated for a year.

(5) When a business combination occurs, such as a merger, reorganization, or consolidation, the surviving carrier shall be reclassified effective January 1 of the next calendar year on the basis of the combined revenue for the year when the combination occurred.

(6) In unusual circumstances, such as partial liquidation, and curtailment or elimination of contracted services, where the classification regulations will unduly burden the carrier, the carrier may request the Commission for an exception to the regulations. This request shall be in writing specifying the conditions justifying an exception.

(c) Class I carriers shall keep all of the accounts of this system of accounts which are applicable to their operations. Class II carriers shall keep all of the system of accounts which are applicable to their operations, except that their accounts for operating expenses may be kept under the accounts of the respective condensed groupings provided for herein.

(d) In applying the classification grouping to any switching or terminal company which is operated as a joint facility of owning or tenant railways, the sum of the annual carrier operating revenues, the joint facility rent income, and the totals of the joint facility credit accounts in operating expenses, shall be used in determining its class.

1–2 *Classification of accounts.* (a) Accounts are prescribed to cover cost of property used in transportation operations and operations incidental thereto and for revenues, expenses, taxes, rents, and other items of income for such operations. Separate accounts are prescribed for investment in property not used in transportation operations and for other investments and income therefrom; for unusual and infrequent items; for operations and disposal of discontinued segments; for extraordinary items and accounting changes; and for assets, liabilities and capital includible in the balance sheet statement. Retained earnings accounts form the connecting link between the income account and the equity section of the balance sheet. They are provided to record the transfer of net income or loss for the year; certain capital transactions; and, when authorized by the Commission, other items.

(b) The cost of property, and the revenues, expenses, taxes and rents for miscellaneous operations involving the use of such facilities as hotels, restaurants, grain elevators, storage warehouses, power plants, cold storage plants, etc., shall not be included in the accounts prescribed for transportation operations unless the operation of the facilities is conducted by the railway companies in connection with furnishing transportation services. Likewise, the cost of property, the revenues, expenses, taxes, and rents arising from the operation of stockyards shall not be included in accounts prescribed for transportation operating unless operation of the facilities is conducted in connection with transportation of livestock. It is not intended that cost of property and income arising from incidental public stockyards service rendered by stockyards primarily devoted to transportation services shall be excluded from transportation operation accounts.

(c) Joint facility accounts are provided for the joint users of tracks, bridges, yards, wharves, stations, and other facilities in which to record items in settlement for use of such facilities. When the compensation for the use of facilities is a fixed amount or is based upon a charge per passenger, ton, car or other unit, the amount shall be fairly apportioned by the operating company among the joint facility operating expense and income accounts. The creditor shall show the distribution of these charges upon its bills, and such distribution shall be adhered to by the debtor. Train service in

connection with the line haul of traffic, including that operated under a joint arrangement for the benefit of two or more carriers, is not considered a joint facility operation.

(d) (1) *Extraordinary Items.* All items of profit and loss recognized during the year are includible in ordinary income unless evidence clearly supports their classification as extraordinary items.

Extraordinary items are characterized by both their unusual nature and infrequent occurrence taking into account the environment in which the firm operates; they must also meet the materiality standard.

Unusual means the event or transaction must possess a high degree of abnormality and be of a type clearly unrelated to, or only incidentally related to the ordinary and typical activities of the entity.

Infrequent occurrence means the event or transaction shall be of a type not reasonably expected to recur in the foreseeable future.

(2) *Unusual or Infrequent Items.* Material events unusual in nature or infrequent in occurrence *but not both,* thus not meeting both criteria for classification as extraordinary, shall be includible in the accounts provided as separate components of income/expense from continuing operations.

(3) *Discontinued Operations.* The results of continuing operations shall be reported separately from discontinued operations and any gain or loss resulting from disposal of a segment of a business (see definition 23(a)) shall be reported in conjunction with the related results of discontinued operations and not as an extraordinary item. The disposal of a segment of a business shall be distinguished from other disposals of assets incident to the evolution of the entity's business, such as the disposal of part of a line of business, the shifting of production or marketing activities for a particular line of business from one location to another, the phasing out of a product line or class of service, and other changes occasioned by technological improvements. If a loss is expected from the proposed sale or abandonment of a segment, the estimated loss shall be provided for at the measurement date (see definition 23ba). If a gain is expected, it shall be recognized when realized, which ordinarily is the disposal date (see definition 23(c)).

(4) *Prior Period Adjustments.* Adjustments occurring in the current accounting period relating to events or transactions which occurred in a prior period, the accounting effects of which could not be determined with reasonable assurance at that time, shall be reported as prior period adjustments. A prior period adjustment, after income tax effect, should be reported by restating the beginning balance of retained earnings of the current year and correspondingly adjusting related prior year balances presented for comparative purposes. Such adjustments shall not be considered prior period unless: (1) they are material, and (2) can be specifically identified with and directly related to the business activities of particular prior periods, and (3) are not attributable to economic events occurring subsequent to the date of the financial statements for the prior period, and (4) depend primarily on determinations by persons other than management, and (5) were not susceptible of reasonable estimation prior to such determination. If an adjustment does not meet such criteria, it shall be separately disclosed as to year of origin, nature, and amount and classified in the current period in the same manner as the original item. If the adjustment is the correction of an error, it shall be reported as a prior period adjustment.

(5) *Accounting Changes.* A change in accounting principle or accounting entity should be referred to this Commission for approval. The cumulative effect of a change in accounting principle should ordinarily be reflected in the account provided for in determining net income; in certain cases accounting changes may be reflected as prior period adjustments. Changes in accounting estimates should ordinarily be reflected prospectively.

(6) *Materiality.* As a general standard an item shall be considered material when it exceeds 10 percent of annual income (loss) before extraordinary items. An item may also be considered in relation to the trend of annual earnings before extraordinary items or other appropriate criteria. Items shall be considered individually and not in the aggregate in determining materiality. However, the effects of a series of related transactions arising from a single specific and identifiable event or plan of action shall be aggregated to determine materiality.

(7) *Commission Approval and Accountant's Letter.* Items shall be included in the acounts provided for extraordinary items, unusual or infrequent items, discontinued operations, prior period adjustments and cumulative effect of changes in accounting principles only upon approval of the Commission. If the carrier retains the service of an independent accountant, a request for using these accounts shall be accompanied by a letter from the independent accountant approving or otherwise commenting on the request.

NOTE.—The carrier may refer to generally accepted accounting principles for further guidance in applying paragraph (d) above.

1–3 *Records.* (a) Each carrier shall keep its books of account, and all other books, records, and memoranda which support the entries in such books of account so as to be able to furnish readily full information as to any item included in any account. Each entry shall be supported by such detailed information as will permit ready identification, analysis, and verification of all facts relevant thereto.

(b) Each carrier shall keep its general accounting books, and all other books, records, and memoranda which support in any way the entries to such accounting books, and analyses of general ledger account balances, readily accessible so that it can furnish at any time full information as to any account. Moreover, the month, day, year, and posting reference shall be shown for each entry in the general ledger and subsidiary records and the entries shall be supported with detailed information that will provide a ready analysis and verification of the facts recorded therein. All expenditures including the expense accounts of officers and employees shall be supported by vouchers, payrolls, receipted bills, canceled checks, receipts for petty cash payments, or other evidences of the expenditures incurred.

(c) The books referred to herein include not only books of acounts in a limited technical sense but all other records such as minute books, stock books, reports, correspondence, memoranda, etc., which will be useful in developing the history of or facts regarding any transaction.

(d) No carrier shall destroy any books, records, memoranda, etc., which support entries to its accounts unless, destruction is permitted by the regulations governing preservation of records, Part 1220 of this chapter.

(e) In addition to prescribed accounts, clearing accounts, temporary accounts, and subdivisions of any accounts may be kept, provided the integrity of the prescribed accounts is not impaired.

(f) Cost detail shall be maintained by cost centers for purposes of cost assignment. This provides for cost control and cost planning at any designated area of responsibility. These cost centers shall be similarly defined as the railroads' existing responsibility centers. Cost center information shall therefore be kept at the same level of detail presently collected, categorized, and maintained in railroad internal managerial accounting systems. This detailed information shall not be reported to the Commission on an ongoing basis. However, the carrier shall keep the detailed information to provide a ready analysis and verification of the costs collected by cost center.

1–4 *Accounting period.* (a) Each carrier shall keep its books on a monthly basis so that known transactions, as nearly as may be ascertained, shall be entered in the account not later than 60 days after the last day of the period for which the accounts are stated, except that the time within which the final entries for the year ending December 31 shall be made may be extended to such date in the following March as shall not interfere with the preparation and filing of annual report.

(b) A trial balance of the general ledger accounts shall be prepared at the close of each month setting out the account number, title, and amount of each ledger account. (Mechanical, electronic or automatic data processing printout documentation producing the equivalent of manually prepared trial balances shall identify balances by account numbers.) At the end of the calendar year, the revenue, expense, and other income accounts shall be closed into retained earnings account, and the balance sheet account balances shall be brought for-

V 41 153 AUG 6 76 UMI

ward to the general ledger for the succeeding year.

(c) No changes shall be made in the accounts for periods covered by quarterly and annual reports that have been filed with the Commission unless the changes have first been authorized by the Commission.

1–5 *Accrual method of accounting.* The accounting for operating revenues, operating expenses, income and other items each month and year shall be, as nearly as practicable, upon the basis of accruals consistently applied. Any change in practice of accounting for accruals or any unusual accruals involving material amounts shall be reported promptly to the Commission.

1–6 *Charges to be just and reasonable.* All charges to the accounts prescribed in this system of accounts for carrier property, operating revenues, operating and maintenance expenses, and other carrier expenses, shall be just, reasonable and not exceed amounts necessary to the honest and efficient operation and management of carrier business. Payments shall not exceed the fair market value of goods and services acquired in an arm's length transaction. Any payments in excess of such just and reasonable charges shall be included in account 551, "Miscellaneous income charges".

1–7 *Unaudited items.* When it is known that a transaction has occurred which affects operating revenues, operating expenses, income and other accounts but the amount involved and its effect upon the accounts cannot be determined with absolute accuracy, the amount thereof shall be estimated and included in the appropriate income and balance sheet accounts. Such estimate shall be adjusted in the following month or as soon thereafter as the actual amount can be determined. If the estimate is not adjusted in the following month, the amount shall be revised whenever and at the time a substantial change is indicated and the amounts in the balance sheet accounts with respect to such items shall be kept separately in the records until settled and adjusted. The carrier is not required to anticipate items which do not appreciably affect the accounts.

1–8 *Delayed items.* Ordinary delayed items and adjustments arising during the current year which are applicable to prior years shall be included in the same account which would have been charged or credited if the item had been taken up or the adjustment made in the year to which it pertained. When the amount of a delayed item or adjustment is relatively so large that its inclusion in net income for a single month would seriously distort the accounts for the month (but not for the year), such amount may be distributed in equal monthly charges or credits, as the case may be, to the remaining months of the calendar year.

1–9 *Provisions for losses.* (a) Accretions to the accounts provided for losses made by charges to operating expenses, operating revenues, or income shall not exceed a reasonable provision for expenses or other costs incurred during the accounting period. Such charges shall represent a probable impairment of an asset or incurrence of a liability.

(b) Balances for the amounts provided each year in each account shall be kept separtely until the items have been settled and adjusted and amounts shall not be diverted from the purpose for which provided unless permission of the Commission is first obtained.

(c) Carriers shall not record provisions for loss where such incurrence is dependent on future events or the amount cannot be reasonably estimated.

1–10 *Reserved.*

1–11 *Transactions with affiliated companies.* (a) The records and supporting data of all transactions with affiliated companies shall be maintained in a separate file. The types of transactions referred to in this paragraph are for management services or any other type of services rendered, sale or use of facilities or any other type of assets or property. The file shall be maintained so as to enable the carrier, upon a Commission request, to furnish accurate information with supporting documentation about particular transactions within 15 days of the request. We do not intend the file to include data relating to ordinary carrier operations (e.g. lawful tariff charges or interchange of equipment).

(b) Each bill rendered by an affiliated company shall state specifically the basis used for determining charges, unless the file contains the information to support the specific basis for charges.

(c) Punched cards, magnetic tapes, discs, or other machine-sensible devices used for recording, consolidating, and summarizing accounting transactions and records with a carrier's electronic or automatic data processing system may constitute a file within the meaning of this instruction.

(d) The carrier shall record, as the cost of assets or services received from an affiliated supplier, the invoice price (plus any incidental costs related to those transactions) in those cases where the invoice price can be determined from a prevailing price list of the affiliated supplier available to the general public in the normal course of business. If so such price list exists, the charges shall be recorded at the lower of their cost to the originating affiliated supplier (less all applicable valuation reserves in case of asset sales), or their estimated fair market value determined on the basis of a representative study of similar competitive and arm's-length or bargained transaction. Any difference between actual transaction price and the above, as well as charges that are not transportation related, shall be considered of a financing nature and shall be recorded, accordingly, as nonoperating charges or credits. (See Instruction 1–6).

(e) Nothing contained herein shall be construed as restraining the carrier from subdividing accounts (see Instruction 1–3(e)) for the purpose of recording separately transactions with affiliated companies.

1–12 *Accounting for income taxes.* (a) The interperiod tax allocation method of accounting shall be applied where material timing differences (see definition 20(e)) occur between pretax accounting income and taxable income. Carriers may elect, as provided by the Revenue Act of 1971, to account for the investment tax credit by either the flow through method or the deferred method of accounting. See paragraphs (d) and (e) below. All income taxes (Federal, state and other) currently accruable for income tax return purposes shall be charged to account 556, "Income taxes on ordinary income", and account 590, "Income Taxes on Extraordinary Items", as applicable.

(b) Under the interperiod tax allocation method of accounting the tax effect of timing differences (see definitions 20 (g) and (e)) originating in the current accounting period are allocated to income tax expense of future periods when the timing differences reverse. Similar timing differences originating and reversing in the current accounting period should be combined into groups and the current tax rates applied to determine the tax effect of each group. A carrier shall not apply other than current tax rates in determining the tax effect of reversing differences except upon approval of the Commission. When determining the amount of deferred taxes, rather than computing state and other taxes individually by jurisdiction, the Federal income tax rate may be increased by a percent equivalent to the effect of taxes imposed by the jurisdictions.

(c) The future tax benefits of loss carryforwards shall normally be recognized in the year in which such loss is applied to reduce taxes. Only in those unusual instances when realization is assured beyond any reasonable doubt should the future tax benefits of loss carryforwards be recognized in the year of loss. The tax effects of any realizable loss carrybacks shall be recognized in the determination of net income (loss) of the loss periods; appropriate adjustments of existing net deferred tax credits may also be necessary in the loss period.

(d) Carriers electing to account for the investment tax credit by the flow through method shall credit account 556, "Income taxes on ordinary income", or account 590, "Income taxes on extraordinary items", as applicable, and charge account 821, "Federal income taxes accrued", with the amount of investment tax credit utilized in the current accounting period. When the flow through method is followed for the investment tax credit, account 557, "Provision for Deferred Taxes", shall reflect the difference between the tax payable (after recognition of allowable investment tax credit) based on taxable income and tax expense (with full recognition of investment tax credit that would be allowable based on accounting income) based on accounting income.

(e) Carriers electing to account for the investment tax credit by the deferred method shall concurrently with making the entries prescribed in (d) above charge account 557, "Provision for deferred taxes" or account 591, "Provision for deferred taxes—extraordinary items", as applicable, and shall credit account

873, "Accumulated deferred income tax credits", with the investment tax credit utilized as a reduction of the current year's tax liability but deferred for accounting purposes. The investment tax credit so deferred shall be amortized by by credits to account 557, "Provision for deferred taxes".

NOTE A.—Any change in practice of accounting for the investment tax credit shall be reported promptly to the Commission. Carriers desiring to clear deferred investment tax credits because of a change from the deferral method to the flow through method shall submit the proposed journal entry to the Commission for consideration and advice.

NOTE B.—The carrier shall follow generally accepted accounting principles where an interpretation of the accounting rules for income taxes is needed or obtain an interpretation from its public accountant or the Commission.

1–13 *Items in texts of accounts.* The items appearing in the texts of the accounts or elsewhere herein are for the purpose of more clearly indicating the application of the prescribed accounting. The items are intended to be representative, but not exhaustive. The appearance of an item in the text of a primary account warrants the inclusion of the item in the account mentioned only when the whole text also indicates inclusion inasmuch as the same item frequently appears in more than one primary account. The proper entry in each instance must be determined by the whole text of each primary account.

1–14 *Distribution of pay and expenses of employees.* (a) The pay and expenses of officers or employees regularly assigned to specific duties who perform incidental services of a different nature involving small expense may be included in the appropriate expense accounts for the duties to which such officers or employees are regularly assigned.

(b) When it is necessary to apportion the pay of officers and employees among various accounts, the carrier shall apportion the pay on the basis of the directly assignable pay to the various accounts.

1–15 *Payroll related expenses.* (a) Other fringes (account series 040000) may (1) be included in each natural classification and distributed to the appropriate activities or (2) they may be accumulated in the appropriate accounts as described in the account explanations and distributed to the activities using one of the following techniques (in order of preference):

(1) Apply appropriate factors to the amount in each account, or to the total of the fringe expense accounts, in such a way as to distribute an equitable proportion of the cost to each activity. These factors shall be developed to take into account variables such as the following:

(i) The effect of seniority on the expense. For example, profit sharing or pensions may be available to only certain categories of employees, which may be more predominant in one activity than another.

(ii) The effect of the type of work performed. For example, workmen's compensation expense may vary for each category of employees because of the rate charged or the claims experience of the category.

(iii) Any other variable which may have an appreciable effect on the equity of the apportionment.

(2) Distribute the amount in each account, or the total of the other fringes, in the same proportion as the pay charged to each activity in account series 010000 and 020000 (salaries and wages).

(3) Distribute the amounts in each account, or the total of the other fringes, using any other equitable basis which the carrier can substantiate.

(b) All carriers shall be prepared to describe the basis of apportionment used to distribute expenses included in this instruction.

(c) Any carrier which finds it impracticable to distribute expenses as required by this instruction should furnish the Commission with full particulars of the conditions which prevent the proper distribution. Upon receipt of such information carrier will be advised of the procedure to be followed.

1–16 *Submission of questions.* To maintain uniformity of accounting, carriers shall submit questions of doubtful interpretations to the Commission for consideration and decision.

INSTRUCTIONS FOR PROPERTY ACCOUNTS

2–1 *Items to be charged.* (a) To the road and equipmnet property accounts shall be charged the cost of purchasing land, the cost of purchasing and constructing, buildings, facilities and equipment, and the cost of additions and betterments to property. "Cost" means the amount of money actually paid for property or services. When the consideration given for the property is other than cash in a purchase and sale transaction, as distinguished from a transaction involving the issuance of capital stock in reorganization or a merger and pooling of interest, the value of the consideration shall be determined on a cash equivalent basis. The carrier shall be prepared to furnish the Commission the particulars of its determination of the cash value of the consideration if other than money.

(b) The cost of operating property purchased under a plan involving deferred payments, including leases which are in substance installment purchases, shall be capitalized in the appropriate property accounts. The carrier shall not include in the property account charges for interest, insurance or other expense related to such payments.

(c) Suitable records shall be maintained showing expenditures during the year for original road and equipment and road extensions; for merger and purchase of existing lines and reorganizations; for additions and betterments; and credits for property retired.

2–2 *Minimum rule applicable to additions to property.* An exception to the rule in instruction 2–1 is that when the cost of acquisition of units of road property and of additions and betterments to existing units of road property (other than land or tracks) is less than $1,500 such cost shall be charged to operating expenses. The carrier shall not parcel expenditures under a general plan for the purpose of bringing the accounting for such expenditures within this minimum rule. An amount of less than $1,500 may be adopted for purposes of this rule provided the carrier first notifies the Commission of the amount it proposes to adopt and thereafter makes no change in the amount unless authorized to do so by the Commission. An amount so adopted shall be adhered to in reporting property changes for valuation purposes.

2–3 *Land.* (a) Accounts are provided for the cost of land used in transportation operations and also for land used in other than transportation operations. When land is retired from transportation operations but is retained by the carrier the original cost (estimated, if not known) shall be transferred to the account prescribed for property used in other than transportation operations. It is not contemplated that irregular parcels of land acquired in connection with acquisition of right of way which have no value as commercial property shall be thus transferred, either for the purpose of making right of way boundaries run more or less regular or for the purpose of eliminating from transportation property account the cost of unoccupied lands between tracks in yards and terminals. When any land, the cost of which is included in the accounts, is sold or otherwise retired, the ledger value shall be credited to the appropriate property investment account. The profit or loss from sale or loss from retirement of land shall be included in the accounts prescribed for such amounts.

(b) When the carrier exchanges land for other land with no other consideration involved, the land received shall be recorded at the ledger value of the land relinquished. Where the carrier receives a monetary consideration in the exchange, the carrier shall recognize gain on the exchange to the extent that the consideration received exceeds a proportionate share of the recorded cost of the land surrendered. The portion of the cost applicable to the realized amount shall be based on the ratio of the monetary consideration to the total consideration received (monetary consideration plus the estimated fair value of the land received) or, if more clearly evident, the fair value of the land transferred. Where the carrier pays a monetary consideration in such exchange, it shall not recognize any gain on the transaction but shall record the land received at the amount of the monetary consideration paid plus the recorded costs of the land surrendered. If a loss is indicated by the terms of an exchange transaction described herein, the carrier shall recognize the entire indicated loss on the exchange. Immaterial gains and losses on these exchanges shall be included in accounts 519, "Miscellaneous income, or 551, "Miscellaneous income charges", as appropriate. Material amounts shall be

V 41 153 AUG 6 76 UMI

recorded in accordance with Instruction 1-2(d).

2-4 *Structures.* Accounts are provided for the cost of several classes of buildings and facilities, including fixtures permanently attached to and made a part thereof. When a building or other structure is used or held primarily for transportation operations and is an integral part of the carrier's transportation plant, but a part thereof is used or held for commercial purposes such as for rental to others or for use in other than transportation operations by the carrier, the entire cost of the building or other structure is includible in the accounts for transportation property. When a building or other structure is used or held primarily for commercial purposes or for use in other than transportation operations by the carrier, the entire cost of the building or structure is includible in account 768, "Property used in other than carrier operations". Reclassification of property from its primary classification as transportation or other than transportation property, as the case may be, to the other classification is not required where changes in use are of a temporary nature or for a short period of time. The accounting for costs of maintenance, taxes, other operating costs, and for revenues and rentals shall be consistent with the classification of the building or other structure.

2-5 *Equipment.* Accounts are provided for several classes of equipment, such as locomotives, passenger-train cars, freight-train cars, highway revenue equipment, work equipment, floating equipment, and the necessary appurtenances, furniture, and fixtures first to equip for service, including the cost of inspection, setting up, and trying out, and transportation over foreign lines; also the cost of additions and betterments, such as improved appliances, parts, or appurtenances. When retired equipment is held without being torn down, the estimated value of the salvage therefrom shall be included in account 781, "Other assets", until the salvage is recovered, except that the estimated scrap value of retired equipment held for sale in the ordinary course of business, and on which sale and realization of the proceeds within one year is assured, is includible in account 733, "Materials and supplies".

2-6 *Components of construction cost.* The cost of constructing property includible in the property accounts shall include the direct and other costs as described hereunder.

(a) *Cost of labor.* This includes the amount paid for labor expended by the carrier's own employees, including the cost of labor expended for preliminary work, such as sinking test holes or making soundings for tunnels, grading, buildings, and other structures; and cost of labor expended in laying and taking up tracks for temporary use in construction, except the cost of labor expended on tracks provided for the protection of traffic during the progress of addition and betterment work. Office expenses and traveling and other personal expenses of employees, when borne by the carrier, shall be considered a part of the cost of the labor, as shall also the cost of fidelity bonds and employers' liability insurance premiums. When officers or employees are especially assigned to construction work their pay and their traveling and incidental expenses while thus engaged shall be included in the cost of the work. No charge shall be made against road and equipment accounts for the pay of officers and employees who merely render services incidentally in connection with extension, additions, or betterments, although traveling and incidental expenses incurred by such officers and employees solely on account of such work shall be included in the account to which the cost of the work is chargeable.

(b) *Cost of materials and supplies.* This includes the purchase price of materials and supplies, including small tools, at the point of free delivery plus the cost of inspection and loading assumed by the carrier; also a suitable proportion of store expenses. In calculating the cost of materials used, proper allowance shall be made for the value of unused portions and of cuttings, turnings, borings, etc.; for the value of the material recovered from temporary tracks, scaffolding, cofferdams, and other temporary structures used in construction; and for the value of small tools recovered and used for other purposes.

(c) *Cost of work-train service.* This includes amounts paid to others for rent and maintenance of equipment used; cost of labor of enginemen, trainmen, and enginehousemen, including wages of engine crews and train crews held in readiness for such service; and cost of fuel and other supplies consumed in connection with the operation of work trains. It shall also include the cost of maintaining the carrier's own equipment used in construction service. Amount representing constructive rent or return upon the investment in owned equipment shall not be included as a part of the cost of work-train service.

(d) *Cost of special machine service.* This includes the cost of labor expended and of materials and supplies consumed in maintaining and operating power shovels, scrapers, rail unloaders, ballast unloaders, pile drivers, dredges, ditchers, weed burners, and other labor-saving machines; also rents paid for use of such machines.

(e) *Cost of transportation.* This includes the amounts paid to other companies or individuals for the transportation of men, materials and supplies, special machine outfits, appliances, and tools in connection with construction. Freight charges paid foreign lines for the transportation of construction material to the carrier's line shall be included, so far as practicable, as a part of the cost of the material.

(f) *Cost of contract work.* This includes amounts paid for work performed under contract by other companies, firms, or individuals, and costs incident to the award of the contract.

(g) *Cost of protection from casualties.* This includes expenditures for protection against fire, such as payments for discovery or extinguishment of fires, cost of detecting and prosecuting incendiaries, witness fees in relation thereto, amounts paid to municipal corporations and others for fire protection, and other analogous items of expenditure incurred directly in connection with construction work.

(h) *Cost of injuries and damages.* This includes expenditures on account of injuries to persons or damage to property when incurred directly as a result of construction projects, and shall be included in the cost of the work in connection with which the injury or damage occurs. It also includes that portion of premiums paid for insuring property applicable to the period prior to the completion or coming into service of the property insured. Insurance recovered on account of compensation paid for injuries to persons incident to construction shall be credited to the accounts to which such compensation is charged, and insurance recovered on account of damages to property incident to construction shall be credited to the accounts chargeable with the expenditures necessary for restoring the damaged property. The cost of injuries and damages incident to the removal of old structures, or parts thereof, shall be charged to operating expenses, except that such costs in connection with the removal of old structures which are incumberances on newly acquired lands shall be included in accounts, 2, "Land for transportation purposes", or 3, "Grading", as appropriate.

(i) *Cost of privileges.* This includes compensation for temporary privileges, such as the use of public property or streets, in connection with the construction of the property of the carrier.

(j) *Material excavated.* The cost of disposing of material excavated in connection with construction shall be considered as a part of the cost of work, except that when such material is used for filling, the cost of removal and dumping shall be equitably apportioned between the work in connection with which the removal occurs and the work in connection with which the material is used.

2-7 *Additions to and retirements of property—General.* (a) In accounting for additions to and retirements and replacements of road and equipment property (excluding land) used in transportation operations, such property changes shall be considered as consisting of (1) units of property and (2) other than units of property (minor items). A list of units of property to be used for this purpose is prescribed in instruction 2-19.

(b) The cost of removal of retired property, both depreciable and other than depreciable, when borne by the carrier, shall be charged, as appropriate, to account 021010, "Salaries and wages, other employees; Maintenance of Way and Structures", or account 021023, "Salaries and wages, other employees; maintenance of equipment—other equipment".

(c) An equitable proportion of a balance in primary accounts 1, "Engineering", 76, "Interest during construction", 77, "Other expenditures; general", and 80, "Other elements of investment", applicable to retired property, shall be cleared from those accounts concurrently with the retirement accounting.

(d) When retired property is held and not removed, the estimated value of the salvage therefrom shall be included in account 781, "Other assets", until the salvage is recovered, except that the estimated scrap value of retired property held for sale in the ordinary course of business, and on which sale and realization of the proceeds within one year is assured, is includible in account 733, "Materials and supplies."

2-8 *Additions to and retirements of units of property.* (a) When a unit of road or equipment property is added to the plant, the cost thereof shall be included in the appropriate primary account. When a unit of property is retired, with or without replacement, the cost thereof shall be written out of the property account at time of retirement.

(b) When a unit of road or equipment property (or a minor item not replaced) classified as depreciable and included in the accounts prescribed for depreciable property is retired the service value shall be charged to account 763, "Accumulated depreciation; Road and equipment property".

(c) When property (other than a minor item constituting repairs) classified as other than depreciable property is retired, the cost thereof shall be cleared from the property account and the service value shall be charged to account 160010, "Retirements; Maintenance of way and structures". When the retirement requires Commission approval, the carrier shall clear the cost from the property account upon the Commission's approval.

(d) When property included in the depreciable accounts but excluded from the depreciation base is retired, the service value (including engineering expenditures assignable to retired property but not included in the depreciation base) shall be charged to operating expense.

2-9 *Additions and retirements of other than units of property.* (a) When an item of road or equipment property, other than a complete unit, is added to the plant and the addition is not a replacement, the cost thereof shall be accounted for in the same manner as an addition of a complete unit of property, subject to the $1,500 minimum rule applicable to road property. When an item of property other than a complete unit (minor item) is replaced, independent of the complete unit of which it is a part, the cost of replacement shall be treated as maintenance and charged to operating expenses; except that, when the replacement effects a substantial betterment through the application of superior parts, the primary aim of which is to make the property affected more useful, more efficient, of greater durability, or of greater capacity, the excess cost of new parts over the current cost of new parts of the kind replaced shall be charged to the appropriate primary property account. The cost of removing the old appliances and applying the improved parts shall be charged to operating expenses.

(b) The term "current cost of new parts of the kind replaced" shall not be construed as requiring an estimate based on the current price of parts or material identical with the parts or material replaced when such parts or material are no longer obtainable at reasonable price or would not be used if replacement without betterment were undertaken. In such cases the current cost shall be based on the fair and reasonable cost of parts or material comparable to those being replaced.

(c) When second-hand property acquired is in such physical condition that it is necessary to rehabilitate the property to bring it up to the standard required by the carrier, the cost of such rehabitation shall be included in the appropriate account for the property.

2-10 *Expenses in connection with additions and betterments.* The cost of removing old material from equipment and from buildings, bridges, wharves, tracks, and other fixed improvements, shall be charged to the appropriate operating expense accounts. Such charges shall include the cost of removing old foundations and filling old excavations, and restoring condition of grounds after addition and betterment work; and maintaining of protecting traffic during the progress of addition and betterment work, including the cost of constructing, maintaining, and removing temporary tracks required for maintaining traffic during the progress of the work.

2-11 *Units of property rebuilt or converted.* (a) A unit of road property or equipment shall be treated as rebuilt or as converted in the circumstances described in the following paragraphs (b) and (c) of this instruction and such unit shall be accounted for as an addition and the old unit accounted for as retired from service.

(b) When the cost of renewals (see Definition 22) of a unit of road property or equipment, exclusive of the expense of dismantling, the value assigned old parts reused and the cost of repairs of old parts reused, exceeds fifty percent of the cost of a new unit of the same kind and class at the time of rebuilding.

(c) When a unit of road property or equipment is transferred from one class of service to another, with or without physical conversion, and becomes includible in a prescribed primary investment account other than in which the unit previously has been carried.

(d) The charge to the appropriate road and equipment account for rebuilt or converted units shall be the sum of (1) the cost (estimated if necessary) less a fair allowance for depreciation or the salvage value, whichever is lower, of the parts reused, and (2) the cost of labor expended in rebuilding or in the conversion process and the cost of additional material applied. In no case shall the total amount charged to the property accounts for such units exceed the estimated cost of units of the same kind and class with a fair allowance for depreciation.

2-12 *Changes in line of road.* When changes are made in a line of road for the purpose of reducing curves or grades, or to eliminate bridges, tunnels, tracks in the installation of a centralized traffic control system, or other physical features, the part of the line so changed shall be considered property retired and its ledger value credited to the property accounts. The new line of road, including land, grading, ballast, track elements, and other transportation facilities serving the road shall be considered an addition and the cost thereof to the carrier charged to the property accounts. The cost of such track changes which do not involve change in the existing roadbed shall be charged to operating expenses, even though the tracks may be dismantled in the process, but the resulting track extensions or reductions shall be accounted for as additions or retirements, as appropriate, and the betterment cost of improved parts applied shall be charged to property account.

2-13 *Relocation of yard tracks.* The cost of shifting or rearranging tracks within a yard shall be charged to operating expenses, even though the tracks may be dismantled in the process, but resulting increases or decreases in grading, ballast, or track length shall be accounted for as additions or retirements, as appropriate, and the betterment cost of improved parts applied shall be charged to the property accounts. Where tracks in whole or in part within a yard are determined to be no longer permanently used the ledger value of such tracks shall be eliminated from the property account. In case yard tracks and facilities are constructed in another location to take the place of tracks retired, such tracks and facilities shall be accounted for as additions and the cost thereof shall be included in the property account.

2-14 *Track connections.* (a) When the acounting carrier bears the construction cost of a connecting track situated on the property of another carrier, but acquires the salvage rights to the track, the cost of the track construction shall be charged to account 761, "Road and equipment property".

(b) When carriers (1) share the cost of constructing a connecting track of which a portion is situated on each carrier's right-of-way, and (2) own and obtain the salvage rights to the track segment located on their respective properties, the construction cost borne by each carrier shall be charged to account 761, "Road and equipment property".

(c) The cost of constructing a track connection on the right-of-way of another carrier which acquires the ownership of and salvage rights to the track, shall be charged by the carrier bearing such cost to account 091210, "Purchased services, joint facility-Debit; Maintenance of way and structures". The owner carrier shall charge the amount of the construction cost to account 761, "Road and equipment—property", with contra credit to account 091310, "Purchased services—joint facility—Credit; Maintenance of way and structures". Material amounts for such costs shall be referred to the Commission for consideration and decision.

V 41 1153 AUG 6 76 UMI

(d) The cost of constructing a side track under a deposit refund agreement shall be charged to account 761, "Road and equipment property". The deposit shall be credited to account 852, "Other liabilities". Deposit amounts refunded during the agreement period shall be charged to account 852, "Other liabilities". Upon termination of the agreement the amount of any unrefunded deposit shall be credited to the applicable primary property accounts on an equitable basis.

2–15 *Merger, consolidation, and purchase of a railway operating entity or system.* (a) When a railway or portion thereof constituting an operating unit or system is acquired by merger or consolidation in a pooling of interests or by purchase the cost of acquisition represented by cash, capital stock or other securities issued or assumed, liabilities assumed, and other consideration, shall be recorded in the accounts in the manner stated hereunder. Separate instructions are provided for a merger of subsidiaries.

(b) Pooling of interests:

(1) When the acquisition results from a merger or consolidation constituting a pooling of interests, in which all or substantially all of the equity interest in predecessor companies continue, as such, in a surviving company or a new company created for the purpose, the road and equipment, the other assets, and the liabilities of the predecessor companies, together with the balances in the accumulated amortization and depreciation accounts and the retained earnings accounts shall be recorded in the appropriate balance sheet accounts at the amounts shown in the accounts of predecessor companies, adjusted as may be necessary to conform with the accounting rules of the Commission. Such adjustments shall be included in retained earnings or the other accounts that would have been appropriate had the adjustments been made in the books of account of the predecessor company.

(2) When the total par or the stated value of no par capital stock issued or outstanding pursuant to the pooling of interests is more than the aggregate amount of the capital stock of the separate companies before such pooling of interests, the excess shall be charged to account 913, "Other capital," if unrestricted capital is available for such purpose; otherwise, the excess shall be charged to retained earnings.

(3) When the total par or stated value of no par capital stock issued or outstanding pursuant to the pooling of interests is less than the aggregate amount of the capital stock of the separate companies before such pooling of interests, the difference for reduction in capital stock shall be credited to account 913, "Other capital."

(c) Purchase:

(1) When the acquisition results from a purchase (except from subsidiaries controlled through ownership of the majority share of voting stock) including mergers or consolidations other than pooling of interests, the amount includible in account 761, "Road and equipment property", shall be the cost at the date of acquisition to the purchaser of the transportation property acquired. The cost assigned the property, as well as other assets acquired, shall be the amount of the cash consideration given. Where property and other assets are acquired for other than cash, including liabilities assumed and shares of stock issued, cost shall be determined by either the fair value of the consideration given or the fair value of the assets acquired, whichever is more clearly evident. In addition to any liabilities assumed, provision shall be made for such estimated liabilities as may be necessary.

(2) When the costs of individual units or classes of transportation property are not specified in the agreement, the cost assigned such property shall be apportioned among the appropriate primary accounts using the percentage relationship between the fair values for each class of property acquired and the total of such values.

(d) Merger of subsidiaries:

The acquisition and merger of property of subsidiaries controlled through ownership of the majority shares of voting stock is to be accounted for as a pooling of interests or as a purchase depending on the circumstances in each case. Where control was initially acquired through issuance of capital stock to stockholders of the subsidiary the rule applicable to pooling of interests ordinarily is applicable. Where control was initially acquired through purchase of stock the rule applicable to purchase of property may be appropriate even though the shares were purchased gradually from time to time over a period of years, in which event recognition of retained earnings since date of acquisition assignable to such shares may be proper. Journal entry pertaining to acquisition of property of subsidiaries shall be submitted to the Commission for consideration based on the principles herein and procedures for which there is authoritative support, and the accounting for the merger shall become final only after approval by the Commission.

2–16 *Reorganization of railway.* (a) When a railway reorganization or receivership has been consummated, the assets acquired, liabilities assumed, and the capital stock or other securities issued, or assumed and other consideration, shall be recorded in the accounts in the manner stated hereunder. An adjustment of capitalization resulting in modification and reformation of classes of securities pursuant to voluntary action of the holders of securities but not resulting in a formal reorganization following a bankruptcy or other receivership proceedings (sometimes called a quasi-reorganization) is not covered by this instruction 2–16. Reduction of capital stock and other contributions to capital by stockholders shall be recorded in accordance with the instructions in the text of account 913, "Other capital."

(b) The amounts includible in primary road and equipment property accounts shall be recorded at cost as shown in the predecessor companies' accounts except as otherwise provided in paragraphs (c) and (d) of this Instruction 2–16. The remaining assets and the liabilities of the predecessor companies, adjusted as necessary to conform with the accounting rules of the Commission, together with the balances in the accumulated amortization and depreciation accounts, shall be recorded in the appropriate balance sheet accounts.

(c) When the amount recorded for assets acquired is more than the par or stated value of no par capital stock issued and other consideration paid, including liabilities assumed, the difference shall be applied to such extent as necessary and is available to provide first for any deficiency in past accrued depreciation on property classified as depreciable; and, second, for any estimated loss from retirement of a branch line, segment of track or other important facility indicated by supporting records to be imminent. The remaining amount of the difference, if any, shall be applied proportionately to reduce the amounts includible in the property accounts in accordance with paragraph (b) of this Instruction 2–16, based on the percentage relationship between such difference and the aggregate cost of the property shown in the predecessor companies' accounts.

(d) When the amount applicable to the assets acquired is less than the par or stated value of no par capital stock issued and other consideration paid, including liabilities assumed, the accounting shall be referred to the Commission for consideration and decision.

2–17 *Construction projects in which governmental agencies, individuals, or others, and the carrier participate.* (a) The amount includible in the property account for construction projects in which the carrier and governmental agencies, individuals, or others participate shall be (1) the payment made by the carrier for its share of the cost of construction plus (2) the recorded cost (estimated if unknown) of property relinquished as a direct result of the arrangement and retired from service less the value of salvage recovered therefrom by the carrier and less depreciation accrued on depreciable property, which is part of the carrier's cost of the project. The amount so includible in the property account shall be distributed equitably among the primary accounts applicable to railway property constructed. This amount shall first be applied to railway facilities includible in accounts other than 4, "Other right-of-way expenditures", or 39, "Public improvements—Construction", then any remaining balance shall be included in account 4 or 39, as appropriate. In no case shall the amount included in the primary accounts for the railway facilities acquired exceed the actual cost of constructing such facilities. The property account shall not include any cost or value for facilities or land contributed or paid for by governmental agencies, individuals or others. Property acquired as a specific contribution to capital by stockholders does not come under this rule. (See text of account 913, "Other capital.")

(b) Construction projects as used in this section means widening of highways, construction of spillways, drainage canals, farm and other private passes, pipelines, drains or other facilities across the right-of-way; construction of overhead highway bridges, and railroad bridges over public highways and across streams, which provide a railroad use in the operation of trains and a public use in the uninterrupted passage of highway and river traffic; installation of warning signals to protect highway traffic; and industrial side tracks. Also, reconstruction and relocation of tracks and appurtenant facilities such as occur in connection with carrying out flood control, reclamation, and other public improvement projects where it becomes necessary to abandon part of the line of railroad and relocate the tracks.

2–18 *Leased property improvements and retirements.* The cost to lessee of structures, facilities, additions and betterments on leased property and for retirement of property the cost of which is included in account 765, "Improvements on leased property", shall be accounted for in conformity with the principles in the instructions for property owned. When property taken over in the lease is retired and replaced and lessee is not obligated to reimburse the lessor for the retired property other than through the replacement, the lessee shall credit the ledger value of the retired property to account 765, "Improvements on leased property", as an offset to the cost of the replacement borne by lessee and charged to that account. When lessee is obligated to reimburse the lessor currently or at the termiation of the lease for property retired other than through replacement, the lessee shall include the amount of the obligation in the appropriate liability account. The lessee shall furnish the lessor such information as is required to enable the lessor to perform necessary accounting. The accounting by the lessee and the lessor shall be consistent with contractual arrangements.

2–19 *List of units of property.* (a) This list of units is established for the purpose of designating the units of property to be used in accounting for additions to and retirements and replacements of property. Detailed information is included in instructions 2–7 and 2–8. Items listed under road property accounts are subject to the minimum rule applicable to additions to property. See instruction 2–2 pertaining to the minimum rule.

(b) This list of units will be revised from time to time as may be necessary to meet conditions. A carrier desiring to include in any account an appropriate unit not now specified therein may, upon approval of the Commission, make such authorized addition to this list of units.

(c) Rules applicable to units of property rebuilt or converted and to changes in line of road or tracks which involve accounting for units of property retired are set forth in instructions 2–11, 2–12, and 2–13.

Account 3, Grading

A retaining wall, riprap (hand placed), a protecting dyke, a protecting crib, a wing dam, a revetment, mattress, pipe or other structures to provide drainage. Each entire installation.

Account 5, Tunnels and Subways

The entire masonry, entire timber, and entire metal lining of a tunnel or subway, including portals and wing walls.

Drainage. Each entire installation.
Lighting. Each entire installation.
Ventilation. Each entire installation.

Account 6, Bridges, Trestles and Culverts

A steel superstructure.
A concrete or stone substructure.
A concrete trestle, a complete bridge or approach.
A timber trestle, a complete bridge or approach.
Complete machinery for operating a movable span.
A protecting dyke, a protecting crib (a fender), a wing dam, a complete culverts.
Each entire installation.

Account 7, Elevated Structures

Any applicable units listed under account 6, "Bridges, trestles and culverts".

Account 13, Fences, Snowsheds, and Signs

A complete snowshed.
One continuous mile of right-of-way fence.
One continuous mile of permanent sand or snow fence.

Account 15, General Office Buildings

A complete building, including attached platform.
A complete platform structurally detached from a building.
Each retaining wall installation.
Each steam, water, air, etc., pipe line installation.
Each storm or sanitary sewer installation.
A complete fence.
Paving. Each complete installation.
Any applicable units listed under other accounts.

Account 16, Station Buildings

A complete building, including attached platform.
A complete platform structurally detached from a building.
Each retaining wall installation.
Each timber trestle installation.
Each coal pocket installation.
Each outside steam, water, air etc., pipe line installation.
Each storm or sanitary sewer installation.
A complete fence.
Paving. Each complete installation.
A station stockyard. Each complete installation.
A track scale.
A track scale pit.
An outside crane or conveying system for handling freight.
A motor truck.
A motor tractor.
Any applicable units listed under other accounts.

Account 17, Roadway Buildings

Any applicable units listed under account 16, "Station buildings", and 59, "Shop equipment".

Account 18, Water Stations

A complete water supply piping system.
A dam or reservoir.
A pump house.
Pumping machinery. Each complete installation.
A water tank. Each complete installation.
A complete track trough at one location.
A water crane. Complete with pit.
A water treating plant.

Account 19, Fuel Stations

A trestle-type coaling station.
Mechanical coaling station. Each complete installation.
A complete fuel supply system, including appurtenances.
A pump house.
A fuel oil storage tank (large).

Account 20, Car Shops

A complete building, including attached platform.
A complete platform structurally detached from a building.
A transfer table with machinery.
A transfer table pit.
Outdoor bins. Each complete installation.
A smoke stack not mounted on boiler.
A lorry track system (outside).
An overhead crane, outside.
